Notes to the Financial Statements  
September 30, 2003

NOTE 1 - Interim Financial Statements

Management has elected to omit all of the disclosures for the interim financial statements ended September 30, 2003, but has made all the necessary adjustments to present an accurate financial statements for the nine months presented.

The financial statements for the nine months ended September 30, 2003 were prepared from the books and records of the company. Management believes that all adjustments have been made to the financial statements to make a fair presentation of the financial condition of the company as of September 30, 2003. The results of the nine months are not indicative of a full year of operation for the Company.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted. It is suggested that these financial statements be read in conjunction with the financial statements and notes thereto included in the Company's December 31, 2002 audited financial statements. The results of operations for the periods ended September 30, 2003 and 2002 are not necessarily indicative of the operating results for the full year.

**ITEM 2 - MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.**

Liquidity and Capital Resources. The Company has no liquid assets and is currently in the process of looking for business opportunities to merge with or acquire. At minimum, the Company will need to raise additional capital through private funding to meet the financial needs of being a reporting company and to meet the obligations of the current accounts payable. Historically, the Company has been successful in raising operational capital. There is no guarantee that the Company will be successful in obtaining necessary funding to develop any business opportunities.

Results of Operation. The Company reported a net loss of \$97,387 for the nine months ended September 30, 2003, and net income of \$ for the nine months ended September 30, 2002. The Company anticipates very little or no overhead from future operations until a successor business can be acquired or merged.

During July 2003, eleven million shares of common stock of the Company were issued at par value for a portion of expenses and obligations paid by a third party. The balance of those expenses have been settled in exchange for convertible notes, due on demand with an interest rate of 10% apr.

Also, one million shares of common stock of the Company were issued for services provided by the President of the Company in locating business investors. These services provided by the President were valued at \$2,000.

Approximately \$7,320 in accounts payable were settled in exchange for convertible notes and are reflected in that portion of the Company's financial statements.

Plan of Operations. The Company is currently in the process of looking for business opportunities to acquire or merge with. In seeking a business opportunity to merge with or acquire, management is reviewing various business plans. Management has not limited their review of plans or exploration of acquisitions to any particular industry or service sector. Though there appears to be a large number of companies seeking to merge with an existing public company, the management has not yet identified a business to complete such a transaction with and the Company has not entered into any binding agreements for an acquisition or merger. There is no guarantee that management will be successful in finding such an opportunity.

---

**ITEM 3 - CONTROLS AND PROCEDURES.**

(a) Evaluation of disclosure controls and procedures. The Company's principal executive officer and its principal financial officer, based on their evaluation of the Company's disclosure controls over financial reporting and procedures (as defined in Exchange Act Rules 13a-14 (c) as of a date within 90 days prior to the filing of this Quarterly Report on Form 10QSB, have concluded that the Company's disclosure controls over financial reporting and procedures are adequate and effective for the purposes set forth in the definition in Exchange Act rules.

(b) Changes in internal controls over financial reporting. There were no significant changes in the Company's internal controls over financial reporting or in other factors that could significantly affect the Company's internal controls subsequent to the date of their evaluation.
