Item 2.05 Costs Associated with Exit or Disposal Activities

On May 24, 2011, Gerber Scientific, Inc. (the “Company”) communicated its plan to employees to relocate the Apparel and Industrial segment’s manufacturing operations of computer-automated material spreading systems from Denmark to China. The move supports the Company’s initiative to deliver in-country support to its customers in China and throughout the Asia Pacific region and provide its customers with the competitive advantage and leverage of the Company’s global supply chain. Gross cost savings associated with this relocation are expected to be approximately \$2.0 million annually, beginning in fiscal 2013.

In connection with this action, the Company will eliminate approximately 28 positions and expects to record severance expense of approximately \$1.5 million. The Company expects to incur the majority of these expenses during its fourth fiscal quarter ended on April 30, 2011 and complete cash expenditures of \$1.1 million by April 30, 2012 and the remaining \$0.4 million by April 30, 2013.

Item 7.01 Regulation FD Disclosure

The Company issued a press release dated April 12, 2011 that indicated that the Company was contemplating additional workforce reductions which included the associated costs reported herein.
