EXPLANATORY NOTE

This report combines the quarterly reports on Form 10-Q for the period ended June 30, 2017 of Boston Properties, Inc. and Boston Properties Limited Partnership. Unless stated otherwise or the context otherwise requires, references to “BXP” mean Boston Properties, Inc., a Delaware corporation and real estate investment trust (“REIT”), and references to “BPLP” and the “Operating Partnership” mean Boston Properties Limited Partnership, a Delaware limited partnership. Unless stated otherwise or the context requires, references to the “Company,” “we,” “us” and “our” mean collectively BXP, BPLP and those entities/subsidiaries consolidated by BXP.

BPLP is the entity through which BXP conducts substantially all of its business and owns, either directly or through subsidiaries, substantially all of its assets. BXP is the sole general partner and also a limited partner of BPLP. As the sole general partner of BPLP, BXP has exclusive control of BPLP’s day-to-day management.

As of June 30, 2017, BXP owned an approximate 89.7% ownership interest in BPLP. The remaining approximate 10.3% interest is owned by limited partners. The other limited partners of BPLP are (1) persons who contributed their direct or indirect interests in properties to BPLP in exchange for common units or preferred units of limited partnership interest in BPLP or (2) recipients of long term incentive plan units of BPLP pursuant to BXP’s Stock Option and Incentive Plans. Under the limited partnership agreement of BPLP, unitholders may present their common units of BPLP for redemption at any time (subject to restrictions agreed upon at the time of issuance of the units that may restrict such right for a period of time, generally one year from issuance). Upon presentation of a common unit for redemption, BPLP must redeem the unit for cash equal to the then value of a share of BXP’s common stock. In lieu of cash redemption by BPLP, however, BXP may elect to acquire any common units so tendered by issuing shares of BXP common stock in exchange for the common units. If BXP so elects, its common stock will be exchanged for common units on a one-for-one basis. This one-for-one exchange ratio is subject to specified adjustments to prevent dilution. BXP generally expects that it will elect to issue its common stock in connection with each such presentation for redemption rather than having BPLP pay cash. With each such exchange or redemption, BXP’s percentage ownership in BPLP will increase. In addition, whenever BXP issues shares of its common stock other than to acquire common units of BPLP, BXP must contribute any net proceeds it receives to BPLP and BPLP must issue to BXP an equivalent number of common units of BPLP. This structure is commonly referred to as an umbrella partnership REIT, or UPREIT.

The Company believes that combining the quarterly reports on Form 10-Q of BXP and BPLP into this single report provides the following benefits:

- enhances investors’ understanding of BXP and BPLP by enabling investors to view the business as a whole in the same manner as management views and operates the business;
- eliminates duplicative disclosure and provides a more concise and readable presentation because a substantial portion of the disclosure applies to both BXP and BPLP; and
- creates time and cost efficiencies through the preparation of one combined report instead of two separate reports.

The Company believes it is important to understand the few differences between BXP and BPLP in the context of how BXP and BPLP operate as a consolidated company. The financial results of BPLP are consolidated into the financial statements of BXP. BXP does not have any other significant assets, liabilities or operations, other than its investment in BPLP, nor does it have employees of its own. BPLP, not BXP, generally executes all significant business relationships other than transactions involving the securities of BXP. BPLP holds substantially all of the assets of BXP, including ownership interests in joint ventures. BPLP conducts the operations of the business and is structured as a partnership with no publicly traded equity. Except for the net proceeds from equity offerings by BXP, which are contributed to the capital of BPLP in exchange for common or preferred units of partnership in BPLP, as applicable, BPLP generates all remaining capital required by the Company’s business. These sources include working capital, net cash provided by operating activities, borrowings under its credit facilities, the issuance of secured and unsecured debt and equity securities and proceeds received from the disposition of certain properties and joint ventures.

Shareholders’ equity, partners’ capital and noncontrolling interests are the main areas of difference between the consolidated financial statements of BXP and BPLP. The limited partners of BPLP are accounted for as partners’ capital in BPLP’s financial statements and as noncontrolling interests in BXP’s financial statements. The noncontrolling interests in BPLP’s financial statements include the interests of unaffiliated partners in various consolidated

partnerships. The noncontrolling interests in BXP's financial statements include the same noncontrolling interests at BPLP's level and limited partners of BPLP. The differences between shareholders' equity and partners' capital result from differences in the equity issued at BXP and BPLP levels.

Table of Contents

In addition, the consolidated financial statements of BXP and BPLP differ in total real estate assets resulting from previously applied acquisition accounting by BXP for the issuance of common stock in connection with non-sponsor redemptions of common units of BPLP. This accounting resulted in a step-up of the real estate assets at BXP. This resulted in a difference between the net real estate of BXP as compared to BPLP of approximately \$322.7 million, or 2.0% at June 30, 2017 and a corresponding difference in depreciation expense and gains on sales of real estate upon the sale of certain properties having an allocation of the real estate step-up. The acquisition accounting was nullified on a prospective basis beginning in 2009 as a result of the Company's adoption of a new accounting standard requiring any future redemptions to be accounted for solely as an equity transaction.

To help investors better understand the key differences between BXP and BPLP, certain information for BXP and BPLP in this report has been separated, as set forth below:

Item 1. Financial Statements (unaudited), which includes the following specific disclosures for BXP and BPLP:

- Note 3. Real Estate;
- Note 6. Derivative Instruments and Hedging Activities;
- Note 8. Noncontrolling Interests;
- Note 9. Stockholders' Equity / Partners' Capital; and
- Note 10. Earnings Per Share / Common Unit;

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations includes information specific to each entity, where applicable; and

Item 2. Liquidity and Capital Resources includes separate reconciliations of amounts to each entity's financial statements, where applicable.

This report also includes separate Part I - Item 4. Controls and Procedures and Part II - Item 2. Unregistered Sales of Equity Securities and Use of Proceeds sections for each of BXP and BPLP, as well as separate Exhibits 12, 31 and 32 calculation of ratios of earnings to fixed charges and certifications for each of BXP and BPLP.

BOSTON PROPERTIES, INC. AND BOSTON PROPERTIES LIMITED PARTNERSHIP
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

1. Organization

Boston Properties, Inc., a Delaware corporation, is a fully integrated, self-administered and self-managed real estate investment trust (“REIT”). Boston Properties, Inc. is the sole general partner of Boston Properties Limited Partnership, its operating partnership, and at June 30, 2017 owned an approximate 89.7% (89.5% at December 31, 2016) general and limited partnership interest in Boston Properties Limited Partnership. Unless stated otherwise or the context requires, the “Company” refers to Boston Properties, Inc. and its subsidiaries, including Boston Properties Limited Partnership, and its consolidated subsidiaries. Partnership interests in Boston Properties Limited Partnership include: common units of partnership interest (also referred to as “OP Units”),

long term incentive units of partnership interest (also referred to as “LTIP Units”), and

preferred units of partnership interest (also referred to as “Preferred Units”).

Unless specifically noted otherwise, all references to OP Units exclude units held by Boston Properties, Inc. A holder of an OP Unit may present such OP Unit to Boston Properties Limited Partnership for redemption at any time (subject to restrictions agreed upon at the time of issuance of OP Units to particular holders that may restrict such redemption right for a period of time, generally one year from issuance). Upon presentation of an OP Unit for redemption, Boston Properties Limited Partnership is obligated to redeem such OP Unit for cash equal to the value of a share of common stock of Boston Properties, Inc. (“Common Stock”) at such time. In lieu of a cash redemption, Boston Properties, Inc. may elect to acquire such OP Unit for one share of Common Stock. Because the number of shares of Common Stock outstanding at all times equals the number of OP Units that Boston Properties, Inc. owns, one share of Common Stock is generally the economic equivalent of one OP Unit, and the quarterly distribution that may be paid to the holder of an OP Unit equals the quarterly dividend that may be paid to the holder of a share of Common Stock.

The Company uses LTIP Units as a form of equity-based award for annual long-term incentive equity compensation. The Company has also issued LTIP Units to employees in the form of (1) 2012 outperformance plan awards (“2012 OPP Units”) and (2) 2013, 2014, 2015, 2016 and 2017 multi-year, long-term incentive program awards (also referred to as “MYLTIP Units”), each of which, upon the satisfaction of certain performance and vesting conditions, is convertible into one OP Unit. The three-year measurement periods for the 2012 OPP Units, 2013 MYLTIP Units and 2014 MYLTIP Units expired on February 6, 2015, February 4, 2016 and February 3, 2017, respectively, and Boston Properties, Inc.’s total stockholder return (“TSR”) was sufficient for employees to earn and therefore become eligible to vest in a portion of the awards. Unless and until they are earned, the rights, preferences and privileges of the 2015, 2016 and 2017 MYLTIP Units differ from other LTIP Units granted to employees (including the 2012 OPP Units, the 2013 MYLTIP Units and the 2014 MYLTIP Units, which have been earned). Therefore, unless specifically noted otherwise, all references to LTIP Units exclude the 2015, 2016 and 2017 MYLTIP Units. LTIP Units (including the 2012 OPP Units, the 2013 MYLTIP Units and the 2014 MYLTIP Units), whether vested or not, will receive the same quarterly per unit distributions as OP Units, which equal per share dividends on Common Stock (See Notes 8, 9 and 11).

At June 30, 2017, there was one series of Preferred Units outstanding (i.e., Series B Preferred Units). The Series B Preferred Units were issued to Boston Properties, Inc. on March 27, 2013 in connection with the issuance of 80,000 shares (8,000,000 depositary shares each representing 1/100th of a share) of 5.25% Series B Cumulative Redeemable Preferred Stock (the “Series B Preferred Stock”). Boston Properties, Inc. contributed the net proceeds from the offering to Boston Properties Limited Partnership in exchange for 80,000 Series B Preferred Units having terms and preferences generally mirroring those of the Series B Preferred Stock (See Note 9).

Properties

At June 30, 2017, the Company owned or had interests in a portfolio of 175 commercial real estate properties (the “Properties”) aggregating approximately 48.4 million net rentable square feet of primarily Class A office properties, including nine properties under construction/redevelopment totaling approximately 4.7 million net rentable square feet. At June 30, 2017, the Properties consisted of:

• 64 Office properties (including six properties under construction/redevelopment);

one hotel;
five retail properties; and
five residential properties (including three properties under construction).

Table of Contents

The Company considers Class A office properties to be centrally located buildings that are professionally managed and maintained, attract high-quality tenants and command upper-tier rental rates, and that are modern structures or have been modernized to compete with newer buildings.

2. Basis of Presentation and Summary of Significant Accounting Policies

Boston Properties, Inc. does not have any other significant assets, liabilities or operations, other than its investment in Boston Properties Limited Partnership, nor does it have employees of its own. Boston Properties Limited Partnership, not Boston Properties, Inc., generally executes all significant business relationships other than transactions involving securities of Boston Properties, Inc. All majority-owned subsidiaries and joint ventures over which the Company has financial and operating control and variable interest entities (“VIEs”) in which the Company has determined it is the primary beneficiary are included in the consolidated financial statements. All significant intercompany balances and transactions have been eliminated in consolidation. The Company accounts for all other unconsolidated joint ventures using the equity method of accounting. Accordingly, the Company’s share of the earnings of these joint ventures and companies is included in consolidated net income.

The accompanying interim financial statements are unaudited; however, the financial statements have been prepared in accordance with generally accepted accounting principles (“GAAP”) for interim financial information and in conjunction with the rules and regulations of the Securities and Exchange Commission. Accordingly, they do not include all of the disclosures required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting solely of normal recurring matters) necessary for a fair statement of the financial statements for these interim periods have been included. The results of operations for the interim periods are not necessarily indicative of the results to be obtained for other interim periods or for the full fiscal year. The year-end consolidated balance sheet data was derived from audited financial statements, but does not include all disclosure required by GAAP. These financial statements should be read in conjunction with the Company’s financial statements and notes thereto contained in the Company’s Annual Report in the Company’s Form 10-K for its fiscal year ended December 31, 2016.

Fair Value of Financial Instruments

The Company determines the fair value of its unsecured senior notes using market prices. The inputs used in determining the fair value of the Company’s unsecured senior notes are categorized at a level 1 basis (as defined in the accounting standards for Fair Value Measurements and Disclosures) due to the fact that the Company uses quoted market rates to value these instruments. However, the inputs used in determining the fair value could be categorized at a level 2 basis (as defined in the accounting standards for Fair Value Measurements and Disclosures) if trading volumes are low. The Company determines the fair value of its mortgage notes payable using discounted cash flow analysis by discounting the spread between the future contractual interest payments and hypothetical future interest payments on mortgage debt based on current market rates for similar securities. In determining the current market rates, the Company adds its estimates of market spreads to the quoted yields on federal government treasury securities with similar maturity dates to its debt. The inputs used in determining the fair value of the Company’s mortgage notes payable and mezzanine notes payable are categorized at a level 3 basis (as defined in the accounting standards for Fair Value Measurements and Disclosures) due to the fact that the Company considers the rates used in the valuation techniques to be unobservable inputs. To the extent that there are outstanding borrowings under the unsecured line of credit, the Company utilizes a discounted cash flow methodology in order to estimate the fair value. To the extent that credit spreads have changed since the origination, the net present value of the difference between future contractual interest payments and future interest payments based on the Company’s estimate of a current market rate would represent the difference between the book value and the fair value. The Company’s estimate of a current market rate is based upon the rate, considering current market conditions and the Company’s specific credit profile, at which it estimates it could obtain similar borrowings. To the extent there are outstanding borrowings, this current market rate is internally estimated and therefore would be primarily based upon a level 3 input.

Because the Company’s valuations of its financial instruments are based on these types of estimates, the actual fair values of its financial instruments may differ materially if the Company’s estimates do not prove to be accurate, and the Company’s estimated fair values for these instruments as of the end of the applicable reporting period are not necessarily indicative of estimated or actual fair values in future reporting periods. The following table presents the

Edgar Filing: BOSTON PROPERTIES INC - Form 10-Q

aggregate carrying value of the Company's mortgage notes payable, net, mezzanine notes payable and unsecured senior notes, net and the Company's corresponding estimate of fair value as of June 30, 2017 and December 31, 2016 (in thousands):

	June 30, 2017		December 31, 2016	
	Carrying Amount	Estimated Fair Value	Carrying Amount	Estimated Fair Value
Mortgage notes payable, net	\$2,986,283	\$3,056,829	\$2,063,087	\$2,092,237
Mezzanine notes payable	—	—	307,093	308,344
Unsecured senior notes, net	7,250,356	7,516,131	7,245,953	7,428,077
Total	\$10,236,639	\$10,572,960	\$9,616,133	\$9,828,658

The Company uses interest rate swap agreements to manage its interest rate risk. The valuation of these instruments is determined using widely accepted valuation techniques, including discounted cash flow analysis on the expected cash flows of each derivative. This analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs, including interest rate curves. To comply with the provisions of Accounting Standards Codification ("ASC") 820, the Company incorporates credit valuation adjustments to appropriately reflect both its own nonperformance risk and the respective counterparty's nonperformance risk in the fair value measurements. Although the Company has determined that the majority of the inputs used to value its derivatives fall within Level 2 of the fair value hierarchy, the credit valuation adjustments associated with its derivatives utilize Level 3 inputs, such as estimates of current credit spreads to evaluate the likelihood of default by the Company and its counterparties. The Company has assessed the significance of the impact of the credit valuation adjustments on the overall valuation of its derivative positions and has determined that the credit valuation adjustments are not significant to the overall valuation of its derivatives. As a result, the Company has determined that its derivative valuations in their entirety are classified in Level 2 of the fair value hierarchy.

Variable Interest Entities (VIEs)

Consolidated VIEs are those where the Company is considered to be the primary beneficiary of a VIE. The primary beneficiary is the entity that has a controlling financial interest in the VIE, which is defined by the entity having both of the following characteristics: (1) the power to direct the activities that, when taken together, most significantly impact the VIE's performance and (2) the obligation to absorb losses or the right to receive the returns from the VIE that could potentially be significant to the VIE. The Company has determined that it is the primary beneficiary for seven of the eight entities that are VIEs.

Consolidated Variable Interest Entities

As of June 30, 2017, Boston Properties, Inc. has identified seven consolidated VIEs, including Boston Properties Limited Partnership. The VIEs own (1) the following five in-service properties: 767 Fifth Avenue (the General Motors Building), Times Square Tower, 601 Lexington Avenue, Atlantic Wharf Office Building and 100 Federal Street and (2) the entity that owns Salesforce Tower, which is currently under development.

The Company consolidates these VIEs because it is the primary beneficiary. The third parties' interests in these consolidated entities, with the exception of Boston Properties Limited Partnership, are reflected as noncontrolling interest in property partnerships in the accompanying Consolidated Financial Statements (See Note 8).

In addition, Boston Properties, Inc.'s significant asset is its investment in Boston Properties Limited Partnership and, consequently, substantially all of Boston Properties, Inc.'s assets and liabilities are the assets and liabilities of Boston Properties Limited Partnership. All of Boston Properties, Inc.'s debt is an obligation of Boston Properties Limited Partnership.

Variable Interest Entities Not Consolidated

The Company has determined that its BNY Tower Holdings LLC joint venture, which owns Dock 72 at the Brooklyn Navy Yard, is a VIE. The Company does not consolidate this entity because the Company does not have the power to direct the activities that, when taken together, most significantly impact the VIE's performance and, therefore, the Company is not considered to be the primary beneficiary.

Recent Accounting Pronouncements

In May 2014, the Financial Standards Accounting Board (“FASB”) issued ASU 2014-09, “Revenue from Contracts with Customers (Topic 606)” (“ASU 2014-09”). The objective of ASU 2014-09 is to establish a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and will supersede most of the existing revenue recognition guidance, including industry-specific guidance. The core principle is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In applying ASU 2014-09, companies will perform a five-step

Table of Contents

analysis of transactions to determine when and how revenue is recognized. ASU 2014-09 applies to all contracts with customers except those that are within the scope of other topics in the FASB's ASC. In August 2015, the FASB issued ASU 2015-14, "Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date" ("ASU 2015-14"), which delayed the effective date of ASU 2014-09 by one year making it effective for the first interim period within annual reporting periods beginning after December 15, 2017. Early adoption is permitted as of the original effective date. In May 2016, the FASB issued ASU No. 2016-12, "Revenue from Contracts with Customers (Topic 606): Narrow-Scope Improvements and Practical Expedients" ("ASU 2016-12"). ASU 2016-12 is intended to clarify and provide practical expedients for certain aspects of ASU 2014-09, which outlines a single comprehensive model for entities to use in accounting for revenues arising from contracts with customers and notes that lease contracts with customers are a scope exception. The Company may elect to adopt ASU 2016-12 as of the original effective date; however, adoption is required for annual reporting periods beginning after December 15, 2017. The Company will adopt ASU 2014-09 effective January 1, 2018 using the modified retrospective approach. The Company's project team has completed the compilation of the inventory of the sources of revenue that will be impacted by the adoption of ASU 2014-09. The Company expects that executory costs and certain non-lease components of revenue from leases (upon the adoption of ASU 2016-02), tenant service revenue, development and management services revenue, parking revenue and gains on sales of real estate may be impacted by the adoption of ASU 2014-09, although the Company anticipates that the impact will be to the pattern of revenue recognition and not the total revenue recognized over time. The Company is making progress in evaluating the significance of the impact on the changes in the recognition pattern of its revenue and is still completing its assessment of the overall impact of adopting ASU 2014-09. In February 2016, the FASB issued ASU 2016-02, "Leases (Topic 842)" ("ASU 2016-02"), which sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract (i.e., lessees and lessors). ASU 2016-02 requires lessees to apply a dual approach, classifying leases as either finance or operating leases based on the principle of whether or not the lease is effectively a financed purchase of the leased asset by the lessee. This classification will determine whether the lease expense is recognized based on an effective interest method or on a straight-line basis over the term of the lease. A lessee is also required to record a right-of-use asset and a lease liability for all leases with a term of greater than 12 months regardless of their classification. Leases with a term of 12 months or less will be accounted for similar to existing guidance for operating leases today. The new standard requires lessors to account for leases using an approach that is substantially equivalent to existing guidance for sales-type leases, direct financing leases and operating leases. ASU 2016-02 supersedes previous leasing standards. ASU 2016-02 is effective for the Company for reporting periods beginning after December 15, 2018, with early adoption permitted. The Company has commenced the process of adopting ASU 2016-02 by forming a project team and beginning to compile an inventory of its leases that will be impacted by the adoption of ASU 2016-02. The Company is still assessing the impact of adopting ASU 2016-02. However, the Company expects that its operating leases where it is the lessor will be accounted for on its balance sheet similar to its current accounting with the underlying leased asset recognized as real estate. The Company expects that executory costs and certain other non-lease components will need to be accounted for separately from the lease component of the lease with the lease component continuing to be recognized on a straight-line basis over the lease term and the executory costs and certain other non-lease components being accounted for under the new revenue recognition guidance in ASU 2014-09. For leases in which the Company is the lessee, primarily consisting of ground leases, the Company expects to recognize a right-of-use asset and a lease liability equal to the present value of the minimum lease payments with rental payments being applied to the lease liability and to interest expense and the right-of-use asset being amortized to expense on a straight-line basis over the term of the lease. In addition, under ASU 2016-02, lessors may only capitalize incremental direct leasing costs. As a result, the Company expects that it will no longer be able to capitalize its internal leasing wages and instead will expense these costs as incurred. In March 2016, the FASB issued ASU 2016-09, "Compensation - Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting" ("ASU 2016-09"). ASU 2016-09 is intended to improve the accounting for share-based payments and affects all organizations that issue share-based payment awards to their employees. Several aspects of the accounting for share-based payment awards are simplified with ASU 2016-09, including income tax consequences, classification of awards as equity or liabilities and classification on the statement of cash

flows. ASU 2016-09 is effective for the Company for reporting periods beginning after December 15, 2016, with early adoption permitted. On January 1, 2017, the Company adopted ASU 2016-09 and elected to make an accounting policy change to its method of accounting for forfeitures on its awards of stock-based compensation including the issuance of shares of restricted common stock, LTIP Units and MYLTIP Units. The Company now accounts for forfeitures as they occur instead of estimating the number of forfeitures upon the issuance of such awards of stock-based compensation. The adoption resulted in the Company recognizing cumulative effect of a change in accounting principle adjustments to its consolidated balance sheets totaling approximately \$0.3 million to Dividends in Excess of Earnings and Partners' Capital for Boston Properties, Inc. and Boston Properties Limited Partnership, respectively, and approximately \$1.8 million to noncontrolling interests - common units of Boston Properties Limited Partnership and noncontrolling interests - redeemable partnership units for Boston Properties, Inc. and Boston Properties Limited Partnership, respectively.

In January 2017, the FASB issued ASU 2017-01, “Business Combinations (Topic 805): Clarifying the Definition of a Business” (“ASU 2017-01”). ASU 2017-01 clarifies the framework for determining whether an integrated set of assets and activities meets the definition of a business. The revised framework establishes a screen for determining whether an integrated set of assets and activities is a business and narrows the definition of a business, which is expected to result in fewer transactions being accounted for as business combinations. Acquisitions of integrated sets of assets and activities that do not meet the definition of a business are accounted for as asset acquisitions. This update is effective for fiscal years, and for interim periods within those fiscal years, beginning after December 15, 2017, with early adoption permitted for transactions that have not been reported in previously issued (or available to be issued) financial statements and shall be applied on a prospective basis. The Company early adopted ASU 2017-01 during the first quarter of 2017. The Company expects that acquisitions of real estate or in-substance real estate will not meet the revised definition of a business because substantially all of the fair value is concentrated in a single identifiable asset or group of similar identifiable assets (i.e. land, buildings, and related intangible assets) or because the acquisition does not include a substantive process in the form of an acquired workforce or an acquired contract that cannot be replaced without significant cost, effort or delay.

In February 2017, the FASB issued ASU No. 2017-05, “Other Income - Gains and Losses from the Derecognition of Nonfinancial Assets (Subtopic 610-20): Clarifying the Scope of Asset Derecognition Guidance and Accounting for Partial Sales of Nonfinancial Assets” (“ASU 2017-05”). ASU 2017-05 updates the definition of an “in substance nonfinancial asset” and clarifies the derecognition guidance for nonfinancial assets to conform with the new revenue recognition standard. The effective date and transition methods of ASU 2017-05 are aligned with ASU 2014-09 described above and are effective for the first interim period within annual reporting periods beginning after December 15, 2017. The Company is currently assessing the potential impact that the adoption of ASU 2017-05 will have on its consolidated financial statements.

In May 2017, the FASB issued ASU 2017-09, “Compensation - Stock Compensation (Topic 718): Scope of Modification Accounting” (“ASU 2017-09”). ASU 2017-09 is intended to provide clarity and reduce (1) diversity in practice, (2) cost and (3) complexity when applying the guidance in Topic 718 to a change to the terms or conditions of a share-based payment award. ASU 2017-09 is effective for public entities for fiscal years and interim periods beginning after December 15, 2017. The Company is currently assessing the potential impact that the adoption of ASU 2017-09 will have on its consolidated financial statements.

Development

On April 6, 2017, the Company commenced the development of 145 Broadway, a build-to-suit Class A office project with approximately 485,000 net rentable square feet located in Cambridge, Massachusetts.

On May 27, 2017, the Company completed and fully placed in-service Reservoir Place North, a Class A office redevelopment project with approximately 73,000 net rentable square feet located in Waltham, Massachusetts.

Ground Lease

On June 29, 2017, the Company executed a 99-year ground lease (including extension options), with the right to purchase prior to 10 years after stabilization of the development project as defined in the lease, land adjacent to the MacArthur BART station located in Oakland, California. The Company has commenced development of a 402-unit residential building and supporting retail space on the site. The Company's option to purchase the land, is considered a bargain purchase option and as a result, the Company has concluded that the lease should be accounted for as a capital lease. At the inception of the ground lease, the Company recorded an approximately \$29.0 million capital lease asset and liability, which is reflected within Construction in Progress and Other Liabilities on the Company's Consolidated Balance Sheets. Capital lease assets and liabilities are accounted for at the lower of fair market value or the present value of future minimum lease payments. This capital lease is for land only, therefore, the Company will not be depreciating the capital lease asset, because land is assumed to have an indefinite life.

As of June 29, 2017, future minimum lease payments related to this capital lease are as follows (in thousands):

Period from June 29, 2017 through December 31, 2017	\$5
2018	10
2019	10
2020	10
2021	13
Thereafter	38,778
Total expected minimum obligations	38,826
Interest portion	(9,864)
Present value of net expected minimum payments	\$28,962

Acquisitions

On May 15, 2017, the Company acquired 103 Carnegie Center located in Princeton, New Jersey for a purchase price of approximately \$15.8 million in cash. 103 Carnegie Center is an approximately 96,000 net rentable square foot Class A office property. The following table summarizes the allocation of the aggregate purchase price, including transaction costs, of 103 Carnegie Center at the date of acquisition (in thousands).

103 Carnegie Center contributed approximately \$0.4 million of revenue and approximately \$0.2 million of earnings to the Company for the period from May 15, 2017 through June 30, 2017.

Dispositions

On April 19, 2017, the Company completed the sale of an approximately 9.5-acre parcel of land at 30 Shattuck Road located in Andover, Massachusetts for a gross sale price of \$5.0 million. Net cash proceeds totaled approximately \$5.0 million, resulting in a gain on sale of real estate totaling approximately \$3.7 million.

On June 13, 2017, the Company completed the sale of 40 Shattuck Road located in Andover, Massachusetts for a gross sale price of \$12.0 million. Net cash proceeds totaled approximately \$11.9 million, resulting in a gain on sale of real estate totaling approximately \$28,000 for Boston Properties, Inc. and approximately \$0.6 million for Boston Properties Limited Partnership. 40 Shattuck Road is an approximately 122,000 net rentable square foot Class A office property. 40 Shattuck Road contributed approximately \$19,000 and \$(28,000) of net income (loss) to the Company for the period from April 1, 2017 through June 13, 2017 and the period from January 1, 2017 through June 13, 2017, respectively, and contributed approximately \$(93,000) and \$15,000 of net income (loss) to the Company for the three and six months ended June 30, 2016, respectively.

Investments with deficit balances aggregating approximately \$20.6 million and \$22.1 million at June 30, 2017 and (1) December 31, 2016, respectively, have been reflected within Other Liabilities in the Company's Consolidated Balance Sheets.

(2) The Company's economic ownership has increased based on the achievement of certain return thresholds.

(3) The Company's wholly-owned entity that owns the office component of the project also owns a 33.3% interest in the entity owning the land, parking garage and infrastructure of the project.

(4) The joint venture owns four in-service buildings and two undeveloped land parcels.

Under the joint venture agreement for this land parcel, the partner will be entitled to up to two additional payments (5) from the venture based on increases in total entitled square footage of the project above 520,000 square feet and achieving certain project returns at stabilization.

(6) The entity is a VIE (See Note 2).

Certain of the Company's unconsolidated joint venture agreements include provisions whereby, at certain specified times, each partner has the right to initiate a purchase or sale of its interest in the joint ventures. With limited exception, under these provisions, the Company is not compelled to purchase the interest of its outside joint venture partners. Under certain of the Company's joint venture agreements, if certain return thresholds are achieved, the partners will be entitled to an additional promoted interest or payments.

This amount represents the aggregate difference between the Company's historical cost basis and the basis reflected at the joint venture level, which is typically amortized over the life of the related assets and liabilities. Basis differentials result from impairments of investments, acquisitions through joint ventures with no change in control and upon the transfer of assets that were previously owned by the Company into a joint venture. In addition, certain (1) acquisition, transaction and other costs may not be reflected in the net assets at the joint venture level. At June 30, 2017 and December 31, 2016, there was an aggregate basis differential of approximately \$325.9 million and \$328.8 million, respectively, between the carrying value of the Company's investment in the joint venture that owns Colorado Center and the joint venture's basis in the assets and liabilities, which differential (excluding land) shall be amortized over the remaining lives of the related assets and liabilities.

Investments with deficit balances aggregating approximately \$20.6 million and \$22.1 million at June 30, 2017 and (2) December 31, 2016, respectively, have been reflected within Other Liabilities in the Company's Consolidated Balance Sheets.

The combined summarized statements of operations of the Company's unconsolidated joint ventures are as follows:

5. Debt

Mortgage Notes Payable, Net, Mezzanine Notes Payable and Outside Members' Notes Payable

On June 7, 2017, the Company's consolidated entity in which it has a 60% ownership interest and that owns 767 Fifth Avenue (the General Motors Building) located in New York City completed the refinancing of the indebtedness that had been secured by direct and indirect interests in the property. The new mortgage financing has a principal amount of \$2.3 billion, bears interest at a fixed interest rate of 3.43% per annum and matures on June 9, 2027. The loan requires monthly interest-only payments during the 10-year term of the loan, with the entire principal amount being due at maturity.

The refinanced indebtedness consisted of (1) mortgage loans payable collateralized by the property aggregating \$1.3 billion, (2) mezzanine loans payable aggregating \$306.0 million, (3) additional mezzanine loans payable aggregating \$294.0 million and (4) member loans aggregating \$450.0 million with outstanding accrued interest payable totaling approximately \$425.0 million. The mortgage loans required monthly interest-only payments at a weighted-average fixed interest rate of 5.95% per annum and were scheduled to mature on October 7, 2017. The mezzanine loans required interest-only payments at a weighted-average fixed interest rate of 6.02% per annum and were scheduled to mature on October 7, 2017. In addition, a subsidiary of the consolidated entity had acquired a lender's interest in certain other mezzanine loans assumed during the acquisition of the property having an aggregate principal amount of \$294.0 million and a stated interest rate of 6.02% per annum for a purchase price of approximately \$263.1 million in cash. These mezzanine loans payable had been eliminated in consolidation and were canceled upon the refinancing of the indebtedness. The member loans bore interest at a fixed rate of 11.0% per annum and were scheduled to mature on June 9, 2017. A portion of the original purchase price of the property was financed with loans from the members on a pro rata basis equal to their percentage interest in the consolidated entity. The Company had eliminated in consolidation its member loan totaling \$270.0 million and its share of the related accrued interest payable of approximately \$255.0 million at the date of the refinancing. The remaining outside members' notes payable and related accrued interest payable totaling \$180.0 million and approximately \$170.0 million, respectively, at the date of the refinancing had been reflected as Outside Members' Notes Payable and within Accrued Interest Payable, respectively, on the Company's Consolidated Balance Sheets. The net proceeds from the new financing were used to repay all of the outstanding accrued interest payable on the member loans and a portion of the outstanding principal balance of the member loans totaling approximately \$176.1 million. In connection with the refinancing, the members of the Company's consolidated entity contributed the remaining balance of the member notes payable totaling approximately \$273.9 million (of which the Company's share of approximately \$164.4 million had been eliminated in consolidation) to equity in the consolidated entity (See Note 8). There was no prepayment penalty associated with the repayments. The Company recognized a gain from early extinguishment of debt totaling approximately \$14.6 million primarily consisting of the acceleration of the remaining balance related to historical fair value debt adjustments.

Credit Facility

On April 24, 2017, Boston Properties Limited Partnership amended and restated its revolving credit agreement (as amended and restated, the "2017 Credit Facility"). Among other things, the 2017 Credit Facility (1) increased the total commitment of the revolving line of credit (the "Revolving Facility") from \$1.0 billion to \$1.5 billion, (2) extended the maturity date from July 26, 2018 to April 24, 2022, (3) reduced the per annum variable interest rates, and (4) added a \$500.0 million delayed draw term loan facility (the "Delayed Draw Facility") that permits Boston Properties Limited Partnership, until the first anniversary of the closing date, to draw upon up to four times a minimum of \$50.0 million (or, if less, the unused delayed draw term commitments), provided that amounts drawn under the Delayed Draw Facility and subsequently repaid may not be borrowed again. In addition, Boston Properties Limited Partnership may increase the total commitment under the 2017 Credit Facility by up to \$500.0 million through increases in the Revolving Facility or the Delayed Draw Facility, or both, subject to syndication of the increase and other conditions. At Boston Properties Limited Partnership's option, loans under the Revolving Facility and Delayed Draw Facility will bear interest at a rate per annum equal to (1) (a) in the case of loans denominated in Dollars, Euro or Sterling, LIBOR,

and (b) in the case of loans denominated in Canadian Dollars, CDOR, in each case, plus a margin ranging from 77.5 to 155 basis points for the Revolving Commitment and 85 to 175 basis points for the Delayed Draw Facility, based on Boston Properties Limited Partnership's credit rating or (2) an alternate base rate equal to the greatest of (x) the Administrative Agent's prime rate, (y) the Federal Funds rate plus 0.50% or (z) LIBOR for a one-month period plus 1.00%, in each case, plus a margin ranging from 0 to 55 basis points for the Revolving Facility and 0 to 75 basis points for the Delayed Draw Facility, based on Boston Properties Limited Partnership's credit rating. The 2017 Credit Facility also contains a competitive bid option for up to 65% of

Table of Contents

the Revolving Facility that allows banks that are part of the lender consortium to bid to make loan advances to Boston Properties Limited Partnership at a reduced interest rate.

In addition, Boston Properties Limited Partnership is obligated to pay (1) in quarterly installments a facility fee on the total commitment under the Revolving Facility at a rate per annum ranging from 0.10% to 0.30% based on Boston Properties Limited Partnership's credit rating, (2) an annual fee on the undrawn amount of each letter of credit equal to the LIBOR margin on the Revolving Facility and (3) a fee on the unused commitments under the Delayed Draw Facility equal to 0.15% per annum.

Based on Boston Properties Limited Partnership's current credit rating, (1) the applicable Eurocurrency margins for the Revolving Facility and Delayed Draw Facility are 87.5 basis points and 95 basis points, respectively, (2) the alternate base rate margin is 0 basis points for each of the Revolving Facility and Delayed Draw Facility and (3) the facility fee on the Revolving Facility commitment is 0.15% per annum.

The 2017 Credit Facility contains customary representations and warranties, affirmative and negative covenants and events of default provisions, including failure to pay indebtedness, breaches of covenants, and bankruptcy and other insolvency events, which could result in the acceleration of all amounts and cancellation of all commitments outstanding under the Credit Agreement. Among other covenants, the 2017 Credit Facility requires that Boston Properties Limited Partnership maintain on an ongoing basis: (1) a leverage ratio not to exceed 60%, however, the leverage ratio may increase to no greater than 65% provided that it is reduced back to 60% within one year, (2) a secured debt leverage ratio not to exceed 55%, (3) a fixed charge coverage ratio of at least 1.40, (4) an unsecured debt leverage ratio not to exceed 60%, however, the unsecured debt leverage ratio may increase to no greater than 65% provided that it is reduced to 60% within one year, (5) an unsecured debt interest coverage ratio of at least 1.75 and (6) limitations on permitted investments.

6. Derivative Instruments and Hedging Activities

During the year ended December 31, 2015, Boston Properties Limited Partnership commenced a planned interest rate hedging program and entered into 17 forward-starting interest rate swap contracts that fixed the 10-year swap rate at a weighted-average rate of approximately 2.423% per annum on notional amounts aggregating \$550.0 million. These interest rate swap contracts were entered into in advance of a financing with a target commencement date in September 2016 and maturity in September 2026. On August 17, 2016, in conjunction with Boston Properties Limited Partnership's offering of its 2.750% senior unsecured notes due 2026, the Company terminated the forward-starting interest rate swap contracts and cash-settled the contracts by making cash payments to the counterparties aggregating approximately \$49.3 million. The Company recognized approximately \$0.1 million of losses on interest rate contracts during the year ended December 31, 2016 related to the partial ineffectiveness of the interest rate contracts. The Company is reclassifying into earnings, as an increase to interest expense, approximately \$49.2 million (or approximately \$4.9 million per year over the 10-year term of the 2.750% senior unsecured notes due 2026) of the amounts recorded in the consolidated balance sheets within accumulated other comprehensive loss, which represents the effective portion of the applicable interest rate contracts. In addition, 767 Fifth Partners LLC, which is a subsidiary of the consolidated entity in which the Company has a 60% interest and owns 767 Fifth Avenue (the General Motors Building) in New York City, entered into 16 forward-starting interest rate swap contracts (including two contracts entered into during the six months ended June 30, 2016 with notional amounts aggregating \$50.0 million) that fix the 10-year swap rate at a weighted-average rate of approximately 2.619% per annum on notional amounts aggregating \$450.0 million. These interest rate swap contracts were entered into in advance of a financing with a target commencement date in June 2017 and maturity in June 2027. On April 24, 2017, the consolidated entity that owns 767 Fifth Avenue (the General Motors Building) located in New York City entered into an interest rate lock and commitment agreement with a group of lenders on a ten-year financing totaling \$2.3 billion at a fixed interest rate of 3.43% per annum (See Note 5). In conjunction with the interest rate lock and commitment agreement, 767 Fifth Partners LLC terminated the forward-starting interest rate swap contracts and cash-settled the contracts by making cash payments to the counterparties aggregating approximately \$14.4 million. 767 Fifth Partners LLC did not record any hedge ineffectiveness. The Company is reclassifying into earnings, as an increase to interest expense, approximately \$14.4 million (or approximately \$1.4 million per year over the 10-year term of the financing) of the amounts recorded in the Consolidated Balance Sheets within Accumulated Other Comprehensive Loss, which

represents the effective portion of the applicable interest rate contracts.

Boston Properties Limited Partnership entered into the interest rate swap contracts designated and qualifying as cash flow hedges to reduce its exposure to the variability in future cash flows attributable to changes in the 10-year swap rate in contemplation of obtaining 10-year fixed-rate financing in September 2016. The Company's 767 Fifth Partners LLC consolidated entity entered into the interest rate swap contracts designated and qualifying as cash flow hedges to reduce its exposure to the variability in future cash flows attributable to changes in the 10-year swap rate in contemplation of obtaining 10-year fixed-rate financing in June 2017. Boston Properties Limited Partnership has formally documented all of its relationships between hedging instruments and hedged items, as well as its risk-management objective and strategy for undertaking various hedge transactions. Boston Properties Limited Partnership also assesses and documents, both at the hedging instrument's inception and on an ongoing basis, whether the derivatives that are used in hedging transactions are highly effective in offsetting changes in cash flows associated with the hedged items. All components of the forward-starting interest rate swap contracts were included in the assessment of hedge effectiveness. The Company accounts for the effective portion of changes in the fair value of a derivative in accumulated other comprehensive loss and subsequently reclassifies the effective portion to earnings over the term that the hedged transaction affects earnings. The Company accounts for the ineffective portion of changes in the fair value of a derivative directly in earnings. The Company classifies cash flows related to derivative instruments within its Consolidated Statements of Cash Flows consistent with the nature of the hedged item.

7. Commitments and Contingencies

General

In the normal course of business, the Company guarantees its performance of services or indemnifies third parties against its negligence. In addition, in the normal course of business, the Company guarantees to certain tenants the obligations of its subsidiaries for the payment of tenant improvement allowances and brokerage commissions in connection with their leases and limited costs arising from delays in delivery of their premises.

The Company has letter of credit and performance obligations related to lender and development requirements that total approximately \$7.4 million.

Certain of the Company's joint venture agreements include provisions whereby, at certain specified times, each partner has the right to initiate a purchase or sale of its interest in the joint ventures. With limited exception, under these provisions, the Company is not compelled to purchase the interest of its outside joint venture partners. Under certain of the Company's joint venture agreements, if certain return thresholds are achieved, the partners will be entitled to an additional promoted interest or payments.

Table of Contents

From time to time, the Company (or ventures in which the Company has an ownership interest) has agreed, and may in the future agree, to (1) guarantee portions of the principal, interest and other amounts in connection with their borrowings, (2) provide customary environmental indemnifications and nonrecourse carve-outs (e.g., guarantees against fraud, misrepresentation and bankruptcy) in connection with their borrowings and (3) provide guarantees to lenders and other third parties for the completion of development projects. The Company has agreements with its outside partners whereby the partners agree to reimburse the joint venture for their share of any payments made under the guarantee. In some cases, the Company earns a fee from the applicable joint venture for providing the guarantee. In connection with the refinancing of 767 Fifth Avenue's (the General Motors Building) secured loan by the Company's consolidated joint venture entity, 767 Venture, LLC, the Company guaranteed the consolidated entity's obligation to fund various reserves for tenant improvement costs and allowances, leasing commissions and free rent obligations in lieu of cash deposits. As of June 30, 2017, the maximum funding obligation under the guarantee was approximately \$263.8 million. The Company earns a fee from the joint venture for providing the guarantee and has an agreement with the outside partners to reimburse the joint venture for their share of any payments made under the guarantee. As of June 30, 2017, no amounts related to the guarantee are recorded as liabilities in the Company's consolidated financial statements.

In 2009, the Company filed a general unsecured creditor's claim against Lehman Brothers, Inc. for approximately \$45.3 million related to its rejection of a lease at 399 Park Avenue in New York City. On January 10, 2014, the trustee for the liquidation of the business of Lehman Brothers allowed the Company's claim in the amount of approximately \$45.2 million. During 2014 and 2015, the Company received distributions of approximately \$7.7 million and \$8.1 million, respectively. On July 5, 2016, the Company received a fourth interim distribution totaling approximately \$1.4 million. On May 19, 2017, the Company received a fifth interim distribution totaling approximately \$0.4 million, leaving a remaining claim of approximately \$27.6 million. The Company will continue to evaluate whether to attempt to sell the remaining claim or wait until the trustee distributes proceeds from the Lehman Brothers estate. Given the inherent uncertainties in bankruptcy proceedings, there can be no assurance as to the timing or amount of additional proceeds, if any, that the Company may ultimately realize on the remaining claim, whether by sale to a third party or by one or more distributions from the trustee. Accordingly, the Company has not recorded any estimated recoveries associated with this gain contingency within its Consolidated Financial Statements at June 30, 2017.

Insurance

The Company carries insurance coverage on its properties, including those under development, of types and in amounts and with deductibles that it believes are in line with coverage customarily obtained by owners of similar properties. Certain properties owned in joint ventures with third parties are insured by the third party partner with insurance coverage of types and in amounts and with deductibles the Company believes are in line with coverage customarily obtained by owners of similar properties. In response to the uncertainty in the insurance market following the terrorist attacks of September 11, 2001, the Federal Terrorism Risk Insurance Act (as amended, "TRIA") was enacted in November 2002 to require regulated insurers to make available coverage for "certified" acts of terrorism (as defined by the statute). The expiration date of TRIA was extended to December 31, 2014 by the Terrorism Risk Insurance Program Reauthorization Act of 2007 and further extended to December 31, 2020 by the Terrorism Risk Insurance Program Reauthorization Act of 2015 ("TRIPRA"), and the Company can provide no assurance that it will be extended further. Currently, the Company's property insurance program per occurrence limits are \$1.0 billion for its portfolio insurance program, including coverage for acts of terrorism other than nuclear, biological, chemical or radiological terrorism ("Terrorism Coverage"). The Company also carries \$250 million of Terrorism Coverage for 601 Lexington Avenue, New York, New York ("601 Lexington Avenue") in excess of the \$1.0 billion of coverage in the Company's property insurance program. Certain properties, including the General Motors Building located at 767 Fifth Avenue in New York, New York ("767 Fifth Avenue"), are currently insured in separate insurance programs. The property insurance program per occurrence limits for 767 Fifth Avenue are \$1.625 billion, including Terrorism Coverage. The Company also currently carries nuclear, biological, chemical and radiological terrorism insurance coverage for acts of terrorism certified under TRIA ("NBCR Coverage"), which is provided by IXP as a direct insurer, for the properties in our portfolio, including 767 Fifth Avenue, but excluding certain other properties owned in joint ventures with third parties or which the Company manages. The per occurrence limit for NBCR Coverage is \$1.0

billion. Under TRIA, after the payment of the required deductible and coinsurance, the NBCR Coverage provided by IXP is backstopped by the Federal Government if the aggregate industry insured losses resulting from a certified act of terrorism exceed a “program trigger.” In 2017, the program trigger is \$140 million and the coinsurance is 17%, however, both will increase in subsequent years pursuant to TRIPRA. If the Federal Government pays out for a loss under TRIA, it is mandatory that the Federal Government recoup the full amount of the loss from insurers offering TRIA coverage after the payment of the loss pursuant to a formula in TRIPRA. The Company may elect to terminate the NBCR Coverage if the Federal Government seeks recoupment for losses paid under TRIA, if there is a change in its portfolio or for any other reason. The Company intends to continue to monitor the scope, nature and cost of available terrorism insurance and maintain terrorism insurance in amounts and on terms that are commercially reasonable.

Table of Contents

The Company also currently carries earthquake insurance on its properties located in areas known to be subject to earthquakes in an amount and subject to self-insurance that the Company believes is commercially reasonable. In addition, this insurance is subject to a deductible in the amount of 3% of the value of the affected property. Specifically, the Company currently carries earthquake insurance which covers its San Francisco (including Salesforce Tower) and Los Angeles regions with a \$240 million (increased from \$170 million on March 1, 2017) per occurrence limit, and a \$240 million (increased from \$170 million on March 1, 2017) annual aggregate limit, \$20 million of which is provided by IXP, as a direct insurer. Prior to March 1, 2017, the builders risk policy maintained for the development of Salesforce Tower in San Francisco included a \$60 million per occurrence and annual aggregate limit of earthquake coverage. The amount of the Company's earthquake insurance coverage may not be sufficient to cover losses from earthquakes. In addition, the amount of earthquake coverage could impact the Company's ability to finance properties subject to earthquake risk. The Company may discontinue earthquake insurance or change the structure of its earthquake insurance program on some or all of its properties in the future if the premiums exceed the Company's estimation of the value of the coverage.

IXP, a captive insurance company which is a wholly-owned subsidiary of the Company, acts as a direct insurer with respect to a portion of the Company's earthquake insurance coverage for its Greater San Francisco and Los Angeles properties and the Company's NBCR Coverage. Insofar as the Company owns IXP, it is responsible for its liquidity and capital resources, and the accounts of IXP are part of the Company's consolidated financial statements. In particular, if a loss occurs which is covered by the Company's NBCR Coverage but is less than the applicable program trigger under TRIA, IXP would be responsible for the full amount of the loss without any backstop by the Federal Government. IXP would also be responsible for any recoupment charges by the Federal Government in the event losses are paid out and its insurance policy is maintained after the payout by the Federal Government. If the Company experiences a loss and IXP is required to pay under its insurance policy, the Company would ultimately record the loss to the extent of the required payment. Therefore, insurance coverage provided by IXP should not be considered as the equivalent of third-party insurance, but rather as a modified form of self-insurance. In addition, Boston Properties Limited Partnership has issued a guarantee to cover liabilities of IXP in the amount of \$20.0 million.

The mortgages on the Company's properties typically contain requirements concerning the financial ratings of the insurers who provide policies covering the property. The Company provides the lenders on a regular basis with the identity of the insurance companies in the Company's insurance programs. The ratings of some of the Company's insurers are below the rating requirements in some of the Company's loan agreements and the lenders for these loans could attempt to claim that an event of default has occurred under the loan. The Company believes it could obtain insurance with insurers which satisfy the rating requirements. Additionally, in the future, the Company's ability to obtain debt financing secured by individual properties, or the terms of such financing, may be adversely affected if lenders generally insist on ratings for insurers or amounts of insurance which are difficult to obtain or which result in a commercially unreasonable premium. There can be no assurance that a deficiency in the financial ratings of one or more of the Company's insurers will not have a material adverse effect on the Company.

The Company continues to monitor the state of the insurance market in general, and the scope and costs of coverage for acts of terrorism and California earthquake risk in particular, but the Company cannot anticipate what coverage will be available on commercially reasonable terms in future policy years. There are other types of losses, such as from wars, for which the Company cannot obtain insurance at all or at a reasonable cost. With respect to such losses and losses from acts of terrorism, earthquakes or other catastrophic events, if the Company experiences a loss that is uninsured or that exceeds policy limits, the Company could lose the capital invested in the damaged properties, as well as the anticipated future revenues from those properties. Depending on the specific circumstances of each affected property, it is possible that the Company could be liable for mortgage indebtedness or other obligations related to the property. Any such loss could materially and adversely affect the Company's business and financial condition and results of operations.

8. Noncontrolling Interests

Noncontrolling interests relate to the interests in Boston Properties Limited Partnership not owned by Boston Properties, Inc. and interests in consolidated property partnerships not wholly-owned by the Company. As of June 30, 2017, the noncontrolling interests in Boston Properties Limited Partnership consisted of 16,823,685 OP Units,

816,982 LTIP Units (including 118,067 2012 OPP Units, 85,405 2013 MYLTIP Units and 25,107 2014 MYLTIP Units), 366,618 2015 MYLTIP Units, 473,360 2016 MYLTIP Units and 400,000 2017 MYLTIP Units held by parties other than Boston Properties, Inc.

Noncontrolling Interest—Common Units

During the six months ended June 30, 2017, 481,261 OP Units were presented by the holders for redemption (including 22,110 OP Units issued upon conversion of LTIP Units, 2012 OPP Units, 2013 MYLTIP Units and 2014 MYLTIP Units) and were redeemed by Boston Properties, Inc. in exchange for an equal number of shares of Common Stock.

Table of Contents

At June 30, 2017, Boston Properties Limited Partnership had outstanding 366,618 2015 MYLTIP Units, 473,360 2016 MYLTIP Units and 400,000 2017 MYLTIP Units. Prior to the applicable measurement date (February 4, 2018 for 2015 MYLTIP Units, February 9, 2019 for 2016 MYLTIP Units and February 6, 2020 for 2017 MYLTIP Units), holders of MYLTIP Units will be entitled to receive per unit distributions equal to one-tenth (10%) of the regular quarterly distributions payable on an OP Unit, but will not be entitled to receive any special distributions. After the measurement date, the number of MYLTIP Units, both vested and unvested, that MYLTIP award recipients have earned, if any, based on the establishment of a performance pool, will be entitled to receive distributions in an amount per unit equal to distributions, both regular and special, payable on an OP Unit.

On February 3, 2017, the measurement period for the Company's 2014 MYLTIP awards ended and, based on Boston Properties, Inc.'s relative TSR performance, the final awards were determined to be 27.7% of target or an aggregate of approximately \$3.5 million (after giving effect to voluntary employee separations and the unallocated reserve). As a result, an aggregate of 447,386 2014 MYLTIP Units that had been previously granted were automatically forfeited. The following table presents Boston Properties Limited Partnership's distributions on the OP Units and LTIP Units (including the 2012 OPP Units and 2013 MYLTIP Units and, after the February 3, 2017 measurement date, the 2014 MYLTIP Units) and its distributions on the 2014 MYLTIP Units (prior to the February 3, 2017 measurement date), 2015 MYLTIP Units, 2016 MYLTIP Units and 2017 MYLTIP Units (after the February 7, 2017 issuance date) paid in 2017:

Record Date	Payment Date	Distributions per OP Unit and LTIP Unit	Distributions per MYLTIP Unit
June 30, 2017	July 31, 2017	\$0.75	\$0.075
March 31, 2017	April 28, 2017	\$0.75	\$0.075
December 31, 2016	January 30, 2017	\$0.75	\$0.075

A holder of an OP Unit may present the OP Unit to Boston Properties Limited Partnership for redemption at any time (subject to restrictions agreed upon at the time of issuance of OP Units to particular holders that may restrict such redemption right for a period of time, generally one year from issuance). Upon presentation of an OP Unit for redemption, Boston Properties Limited Partnership must redeem the OP Unit for cash equal to the then value of a share of common stock of Boston Properties, Inc. Boston Properties, Inc. may, in its sole discretion, elect to assume and satisfy the redemption obligation by paying either cash or issuing one share of Common Stock. The value of the OP Units not owned by Boston Properties, Inc. and LTIP Units (including the 2012 OPP Units, 2013 MYLTIP Units and 2014 MYLTIP Units), assuming that all conditions had been met for the conversion thereof, had all of such units been redeemed at June 30, 2017 was approximately \$2.2 billion based on the last reported price of a share of Common Stock on the New York Stock Exchange of \$123.02 per share on June 30, 2017.

Noncontrolling Interests—Property Partnerships

The noncontrolling interests in property partnerships consist of the outside equity interests in ventures that are consolidated with the financial results of the Company because the Company exercises control over the entities that own the properties. The equity interests in these ventures that are not owned by the Company, totaling approximately \$1.7 billion at June 30, 2017 and \$1.5 billion at December 31, 2016, are included in Noncontrolling Interests—Property Partnerships in the accompanying Consolidated Balance Sheets.

On May 12, 2016, the partners in the Company's consolidated entity that owns Salesforce Tower located in San Francisco, California amended the venture agreement. Under the venture agreement, if the Company elects to fund the construction of Salesforce Tower without a construction loan (or a construction loan of less than 50% of project costs) and the venture has commenced vertical construction of the project, then the partner's capital funding obligation shall be limited, in which event the Company shall fund up to 2.5% of the total project costs (i.e., 50% of the partner's 5% interest in the venture) in the form of a loan to the partner. This loan would bear interest at the then prevailing market interest rates for construction loans. Under the amended agreement, the partners have agreed to structure this funding by the Company as preferred equity rather than a loan. The preferred equity contributed by the Company shall earn a preferred return equal to LIBOR plus 3.00% per annum and shall be payable to the Company out of any distributions to which the partner would otherwise be entitled until such preferred equity and preferred return have been repaid to the Company. As of June 30, 2017, the Company had contributed an aggregate of approximately \$13.5 million of preferred equity to the venture.

On June 6, 2017, in conjunction with the refinancing of the indebtedness of the Company's consolidated entity in which it has a 60% interest and that owns 767 Fifth Avenue (the General Motors Building) located in New York City, the members of the consolidated entity amended the limited liability company agreement to provide for the contribution of the remaining unpaid principal balance of the members' notes payable totaling approximately \$273.9 million (of which the Company's share of approximately \$164.4 million is eliminated in consolidation) to equity in the consolidated entity, resulting in an increase of approximately \$109.6 million to Noncontrolling Interests in Property Partnerships on the Company's Consolidated Balance Sheets (See Note 5). There were no changes to the ownership interests or rights of the members as a result of the amendment.

9. Stockholders' Equity / Partners' Capital

As of June 30, 2017, Boston Properties, Inc. had 154,307,529 shares of Common Stock outstanding.

As of June 30, 2017, Boston Properties, Inc. owned 1,719,482 general partnership units and 152,588,047 limited partnership units of Boston Properties Limited Partnership.

On June 2, 2017, Boston Properties, Inc. renewed its "at the market" ("ATM") stock offering program through which it may sell from time to time up to an aggregate of \$600.0 million of its common stock through sales agents over a three-year period. This program replaces the Company's prior \$600.0 million ATM stock offering program that was scheduled to expire on June 3, 2017. The Company intends to use the net proceeds from any offering for general business purposes, which may include investment opportunities and debt reduction. No shares of common stock have been issued under this ATM stock offering program.

During the six months ended June 30, 2017, Boston Properties, Inc. issued 481,261 shares of Common Stock in connection with the redemption of an equal number of redeemable OP Units from third parties.

The following table presents Boston Properties, Inc.'s dividends per share and Boston Properties Limited Partnership's distributions per OP Unit and LTIP Unit paid in 2017:

Preferred Stock

As of June 30, 2017, Boston Properties, Inc. had 80,000 shares (8,000,000 depositary shares each representing 1/100th of a share) outstanding of its 5.25% Series B Cumulative Redeemable Preferred Stock with a liquidation preference of \$2,500.00 per share (\$25.00 per depositary share). Boston Properties, Inc. pays cumulative cash dividends on the Series B Preferred Stock at a rate of 5.25% per annum of the \$2,500.00 liquidation preference per share. Boston Properties, Inc. may not redeem the Series B Preferred Stock prior to March 27, 2018, except in certain circumstances relating to the preservation of Boston Properties, Inc.'s REIT status. On or after March 27, 2018, Boston Properties, Inc., at its option, may redeem the Series B Preferred Stock for a cash redemption price of \$2,500.00 per share (\$25.00 per depositary share), plus all accrued and unpaid dividends. The Series B Preferred Stock is not redeemable by the holders, has no maturity date and is not convertible into any other security of Boston Properties, Inc. or its affiliates. The following table presents Boston Properties Inc.'s dividends per share on its outstanding Series B Preferred Stock paid during 2017:

10. Earnings Per Share / Common Unit

Boston Properties, Inc.

The following table provides a reconciliation of both the net income attributable to Boston Properties, Inc. common shareholders and the number of common shares used in the computation of basic earnings per share ("EPS"), which is calculated by dividing net income attributable to Boston Properties, Inc. common shareholders by the weighted-average number of common shares outstanding during the period. Unvested share-based payment awards that contain non-forfeitable rights to dividends or dividend equivalents (whether paid or unpaid) are also participating securities. As such, unvested restricted common stock of the Company, LTIP Units, 2012 OPP Units and MYLTIP Units are considered participating securities. Participating securities are included in the computation of basic EPS of the Company using the two-class method. Participating securities are included in the computation of diluted EPS of the Company using the if-converted method if the impact is dilutive. Because the 2012 OPP Units, 2013 MYLTIP Units and 2014 MYLTIP Units required, and the 2015-2017 MYLTIP Units require, the Company to outperform absolute and relative return thresholds, unless such thresholds have been met by the end of the applicable reporting period, the Company excludes such units from the diluted EPS calculation. Other potentially dilutive common shares, including stock options, restricted stock and other securities of Boston Properties Limited Partnership that are exchangeable for the Boston Properties, Inc.'s Common Stock, and the related impact on earnings, are considered when calculating diluted EPS.

11. Stock Option and Incentive Plan

On January 25, 2017, Boston Properties, Inc.'s Compensation Committee approved the 2017 MYLTIP awards under Boston Properties, Inc.'s 2012 Stock Option and Incentive Plan (the "2012 Plan") to certain officers and employees of Boston Properties, Inc. The 2017 MYLTIP awards utilize Boston Properties, Inc.'s total stockholder return ("TSR") over

a three-year measurement period, on an annualized, compounded basis, as the performance metric. Earned awards will be based on Boston

Table of Contents

Properties, Inc.'s TSR relative to (i) the Cohen & Steers Realty Majors Portfolio Index (50% weight) and (ii) the NAREIT Office Index adjusted to include Vornado Realty Trust (50% weight). Earned awards will range from zero to a maximum of approximately \$42.7 million depending on Boston Properties, Inc.'s TSR relative to the two indices, with four tiers (threshold: approximately \$10.7 million; target: approximately \$21.3 million; high: approximately \$32.0 million; exceptional: approximately \$42.7 million) and linear interpolation between tiers. Earned awards measured on the basis of relative TSR performance are subject to an absolute TSR component in the form of relatively simple modifiers that (A) reduce the level of earned awards in the event Boston Properties, Inc.'s annualized TSR is less than 0% and (B) cause some awards to be earned in the event Boston Properties, Inc.'s annualized TSR is more than 12% even though on a relative basis alone Boston Properties, Inc.'s TSR would not result in any earned awards. Earned awards (if any) will vest 50% on February 6, 2020 and 50% on February 6, 2021, based on continued employment. Vesting will be accelerated in the event of a change in control, termination of employment by Boston Properties, Inc. without cause, or termination of employment by the award recipient for good reason, death, disability or retirement. If there is a change of control prior to February 6, 2020, earned awards will be calculated based on TSR performance up to the date of the change of control. The 2017 MYLTIP awards are in the form of LTIP Units issued on the grant date which (i) are subject to forfeiture to the extent awards are not earned and (ii) prior to the performance measurement date are only entitled to one-tenth (10%) of the regular quarterly distributions payable on common partnership units and no special distributions.

Under ASC 718, the 2017 MYLTIP awards have an aggregate value of approximately \$17.7 million, which amount will generally be amortized into earnings over the four-year plan period under the graded vesting method. On February 3, 2017, the measurement period for the Company's 2014 MYLTIP awards ended and, based on Boston Properties, Inc.'s relative TSR performance, the final awards were determined to be 27.7% of target or an aggregate of approximately \$3.5 million (after giving effect to voluntary employee separations and the unallocated reserve). As a result, an aggregate of 447,386 2014 MYLTIP Units that had been previously granted were automatically forfeited. During the six months ended June 30, 2017, Boston Properties, Inc. issued 37,414 shares of restricted common stock and Boston Properties Limited Partnership issued 111,488 LTIP Units and 400,000 2017 MYLTIP Units to employees and non-employee directors under the 2012 Plan. Employees and non-employee directors paid \$0.01 per share of restricted common stock and \$0.25 per LTIP Unit and 2017 MYLTIP Unit. When issued, LTIP Units are not economically equivalent in value to a share of Common Stock, but over time can increase in value to one-for-one parity with Common Stock if there is sufficient appreciation in the value of the Company's assets. The aggregate value of the LTIP Units is included in noncontrolling interests in the Consolidated Balance Sheets. Grants of restricted stock and LTIP Units to employees vest in four equal annual installments. Restricted stock is measured at fair value on the date of grant based on the number of shares granted and the closing price of Boston Properties, Inc.'s Common Stock on the date of grant as quoted on the New York Stock Exchange. Such value is recognized as an expense ratably over the corresponding employee service period. The shares of restricted stock granted during the six months ended June 30, 2017 were valued at approximately \$4.9 million (\$130.32 per share weighted-average). The LTIP Units granted were valued at approximately \$13.3 million (approximately \$119.52 per unit weighted-average fair value) using a Monte Carlo simulation method model. The per unit fair values of the LTIP Units granted were estimated on the dates of grant and for a substantial majority of such units were valued using the following assumptions: an expected life of 5.7 years, a risk-free interest rate of 2.14% and an expected price volatility of 28.0%. As the 2012 OPP Units, 2013 MYLTIP Units, 2014 MYLTIP Units, 2015 MYLTIP Units, 2016 MYLTIP Units and 2017 MYLTIP Units are subject to both a service condition and a market condition, the Company recognizes the compensation expense related to the 2012 OPP Units, 2013 MYLTIP Units, 2014 MYLTIP Units, 2015 MYLTIP Units, 2016 MYLTIP Units and 2017 MYLTIP Units under the graded vesting attribution method. Under the graded vesting attribution method, each portion of the award that vests at a different date is accounted for as a separate award and recognized over the period appropriate to that portion so that the compensation cost for each portion should be recognized in full by the time that portion vests. The Company recognizes forfeitures as they occur on its awards of stock-based compensation (See Note 2). Dividends paid on both vested and unvested shares of restricted stock are charged directly to Dividends in Excess of Earnings in Boston Properties, Inc.'s Consolidated Balance Sheets and Partners' Capital in Boston Properties Limited Partnership's Consolidated Balance Sheets. Aggregate stock-based

compensation expense associated with restricted stock, non-qualified stock options, LTIP Units, 2012 OPP Units, 2013 MYLTIP Units, 2014 MYLTIP Units, 2015 MYLTIP Units, 2016 MYLTIP Units and 2017 MYLTIP Units was approximately \$7.9 million and \$7.1 million for the three months ended June 30, 2017 and 2016, respectively, and \$18.1 million and \$16.5 million for the six months ended June 30, 2017 and 2016, respectively. At June 30, 2017, there was \$26.8 million of unrecognized compensation expense related to unvested restricted stock, LTIP Units, 2013 MYLTIP Units and 2014 MYLTIP Units and \$28.5 million of unrecognized compensation expense related to unvested 2015 MYLTIP Units, 2016 MYLTIP Units and 2017 MYLTIP Units that is expected to be recognized over a weighted-average period of approximately 2.7 years.

Net operating income (“NOI”) is a non-GAAP financial measure equal to net income attributable to Boston Properties, Inc. common shareholders and net income attributable to Boston Properties Limited Partnership common unitholders, the most directly comparable GAAP financial measures, plus (1) preferred dividends/distributions, noncontrolling interests, interest expense, depreciation and amortization expense, transaction costs and general and administrative expense less (2) gains on sales of real estate, gains from early extinguishments of debt, gains from investments in securities, interest and other income, income from unconsolidated joint ventures and development and management services revenue. The Company believes NOI is useful to investors as a performance measure and believes it provides useful information to investors regarding its financial condition and results of operations because, when compared across periods, it reflects the impact on operations from trends in occupancy rates, rental rates, operating costs and acquisition and development activity on an unleveraged basis, providing perspective not immediately apparent from net income attributable to Boston Properties, Inc. common shareholders or net income attributable to Boston Properties Limited Partnership common unitholders. For example, interest expense is not necessarily linked to the operating performance of a real estate asset and is often incurred at the corporate level as opposed to the property level. Similarly, interest expense may be incurred at the property level even though the financing proceeds may be used at the corporate level (e.g., for other investment activity). In addition, because of historical cost accounting and useful life estimates, depreciation and amortization may distort operating performance measures at the property level. NOI presented by the Company may not be comparable to NOI reported by other REITs or real estate companies that define NOI differently.

Asset information by segment is not reported because the Company does not use this measure to assess performance. Therefore, depreciation and amortization expense is not allocated among segments. Preferred dividends/distributions, noncontrolling interests, gains on sales of real estate, interest expense, gains from early extinguishments of debt, gains from investments in securities, interest and other income, income from unconsolidated joint ventures, depreciation and amortization expense, transaction costs, general and administrative expenses and development and management services revenue are not included in Net Operating Income as internal reporting addresses these items on a corporate level.

The Company’s segments are based on the Company’s method of internal reporting which classifies its operations by both geographic area and property type. The Company’s segments by geographic area are Boston, New York, San

Francisco and Washington, DC. Segments by property type include: Office, Residential and Hotel.

13. Subsequent Events

On July 26, 2017, a joint venture between the Company and The Bernstein Companies entered into a build-to-suit lease agreement with an affiliate of Marriott International, Inc. under which Marriott will lease 100% of an approximately 720,000 square foot office building and below-grade parking garage to be constructed by the joint venture at 7750 Wisconsin Avenue in Bethesda, Maryland. The joint venture will lease the office building to Marriott for 20 years on a net basis and will serve as Marriott's world-wide headquarters. The Company and The Bernstein Companies will each own a 50% interest in the joint venture. The Company will serve as development manager for the venture and expects to commence construction in 2018. Marriott has agreed to fund 100% of the related tenant improvement costs and leasing commissions for the office building.

On July 28, 2017, a joint venture in which the Company has a 50% interest obtained mortgage financing collateralized by its Colorado Center property totaling \$550.0 million. The mortgage financing bears interest at a fixed rate of 3.56% per annum and matures on August 9, 2027. The loan requires interest-only payments during the 10-year term of the loan, with the entire principal amount due at maturity. Colorado Center is a six-building office complex that sits on a 15-acre site and contains an

aggregate of approximately 1,184,000 net rentable square feet with an underground parking garage for 3,100 vehicles located in Santa Monica, California.

ITEM 2—Management’s Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with the financial statements and notes thereto appearing elsewhere in this report.

These Quarterly Reports on Form 10-Q, including the documents incorporated by reference, contains forward-looking statements within the meaning of the federal securities laws, Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. We intend these forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995 and are including this statement for purposes of complying with those safe harbor provisions. Such statements are contained principally, but not only, under the captions “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations.” We caution investors that any such forward-looking statements are based on beliefs and on assumptions made by, and information currently available to, our management. When used, the words “anticipate,” “believe,” “budget,” “estimate,” “expect,” “intend,” “may,” “might,” “plan,” “project,” “sh” similar expressions which do not relate solely to historical matters are intended to identify forward-looking statements. Such statements are subject to risks, uncertainties and assumptions and are not guarantees of future performance, which may be affected by known and unknown risks, trends, uncertainties and factors that are beyond our control. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated or projected by the forward-looking statements. We caution you that, while forward-looking statements reflect our good-faith beliefs when we make them, they are not guarantees of future performance and are impacted by actual events when they occur after we make such statements. Accordingly, investors should use caution in relying on forward-looking statements, which are based on results and trends at the time they are made, to anticipate future results or trends.

Some of the risks and uncertainties that may cause our actual results, performance or achievements to differ materially from those expressed or implied by forward-looking statements include, among others, the following:

- if there is a negative change in the economy, including, without limitation, a reversal of current job growth trends and an increase in unemployment, it could have a negative effect on the following, among other things:

- the fundamentals of our business, including overall market occupancy, tenant space utilization and rental rates;
- the financial condition of our tenants, many of which are financial, legal, media/telecommunication, technology and other professional firms, our lenders, counterparties to our derivative financial instruments and institutions that hold our cash balances and short-term investments, which may expose us to increased risks of default by these parties; and
- the value of our real estate assets, which may limit our ability to dispose of assets at attractive prices or obtain or maintain debt financing secured by our properties or on an unsecured basis;

- volatile or adverse global economic and political conditions, and dislocations in the credit markets, could adversely affect our business opportunities, results of operations and financial condition;
- general risks affecting the real estate industry (including, without limitation, the inability to enter into or renew leases, tenant space utilization, dependence on tenants’ financial condition, and competition from other developers, owners and operators of real estate);

- failure to manage effectively our growth and expansion into new markets and sub-markets or to integrate acquisitions and developments successfully;

- the ability of our joint venture partners to satisfy their obligations;

- risks and uncertainties affecting property development and construction (including, without limitation, construction delays, increased construction costs, cost overruns, inability to obtain necessary permits, tenant accounting considerations that may result in negotiated lease provisions that limit a tenant’s liability during construction, and public opposition to such activities);

- risks associated with the availability and terms of financing and the use of debt to fund acquisitions and developments and/or refinance existing indebtedness, including the impact of higher interest rates on the cost and/or availability of financing;

- risks associated with forward interest rate contracts and the effectiveness of such arrangements;

- risks associated with downturns in the national and local economies, increases in interest rates, and volatility in the securities markets;

- risks associated with actual or threatened terrorist attacks;
- costs of compliance with the Americans with Disabilities Act and other similar laws;
- potential liability for uninsured losses and environmental contamination;

risks associated with security breaches through cyber attacks, cyber intrusions or otherwise, as well as other significant disruptions of our information technology (IT) networks and related systems, which support our operations and our buildings;

risks associated with BXP's potential failure to qualify as a REIT under the Internal Revenue Code of 1986, as amended;

possible adverse changes in tax and environmental laws;

the impact of newly adopted accounting principles on our accounting policies and on period-to-period comparisons of financial results;

risks associated with possible state and local tax audits;

risks associated with our dependence on key personnel whose continued service is not guaranteed; and

the other risk factors identified in our most recently filed Annual Reports on Form 10-K, including those described under the caption "Risk Factors."

The risks set forth above are not exhaustive. Other sections of this report may include additional factors that could adversely affect our business and financial performance. Moreover, we operate in a very competitive and rapidly changing environment. New risk factors emerge from time to time and it is not possible for management to predict all risk factors, nor can we assess the impact of all risk factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. Given these risks and uncertainties, investors should not place undue reliance on forward-looking statements as a prediction of actual results. Investors should also refer to our most recent Annual Reports on Form 10-K and our Quarterly Reports on Form 10-Q for future periods and Current Reports on Form 8-K as we file them with the SEC, and to other materials we may furnish to the public from time to time through Forms 8-K or otherwise, for a discussion of risks and uncertainties that may cause actual results, performance or achievements to differ materially from those expressed or implied by forward-looking statements. We expressly disclaim any responsibility to update any forward-looking statements to reflect changes in underlying assumptions or factors, new information, future events, or otherwise, and you should not rely upon these forward-looking statements after the date of this report.

Overview

BXP is a fully integrated, self-administered and self-managed REIT and one of the largest owners, managers and developers of primarily Class A office properties in the United States. BPLP is the entity through which BXP conducts substantially all of its business and owns (either directly or through subsidiaries) substantially all of its assets. Our properties are concentrated in five markets - Boston, Los Angeles, New York, San Francisco and Washington, DC. We generate revenue and cash primarily by leasing Class A office space to our tenants. Factors we consider when we lease space include the creditworthiness of the tenant, the length of the lease, the rental rate to be paid at inception and throughout the lease term, the costs of tenant improvements and other landlord concessions, current and anticipated operating costs and real estate taxes, current and anticipated vacancy, current and anticipated future demand for office space and general economic factors.

Our core strategy has always been to develop, acquire and operate properties in supply-constrained markets with high barriers-to-entry and to focus on executing long-term leases with financially strong tenants. Historically, this combination has tended to reduce our exposure in down cycles and enhance revenues as market conditions improve. To be successful in any leasing environment, we believe all aspects of the tenant-landlord relationship must be considered. In this regard, we believe that our understanding of tenants' short- and long-term space utilization and amenity needs in the local markets in which we operate, our relationships with local brokers, our reputation as a premier developer, owner and operator of Class A office properties, our financial strength and our ability to maintain high building standards provide us with a competitive advantage.

Outlook

Economic growth in the United States continues to be tepid yet consistent with approximately 209,000 non-farm jobs created in July 2017 resulting in a slight dip in the unemployment rate to 4.3%. The Federal Reserve has increased interest rates three times since December 2016 with indications of more increases to come, yet interest rates remain relatively low. Given the pace of GDP growth, low inflation and the uncertainty associated with Federal Reserve fiscal

policy and tax reform, we do not expect a sharp increase in long-term interest rates and expect reasonably healthy operating and financial market conditions to continue.

In this economic climate, we continue to focus on (1) ensuring tenant satisfaction throughout our portfolio; (2) leasing available space in our in-service and development properties, as well as focusing on future large lease expirations; (3) completing the construction of our properties under development and redevelopment; (4) redeveloping and repositioning several key properties to increase future revenues and asset values over the long-term, despite the adverse impact on near-term

Table of Contents

revenue; (5) maintaining discipline in our underwriting of investment opportunities by (x) seeking pre-leasing commitments to begin new construction and (y) targeting acquisition activity in non-stabilized assets near innovation centers where we see the strongest prospects for overall growth and our operational expertise can create value; and (6) maintaining our conservative balance sheet by managing our near-term debt maturities.

During the second quarter of 2017, we signed leases across our portfolio totaling approximately 927,000 square feet. In addition, during July 2017, we signed additional leases totaling approximately 1.4 million square feet, bringing our total leasing since January 1, 2017 to approximately 2.9 million square feet. We commenced revenue recognition on approximately 1.3 million square feet of leases in second generation space in the second quarter. Of these second generation leases, approximately 1.0 million square feet had been vacant for less than one year and provides an average increase in net rental obligation of approximately 28%, demonstrating the strong internal growth opportunities embedded in our portfolio. Across our portfolio we are experiencing increases in construction costs, which result in increased tenant allowances and costs to build out tenant spaces. The overall occupancy of our in-service properties increased to 90.8% at June 30, 2017 from 90.4% at March 31, 2017 due mainly to leasing transactions at our Boston Central Business District (“CBD”) properties, 601 Lexington Avenue in New York and our suburban Washington, DC properties.

Our investment strategy remains largely unchanged. Other than possible acquisitions of value-add assets, such as those requiring lease-up or repositioning like Colorado Center in Santa Monica, California, we intend to continue to invest primarily in higher yielding new developments with significant pre-leasing commitments and redevelopment opportunities rather than lower yielding acquisitions of stabilized assets for which demand and pricing remains strong. Our development activity remains attractive and vibrant. During the second quarter, we commenced development on two new projects, and in July 2017 we signed a commitment for a third. First, we started the development of 145 Broadway, a 485,000 net rentable square foot Class A office property, including approximately 9,500 net rentable square feet of retail space located in Cambridge, Massachusetts. The office space is 100% pre-leased to an expanding existing tenant and we expect the building will be available for occupancy during the fourth quarter of 2019. Second, on June 29, 2017, we executed a ground lease, with a future right to purchase, a land parcel adjacent to the MacArthur BART station located in Oakland, California, that will support the development of a 402-unit residential building and ancillary retail space. Finally, after the end of the second quarter, a joint venture in which we and The Bernstein Companies will each own a 50% interest, entered into a build-to-suit lease agreement with Marriott International, Inc. under which Marriott will lease 100% of an approximately 720,000 square foot office building and below-grade parking garage to be constructed by the joint venture at 7750 Wisconsin Avenue in Bethesda, Maryland. The office building will be leased to Marriott for 20 years on a net basis and will serve as Marriott’s world-wide headquarters. We will serve as the development manager for the joint venture and expect to begin construction in 2018.

As of June 30, 2017, our development pipeline consists of nine development/redevelopment projects representing approximately 4.7 million net rentable square feet and our share of the estimated total investment of approximately \$2.9 billion, of which approximately \$1.3 billion of equity remained to be invested as of June 30, 2017. As of August 3, 2017, approximately 66% of the commercial space in these development projects is pre-leased. In addition, we have begun the repositioning of several of our properties, including 399 Park Avenue and the retail and plaza at 767 Fifth Avenue (the General Motors Building) in New York City, 100 Federal Street in Boston, Massachusetts, and Metropolitan Square in Washington, DC. We expect these projects will require significant capital expenditures and, in some cases, necessitate that space is vacated for an extended period of time.

Since the beginning of the second quarter, we enhanced our liquidity and mitigated interest rate risk on our 2017 loan maturities with commitments for an aggregate of \$4.3 billion of debt funding. First, on April 24, 2017 we amended and restated our unsecured line of credit (as amended and restated, the “2017 Credit Facility”) to, among other things: (1) increase the total commitment of the revolving line of credit (the “Revolving Facility”) from \$1.0 billion to \$1.5 billion, (2) extend the maturity date from July 26, 2018 to April 24, 2022, (3) reduce the per annum variable interest rates, and (4) add a \$500.0 million delayed draw term loan facility (the “Delayed Draw Facility”) that allows us to delay drawing funds for up to one year from the closing date. Second, on June 7, 2017 the consolidated joint venture entity in which we have a 60% interest and which owns 767 Fifth Avenue (the General Motors Building) located in New York City completed the refinancing of indebtedness totaling \$1.6 billion that had been secured by direct and indirect

interests in the property. The new mortgage financing has a principal amount of \$2.3 billion, bears interest at a fixed rate of 3.43% per annum and matures on June 9, 2027.

In addition, on July 28, 2017, Colorado Center, a joint venture in which we own a 50% interest, obtained mortgage financing totaling \$550.0 million. The mortgage bears interest at a rate of 3.56% and matures on August 9, 2027. The venture distributed proceeds of \$251.0 million to each partner.

Table of Contents

Given the relatively low interest rates currently available to us in the debt markets, we may elect to supplement our liquidity position to provide additional capacity to fund our remaining capital requirements for existing development and redevelopment projects and pursue attractive additional investment opportunities. Depending on the type and timing of financing, raising capital may result in us carrying additional cash and cash equivalents pending our use of the proceeds.

The same factors that create challenges to acquiring assets present opportunities for us to continue to review our portfolio to identify properties that may no longer fit within our portfolio strategy or could attract premium pricing in the current market environment as potential sales candidates. We expect to sell a modest number of non-core assets in 2017, subject to market conditions.

A brief overview of each of our markets follows.

Boston

The greater Boston region continues to attract life science and established technology companies, as well as start-up technology and maker organizations. The Boston CBD submarket continues to be driven by lease expirations from traditional financial and professional services tenants and a steady flow of new technology companies moving into the CBD. We made significant progress leasing the vacant space at our 200 Clarendon Street property by signing approximately 134,000 square feet of leases since the first quarter, and we have approximately 54,000 square feet of leases under negotiation. Excluding 200 Clarendon Street, our CBD portfolio is 97% leased. Our most active leasing opportunity is at the first phase of our Hub on Causeway development project with approximately 220,000 square feet that is not yet leased. We expect to complete the development of this phase of the project in 2019.

The Cambridge office market continues to be very tight and expensive overall, in certain cases, forcing tenants to consider alternate locations, like our Hub on Causeway project. Our 1.6 million square foot in-service office portfolio in Cambridge is dominated by large users and is 100% occupied.

Our suburban Waltham/Lexington submarket continues to strengthen due to the organic growth of our existing tenant base and other tenants in the market looking for space to accommodate their expanding workforces. At our recently redeveloped Reservoir Place North property in Waltham, Massachusetts, we are in discussions with a tenant to lease 100% of this approximately 73,000 square foot building.

Los Angeles

During the second quarter, we completed a lease expansion with an existing tenant at our Colorado Center joint venture asset in Santa Monica, California for approximately 63,000 square feet, which brings the percentage committed from 65.5% at acquisition on July 1, 2016 to approximately 93% as of June 30, 2017. We have proposals ongoing for the remaining space, but we believe that overall leasing activity for larger spaces has moderated. In our first year of ownership, our approach to property management, leasing and commitment to invest capital has transformed this once under-leased asset into a top-tier property in the marketplace. As a direct result of our operational success, on July 28, 2017, we placed a \$550.0 million, 10-year mortgage on this previously unencumbered asset. We continue to execute on our repositioning plans and are currently working with local permitting authorities to commence construction on an amenities enhancement project in late 2017.

We are committed to growing our presence and portfolio in the Los Angeles market and expect to continue to underwrite investment opportunities in this market while maintaining our disciplined investment approach.

New York

Our overall expectations for the midtown Manhattan office market and the leasing activity in our portfolio have been generally consistent with recent quarters. New supply continues to come into the market in the form of new deliveries and large lease expirations. As a result, tenants have increasing options and therefore we are not anticipating significant growth in office rents in the near-term and we are witnessing higher tenant concessions. However, we are encouraged, in the second quarter, by an increase in relocations of tenants to high-end space at rental rates in excess of \$100 per square foot. Our New York City portfolio remains well leased at 92.9% with 6% rollover throughout the remainder of 2017.

In July 2017, we completed an important lease renewal with Aramis (Estee Lauder) at 767 Fifth Avenue (the General Motors Building). They are currently a 295,000 square foot tenant and have committed to a minimum of 220,000 square feet with a right to expand. This transaction limits the available space for the next several years.

Our largest lease expiration exposure will occur in the third quarter 2017 with approximately 286,000 square feet of expirations at 399 Park Avenue. We have good activity on this space with tours and proposals with revenue from replacement tenants expected to begin in 2019.

Table of Contents

San Francisco

The San Francisco CBD leasing market remains healthy and among the strongest markets in the United States. We continue to benefit from this strength as evidenced by the approximately 226,000 square feet of second generation leases that commenced during the second quarter of 2017, which have been vacant for less than one year and provide an average increase in net rental obligation of approximately 61.0%.

Our near-term leasing focus remains on the lease up of Salesforce Tower, for which we signed leases totaling approximately 174,000 square feet in the second quarter of 2017. As of August 3, 2017, Salesforce Tower is 82% leased. We are in lease negotiations for another five floors totaling approximately 116,000 square feet which, if signed, would bring the project to approximately 90% leased and tour activity remains active. We expect the first tenants to occupy this building in the first quarter of 2018.

Washington, DC

Overall market conditions in the Washington CBD have not changed in any meaningful way over the past few quarters. Leasing activity remains very competitive primarily because there has been no significant increase in demand. Outside of the district, our Reston Town Center properties are approximately 96.7% leased and leasing activity is healthy for our available and near-term expiring space.

The table below details the leasing activity during the three and six months ended June 30, 2017:

- Transactions during the three months ended June 30, 2017 included the following:
- On April 19, 2017, we completed the sale of an approximately 9.5-acre parcel of land at 30 Shattuck Road located in Andover, Massachusetts for a gross sale price of \$5.0 million. Net cash proceeds totaled approximately \$5.0 million, resulting in a gain on sale of real estate totaling approximately \$3.7 million.
- On April 24, 2017, BPLP entered into the 2017 Credit Facility. Among other things, the 2017 Credit Facility
- (1) increased the total commitment of the Revolving Facility from \$1.0 billion to \$1.5 billion, (2) extended the maturity date from July 26, 2018 to April 24, 2022, (3) reduced the per annum variable interest rates, and (4) added a \$500.0 million Delayed Draw Facility that permits BPLP to draw until the first anniversary of the closing date. Based on BPLP's current credit rating, (1) the applicable Eurocurrency margins for the Revolving Facility and Delayed Draw Facility are 87.5 basis points and 95 basis points, respectively, and (2) the facility fee on the Revolving Facility commitment is 0.15% per annum. The Delayed Draw Facility has a fee on unused commitments equal to 0.15% per annum (See Note 5 to the Consolidated Financial Statements).
- On April 6, 2017, we commenced the development of 145 Broadway, a build-to-suit Class A office project with approximately 485,000 net rentable square feet located in Cambridge, Massachusetts. The property is 98% leased.
- On May 15, 2017, we acquired 103 Carnegie Center located in Princeton, New Jersey for a purchase price of approximately \$15.8 million in cash. 103 Carnegie Center is an approximately 96,000 net rentable square foot Class A office property. The property is 83% leased.
- On May 27, 2017, we completed and fully placed in-service Reservoir Place North, a Class A office redevelopment project with approximately 73,000 net rentable square feet located in Waltham, Massachusetts. The property is 0% leased.
- On June 2, 2017, BXP renewed its "at the market" ("ATM") stock offering program through which it may sell from time to time up to an aggregate of \$600.0 million of its common stock through sales agents over a three-year period. This program replaces BXP's prior \$600.0 million ATM stock offering program that was scheduled to expire on June 3, 2017. BXP intends to use the net proceeds from any offering for general business purposes, which may include investment opportunities and debt reduction. No shares of common stock have been issued under this ATM stock offering program.
- On June 7, 2017, our consolidated entity in which we have a 60% ownership interest and that owns 767 Fifth Avenue (the General Motors Building) located in New York City completed the refinancing of approximately \$1.6 billion of indebtedness that had been secured by direct and indirect interests in 767 Fifth Avenue. The new mortgage financing has a principal amount of \$2.3 billion, bears interest at a fixed interest rate of 3.43% per annum and matures on June 9, 2027. The loan requires interest-only payments during the 10-year term of the loan, with the entire principal amount due at maturity. The extinguished debt bore interest at a weighted-average rate of approximately 5.96% per annum, an effective GAAP interest rate of approximately 3.03% per annum and was scheduled to mature on October 7, 2017. There was no prepayment penalty associated with the repayment of the prior indebtedness. We recognized a net gain from early extinguishment of debt totaling approximately \$14.6 million primarily consisting of the

acceleration of the remaining balance related to the historical fair value debt adjustment. On April 24, 2017, our consolidated entity entered into an interest rate lock and commitment agreement for the financing. In conjunction with the interest rate lock and commitment agreement, the consolidated entity terminated its forward-starting interest rate swap contracts with notional

amounts aggregating \$450.0 million and cash-settled the contracts by making cash payments to the counterparties aggregating approximately \$14.4 million, which amount will increase our interest expense over the ten-year term of the financing, resulting in an effective GAAP interest rate on the financing of approximately 3.64% per annum, inclusive of the amortization of financing costs and additional mortgage recording taxes.

On June 13, 2017, we completed the sale of 40 Shattuck Road located in Andover, Massachusetts for a gross sale price of \$12.0 million. Net cash proceeds totaled approximately \$11.9 million, resulting in a gain on sale of real estate totaling approximately \$28,000 for BXP and approximately \$0.6 million for BPLP. 40 Shattuck Road is an approximately 122,000 net rentable square foot Class A office property. The property is 71% leased.

On June 29, 2017, we executed a 99-year ground lease (including extension options), with the right to purchase prior to 10 years after stabilization of the development project as defined in the lease, land adjacent to the MacArthur BART station located in Oakland, California. We have commenced development of a 402-unit residential building and supporting retail space on the site.

Transactions completed subsequent to June 30, 2017 included the following:

On July 26, 2017, a joint venture between us and The Bernstein Companies entered into a build-to-suit lease agreement with an affiliate of Marriott International, Inc. under which Marriott will lease 100% of an approximately 720,000 square foot office building and below-grade parking garage to be constructed by the joint venture at 7750 Wisconsin Avenue in Bethesda, Maryland. The joint venture will lease the office building to Marriott for 20 years on a net basis and will serve as Marriott's world-wide headquarters. We and The Bernstein Companies will each own a 50% interest in the joint venture. We will serve as development manager for the venture and expect to commence construction in 2018. Marriott has agreed to fund 100% of the related tenant improvement costs and leasing commissions for the office building.

On July 28, 2017, a joint venture in which we have a 50% interest obtained mortgage financing collateralized by its Colorado Center property totaling \$550.0 million. The mortgage financing bears interest at a fixed rate of 3.56% per annum and matures on August 9, 2027. The loan requires interest-only payments during the 10-year term of the loan, with the entire principal amount due at maturity. Colorado Center is a six-building office complex that sits on a 15-acre site and contains an aggregate of approximately 1,184,000 net rentable square feet with an underground parking garage for 3,100 vehicles located in Santa Monica, California.

Critical Accounting Policies

Management's Discussion and Analysis of Financial Condition and Results of Operations discuss our Consolidated Financial Statements, which have been prepared in accordance with generally accepted accounting principles ("GAAP"). The preparation of these financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Certain accounting policies are considered to be critical accounting policies, as they require management to make assumptions about matters that are highly uncertain at the time the estimate is made and changes in accounting estimate are reasonably likely to occur from period to period. Management bases its estimates and assumptions on historical experience and current economic conditions. On an on-going basis, management evaluates its estimates and assumptions including those related to revenue, impairment of long-lived assets and the allowance for doubtful accounts. Actual results may differ from those estimates and assumptions.

Our Annual Report on Form 10-K for the year ended December 31, 2016 contains a discussion of our critical accounting policies, except for our policies established following the adoption of each of ASU 2016-09 and ASU 2017-01. The adoption of each of ASU 2016-09 and ASU 2017-01 is discussed in Note 2 to our Consolidated Financial Statements. Management discusses and reviews our critical accounting policies and management's judgments and estimates with BXP's Audit Committee.

Results of Operations for the Six Months Ended June 30, 2017 and 2016

Net income attributable to Boston Properties, Inc. common shareholders and net income attributable to Boston Properties Limited Partnership common unitholders decreased approximately \$47.6 million and \$54.7 million for the six months ended June 30, 2017 compared to 2016, respectively, as detailed in the following tables and for the reasons discussed below under the heading "Comparison of the six months ended June 30, 2017 to the six months ended

At June 30, 2017 and June 30, 2016, we owned or had interests in a portfolio of 175 and 168 properties, respectively (in each case, the “Total Property Portfolio”). As a result of changes within our Total Property Portfolio, the financial data shows significant changes in revenue and expenses from period-to-period. Accordingly, we do not believe that our period-to-period financial data with respect to the Total Property Portfolio is necessarily meaningful. Therefore, the comparison of operating results for the three and six months ended June 30, 2017 and 2016 show separately the changes attributable to the properties that were owned by us and in-service throughout each period compared (the “Same Property Portfolio”) and the changes attributable to the properties included in the Placed In-Service, Acquired, Development or Redevelopment or Sold Portfolios.

In our analysis of operating results, particularly to make comparisons of net operating income between periods meaningful, it is important to provide information for properties that were in-service and owned by us throughout each period presented. We refer to properties acquired or placed in-service prior to the beginning of the earliest period presented and owned by us and in-service through the end of the latest period presented as our Same Property Portfolio. The Same Property Portfolio therefore excludes properties placed in-service, acquired or in development or redevelopment after the beginning of the earliest period presented or disposed of prior to the end of the latest period presented.

Table of Contents

Net operating income (“NOI”) is a non-GAAP financial measure equal to net income attributable to Boston Properties, Inc. common shareholders or net income attributable to Boston Properties Limited Partnership common unitholders, as applicable, the most directly comparable GAAP financial measures, plus (1) preferred dividends/distributions, noncontrolling interests, interest expense, depreciation and amortization expense, transaction costs and general and administrative expense less (2) gains on sales of real estate, gains from early extinguishments of debt, gains from investments in securities, interest and other income, income from unconsolidated joint ventures and development and management services revenue. We use NOI internally as a performance measure and believe it provides useful information to investors regarding our financial condition and results of operations because, when compared across periods, it reflects the impact on operations from trends in occupancy rates, rental rates, operating costs and acquisition and development activity on an unleveraged basis, providing perspective not immediately apparent from net income attributable to Boston Properties, Inc. common shareholders and net income attributable to Boston Properties Limited Partnership common unitholders. For example, interest expense is not necessarily linked to the operating performance of a real estate asset and is often incurred at the corporate level as opposed to the property level. Similarly, interest expense may be incurred at the property level even though the financing proceeds may be used at the corporate level (e.g., for other investment activity). In addition, because of historical cost accounting and useful life estimates, depreciation and amortization expense may distort operating performance measures at the property level. NOI presented by us may not be comparable to NOI reported by other REITs or real estate companies that define NOI differently.

We believe that, in order to facilitate a clear understanding of our operating results, NOI should be examined in conjunction with net income attributable to Boston Properties, Inc. common shareholders and net income attributable to Boston Properties Limited Partnership common unitholders as presented in our Consolidated Financial Statements. NOI should not be considered as a substitute for net income attributable to Boston Properties, Inc. common shareholders or net income attributable to Boston Properties Limited Partnership common unitholders (determined in accordance with GAAP) or any other GAAP financial measures and should only be considered together with and as a supplement to our financial information prepared in accordance with GAAP.

The gains on sales of real estate and depreciation expense may differ between BXP and BPLP as a result of previously applied acquisition accounting by BXP for the issuance of common stock in connection with non-sponsor OP Unit redemptions by BPLP. This accounting resulted in a step-up of the real estate assets at BXP that was allocated to certain properties. The difference between the real estate assets of BXP as compared to BPLP for certain properties having an allocation of the real estate step-up will result in a corresponding difference in the gains on sales of real estate and depreciation expense when those properties are sold. For additional information see the Explanatory Note that follows the cover page of this Form 10-Q.

Comparison of the six months ended June 30, 2017 to the six months ended June 30, 2016.

The table below shows selected operating information for the Same Property Portfolio and the Total Property Portfolio. The Same Property Portfolio consists of 144 properties totaling approximately 38.6 million net rentable square feet of space, excluding unconsolidated joint ventures. The Same Property Portfolio includes properties acquired or fully placed in-service on or prior to January 1, 2016 and owned and in-service through June 30, 2017. The Total Property Portfolio includes the effects of the other properties either placed in-service, acquired or in development or redevelopment after January 1, 2016 or disposed of on or prior to June 30, 2017. This table includes a reconciliation from the Same Property Portfolio to the Total Property Portfolio by also providing information for the six months ended June 30, 2017 and 2016 with respect to the properties that were placed in-service, acquired, in development or redevelopment or sold.

For a detailed discussion of NOI, including the reasons management believes NOI is useful to investors, see page 48. Residential Net Operating Income for the six months ended June 30, 2017 and 2016 is comprised of Residential (1)Revenue of \$8,166 and \$8,137, less Residential Expenses of \$3,186 and \$3,206, respectively. Hotel Net Operating Income for the six months ended June 30, 2017 and 2016 is comprised of Hotel Revenue of \$20,795 and \$21,565 less Hotel Expenses of \$15,495 and \$15,612, respectively, per the Consolidated Statements of Operations.

Same Property Portfolio

Rental Revenue

Rental revenue from the Same Property Portfolio increased approximately \$37.3 million for the six months ended June 30, 2017 compared to 2016. The increase was primarily the result of an increase in revenue from our leases and parking and other income of approximately \$36.5 million and \$1.6 million, respectively, partially offset by a decrease in other tenant recoveries of approximately \$0.8 million. Rental revenue from our leases increased approximately \$36.5 million as a result of our average revenue per square foot increasing by approximately \$2.25, which contributed approximately \$39.0 million, partially offset by a decrease of approximately \$2.5 million due to a decrease in average occupancy from 91.8% to 91.6%.

Termination Income

Termination income decreased by approximately \$39.9 million for the six months ended June 30, 2017 compared to 2016.

Termination income for the six months ended June 30, 2017 related to twenty tenants across the Same Property Portfolio and totaled approximately \$19.0 million, of which approximately \$11.2 million and \$5.1 million are from tenants that terminated leases early at 767 Fifth Avenue (the General Motors Building) and 399 Park Avenue, respectively. Both of these buildings are located in New York City. In addition, we received the fifth interim distribution from our unsecured credit claim against Lehman Brothers, Inc. of approximately \$0.4 million (See Note 7 to the Consolidated Financial Statements). Recently, claims of similar priority to that of our remaining claim were quoted privately reflecting a value for our remaining claim of approximately \$1.0 million; however, there can be no assurance as to the timing or amount of additional proceeds, if any, that we may receive.

Termination income for the six months ended June 30, 2016 related to twenty-six tenants across the Same Property Portfolio and totaled approximately \$58.8 million, of which approximately \$58.2 million was from our New York region. On February 3, 2016, we entered into a lease termination agreement with a tenant for an approximately 85,000 square foot lease at our 250 West 55th Street property located in New York City. The lease was scheduled to expire on February 28, 2035. In consideration for the termination of the lease, the tenant paid us approximately \$45.0 million. In addition, we received notice that we would receive the fourth interim distribution from our unsecured credit claim against Lehman Brothers, Inc. of approximately \$1.4 million, which we accrued during the six months ended June 30, 2016 and received on July 5, 2016 (See Note 7 to the Consolidated Financial Statements). The remaining approximately \$11.8 million of termination income from the New York region was primarily related to negotiated early releases with three other tenants.

Real Estate Operating Expenses

Real estate operating expenses from the Same Property Portfolio increased approximately \$14.5 million for the six months ended June 30, 2017 compared to 2016 due primarily to increases in real estate taxes and other real estate operating expenses of approximately \$10.3 million, or 5.1%, and \$4.2 million, or 1.9%, respectively. The increase in real estate taxes was primarily experienced in the New York CBD properties.

Properties Placed In-Service Portfolio

The table below lists the properties placed in-service or partially placed in-service from January 1, 2016 through June 30, 2017. Rental revenue and real estate operating expenses from our Properties Placed In-Service Portfolio increased approximately \$14.9 million and \$5.0 million, respectively, for the six months ended June 30, 2017 compared to 2016 as detailed below.

(1) This is the low-rise portion of 601 Lexington Avenue in New York City. Rental revenue includes termination income of approximately \$(1.5) million and \$0.1 million for the six months ended June 30, 2017 and 2016, respectively. In addition, real estate operating expense for the six months ended June 30, 2017 includes approximately \$3.6 million of demolition costs.

(2) Real estate operating expenses for the six months ended June 30, 2017 includes approximately \$2.6 million of demolition costs.

(3) On April 6, 2017, we commenced the development of 145 Broadway, a build-to-suit Class A office project with approximately 485,000 net rentable square feet located in Cambridge, Massachusetts. Real estate operating expenses for the six months ended June 30, 2017 includes approximately \$0.8 million of demolition costs.

Properties Sold Portfolio

The table below lists the properties we sold between January 1, 2016 and June 30, 2017. Rental revenue and real estate operating expenses from our Properties Sold Portfolio decreased approximately \$1.9 million and \$0.5 million, respectively, for the six months ended June 30, 2017 compared to 2016 as detailed below.

Residential Net Operating Income

Net operating income for our residential same properties increased by approximately \$49,000 for the six months ended June 30, 2017 compared to 2016.

The following reflects our occupancy and rate information for The Lofts at Atlantic Wharf and The Avant at Reston Town Center for the six months ended June 30, 2017 and 2016.

	The Lofts at Atlantic Wharf			The Avant at Reston Town Center		
	2017	2016	Percentage Change	2017	2016	Percentage Change
Average Monthly Rental Rate (1)	\$4,224	\$4,153	1.7 %	\$2,378	\$2,347	1.3 %
Average Rental Rate Per Occupied Square Foot	\$4.69	\$4.57	2.6 %	\$2.61	\$2.57	1.6 %
Average Physical Occupancy (2)	94.6 %	96.1 %	(1.6)%	92.9 %	93.4 %	(0.5)%
Average Economic Occupancy (3)	95.3 %	97.6 %	(2.4)%	92.2 %	93.3 %	(1.2)%

(1) Average Monthly Rental Rate is defined as rental revenue in accordance with GAAP, divided by the weighted monthly average number of occupied units.

(2) Average Physical Occupancy is defined as the average number of occupied units divided by the total number of units, expressed as a percentage.

Average Economic Occupancy is defined as total possible revenue less vacancy loss as a percentage of total possible revenue. Total possible revenue is determined by valuing average occupied units at contract rates and average vacant units at Market Rents. Vacancy loss is determined by valuing vacant units at current Market Rents. By measuring vacant units at their Market Rents, Average Economic Occupancy takes into account the fact that units of different sizes and locations within a residential property have different economic impacts on a residential property's total possible gross revenue. Market Rents used by us in calculating Economic Occupancy are based on the current market rates set by the managers of our residential properties based on their experience in renting their residential property's units and publicly available market data. Trends in market rents for a region as reported by others could vary. Market Rents for a period are based on the average Market Rents during that period and do not reflect any impact for cash concessions.

Hotel Net Operating Income

Net operating income for the Boston Marriott Cambridge hotel property decreased by approximately \$0.7 million for the six months ended June 30, 2017 compared to 2016, which was partially due to the hotel undergoing a rooms renovation project on all of its 433 rooms that was substantially completed during the first half of 2017. We expect our hotel to contribute between \$13 million and \$15 million to net operating income for 2017.

The following reflects our occupancy and rate information for the Boston Marriott Cambridge hotel for the six months ended June 30, 2017 and 2016.

	2017	2016	Percentage Change

Development and Management Services

Development and management services revenue increased an aggregate of approximately \$1.6 million for the six months ended June 30, 2017 compared to 2016. Development and management services revenue increased by approximately \$0.1 million and \$1.5 million, respectively. Management services revenue increased primarily due to property management fees we earned from our Colorado Center unconsolidated joint venture, which we acquired on July 1, 2016, in Santa Monica, California, as well as an increase in service income that we earned from our tenants.

We expect our development and management services revenue to contribute between \$30 million and \$33 million for 2017.

General and Administrative

General and administrative expense increased approximately \$3.8 million for the six months ended June 30, 2017 compared to 2016 primarily due to compensation expense and other general and administrative expenses increasing by approximately \$3.1 million and \$0.7 million, respectively. The increase in compensation expense was primarily related to (1) an approximately \$1.0 million increase in the value of our deferred compensation plan, (2) an approximately \$1.5 million difference between the unrecognized expense remaining from the 2014 MYLTIP Units compared to the expense that was recognized during the six months ended June 30, 2017 for the newly issued 2017 MYLTIP Units (See Notes 8 and 11 to the Consolidated Financial Statements) and (3) an increase in other compensation related expenses of approximately \$0.6 million. The increase in other general and administrative expenses was primarily related to the write off of the remaining fees associated with BXP's ATM stock offering program that expired on June 3, 2017 and an increase in other professional fees. We expect our general and administrative expenses to be between \$110 million and \$115 million for 2017.

Wages directly related to the development and leasing of rental properties are capitalized and included in real estate assets or deferred charges on our Consolidated Balance Sheets and amortized over the useful lives of the applicable asset. Capitalized wages for the six months ended June 30, 2017 and 2016 were approximately \$8.9 million and \$8.8 million, respectively. These costs are not included in the general and administrative expenses discussed above.

Transaction Costs

Transaction costs decreased approximately \$0.6 million for the six months ended June 30, 2017 compared to 2016. This decrease was primarily related to the acquisition of 3625-3635 Peterson Way in Santa Clara, California, which was completed on April 22, 2016, and the acquisition of a 49.8% interest in an existing joint venture that owns and operates Colorado Center in Santa Monica, California on July 1, 2016. In general, transaction costs relate to the formation of new and pending joint ventures, pending and completed asset sales and the pursuit of other transactions, including acquisitions. However, in January 2017, the FASB issued ASU 2017-01, "Business Combinations (Topic 805): Clarifying the Definition of a Business" ("ASU 2017-01") and we chose to early adopt it during the first quarter of 2017. We expect that acquisitions of real estate or in-substance real estate will not meet the revised definition of a business and as such we expect we will no longer be required to expense transaction costs for acquisitions (See Note 2 to the Consolidated Financial Statements).

Depreciation and Amortization

Depreciation expense may differ between BXP and BPLP as a result of previously applied acquisition accounting by BXP for the issuance of common stock in connection with non-sponsor OP Unit redemptions by BPLP. This accounting resulted in a step-up of the real estate assets at BXP that was allocated to certain properties. The difference between the real estate assets of BXP as compared to BPLP for certain properties having an allocation of the real estate step-up will result in a corresponding difference in depreciation expense. For additional information, see the Explanatory Note that follows the cover page of this Form 10-Q.

Boston Properties, Inc.

Depreciation and amortization expense decreased approximately \$1.5 million for the six months ended June 30, 2017 compared to 2016, as detailed below.

Other Income and Expense Items

Income from Unconsolidated Joint Ventures

For the six months ended June 30, 2017 compared to 2016, income from unconsolidated joint ventures increased by approximately \$2.2 million due primarily to an increase in our share of net income from Colorado Center, which we acquired on July 1, 2016, located in Santa Monica, California partially offset by a decrease in our share of net income from the Annapolis Junction joint venture. The decrease in our share of net income from our Annapolis Junction joint venture is primarily due to a decrease in occupancy as well as an increase in interest expense related to Annapolis Junction Building One's mortgage loan having an event of default and, commencing October 17, 2016, the property being charged interest at the default interest rate. For additional information pertaining to the Annapolis Junction Building One mortgage loan refer to "Item 2—Management's Discussion and Analysis of Financial Condition and Results of Operations—Capitalization—Off-Balance Sheet Arrangements—Joint Venture Indebtedness."

Interest and Other Income

Interest and other income decreased approximately \$0.9 million for the six months ended June 30, 2017 compared to 2016 due primarily to a decrease in our average cash balance for the six months ended June 30, 2017 compared to 2016.

Gains from Early Extinguishments of Debt

On June 7, 2017, our consolidated entity in which we have a 60% ownership interest and that owns 767 Fifth Avenue (the General Motors Building) located in New York City completed the refinancing of approximately \$1.6 billion of indebtedness that had been secured by direct and indirect interests in 767 Fifth Avenue. The new mortgage financing has a principal amount of \$2.3 billion, bears interest at a fixed interest rate of 3.43% per annum and matures on June 9, 2027. The loan requires interest-only payments during the 10-year term of the loan, with the entire principal amount due at maturity. The extinguished debt bore interest at a weighted-average rate of approximately 5.96% per annum, an effective GAAP interest rate of approximately 3.03% per annum and was scheduled to mature on October 7, 2017. There was no prepayment penalty associated with the repayment of the prior indebtedness. We recognized a net gain from early extinguishment of debt totaling approximately \$14.6 million primarily consisting of the acceleration of the remaining balance related to the historical fair value debt adjustment.

On April 24, 2017, BPLP entered into the 2017 Credit Facility (See Note 5 to the Consolidated Financial Statements). Certain lenders, under the prior credit facility, chose to not participate in the 2017 Credit Facility and as such we recognized a loss on early extinguishment of debt of approximately \$0.3 million related to the acceleration of finance fees related to the prior credit agreement.

Gains from Investments in Securities

Gains from investments in securities for the six months ended June 30, 2017 and 2016 related to investments that we have made to reduce our market risk relating to a deferred compensation plan that we maintain for BXP's officers. Under this deferred compensation plan, each officer who is eligible to participate is permitted to defer a portion of the officer's current income on a pre-tax basis and receive a tax-deferred return on these deferrals based on the

performance of specific investments selected by the officer. In order to reduce our market risk relating to this plan, we typically acquire, in a separate account that is

54

Table of Contents

not restricted as to its use, similar or identical investments as those selected by each officer. This enables us to generally match our liabilities to BXP's officers under the deferred compensation plan with equivalent assets and thereby limit our market risk. The performance of these investments is recorded as gains from investments in securities. During the six months ended June 30, 2017 and 2016, we recognized gains of approximately \$1.8 million and \$0.7 million, respectively, on these investments. By comparison, our general and administrative expense increased by approximately \$1.8 million and \$0.8 million during the six months ended June 30, 2017 and 2016, respectively, as a result of an increase in our liability under our deferred compensation plan that were associated with the performance of the specific investments selected by our officers participating in the plan.

Interest Expense

Interest expense decreased approximately \$19.6 million for the six months ended June 30, 2017 compared to 2016 as detailed below.

Component	Change in interest expense for the six months ended June 30, 2017 compared to June 30, 2016 (in thousands)
Increases to interest expense due to:	
Issuance of \$1.0 billion in aggregate principal of 2.750% senior notes due 2026 on August 17, 2016	\$ 16,528
Issuance of \$1.0 billion in aggregate principal of 3.650% senior notes due 2026 on January 20, 2016	1,951

Amortization of deferred financing fees for BPLP's unsecured debt and credit facility	662
Total increases to interest expense	22,141
Decreases to interest expense due to:	
Repayment of mortgage financings (2)	(33,869)
Increase in capitalized interest (3)	(7,460)
Decrease in the interest for the Outside Members' Notes Payable for the 767 Fifth Avenue (the General Motors Building) (4)	(439)
Other interest expense (excluding senior notes)	(8)
Total decreases to interest expense	(41,776)
Total change in interest expense	\$ (19,635)

(1) See Note 5 to the Consolidated Financial Statements.

(2) Includes the repayment of the mortgage loans collateralized Fountain Square, Embarcadero Center Four and 599 Lexington Avenue.

The increase was primarily due to the commencement and continuation of several development projects. For a list of development projects refer to "Liquidity and Capital Resources" within "Item 2—Management's Discussion and Analysis of Financial Condition and Results of Operations."

(3) The related interest expense from the Outside Members' Notes Payable totaled approximately \$16.3 million and \$16.7 million for the six months ended June 30, 2017 and 2016, respectively. These amounts are allocated to the outside joint venture partners as an adjustment to Noncontrolling Interests in Property Partnerships in our Consolidated Statements of Operations. On June 7, 2017, a portion of the outside members' notes payable was repaid and the remaining portion was contributed as equity in the consolidated entity (See Notes 5 and 8 to the Consolidated Financial Statements).

Interest expense directly related to the development of rental properties is capitalized and included in real estate assets on our Consolidated Balance Sheets and amortized over the useful lives of the real estate. As portions of properties are placed in-service, we cease capitalizing interest on that portion and interest is then expensed. Interest capitalized for the six months ended June 30, 2017 and 2016 was approximately \$26.6 million and \$19.2 million, respectively. These costs are not included in the interest expense referenced above.

Table of Contents

We estimate net interest expense, which includes debt extinguishment costs, will be approximately \$355 million to \$368 million for 2017. This amount is net of approximately \$50 million to \$60 million of estimated capitalized interest. In addition, if we refinance, prepay or repurchase existing indebtedness prior to its maturity, we may incur prepayment penalties, realize the acceleration of amortized costs, and our actual interest expense may differ materially from the estimates above.

At June 30, 2017, our variable rate debt consisted of BPLP's \$2.0 billion 2017 Credit Facility, of which no amount was outstanding at June 30, 2017. For a summary of our consolidated debt as of June 30, 2017 and June 30, 2016 refer to the heading "Liquidity and Capital Resources—Capitalization—Debt Financing" within "Item 2—Management's Discussion and Analysis of Financial Condition and Results of Operations."

Gains on Sales of Real Estate

The gains on sales of real estate may differ between BXP and BPLP as a result of previously applied acquisition accounting by BXP for the issuance of common stock in connection with non-sponsor OP Unit redemptions by BPLP. This accounting resulted in a step-up of the real estate assets at BXP that was allocated to certain properties. The difference between the real estate assets of BXP as compared to BPLP for certain properties having an allocation of the real estate step-up will result in a corresponding difference in the gains on sales of real estate when those properties are sold. For additional information, see the Explanatory Note that follows the cover page of this Form 10-Q.

Boston Properties, Inc.

Gains on sales of real estate decreased approximately \$63.7 million for the six months ended June 30, 2017 compared to 2016, respectively, as detailed below.

Excludes approximately \$6.8 million of a gain on sale of real estate recognized during the six months ended (2) June 30, 2016 related to a previously deferred gain amount from the 2014 sale of Patriots Park located in Reston, Virginia.

Noncontrolling interests in property partnerships

Noncontrolling interests in property partnerships increased by approximately \$2.3 million for the six months ended June 30, 2017 compared to 2016 as detailed below.

Property	Noncontrolling Interests in Property Partnerships for the six months ended June 30,		
	2017	2016	Change

Atlantic Wharf Office	4,679	4,627	52
	\$19,627	\$17,278	\$2,349

The net loss allocation is primarily due to the partners' share of the interest expense for the outside members' notes payable which was \$16.3 million and \$16.7 million for the six months ended June 30, 2017 and 2016, respectively.

(1) On June 7, 2017, a portion of the outside members' notes payable was repaid and the remaining portion was contributed as equity in the consolidated entity (See Notes 5 and 8 to the Consolidated Financial Statements).

On August 19, 2016, the consolidated entity in which we have a 55% interest and that owns this property commenced the redevelopment of the six-story low-rise office and retail building component of the complex. The (2) redeveloped portion of the low-rise building will contain approximately 195,000 net rentable square feet of Class A office space and approximately 25,000 net rentable square feet of retail space.

Noncontrolling interest - Common Units of the Operating Partnership

For BXP, noncontrolling interest—common units of the Operating Partnership decreased by approximately \$5.8 million for the six months ended June 30, 2017 compared to 2016 due primarily to decreases in allocable income, which was the result of recognizing a greater gain on sales of real estate amount during 2016 and in the noncontrolling interest's ownership percentage. Due to our UPREIT ownership structure, there is no corresponding line item on BPLP's financial statements.

Comparison of the three months ended June 30, 2017 to the three months ended June 30, 2016.

The table below shows selected operating information for the Same Property Portfolio and the Total Property Portfolio. The Same Property Portfolio consists of 144 properties totaling approximately 38.6 million net rentable square feet of space, excluding unconsolidated joint ventures. The Same Property Portfolio includes properties acquired or fully placed in-service on or prior to April 1, 2016 and owned and in-service through June 30, 2017. The Total Property Portfolio includes the effects of the other properties either placed in-service, acquired or in development or redevelopment after April 1, 2016 or disposed of on or prior to June 30, 2017. This table includes a reconciliation from the Same Property Portfolio to the Total Property Portfolio by also providing information for the three months ended June 30, 2017 and 2016 with respect to the properties that were placed in-service, acquired, in development or redevelopment or sold.

Same Property Portfolio

Rental Revenue

Rental revenue from the Same Property Portfolio increased by approximately \$23.7 million for the three months ended June 30, 2017 compared to 2016. The increase was primarily the result of increases in revenue from our leases, other tenant recoveries and parking and other income of approximately \$22.6 million, \$0.9 million, and \$0.2 million, respectively. Rental revenue from our leases increased approximately \$22.6 million as a result of our average revenue per square foot increasing by approximately \$2.50, which contributed approximately \$21.7 million, and an approximately \$0.9 million increase due to our average occupancy increasing from 91.70% to 91.74%.

Termination Income

Termination income increased by approximately \$6.1 million for the three months ended June 30, 2017 compared to 2016.

Termination income for the three months ended June 30, 2017 related to sixteen tenants across the Same Property Portfolio and totaled approximately \$13.6 million, of which approximately \$6.3 million and \$5.1 million are from tenants that terminated leases early at 767 Fifth Avenue (the General Motors Building) and 399 Park Avenue, respectively. Both of these buildings are located in New York City. In addition, we received the fifth interim distribution from our unsecured credit claim against Lehman Brothers, Inc. of approximately \$0.4 million (See Note 7 to the Consolidated Financial Statements). Recently, claims of similar priority to that of our remaining claim were quoted privately reflecting a value for our remaining claim of approximately \$1.0 million; however, there can be no assurance as to the timing or amount of additional proceeds, if any, that we may receive.

Termination income for the three months ended June 30, 2016 related to sixteen tenants across the Same Property Portfolio and totaled approximately \$7.5 million, of which approximately \$5.5 million was from our New York region and related to negotiated early releases with a tenant. In addition, we received notice that we would receive the fourth interim distribution from our unsecured credit claim against Lehman Brothers, Inc. of approximately \$1.4 million, which we accrued during the three months ended June 30, 2016 and received on July 5, 2016 (See Note 7 to the Consolidated Financial Statements).

Real Estate Operating Expenses

Real estate operating expenses from the Same Property Portfolio increased by approximately \$8.3 million, or 3.9%, for the three months ended June 30, 2017 compared to 2016 due primarily to increases in real estate taxes and other real estate operating expenses of approximately \$5.1 million, or 5.0%, and \$3.2 million, or 2.9%, respectively. The increase in real estate taxes was primarily experienced in the New York CBD properties.

Properties Placed In-Service Portfolio

The table below lists the properties placed in-service or partially placed in-service from April 1, 2016 through June 30, 2017. Rental revenue and real estate operating expenses increased approximately \$7.0 million and \$2.2 million, respectively, for the three months ended June 30, 2017 compared to 2016 as detailed below.

This is the low-rise portion of 601 Lexington Avenue in New York City. Rental revenue includes approximately (1) \$0.1 million of termination income for the three months ended June 30, 2016. In addition, real estate operating expenses for the three months ended June 30, 2017 includes approximately \$2.5 million of demolition costs.

(2) Real estate operating expenses for the three months ended June 30, 2017 includes approximately \$1.2 million of demolition costs.

On April 6, 2017, we commenced the development of 145 Broadway, a build-to-suit Class A office project with (3) approximately 485,000 net rentable square feet located in Cambridge, Massachusetts. Real estate operating expenses for the three months ended June 30, 2017 includes approximately \$0.8 million of demolition costs.

Properties Sold Portfolio

The table below lists the properties we sold between April 1, 2016 and June 30, 2017. Rental revenue and real estate operating expenses from our Properties Sold Portfolio decreased approximately \$93,000 and \$125,000, respectively, for the three months ended June 30, 2017 compared to 2016 as detailed below.

The following reflects our occupancy and rate information for The Lofts at Atlantic Wharf and The Avant at Reston Town Center for the three months ended June 30, 2017 and 2016.

	The Lofts at Atlantic Wharf				The Avant at Reston Town Center			
	2017	2016	Percentage Change		2017	2016	Percentage Change

Average Economic Occupancy (3)	96.9	% 96.4	% 0.5	%	94.5	% 93.9	% 0.6	%

(1) Average Monthly Rental Rate is defined as rental revenue in accordance with GAAP, divided by the weighted monthly average number of occupied units.

(2) Average Physical Occupancy is defined as the average number of occupied units divided by the total number of units, expressed as a percentage.

Average Economic Occupancy is defined as total possible revenue less vacancy loss as a percentage of total possible revenue. Total possible revenue is determined by valuing average occupied units at contract rates and average vacant units at Market Rents. Vacancy loss is determined by valuing vacant units at current Market Rents. By measuring vacant units at their Market Rents, Average Economic Occupancy takes into account the fact that units of different sizes and locations within a residential property have different economic impacts on a residential property's total possible gross revenue. Market Rents used by us in calculating Economic Occupancy are based on the current market rates set by the managers of our residential properties based on their experience in renting their residential property's units and publicly available market data. Trends in market rents for a region as reported by others could vary. Market Rents for a period are based on the average Market Rents during that period and do not reflect any impact for cash concessions.

Hotel Net Operating Income

Net operating income for the Boston Marriott Cambridge hotel property increased by approximately \$0.1 million for the three months ended June 30, 2017 compared to 2016.

The following reflects our occupancy and rate information for the Boston Marriott Cambridge hotel for the three months ended June 30, 2017 and 2016.

Average daily rate	\$304.82	\$299.42	1.8	%
Revenue per available room, REVPAR	\$261.98	\$252.34	3.8	%

Development and Management Services Revenue

Development and management services revenue increased an aggregate of approximately \$1.8 million for the three months ended June 30, 2017 compared to 2016. Development and management services revenue increased by approximately \$0.7 million and \$1.1 million, respectively. The increase in development revenue is primarily due to an increase in the development fees earned from our New York unconsolidated joint venture that is developing Dock 72 in Brooklyn, New York. Management services revenue increased primarily due to property management fees we earned from our Colorado Center unconsolidated joint venture, which we acquired on July 1, 2016, in Santa Monica, California, as well as an increase in service income that we earned from our tenants.

Operating Income and Expense Items

General and Administrative Expense

General and administrative expense increased by approximately \$1.7 million for the three months ended June 30, 2017 compared to 2016 primarily due to compensation expense and other general and administrative expenses increasing by approximately \$1.0 million and \$0.7 million, respectively. The increase in compensation expense was

primarily related to (1) an approximately \$0.2 million increase in the value of our deferred compensation plan, (2) an approximately \$0.7 million difference between the unrecognized expense remaining from the 2014 MYLTIP Units compared to the expense that was recognized during the three months ended June 30, 2017 for the newly issued 2017 MYLTIP Units (See Notes 8 and 11 to the Consolidated Financial Statements) and (3) an increase in other compensation related expenses of approximately \$0.1 million.

Table of Contents

The increase in other general and administrative expenses was primarily related to the write off of the remaining fees associated with BXP's ATM stock offering program that expired on June 3, 2017 and an increase in professional fees. Wages directly related to the development and leasing of rental properties are capitalized and included in real estate assets or deferred charges on our Consolidated Balance Sheets and amortized over the useful lives of the applicable asset. Capitalized wages for the three months ended June 30, 2017 and 2016 were approximately \$4.9 million and \$4.5 million, respectively. These costs are not included in the general and administrative expenses discussed above.

Transaction Costs

Transaction costs decreased approximately \$0.6 million for the three months ended June 30, 2017 compared to 2016. Transaction costs for the three months ended June 30, 2016 were primarily related to the acquisition of 3625-3635 Peterson Way in Santa Clara, California, which was completed on April 22, 2016, and the acquisition of a 49.8% interest in an existing joint venture that owns and operates Colorado Center in Santa Monica, California on July 1, 2016. In general, transaction costs relate to the formation of new and pending joint ventures, pending and completed asset sales and the pursuit of other transactions, including acquisitions. However, in January 2017, the FASB issued ASU 2017-01, "Business Combinations (Topic 805): Clarifying the Definition of a Business" ("ASU 2017-01") and we chose to early adopt it during the first quarter of 2017. We expect that acquisitions of real estate or in-substance real estate will not meet the revised definition of a business and as such we expect we will no longer be required to expense transaction costs for acquisitions (See Note 2 to the Consolidated Financial Statements).

Depreciation and Amortization Expense

Depreciation expense may differ between BXP and BPLP as a result of previously applied acquisition accounting by BXP for the issuance of common stock in connection with non-sponsor OP Unit redemptions by BPLP. This accounting resulted in a step-up of the real estate assets at BXP that was allocated to certain properties. The difference between the real estate assets of BXP as compared to BPLP for certain properties having an allocation of the real estate step-up will result in a corresponding difference in depreciation expense. For additional information, see the Explanatory Note that follows the cover page of this Form 10-Q.

Other Income and Expense Items

Income from Unconsolidated Joint Ventures

For the three months ended June 30, 2017 compared to 2016, income from unconsolidated joint ventures increased by approximately \$0.9 million due primarily to an increase in our share of net income from Colorado Center, which we acquired on July 1, 2016, located in Santa Monica, California partially offset by a decrease in our share of net income from the Annapolis Junction joint venture. The decrease in our share of net income from our Annapolis Junction joint venture is primarily due to a decrease in occupancy as well as an increase in interest expense related to Annapolis Junction Building One's mortgage loan having an event of default and, commencing October 17, 2016, the property being charged interest at the default interest rate. For additional information pertaining to the Annapolis Junction Building One mortgage loan refer to "Item 2—Management's Discussion and Analysis of Financial Condition and Results of Operations—Capitalization—Off-Balance Sheet Arrangements—Joint Venture Indebtedness."

Gains from Early Extinguishments of Debt

On June 7, 2017, our consolidated entity in which we have a 60% ownership interest and that owns 767 Fifth Avenue (the General Motors Building) located in New York City completed the refinancing of approximately \$1.6 billion of indebtedness that had been secured by direct and indirect interests in 767 Fifth Avenue. The new mortgage financing has a principal amount of \$2.3 billion, bears interest at a fixed interest rate of 3.43% per annum and matures on June 9, 2027. The loan requires interest-only payments during the 10-year term of the loan, with the entire principal amount due at maturity. The extinguished debt bore interest at a weighted-average rate of approximately 5.96% per annum, an effective GAAP interest rate of approximately 3.03% per annum and was scheduled to mature on October 7, 2017. There was no prepayment penalty associated with the repayment of the prior indebtedness. We recognized a net gain from early extinguishment of debt totaling approximately \$14.6 million primarily consisting of the acceleration of the remaining balance related to the historical fair value debt adjustment.

On April 24, 2017, BPLP entered into the 2017 Credit Facility (See Note 5 to the Consolidated Financial Statements). Certain lenders, under the prior credit facility, chose to not participate in the 2017 Credit Facility and as such we recognized a loss on early extinguishment of debt of approximately \$0.3 million related to the acceleration of finance fees related to the prior credit agreement.

Gains from Investments in Securities

Gains from investments in securities for the three months ended June 30, 2017 and 2016 related to investments that we have made to reduce our market risk relating to a deferred compensation plan that we maintain for BXP's officers. Under this deferred compensation plan, each officer who is eligible to participate is permitted to defer a portion of the officer's current income on a pre-tax basis and receive a tax-deferred return on these deferrals based on the performance of specific investments selected by the officer. In order to reduce our market risk relating to this plan, we typically acquire, in a separate account that is not restricted as to its use, similar or identical investments as those selected by each officer. This enables us to generally match our liabilities to BXP's officers under the deferred compensation plan with equivalent assets and thereby limit our market risk. The performance of these investments is

recorded as gains from investments in securities. During the three months ended June 30, 2017 and 2016, we recognized gains of approximately \$0.7 million and \$0.5 million, respectively, on these

65

Table of Contents

investments. By comparison, our general and administrative expense increased by approximately \$0.7 million and \$0.5 million during the three months ended June 30, 2017 and 2016, respectively, as a result of an increase in our liability under our deferred compensation plan that were associated with the performance of the specific investments selected by officers of BXP participating in the plan.

Interest Expense

Interest expense decreased by approximately \$9.9 million for the three months ended June 30, 2017 compared to 2016 as detailed below:

(1) See Note 5 to the Consolidated Financial Statements.

(2) Includes the repayment of the mortgage loans collateralized by Fountain Square, Embarcadero Center Four and 599 Lexington Avenue.

The increase was primarily due to the commencement and continuation of several development projects. For a list of development projects refer to "Liquidity and Capital Resources" within "Item 2—Management's Discussion and Analysis of Financial Condition and Results of Operations."

The related interest expense from the Outside Members' Notes Payable totaled approximately \$7.1 million and \$8.5 million for the three months ended June 30, 2017 and 2016, respectively. These amounts are allocated to the outside joint venture partners as an adjustment to Noncontrolling Interests in Property Partnerships in our Consolidated Statements of Operations. On June 7, 2017, a portion of the outside members' notes payable was repaid and the remaining portion was contributed as equity in the consolidated entity (See Notes 5 and 8 to the Consolidated Financial Statements).

Interest expense directly related to the development of rental properties is capitalized and included in real estate assets on our Consolidated Balance Sheets and amortized over the useful lives of the real estate. As portions of properties are placed in-service, we cease capitalizing interest on these portions and interest is then expensed. Interest capitalized for the three months ended June 30, 2017 and 2016 was approximately \$14.3 million and \$9.9 million, respectively. These costs are not included in the interest expense referenced above.

At June 30, 2017, our variable rate debt consisted of BPLP's \$2.0 billion 2017 Credit Facility of which no amount was outstanding at June 30, 2017. For a summary of our consolidated debt as of June 30, 2017 and June 30, 2016 refer to the heading "Liquidity and Capital Resources—Capitalization—Debt Financing" within "Item 2—Management's Discussion and Analysis of Financial Condition and Results of Operations."

Gains on Sales of Real Estate

The gains on sales of real estate may differ between BXP and BPLP as a result of previously applied acquisition accounting by BXP for the issuance of common stock in connection with non-sponsor OP Unit redemptions by BPLP. This accounting resulted in a step-up of the real estate assets at BXP that was allocated to certain properties. The difference between the real estate assets of BXP as compared to BPLP for certain properties having an allocation of the real estate step-up will result in a corresponding difference in the gains on sales of real estate when those properties are sold. For additional information, see the Explanatory Note that follows the cover page of this Form 10-Q.

Boston Properties, Inc.

Gains on sales of real estate increased by approximately \$3.8 million for the three months ended June 30, 2017 compared to 2016, respectively, as detailed below (dollars in millions):

(1) The gain on sale of real estate for this property was \$28,000.

Boston Properties Limited Partnership

Gains on sales of real estate increased by approximately \$4.3 million for the three months ended June 30, 2017 compared to 2016, respectively, as detailed below (dollars in millions):

Name	Date Sold	Property Type	Square Feet	Sale Price	Cash Proceeds	Gain on Sale of Real Estate

(1) On June 7, 2017, our consolidated entity in which we have a 60% interest completed the refinancing of indebtedness that had been secured by direct and indirect interests in 767 Fifth Avenue. We recognized a net gain from early extinguishment of debt totaling approximately \$14.6 million primarily consisting of the acceleration of the remaining balance related to the historical fair value debt

adjustment and as a result, this assisted the property in having a net income allocation for the three months ended June 30, 2017 as opposed to a net loss. Prior to this quarter, the net loss allocation was primarily due to the partners' share of the interest expense for the outside members' notes payable, which was \$7.1 million and \$8.5 million for the three months ended June 30, 2017 and 2016, respectively. On June 7, 2017, a portion of the outside members' notes payable was repaid and the remaining portion was contributed as equity in the consolidated entity (See Notes 5 and 8 to the Consolidated Financial Statements).

On August 19, 2016, the consolidated entity in which we have a 55% interest and that owns this property commenced the redevelopment of the six-story low-rise office and retail building component of the complex. The redeveloped portion of the low-rise building will contain approximately 195,000 net rentable square feet of Class A office space and approximately 25,000 net rentable square feet of retail space.

Noncontrolling Interest—Common Units of Boston Properties Limited Partnership

For BXP, noncontrolling interest—common units of Boston Properties Limited Partnership increased by approximately \$4.1 million for the three months ended June 30, 2017 compared to 2016 due primarily to an increase in allocable income partially offset by a decrease in the noncontrolling interest's ownership percentage. Due to our UPREIT ownership structure, there is no corresponding line item on BPLP's financial statements.

Liquidity and Capital Resources

General

Our principal liquidity needs for the next twelve months and beyond are to:

- fund normal recurring expenses;
 - meet debt service and principal repayment obligations, including balloon payments on maturing debt;
 - fund capital expenditures, including major renovations, tenant improvements and leasing costs;
 - fund development costs;
 - fund dividend requirements on BXP's Series B Preferred Stock;
 - fund possible property acquisitions; and
 - make the minimum distribution required to enable BXP to maintain its REIT qualification under the Internal Revenue Code of 1986, as amended.
- We expect to satisfy these needs using one or more of the following:
- cash flow from operations;
 - distribution of cash flows from joint ventures;
 - cash and cash equivalent balances;
 - issuances of BXP equity securities and/or additional preferred or common units of partnership interest in BPLP;
 - BPLP's 2017 Credit Facility and other short-term bridge facilities;
 - construction loans;
 - long-term secured and unsecured indebtedness (including unsecured exchangeable indebtedness); and
 - sales of real estate.

We draw on multiple financing sources to fund our long-term capital needs. Our current consolidated development properties are expected to be funded with our available cash balances and BPLP's 2017 Credit Facility. BPLP's 2017 Credit Facility is utilized primarily as a bridge facility to fund acquisition opportunities, refinance outstanding indebtedness and meet short-term development and working capital needs. Although we may seek to fund our development projects with construction loans, which may require guarantees by BPLP, the financing for each particular project ultimately depends on several factors, including, among others, the project's size and duration, the extent of pre-leasing and our available cash and access to cost effective capital at the given time.

(2)

Represents percentage leased as of August 3, 2017, including leases with future commencement dates and excluding residential units.

(3) As of June 30, 2017, this property was 31% placed in-service.

Under the joint venture agreement, if the project is funded with 100% equity, we have agreed to fund 50% of our partner's equity requirement, structured as preferred equity. We expect to fund approximately \$25.4 million at a rate

(4) of LIBOR plus 3.0% per annum and receive priority distributions from all distributions to our partner until the principal and interest are repaid. As of June 30, 2017, we had contributed an aggregate of approximately \$13.5 million of preferred equity to the venture.

(5) This development has a \$125 million construction facility. As of June 30, 2017, no amounts have been drawn under this facility.

(6) This development is subject to a 99-year ground lease (including extension options) with an option to purchase in the future.

(7) Percentage leased includes only the retail space and includes approximately 9,000 square feet of retail space from the Proto at Cambridge residential development, which is 0% leased.

(8) The low-rise portion of 601 Lexington Avenue.

Contractual rental revenue, recoveries from tenants, other income from operations, available cash balances, mortgage financings and draws on BPLP's 2017 Credit Facility are the principal sources of capital that we use to pay operating expenses, debt service, maintenance capital expenditures, tenant improvements and the minimum distribution required to enable BXP to maintain its REIT qualification. We seek to maximize income from our existing properties by maintaining quality standards for our properties that promote high occupancy rates and permit increases in rental rates while reducing tenant turnover and controlling operating expenses. Our sources of revenue also include third-party fees generated by our property management, leasing and development and construction businesses, as well as the sale of assets from time to time. We believe our revenue,

Table of Contents

together with our cash balances and proceeds from financing activities, will continue to provide the funds necessary for our short-term liquidity needs, including our properties under development and redevelopment.

Material adverse changes in one or more sources of capital may adversely affect our net cash flows. Such changes, in turn, could adversely affect our ability to fund operating expenses, dividends and distributions, debt service payments, maintenance and repositioning capital expenditures and tenant improvements. In addition, a material adverse change in the cash provided by our operations may affect our ability to comply with the financial covenants under BPLP's Unsecured Line of Credit and unsecured senior notes.

Our primary uses of capital will be the completion of our current development and redevelopment projects. As of June 30, 2017, our share of the remaining development and redevelopment costs that we expect to fund through 2021 is approximately \$1.3 billion. To enhance our liquidity, on April 24, 2017, we executed the Eighth Amended and Restated Credit Agreement to, among other things: (1) increase the total commitment of the Revolving Facility from \$1.0 billion to \$1.5 billion, (2) extend the maturity date from July 26, 2018 to April 24, 2022, (3) reduce the per annum variable interest rates, and (4) add a \$500.0 million delayed draw term loan facility that allows us to delay drawing funds for up to one year from the closing date (See Note 5 to the Consolidated Financial Statements). With approximately \$560 million of cash and cash equivalents and approximately \$2.0 billion available under the 2017 Credit Facility, as of August 3, 2017, we have sufficient capital to complete these projects. We believe that our strong liquidity, including our availability under BPLP's 2017 Credit Facility, and proceeds from debt financings and asset sales provide sufficient liquidity to fund our remaining capital requirements on existing development and redevelopment projects and pursue additional attractive investment opportunities. In addition, on June 2, 2017 we renewed BXP's \$600.0 million ATM stock offering program for a period of three years. We have not sold any shares under this ATM stock offering program.

On June 7, 2017, our consolidated joint venture that owns 767 Fifth Avenue (the General Motors Building) in New York City completed the refinancing of approximately \$1.6 billion of indebtedness that was secured by the direct and indirect interests in 767 Fifth Avenue. The new mortgage financing has a principal amount of \$2.3 billion, bears interest at a fixed interest rate of 3.43% per annum and matures on June 9, 2027. The loan requires interest-only payments during the 10-year term of the loan. Following this refinancing, we have no remaining debt maturities in 2017.

In addition, on July 28, 2017, Colorado Center, a joint venture in which we own a 50% interest, obtained mortgage financing totaling \$550.0 million. The mortgage financing bears interest at a rate of 3.56% and matures on August 9, 2027. As a result of the financing, the joint venture distributed proceeds of \$251.0 million to each partner. Until these proceeds are reinvested, carrying additional cash balances is dilutive to our earnings results.

Given the relatively low interest rates currently available to us in the debt markets, we may seek to enhance our liquidity to provide sufficient capacity to meet our debt obligations and to fund our remaining capital requirements on existing development projects, our foreseeable potential development activity and pursue attractive additional investment opportunities. Depending on interest rates and overall conditions in the debt markets, we may determine to access the debt markets in advance of the need for the funds and this may result in us carrying additional cash and cash equivalents pending BPLP's use of the proceeds, and doing so would be dilutive to our earnings because it would increase our net interest expense.

REIT Tax Distribution Considerations

Dividend

BXP as a REIT is subject to a number of organizational and operational requirements, including a requirement that BXP currently distribute at least 90% of its annual taxable income (excluding capital gains and with certain other adjustments). Our policy is for BXP to distribute at least 100% of its taxable income, including capital gains, to avoid paying federal tax. On December 19, 2016, the Board of Directors of BXP increased our regular quarterly dividend to \$0.75 per common share beginning with the fourth quarter of 2016. The dividend was paid on January 30, 2017 to shareholders of record as of the close of business on December 30, 2016. Common and LTIP unitholders of limited partnership interest in BPLP as of the close of business on December 30, 2016, received the same total distribution per unit on January 30, 2017.

BXP's Board of Directors will continue to evaluate BXP's policy taking into consideration our actual and projected taxable income, our liquidity requirements and other circumstances that the BXP's Board of Directors may deem relevant from time to time, and there can be no assurance that the future dividends declared by its Board of Directors will not differ materially.

Sales

To the extent that we sell assets at a gain and cannot efficiently use the proceeds in a tax deferred manner for either our development activities or attractive acquisitions, BXP would, at the appropriate time, decide whether it is better to declare a

Table of Contents

special dividend, adopt a stock repurchase program, reduce indebtedness or retain the cash for future investment opportunities. Such a decision will depend on many factors including, among others, the timing, availability and terms of development and acquisition opportunities, our then-current and anticipated leverage, the cost and availability of capital from other sources, the price of BXP's common stock and REIT distribution requirements. At a minimum, we expect that BXP would distribute at least that amount of proceeds necessary for BXP to avoid paying corporate level tax on the applicable gains realized from any asset sales.

Cash Flow Summary

The following summary discussion of our cash flows is based on the Consolidated Statements of Cash Flows and is not meant to be an all-inclusive discussion of the changes in our cash flows for the periods presented below.

Cash and cash equivalents were approximately \$0.5 billion and \$1.2 billion at June 30, 2017 and 2016, respectively, representing a decrease of approximately \$0.7 billion. The following table sets forth changes in cash flows:

	Six months ended June 30,		
	2017	2016	Increase (Decrease)
	(in thousands)		
Net cash provided by operating activities	\$372,278	\$584,151	\$(211,873)
Net cash used in investing activities	(539,470)	(425,592)	(113,878)
Net cash provided by financing activities	302,713	297,767	4,946

Our principal source of cash flow is related to the operation of our properties. The average term of our in-place tenant leases, including our unconsolidated joint ventures, is approximately 7.3 years with occupancy rates historically in the range of 90% to 94%. Our properties generate a relatively consistent stream of cash flow that provides us with resources to pay operating expenses, debt service and fund quarterly dividend and distribution payment requirements. In addition, over the past several years, we have raised capital through the sale of some of our properties, secured and unsecured borrowings and equity offerings of BXP.

Cash is used in investing activities to fund acquisitions, development, net investments in unconsolidated joint ventures and capital expenditures. We selectively invest in new projects that enable us to take advantage of our development, leasing, financing and property management skills and invest in existing buildings to enhance or maintain their market position. Cash used in investing activities for the six months ended June 30, 2017 consisted primarily of development projects, building and tenant improvements and capital contributions to unconsolidated joint ventures. Cash used in investing activities for the six months ended June 30, 2016 consisted primarily of development projects and tenant improvements partially offset by the proceeds from the sale of real estate, as detailed below:

(1) On May 15, 2017, we acquired 103 Carnegie Center located in Princeton, New Jersey for a purchase price of approximately \$16.0 million in cash, including transaction costs.

On April 22, 2016, we acquired 3625-3635 Peterson Way located in Santa Clara, California for a purchase price of approximately \$78.0 million in cash.

(2) Construction in progress for the six months ended June 30, 2017 includes ongoing expenditures associated with Reservoir Place North, 888 Boylston Street and the Prudential Center retail expansion, which were partially or fully placed in-service during the six months ended June 30, 2017. In addition, we incurred costs associated with our continued development/redevelopment of Salesforce Tower, One Five Nine East 53rd Street (the low-rise portion of 601 Lexington Avenue), 191 Spring Street, 145 Broadway, MacArthur Transit Center and Proto at Cambridge and Signature at Reston residential projects.

Construction in progress for the six months ended June 30, 2016 includes ongoing expenditures associated with 601 Massachusetts Avenue, 804 Carnegie Center and 10 CityPoint, which were fully placed in-service during the six months ended June 30, 2016. In addition, we incurred costs associated with our continued development of Salesforce Tower, 888 Boylston Street, the Prudential Center retail expansion and Proto at Cambridge and Signature at Reston residential projects.

(3) On April 19, 2017, we completed the sale of an approximately 9.5-acre parcel of land at 30 Shattuck Road located in Andover, Massachusetts for a gross sale price of \$5.0 million. Net cash proceeds totaled approximately \$5.0 million.

On June 13, 2017, we completed the sale of 40 Shattuck Road located in Andover, Massachusetts for a gross sale price of \$12.0 million. Net cash proceeds totaled approximately \$11.9 million.

On February 1, 2016, we completed the sale of our 415 Main Street property located in Cambridge, Massachusetts to the tenant for a gross sale price of approximately \$105.4 million. Net cash proceeds totaled approximately \$104.9 million.

(4) Deposits on real estate for the six months ended June 30, 2016 was related to a deposit we made prior to our closing on the acquisition of a 49.8% interest in an existing joint venture that owns and operates Colorado Center located in Santa Monica, California.

(5) Capital contributions to unconsolidated joint ventures for the six months ended June 30, 2017 were primarily due to cash contributions of approximately \$21.9 million and \$19.4 million to our Dock 72 and Hub on Causeway joint ventures, respectively.

Capital contributions to unconsolidated joint ventures for the six months ended June 30, 2016 were primarily due to cash contributions of approximately \$9.4 million, \$9.7 million and \$7.0 million to our Hub on Causeway, 1265 Main Street and Dock 72 joint ventures, respectively.

Cash provided by financing activities for the six months ended June 30, 2017 totaled approximately \$302.7 million. This consisted primarily of the net proceeds from the refinancing of the 767 Fifth Avenue (the General Motors Building) debt partially offset by the payment of our regular dividends and distributions to our shareholders and unitholders. Future debt payments are discussed below under the heading "Capitalization—Debt Financing."

Consolidated Debt to Consolidated Market Capitalization Ratio is a measure of leverage commonly used by analysts in the REIT industry. We present this measure as a percentage and it is calculated by dividing (A) our consolidated debt by (B) our consolidated market capitalization, which is the market value of our outstanding equity securities plus our consolidated debt. Consolidated market capitalization is the sum of:

- (1) our consolidated debt; plus
- (2) the product of (x) the closing price per share of BXP common stock on June 30, 2017, as reported by the New York Stock Exchange, multiplied by (y) the sum of:
 - (i) the number of outstanding shares of common stock of BXP,
 - (ii) the number of outstanding OP Units in BPLP (excluding OP Units held by BXP),
 - (iii) the number of OP Units issuable upon conversion of all outstanding LTIP Units, assuming all conditions have been met for the conversion of the LTIP Units, and
 - (iv) the number of OP Units issuable upon conversion of 2012 OPP Units, 2013 MYLTIP Units and 2014 MYLTIP Units that were issued in the form of LTIP Units; plus

(3) the aggregate liquidation preference (\$2,500 per share) of the outstanding shares of BXP's 5.25% Series B Cumulative Redeemable Preferred Stock.

Table of Contents

The calculation of consolidated market capitalization does not include LTIP Units issued in the form of MYLTIP Awards unless and until certain performance thresholds are achieved and they are earned. Because their three-year performance periods have not yet ended, 2015, 2016 and 2017 MYLTIP Units are not included in this calculation as of June 30, 2017.

We also present BXP's Share of Market Capitalization, which is calculated in the same manner, except that BXP's Share of Debt is utilized instead of our consolidated debt in both the numerator and the denominator. BXP's Share of Debt is defined as our consolidated debt plus our share of debt from our unconsolidated joint ventures (calculated based upon our ownership percentage), minus our partners' share of debt from our consolidated joint ventures (calculated based upon the partners' percentage ownership interests). Management believes that BXP's Share of Debt provides useful information to investors regarding our financial condition because it includes our share of debt from unconsolidated joint ventures and excludes our partners' share of debt from consolidated joint ventures, in each case presented on the same basis. We have several significant joint ventures and presenting various measures of financial condition in this manner can help investors better understand our financial condition and/or results of operations after taking into account our economic interest in these joint ventures. We caution investors that the ownership percentages used in calculating BXP's Share of Debt may not completely and accurately depict all of the legal and economic implications of holding an interest in a consolidated or unconsolidated joint venture. For example, in addition to partners' interests in profits and capital, venture agreements vary in the allocation of rights regarding decision making (both for routine and major decisions), distributions, transferability of interests, liquidations and other matters. Moreover, in some cases we exercise significant influence over, but do not control, the joint venture in which case GAAP requires that we account for the joint venture entity using the equity method of accounting and we do not consolidate it for financial reporting purposes. As a result, presentations of BXP's Share of a financial measure should be considered with and as a supplement to our financial information presented in accordance with GAAP.

We present these supplemental ratios because our degree of leverage could affect our ability to obtain additional financing for working capital, capital expenditures, acquisitions, development or other general corporate purposes and because different investors and lenders consider one or both of these ratios. Investors should understand that these ratios are, in part, a function of the market price of the common stock of BXP and as such will fluctuate with changes in such price, and they do not necessarily reflect our capacity to incur additional debt to finance our activities or our ability to manage our existing debt obligations. However, for a company like BXP, whose assets are primarily income-producing real estate, these ratios may provide investors with an alternate indication of leverage, so long as they are evaluated along with the ratio of indebtedness to other measures of asset value used by financial analysts and other financial ratios, as well as the various components of our outstanding indebtedness.

For a discussion of our unconsolidated joint venture indebtedness, see "Liquidity and Capital Resources—Capitalization—Off-Balance Sheet Arrangements—Joint Venture Indebtedness" within "Item 2—Management's Discussion and Analysis of Financial Condition and Results of Operations" and for a discussion of our consolidated joint venture indebtedness see "Liquidity and Capital Resources—Capitalization—Mortgage Notes Payable, Net" within "Item 2—Management's Discussion and Analysis of Financial Condition and Results of Operations."

Debt Financing

As of June 30, 2017, we had approximately \$10.2 billion of outstanding consolidated indebtedness, representing approximately 32.40% of our Consolidated Market Capitalization as calculated above consisting of approximately (1) \$7.3 billion in publicly traded unsecured senior notes having a GAAP weighted-average interest rate of 4.21% per annum and maturities in 2018 through 2026; (2) \$3.0 billion of property-specific mortgage debt having a GAAP weighted-average interest rate of 3.96% per annum and weighted-average term of 8.7 years (See Note 5 to the Consolidated Financial Statements).

The table below summarizes our mortgage notes payable, mezzanine notes payable and outside members' notes payable and BPLP's unsecured senior notes, line of credit and term loan as well as Consolidated Debt Financing Statistics at June 30, 2017 and June 30, 2016. Because the outside members' notes payable are allocated to the partners, they are not included in the Consolidated Debt Financing Statistics.

Credit Facility

On April 24, 2017, BPLP entered into the 2017 Credit Facility. Among other things, the 2017 Credit Facility (1) increased the total commitment of the Revolving Facility from \$1.0 billion to \$1.5 billion, (2) extended the maturity date from July 26, 2018 to April 24, 2022, (3) reduced the per annum variable interest rates, and (4) added a \$500.0 million Delayed Draw Facility that permits BPLP to draw until the first anniversary of the closing date. Based on BPLP's current credit rating, (1) the applicable Eurocurrency margins for the Revolving Facility and Delayed Draw Facility are 87.5 basis points and 95 basis points, respectively, and (2) the facility fee on the Revolving Facility

commitment is 0.15% per annum. The Delayed

75

Table of Contents

Draw Facility has a fee on unused commitments equal to 0.15% per annum (See Note 5 to the Consolidated Financial Statements).

As of June 30, 2017 and August 3, 2017, we had no borrowings and outstanding letters of credit totaling approximately \$1.5 million outstanding under the 2017 Credit Facility, with the ability to borrow approximately \$2.0 billion.

(2) No principal amounts are due prior to maturity.

The indenture relating to the unsecured senior notes contains certain financial restrictions and requirements, including (1) a leverage ratio not to exceed 60%, (2) a secured debt leverage ratio not to exceed 50%, (3) an interest coverage ratio of greater than 1.50, and (4) an unencumbered asset value of not less than 150% of unsecured debt. At June 30, 2017, BPLP was in compliance with each of these financial restrictions and requirements.

(1) GAAP interest rate differs from the stated interest rate due to the inclusion of the amortization of financing charges and the effects of hedging transactions.

(2) The mortgage loan requires interest only payments with a balloon payment due at maturity.

(3) This property is owned by a consolidated entity in which we have a 60% interest.

In connection with the refinancing of the loan, we guaranteed the consolidated entity's obligation to fund various reserves for tenant improvement costs and allowances, leasing commissions and free rent obligations in lieu of cash deposits. As of June 30, 2017, the maximum funding obligation under the guarantee was approximately \$263.8 million. We earn a fee from the joint venture for providing the guarantee and have an agreement with our partners to reimburse the joint venture for their share of any payments made under the guarantee (See Notes 5 and 7 to the Consolidated Financial Statements).

(5) This property is owned by a consolidated entity in which we have a 55% interest.

Off-Balance Sheet Arrangements—Joint Venture Indebtedness

We have investments in unconsolidated joint ventures with our effective ownership interests ranging from 20% to 60%. Eight of these ventures have mortgage indebtedness. We exercise significant influence over, but do not control, these entities and therefore they are presently accounted for using the equity method of accounting. See also Note 4 to the Consolidated Financial Statements. At June 30, 2017, the aggregate carrying amount of debt, including both our and our partners' share, incurred by these ventures was approximately \$864.0 million (of which our proportionate share is approximately \$317.7 million). The table below summarizes the outstanding debt of these joint venture properties at June 30, 2017. In addition to other guarantees specifically noted in the table, we have agreed to customary environmental indemnifications and nonrecourse carve-outs (e.g., guarantees against fraud, misrepresentation and bankruptcy) on certain of the loans.

(1) GAAP interest rate differs from the stated interest rate due to the inclusion of the amortization of financing charges.

(2) The loan requires interest only payments with a balloon payment due at maturity.

(3) Mortgage loan bears interest at a variable rate equal to LIBOR plus 1.50% per annum.

(4) On April 11, 2016, a notice of event of default was received from the lender because the loan to value ratio is not in compliance with the applicable covenant in the loan agreement. On October 17, 2016, the lender notified the

joint venture that it has elected to charge the default rate on the loan. The default rate is defined as LIBOR plus 5.75% per annum. Subsequently, the cash flows generated from the property have become insufficient to fund debt service payments and capital improvements necessary to lease and operate the property and the joint venture is not prepared to fund additional cash shortfalls at this time. Consequently, the joint venture is not current on making debt service payments and remains in default. The loan has one, three-year extension option, subject to certain conditions including that no event of default exists or is ongoing.

- (6) The loan bears interest at a variable rate equal to LIBOR plus 2.35% per annum and matures on December 7, 2019, with three, one-year extension options, subject to certain conditions.
No amounts have been drawn under the \$250.0 million construction facility. The construction financing bears
- (7) interest at a variable rate equal to LIBOR plus 2.25% per annum and matures on December 18, 2020 with two, one-year extension option, subject to certain conditions.

State and Local Tax Matters

Because BXP is organized and qualifies as a REIT, it is generally not subject to federal income taxes, but it is subject to certain state and local taxes. In the normal course of business, BXP, BPLP and certain entities through which we own real estate either have undergone, or are currently undergoing, tax audits or other inquiries. Although we believe that we have substantial arguments in favor of our positions in the ongoing audits, in some instances there is no controlling precedent or interpretive guidance on the specific point at issue. Collectively, tax deficiency notices received to date from the jurisdictions conducting the ongoing audits have not been material. However, there can be no assurance that future audits will not occur with increased frequency or that the ultimate result of such audits will not have a material adverse effect on our results of operations.

Insurance

We carry insurance coverage on our properties of types and in amounts and with deductibles that we believe are in line with coverage customarily obtained by owners of similar properties. For additional information concerning our insurance program, see Note 7 to the Consolidated Financial Statements.

Funds from Operations

Pursuant to the revised definition of Funds from Operations adopted by the Board of Governors of the National Association of Real Estate Investment Trusts ("NAREIT"), we calculate Funds from Operations, or "FFO," for each of BXP and BPLP by adjusting net income (loss) attributable to Boston Properties, Inc. common shareholders and net income (loss) attributable to Boston Properties Limited Partnership common unitholders, respectively, (computed in accordance with GAAP) for gains (or losses) from sales of properties, impairment losses on depreciable real estate consolidated on our balance sheet, impairment losses on our investments in unconsolidated joint ventures driven by a measurable decrease in the fair value of depreciable real estate held by the unconsolidated joint ventures, real estate-related depreciation and amortization, and our share of income (loss) from unconsolidated partnerships and joint ventures. FFO is a non-GAAP financial measure, but we believe the presentation of FFO, combined with the presentation of required GAAP financial measures, has improved the understanding of operating results of REITs among the investing public and has helped make comparisons of REIT operating results more meaningful.

Management generally considers FFO to be useful measures for understanding and comparing our operating results because, by excluding gains and losses related to sales of previously depreciated operating real estate assets, impairment losses and real estate asset depreciation and amortization (which can differ across owners of similar assets in similar condition based on historical cost accounting and useful life estimates), FFO can help investors compare the operating performance of a company's real estate across reporting periods and to the operating performance of other companies.

Our computation of FFO may not be comparable to FFO reported by other REITs or real estate companies that do not define the term in accordance with the current NAREIT definition or that interpret the current NAREIT definition differently. We believe that in order to facilitate a clear understanding of our operating results, FFO should be examined in conjunction with net income attributable to Boston Properties, Inc. common shareholders and net income attributable to Boston Properties Limited Partnership as presented in our Consolidated Financial Statements. FFO should not be considered as a substitute for net income attributable to Boston Properties, Inc. common shareholders or net income attributable to Boston Properties Limited Partnership common unitholders (determined in accordance with GAAP) or any other GAAP financial measures and should only be considered together with and as a supplement to our financial information prepared in accordance with GAAP.

Contractual Obligations

We have various service contracts with vendors related to our property management. In addition, we have certain other contracts we enter into in the ordinary course of business that may extend beyond one year. These contracts include terms that provide for cancellation with insignificant or no cancellation penalties. Contract terms are generally between three and five years.

During the second quarter of 2017, we paid approximately \$70.3 million to fund tenant-related obligations, including tenant improvements and leasing commissions, and incurred approximately \$46 million of new tenant-related obligations associated with approximately 744,000 square feet of second generation leases, or approximately \$62 per square foot. In addition, we signed leases for approximately 183,000 square feet of first generation space. The

tenant-related obligations for

the development properties are included within the projects' "Estimated Total Investment" referred to in "Item 2—Management's Discussion and Analysis of Financial Condition" and "Results of Operations—Liquidity and Capital Resources." In the aggregate, during the second quarter of 2017, we signed leases for approximately 927,000 square feet of space and incurred aggregate tenant-related obligations of approximately \$65 million, or approximately \$70 per square foot.

ITEM 3—Quantitative and Qualitative Disclosures about Market Risk.

The following table presents the aggregate carrying value of our mortgage notes payable, net, unsecured senior notes, net and our corresponding estimate of fair value as of June 30, 2017. Approximately \$10.2 billion of these borrowings bore interest at fixed rates and therefore the fair value of these instruments is affected by changes in the market interest rates. The following table presents our aggregate fixed rate debt obligations with corresponding weighted-average interest rates sorted by maturity date. At June 30, 2017, none of our borrowings bore interest at a variable rate.

The table below does not include our unconsolidated joint venture debt. For a discussion concerning our unconsolidated joint venture debt, see Note 4 to the Consolidated Financial Statements and "Item 2—Management's Discussion and Analysis of Financial Condition and Results of Operations—Capitalization—Off-Balance Sheet Arrangements—Joint Venture Indebtedness."

At June 30, 2017, the weighted-average coupon/stated rates on the fixed rate debt stated above was 4.03% per annum. The fair value amounts were determined solely by considering the impact of hypothetical interest rates on our financial instruments. Due to the uncertainty of specific actions we may undertake to minimize possible effects of market interest rate increases, this analysis assumes no changes in our financial structure.

ITEM 4—Controls and Procedures.

Boston Properties, Inc.

(a) Evaluation of Disclosure Controls and Procedures. As of the end of the period covered by this report, our management, with the participation of Boston Properties, Inc.'s Chief Executive Officer (Principal Executive Officer) and Chief Financial Officer (Principal Financial Officer), evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934). Based upon that evaluation, Boston Properties, Inc.'s Chief Executive Officer and Chief Financial Officer concluded that these disclosure controls and procedures were effective as of the end of the period covered by this report.

(b) Changes in Internal Control Over Financial Reporting. No change in Boston Properties, Inc.'s internal control over financial reporting (as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934) occurred during the

second quarter of our fiscal year ending December 31, 2017 that has materially affected, or is reasonably likely to materially affect, Boston Properties, Inc.'s internal control over financial reporting.

Boston Properties Limited Partnership

(a) Evaluation of Disclosure Controls and Procedures. As of the end of the period covered by this report, the management of Boston Properties, Inc., the sole general partner of Boston Properties Limited Partnership, with the participation of its Chief Executive Officer (Principal Executive Officer) and Chief Financial Officer (Principal Financial Officer), evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934). PART II. OTHER INFORMATION

ITEM 1—Legal Proceedings.

We are subject to legal proceedings and claims that arise in the ordinary course of business. These matters are generally covered by insurance. Management believes that the final outcome of such matters will not have a material adverse effect on our financial position, results of operations or liquidity.

ITEM 1A—Risk Factors.

Except to the extent updated below or previously updated or to the extent additional factual information disclosed elsewhere in these Quarterly Reports on Form 10-Q relates to such risk factors (including, without limitation, the matters discussed in Part I, “Item 2—Management’s Discussion and Analysis of Financial Condition and Results of Operations”), there were no material changes to the risk factors disclosed in Part I, “Item 1A. Risk Factors” of our Annual Report on Form 10-K for the year ended December 31, 2016.

ITEM 2—Unregistered Sales of Equity Securities and Use of Proceeds
Boston Properties, Inc.

(a) During the three months ended June 30, 2017, Boston Properties, Inc. issued an aggregate of 458,079 shares of common stock in exchange for 458,079 common units of limited partnership that were held by certain limited partners of Boston Properties Limited Partnership. Of these shares, 456,651 shares were issued in reliance on an exemption from registration under Section 4(a)(2) of the Securities Act of 1933, as amended. We relied on the exemption under Section 4(a)(2) based upon factual representations received from the limited partners who received the shares of common stock.
