99.1 Press Release Dated February 10, 2006

ITEM 4.02(a). Non-Reliance on Previously Issued Financial Statements or a Related Audit Report or Completed Interim Review.

On February 7, 2006, our management recommended to the Audit Committee of our Board of Directors, and the Audit Committee approved the recommendation, that our audited financial statements for the fiscal years ended September

30, 2004 and 2003 (the "Relevant Years") be restated for certain amounts that were incorrectly classified in the consolidated statements of cash flows. Pending the finalization of the restatements of the consolidated statements of cash flows for the Relevant Years, the previously issued consolidated financial statements for these periods should not be relied upon. The Company is also assessing potential restatement of the statements of cash flows for the 2005 and 2004 quarters (the "Relevant Quarters").

The restatements are expected to affect the subtotals of cash flows from operating and investing activities and the effects of exchange rates on cash. They are not expected to have any impact on the net increase (decrease) in cash and cash equivalents. The restatements are not expected to have any effect on previously reported net income (loss), earnings per share or the consolidated balance sheets.

During the fiscal 2005 year end close process, we discovered an error in the consolidated statement of cash flows for the year ended September 30, 2003. The change in deferred income taxes had been incorrectly reported as a source of cash and it should have been reported as a use of cash within operating activities. This error led the Company to reanalyze the consolidated statements of cash flows for the Relevant Years. The adjustments identified by this analysis included the tax item discussed above, the effects of foreign exchange on various classifications and other items within the cash flow statements.

The Company is still determining the effects of these changes on its consolidated statements of cash flows for the Relevant Years and Relevant Quarters. The Company plans to file the applicable restated financial statements as soon as practicable.

The Company's Audit Committee has discussed the matters disclosed in this Form 8-K and reviewed the matters with our current independent registered public accounting firm, KPMG LLP, for the fiscal year ended September 30, 2004.

Management of the Company has also discussed the matters disclosed in this Form 8-K and reviewed the matters with our previous independent registered public accounting firm, Grant Thornton LLP, for the fiscal year ended September 30, 2003.
