EXPLANATORY NOTE

This report combines the quarterly reports on Form 10-Q for the quarter ended March 31, 2013 of UDR, Inc. a Maryland corporation, and United Dominion Realty, L.P., a Delaware limited partnership, of which UDR is the parent company and sole general partner. Unless the context otherwise requires, all references in this Report to “we,” “us,” “our,” the “Company,” “UDR” or “UDR, Inc.” refer collectively to UDR, Inc., together with its consolidated subsidiaries and joint ventures, including the Operating Partnership. Unless the context otherwise requires, the references in this Report to the “Operating Partnership” refer to United Dominion Realty, L.P. together with its consolidated subsidiaries. “Common stock” refers to the common stock of UDR and “stockholders” means the holders of shares of UDR’s common stock and preferred stock. The limited partnership interests of the Operating Partnership are referred to as “OP Units” and the holders of the OP Units are referred to as “unitholders”. This combined Form 10-Q is being filed separately by UDR and the Operating Partnership.

There are a number of differences between our Company and our Operating Partnership, which are reflected in our disclosure in this report. UDR is a real estate investment trust (a “REIT”), whose most significant asset is its ownership interest in the Operating Partnership. UDR also conducts business through other subsidiaries, including its taxable REIT subsidiary (“TRS”), RE³, whose activities include development of land and land entitlement. UDR acts as the sole general partner of the Operating Partnership, holds interests in subsidiaries and joint ventures, owns and operates properties, issues securities from time to time and guarantees debt of certain of our subsidiaries. The Operating Partnership conducts the operations of a substantial portion of the business and is structured as a partnership with no publicly traded equity securities. The Operating Partnership has guaranteed certain outstanding securities of UDR. As of March 31, 2013, UDR owned 110,883 units (100%) of the general partnership interests of the Operating Partnership and 174,844,389 units (or approximately 94.9%) of the limited partnership interests of the Operating Partnership (the “OP Units”). UDR conducts a substantial amount of its business and holds a substantial amount of its assets through the Operating Partnership, and, by virtue of its ownership of the OP Units and being the Operating Partnership’s sole general partner, UDR has the ability to control all of the day-to-day operations of the Operating Partnership. Separate financial statements and accompanying notes, as well as separate discussions under “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” are provided for each of UDR and the Operating Partnership.

UDR, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 2013

1. CONSOLIDATION AND BASIS OF PRESENTATION

Consolidation and Basis of Presentation

UDR, Inc., collectively with our consolidated subsidiaries (“UDR”, the “Company”, “we”, “our”, or “us”) is a self-administered real estate investment trust, or REIT, that owns, acquires, renovates, develops, redevelops, and manages apartment communities. The accompanying consolidated financial statements include the accounts of UDR and its subsidiaries, including United Dominion Realty, L.P. (the “Operating Partnership”). As of March 31, 2013, there were 184,281,253 units in the Operating Partnership outstanding, of which 174,955,272 units or 94.9% were owned by UDR and 9,325,981 units or 5.1% were owned by limited partners. The consolidated financial statements of UDR include the noncontrolling interests of the unitholders in the Operating Partnership.

The accompanying interim unaudited consolidated financial statements have been prepared according to the rules and regulations of the Securities and Exchange Commission. Certain information and note disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States have been condensed or omitted according to such rules and regulations, although management believes that the disclosures are adequate to make the information presented not misleading. In the opinion of management, all adjustments and eliminations necessary for the fair presentation of our financial position as of March 31, 2013, and results of operations for the three months ended March 31, 2013 and 2012 have been included. Such adjustments are normal and recurring in nature. The interim results presented are not necessarily indicative of results that can be expected for a full year. The accompanying interim unaudited consolidated financial statements should be read in conjunction with the audited consolidated financial statements and related notes for the year ended December 31, 2012 appearing in UDR’s Annual Report on Form 10-K, filed with the Securities and Exchange Commission on February 27, 2013.

The accompanying interim unaudited consolidated financial statements are presented in accordance with U.S. generally accepted accounting principles (“GAAP”). GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent liabilities at the dates of the interim unaudited consolidated financial statements and the amounts of revenues and expenses during the reporting periods. Actual amounts realized or paid could differ from those estimates. All significant intercompany accounts and transactions have been eliminated in consolidation. Certain previously reported amounts have been reclassified to conform to the current financial statement presentation.

The Company evaluated subsequent events through the date its financial statements were issued. No recognized or non-recognized subsequent events were noted.

2. SIGNIFICANT ACCOUNTING POLICIES

Recent Accounting Pronouncements

In December 2011, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2011-10, Disclosures about Offsetting Assets and Liabilities. The objective of this update is to provide enhanced disclosures that will enable users of its financial statements to evaluate the effect or potential effect of netting arrangements on an entity’s financial position. This includes the effect or potential effect of rights of setoff associated with an entity’s recognized assets and recognized liabilities within the scope of this update. The amendments require enhanced disclosures by requiring improved information about financial instruments and derivative instruments that are either 1) offset on the balance sheet in accordance with the “Offsetting Guidance” in ASC 210-20-45 or ASC 815-10-45 (collectively, the offsetting guidance) or 2) subject to an enforceable master netting arrangement or similar agreement, regardless of whether they are offset in accordance with the “Offsetting Guidance”. The amendments, which were adopted by the Company for the three months reporting period ended March 31, 2013, impact the Company’s disclosures related to its derivative activities. (See Note 10, Derivatives and Hedging Activity.) The new guidance did

not have any impact on the Company's consolidated financial position, results of operations, or cash flows.

In February 2012, the FASB issued ASU No. 2013-02, Other Comprehensive Income (Topic 220) to require preparers to report, in one place, information about reclassifications out of accumulated other comprehensive income. For significant items reclassified out of AOCI to net income in their entirety in the same reporting period, reporting (either on the face of the

9

Table of Contents

UDR, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS- (Continued)

MARCH 31, 2013

statement where net income is presented or in the notes thereto) is required about the effect of the reclassifications on the respective line items in the statement where net income is presented. For items that are not reclassified to net income in their entirety in the same reporting period, a cross reference to other existing disclosures is required in the notes. The amendments, which were adopted by us for the three months reporting period ended March 31, 2013, do not have any impact on the Company's consolidated financial position, results of operations, or cash flows. The accompanying consolidated financial statements include the required disclosures in the consolidated statement of comprehensive income/(loss) or in the notes thereto for each of the three months period ended March 31, 2013 and 2012.

Revenue and real estate sales gain recognition

Rental income related to leases is recognized on an accrual basis when due from residents in accordance with GAAP. Rental payments are generally due on a monthly basis and recognized when earned. The Company recognizes interest income, management and other fees and incentives when earned, and the amounts are fixed and determinable.

The Company accounts for sales of real estate in accordance with GAAP. For sale transactions meeting the requirements for full accrual profit recognition, such as the Company no longer having continuing involvement in the property, we remove the related assets and liabilities from our Consolidated Balance Sheets and record the gain or loss in the period the transaction closes. For sale transactions that do not meet the full accrual sale criteria due to our continuing involvement, we evaluate the nature of the continuing involvement and account for the transaction under an alternate method of accounting. Unless certain limited criteria are met, non-monetary transactions, including property exchanges, are accounted for at fair value.

Sales to entities in which we retain or otherwise own an interest are accounted for as partial sales. If all other requirements for recognizing profit under the full accrual method have been satisfied and no other forms of continuing involvement are present, we recognize profit proportionate to the outside interest in the buyer and defer the gain on the interest we retain. The Company recognizes any deferred gain when the property is sold to a third party. In transactions accounted for by us as partial sales, we determine if the buyer of the majority equity interest in the venture was provided a preference as to cash flows in either an operating or a capital waterfall. If a cash flow preference has been provided, we recognize profit only to the extent that proceeds from the sale of the majority equity interest exceed costs related to the entire property.

Notes Receivable

The following table summarizes our notes receivable as of March 31, 2013 and December 31, 2012 (in thousands):

	Balance outstanding			
	March 31, 2013	December 31, 2012	Interest rate	
Note due October 2014 - related party	\$ 24,481	\$ 24,481	2.95	%
Note due February 2017	14,580	13,200	10.00	%
Note due June 2022 (net of discount of \$268 and \$275)	26,232	26,225	7.00	%
Note due July 2017	900	100	8.00	%
Total notes receivable, net	\$ 66,193	\$ 64,006		

The Company has a \$24.5 million unsecured note receivable with one of its unconsolidated joint ventures, which bears an interest rate of one month LIBOR plus 2.75% per annum. Interest payments are due monthly. The note is due October 2014, and may be extended for one year.

The Company has a secured note receivable with an unaffiliated third party with an aggregate commitment of \$14.6 million, which bears an interest rate of 10.00% per annum. During the three months ended March 31, 2013, the Company loaned an additional \$1.4 million under the note. Interest payments are due monthly. The note matures at the earliest of the following: (a) the closing of any private or public capital raising in the amount of \$5.0 million or

greater; (b) an acquisition; (c) acceleration in the event of default; or (d) the fifth anniversary of the date of the note (February 2017).

10

Table of Contents

UDR, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS- (Continued)

MARCH 31, 2013

In 2012, the Company purchased mezzanine debt securing a mortgage on a class A community in West Los Angeles. The \$26.5 million loan was purchased at a yield of 7.25% and bears a coupon rate of 7.00%. Interest payments are due monthly and the note is due June 2022. The discount is amortized using the effective interest method.

The Company has a secured note receivable with an unaffiliated third party with an aggregate commitment of \$2.5 million, which bears an interest rate of 8.00% per annum. During the three months ended March 31, 2013, the Company loaned an additional \$800,000 under the note. Interest payments are due monthly. The note matures at the earliest of the following: (a) the closing of any private or public capital raising in the amount of \$5.0 million or greater; (b) an acquisition; (c) acceleration in the event of default; or (d) the fifth anniversary of the date of the note (July 2017).

During the three months ended March 31, 2013 and 2012, the Company recognized \$1.0 million and \$245,000 of interest income, net of accretion, from these notes receivable, of which \$181,000 and \$0 was related party interest income, respectively. Interest income is included in "Interest and other income, net" on the Consolidated Statements of Operations.

Comprehensive Income/(Loss)

Comprehensive income/(loss), which is defined as the change in equity during each period from transactions and other events and circumstances from nonowner sources, including all changes in equity during a period except for those resulting from investments by or distributions to stockholders, is displayed in the accompanying Consolidated Statements of Comprehensive Income/(Loss). For the three months ended March 31, 2013 and 2012, the Company's other comprehensive income/(loss) consists of the loss (effective portion) on derivative instruments that are designated as and qualify as cash flow hedges, loss reclassified from accumulated other comprehensive income/(loss) into earnings, and the allocation of other comprehensive income/(loss) to redeemable noncontrolling interests. The loss reclassified from accumulated other income income/(loss) is included in interest expense incurred in the accompanying Consolidated Statements of Operations. See Note 10, Derivatives and Hedging Activity for further discussion. The allocation of other comprehensive income/(loss) to redeemable noncontrolling interests during the three months ended March 31, 2013 and 2012 was \$87,000 and \$(67,000), respectively.

Income Taxes

Due to the structure of the Company as a REIT and the nature of the operations for the operating properties, no provision for federal income taxes has been provided for at UDR. Historically, the Company has generally incurred only state and local excise and franchise taxes. UDR has elected for certain consolidated subsidiaries to be treated as Taxable REIT Subsidiaries ("TRS"), primarily those engaged in development activities. Income taxes for our TRS are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities from a change in tax rate is recognized in earnings in the period of the enactment date. The Company's deferred tax assets are generally the result of differing depreciable lives on capitalized assets and the timing of expense recognition for certain accrued liabilities. As of March 31, 2013, UDR recorded a net income tax receivable of \$1.4 million and a deferred tax asset of \$24.8 million (net of a valuation allowance of \$1.4 million), which are classified in "Other assets" on the Consolidated Balance Sheets.

Prior to 2012, the TRS had a history of losses and, as a result, historically recognized a valuation allowance for net deferred tax assets. Each quarter, the Company evaluates the need to retain all or a portion of the valuation allowance on its net deferred tax assets. During the three months ended March 31, 2012, the Company determined that it was

more likely than not that the deferred tax assets, including any remaining net operating loss carry forward, would be realized. In making this determination, the Company analyzed, among other things, its recent history of earnings from sales of depreciable property, forecasts of future earnings and its cumulative earnings for the last twelve quarters. The reversal of the valuation allowance resulted in an income tax benefit of \$22.9 million during the three months ended March 31, 2012, which is reflected in continuing operations, and classified as "Tax benefit of taxable REIT subsidiary" in the Consolidated Statements of Operations.

GAAP defines a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. GAAP also provides guidance on derecognition, classification, interest and penalties, accounting for interim periods, disclosure and transition.

Table of Contents

UDR, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS- (Continued)

MARCH 31, 2013

The Company recognizes its tax positions and evaluates them using a two-step process. First, UDR determines whether a tax position is more likely than not (greater than 50 percent probability) to be sustained upon examination, including resolution of any related appeals or litigation processes, based on the technical merits of the position. The Company will then determine the amount of benefit to recognize and record the amount that is more likely than not to be realized upon ultimate settlement.

UDR had no material unrecognized tax benefit, accrued interest or penalties at March 31, 2013. UDR and its subsidiaries are subject to federal income tax as well as income tax of various state jurisdictions. The tax years 2008 through 2011 remain open to examination by tax jurisdictions to which we are subject. When applicable, UDR recognizes interest and/or penalties related to uncertain tax positions in income tax expense.

3. REAL ESTATE OWNED

Real estate assets owned by the Company consist of income producing operating properties, properties under development and land held for future development. As of March 31, 2013, the Company owned and consolidated 143 communities in 10 states plus the District of Columbia totaling 41,750 apartment homes. The following table summarizes the carrying amounts for our real estate owned (at cost) as of March 31, 2013 and December 31, 2012 (dollar amounts in thousands):

	March 31, 2013	December 31, 2012
Land	\$1,945,846	\$1,907,169
Depreciable property — held and used:		
Building and improvements	5,502,984	5,384,971
Furniture, fixtures and equipment	280,470	272,640
Under development:		
Land	119,750	151,154
Construction in progress	333,066	339,894
Real estate owned	8,182,116	8,055,828
Accumulated depreciation	(2,007,482)	(1,924,682)
Real estate owned, net	\$6,174,634	\$6,131,146

All development projects and related carrying costs are capitalized and reported on the Consolidated Balance Sheets as “Real estate under development.” The costs of development projects which include interest, real estate taxes, insurance and allocated development overhead related to support costs for personnel working directly on the development are capitalized during the construction period. These costs, excluding the direct costs of development and capitalized interest for the three months ended March 31, 2013 and 2012 were \$3.0 million and \$2.7 million, respectively. During the three months ended March 31, 2013 and 2012, total capitalized interest was \$8.4 million and \$4.9 million, respectively.

In October 2012, Hurricane Sandy hit the East Coast, affecting three of the Company’s operating communities (1,706 apartment homes) located in New York City. The properties suffered some physical damage, and were closed to residents for a period following the hurricane. The Company has insurance policies that provide coverage for property damage and business interruption.

Based on the claims filed and management’s estimates, the Company recognized a \$9.0 million impairment charge for the damaged assets’ net book value and incurred \$10.4 million of repair and cleanup costs during the year ended December 31, 2012. The impairment charge and the repair and cleanup costs incurred were reduced as of

December 31, 2012 by \$14.5 million of estimated insurance recovery, and were classified in “Hurricane related (recoveries)/charges, net” on the Consolidated Statements of Operations. During the three months ended March 31, 2013, no further impairment charge related to the damaged assets' net book value has been recognized. With the exception of one of the properties that is under redevelopment at March 31, 2013, the rehabilitation of the remaining two properties is expected to be completed in the third quarter of 2013. See Note 14, Hurricane Related (Recoveries)/Charges for additional information.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS- (Continued)

MARCH 31, 2013

4. DISCONTINUED OPERATIONS

Discontinued operations represent properties that UDR has either sold or which management believes meet the criteria to be classified as held for sale. In order to be classified as held for sale and reported as discontinued operations, a property's operations and cash flows have been or will be divested to a third party by the Company whereby UDR will not have any continuing involvement in the ownership or operation of the property after the sale or disposition. The results of operations of the property are presented as discontinued operations for all periods presented and do not impact the net earnings reported by the Company. Once a property is deemed as held for sale, depreciation is no longer recorded. However, if the Company determines that the property no longer meets the criteria of held for sale, the Company will recapture any unrecorded depreciation for the property. The assets and liabilities of properties classified as held for sale are presented separately on the Consolidated Balance Sheets at the lower of their carrying amount or their estimated fair value less the costs to sell the assets.

There were no sales during the three months ended March 31, 2013. During the three months ended March 31, 2012, the Company sold six communities with 1,576 apartment homes. The Company had no communities that met the criteria to be classified as held for sale and included in discontinued operations at March 31, 2013. During the three months ended March 31, 2012, UDR recognized gains (before tax) on the sale of communities for financial reporting purposes of \$80.5 million, which are included in discontinued operations. The results of operations for sold properties are classified on the Consolidated Statements of Operations in the line item entitled "Income from discontinued operations, net of tax." Discontinued operations for the three months ended March 31, 2012 also includes operating activities related to 14 communities (4,918 homes) sold during the second quarter of 2012.

The following is a summary of Income from discontinued operations, net of tax for the three months ended March 31, 2013 and 2012 (dollars in thousands):

	Three Months Ended March 31,	
	2013	2012
Rental income	\$—	\$17,101
Rental expenses	—	5,929
Property management	—	470
Real estate depreciation	—	6,340
	—	12,739
Income before net gain on the sale of depreciable property	—	4,362
Net gain on the sale of depreciable property, net of tax	—	80,525
Income from discontinued operations, net of tax	\$—	\$84,887

5. JOINT VENTURES

UDR has entered into joint ventures with unrelated third parties to acquire real estate assets that are either consolidated and included in real estate owned on our Consolidated Balance Sheets or are accounted for under the equity method of accounting, and are included in "Investment in and advances to unconsolidated joint ventures, net" on our Consolidated Balance Sheets. The Company consolidates an entity in which we own less than 100% but control the joint venture as well as any variable interest entity where we are the primary beneficiary. In addition, the Company consolidates any joint venture in which we are the general partner or managing member and the third party does not have the ability to substantively participate in the decision-making process nor the ability to remove us as general partner or managing member without cause.

UDR's joint ventures are funded with a combination of debt and equity. Our losses are limited to our investment and except as noted below, the Company does not guarantee any debt, capital payout or other obligations associated with our joint venture portfolio.

Table of Contents

UDR, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS- (Continued)

MARCH 31, 2013

Unconsolidated Joint Ventures

The Company recognizes earnings or losses from our investments in unconsolidated joint ventures consisting of our proportionate share of the net earnings or loss of the joint ventures. In addition, we may earn fees for providing management services to the unconsolidated joint ventures.

The following table summarizes the Company's investment in and advances to unconsolidated joint ventures, net which are accounted for under the equity method of accounting as of March 31, 2013 and December 31, 2012 (dollar amounts in thousands):

Joint Venture	Location of Properties	Number of Properties	Number of Apartment Homes	Investment at March 31, 2013	December 31, 2012	UDR's Ownership Interest	
Operating:							
UDR/MetLife I	Various	14 communities	2,547	\$ 75,959	\$ 75,129	13.3	%
		8 land parcels	N/A			4.3	%
UDR/MetLife II	Various	13 communities	2,752	311,005	327,001	50.0	%
Lodge at Stoughton	Stoughton, MA	1 community	240	16,162	16,311	95.0	%
KFH	Washington D.C.	3 communities	660	28,598	29,663	30.0	%
Texas JV	Texas	8 communities	3,359	2,608	3,457	20.0	%
Development:							
13th & Market	San Diego, CA	1 community	264	30,514	29,930	95.0	%
Domain College Park	College Park, MD	1 community	256	25,930	25,546	95.0	%
				490,776	507,037		
Deferred fees and gains on the sale of depreciable property				(29,379)	(29,406)
Total investment in and advances to unconsolidated joint ventures, net				\$ 461,397	\$ 477,631		

As of March 31, 2013 and December 31, 2012, the Company had deferred fees and deferred profit from the sale of properties to joint ventures of \$29.4 million, respectively, which will be recognized through earnings over the weighted average life of the related properties, or upon the disposition of the properties to a third party.

The Company recognized \$2.7 million and \$3.0 million of management fees during the three months ended March 31, 2013 and 2012, respectively, for our management of the joint ventures. The management fees are classified in "Joint venture management and other fees" in the Consolidated Statements of Operations.

The Company may, in the future, make additional capital contributions to certain of our joint ventures should additional capital contributions be necessary to fund acquisitions and operating shortfalls.

We evaluate our investments in unconsolidated joint ventures when events or changes in circumstances indicate that there may be an other-than-temporary decline in value. We consider various factors to determine if a decrease in the value of the investment is other-than-temporary. The Company did not recognize any other-than-temporary decrease in the value of its investments in unconsolidated joint ventures during the three months ended March 31, 2013 and 2012.

UDR's investment in unconsolidated joint ventures, net	461,397	477,631

Consolidated Joint Ventures

In January 2012, the Company formed a joint venture with an unaffiliated third party to acquire 399 Fremont (land for future development) in San Francisco, California. At closing, UDR owned a noncontrolling interest of 92.5% in the joint venture. The Company's total investment was \$55.5 million, which consists of its initial investment of \$37.3 million and an option to acquire its partner's 7.5% ownership interest in the joint venture. In October 2012, the Company exercised the option and paid \$13.5 million, resulting in the consolidation of the joint venture at fair value. In January 2013, the Company subsequently acquired its partner's 7.5% ownership interest for \$4.7 million.

8.50% Debentures due September 2024	15,644	15,644	8.50	% 11.5	
	297,785	297,678	4.25	% 5.2	

4.25% Medium-Term Notes due June 2018
(net of discount of \$2,215 and \$2,322) (f)

Other	32	33	N/A	N/A
Total Unsecured Debt	2,073,444	1,979,198	4.31	% 3.8
Total Debt	\$3,499,107	\$3,409,333	4.34	% 4.2

Our secured debt instruments generally feature either monthly interest and principal or monthly interest-only payments with balloon payments due at maturity. For purposes of classification of the above table, variable rate debt with a derivative financial instrument designated as a cash flow hedge is deemed as fixed rate debt due to the Company having effectively established a fixed interest rate for the underlying debt instrument. Secured debt encumbers \$2.3 billion or 28.4% of UDR's total real estate owned based upon gross book value (\$5.9 billion or 71.6% of UDR's real estate owned based on gross book value is unencumbered) as of March 31, 2013.

Table of Contents

UDR, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS- (Continued)

MARCH 31, 2013

(a) At March 31, 2013, fixed rate mortgage notes payable are generally due in monthly installments of principal and interest and mature at various dates from December 2014 through May 2019 and carry interest rates ranging from 3.43% to 5.94%.

The Company will from time to time acquire properties subject to fixed rate debt instruments. In those situations, management will record the secured debt at its estimated fair value and amortize any difference between the fair value and par to interest expense over the life of the underlying debt instrument. During the three months ended March 31, 2013 and 2012, the Company had \$1.3 million and \$1.1 million of a reduction to interest expense based on amortization on the fair market adjustment of debt assumed in acquisition of properties, respectively. The unamortized fair market adjustment was a net premium of \$15.6 million and \$16.9 million at March 31, 2013 and December 31, 2012, respectively.

(b) Variable rate mortgage notes payable are generally due in monthly installments of principal and interest and mature July 2013. The mortgage notes payable are based on LIBOR plus specified basis points, which translate into an interest rate of 1.09% at March 31, 2013.

(c) UDR has three secured credit facilities with Fannie Mae with an aggregate commitment of \$929.3 million at March 31, 2013. The Fannie Mae credit facilities are for an initial term of 10 years (maturing at various dates from May 2017 through December 2019) and bear interest at floating and fixed rates. At March 31, 2013, we have \$629.1 million of the outstanding balance fixed at a weighted average interest rate of 5.11% and the remaining balance of \$211.4 million on these facilities is currently at a weighted average variable interest rate of 2.06%.

Further information related to these credit facilities is as follows (dollars in thousands):

	March 31, 2013	December 31, 2012		
Borrowings outstanding	\$840,472	\$842,487		
Weighted average borrowings during the period ended	840,921	903,817		
Maximum daily borrowings during the period ended	841,494	1,054,735		
Weighted average interest rate during the period ended	4.4	% 4.3		%
Weighted average interest rate at the end of the period	4.3	% 4.4		%

(d) The variable rate mortgage notes payable that secure tax-exempt housing bond issues mature on August 2019 and March 2032, respectively. Interest on these notes is payable in monthly installments. The variable rate mortgage notes have interest rates of 0.86% and 0.90%, respectively, as of March 31, 2013.

(e) The Company has a \$900 million unsecured revolving credit facility. The unsecured credit facility has an initial term of four years and includes a one-year extension option. It contains an accordion feature that allows the Company to increase the facility to \$1.35 billion. The credit facility carries an interest rate equal to LIBOR plus a spread of 122.5 basis points and a facility fee of 22.5 basis points.

The following is a summary of short-term bank borrowings under UDR's bank credit facility at March 31, 2013 and December 31, 2012 (dollars in thousands):

	March 31, 2013	December 31, 2012		
Total revolving credit facility	\$900,000	\$900,000		
Borrowings outstanding at end of period (1)	170,000	76,000		
Weighted average daily borrowings during the period ended	118,268	167,038		
Maximum daily borrowings during the period ended	184,500	788,000		
Weighted average interest rate during the period ended	1.2	% 1.5		%

Interest rate at end of the period	1.2	%	1.4	%
------------------------------------	-----	---	-----	---

(1) Excludes \$2.5 million and \$3.9 million of letters of credit at March 31, 2013 and December 31, 2012, respectively.

UDR, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS- (Continued)

MARCH 31, 2013

(f) The Operating Partnership is a guarantor at March 31, 2013 and December 31, 2012.

The aggregate maturities, including amortizing principal payments of secured debt, of total debt for the next five calendar years subsequent to March 31, 2013 are as follows (dollars in thousands):

Year	Total Fixed Secured Debt	Total Variable Secured Debt	Total Secured Debt	Total Unsecured Debt (a)	Total Debt
2013	\$8,928	\$37,415	\$46,343	\$121,776	\$168,119
2014	46,369	—	46,369	311,577	357,946
2015	197,229	—	197,229	494,389	691,618
2016	138,449	—	138,449	432,484	570,933
2017	178,378	65,000	243,378	—	243,378
Thereafter	512,786	241,109	753,895	713,218	1,467,113
Total	\$1,082,139	\$343,524	\$1,425,663	\$2,073,444	\$3,499,107

(a) With the exception of the 1.64% Term Notes due January 2016 and revolving credit facility which carry a variable interest rate, all unsecured debt carries fixed interest rates.

We were in compliance with the covenants of our debt instruments at March 31, 2013.

7. EARNINGS/(LOSS) PER SHARE

Basic and diluted (loss)/income per common share are computed based upon the weighted average number of common shares outstanding during the periods as the effect of adding stock options and other common stock equivalents such as the non-vested restricted stock awards is anti-dilutive.

The following table sets forth the computation of basic and diluted (loss)/earnings per share for the periods presented (amounts in thousands, except per share data):

	Three Months Ended March 31,	
	2013	2012
Numerator for earnings per share — basic and diluted:		
Net (loss)/income attributable to common stockholders	\$(1,199)	\$80,848
Denominator for earnings per share — basic and diluted:		
Weighted average common shares outstanding	250,500	222,737
Non-vested restricted stock awards	(583)	(1,237)
Denominator for basic and diluted earnings per share	249,917	221,500
Net(loss)/income attributable to common stockholders	\$0.00	\$0.37

The effect of the conversion of the OP Units, convertible preferred stock, stock options and restricted stock is not dilutive and is therefore not included in the above calculations as the Company reported a loss from continuing operations attributable to common stockholders.

Table of Contents

UDR, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS- (Continued)

MARCH 31, 2013

The following table sets forth the additional shares of Common Stock outstanding by equity instrument if converted to Common Stock for each of the three months ended March 31, 2013 and 2012:

	Three Months Ended March 31,	
	2013	2012
OP Units	9,381,025	9,421,302
Preferred Stock	3,035,548	3,035,548
Stock options and unvested restricted stock	1,293,358	1,958,716

8. NONCONTROLLING INTERESTS

Redeemable noncontrolling interests in operating partnership

Interests in the Operating Partnership held by limited partners are represented by operating partnership units (“OP Units”). The income is allocated to holders of OP Units based upon net income attributable to common stockholders and the weighted average number of OP Units outstanding to total common shares plus OP Units outstanding during the period. Capital contributions, distributions, and profits and losses are allocated to noncontrolling interests in accordance with the terms of the individual partnership agreements.

Limited partners have the right to require the Operating Partnership to redeem all or a portion of the OP Units held by the limited partner at a redemption price equal to and in the form of the Cash Amount as defined in the Amended and Restated Agreement of Limited Partnership of the Operating Partnership (the “Operating Partnership Agreement”), provided that such OP Units have been outstanding for at least one year. UDR, as the general partner of the Operating Partnership may, in its sole discretion, purchase the OP Units by paying to the limited partner either the Cash Amount or the REIT Share Amount (generally one share of common stock of the Company for each OP Unit), as defined in the Operating Partnership Agreement. Accordingly, the Company records the OP Units outside of permanent equity and reports the OP Units at their redemption value using the Company’s stock price at each balance sheet date.

The following table sets forth redeemable noncontrolling interests in the Operating Partnership for the following period (dollars in thousands):

Redeemable noncontrolling interests in the Operating Partnership, December 31, 2012	\$223,418	
Mark to market adjustment to redeemable noncontrolling interests in the Operating Partnership	6,144	
Conversion of OP Units to Common Stock	(1,649)
Net loss attributable to redeemable noncontrolling interests in the Operating Partnership	(45)
Distributions to redeemable noncontrolling interests in the Operating Partnership	(2,360)
Allocation of other comprehensive income	87	
Redeemable noncontrolling interests in the Operating Partnership, March 31, 2013	\$225,595	

The following sets forth net income/(loss) attributable to common stockholders and transfers from redeemable noncontrolling interests in the Operating Partnership for the following periods (dollars in thousands):

	March 31,	
	2013	2012
Net (loss)/income attributable to common stockholders	\$(1,199) \$80,848
Conversion of OP units to UDR Common Stock	1,649	—
Change in equity from net (loss)/income attributable to common stockholders and conversion of OP units to UDR Common Stock	\$450	80,848

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS- (Continued)

MARCH 31, 2013

Noncontrolling interests

Noncontrolling interests represent interests of unrelated partners in certain consolidated affiliates, and is presented as part of equity in the Consolidated Balance Sheets since these interests are not redeemable. During the three months ended March 31, 2013 and 2012, net income attributable to noncontrolling interests was \$4,000 and \$52,000.

9. FAIR VALUE OF DERIVATIVES AND FINANCIAL INSTRUMENTS

Fair value is based on the price that would be received to sell an asset or the exit price that would be paid to transfer a liability in an orderly transaction between market participants at the measurement date. A three-level valuation hierarchy prioritizes observable and unobservable inputs used to measure fair value. The fair value hierarchy consists of three broad levels, which are described below:

Level 1 — Quoted prices in active markets for identical assets or liabilities that the entity has the ability to access.

Level 2 — Observable inputs other than prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated with observable market data.

Level 3 — Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets and liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

The estimated fair values of the Company's financial instruments either recorded or disclosed on a recurring basis as of March 31, 2013 and December 31, 2012 are summarized as follows (dollars in thousands):

Description:	Total Carrying Amount in Financial Position at March 31, 2013	Fair Value Estimate at March 31, 2013	Fair Value at March 31, 2013, Using Quoted Prices		
			in Active Markets for Identical Assets or Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

There were no transfers into or out of each of the levels of the fair value hierarchy.

Financial Instruments Carried at Fair Value

The fair values of interest rate swaps are determined using the market standard methodology of netting the discounted future fixed cash receipts (or payments) and the discounted expected variable cash payments (or receipts). The variable cash payments (or receipts) are based on an expectation of future interest rates (forward curves) derived from observable market interest rate curves. The fair values of interest rate options are determined using the market standard methodology of discounting the future expected cash receipts that would occur if variable interest rates rise

above the strike rate of the caps. The variable interest rates used in the calculation of projected receipts on the cap are based on an expectation of future interest rates derived from observable market interest rate curves and volatilities. The Company incorporates credit valuation adjustments to appropriately reflect both its own nonperformance risk and the respective counterparty's nonperformance risk in the fair value measurements. In adjusting the fair value of its derivative contracts for the effect of nonperformance risk, the Company has considered the impact of netting and any applicable credit enhancements, such as collateral postings, thresholds, mutual puts, and guarantees. Although the Company has determined that the majority of the inputs used to value its derivatives fall within Level 2 of the fair value hierarchy, the credit valuation adjustments associated with its derivatives utilize Level 3 inputs, such as estimates

Table of Contents

UDR, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS- (Continued)

MARCH 31, 2013

of current credit spreads to evaluate the likelihood of default by itself and its counterparties. However, as of March 31, 2013 and December 31, 2012, the Company has assessed the significance of the impact of the credit valuation adjustments on the overall valuation of its derivative positions and has determined that the credit valuation adjustments are not significant to the overall valuation of its derivatives. As a result, the Company has determined that its derivative valuations in their entirety are classified in Level 2 of the fair value hierarchy. In conjunction with the FASB's fair value measurement guidance, the Company made an accounting policy election to measure the credit risk of its derivative financial instruments that are subject to master netting agreements on a net basis by counterparty portfolio.

Redeemable noncontrolling interests in the Operating Partnership have a redemption feature and are marked to their redemption value. The redemption value is based on the fair value of the Company's common stock at the redemption date, and therefore, is calculated based on the fair value of the Company's common stock at the balance sheet date. Since the valuation is based on observable inputs such as quoted prices for similar instruments in active markets, redeemable noncontrolling interests in the Operating Partnership are classified as Level 2.

Financial Instruments Not Carried at Fair Value

At March 31, 2013, the fair values of cash and cash equivalents, restricted cash, accounts receivable, prepaids, real estate taxes payable, accrued interest payable, security deposits and prepaid rent, distributions payable and accounts payable approximated their carrying values because of the short term nature of these instruments. The estimated fair values of other financial instruments were determined by the Company using available market information and appropriate valuation methodologies. Considerable judgment is necessary to interpret market data and develop estimated fair values. Accordingly, the estimates presented herein are not necessarily indicative of the amounts the Company would realize on the disposition of the financial instruments. The use of different market assumptions or estimation methodologies may have a material effect on the estimated fair value amounts.

We estimate the fair value of our notes receivable and debt instruments by discounting the remaining cash flows of the debt instrument at a discount rate equal to the replacement market credit spread plus the corresponding treasury yields. Factors considered in determining a replacement market credit spread include general market conditions, borrower specific credit spreads, time remaining to maturity, loan-to-value ratios and collateral quality, where applicable (Level 3).

We record impairment losses on long-lived assets used in operations when events and circumstances indicate that the assets might be impaired and the undiscounted cash flows estimated to be generated by the future operation and disposition of those assets are less than the net book value of those assets. Our cash flow estimates are based upon historical results adjusted to reflect our best estimate of future market and operating conditions and our estimated holding periods. The net book value of impaired assets is reduced to fair value. Our estimates of fair value represent our best estimate based upon Level 3 inputs such as industry trends and reference to market rates and transactions. We consider various factors to determine if a decrease in the value of our investment in and advances to unconsolidated joint ventures, net is other-than-temporary. These factors include, but are not limited to, age of the venture, our intent and ability to retain our investment in the entity, the financial condition and long-term prospects of the entity, and the relationships with the other joint venture partners and its lenders. Based on the significance of the unobservable inputs, we classify these fair value measurements within Level 3 of the valuation hierarchy. The Company did not incur any other-than-temporary decrease in the value of its investments in unconsolidated joint ventures during the three months ended March 31, 2013 and December 31, 2012, respectively.

After determining an other-than-temporary decrease in the value of an equity method investment has occurred, we estimate the fair value of our investment by estimating the proceeds we would receive upon a hypothetical liquidation of the investment at the date of measurement. Inputs reflect management's best estimate of what market participants would use in pricing the investment giving consideration to the terms of the joint venture agreement and the estimated

discounted future cash flows to be generated from the underlying joint venture assets. The inputs and assumptions utilized to estimate the future cash flows of the underlying assets are based upon the Company's evaluation of the economy, market trends, operating results, and other factors, including judgments regarding costs to complete any construction activities, lease up and occupancy rates, rental rates, inflation rates, capitalization rates utilized to estimate the projected cash flows at the disposition, and discount rates.

MARCH 31, 2013

10. DERIVATIVES AND HEDGING ACTIVITY

Risk Management Objective of Using Derivatives

The Company is exposed to certain risk arising from both its business operations and economic conditions. The Company principally manages its exposures to a wide variety of business and operational risks through management of its core business activities. The Company manages economic risks, including interest rate, liquidity, and credit risk primarily by managing the amount, sources, and duration of its debt funding and through the use of derivative financial instruments. Specifically, the Company may enter into derivative financial instruments to manage exposures that arise from business activities that result in the receipt or payment of future known and uncertain cash amounts, the value of which are determined by interest rates. The Company's derivative financial instruments are used to manage differences in the amount, timing, and duration of the Company's known or expected cash receipts and its known or expected cash payments principally related to the Company's investments and borrowings.

Cash Flow Hedges of Interest Rate Risk

The Company's objectives in using interest rate derivatives are to add stability to interest expense and to manage its exposure to interest rate movements. To accomplish this objective, the Company primarily uses interest rate swaps and caps as part of its interest rate risk management strategy. Interest rate swaps designated as cash flow hedges involve the receipt of variable-rate amounts from a counterparty in exchange for the Company making fixed-rate payments over the life of the agreements without exchange of the underlying notional amount. Interest rate caps designated as cash flow hedges involve the receipt of variable-rate amounts from a counterparty if interest rates rise above the strike rate on the contract in exchange for an up front premium.

The effective portion of changes in the fair value of derivatives designated and that qualify as cash flow hedges is recorded in "Accumulated other comprehensive loss, net" and is subsequently reclassified into earnings in the period that the hedged forecasted transaction affects earnings. During the three months ended March 31, 2013 and 2012, such derivatives were used to hedge the variable cash flows associated with existing variable-rate debt. The ineffective portion of the change in fair value of the derivatives is recognized directly in earnings. During the three months ended March 31, 2013 and 2012, the Company recorded less than a \$1,000 loss from ineffectiveness in earnings attributable to reset date and index mismatches between the derivative and the hedged item, and the fair value of interest rate swaps that were not zero at inception of the hedging relationship.

Amounts reported in "Accumulated other comprehensive loss, net" related to derivatives will be reclassified to interest expense as interest payments are made on the Company's variable-rate debt. Through March 31, 2014, the Company estimates that an additional \$6.2 million will be reclassified as an increase to interest expense.

As of March 31, 2013, the Company had the following outstanding interest rate derivatives that were designated as cash flow hedges of interest rate risk (dollar amounts in thousands):

Interest Rate Derivative	Number of Instruments	Notional
Interest rate swaps	13	\$509,787
Interest rate caps	5	274,291

Derivatives not designated as hedges are not speculative and are used to manage the Company's exposure to interest rate movements and other identified risks but do not meet the strict hedge accounting requirements of FASB ASC 815, Derivatives and Hedging. Changes in the fair value of derivatives not designated in hedging relationships are recorded directly in earnings and resulted in a (loss)/gain of \$(2,000) and \$298,000 for the three months ended March 31, 2013 and 2012, respectively.

As of March 31, 2013, the Company had the following outstanding derivatives that were not designated as hedges in qualifying hedging relationships (dollar amounts in thousands):

Product	Notional
---------	----------

	Number of Instruments	
Interest rate caps	2	\$155,197

Credit-risk-related Contingent Features

The Company has agreements with some of its derivative counterparties that contain a provision where (1) if the Company defaults on any of its indebtedness, including default where repayment of the indebtedness has not been accelerated by the lender, then the Company could also be declared in default on its derivative obligations; or (2) the Company could be declared in default on its derivative obligations if repayment of the underlying indebtedness is accelerated by the lender due to the Company's default on the indebtedness.

Certain of the Company's agreements with its derivative counterparties contain provisions where if there is a change in the Company's financial condition that materially changes the Company's creditworthiness in an adverse manner, the Company may be required to fully collateralize its obligations under the derivative instrument. At March 31, 2013 and December 31, 2012, no cash collateral was posted or required to be posted by the Company or by a counterparty.

The Company also has an agreement with a derivative counterparty that incorporates the loan and financial covenant provisions of the Company's indebtedness with a lender affiliate of the derivative counterparty. Failure to comply with these covenant provisions would result in the Company being in default on any derivative instrument obligations covered by the agreement.

25

Table of Contents

UDR, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS- (Continued)

MARCH 31, 2013

The Company has certain agreements with some of its derivative counterparties that contain a provision where in the event of default by the Company or the counterparty, the right of setoff may be exercised. Any amount payable to one party by the other party may be reduced by its setoff against any amounts payable by the other party. Events that give rise to default by either party may include, but are not limited to, the failure to pay or deliver payment under the derivative contract, the failure to comply with or perform under the derivative agreement, bankruptcy, a merger without assumption of the derivative agreement, or in a merger, a surviving entity's creditworthiness is materially weaker than the original party to the derivative agreement.

As of March 31, 2013, the fair value of derivatives in a net liability position, which includes accrued interest but excludes any adjustment for nonperformance risk, related to these agreements was \$9.9 million. As of March 31, 2013, the Company has not posted any collateral related to these agreements. If the Company had breached any of these provisions at March 31, 2013, it would have been required to settle its obligations under the agreements at their termination value of \$9.9 million.

The Company has elected not to offset derivative positions in the consolidated financial statements. The tables below present the effect on its financial position had the Company made the election to offset its derivative positions as of March 31, 2013 and December 31, 2012:

Offsetting of Derivative Assets

	Gross Amounts of Recognized Assets	Gross Amounts Offset in the Consolidated Balance Sheets	Net Amounts of Assets Presented in the Consolidated Balance Sheets (a)	Financial Instruments	Cash Collateral Received	Net Amount
March 31, 2013	\$—	\$—	\$—	\$—	\$—	\$—
December 31, 2012	\$2	\$—	\$2	\$—	\$—	\$2

(a) Amounts reconcile to the aggregate fair value of derivative assets in the "Tabular Disclosure of Fair Values of Derivative Instruments on the Balance Sheet" located in this footnote.

Offsetting of Derivative Liabilities

Table of Contents**11. STOCK BASED COMPENSATION**

During the three months ended March 31, 2013 and 2012, we recognized \$1.9 million and \$2.3 million, respectively, as stock based compensation expense, which is inclusive of awards granted to our outside directors.

12. COMMITMENTS AND CONTINGENCIES**Commitments****Real Estate Under Development**

The following summarizes the Company's real estate commitments at March 31, 2013 (dollars in thousands):

	Number of Properties	Costs Incurred to Date	Expected Costs to Complete (a)	Average Ownership Stake	
Wholly owned — under development	7	\$452,816	\$427,984	100	%
Wholly owned — redevelopment	3	94,492	76,908	100	%
Joint ventures:					
Unconsolidated joint ventures	2	76,694	—	95	%
		\$624,002	\$504,892		

(a) Represents UDR's remaining equity commitment of unconsolidated joint ventures.

Contingencies**Litigation and Legal Matters**

The Company is subject to various legal proceedings and claims arising in the ordinary course of business. The Company cannot determine the ultimate liability with respect to such legal proceedings and claims at this time. The Company believes that such liability, to the extent not provided for through insurance or otherwise, will not have a material adverse effect on our financial condition, results of operations or cash flow.

13. REPORTABLE SEGMENTS

GAAP guidance requires that segment disclosures present the measure(s) used by the chief operating decision maker to decide how to allocate resources and for purposes of assessing such segments' performance. UDR's chief operating decision maker is comprised of several members of its executive management team who use several generally accepted industry financial measures to assess the performance of the business for our reportable operating segments. UDR owns and operates multifamily apartment communities that generate rental and other property related income through the leasing of apartment homes to a diverse base of tenants. The primary financial measures for UDR's apartment communities are rental income and net operating income ("NOI"). Rental income represents gross market rent less adjustments for concessions, vacancy loss and bad debt. NOI is defined as rental income less direct property rental expenses. Rental expenses include real estate taxes, insurance, personnel, utilities, repairs and maintenance, administrative and marketing. Excluded from NOI is property management expense which is calculated as 2.75% of property revenue to cover the regional supervision and accounting costs related to consolidated property operations, and land rent. UDR's chief operating decision maker utilizes NOI as the key measure of segment profit or loss. UDR's two reportable segments are same store communities and non-mature communities/other:

Same store communities represent those communities acquired, developed, and stabilized prior to January 1, 2012 and held as of March 31, 2013. A comparison of operating results from the prior year is meaningful as these communities

Table of Contents

UDR, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS- (Continued)

MARCH 31, 2013

were owned and had stabilized occupancy and operating expenses as of the beginning of the prior year, there is no plan to conduct substantial redevelopment activities, and the community is not held for disposition within the current year. A community is considered to have stabilized occupancy once it achieves 90% occupancy for at least three consecutive months.

Non-mature communities/other represent those communities that were acquired or developed in 2011 or 2012, sold properties, redevelopment properties, consolidated joint venture properties, properties managed by third parties, and the non-apartment components of mixed use properties.

Management evaluates the performance of each of our apartment communities on a same store community and non-mature community/other basis, as well as individually and geographically. This is consistent with the aggregation criteria under GAAP as each of our apartment communities generally has similar economic characteristics, facilities, services, and tenants. Therefore, the Company's reportable segments have been aggregated by geography in a manner identical to that which is provided to the chief operating decision maker.

All revenues are from external customers and no single tenant or related group of tenants contributed 10% or more of UDR's total revenues during the three months ended March 31, 2013 and 2012.

Table of Contents

UDR, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS- (Continued)

MARCH 31, 2013

The following table details the assets of UDR's reportable segments as of March 31, 2013 and December 31, 2012 (dollars in thousands):

	March 31, 2013	December 31, 2012
Reportable apartment home segment assets:		
Same Store Communities:		
West Region	\$2,379,289	\$2,376,459
Mid-Atlantic Region	1,421,806	1,419,873
Northeast Region	725,235	723,437
Southeast Region	875,841	870,207
Southwest Region	413,583	413,085
Non-Mature Communities/Other	2,366,362	2,252,767
Total segment assets	8,182,116	8,055,828
Accumulated depreciation	(2,007,482)	(1,924,682)
Total segment assets — net book value	6,174,634	6,131,146
Reconciling items:		
Cash and cash equivalents	7,121	12,115
Restricted cash	24,628	23,561
Deferred financing costs, net	23,654	24,990
Notes receivable, net	66,193	64,006
Investment in and advances to unconsolidated joint ventures, net	461,397	477,631
Other assets	133,154	125,654
Total consolidated assets	\$6,890,781	\$6,859,103

Capital expenditures related to our same store communities totaled \$6.9 million and \$9.9 million for the three months ended March 31, 2013 and 2012, respectively. Capital expenditures related to our non-mature communities/other totaled \$346,000 and \$2.4 million for the three months ended March 31, 2013 and 2012, respectively.

Markets included in the above geographic segments are as follows:

- i. West Region — Orange County, San Francisco, Seattle, Monterey Peninsula, Los Angeles, San Diego, Inland Empire, Sacramento, and Portland
- ii. Mid-Atlantic Region — Washington D.C., Richmond, Baltimore, Norfolk, and other Mid-Atlantic
- iii. Northeast Region — New York and Boston
- iv. Southeast Region — Tampa, Orlando, Nashville, and other Florida
- v. Southwest Region — Dallas and Austin

14. HURRICANE-RELATED (RECOVERIES)/CHARGES

In October 2012, Hurricane Sandy hit the East Coast, affecting three of the Company's operating communities (1,706 apartment homes) located in New York City. The properties suffered some physical damage, and were closed to residents for a period following the hurricane. The Company has insurance policies that provide coverage for property damage and business interruption.

Based on the claims filed and management's estimates, the Company recognized a \$9.0 million impairment charge for the damaged assets' net book value and incurred \$10.4 million of repair and cleanup costs during the year ended December 31,

Table of Contents

UDR, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS- (Continued)

MARCH 31, 2013

2012. The impairment charge and the repair and cleanup costs incurred were reduced as of December 31, 2012 by \$14.5 million of estimated insurance recovery, and were classified in "Hurricane related (recoveries)/charges, net" on the Consolidated Statements of Operations. During the three months ended March 31, 2013, no further impairment charge related to the damaged assets' net book value has been recognized. With the exception of one of the properties that is under redevelopment at March 31, 2013, the rehabilitation of the remaining two properties is expected to be completed in the third quarter of 2013.

As of March 31, 2013, the estimated insurance recovery of \$14.5 million related to the impairment charge and the repair and cleanup costs incurred has been reduced by \$8.4 million of insurance proceeds received. An additional \$4.6 million was received subsequent to March 31, 2013.

Based on the claims filed and management's estimates, the Company recognized \$4.4 million of business interruption losses for the year ended December 31, 2012. \$3.6 million of business interruption losses were related to rent concession rebates provided to tenants during the period the properties were uninhabitable and were classified in "Hurricane-related (recoveries)/charges, net," on the Consolidated Statements of Operations, and \$767,000 of business interruption losses were related to rent that was not contractually receivable and were classified as a reduction to "Rental income" on the Consolidated Statements of Operations.

During the three months ended March 31, 2013, the Company received \$2.5 million of insurance proceeds for recovery of business interruption losses. An additional \$548,000 was received subsequent to March 31, 2013. Of the \$3.0 million of insurance proceeds received, \$2.8 million related to recovery of business interruption losses incurred in 2012 and the remaining \$187,000 related to recovery of business interruption losses incurred in 2013. The \$3.0 million of recovery was classified as "Hurricane related (recoveries)/charges, net" on the Consolidated Statements of Operations as of March 31, 2013.

To the extent that insurance proceeds ultimately exceed the difference between replacement cost and net book value of the impaired assets, the post-hurricane costs incurred, and/or business interruption losses recognized, the excess will be reflected as recovery of hurricane related charges in the period those amounts are received or when receipt is deemed probable to occur.

UNITED DOMINION REALTY, L.P.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 2013

1. CONSOLIDATION AND BASIS OF PRESENTATION

Consolidation and Basis of Presentation

United Dominion Realty, L.P. (“UDR, L.P.”, the “Operating Partnership”, “we” or “our”) is a Delaware limited partnership, that owns, acquires, renovates, redevelops, manages, and disposes of multifamily apartment communities generally located in high barrier to entry markets located in the United States. The high barrier to entry markets are characterized by limited land for new construction, difficult and lengthy entitlement process, expensive single-family home prices and significant employment growth potential. UDR, L.P. is a subsidiary of UDR, Inc. (“UDR” or the “General Partner”), a self-administered real estate investment trust, or REIT, through which UDR conducts a significant portion of its business. During the three months ended March 31, 2013 and 2012, rental revenues of the Operating Partnership represented 54% and 52%, respectively, of the General Partner’s consolidated rental revenues (including those classified within discontinued operations). At March 31, 2013, the Operating Partnership’s apartment portfolio consisted of 70 communities located in 18 markets consisting of 21,660 apartment homes.

Interests in UDR, L.P. are represented by operating partnership units (“OP Units”). The Operating Partnership’s net income is allocated to the partners, which is initially based on their respective distributions made during the year and secondly, their percentage interests. Distributions are made in accordance with the terms of the Amended and Restated Agreement of Limited Partnership of United Dominion Realty, L.P. (the “Operating Partnership Agreement”), on a per unit basis that is generally equal to the dividend per share on UDR’s common stock, which is publicly traded on the New York Stock Exchange (“NYSE”) under the ticker symbol “UDR”.

As of March 31, 2013, there were 184,281,253 OP Units outstanding, of which, 174,955,272 or 94.9% were owned by UDR and affiliated entities and 9,325,981 or 5.1% were owned by non-affiliated limited partners. See Note 9, Capital Structure.

The accompanying interim unaudited consolidated financial statements have been prepared according to the rules and regulations of the Securities and Exchange Commission (“SEC”). Certain information and note disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States have been condensed or omitted according to such rules and regulations, although management believes that the disclosures are adequate to make the information presented not misleading. In the opinion of management, all adjustments and eliminations necessary for the fair presentation of our financial position as of March 31, 2013, and results of operations for the three months ended March 31, 2013 and 2012 have been included. Such adjustments are normal and recurring in nature. The interim results presented are not necessarily indicative of results that can be expected for a full year. The accompanying interim unaudited consolidated financial statements should be read in conjunction with the audited consolidated financial statements and related notes for the year ended December 31, 2012 included in the Annual Report on Form 10-K filed by UDR and the Operating Partnership with the SEC on February 27, 2013.

The accompanying interim unaudited consolidated statements are presented in accordance with U.S. generally accepted accounting principles (“GAAP”). GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent liabilities at the dates of the interim unaudited consolidated financial statements and the amounts of revenues and expenses during the reporting periods. Actual amounts realized or paid could differ from those estimates. All intercompany accounts and transactions have been eliminated in consolidation. Certain previously reported amounts have been reclassified to conform to the current financial statement presentation.

The Operating Partnership evaluated subsequent events through the date its financial statements were issued. No recognized or non-recognized subsequent events were noted.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS- (continued)

MARCH 31, 2013

2. SIGNIFICANT ACCOUNTING POLICIES

Recent Accounting Pronouncements

In December 2011, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2011-10, Disclosures about Offsetting Assets and Liabilities. The objective of this update is to provide enhanced disclosures that will enable users of its financial statements to evaluate the effect or potential effect of netting arrangements on an entity’s financial position. This includes the effect or potential effect of rights of setoff associated with an entity’s recognized assets and recognized liabilities within the scope of this update. The amendments require enhanced disclosures by requiring improved information about financial instruments and derivative instruments that are either 1) offset on the balance sheet in accordance with the “Offsetting Guidance” in ASC 210-20-45 or ASC 815-10-45 (collectively, the offsetting guidance) or 2) subject to an enforceable master netting arrangement or similar agreement, regardless of whether they are offset in accordance with the “Offsetting Guidance”. The amendments, which were adopted by the Operating Partnership for the three month reporting period ended March 31, 2013, impact the Operating Partnership's disclosures related to its derivative activities. (See Note 8, Derivatives and Hedging Activity.) The new guidance did not have any impact on the Operating Partnership's consolidated financial position, results of operations, or cash flows.

In February 2012, the FASB issued ASU No. 2013-02, Other Comprehensive Income (Topic 220) to require preparers to report, in one place, information about reclassifications out of accumulated other comprehensive income. For significant items reclassified out of AOCI to net income in their entirety in the same reporting period, reporting (either on the face of the statement where net income is presented or in the notes thereto) is required about the effect of the reclassifications on the respective line items in the statement where net income is presented. For items that are not reclassified to net income in their entirety in the same reporting period, a cross reference to other existing disclosures is required in the notes. The amendments, which were adopted by us for the three month reporting period ended March 31, 2013, do not have any impact on the Operating Partnership's consolidated financial position, results of operations, or cash flows. The accompanying consolidated financial statements include the required disclosures in the consolidated statement of comprehensive income/(loss) or in the notes thereto for each of the three months period ended March 31, 2013 and 2012.

Revenue and real estate sales gain recognition

Rental income related to leases is recognized on an accrual basis when due from residents in accordance with GAAP. Rental payments are generally due on a monthly basis and recognized when earned. The Operating Partnership recognizes interest income, management and other fees and incentives when earned, fixed and determinable.

The Operating Partnership accounts for sales of real estate in accordance with GAAP. For sale transactions meeting the requirements for full accrual profit recognition, such as the Operating Partnership no longer having continuing involvement in the property, we remove the related assets and liabilities from our Consolidated Balance Sheets and record the gain or loss in the period the transaction closes. For sale transactions that do not meet the full accrual sale criteria due to our continuing involvement, we evaluate the nature of the continuing involvement and account for the transaction under an alternate method of accounting. Unless certain limited criteria are met, non-monetary transactions, including property exchanges, are accounted for at fair value.

Sales to entities in which we or our General Partner retain or otherwise own an interest are accounted for as partial sales. If all other requirements for recognizing profit under the full accrual method have been satisfied and no other forms of continuing involvement are present, we recognize profit proportionate to the outside interest in the buyer and will defer the gain on the interest we or our General Partner retain. The Operating Partnership will recognize any deferred gain when the property is then sold to a third party. In transactions accounted by us as partial sales, we

determine if the buyer of the majority equity interest in the venture was provided a preference as to cash flows in either an operating or a capital waterfall. If a cash flow preference has been provided, we recognize profit only to the extent that proceeds from the sale of the majority equity interest exceed costs related to the entire property.

Table of Contents

UNITED DOMINION REALTY, L.P.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS- (continued)

MARCH 31, 2013

Comprehensive Income/(Loss)

Comprehensive income/(loss), which is defined as the change in equity during each period from transactions and other events and circumstances from nonowner sources, including all changes in equity during a period except for those resulting from investments by or distributions to stockholders, is displayed in the accompanying Consolidated Statements of Comprehensive Income/(Loss). For the three months ended March 31, 2013 and 2012, the Operating Partnership's other comprehensive income/(loss) consists of the loss (effective portion) on derivative instruments that are designated as and qualify as cash flow hedges and loss reclassified from accumulated other comprehensive income/(loss) into earnings. The loss reclassified from accumulated other income income/(loss) is included in interest expense incurred in the accompanying Consolidated Statements of Operations. See Note 8, Derivatives and Hedging Activity for further discussion.

Income taxes

The taxable income or loss of the Operating Partnership is reported on the tax returns of the partners. Accordingly, no provision has been made in the accompanying financial statements for federal or state income taxes on income that is passed through to the partners. However, any state or local revenue, excise or franchise taxes that result from the operating activities of the Operating Partnership are recorded at the entity level. The Operating Partnership's tax returns are subject to examination by federal and state taxing authorities. Net income for financial reporting purposes differs from the net income for income tax reporting purposes primarily due to temporary differences, principally real estate depreciation and the tax deferral of certain gains on property sales. The differences in depreciation result from differences in the book and tax basis of certain real estate assets and the differences in the methods of depreciation and lives of the real estate assets.

The Operating Partnership evaluates the accounting and disclosure of tax positions taken or expected to be taken in the course of preparing the Operating Partnership's tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax benefit or expense in the current year. Management of the Operating Partnership is required to analyze all open tax years, as defined by the statute of limitations, for all major jurisdictions, which include federal and certain states. The Operating Partnership has no examinations in progress and none are expected at this time.

Management of the General Partner has reviewed all open tax years (2009 through 2011) of tax jurisdictions and concluded there is no material tax liability resulting from unrecognized tax benefits relating to uncertain income tax positions taken or expected to be taken in future tax returns.

Earnings per OP unit

Basic earnings per OP Unit is computed by dividing net income/(loss) attributable to general and limited partner units by the weighted average number of general and limited partner units (including redeemable OP Units) outstanding during the year. Diluted earnings per OP Unit reflects the potential dilution that could occur if securities or other contracts to issue OP Units were exercised or converted into OP Units or resulted in the issuance of OP Units that shared in the earnings of the Operating Partnership. For the three months ended March 31, 2013 and 2012, there were no dilutive instruments outstanding, and therefore, diluted earnings per OP Unit and basic earnings per OP Unit are the same.

UNITED DOMINION REALTY, L.P.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS- (continued)

MARCH 31, 2013

3. REAL ESTATE OWNED

Real estate assets owned by the Operating Partnership consists of income producing operating properties, properties held for sale, properties under development, and land held for future development. At March 31, 2013, the Operating Partnership owned and consolidated 70 communities in nine states plus the District of Columbia totaling 21,660 apartment homes. The following table summarizes the carrying amounts for our real estate owned (at cost) as of March 31, 2013 and December 31, 2012 (dollar amounts in thousands):

	March 31, 2013	December 31, 2012
Land	\$1,009,706	\$1,006,724
Depreciable property — held and used:		
Buildings and improvements	2,981,947	2,970,510
Furniture, fixtures and equipment	119,945	118,294
Under development:		
Land	25,833	25,833
Construction in progress	73,049	61,559
Real estate owned	4,210,480	4,182,920
Accumulated depreciation	(1,142,440)	(1,097,133)
Real estate owned, net	\$3,068,040	\$3,085,787

The Operating Partnership did not have any acquisitions during the three months ended March 31, 2013 and 2012. All development projects and related carrying costs are capitalized and reported on the Consolidated Balance Sheets as "Real estate under development." The costs of development projects which include interest, real estate taxes, insurance and allocated development overhead related to support costs for personnel working directly on the development site are capitalized during the construction period. These costs, excluding the direct costs of development and capitalized interest for the three months ended March 31, 2013 and 2012 were \$673,000 and \$539,000, respectively. During the three months ended March 31, 2013 and 2012, total capitalized interest was \$1.3 million and \$639,000, respectively.

In October 2012, Hurricane Sandy hit the East Coast, affecting two of the Operating Partnership's operating communities (1,001 apartment homes) located in New York City. The properties suffered some physical damage, and were closed to residents for a period following the hurricane. The Operating Partnership has insurance policies that provide coverage for property damage and business interruption.

Based on the claims filed and management's estimates, the Operating Partnership recognized a \$7.1 million impairment charge for the damaged assets' net book value and incurred \$7.0 million of repair and cleanup costs during the year ended December 31, 2012. The impairment charge and the repair and cleanup costs incurred were reduced as of December 31, 2012 by \$10.8 million of estimated insurance recovery, and were classified in "Hurricane related (recoveries)/charges, net" on the Consolidated Statements of Operations. During the three months ended March 31, 2013, no further impairment charge related to the damaged assets' net book value has been recognized. The rehabilitation of these two properties is expected to be completed in the third quarter of 2013. See Note 12, Hurricane-Related (Recoveries)/Charges for additional information.

4. DISCONTINUED OPERATIONS

Discontinued operations represent properties that the Operating Partnership has either sold or which management believes meet the criteria to be classified as held for sale. In order to be classified as held for sale and reported as

discontinued operations, a property's operations and cash flows have or will be divested to a third party by the Operating Partnership whereby the Operating Partnership will not have any significant continuing involvement in the ownership or operation of the property after the sale or disposition. The results of operations of the property are presented as discontinued operations for all periods presented and do not impact the net earnings reported by the Operating Partnership. Once a property is deemed as held

41

Table of Contents

UNITED DOMINION REALTY, L.P.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS- (continued)

MARCH 31, 2013

for sale, depreciation is no longer recorded. However, if the Operating Partnership determines that the property no longer meets the criteria of held for sale, the Operating Partnership will recapture any unrecorded depreciation for the property. The assets and liabilities of properties deemed as held for sale are presented separately on the Consolidated Balance Sheets. Properties deemed as held for sale are reported at the lower of their carrying amount or their estimated fair value less the costs to sell the assets.

During the three months ended March 31, 2013 and 2012, the Operating Partnership did not dispose of any communities. At March 31, 2013, the Operating Partnership had no communities that met the criteria to be classified as held for sale and included in discontinued operations.

During the three months ended March 31, 2013 and 2012, the Operating Partnership recognized a net loss on the sale of communities for financial reporting purposes of \$0 and \$84,000, respectively, which is included in discontinued operations. Discontinued operations for the three months ended March 31, 2012 also includes operating activities related to four communities (1,314 homes) sold during the second quarter of 2012. The results of operations for these properties are classified in the Consolidated Statements of Operations in the line item entitled "Income from discontinued operations."

The following is a summary of income from discontinued operations for the three months ended March 31, 2013 and 2012 (dollars in thousands):

	Three Months Ended March 31,	
	2013	2012
Rental income	\$—	\$3,373
Rental expenses	—	1,069
Property management	—	93
Real estate depreciation	—	1,205
	—	2,367
Income before net loss on the sale of depreciable property	—	1,006
Net loss on the sale of depreciable property	—	(84)
Income from discontinued operations	\$—	\$922

5. DEBT

Our secured debt instruments generally feature either monthly interest and principal or monthly interest-only payments with balloon payments due at maturity. For purposes of classification in the following table, variable rate debt with a derivative financial instrument designated as a cash flow hedge is deemed as fixed rate debt due to the Operating Partnership having effectively established the fixed interest rate for the underlying debt instrument. Secured debt consists of the following as of March 31, 2013 and December 31, 2012 (dollars in thousands):

	Principal Outstanding		Three Months Ended March 31,		Number of Communities Encumbered
	March 31, 2013	December 31, 2012	Weighted Average Interest Rate	Weighted Average Years to Maturity	
Fixed Rate Debt					
Mortgage notes payable	\$392,953	\$394,999	5.41	% 3.3	5
Fannie Mae credit facilities	370,434	370,638	4.90	% 6.0	10
Total fixed rate secured debt	763,387	765,637	5.16	% 4.6	15
Variable Rate Debt					
Mortgage notes payable	37,415	37,415	1.09	% 0.3	2
Tax-exempt secured note payable	27,000	27,000	0.90	% 19.0	1
Fannie Mae credit facilities	137,187	137,187	2.52	% 5.8	5
Total variable rate secured debt	201,602	201,602	2.04	% 6.5	8
Total secured debt	\$964,989	\$967,239	4.51	% 5.0	23

As of March 31, 2013, the General Partner had secured credit facilities with Fannie Mae with an aggregate commitment of \$929.3 million with \$840.5 million outstanding. The Fannie Mae credit facilities are for an initial term of 10 years and bear interest at floating and fixed rates. At March 31, 2013, \$629.1 million of the outstanding balance was fixed at a weighted average interest rate of 5.11% and the remaining balance of \$211.4 million on these facilities had a weighted average variable interest rate of 2.06%. There was a total of \$507.6 million of these credit facilities allocated to the Operating Partnership at March 31, 2013 based on the ownership of the assets securing the debt. Following is information related to the credit facilities allocated to the Operating Partnership:

	March 31, 2013	December 31, 2012	
	(dollar amounts in thousands)		
Borrowings outstanding	\$507,621	\$507,825	
Weighted average borrowings during the period ended	507,893	544,793	
Maximum daily borrowings during the period	508,239	635,762	
Weighted average interest rate during the period ended	4.4	% 4.3	%
Interest rate at the end of the period	4.3	% 4.4	%

The Operating Partnership may from time to time acquire properties subject to fixed rate debt instruments. In those situations, management will record the secured debt at its estimated fair value and amortize any difference between the fair value and par to interest expense over the life of the underlying debt instrument. The unamortized fair value adjustment of the fixed rate debt instruments on the Operating Partnership's properties was a net premium of \$12.8 million and \$13.8 million at March 31, 2013 and December 31, 2012, respectively.

UNITED DOMINION REALTY, L.P.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS- (continued)

MARCH 31, 2013

Fixed Rate Debt

Mortgage notes payable. Fixed rate mortgage notes payable are generally due in monthly installments of principal and interest and mature at various dates from December 2015 through May 2019 and carry interest rates ranging from 3.43% to 5.94%.

Secured credit facilities. At March 31, 2013, the General Partner had borrowings against its fixed rate facilities of \$629.1 million of which \$370.4 million was allocated to the Operating Partnership based on the ownership of the assets securing the debt. As of March 31, 2013, the fixed rate Fannie Mae credit facilities allocated to the Operating Partnership had a weighted average fixed interest rate of 4.90%.

Variable Rate Debt

Mortgage notes payable. Variable rate mortgage notes payable are generally due in monthly installments of principal and interest and mature July 2013. Interest on the variable rate mortgage notes is based on LIBOR plus some basis points, which translated into an interest rate of 1.09% at March 31, 2013.

Tax-exempt secured note payable. The variable rate mortgage note payable that secures tax-exempt housing bond issues matures March 2032. Interest on this note is payable in monthly installments. The mortgage note payable had an interest rate of 0.90% as of March 31, 2013.

Secured credit facilities. At March 31, 2013, the General Partner had borrowings against its variable rate facilities of \$211.4 million of which \$137.2 million was allocated to the Operating Partnership based on the ownership of the assets securing the debt. As of March 31, 2013, the variable rate borrowings under the Fannie Mae credit facilities allocated to the Operating Partnership had a weighted average floating interest rate of 2.52%.

The aggregate maturities of the Operating Partnership's secured debt due during each of the next five calendar years subsequent to March 31, 2013 are as follows (dollars in thousands):

	Fixed Mortgage Notes	Credit Facilities	Variable Mortgage Notes	Tax Exempt Notes Payable	Credit Facilities	Total
2013	\$5,336	\$242	\$37,415	\$—	\$—	\$42,993
2014	7,391	344	—	—	—	7,735
2015	192,534	364	—	—	—	192,898
2016	134,082	382	—	—	—	134,464
2017	1,449	15,684	—	—	6,566	23,699
Thereafter	52,161	353,418	—	27,000	130,621	563,200
Total	\$392,953	\$370,434	\$37,415	\$27,000	\$137,187	\$964,989

Guarantor on Unsecured Debt

The Operating Partnership is a guarantor on the General Partner's unsecured revolving credit facility with an aggregate borrowing capacity of \$900 million, a \$250 million term loan due January 2016, a \$100 million term loan due January 2016, \$300 million of medium-term notes due June 2018, and \$400 million of medium-term notes due January 2022. As of March 31, 2013 and December 31, 2012, there were \$170.0 million and \$76.0 million outstanding borrowings under the unsecured credit facility, respectively.

UNITED DOMINION REALTY, L.P.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS- (continued)

MARCH 31, 2013

6. RELATED PARTY TRANSACTIONS

Payable/(Receivable) Due To/(From) the General Partner

The Operating Partnership participates in the General Partner's central cash management program, wherein all the Operating Partnership's cash receipts are remitted to the General Partner and all cash disbursements are funded by the General Partner. In addition, other miscellaneous costs such as administrative expenses are incurred by the General Partner on behalf of the Operating Partnership. As a result of these various transactions between the Operating Partnership and the General Partner, the Operating Partnership had a net payable balance of \$15.3 million and a net receivable balance of \$11.1 million at March 31, 2013 and December 31, 2012, which is reflected as an increase and a reduction of capital, respectively, on the Consolidated Balance Sheets.

Allocation of General and Administrative Expenses

The General Partner provides various general and administrative and other overhead services for the Operating Partnership including legal assistance, acquisitions analysis, marketing and advertising, and allocates these expenses to the Operating Partnership first on the basis of direct usage when identifiable, with the remainder allocated based on its pro-rata portion of UDR's total apartment homes. During the three months ended March 31, 2013 and 2012, the general and administrative expenses allocated to the Operating Partnership by UDR were \$5.3 million and \$7.5 million, respectively, and are included in "General and Administrative" expenses on the Consolidated Statements of Operations. In the opinion of management, this method of allocation reflects the level of services received by the Operating Partnership from the General Partner.

During the three months ended March 31, 2013 and 2012, the Operating Partnership incurred \$3.0 million and \$2.7 million of related party management fees related to a management agreement entered into in 2011 with the TRS of the General Partner. (See further discussion in paragraph below.) These related party management fees are initially recorded to "General and Administrative" expense, and a portion related to management fees charged by the Taxable REIT Subsidiary ("TRS") of the General Partner is reclassified to "Property Management" expense on the Consolidated Statements of Operations. (See further discussion below.)

Management Fee

In 2011, the Operating Partnership entered into a management agreement with the TRS of the General Partner. The TRS charges the Operating Partnership 2.75% of gross rental revenues, and is classified in "Property Management" on the Consolidated Statements of Operations.

Guaranties by the General Partner

The Operating Partnership provided a "bottom dollar" guaranty to certain limited partners as part of their original contribution to the Operating Partnership. The guaranty protects the tax basis of the underlying contribution and is reflected on the OP unitholder's Schedule K-1 tax form. The guaranty was made in the form of a note payable issued by the Operating Partnership to the General Partner at an annual interest rate of 0.932% at March 31, 2013 and December 31, 2012, respectively. Interest payments are made monthly and the note is due December 31, 2013. At March 31, 2013 and December 31, 2012, respectively, the note payable due to the General Partner was \$83.2 million. In 2011, the Operating Partnership also provided a "bottom dollar" guaranty in conjunction with 1,802,239 OP Units issued in partial consideration to the seller for the acquisition of an operating community. The guaranty was made in the form of a note payable issued by the Operating Partnership to the General Partner at an annual interest rate of 5.337%. Interest payments are due monthly and the note matures on August 31, 2021. At March 31, 2013 and December 31, 2012, respectively, the note payable due to the General Partner was \$5.5 million.

MARCH 31, 2013

7. FAIR VALUE OF DERIVATIVES AND FINANCIAL INSTRUMENTS

Fair value is based on the price that would be received to sell an asset or the exit price that would be paid to transfer a liability in an orderly transaction between market participants at the measurement date. A three-level valuation hierarchy prioritizes observable and unobservable inputs used to measure fair value. The fair value hierarchy consists of three broad levels, which are described below:

Level 1 — Quoted prices in active markets for identical assets or liabilities that the entity has the ability to access.

Level 2 — Observable inputs other than prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated with observable market data.

Level 3 — Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets and liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

The estimated fair values of the Operating Partnership's financial instruments either recorded or disclosed on a recurring basis as of March 31, 2013 and December 31, 2012 are summarized as follows (dollars in thousands):

Description:	Total Carrying Amount in Statement of Financial Position on March 31, 2013	Fair Value Estimate at March 31, 2013	Fair Value at March 31, 2013, Using		
			Quoted Prices in Active Markets for Identical Assets or Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Financial Instruments Carried at Fair Value

The fair values of interest rate swaps are determined using the market standard methodology of netting the discounted future fixed cash receipts (or payments) and the discounted expected variable cash payments (or receipts). The variable cash payments (or receipts) are based on an expectation of future interest rates (forward curves) derived from observable market interest rate curves. The fair values of interest rate options are determined using the market standard methodology of discounting the future expected cash receipts that would occur if variable interest rates rise above the strike rate of the caps. The variable interest rates used in the calculation of projected receipts on the cap are based on an expectation of future interest rates derived from observable market interest rate curves and volatilities. The Operating Partnership incorporates credit valuation adjustments to appropriately reflect both its own nonperformance risk and the respective counterparty's nonperformance risk in the fair value measurements. In adjusting the fair value of its derivative contracts for the effect of nonperformance risk, the Operating Partnership has considered the impact of netting and any applicable credit enhancements, such as collateral postings, thresholds, mutual puts, and guarantees.

Although the Operating Partnership has determined that the majority of the inputs used to value its derivatives fall within Level 2 of the fair value hierarchy, the credit valuation adjustments associated with its derivatives utilize Level 3 inputs, such as estimates of current credit spreads to evaluate the likelihood of default by itself and its counterparties. However, as of March 31, 2013 and December 31, 2012, the Operating Partnership has assessed the significance of the impact of the credit valuation adjustments on the overall valuation of its derivative positions and

has determined that the credit valuation adjustments are not significant to the overall valuation of its derivatives. As a result, the Operating Partnership has determined that its derivative valuations in their entirety are classified in Level 2 of the fair value hierarchy. In conjunction with the FASB's fair value measurement guidance, the Operating Partnership made an accounting policy election to measure the credit risk of its derivative financial instruments that are subject to master netting agreements on a net basis by counterparty portfolio.

Financial Instruments Not Carried at Fair Value

At March 31, 2013, the fair values of cash and cash equivalents, restricted cash, accounts receivable, prepaids, real estate taxes payable, accrued interest payable, security deposits and prepaid rent, distributions payable and accounts payable

Table of Contents

UNITED DOMINION REALTY, L.P.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS- (continued)

MARCH 31, 2013

approximated their carrying values because of the short term nature of these instruments. The estimated fair values of other financial instruments were determined by the Operating Partnership using available market information and appropriate valuation methodologies. Considerable judgment is necessary to interpret market data and develop estimated fair values. Accordingly, the estimates presented herein are not necessarily indicative of the amounts the Operating Partnership would realize on the disposition of the financial instruments. The use of different market assumptions or estimation methodologies may have a material effect on the estimated fair value amounts.

The General Partner estimates the fair value of our debt instruments by discounting the remaining cash flows of the debt instrument at a discount rate equal to the replacement market credit spread plus the corresponding treasury yields. Factors considered in determining a replacement market credit spread include general market conditions, borrower specific credit spreads, time remaining to maturity, loan-to-value ratios and collateral quality (Level 3).

The Operating Partnership records impairment losses on long-lived assets used in operations when events and circumstances indicate that the assets might be impaired and the undiscounted cash flows estimated to be generated by the future operation and disposition of those assets are less than the net book value of those assets. Cash flow estimates are based upon historical results adjusted to reflect management's best estimate of future market and operating conditions and our estimated holding periods. The net book value of impaired assets is reduced to fair value. The General Partner's estimates of fair value represent management's estimates based upon Level 3 inputs such as industry trends and reference to market rates and transactions.

8. DERIVATIVES AND HEDGING ACTIVITY

Risk Management Objective of Using Derivatives

The Operating Partnership is exposed to certain risk arising from both its business operations and economic conditions. The General Partner principally manages its exposures to a wide variety of business and operational risks through management of its core business activities. The General Partner manages economic risks, including interest rate, liquidity, and credit risk primarily by managing the amount, sources, and duration of its debt funding and through the use of derivative financial instruments. Specifically, the General Partner enters into derivative financial instruments to manage exposures that arise from business activities that result in the receipt or payment of future known and uncertain cash amounts, the value of which are determined by interest rates. The General Partner's and the Operating Partnership's derivative financial instruments are used to manage differences in the amount, timing, and duration of the General Partner's known or expected cash receipts and its known or expected cash payments principally related to the General Partner's investments and borrowings.

Cash Flow Hedges of Interest Rate Risk

The General Partner's objectives in using interest rate derivatives are to add stability to interest expense and to manage its exposure to interest rate movements. To accomplish this objective, the General Partner primarily uses interest rate swaps and caps as part of its interest rate risk management strategy. Interest rate swaps designated as cash flow hedges involve the receipt of variable-rate amounts from a counterparty in exchange for the General Partner making fixed-rate payments over the life of the agreements without exchange of the underlying notional amount. Interest rate caps designated as cash flow hedges involve the receipt of variable-rate amounts from a counterparty if interest rates rise above the strike rate on the contract in exchange for an up front premium.

A portion of the General Partner's interest rate derivatives have been allocated to the Operating Partnership based on the General Partner's underlying debt instruments allocated to the Operating Partnership. (See Note 5, Debt.)

The effective portion of changes in the fair value of derivatives designated and that qualify as cash flow hedges is recorded in "Accumulated other comprehensive loss, net" and is subsequently reclassified into earnings in the period that the hedged forecasted transaction affects earnings. During the three months ended March 31, 2013 and 2012, such derivatives were used to hedge the variable cash flows associated with existing variable-rate debt. The ineffective

portion of the change in fair value of the derivatives is recognized directly in earnings. During the three months ended March 31, 2013 and 2012, the Operating Partnership recorded less than a \$1,000 loss of ineffectiveness in earnings attributable to reset date and index mismatches between the derivative and the hedged item.

Table of Contents

UNITED DOMINION REALTY, L.P.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS- (continued)

MARCH 31, 2013

Amounts reported in “Accumulated other comprehensive loss, net” related to derivatives will be reclassified to interest expense as interest payments are made on the General Partner’s variable-rate debt that is allocated to the Operating Partnership. During the next twelve months through March 31, 2014, we estimate that an additional \$2.3 million will be reclassified as an increase to interest expense.

As of March 31, 2013, the Operating Partnership had the following outstanding interest rate derivatives designated as cash flow hedges of interest rate risk (dollar amounts in thousands):

Interest Rate Derivative	Number of Instruments	Notional
Interest rate swaps	4	\$173,781
Interest rate caps	5	\$247,202

Derivatives not designated as hedges are not speculative and are used to manage the Company’s exposure to interest rate movements and other identified risks but do not meet the strict hedge accounting requirements of FASB ASC 815, Derivatives and Hedging. Changes in the fair value of derivatives not designated in hedging relationships are recorded directly in earnings and resulted in losses of \$2,000 for the three months ended March 31, 2013 and 2012.

As of March 31, 2013, we had the following outstanding derivatives that were not designated as hedges in qualifying hedging relationships (dollar amounts in thousands):

Product	Number of Instruments	Notional
Interest rate caps	1	\$80,294

Tabular Disclosure of Fair Values of Derivative Instruments on the Balance Sheet

The table below presents the fair value of the Operating Partnership’s derivative financial instruments as well as their classification on the Consolidated Balance Sheets as of March 31, 2013 and December 31, 2012.

	Asset Derivatives			Liability Derivatives		
	Balance Sheet Location	Fair Value at: March 31, 2013	December 31, 2012	Balance Sheet Location	Fair Value at: March 31, 2013	December 31, 2012

Credit-risk-related Contingent Features

The General Partner has agreements with some of its derivative counterparties that contain a provision where (1) if the General Partner defaults on any of its indebtedness, including default where repayment of the indebtedness has not been accelerated by the lender, then the General Partner could also be declared in default on its derivative obligations; or (2) the General Partner could be declared in default on its derivative obligations if repayment of the underlying indebtedness is accelerated by the lender due to the General Partner's default on the indebtedness.

Certain of the General Partner's agreements with its derivative counterparties contain provisions where if there is a change in the General Partner's financial condition that materially changes the General Partner's creditworthiness in an adverse manner, the General Partner may be required to fully collateralize its obligations under the derivative instrument. At March 31, 2013 and December 31, 2012, no cash collateral was posted or required to be posted by the General Partner or by a counterparty.

The General Partner also has an agreement with a derivative counterparty that incorporates the loan and financial covenant provisions of the General Partner's indebtedness with a lender affiliate of the derivative counterparty. Failure to comply with these covenant provisions would result in the General Partner being in default on any derivative

instrument obligations covered by the agreement.

The General Partner has certain agreements with some of its derivative counterparties that contain a provision where in the event of default by the General Partner or the counterparty, the right of setoff may be exercised. Any amount payable to one party by the other party may be reduced by its setoff against any amounts payable by the other party. Events that give rise to

50

UNITED DOMINION REALTY, L.P.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS- (continued)

MARCH 31, 2013

default by either party may include, but are not limited to, the failure to pay or deliver payment under the derivative contract, the failure to comply with or perform under the derivative agreement, bankruptcy, a merger without assumption of the derivative agreement, or in a merger, a surviving entity's creditworthiness is materially weaker than the original party to the derivative agreement.

As of March 31, 2013, the fair value of derivatives in a net liability position that were allocated to the Operating Partnership, which includes accrued interest but excludes any adjustment for nonperformance risk, related to these agreements was \$4.3 million. As of March 31, 2013, the General Partner has not posted any collateral related to these agreements. If the General Partner had breached any of these provisions at March 31, 2013, it would have been required to settle its obligations under the agreements at their termination value of \$4.3 million.

The General Partner has elected not to offset derivative positions in the consolidated financial statements. The table below presents the effect on the Operating Partnership's financial position had the General Partner made the election to offset its derivative positions as of March 31, 2013 and December 31, 2012:

Offsetting of Derivative Assets

	Gross Amounts of Recognized Assets	Gross Amounts Offset in the Consolidated Balance Sheets	Net Amounts of Assets Presented in the Consolidated Balance Sheets (a)	Gross Amounts Not Offset in the Consolidated Balance Sheets		
				Financial Instruments	Cash Collateral Received	Net Amount
March 31, 2013	\$—	\$—	\$—	\$—	\$—	\$—
December 31, 2012	\$2	\$—	\$2	\$—	\$—	\$2

MARCH 31, 2013

9. CAPITAL STRUCTURE

General Partnership Units

The General Partner has complete discretion to manage and control the operations and business of the Operating Partnership, which includes but is not limited to the acquisition and disposition of real property, construction of buildings and making capital improvements, and the borrowing of funds from outside lenders or UDR and its subsidiaries to finance such activities. The General Partner can generally authorize, issue, sell, redeem or purchase any OP Unit or securities of the Operating Partnership without the approval of the limited partners. The General Partner can also approve, with regard to the issuances of OP units, the class or one or more series of classes, with designations, preferences, participating, optional or other special rights, powers and duties including rights, powers and duties senior to limited partnership interests without approval of any limited partners except holders of Class A Partnership Units. There were 110,883 General Partnership units outstanding at March 31, 2013 and December 31, 2012, all of which were held by UDR.

Limited Partnership Units

At March 31, 2013 and December 31, 2012, there were 184,170,370 limited partnership units outstanding, of which 1,751,671 were Class A Limited Partnership units. UDR owned 174,844,389 or 94.9% and 174,775,152 or 94.9% at March 31, 2013 and December 31, 2012, respectively. The remaining 9,325,981 or 5.1% and 9,395,218 or 5.1% limited partnership units, were held by non-affiliated partners at March 31, 2013 and December 31, 2012, respectively, of which 1,751,671 were Class A Limited Partnership units.

Subject to the Operating Partnership Agreement, the limited partners have the right to require the Operating Partnership to redeem all or a portion of the OP Units held by the limited partner at a redemption price equal to and in the form of the Cash Amount (as defined in the Operating Partnership Agreement), provided that such OP Units have been outstanding for at least one year. UDR, as general partner of the Operating Partnership may, in its sole discretion, purchase the OP Units by paying to the limited partner either the Cash Amount or the REIT Share Amount (generally one share of common stock of UDR for each OP Unit), as defined in the Operating Partnership Agreement.

The non-affiliated limited partners' capital is adjusted to redemption value at the end of each reporting period with the corresponding offset against UDR's limited partner capital account based on the redemption rights noted above. The aggregate value upon redemption of the then-outstanding OP Units held by limited partners was \$225.6 million and \$223.4 million as of March 31, 2013 and December 31, 2012, respectively, based on the value of UDR's common stock at each period end. A limited partner has no right to receive any distributions from the Operating Partnership on or after the date of redemption of its OP Units.

Class A Limited Partnership Units

Class A Partnership units have a cumulative, annual, non-compounded preferred return, which is equal to 8% based on a value of \$16.61 per Class A Partnership unit.

Holders of the Class A Partnership Units exclusively possess certain voting rights. The Operating Partnership may not do the following without approval of the holders of the Class A Partnership Units: (i) increase the authorized or issued amount of Class A Partnership Units, (ii) reclassify any other partnership interest into Class A Partnership Units, (iii) create, authorize or issue any obligations or security convertible into or the right to purchase any Class Partnership units, (iv) enter into a merger or acquisition, or (v) amend or modify the Agreement of Limited Partnership of the Operating Partnership in a manner that adversely affects the relative rights, preferences or privileges of the Class A Partnership Units.

Allocation of profits and losses

Profit of the Operating Partnership is allocated in the following order: (i) to the General Partner and the Limited Partners in proportion to and up to the amount of cash distributions made during the year, and (ii) to the General Partner and Limited Partners in accordance with their percentage interests. Losses and depreciation and amortization

expenses, non-recourse liabilities are allocated to the General Partner and Limited Partners in accordance with their percentage interests. Losses allocated to the Limited Partners are capped to the extent that such an allocation would not cause a deficit in the Limited

Table of Contents

UNITED DOMINION REALTY, L.P.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS- (continued)

MARCH 31, 2013

Partners capital account. Such losses are, therefore, allocated to the General Partner. If any Partner's capital balance were to fall into a deficit, any income and gains are allocated to each Partner sufficient to eliminate its negative capital balance.

10. COMMITMENTS AND CONTINGENCIES

Contingencies

Litigation and Legal Matters

The Operating Partnership is subject to various legal proceedings and claims arising in the ordinary course of business. The Operating Partnership cannot determine the ultimate liability with respect to such legal proceedings and claims at this time. The General Partner believes that such liability, to the extent not provided for through insurance or otherwise, will not have a material adverse effect on the Operating Partnership's financial condition, results of operations or cash flow.

11. REPORTABLE SEGMENTS

GAAP guidance requires that segment disclosures present the measure(s) used by the chief operating decision maker to decide how to allocate resources and for purposes of assessing such segments' performance. The Operating Partnership has the same chief operating decision maker as that of its parent, the General Partner. The chief operating decision maker consists of several members of UDR's executive management team who use several generally accepted industry financial measures to assess the performance of the business for our reportable operating segments.

The Operating Partnership owns and operates multifamily apartment communities throughout the United States that generate rental and other property related income through the leasing of apartment homes to a diverse base of tenants. The primary financial measures of the Operating Partnership's apartment communities are rental income and net operating income ("NOI"), and are included in the chief operating decision maker's assessment of UDR's performance on a consolidated basis. Rental income represents gross market rent less adjustments for concessions, vacancy loss and bad debt. NOI is defined as total revenues less direct property operating expenses. Rental expenses include real estate taxes, insurance, personnel, utilities, repairs and maintenance, administrative and marketing. Excluded from NOI is property management expense which is calculated as 2.75% of property revenue to cover the regional supervision and accounting costs related to consolidated property operations, and land rent. The chief operating decision maker of the General Partner utilizes NOI as the key measure of segment profit or loss.

The Operating Partnership's two reportable segments are same store communities and non-mature communities/other:

Same store communities represent those communities acquired, developed, and stabilized prior to January 1, 2012 and held as of March 31, 2013. A comparison of operating results from the prior year is meaningful as these communities were owned and had stabilized occupancy and operating expenses as of the beginning of the prior year, there is no plan to conduct substantial redevelopment activities, and the community is not held for disposition within the current year. A community is considered to have stabilized occupancy once it achieves 90% occupancy for at least three consecutive months.

Non-mature communities/other represent those communities that were acquired or developed in 2011 or 2012, sold properties, redevelopment properties, properties managed by third parties, and the non-apartment components of mixed use properties.

Management evaluates the performance of each of our apartment communities on a same store community and non-mature community/other basis, as well as individually and geographically. This is consistent with the aggregation criteria of Topic 280 as each of our apartment communities generally has similar economic characteristics, facilities,

services, and tenants. Therefore, the Operating Partnership's reportable segments have been aggregated by geography in a manner identical to that which is provided to the chief operating decision maker.

All revenues are from external customers and no single tenant or related group of tenants contributed 10% or more of the Operating Partnership's total revenues during the three months ended March 31, 2013 and 2012.

Total segment assets	4,210,480	4,182,920
Accumulated depreciation	(1,142,440)	(1,097,133)
Total segment assets - net book value	3,068,040	3,085,787
Reconciling items:		
Cash and cash equivalents	2,951	2,804
Restricted cash	13,389	12,926
Deferred financing costs, net	5,745	6,072
Other assets	35,947	28,665
Total consolidated assets	\$3,126,072	\$3,136,254

Capital expenditures related to the Operating Partnership's same store communities totaled \$3.9 million and \$6.1 million for the three months ended March 31, 2013 and 2012, respectively. Capital expenditures related to the Operating Partnership's non-mature communities/other totaled \$121,000 and \$402,000 for the three months ended March 31, 2013 and 2012, respectively.

Markets included in the above geographic segments are as follows:

- i. West Region — Orange County, San Francisco, Monterey Peninsula, Los Angeles, Seattle, Sacramento, Inland Empire, Portland, and San Diego
- ii. Mid-Atlantic Region — Metropolitan D.C. and Baltimore
- iii. Northeast Region — New York and Boston
- iv. Southeast Region — Nashville, Tampa, and other Florida
- v. Southwest Region — Dallas

12. HURRICANE-RELATED (RECOVERIES)/CHARGES

In October 2012, Hurricane Sandy hit the East Coast, affecting two of the Operating Partnership's operating communities (1,001 apartment homes) located in New York City. The properties suffered some physical damage, and were closed to residents for a period following the hurricane. The Operating Partnership has insurance policies that provide coverage for property damage and business interruption.

Table of Contents

UNITED DOMINION REALTY, L.P.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS- (continued)

MARCH 31, 2013

Based on the claims filed and management's estimates, the Operating Partnership recognized a \$7.1 million impairment charge for the damaged assets' net book value and incurred \$7.0 million of repair and cleanup costs during the year ended December 31, 2012. The impairment charge and the repair and cleanup costs incurred were reduced as of December 31, 2012 by \$10.8 million of estimated insurance recovery, and were classified in "Hurricane related (recoveries)/charges, net" on the Consolidated Statements of Operations. During the three months ended March 31, 2013, no further impairment charge related to the damaged assets' net book value has been recognized. The rehabilitation of these two properties is expected to be completed in the third quarter of 2013.

As of March 31, 2013, the estimated recovery of \$10.8 million related to the impairment charge and the repair and cleanup costs incurred has been reduced by \$6.0 million of insurance proceeds received. An additional \$3.2 million was received subsequent to March 31, 2013.

Based on the claims filed and management's estimates, the Operating Partnership recognized \$2.2 million of business interruption losses for the year ended December 31, 2012. \$1.8 million of business interruption losses were related to rent concession rebates provided to tenants during the period the properties were uninhabitable and were classified in "Hurricane-related (recoveries)/charges, net," on the Consolidated Statements of Operations, and \$400,000 of business interruption losses were related to rent that was not contractually receivable and were classified as a reduction to "Rental income" on the Consolidated Statements of Operations.

During the three months March 31, 2013, the Company received \$2.0 million of insurance proceeds for recovery of business interruption losses. An additional \$519,000 was received subsequent to March 31, 2013. Of the \$2.0 million of insurance proceeds received, \$1.8 million related to recovery of business interruption losses incurred in 2012 and the remaining \$187,000 related to recovery of business interruption losses incurred in 2013. The \$2.0 million of recovery was classified as "Hurricane related (recoveries)/charges, net" on the Consolidated Statements of Operations. To the extent that insurance proceeds ultimately exceed the difference between replacement cost and net book value of the impaired assets, the post-hurricane costs incurred, and/or business interruption losses recognized, the excess will be reflected as recovery of Hurricane related charges in the period those amounts are received or when receipt is deemed probable to occur.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Statements

This Report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Such forward-looking statements include, without limitation, statements concerning property acquisitions and dispositions, development activity and capital expenditures, capital raising activities, rent growth, occupancy, and rental expense growth. Words such as "expects," "anticipates," "intends," "plans," "likely," "will," "believes," "seeks," "estimates," and variations of such words and similar expressions are intended to identify such forward-looking statements. Such statements involve known and unknown risks, uncertainties and other factors which may cause our actual results, performance or achievements to be materially different from the results of operations or plans expressed or implied by such forward-looking statements. Such factors include, among other things, unfavorable changes in the apartment market, changing economic conditions, the impact of inflation/deflation on rental rates and property operating expenses, expectations concerning availability of capital and the stabilization of the capital markets, the impact of competition and competitive pricing, acquisitions, developments and redevelopments not achieving anticipated results, delays in completing developments, redevelopments and lease-ups on schedule, expectations on job growth, home affordability and demand/supply ratio for multifamily housing, expectations concerning development and redevelopment activities, expectations on occupancy levels, expectations concerning the Vitruvian Park® development, expectations concerning the joint ventures with third parties, expectations that automation will help grow net operating income, and expectations on annualized net operating income.

The following factors, among others, could cause our future results to differ materially from those expressed in the forward-looking statements:

- general economic conditions;
- unfavorable changes in apartment market and economic conditions that could adversely affect occupancy levels and rental rates;
- the failure of acquisitions to achieve anticipated results;
- possible difficulty in selling apartment communities;
- competitive factors that may limit our ability to lease apartment homes or increase or maintain rents;
- insufficient cash flow that could affect our debt financing and create refinancing risk;
- failure to generate sufficient revenue, which could impair our debt service payments and distributions to stockholders;
- development and construction risks that may impact our profitability;
- potential damage from natural disasters, including hurricanes and other weather-related events, which could result in substantial costs to us;
 - risks from extraordinary losses for which we may not have insurance or adequate reserves;
- uninsured losses due to insurance deductibles, self-insurance retention, uninsured claims or casualties, or losses in excess of applicable coverage;

- delays in completing developments and lease-ups on schedule;
- our failure to succeed in new markets;
- changing interest rates, which could increase interest costs and affect the market price of our securities;
- potential liability for environmental contamination, which could result in substantial costs to us;

Table of Contents

the imposition of federal taxes if we fail to qualify as a REIT under the Code in any taxable year;

- our internal control over financial reporting may not be considered effective which could result in a loss of investor confidence in our financial reports, and in turn have an adverse effect on our stock price; and

changes in real estate laws, tax laws and other laws affecting our business.

A discussion of these and other factors affecting our business and prospects is set forth in Part II, Item 1A. Risk Factors. We encourage investors to review these risk factors.

Although we believe that the assumptions underlying the forward-looking statements contained herein are reasonable, any of the assumptions could be inaccurate, and therefore such statements included in this Report may not prove to be accurate. In light of the significant uncertainties inherent in the forward-looking statements included herein, the inclusion of such information should not be regarded as a representation by us or any other person that the results or conditions described in such statements or our objectives and plans will be achieved.

Forward-looking statements and such risks, uncertainties and other factors speak only as of the date of this Report, and we expressly disclaim any obligation or undertaking to update or revise any forward-looking statement contained herein, to reflect any change in our expectations with regard thereto, or any other change in events, conditions or circumstances on which any such statement is based, except to the extent otherwise required by law.

UDR, INC.:

Business Overview

UDR, Inc. is a self-administered real estate investment trust, or REIT, that owns, acquires, renovates, develops, and manages apartment communities. We were formed in 1972 as a Virginia corporation. In September 2003, we changed our state of incorporation from Virginia to Maryland. Our subsidiaries include an operating partnership United Dominion Realty, L.P., a Delaware limited partnership. Unless the context otherwise requires, all references in this Report to “we,” “us,” “our,” “the Company,” or “UDR” refer collectively to UDR, Inc., its subsidiaries and its consolidated joint ventures.

At March 31, 2013, our consolidated real estate portfolio included 143 communities with 41,750 apartment homes, and our total real estate portfolio, inclusive of our unconsolidated operating communities, included an additional 39 communities with 9,558 apartment homes.

59

Table of Contents

- (b) The Company is currently developing seven wholly-owned communities with 2,367 apartment homes, none of which have been completed.

We report in two segments: Same Store Communities and Non-Mature Communities/Other. Our Same Store Communities segment includes those communities acquired, developed, and stabilized prior to January 1, 2012 and held as of March 31, 2013. These communities were owned and had stabilized occupancy and operating expenses as of the beginning of the prior year, there is no plan to conduct substantial redevelopment activities, and the community is not held for disposition within the current year. A community is considered to have stabilized occupancy once it achieves 90% occupancy for at least three consecutive months. Our Non-Mature Communities/Other segment includes those communities that were acquired or developed in 2011 or 2012, sold properties, redevelopment properties, consolidated joint venture properties, properties managed by third parties, and the non-apartment components of mixed use properties.

Liquidity and Capital Resources

Liquidity is the ability to meet present and future financial obligations either through operating cash flows, sales of properties, and/or the issuance of debt and/or equity. Our primary source of liquidity is our cash flow from operations as determined by rental rates, occupancy levels, and operating expenses related to our portfolio of apartment homes and borrowings under our credit agreements. We routinely use our unsecured credit facility to temporarily fund certain investing and financing activities prior to arranging for longer-term financing or the issuance of equity or debt securities. During the past several years, proceeds from the sale of real estate have been used for both investing and financing activities as we repositioned our portfolio.

We expect to meet our short-term liquidity requirements generally through net cash provided by property operations and borrowings under our credit agreements. We expect to meet certain long-term liquidity requirements such as scheduled debt maturities, the repayment of financing on development activities, and potential property acquisitions, through secured and unsecured borrowings, the issuance of debt or equity securities, and/or the disposition of properties. We believe that our net cash provided by property operations and borrowings under credit agreements will continue to be adequate to meet both operating requirements and the payment of dividends by the Company in accordance with REIT requirements. Likewise, the budgeted expenditures for improvements and renovations of certain properties are expected to be funded from property operations, borrowings under credit agreements, the issuance of debt or equity securities, and dispositions of properties.

Future Capital Needs

Future development and redevelopment expenditures may be funded through unsecured or secured credit facilities, proceeds from the issuance of equity or debt securities, the sale of properties and, to a lesser extent, from cash flows provided by property operations. Acquisition activity in strategic markets may be funded through joint ventures, by the reinvestment of proceeds from the sale of properties, through the issuance of equity or debt securities, the issuance of operating partnership units and the assumption or placement of secured and/or unsecured debt.

We have a shelf registration statement filed with the Securities and Exchange Commission, of "SEC" which provides for the issuance of an indeterminate amount of common stock, preferred stock, guarantees of debt securities, warrants, subscription rights, purchase contracts and units to facilitate future financing activities in the public capital markets.

Access to capital markets is dependent on market conditions at the time of issuance.

As of March 31, 2013, we had approximately \$46.3 million of secured debt maturing, and \$121.8 million of unsecured debt maturing during the remainder of 2013. We anticipate repaying that debt with cash flow from our operations, debt and equity offerings, and proceeds from dispositions of properties.

Critical Accounting Policies and Estimates

Our critical accounting policies are those having the most impact on the reporting of our financial condition and results and those requiring significant judgments and estimates. These policies include those related to (1) capital expenditures, (2) impairment of long-lived assets, (3) real estate investment properties, and (4) revenue recognition. Our other critical accounting policies are described in more detail in the section entitled "Management's Discussion and Analysis of Financial Condition and Results of Operations" in UDR's Annual Report on Form 10-K, filed with the SEC on February 27, 2013. There have been no significant changes in our critical accounting policies from those reported in our Form 10-K filed with the SEC on February 27, 2013. With respect to these critical accounting policies, we

believe that the application of judgments and assessments is consistently applied and produces financial information that fairly depicts the results of operations for all periods presented.

Table of Contents

Statements of Cash Flows

The following discussion explains the changes in net cash provided by operating activities, net cash used in investing activities, and net cash provided by financing activities that are presented in our Consolidated Statements of Cash Flows for the three months ended March 31, 2013 and 2012.

Operating Activities

For the three months ended March 31, 2013, our net cash flow provided by operating activities was \$66.7 million compared to \$70.0 million for the comparable period in 2012. The decrease in cash flow from operating activities is primarily due to changes in operating assets and operating liabilities.

Investing Activities

For the three months ended March 31, 2013, net cash used in investing activities was \$101.0 million compared to \$224.4 million for the comparable period in 2012. The decrease in net cash used for investing activities was due to changes in the level of investment activities, which reflect our strategy as it relates to our dispositions, capital expenditures, and development activities, all of which are discussed in further detail throughout this Report.

Capital Expenditures

In conformity with GAAP, we capitalize those expenditures that materially enhance the value of an existing asset or substantially extend the useful life of an existing asset. Expenditures necessary to maintain an existing property in ordinary operating condition are expensed as incurred.

Total capital expenditures, which in aggregate include recurring capital expenditures and major renovations, of \$30.0 million or \$723 per stabilized home were spent on all of our communities, excluding development and commercial properties, for the three months ended March 31, 2013 as compared to \$26.5 million or \$563 per home for the comparable period in prior year.

The increase in total capital expenditures was primarily due to:

an increase in major renovations. Major renovations of \$22.9 million or \$551 per home were spent for the three months ended March 31, 2013 as compared to \$15.5 million or \$330 per home for the comparable period in the prior year. Major renovations for the three months ended March 31, 2013 were primarily attributable to the redevelopment of three wholly-owned communities (2,253 homes) with a budget of \$171.4 million of which we have incurred \$94.5 million of costs at March 31, 2013;

This increase was partially offset by:

a decrease of 88.3% or \$2.9 million in revenue-enhancing capital expenditures, such as kitchen and bath remodels, on our existing operating portfolio; and

a decrease in total recurring capital expenditures. Total recurring capital expenditures of \$6.8 million or \$163 per stabilized home were spent for the three months ended March 31, 2013 as compared to \$7.7 million or \$164 per stabilized home for the comparable period in the prior year, which was due to a 19.2% or \$553,000 decrease in turnover capital expenditures and an 8.6% or \$415,000 decrease in asset preservation expenditures.

Table of Contents

The following table outlines capital expenditures and repair and maintenance costs for all of our communities, excluding real estate under development and commercial properties, for the three months ended March 31, 2013 and 2012:

	Three Months Ended March 31, (dollars in thousands)			Per Home Three Months Ended March 31,		
	2013	2012	% Change	2013	2012	% Change
Turnover capital expenditures	\$2,334	\$2,887	(19.2)%	\$56	\$61	(8.2)%
Asset preservation expenditures	4,428	4,843	(8.6)%	107	103	3.9 %
Total recurring capital expenditures	6,762	7,730	(12.5)%	163	164	(0.6)%
Revenue enhancing improvements	383	3,264	(88.3)%	9	69	(87.0)%
Major renovations	22,874	15,497	47.6 %	551	330	67.0 %
Total capital expenditures	\$30,019	\$26,491	13.3 %	\$723	\$563	28.4 %
Repair and maintenance expense	\$7,742	\$8,908	(13.1)%	\$186	\$189	(1.6)%
Average stabilized home count	41,626	47,019				

We will continue to selectively add revenue enhancing improvements which we believe will provide a return on investment in excess of our cost of capital. Our objective in redeveloping a community is twofold: we aim to meaningfully grow rental rates while also achieving cap rate compression through asset quality improvement. Recurring capital expenditures during 2013 are projected to be approximately \$1,020 per home.

Development

At March 31, 2013, our development pipeline for seven wholly-owned communities totaled 2,367 homes with a budget of \$880.8 million in which we have a carrying value of \$452.8 million. The estimated completion date for these communities will be through the second quarter of 2015.

Consolidated Joint Ventures

In January 2012, the Company formed a joint venture with an unaffiliated third party to acquire 399 Fremont (land for future development) in San Francisco, California. At closing, UDR owned a noncontrolling interest of 92.5% in the joint venture. The Company's total investment was \$55.5 million, which consists of its initial investment of \$37.3 million and an option to acquire its partner's 7.5% ownership interest in the joint venture. In October 2012, the Company exercised the option and paid \$13.5 million, resulting in the consolidation of the joint venture at fair value. In January 2013, the Company subsequently acquired its partner's 7.5% ownership interest for \$4.7 million.

Unconsolidated Joint Ventures

The Company recognizes earnings or losses from our investments in unconsolidated joint ventures consisting of our proportionate share of the net earnings or loss of the joint ventures. In addition, we may earn fees for providing management services to the unconsolidated joint ventures.

Table of Contents

The following table summarizes the Company's investment in unconsolidated joint ventures, net which are accounted for under the equity method of accounting as of March 31, 2013 and December 31, 2012 (dollar amounts in thousands):

Joint Venture	Location of Properties	Number of Properties	Number of Apartment Homes	Investment at March 31, 2013	December 31, 2012	UDR's Ownership Interest	
Operating:							
UDR/MetLife I	Various	14 communities	2,547	\$ 75,959	\$ 75,129	13.3	%
		8 land parcels	N/A			4.3	%
UDR/MetLife II	Various	13 communities	2,752	311,005	327,001	50.0	%
Lodge at Stoughton	Stoughton, MA	1 community	240	16,162	16,311	95.0	%
KFH	Washington D.C.	3 communities	660	28,598	29,663	30.0	%
Texas JV	Texas	8 communities	3,359	2,608	3,457	20.0	%
Development:							
13th & Market	San Diego, CA	1 community	264	30,514	29,930	95.0	%
Domain College Park	College Park, MD	1 community	256	25,930	25,546	95.0	%
				490,776	507,037		
Deferred fees and gains on the sale of depreciable property				(29,379) (29,406)	
Total investment in and advances to unconsolidated joint ventures, net				\$ 461,397	\$ 477,631		

The Company may, in the future, make additional capital contributions to certain of our joint ventures should additional capital contributions be necessary to fund acquisitions and operating shortfalls.

We evaluate our investments in unconsolidated joint ventures when events or changes in circumstances indicate that there may be an other-than-temporary decline in value. We consider various factors to determine if a decrease in the value of the investment is other-than-temporary. The Company did not recognize any other-than-temporary decrease in the value of its investments in unconsolidated joint ventures during the three months ended March 31, 2013 and 2012.

Financing Activities

For the three months ended March 31, 2013, our net cash provided by financing activities was \$29.4 million compared to \$145.4 million for the comparable period of 2012.

The following significant financing activities occurred during the three months ended March 31, 2013:

repaid \$3.2 million of secured debt. The \$3.2 million of secured debt includes repayment of \$2.0 million of credit facilities and \$1.2 million of mortgage payments; and

net borrowings of \$94.0 million under the Company's \$900 million revolving credit facility.

In 2012, the Company entered into an equity distribution agreement under which the Company could offer and sell up to 20 million shares of its common stock, from time to time, to or through its sales agents. During the year ended December 31, 2012, we sold 71,000 shares of common stock through this program. As of March 31, 2013, we have 19,929,000 shares of common stock available for sale under this program.

Credit Facilities

As of March 31, 2013, we have secured credit facilities with Fannie Mae with an aggregate commitment of \$929.3 million with \$840.5 million outstanding. The Fannie Mae credit facilities are for an initial term of 10 years and bear interest at

Table of Contents

floating and fixed rates. We have \$629.1 million of the funded balance fixed at a weighted average interest rate of 5.11% and the remaining balance on these facilities is currently at a weighted average variable rate of 2.06% at March 31, 2013.

As of March 31, 2013, we have a \$900 million unsecured revolving credit facility that matures in October 2015. The credit facility has a one-year extension option, and contains an accordion feature that allows us to increase the facility to \$1.35 billion. Based on the Company's current credit ratings, the credit facility carries an interest rate equal to LIBOR plus a spread of 122.5 basis points and a facility fee of 22.5 basis points. As of March 31, 2013, we had \$170.0 million outstanding borrowings under the credit facility, leaving \$730 million of unused capacity (excluding \$2.5 million of letters of credit at March 31, 2013).

The Fannie Mae credit facilities and the bank unsecured revolving credit facility are subject to customary financial covenants and limitations.

Derivative Instruments

As part of UDR's overall interest rate risk management strategy, we use derivatives as a means to fix the interest rates of variable rate debt obligations or to hedge anticipated financing transactions. UDR's derivative transactions used for interest rate risk management include interest rate swaps with indexes that relate to the pricing of specific debt instruments of UDR. We believe that we have appropriately controlled our interest rate risk through the use of derivative instruments to minimize any unintended effect on consolidated earnings. Derivative contracts did not have a material impact on the results of operations during the three months ended March 31, 2013 (see Note 10, Derivatives and Hedging Activity in the Notes to the Consolidated Financial Statements of UDR, Inc. included in this Report).

Interest Rate Risk

We are exposed to interest rate risk associated with variable rate notes payable and maturing debt that has to be refinanced. We do not hold financial instruments for trading or other speculative purposes, but rather issue these financial instruments to finance our portfolio of real estate assets. Interest rate sensitivity is the relationship between changes in market interest rates and the fair value of market rate sensitive assets and liabilities. Our earnings are affected as changes in short-term interest rates impact our cost of variable rate debt and maturing fixed rate debt. We had \$548.5 million in variable rate debt that is not subject to interest rate swap contracts as of March 31, 2013. If market interest rates for variable rate debt increased by 100 basis points, our interest expense would increase by \$5.5 million based on the average balance outstanding during the year.

These amounts are determined by considering the impact of hypothetical interest rates on our borrowing cost. These analysis do not consider the effects of the adjusted level of overall economic activity that could exist in such an environment. Further, in the event of a change of such magnitude, management would likely take actions to further mitigate our exposure to the change. However, due to the uncertainty of the specific actions that would be taken and their possible effects, the sensitivity analysis assumes no change in our financial structure.

The Company also utilizes derivative financial instruments to manage interest rate risk and generally designates these financial instruments as cash flow hedges. See Note 10, Derivatives and Hedging Activities, in the Notes to the Consolidated Financial Statements for additional discussion of derivative instruments.

Funds from Operations, Funds from Operations as Adjusted, and Adjusted Funds from Operations

Funds from operations ("FFO") is defined as net income (computed in accordance with generally accepted accounting principles, or "GAAP"), excluding impairment write-downs of depreciable real estate or of investments in non-consolidated investees that are driven by measurable decreases in the fair value of depreciable real estate held by the investee, gains (or losses) from sales of depreciable property, plus real estate depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. This definition conforms with the National Association of Real Estate Investment Trust's ("NAREIT") definition issued in April 2002. We consider FFO a useful metric for investors as we use FFO in evaluating property acquisitions and our operating performance, and believe that FFO should be considered along with, but not as an alternative to, net income and cash flow as a measure of our activities in accordance with generally accepted accounting principles. FFO does not represent cash generated from operating activities in accordance with generally accepted accounting principles and is not necessarily indicative of cash available to fund cash needs.

Table of Contents

Historical cost accounting for real estate assets in accordance with GAAP implicitly assumes that the value of real estate assets diminishes predictably over time. Since real estate values instead have historically risen or fallen with market conditions, many industry investors and analysts have considered the presentation of operating results for real estate companies that use historical cost accounting to be insufficient by themselves. Thus, NAREIT created FFO as a supplemental measure of REIT operating performance and defines FFO as net income (computed in accordance with accounting principles generally accepted in the United States), excluding gains (or losses) from sales of depreciable property, plus depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. During the three months ended March 31, 2012, UDR chose to exclude from the calculation of FFO a one-time tax benefit of \$22.9 million from our TRS. The benefit related to the reversal of a deferred tax valuation allowance and was excluded from FFO due to its nonrecurring nature. The use of FFO, combined with the required presentations, has been fundamentally beneficial, improving the understanding of operating results of REITs among the investing public and making comparisons of REIT operating results more meaningful. We generally consider FFO to be a useful measure for reviewing our comparative operating and financial performance (although FFO should be reviewed in conjunction with net income which remains the primary measure of performance) because by excluding gains or losses related to sales of previously depreciated operating real estate assets and excluding real estate asset depreciation and amortization, FFO can help one compare the operating performance of a Company's real estate between periods or as compared to different companies. We believe that FFO is the best measure of economic profitability for real estate investment trusts.

In the computation of diluted FFO, OP Units, unvested restricted stock, stock options, and the shares of Series E Cumulative Convertible Preferred Stock are dilutive; therefore, they are included in the diluted share count. Activities of our taxable REIT subsidiary ("TRS"), ~~RE~~ include development and land entitlement. TRS gains on sales, net of taxes, is defined as net sales proceeds less a tax provision and the gross investment basis of the asset before accumulated depreciation. To determine whether gains from the TRS will be included in FFO, the Company considers whether the operating asset has been a short term investment. We consider FFO with the TRS recurring tax benefits and gain on sales, net of taxes and any related valuation allowance release, to be a meaningful supplemental measure of performance because the short-term use of funds produce a profit that differs from the traditional long-term investment in real estate for REITs.

FFO as Adjusted is defined as FFO excluding the impact of acquisition-related costs and other non-recurring items including, but not limited to, prepayment costs/benefits associated with early debt retirement, gains on sales of marketable securities and taxable REIT subsidiary property, storm-related expenses, severance costs and legal costs.

Adjusted FFO, or "AFFO", is defined as FFO as Adjusted less recurring capital expenses. Management considers AFFO a useful metric for investors as it is more indicative of the Company's recurring operational cash flow than FFO or FFO as Adjusted.

Table of Contents

The following table outlines our reconciliation of net income/(loss) attributable to UDR, Inc. to FFO, FFO as Adjusted, and AFFO for the three months ended March 31, 2013 and 2012 (dollars in thousands):

	Three Months Ended March	
	31,	2012
	2013	2012
Net (loss)/income attributable to UDR, Inc.	\$ (268) \$83,156
Distributions to preferred stockholders	(931) (2,308)
Real estate depreciation and amortization, including discontinued operations	83,442	94,247
Noncontrolling interest	(41) 3,472
Real estate depreciation and amortization on unconsolidated joint ventures	9,005	7,423
Net gain on the sale of depreciable property in discontinued operations, excluding TRS	—	(80,525)
Tax valuation allowance for TRS	—	(22,876)
Funds from operations (“FFO”) — basic	91,207	82,589
Distribution to preferred stockholders — Series E (Convertible)	931	931
FFO, diluted	\$92,138	\$83,520
FFO per common share, basic	\$0.35	\$0.36
FFO per common share, diluted	\$0.35	\$0.35
Weighted average number of common shares and OP Units outstanding — basic	259,298	230,921
Weighted average number of common shares, OP Units, and common stock equivalents outstanding — diluted	263,626	235,916
Impact of adjustments to FFO:		
Acquisition-related costs (including joint ventures)	\$—	\$606
Benefit associated with debt extinguishment	—	(4,428)

Recurring capital expenditures	(6,762) (7,734)
AFFO	\$82,542	\$71,964
AFFO per common share, diluted	\$0.31	\$0.31

Table of Contents

The following table is our reconciliation of FFO share information to weighted average common shares outstanding, basic and diluted, reflected on the Consolidated Statements of Operations for the three months ended March 31, 2013 and 2012 (shares in thousands):

	Three Months Ended March 31,	
	2013	2012
Weighted average number of common shares and OP units outstanding basic	259,298	230,921
Weighted average number of OP units outstanding	(9,381) (9,421
Weighted average number of common shares outstanding - basic per the Consolidated Statements of Operations	249,917	221,500
Weighted average number of common shares, OP units, and common stock equivalents outstanding — diluted	263,626	235,916
Weighted average number of OP units outstanding	(9,381) (9,421
Weighted average incremental shares from assumed conversion of stock options	(1,166) (1,219
Weighted average incremental shares from unvested restricted stock	(126) (740
Weighted average number of Series E preferred shares outstanding	(3,036) (3,036
Weighted average number of common shares outstanding — diluted per the Consolidated Statements of Operations	249,917	221,500

FFO also does not represent cash generated from operating activities in accordance with GAAP, and therefore should not be considered an alternative to net cash flows from operating activities, as determined by GAAP, as a measure of liquidity. Additionally, it is not necessarily indicative of cash availability to fund cash needs. A presentation of cash flow metrics based on GAAP is as follows (dollars in thousands):

	Three Months Ended March 31,	
	2013	2012
Net cash provided by operating activities	\$66,660	\$70,014
Net cash used in investing activities	(101,017) (224,353
Net cash provided by financing activities	29,363	145,394
Results of Operations		

The following discussion includes the results of both continuing and discontinued operations for the periods presented.

Net (Loss)/Income Attributable to Common Stockholders

Net loss attributable to common stockholders was \$1.2 million (\$0.00 per diluted share) for the three months ended March 31, 2013 as compared to a net income of \$80.8 million (\$0.37 per diluted share) for the comparable period in the prior year. The increase in net loss attributable to common stockholders for the three months ended March 31, 2013 resulted primarily from the following items, all of which are discussed in further detail elsewhere within this Report:

- a decrease in net gains of \$80.5 million on the sale of depreciable property related to the disposition of six communities during the three months ended March 31, 2012; and
- a decrease in income tax benefit of taxable REIT subsidiary resulting from the reversal of a net deferred tax asset valuation allowance during the three months ended March 31, 2012.

These were partially offset by:

- a decrease in real estate depreciation and amortization from communities sold during the first and second quarters of 2012 and intangible assets related to in place leases acquired in 2011 becoming fully amortized in 2012;

Table of Contents

a decrease in interest expense due to lower debt balances partially offset by the write off of fair market value adjustment on early extinguishment of debt in 2012; and
 an increase in hurricane-related recoveries, net resulting from the effects of Hurricane Sandy on three of our New York, New York communities in 2012.

Apartment Community Operations

Our net income results are primarily from net operating income ("NOI") generated from the operation of our apartment communities. The Company defines NOI, which is a non-GAAP financial measure, as rental income less direct property rental expenses. Rental income represents gross market rent less adjustments for concessions, vacancy loss and bad debt. Rental expenses include real estate taxes, insurance, personnel, utilities, repairs and maintenance, administrative and marketing. Excluded from NOI is property management expense which is calculated as 2.75% of property revenue to cover the regional supervision and accounting costs related to consolidated property operations, and land rent.

The following table summarizes the operating performance of our total property NOI (which includes discontinued operations) for the three months March 31, 2013 and 2012 ended (dollars in thousands):

	Three Months Ended March 31,			
	2013	2012		% Change
Same Store Communities:				
Same store rental income	\$ 153,913	\$ 146,051	5.4	%
Same store operating expense (a)	(48,177)) (46,590) 3.4	%
Same store NOI	105,736	99,461	6.3	%
Non-Mature Communities/Other NOI:				
Acquired communities NOI	4,359	3,153	38.2	%
Sold or held for sale communities NOI	—	11,172	(100.0)%
Developed communities NOI	923	(68) (1,457.4)%
Redeveloped communities NOI	10,184	10,510	(3.1)%
Commercial NOI and other	4,114	3,886	5.9	%
Total non-mature communities/other NOI	19,580	28,653	(31.7)%
Total Property NOI	\$ 125,316	\$ 128,114	(2.2)%

(a)Excludes depreciation, amortization, and property management expenses.

Table of Contents

The following table is our reconciliation of property NOI to net (loss)/income attributable to UDR, Inc. as reflected, for both continuing and discontinued operations, for the three months March 31, 2013 and 2012 ended (dollars in thousands):

	Three Months Ended March 31,	
	2013	2012
Total property NOI	\$125,316	\$128,114

Three Months Ended March 31, 2013 vs. Three Months Ended March 31, 2012

Same Store Communities

Our same store community properties (those acquired, developed, and stabilized prior to January 1, 2012 and held on March 31, 2013) consisted of 37,096 apartment homes and provided 84% of our total NOI for the three months ended March 31, 2013.

NOI for our same store community properties increased 6.3% or \$6.3 million for the three months ended March 31, 2013 compared to the same period in 2012. The increase in property NOI was attributable to a 5.4% or \$7.9 million increase in property rental income partially offset by a 3.4% or \$1.6 million increase in operating expenses. The increase in revenues was primarily driven by a 4.4% or \$6.3 million increase in rental rates, a 49.6% or a \$608,000 decrease in concessions and a 9.9% or \$1.1 million increase in reimbursement and fee income. Physical occupancy remained consistent at 95.5% and total monthly income per occupied home increased 5.4% to \$1,448.

The increase in operating expenses was primarily driven by a 9.4% or \$1.4 million increase in real estate taxes and 5.4% or \$607,000 increase in personnel costs, which was partially offset by a 4.1% or \$298,000 decrease in repair and maintenance expense and an 8.9% or \$207,000 decrease in insurance expense.

As a result of the percentage changes in property rental income and property operating expenses, the operating margin (property net operating income divided by property rental income) increased to 68.7% for the three months ended March 31, 2013 as compared to 68.1% for the comparable period in 2012.

Non-Mature Communities/Other

The remaining \$19.6 million or 16% of our total NOI during the three months ended March 31, 2013 was generated from our “non-mature communities/other.” UDR’s non-mature communities/other consist of communities that do not meet the criteria to be included in same store communities, which includes communities developed or acquired, redevelopment properties, sold properties and non-apartment components of mixed use properties. NOI from non-mature communities/other decreased by 31.7% or \$9.1 million for the three months ended March 31, 2013 as compared to the same period in 2012. The decrease was primarily driven by a decrease in NOI of \$11.2 million from communities sold in 2012, which was partially offset by an increase in NOI of 38.2% or \$1.2 million from communities acquired in 2011 and 2012 and an increase of \$1.0 million from development communities completed in 2012 and 2013.

Table of Contents

Real Estate Depreciation and Amortization

For the three months ended March 31, 2013, real estate depreciation and amortization attributable to both continuing and discontinued operations decreased 11.5% or \$10.8 million as compared to the comparable period in 2012. The decrease in depreciation and amortization for the three months ended March 31, 2013 is primarily from the disposition of assets and intangible assets related to in place leases acquired in 2011 becoming fully amortized in 2012. This decrease was partially offset by an increase to depreciation and amortization of development communities completed in 2012 and 2013.

Tax Benefit of Taxable REIT Subsidiary

UDR elected for RE³ to be treated as a TRS. Income taxes for TRS are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities from a change in tax rate is recognized in earnings in the period of the enactment date.

The Company recognized an income tax benefit from its TRS of \$2.0 million for the three months ended March 31, 2013. For the three months ended March 31, 2012, the Company recognized an income tax benefit of \$22.9 million, net, from its TRS, which resulted from the reversal of a net deferred tax asset valuation allowance. Prior to 2012, the TRS had a history of losses and, as a result, had historically recognized a valuation allowance for net deferred tax assets. Each quarter, the Company evaluates the need to retain all or a portion of the valuation allowance on its net deferred tax assets. During the three months ended March 31, 2012, the Company determined that it is more likely than not that the deferred tax assets, including any remaining net operating losses, will be realized. In making this determination, the Company analyzed, among other things, its recent history of earnings, forecasts of future earnings from sales of depreciable property, and its cumulative earnings for the last twelve quarters.

Hurricane Related (Recoveries)/Charges, Net

In October 2012, Hurricane Sandy hit the East Coast, affecting three of the Company's operating communities (1,706 apartment homes) located in New York City. The properties suffered some physical damage, and were closed to residents for a period following the hurricane. The Company has insurance policies that provide coverage for property damage and business interruption.

Based on the claims filed and management's estimates, the Company recognized a \$9.0 million impairment charge for the damaged assets' net book value and incurred \$10.4 million of repair and cleanup costs during the year ended December 31, 2012. The impairment charge and the repair and cleanup costs incurred were reduced as of December 31, 2012 by \$14.5 million of estimated insurance recovery, and were classified in "Hurricane related (recoveries)/charges, net" on the Consolidated Statements of Operations. During the three months ended March 31, 2013, no further impairment charges related to the damaged assets' net book value has been recognized. With the exception of one of the properties that is under redevelopment at March 31, 2013, the rehabilitation of the remaining two properties is expected to be completed in the third quarter of 2013.

As of March 31, 2013, the estimated insurance recovery of \$14.5 million related to the impairment charge and the repair and cleanup costs incurred has been reduced by \$8.4 million of insurance proceeds received. An additional \$4.6 million was received subsequent to March 31, 2013.

Based on the claims filed and management's estimates, the Company recognized \$4.4 million of business interruption losses for the year ended December 31, 2012. \$3.6 million of business interruption losses were related to rent concession rebates provided to tenants during the period the properties were uninhabitable and were classified in "Hurricane-related (recoveries)/charges, net," on the Consolidated Statements of Operations, and \$767,000 of business

interruption losses were related to rent that was not contractually receivable and were classified as a reduction to “Rental income” on the Consolidated Statements of Operations.

During the three months ended March 31, 2013, the Company received \$2.5 million of insurance proceeds for recovery of business interruption losses. An additional \$548,000 was received subsequent to March 31, 2013. Of the \$3.0 million of insurance proceeds received, \$2.8 million related to recovery of business interruption losses incurred in 2012 and the remaining \$187,000 related to recovery of business interruption losses incurred in 2013. The \$3.0 million of recovery was classified as “Hurricane related (recoveries)/charges, net” on the Consolidated Statements of Operations as of March 31, 2013.

Table of Contents

To the extent that insurance proceeds ultimately exceed the difference between replacement cost and net book value of the impaired assets, the post-hurricane costs incurred, and/or business interruption losses recognized, the excess will be reflected as recovery of hurricane related charges in the period those amounts are received or when receipt is deemed probable to occur.

Interest Expense

For the three months ended March 31, 2013, interest expense from continuing operations decreased by 10.8% or \$3.8 million as compared to the comparable period in 2012. The decrease in interest expense for the three months ended March 31, 2013 is primarily due to lower debt balances partially offset by the write-off of fair market value adjustment on early extinguishment of debt in 2012.

Gains on the Sale of Depreciable Properties

The Company did not have any dispositions during the three months March 31, 2013. For the three months ended March 31, 2012, we recognized a net gain on the sale of depreciable properties for financial reporting purposes of \$80.5 million. The gain is included in "Income from discontinued operations, net of tax" on the Consolidated Statements of Operations. Changes in the level of gains recognized from period to period reflect the changing level of our divestiture activity from period to period as well as the extent of gains related to specific properties sold.

Inflation

We believe that the direct effects of inflation on our operations have been immaterial. While the impact of inflation primarily impacts our results through wage pressures, utilities and material costs, the majority of our leases are for a term of fourteen months or less, which generally enables us to compensate for any inflationary effects by increasing rents on our apartment homes. Although an extreme escalation in energy and food costs could have a negative impact on our residents and their ability to absorb rent increases, we do not believe this has had a material impact on our results for the three months ended March 31, 2013.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements that have, or are reasonably likely to have, a current or future effect on our financial condition, changes in financial condition, revenue or expenses, results of operations, liquidity, capital expenditures or capital resources that are material.

UNITED DOMINION REALTY, L.P.:

Business Overview

United Dominion Realty, L.P. (the "Operating Partnership" or "UDR, L.P."), is a Delaware limited partnership formed in February 2004 and organized pursuant to the provisions of the Delaware Revised Uniform Limited Partnership Act (as amended from time to time, or any successor to such statute, the "Act"). The Operating Partnership is the successor-in-interest to United Dominion Realty, L.P., a limited partnership formed under the laws of Virginia, which commenced operations on November 4, 1995. Our sole general partner is UDR, Inc., a Maryland corporation ("UDR" or the "General Partner"), which conducts a substantial amount of its business and holds a substantial amount of its assets through the Operating Partnership. At March 31, 2013, the Operating Partnership's real estate portfolio included 70 communities located in nine states and the District of Columbia with a total of 21,660 apartment homes.

As of March 31, 2013, UDR owned 110,883 units of our general limited partnership interests and 174,844,389 units of our limited partnership interests (the "OP Units"), or approximately 94.9% of our outstanding OP Units. By virtue of its ownership of our OP Units and being our sole general partner, UDR has the ability to control all of the day-to-day operations of the Operating Partnership. Unless otherwise indicated or unless the context requires otherwise, all references in this Report to the Operating Partnership or "we," "us" or "our" refer to UDR, L.P. together with its consolidated subsidiaries. We refer to our General Partner together with its consolidated subsidiaries (including us) and the General Partner's consolidated joint ventures as "UDR" or the "General Partner."

UDR is a self-administered real estate investment trust, or REIT that owns, acquires, renovates, develops, and manages apartment communities. The General Partner was formed in 1972 as a Virginia corporation and changed its

state of incorporation from Virginia to Maryland in September 2003. At March 31, 2013, the General Partner's consolidated real estate portfolio included 143 communities located in 10 states and the District of Columbia with a total of 41,750 apartment homes.

Table of Contents

In addition, the General Partner has an ownership interest in 39 communities with 9,558 completed apartment homes through unconsolidated operating communities.

The following table summarizes our market information by major geographic markets as of March 31, 2013.

Same Store Communities	As of March 31, 2013				For the Three Months Ended March 31, 2013

Total Real Estate Owned, Net of Accumulated Depreciation				\$3,068,040		

(a) Total Income per Occupied Home represents total monthly revenues divided by the product of occupancy and the number of mature apartment homes.

We report in two segments: Same Store Communities and Non-Mature Communities/Other. Our Same Store Communities segment includes those communities acquired, developed, and stabilized prior to January 1, 2012, and held as of March 31, 2013. These communities were owned and had stabilized occupancy and operating expenses as of the beginning of the prior year, there is no plan to conduct substantial redevelopment activities, and the community is not held for disposition within the current year. A community is considered to have stabilized occupancy once it achieves 90% occupancy for at least three consecutive months. Our Non-Mature Communities/Other segment includes those communities that were acquired or developed in 2011 or 2012, sold properties, redevelopment properties, properties managed by third parties, and the non-apartment components of mixed use properties.

Table of Contents

Liquidity and Capital Resources

Liquidity is the ability to meet present and future financial obligations either through operating cash flows, the sale of properties, and the issuance of debt. Both the coordination of asset and liability maturities and effective capital management are important to the maintenance of liquidity. The Operating Partnership's primary source of liquidity is cash flow from operations as determined by rental rates, occupancy levels, and operating expenses related to our portfolio of apartment homes and borrowings allocated to us under the General Partner's credit agreements. The General Partner will routinely use its unsecured credit facility to temporarily fund certain investing and financing activities prior to arranging for longer-term financing or the issuance of equity or debt securities. During the past several years, proceeds from the sale of real estate have been used for both investing and financing activities as we repositioned our portfolio.

We expect to meet our short-term liquidity requirements generally through net cash provided by operations and borrowings allocated to us under the General Partner's credit agreements. We expect to meet certain long-term liquidity requirements such as scheduled debt maturities and potential property acquisitions through borrowings and the disposition of properties. We believe that our net cash provided by operations and borrowings will continue to be adequate to meet both operating requirements and the payment of distributions. Likewise, the budgeted expenditures for improvements and renovations of certain properties are expected to be funded from property operations, and borrowings allocated to us under the General Partner's credit agreements.

Future Capital Needs

Future capital expenditures are expected to be funded with proceeds from the issuance of secured debt or unsecured debt, sales of properties, borrowings allocated to us under our General Partner's credit agreements, and to a lesser extent, from cash flows provided by operating activities.

During the remainder of 2013, the Operating Partnership has approximately \$43.0 million of secured debt maturing, inclusive of principal amortization. We anticipate that we will repay that debt with operating cash flows, proceeds from borrowings allocated to us under our General Partner's credit agreements, or by exercising extension rights on such secured debt, as applicable. The repayment of debt will be recorded as an offset to the "Payable/(receivable) due to/(from) General Partner."

Critical Accounting Policies and Estimates

Our critical accounting policies are those having the most impact on the reporting of our financial condition and results and those requiring significant judgments and estimates. These policies include those related to (1) capital expenditures, (2) impairment of long-lived assets, (3) real estate investment properties, and (4) revenue recognition. Our other critical accounting policies are described in more detail in the section entitled "Management's Discussion and Analysis of Financial Condition and Results of Operations" in UDR's current Report on Form 10-K, filed with the SEC on February 27, 2013. There have been no significant changes in our critical accounting policies from those reported in UDR's Form 10-K filed with the SEC on February 27, 2013. With respect to these critical accounting policies, we believe that the application of judgments and assessments is consistently applied and produces financial information that fairly depicts the results of operations for all periods presented.

Statements of Cash Flows

The following discussion explains the changes in net cash provided by operating activities, net cash used in investing activities, and used in financing activities that are presented in our Consolidated Statements of Cash Flows for the three months ended March 31, 2013 and 2012.

Operating Activities

For the three months ended March 31, 2013, net cash flow provided by operating activities was \$42.6 million compared to \$45.6 million for the comparable period in 2012. The decrease in net cash flow from operating activities was primarily due to changes in operating assets and operating liabilities.

Table of Contents

Investing Activities

For the three months ended March 31, 2013, net cash used in investing activities was \$26.7 million compared to \$17.9 million for the comparable period in 2012. The increase in cash used in investing activities was primarily due to the increase in development activities. Changes in the level of investment activities from period to period reflect our strategy as it relates to capital expenditures.

Real Estate Under Development and Redevelopment

At March 31, 2013, the Operating Partnership is developing two wholly-owned communities totaling 652 homes with a budget of \$219.1 million in which we have a carrying value of \$98.9 million. The estimated completion date for these communities will be through the second quarter of 2014.

At March 31, 2013, the Operating Partnership is redeveloping one wholly-owned community with 964 apartment homes, of which 220 have been completed. The estimated completion date for this community will be through the second quarter of 2014.

Financing Activities

For the three months ended March 31, 2013, our net cash used in financing activities was \$15.7 million compared to \$27.4 million for the comparable period of 2012. The change in cash used in financing activities was primarily due to a decrease in payments on secured debt and a decrease in payments to the General Partner, partially offset by a decrease in proceeds from the issuance of secured debt.

Credit Facilities

As of March 31, 2013, the General Partner had secured credit facilities with Fannie Mae with an aggregate commitment of \$929.3 million with \$840.5 million outstanding. The Fannie Mae credit facilities are for an initial term of 10 years and bear interest at floating and fixed rates. At March 31, 2013, \$629.1 million of the funded balance was fixed at a weighted average interest rate of 5.11% and the remaining balance on these facilities was at a weighted average variable rate of 2.06%. At March 31, 2013, \$507.6 million of these credit facilities were allocated to the Operating Partnership based on the ownership of the assets securing the debt.

The Operating Partnership is a guarantor on the General Partner's unsecured revolving credit facility with an aggregate borrowing capacity of \$900 million, a \$250 million term loan due January 2016, a \$100 million term loan due January 2016, \$300 million of medium-term notes due June 2018, and \$400 million of medium-term notes due January 2022.

As of March 31, 2013 and December 31, 2012, there were \$170.0 million and \$76.0 million outstanding borrowings under the unsecured credit facility, respectively.

The credit facilities are subject to customary financial covenants and limitations.

Derivative Instruments

As part of our General Partner's overall interest rate risk management strategy, our General Partner uses derivatives as a means to fix the interest rates of variable rate debt obligations or to hedge anticipated financing transactions. Our General Partner's derivative transactions used for interest rate risk management include interest rate swaps with indexes that relate to the pricing of specific debt instruments of our General Partner that are allocated to the Operating Partnership. The General Partner believes that we have appropriately controlled our interest rate risk through the use of derivative instruments (allocated to the Operating Partnership based on the General Partner's underlying debt instruments allocated to the Operating Partnership) to minimize any unintended effect on consolidated earnings.

Derivative contracts did not have a material impact on the results of operations during the three months ended March 31, 2013 (see Note 8, Derivatives and Hedging Activity in the Notes to the Consolidated Financial Statements of United Dominion Realty, L.P. included in this Report).

Interest Rate Risk

We are exposed to interest rate risk associated with variable rate notes payable and maturing debt that has to be refinanced. We do not hold financial instruments for trading or other speculative purposes, but rather issue these financial instruments to finance our portfolio of real estate assets. Interest rate sensitivity is the relationship between changes in market interest rates and the fair value of market rate sensitive assets and liabilities. Our earnings are affected as changes in short-term interest rates impact our cost of variable rate debt and maturing fixed rate debt. We had \$201.6 million in variable rate debt that

Table of Contents

is not subject to interest rate swap contracts as of March 31, 2013. If market interest rates for variable rate debt increased by 100 basis points, our interest expense would increase by \$2.0 million based on the balance at March 31, 2013.

These amounts are determined by considering the impact of hypothetical interest rates on our borrowing cost. These analyses do not consider the effects of the adjusted level of overall economic activity that could exist in such an environment. Further, in the event of a change of such magnitude, management would likely take actions to further mitigate our exposure to the change. However, due to the uncertainty of the specific actions that would be taken and their possible effects, the sensitivity analysis assumes no change in our financial structure.

The General Partner also utilizes derivative financial instruments allocated to the Operating Partnership to manage interest rate risk and generally designates these financial instruments as cash flow hedges. See Note 8, Derivatives and Hedging Activities, in the Notes to the Consolidated Financial Statements for additional discussion of derivative instruments.

Results of Operations

The following discussion explains the changes in results of operations that are presented in our Consolidated Statements of Operations for the three months ended March 31, 2013 and 2012, and includes the results of both continuing and discontinued operations for the periods presented.

Net Income/(Loss) Attributable to OP Unitholders

Net income/(loss) attributable to OP unitholders was \$7.7 million (\$0.04 per OP unit) for the three months ended March 31, 2013 as compared to \$(6.9) million (\$(0.04) per OP unit) for the comparable period in the prior year. The increase in net income attributable to OP unit holders resulted primarily from the following items, all of which are discussed in further detail elsewhere within this Report:

- a decrease in depreciation and amortization due to the sale of real estate properties in the second quarter of 2012;
- a decrease in interest expense due to early extinguishment of secured debt in 2012; and
- an increase in hurricane-related recoveries, net resulting from the effects of Hurricane Sandy on two of our New York, New York communities in 2012.

Apartment Community Operations

Our net income results primarily from net operating income ("NOI") generated from the operation of our apartment communities. The Operating Partnership defines NOI, which is a non-GAAP financial measure, as rental income less direct property rental expenses. Rental income represents gross market rent less adjustments for concessions, vacancy loss and bad debt. Rental expenses include real estate taxes, insurance, personnel, utilities, repairs and maintenance, administrative and marketing. Excluded from NOI is property management expense which is calculated as 2.75% of property revenue to cover regional supervision and accounting costs related to consolidated property operations, and land rent.

Table of Contents

The following table summarizes the operating performance of our total portfolio (which includes discontinued operations) for the three months ended March 31, 2013 and 2012 (dollars in thousands):

	For the Three Months Ended			
	March 31, 2013	2012	% Change	
Same Store Communities:				
Same store rental income	\$86,117	\$82,004	5.0	%
Same store operating expense (a)	(26,224) (25,404) 3.2	%
Same store NOI	59,893	56,600	5.8	%
Non-Mature Communities/Other NOI:				
Acquired communities NOI	3,361	3,153	6.6	%
Sold or held for sale communities NOI	—	2,304	(100.0)%
Redeveloped communities NOI	4,624	5,317	(13.0)%
Commercial NOI and other	2,245	2,164	3.7	%
Total non-mature communities/other NOI	10,230	12,938	(20.9)%
Total Property NOI	\$70,123	\$69,538	0.8	%

(a) Excludes depreciation, amortization, and property management expenses.

The following table is our reconciliation of property NOI to net income/(loss) attributable to OP unitholders as reflected, for both continuing and discontinued operations, for the three months ended March 31, 2013 and 2012 (dollars in thousands):

	Three Months Ended March		
	2013	2012	
Total property NOI	\$70,123	\$69,538	
Property management	(2,752) (2,730)
Other operating expenses	(1,386) (4,049)
Real estate depreciation and amortization	(45,393) (51,677)
General and administrative	(5,575) (4,920)
Hurricane-related recoveries/(charges), net	2,019	—	
Interest expense	(9,262) (12,970)
Net loss on sale of depreciable property	—	(84)
Noncontrolling interests	(45) (34)
Net income/(loss) attributable to OP unitholders	\$7,729	\$(6,926)

Three Months Ended March 31, 2013 vs. Three Months Ended March 31, 2012

Same Store Communities

Our same store communities (those acquired, developed, and stabilized prior to January 1, 2012 and held on March 31, 2013) consisted of 19,530 apartment homes and provided 85% of our total NOI for the three months ended March 31, 2013.

NOI for our same store community properties increased 5.8% or \$3.3 million for the three months ended March 31, 2013 compared to the same period in 2012. The increase in property NOI was primarily attributable to a 5.0% or \$4.1 million increase in total revenue, which was partially offset by a 3.2% or \$820,000 increase in operating expenses. The increase in revenues was primarily driven by a 4.7% or \$3.7 million increase in rental rates and a 8.6% or \$565,000 increase in fee and reimbursement income. Physical occupancy decreased 0.1% to 95.0% and total income per occupied home increased \$75 to \$1,547 for the three months ended March 31, 2013 compared to the same period in 2012.

Table of Contents

The increase in property operating expenses was primarily driven by a 8.6% increase of \$722,000 in real estate taxes and a 4.2% or \$256,000 increase in personnel costs, which was partially offset by a 2.4% or \$107,000 decrease in utilities costs.

As a result of the percentage changes in property rental income, the operating margin (property net operating income divided by property rental income) was 69.5% for the three months ended March 31, 2013 as compared to 69.0% for the comparable period in 2012.

Non-Mature Communities/Other

The remaining \$10.2 million or 15% of our total NOI during the three months ended March 31, 2013, was generated from communities that we classify as “non-mature communities/other.” The Operating Partnership’s non-mature communities/other consist of communities that do not meet the criteria to be included in same store communities, which includes communities developed or acquired, redevelopment properties, sold properties, and non-apartment components of mixed use properties. NOI from non-mature communities/other decreased 20.9% or \$2.7 million for the three months ended March 31, 2013 compared to the same period in 2012. The decrease was primarily driven by a decrease in NOI of \$2.3 million from properties sold during 2012 and a decrease of 13.0% or \$693,000 from redevelopment properties. These decreases in NOI were partially offset by an increase of 6.6% or \$208,000 from communities acquired in 2011.

Real Estate Depreciation and Amortization

For the three months ended March 31, 2013, real estate depreciation and amortization from continuing and discontinued operations decreased by 12.2% or \$6.3 million as compared to the comparable period in 2012. The decrease in depreciation and amortization for the three months ended March 31, 2013 is primarily from disposition of assets and intangible assets related to in place leases acquired in 2011 becoming fully amortized in 2012.

Hurricane-related (Recoveries)/Charges, Net

In October 2012, Hurricane Sandy hit the East Coast, affecting two of the Operating Partnership’s operating communities (1,001 apartment homes) located in New York City. The properties suffered some physical damage, and were closed to residents for a period following the hurricane. The Operating Partnership has insurance policies that provide coverage for property damage and business interruption.

Based on the claims filed and management’s estimates, the Operating Partnership recognized a \$7.1 million impairment charge for the damaged assets’ net book value and incurred \$7.0 million of repair and cleanup costs during the year ended December 31, 2012. The impairment charge and the repair and cleanup costs incurred were reduced as of December 31, 2012 by \$10.8 million of estimated insurance recovery, and were classified in “Hurricane related (recoveries)/charges, net” on the Consolidated Statements of Operations. During the three months ended March 31, 2013, no further impairment charges related to the damaged assets’ net book value have been recognized. The rehabilitation of these two properties is expected to be completed in the third quarter of 2013.

As of March 31, 2013, the estimated recovery of \$10.8 million related to the impairment charge and the repair and cleanup costs incurred has been reduced by \$6.0 million of insurance proceeds received. An additional \$3.2 million was received subsequent to March 31, 2013.

Based on the claims filed and management’s estimates, the Operating Partnership recognized \$2.2 million of business interruption losses for the year ended December 31, 2012. \$1.8 million of business interruption losses were related to rent concession rebates provided to tenants during the period the properties were uninhabitable and were classified in “Hurricane-related (recoveries)/charges, net,” on the Consolidated Statements of Operations, and \$400,000 of business interruption losses were related to rent that was not contractually receivable and were classified as a reduction to “Rental income” on the Consolidated Statements of Operations.

During the three months March 31, 2013, the Company received \$2.0 million of insurance proceeds for recovery of business interruption losses. An additional \$519,000 was received subsequent to March 31, 2013. Of the \$2.0 million of insurance proceeds received, \$1.8 million related to recovery of business interruption losses incurred in 2012 and the remaining \$187,000 related to recovery of business interruption losses incurred in 2013. The \$2.0 million of

recovery was classified as "Hurricane related (recoveries)/charges, net" on the Consolidated Statements of Operations.

77

Table of Contents

To the extent that insurance proceeds ultimately exceed the difference between replacement cost and net book value of the impaired assets, the post-hurricane costs incurred, and/or business interruption losses recognized, the excess will be reflected as recovery of Hurricane related charges in the period those amounts are received or when receipt is deemed probable to occur.

Interest Expense

For the three months ended March 31, 2013, interest expense from continuing operations decreased by 28.6% and \$3.7 million as compared to the comparable period in 2012. The decrease in interest expense for the three months ended March 31, 2013 is primarily due to early extinguishment of debt in 2012.

Inflation

We believe that the direct effects of inflation on our operations have been immaterial. While the impact of inflation primarily impacts our results through wage pressures, utilities and material costs, substantially all of our leases are for a term of one year or less, which generally enables us to compensate for any inflationary effects by increasing rents on our apartment homes. Although an extreme escalation in energy and food costs could have a negative impact on our residents and their ability to absorb rent increases, we do not believe this has had a material impact on our results for the three months March 31, 2013.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements that have, or are reasonably likely to have, a current or future effect on our financial condition, changes in financial condition, revenue or expenses, results of operations, liquidity, capital expenditures or capital resources that are material.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company and the Operating Partnership are exposed to interest rate changes associated with our unsecured credit facility and other variable rate debt as well as refinancing risk on our fixed rate debt. The Company's and the Operating Partnership's involvement with derivative financial instruments is limited and we do not expect to use them for trading or other speculative purposes. The Company and the Operating Partnership use derivative instruments solely to manage their exposure to interest rates.

See our Annual Report on Form 10-K for the year ended December 31, 2012 under the heading "Item 7A. Quantitative and Qualitative Disclosures About Market Risk" for a more complete discussion of our interest rate sensitive assets and liabilities. As of March 31, 2013, our market risk has not changed materially from the amounts reported in our Annual Report on Form 10-K for the year ended December 31, 2012.

Item 4. CONTROLS AND PROCEDURES

The disclosure controls and procedures of the Company and the Operating Partnership are designed with the objective of ensuring that information required to be disclosed in our reports filed under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Our disclosure controls and procedures are also designed to ensure that such information is accumulated and communicated to our management, including our Chief Executive Officer and Principal Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

It should be noted that the design of any system of controls is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions, regardless of how remote. As a result, our disclosure controls and procedures are designed to provide reasonable assurance that such disclosure controls and procedures will meet their objectives.

As of March 31, 2013, we carried out an evaluation, under the supervision and with the participation of the Chief Executive Officer and Principal Financial Officer of the Company, of the effectiveness of the design and operation of the disclosure controls and procedures of the Company and the Operating Partnership. Based on this evaluation, the Chief Executive Officer and Principal Financial Officer of the Company concluded that the disclosure controls and procedures of the Company and the Operating Partnership are effective at the reasonable assurance level described above.

Table of Contents

PART II — OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS

The Company is a party to various claims and routine litigation arising in the ordinary course of business. We do not believe that the results of any such claims and litigation, individually or in the aggregate, will have a material adverse effect on our business, financial position or results of operations.

Item 1A. RISK FACTORS

There are many factors that affect the business and the results of operations of the Company and the Operating Partnership, some of which are beyond the control of the Company and the Operating Partnership. The following is a description of important factors that may cause the actual results of operations of the Company and the Operating Partnership in future periods to differ materially from those currently expected or discussed in forward-looking statements set forth in this Report relating to our financial results, operations and business prospects. Forward-looking statements and such risks, uncertainties and other factors speak only as of the date of this Report, and we expressly disclaim any obligation or undertaking to update or revise any forward-looking statement contained herein, to reflect any change in our expectations with regard thereto, or any other change in events, conditions or circumstances on which any such statement is based, except to the extent otherwise required by law.

Risks Related to Our Real Estate Investments and Our Operations

Unfavorable Apartment Market and Economic Conditions Could Adversely Affect Occupancy Levels, Rental Revenues and the Value of Our Real Estate Assets. Unfavorable market conditions in the areas in which we operate and unfavorable economic conditions generally may significantly affect our occupancy levels, our rental rates and collections, the value of the properties and our ability to strategically acquire or dispose of apartment communities on economically favorable terms. Our ability to lease our properties at favorable rates is adversely affected by the increase in supply in the multifamily market and is dependent upon the overall level in the economy, which is adversely affected by, among other things, job losses and unemployment levels, recession, personal debt levels, the downturn in the housing market, stock market volatility and uncertainty about the future. Some of our major expenses, including mortgage payments and real estate taxes, generally do not decline when related rents decline. We would expect that declines in our occupancy levels, rental revenues and/or the values of our apartment communities would cause us to have less cash available to pay our indebtedness and to distribute to UDR's stockholders, which could adversely affect our financial condition and the market value of our securities. Factors that may affect our occupancy levels, our rental revenues, and/or the value of our properties include the following, among others:

- downturns in the national, regional and local economic conditions, particularly increases in unemployment;

- declines in mortgage interest rates, making alternative housing more affordable;

- government or builder incentives which enable first time homebuyers to put little or no money down, making alternative housing options more attractive;

- local real estate market conditions, including oversupply of, or reduced demand for, apartment homes;

- declines in the financial condition of our tenants, which may make it more difficult for us to collect rents from some tenants;

- changes in market rental rates;

- our ability to renew leases or re-lease space on favorable terms;

- the timing and costs associated with property improvements, repairs or renovations;
- declines in household formation; and

rent control or stabilization laws, or other laws regulating rental housing, which could prevent us from raising rents to offset increases in operating costs.

Table of Contents

Continued Economic Weakness Following the Economic Recession that the U.S. Economy Recently Experienced May Materially and Adversely Affect our Financial Condition and Results of Operations. The U.S. economy continues to experience some weakness following a severe recession, including relatively high levels of unemployment and weak consumer spending. If the economic recovery slows or stalls, or if the economy experiences another recession, we may experience adverse effects on our occupancy levels, our rental revenues and the value of our properties, any of which could adversely affect our cash flow, financial condition and results of operations. We are also exposed to risks relating to the housing market recovery that has accompanied the economic recovery, to the extent that when demand for single family homes increases, demand for apartments may decline, which could adversely affect our cash flow, financial condition and results of operations.

Substantial International, National and Local Government Spending and Increasing Deficits May Adversely Impact Our Business, Financial Condition and Results of Operations. The values of, and the cash flows from, the properties we own are affected by developments in global, national and local economies. As a result of the most recent recession and the significant government interventions, federal, state and local governments have incurred record deficits and assumed or guaranteed liabilities of private financial institutions or other private entities. These increased budget deficits and the weakened financial condition of federal, state and local governments may lead to reduced governmental spending, tax increases, public sector job losses, increased interest rates, currency devaluations or other adverse economic events, which may directly or indirectly adversely affect our business, financial condition and results of operations.

Risk of Inflation/Deflation. Substantial inflationary or deflationary pressures could have a negative effect on rental rates and property operating expenses. The general risk of inflation is that our debt interest and general and administrative expenses increase at a rate higher than our rental rates. The predominant effects of deflation include high unemployment and credit contraction. Restricted lending practices could impact our ability to obtain financing or refinancing for our properties. High unemployment may have a negative effect on our occupancy levels and our rental revenues.

We Are Subject to Certain Risks Associated with Selling Apartment Communities, Which Could Limit Our Operational and Financial Flexibility. We periodically dispose of apartment communities that no longer meet our strategic objectives, but adverse market conditions may make it difficult to sell apartment communities like the ones we own. We cannot predict whether we will be able to sell any property for the price or on the terms we set, or whether any price or other terms offered by a prospective purchaser would be acceptable to us. We also cannot predict the length of time needed to find a willing purchaser and to close the sale of a property. Furthermore, we may be required to expend funds to correct defects or to make improvements before a property can be sold. These conditions may limit our ability to dispose of properties and to change our portfolio promptly in order to meet our strategic objectives, which may in turn have a material adverse effect on our financial condition and the market value of our securities. We are also subject to the following risks in connection with sales of our apartment communities: a significant portion of the proceeds from our overall property sales may be held by intermediaries in order for some sales to qualify as like-kind exchanges under Section 1031 of the Internal Revenue Code of 1986, as amended, or the "Code," so that any related capital gain can be deferred for federal income tax purposes. As a result, we may not have immediate access to all of the cash proceeds generated from our property sales; and

federal tax laws limit our ability to profit on the sale of communities that we have owned for less than two years, and this limitation may prevent us from selling communities when market conditions are favorable.

Competition Could Limit Our Ability to Lease Apartment Homes or Increase or Maintain Rents. Our apartment communities compete with numerous housing alternatives in attracting residents, including other apartment communities, condominiums and single-family rental homes, as well as owner occupied single- and multi-family homes. Competitive housing in a particular area could adversely affect our ability to lease apartment homes and increase or maintain rents.

We May Not Realize the Anticipated Benefits of Past or Future Acquisitions, and the Failure to Integrate Acquired Communities and New Personnel Successfully Could Create Inefficiencies. We have selectively acquired in the past, and if presented with attractive opportunities we intend to selectively acquire in the future, apartment communities that meet our investment criteria. Our acquisition activities and their success are subject to the following risks:

- we may be unable to obtain financing for acquisitions on favorable terms or at all;

- even if we are able to finance the acquisition, cash flow from the acquisition may be insufficient to meet our required principal and interest payments on the acquisition;

Table of Contents

even if we enter into an acquisition agreement for an apartment community, we may be unable to complete the acquisition after incurring certain acquisition-related costs;

we may incur significant costs and divert management attention in connection with the evaluation and negotiation of potential acquisitions, including potential acquisitions that we are subsequently unable to complete;

when we acquire an apartment community, we may invest additional amounts in it with the intention of increasing profitability, and these additional investments may not produce the anticipated improvements in profitability; and

we may be unable to quickly and efficiently integrate acquired apartment communities and new personnel into our existing operations, and the failure to successfully integrate such apartment communities or personnel will result in inefficiencies that could adversely affect our expected return on our investments and our overall profitability.

Competition Could Adversely Affect Our Ability to Acquire Properties. In the past, other real estate investors, including insurance companies, pension and investment funds, developer partnerships, investment companies and other public and private apartment REITs, have competed with us to acquire existing properties and to develop new properties, and such competition in the future may make it more difficult for us to pursue attractive investment opportunities on favorable terms, which could adversely affect our ability to grow.

Development and Construction Risks Could Impact Our Profitability. In the past we have selectively pursued the development and construction of apartment communities, and we intend to do so in the future as appropriate opportunities arise. Development activities have been, and in the future may be, conducted through wholly-owned affiliated companies or through joint ventures with unaffiliated parties. Our development and construction activities are subject to the following risks:

we may be unable to obtain construction financing for development activities under favorable terms, including but not limited to interest rates, maturity dates and/or loan to value ratios, or at all which could cause us to delay or even abandon potential developments;

we may be unable to obtain, or face delays in obtaining, necessary zoning, land-use, building, occupancy and other required governmental permits and authorizations, which could result in increased development costs, could delay initial occupancy dates for all or a portion of a development community, and could require us to abandon our activities entirely with respect to a project for which we are unable to obtain permits or authorizations;

yields may be less than anticipated as a result of delays in completing projects, costs that exceed budget and/or higher than expected concessions for lease up and lower rents than expected;

if we are unable to find joint venture partners to help fund the development of a community or otherwise obtain acceptable financing for the developments, our development capacity may be limited;

we may abandon development opportunities that we have already begun to explore, and we may fail to recover expenses already incurred in connection with exploring such opportunities;

we may be unable to complete construction and lease-up of a community on schedule, or incur development or construction costs that exceed our original estimates, and we may be unable to charge rents that would compensate for any increase in such costs;

occupancy rates and rents at a newly developed community may fluctuate depending on a number of factors, including market and economic conditions, preventing us from meeting our profitability goals for that community; and

when we sell to third parties communities or properties that we developed or renovated, we may be subject to warranty or construction defect claims that are uninsured or exceed the limits of our insurance.

In some cases in the past, the costs of upgrading acquired communities exceeded our original estimates. We may experience similar cost increases in the future. Our inability to charge rents that will be sufficient to offset the effects of any increases in these costs may impair our profitability.

Bankruptcy or Defaults of Our Counterparties Could Adversely Affect Our Performance. We have relationships with and, from time to time, we execute transactions with or receive services from many counterparties, such as general contractors engaged in connection with our development activities. As a result, bankruptcies or defaults by these counterparties could result

Table of Contents

in services not being provided, or volatility in the financial markets and economic weakness could affect the counterparties' ability to complete transactions with us as intended, both of which could result in disruptions to our operations that may adversely affect our business and results of operations.

Property Ownership Through Joint Ventures May Limit Our Ability to Act Exclusively in Our Interest. We have in the past and may in the future develop and/or acquire properties in joint ventures with other persons or entities when we believe circumstances warrant the use of such structures. If we use such a structure, we could become engaged in a dispute with one or more of our joint venture partners that might affect our ability to operate a jointly-owned property. Moreover, joint venture partners may have business, economic or other objectives that are inconsistent with our objectives, including objectives that relate to the appropriate timing and terms of any sale or refinancing of a property. In some instances, joint venture partners may have competing interests in our markets that could create conflicts of interest. Also, our joint venture partners might refuse to make capital contributions when due and we may be responsible to our partners for indemnifiable losses. Frequently, we and our partners may each have the right to trigger a buy-sell arrangement, which could cause us to sell our interest, or acquire our partners' interest, at a time when we otherwise would not have initiated such a transaction and may result in the valuation of our interest in the joint venture (if we are the seller) or of the other partner's interest in the joint venture (if we are the buyer) at levels which may not be representative of the valuation that would result from an arm's length marketing process.

We are also subject to risk in cases where an institutional owner is our joint venture partner, including (i) a deadlock if we and our joint venture partner are unable to agree upon certain major and other decisions, (ii) the limitation of our ability to liquidate our position in the joint venture without the consent of the other joint venture partner, and (iii) the requirement to provide guarantees in favor of lenders with respect to the indebtedness of the joint venture.

We Could Incur Significant Insurance Costs and Some Potential Losses May Not Be Adequately Covered by Insurance. We have a comprehensive insurance program covering our property and operating activities. We believe the policy specifications and insured limits of these policies are adequate and appropriate. There are, however, certain types of extraordinary losses which may not be adequately covered under our insurance program. In addition, we will sustain losses due to insurance deductibles, self-insured retention, uninsured claims or casualties, or losses in excess of applicable coverage.

If an uninsured loss or a loss in excess of insured limits occur, we could lose all or a portion of the capital we have invested in a property, as well as the anticipated future revenue from the property. In such an event, we might nevertheless remain obligated for any mortgage debt or other financial obligations related to the property. Material losses in excess of insurance proceeds may occur in the future. If one or more of our significant properties were to experience a catastrophic loss, it could seriously disrupt our operations, delay revenue and result in large expenses to repair or rebuild the property. Such events could adversely affect our cash flow and ability to make distributions to UDR's stockholders.

As a result of our substantial real estate holdings, the cost of insuring our apartment communities is a significant component of expense. Insurance premiums are subject to significant increases and fluctuations, which can be widely outside of our control. We insure our properties with insurance companies that we believe have a good rating at the time our policies are put into effect. The financial condition of one or more of our insurance companies that we hold policies with may be negatively impacted resulting in their inability to pay on future insurance claims. Their inability to pay future claims may have a negative impact on our financial results. In addition, the failure of one or more insurance companies may increase the costs to renew our insurance policies or increase the cost of insuring additional properties and recently developed or redeveloped properties.

Failure to Succeed in New Markets May Limit Our Growth. We have acquired in the past, and we may acquire in the future if appropriate opportunities arise, apartment communities that are outside of our existing markets. Entering into new markets may expose us to a variety of risks, and we may not be able to operate successfully in new markets.

These risks include, among others:

• inability to accurately evaluate local apartment market conditions and local economies;

• inability to hire and retain key personnel;

- lack of familiarity with local governmental and permitting procedures; and

inability to achieve budgeted financial results.

Potential Liability for Environmental Contamination Could Result in Substantial Costs. Under various federal, state and local environmental laws, as a current or former owner or operator of real estate, we could be required to investigate and remediate the effects of contamination of currently or formerly owned real estate by hazardous or toxic substances, often

Table of Contents

regardless of our knowledge of or responsibility for the contamination and solely by virtue of our current or former ownership or operation of the real estate. In addition, we could be held liable to a governmental authority or to third parties for property damage and for investigation and clean-up costs incurred in connection with the contamination. These costs could be substantial, and in many cases environmental laws create liens in favor of governmental authorities to secure their payment. The presence of such substances or a failure to properly remediate any resulting contamination could materially and adversely affect our ability to borrow against, sell or rent an affected property. In addition, our properties are subject to various federal, state and local environmental, health and safety laws, including laws governing the management of wastes and underground and aboveground storage tanks. Noncompliance with these environmental, health and safety laws could subject us to liability. Changes in laws could increase the potential costs of compliance with environmental laws, health and safety laws or increase liability for noncompliance. This may result in significant unanticipated expenditures or may otherwise materially and adversely affect our operations.

As the owner or operator of real property, we may also incur liability based on various building conditions. For example, buildings and other structures on properties that we currently own or operate or those we acquire or operate in the future contain, may contain, or may have contained, asbestos-containing material, or ACM. Environmental, health and safety laws require that ACM be properly managed and maintained and may impose fines or penalties on owners, operators or employers for non-compliance with those requirements.

These requirements include special precautions, such as removal, abatement or air monitoring, if ACM would be disturbed during maintenance, renovation or demolition of a building, potentially resulting in substantial costs. In addition, we may be subject to liability for personal injury or property damage sustained as a result of exposure to ACM or releases of ACM into the environment.

We cannot assure you that costs or liabilities incurred as a result of environmental issues will not affect our ability to make distributions to our shareholders, or that such costs or liabilities will not have a material adverse effect on our financial condition and results of operations.

Our Properties May Contain or Develop Harmful Mold or Suffer from Other Indoor Air Quality Issues, Which Could Lead to Liability for Adverse Health Effects or Property Damage or Cost for Remediation. When excessive moisture accumulates in buildings or on building materials, mold growth may occur, particularly if the moisture problem remains undiscovered or is not addressed over a period of time. Some molds may produce airborne toxins or irritants. Indoor air quality issues can also stem from inadequate ventilation, chemical contamination from indoor or outdoor sources, and other biological contaminants such as pollen, viruses and bacteria. Indoor exposure to airborne toxins or irritants can be alleged to cause a variety of adverse health effects and symptoms, including allergic or other reactions. As a result, the presence of significant mold or other airborne contaminants at any of our properties could require us to undertake a costly remediation program to contain or remove the mold or other airborne contaminants or to increase ventilation. In addition, the presence of significant mold or other airborne contaminants could expose us to liability from our tenants or others if property damage or personal injury occurs.

Compliance or Failure to Comply with the Americans with Disabilities Act of 1990 or Other Safety Regulations and Requirements Could Result in Substantial Costs. The Americans with Disabilities Act generally requires that public buildings, including our properties, be made accessible to disabled persons. Noncompliance could result in the imposition of fines by the federal government or the award of damages to private litigants. From time to time claims may be asserted against us with respect to some of our properties under this Act. If, under the Americans with Disabilities Act, we are required to make substantial alterations and capital expenditures in one or more of our properties, including the removal of access barriers, it could adversely affect our financial condition and results of operations.

Our properties are subject to various federal, state and local regulatory requirements, such as state and local fire and life safety requirements. If we fail to comply with these requirements, we could incur fines or private damage awards. We do not know whether existing requirements will change or whether compliance with future requirements will require significant unanticipated expenditures that will affect our cash flow and results of operations.

Real Estate Tax and Other Laws. Generally we do not directly pass through costs resulting from compliance with or changes in real estate tax laws to residential property tenants. We also do not generally pass through increases in

income, service or other taxes, to tenants under leases. These costs may adversely affect net operating income and the ability to make distributions to stockholders. Similarly, compliance with or changes in (i) laws increasing the potential liability for environmental conditions existing on properties or the restrictions on discharges or other conditions or (ii) rent control or rent stabilization laws or other laws regulating housing, such as the Americans with Disabilities Act and the Fair Housing

83

Table of Contents

Amendments Act of 1988, may result in significant unanticipated expenditures, which would adversely affect funds from operations and the ability to make distributions to stockholders.

Risk of Damage from Catastrophic Weather Events. Certain of our communities are located in the general vicinity of mudslides and fires, and others where there are hurricanes, tornadoes or risks of other inclement weather. The adverse weather events could cause damage or losses that may be greater than insured levels. In the event of a loss in excess of insured limits, we could lose our capital invested in the affected community, as well as anticipated future revenue from that community. We would also continue to be obligated to repay any mortgage indebtedness or other obligations related to the community. Any such loss could materially and adversely affect our business and our financial condition and results of operations.

Risk of Earthquake Damage. Some of our communities are located in the general vicinity of active earthquake faults. We cannot assure you that an earthquake would not cause damage or losses greater than insured levels. In the event of a loss in excess of insured limits, we could lose our capital invested in the affected community, as well as anticipated future revenue from that community. We would also continue to be obligated to repay any mortgage indebtedness or other obligations related to the community. Any such loss could materially and adversely affect our business and our financial condition and results of operations. Insurance coverage for earthquakes can be costly due to limited industry capacity. As a result, we may experience shortages in desired coverage levels if market conditions are such that insurance is not available or the cost of insurance makes it, in management's view, economically impractical.

Risk of Accidental Death Due to Fire, Natural Disasters or Other Hazards. The accidental death of persons living in our communities due to fire, natural disasters or other hazards could have a material adverse effect on our business and results of operations. Our insurance coverage may not cover all losses associated with such events, and we may experience difficulty marketing communities where such any such events have occurred, which could have a material adverse effect on our business and results of operations.

Actual or Threatened Terrorist Attacks May Have an Adverse Effect on Our Business and Operating Results and Could Decrease the Value of Our Assets. Actual or threatened terrorist attacks and other acts of violence or war could have a material adverse effect on our business and operating results. Attacks that directly impact one or more of our apartment communities could significantly affect our ability to operate those communities and thereby impair our ability to achieve our expected results. Further, our insurance coverage may not cover all losses caused by a terrorist attack. In addition, the adverse effects that such violent acts and threats of future attacks could have on the U.S. economy could similarly have a material adverse effect on our business and results of operations.

Mezzanine Loan Assets Involve Greater Risks of Loss than Senior Loans Secured by Income-producing Properties. We may acquire mezzanine loans, which take the form of subordinated loans secured by second mortgages on the underlying property or loans secured by a pledge of the ownership interests of either the entity owning the property or a pledge of the ownership interests of the entity that owns the interest in the entity owning the property. Mezzanine loans may involve a higher degree of risk than long-term senior mortgage lending secured by income-producing real property, because the loan may become unsecured as a result of foreclosure by the senior lender and because it is in second position and there may not be adequate equity in the property. In the event of a bankruptcy of the entity providing the pledge of its ownership interests as security, we may not have full recourse to the assets of such entity, or the assets of the entity may not be sufficient to satisfy our mezzanine loan. If a borrower defaults on our mezzanine loan or debt senior to our loan, or in the event of a borrower bankruptcy, our mezzanine loan will be satisfied only after the senior debt. As a result, we may not recover some of or all our initial expenditure. In addition, mezzanine loans may have higher loan-to-value ratios than conventional mortgage loans, resulting in less equity in the property and increasing the risk of loss of principal.

We May Experience a Decline in the Fair Value of Our Assets and Be Forced to Recognize Impairment Charges, Which Could Materially and Adversely Impact Our Financial Condition, Liquidity and Results of Operations and the Market Price of UDR's Common Stock. A decline in the fair value of our assets may require us to recognize an impairment against such assets under GAAP if we were to determine that, with respect to any assets in unrealized loss positions, we do not have the ability and intent to hold such assets to maturity or for a period of time sufficient to allow for recovery to the amortized cost of such assets. If such a determination were to be made, we would recognize unrealized losses through earnings and write down the amortized cost of such assets to a new cost basis, based on the

fair value of such assets on the date they are considered to be impaired. Such impairment charges reflect non-cash losses at the time of recognition; subsequent disposition or sale of such assets could further affect our future losses or gains, as they are based on the difference between the sale price received and adjusted amortized cost of such assets at the time of sale. If we are required to recognize asset impairment charges in the future, these charges could materially and adversely affect our financial condition, liquidity, results of operations and the per share trading price of UDR's common stock.

Table of Contents

Any Material Weaknesses Identified in Our Internal Control Over Financial Reporting Could Have an Adverse Effect on UDR's Stock Price. Section 404 of the Sarbanes-Oxley Act of 2002 requires us to evaluate and report on our internal control over financial reporting. If we identify one or more material weaknesses in our internal control over financial reporting, we could lose investor confidence in the accuracy and completeness of our financial reports, which in turn could have an adverse effect on UDR's stock price.

Our Business and Operations Would Suffer in the Event of System Failures. Despite system redundancy, the implementation of security measures and the existence of a disaster recovery plan for our internal information technology systems, our systems are vulnerable to damages from any number of sources, including computer viruses, unauthorized access, energy blackouts, natural disasters, terrorism, war, and telecommunication failures. We rely on information technology networks and systems, including the Internet, to process, transmit and store electronic information and to manage or support a variety of our business processes, including financial transactions and keeping of records, which may include personal identifying information of tenants and lease data. We rely on commercially available systems, software, tools and monitoring to provide security for processing, transmitting and storing confidential tenant information, such as individually identifiable information relating to financial accounts. Although we take steps to protect the security of the data maintained in our information systems, it is possible that our security measures will not be able to prevent the systems' improper functioning, or the improper disclosure of personally identifiable information, such as in the event of cyber attacks. Security breaches, including physical or electronic break-ins, computer viruses, attacks by hackers and similar breaches, can create system disruptions, shutdowns or unauthorized disclosure of confidential information. Any failure to maintain proper function, security and availability of our information systems could interrupt our operations, damage our reputation, subject us to liability claims or regulatory penalties and could materially and adversely affect us.

Our Success Depends on Our Senior Management. Our success depends upon the retention of our senior management, whose continued service is not guaranteed. We may not be able to find qualified replacements for the individuals who make up our senior management if their services should no longer be available to us. The loss of services of one or more members of our senior management team could have a material adverse effect on our business, financial condition and results of operations.

We May be Adversely Affected by New Federal Laws and Regulations. The United States Administration and Congress have enacted, or called for consideration of, proposals relating to a variety of issues, including with respect to health care, financial regulation reform, climate change, executive compensation and others. We believe that these and other potential proposals could have varying degrees of impact on us ranging from minimal to material. At this time, we are unable to predict with certainty what level of impact specific proposals could have on us.

Federal rulemaking and administrative efforts that may have an impact on us focus principally on the areas perceived as contributing to the global financial crisis and the recent economic downturn. These initiatives have created a degree of uncertainty regarding the basic rules governing the real estate industry and many other businesses that is unprecedented in the United States at least since the wave of lawmaking and regulatory reform that followed in the wake of the Great Depression. The federal legislative response in this area culminated in the enactment on July 21, 2010 of the Dodd-Frank Wall Street Reform and Consumer Protection Act ("Dodd-Frank Act"). Many of the provisions of the Dodd-Frank Act have extended implementation periods and delayed effective dates and will require extensive rulemaking by regulatory authorities; thus, the impact on us may not be known for an extended period of time. The Dodd-Frank Act, including future rules implementing its provisions and the interpretation of those rules, along with other legislative and regulatory proposals that are proposed or pending in the United States Congress, may limit our revenues, impose fees or taxes on us, and/or intensify the regulatory framework in which we operate in ways that are not currently identifiable.

Changing laws, regulations and standards relating to corporate governance and public disclosure in particular, including certain provisions of the Dodd-Frank Act and the rules and regulations promulgated thereunder, have created uncertainty for public companies like ours and could significantly increase the costs and risks associated with accessing the U.S. public markets. Because we are committed to maintaining high standards of internal control over financial reporting, corporate governance and public disclosure, our management team will need to devote significant time and financial resources to comply with these evolving standards for public companies. We intend to continue to

invest appropriate resources to comply with both existing and evolving standards, and this investment has resulted and will likely continue to result in increased general and administrative expenses and a diversion of management time and attention from revenue generating activities to compliance activities.

We May be Adversely Affected by New State and Local Laws and Regulations. We are subject to state and local laws, regulations and ordinances at locations where we operate and to the rules and regulations of various local authorities regarding a wide variety of matters that could affect, directly or indirectly, our operations. We cannot predict what matters might be considered in the future by these state and local authorities, nor can we judge what impact, if any, the implementation of new legislation might have on our business.

Table of Contents

The Adoption of Derivatives Legislation by Congress Could Have an Adverse Impact on our Ability to Hedge Risks Associated with our Business. The Dodd-Frank Act regulates derivative transactions, which include certain instruments used in our risk management activities. The Dodd-Frank Act contemplates that most swaps will be required to be cleared through a registered clearing facility and traded on a designated exchange or swap execution facility. There are some exceptions to these requirements for entities that use swaps to hedge or mitigate commercial risk and REITs meeting certain criteria. While we may ultimately be eligible for such exceptions, we cannot ensure we will qualify for them. Although the Dodd-Frank Act includes significant new provisions regarding the regulation of derivatives, the impact of those requirements will not be known definitively until regulations have been adopted and fully implemented by both the SEC and the Commodities Futures Trading Commission, and market participants establish registered clearing facilities under those regulations. The new legislation and any new regulations could increase the operational and transactional cost of derivatives contracts and affect the number and/or creditworthiness of available hedge counterparties to us.

Changes in the System for Establishing U.S. Accounting Standards May Materially and Adversely Affect Our Reported Results of Operations. Accounting for public companies in the United States has historically been conducted in accordance with generally accepted accounting principles as in effect in the United States (“GAAP”). GAAP is established by the Financial Accounting Standards Board (the “FASB”), an independent body whose standards are recognized by the SEC as authoritative for publicly held companies. The International Accounting Standards Board (the “IASB”) is a London-based independent board established in 2001 and charged with the development of International Financial Reporting Standards (“IFRS”). IFRS generally reflects accounting practices that prevail in Europe and in developed nations around the world.

IFRS differs in material respects from GAAP. Among other things, IFRS has historically relied more on “fair value” models of accounting for assets and liabilities than GAAP. “Fair value” models are based on periodic revaluation of assets and liabilities, often resulting in fluctuations in such values as compared to GAAP, which relies more frequently on historical cost as the basis for asset and liability valuation.

We are monitoring the SEC's activity with respect to the proposed adoption of IFRS by United States public companies. It is unclear at this time how the SEC will propose that GAAP and IFRS be harmonized if the proposed change is adopted. In addition, switching to a new method of accounting and adopting IFRS would be a complex undertaking. We would potentially need to develop new systems and controls based on the principles of IFRS. Since these are new endeavors, and the precise requirements of the pronouncements ultimately to be adopted are not now known, the magnitude of costs associated with this conversion are uncertain.

We are currently evaluating the impact of the adoption of IFRS on our financial position and results of operations. Such evaluation cannot be completed, however, without more clarity regarding the specific IFRS standards that would potentially be adopted. Until there is more certainty with respect to the IFRS standards that could be adopted, prospective investors should consider that our conversion to IFRS could have a material adverse impact on our reported results of operations.

Risks Related to Our Indebtedness and Financings

Insufficient Cash Flow Could Affect Our Debt Financing and Create Refinancing Risk. We are subject to the risks normally associated with debt financing, including the risk that our operating income and cash flow will be insufficient to make required payments of principal and interest, or could restrict our borrowing capacity under our line of credit due to debt covenant restraints. Sufficient cash flow may not be available to make all required principal payments and still satisfy UDR's distribution requirements to maintain its status as a REIT for federal income tax purposes. In addition, the full limits of our line of credit may not be available to us if our operating performance falls outside the constraints of our debt covenants. We are also likely to need to refinance substantially all of our outstanding debt as it matures. We may not be able to refinance existing debt, or the terms of any refinancing may not be as favorable as the terms of the existing debt, which could create pressures to sell assets or to issue additional equity when we would otherwise not choose to do so. In addition, our failure to comply with our debt covenants could result in a requirement to repay our indebtedness prior to its maturity, which could have an adverse effect on our cash flow, increase our financing costs and impact our ability to make distributions to UDR's stockholders.

Failure to Generate Sufficient Revenue Could Impair Debt Service Payments and Distributions to Stockholders. If our apartment communities do not generate sufficient net rental income to meet rental expenses, our ability to make required payments of interest and principal on our debt securities and to pay distributions to UDR's stockholders will be adversely affected. The following factors, among others, may affect the net rental income generated by our apartment communities:

- the national and local economies;
- local real estate market conditions, such as an oversupply of apartment homes;

Table of Contents

• tenants' perceptions of the safety, convenience, and attractiveness of our communities and the neighborhoods where they are located;

• our ability to provide adequate management, maintenance and insurance;

• rental expenses, including real estate taxes and utilities;

• competition from other apartment communities;

• changes in interest rates and the availability of financing;

• changes in governmental regulations and the related costs of compliance; and

• changes in tax and housing laws, including the enactment of rent control laws or other laws regulating multi-family housing.

Expenses associated with our investment in an apartment community, such as debt service, real estate taxes, insurance and maintenance costs, are generally not reduced when circumstances cause a reduction in rental income from that community. If a community is mortgaged to secure payment of debt and we are unable to make the mortgage payments, we could sustain a loss as a result of foreclosure on the community or the exercise of other remedies by the mortgage holder.

Our Debt Level May Be Increased. Our current debt policy does not contain any limitations on the level of debt that we may incur, although our ability to incur debt is limited by covenants in our bank and other credit agreements. We manage our debt to be in compliance with these debt covenants, but subject to compliance with these covenants, we may increase the amount of our debt at any time without a concurrent improvement in our ability to service the additional debt.

Financing May Not Be Available and Could Be Dilutive. Our ability to execute our business strategy depends on our access to an appropriate blend of debt financing, including unsecured lines of credit and other forms of secured and unsecured debt, and equity financing, including common and preferred equity. We and other companies in the real estate industry have experienced limited availability of financing from time to time. If we issue additional equity securities to finance developments and acquisitions instead of incurring debt, the interests of our existing stockholders could be diluted.

Failure To Maintain Our Current Credit Ratings Could Adversely Affect Our Cost of Funds, Related Margins, Liquidity, and Access to Capital Markets. Moody's and Standard & Poor's, the major debt rating agencies, routinely evaluate our debt and have given us ratings on our senior unsecured debt and preferred stock. These ratings are based on a number of factors, which included their assessment of our financial strength, liquidity, capital structure, asset quality, and sustainability of cash flow and earnings. Due to changes in market conditions, we may not be able to maintain our current credit ratings, which could adversely affect our cost of funds and related margins, liquidity, and access to capital markets.

Disruptions in Financial Markets May Adversely Impact Availability and Cost of Credit and Have Other Adverse Effects on Us and the Market Price of UDR's Stock. Our ability to make scheduled payments or to refinance debt obligations will depend on our operating and financial performance, which in turn is subject to prevailing economic conditions and to financial, business and other factors beyond our control. During the past few years, the United States stock and credit markets have experienced significant price volatility, dislocations and liquidity disruptions, which have caused market prices of many stocks to fluctuate substantially and the spreads on prospective debt financings to widen considerably. These circumstances have materially impacted liquidity in the financial markets, making terms for certain financings less attractive, and in some cases have resulted in the unavailability of financing. The potential downgrade of the U.S.'s credit rating and the European debt crisis have contributed to instability in global credit markets. Continued uncertainty in the stock and credit markets may negatively impact our ability to access additional

financing for acquisitions, development of our properties and other purposes at reasonable terms, which may negatively affect our business. Additionally, due to this uncertainty, we may be unable to refinance our existing indebtedness or the terms of any refinancing may not be as favorable as the terms of our existing indebtedness. If we are not successful in refinancing this debt when it becomes due, we may be forced to dispose of properties on disadvantageous terms, which might adversely affect our ability to service other debt and to meet our other obligations. A prolonged downturn in the financial markets may cause us to seek alternative sources of potentially less attractive financing, and may require us to adjust our business plan accordingly. These events also may make it more difficult or costly for us to raise capital through the issuance of UDR's common or preferred stock. The disruptions in the financial markets have had and may continue to have a material adverse effect on the market value of UDR's common shares and other adverse effects on us and our business.

Table of Contents

Prospective buyers of our properties may also experience difficulty in obtaining debt financing which might make it more difficult for us to sell properties at acceptable pricing levels. Tightening of credit in financial markets and high unemployment rates may also adversely affect the ability of tenants to meet their lease obligations and for us to continue increasing rents on a prospective basis. Disruptions in the credit and financial markets may also have other adverse effects on us and the overall economy.

A Change in U.S. Government Policy Regarding Fannie Mae or Freddie Mac Could Have a Material Adverse Impact on Our Business. Fannie Mae and Freddie Mac are a major source of financing for secured multifamily rental real estate. We and other multifamily companies depend heavily on Fannie Mae and Freddie Mac to finance growth by purchasing or guaranteeing apartment loans. In September 2008, the U.S. government assumed control of Fannie Mae and Freddie Mac and placed both companies into a government conservatorship under the Federal Housing Finance Agency. The Administration has proposed potential options for the future of mortgage finance in the U.S. that could involve the phase out of Fannie Mae and Freddie Mac. While we believe Fannie Mae and Freddie Mac will continue to provide liquidity to our sector, should they discontinue doing so, have their mandates changed or reduced or be disbanded or reorganized by the government, it would significantly reduce our access to debt capital and adversely affect our ability to finance or refinance existing indebtedness at competitive rates and it may adversely affect our ability to sell assets. Uncertainty in the future activity and involvement of Fannie Mae and Freddie Mac as a source of financing could negatively impact our ability to make acquisitions and make it more difficult or not possible for us to sell properties or may adversely affect the price we receive for properties that we do sell, as prospective buyers may experience increased costs of debt financing or difficulties in obtaining debt financing.

The Soundness of Financial Institutions Could Adversely Affect Us. We have relationships with many financial institutions, including lenders under our credit facilities, and, from time to time, we execute transactions with counterparties in the financial services industry. As a result, defaults by, or even rumors or questions about, financial institutions or the financial services industry generally, could result in losses or defaults by these institutions. In the event that the volatility of the financial markets adversely affects these financial institutions or counterparties, we or other parties to the transactions with us may be unable to complete transactions as intended, which could adversely affect our business and results of operations.

Changing Interest Rates Could Increase Interest Costs and Adversely Affect Our Cash Flow and the Market Price of Our Securities. We currently have, and expect to incur in the future, interest-bearing debt at rates that vary with market interest rates. As of March 31, 2013, UDR had approximately \$548.5 million of variable rate indebtedness outstanding, which constitutes approximately 15.7% of total outstanding indebtedness as of such date. As of March 31, 2013, the Operating Partnership had approximately \$201.6 million of variable rate indebtedness outstanding, which constitutes approximately 20.9% of total outstanding indebtedness to third parties as of such date. An increase in interest rates would increase our interest expenses and increase the costs of refinancing existing indebtedness and of issuing new debt. Accordingly, higher interest rates could adversely affect cash flow and our ability to service our debt and to make distributions to security holders. The effect of prolonged interest rate increases could negatively impact our ability to make acquisitions and develop properties. In addition, an increase in market interest rates may lead our security holders to demand a higher annual yield, which could adversely affect the market price of UDR's common and preferred stock and debt securities.

Interest Rate Hedging Contracts May Be Ineffective and May Result in Material Charges. From time to time when we anticipate issuing debt securities, we may seek to limit our exposure to fluctuations in interest rates during the period prior to the pricing of the securities by entering into interest rate hedging contracts. We may do this to increase the predictability of our financing costs. Also, from time to time we may rely on interest rate hedging contracts to limit our exposure under variable rate debt to unfavorable changes in market interest rates. If the terms of new debt securities are not within the parameters of, or market interest rates fall below that which we incur under a particular interest rate hedging contract, the contract is ineffective. Furthermore, the settlement of interest rate hedging contracts has involved and may in the future involve material charges. In addition, our use of interest rate hedging arrangements may expose us to additional risks, including a risk that a counterparty to a hedging arrangement may fail to honor its obligations. Developing an effective interest rate risk strategy is complex and no strategy can completely insulate us from risks associated with interest rate fluctuations. There can be no assurance that our hedging activities will have

desired beneficial impact on our results of operations or financial condition. Termination of these hedging agreements typically involves costs, such as transaction fees or breakage costs.

Risks Related to Tax Laws

We Would Incur Adverse Tax Consequences if UDR Failed to Qualify as a REIT. UDR has elected to be taxed as a REIT under the Code. Our qualification as a REIT requires us to satisfy numerous requirements, some on an annual and quarterly basis, established under highly technical and complex Code provisions for which there are only limited judicial or administrative interpretations, and involves the determination of various factual matters and circumstances not entirely within our control. We intend that our current organization and method of operation enable us to continue to qualify as a REIT, but we

Table of Contents

may not so qualify or we may not be able to remain so qualified in the future. In addition, U.S. federal income tax laws governing REITs and other corporations and the administrative interpretations of those laws may be amended at any time, potentially with retroactive effect. Future legislation, new regulations, administrative interpretations or court decisions could adversely affect our ability to qualify as a REIT or adversely affect UDR's stockholders.

If we fail to qualify as a REIT in any taxable year, we would be subject to federal income tax (including any applicable alternative minimum tax) on our taxable income at regular corporate rates, and would not be allowed to deduct dividends paid to UDR's stockholders in computing our taxable income. Also, unless the Internal Revenue Service granted us relief under certain statutory provisions, we could not re-elect REIT status until the fifth calendar year after the year in which we first failed to qualify as a REIT. The additional tax liability from the failure to qualify as a REIT would reduce or eliminate the amount of cash available for investment or distribution to UDR's stockholders. This would likely have a significant adverse effect on the value of our securities and our ability to raise additional capital. In addition, we would no longer be required to make distributions to UDR's stockholders. Even if we continue to qualify as a REIT, we will continue to be subject to certain federal, state and local taxes on our income and property.

Dividends Paid By REITs Generally Do Not Qualify for Reduced Tax Rates. In general, the maximum U.S. federal income tax rate for dividends paid to individual U.S. shareholders is 20%. Unlike dividends received from a corporation that is not a REIT, our distributions to individual shareholders generally are not eligible for the reduced rates.

UDR May Conduct a Portion of Our Business Through Taxable REIT Subsidiaries, Which are Subject to Certain Tax Risks. We have established several taxable REIT subsidiaries. Despite UDR's qualification as a REIT, its taxable REIT subsidiaries must pay income tax on their taxable income. In addition, we must comply with various tests to continue to qualify as a REIT for federal income tax purposes, and our income from and investments in our taxable REIT subsidiaries generally do not constitute permissible income and investments for these tests. While we will attempt to ensure that our dealings with our taxable REIT subsidiaries will not adversely affect our REIT qualification, we cannot provide assurance that we will successfully achieve that result. Furthermore, we may be subject to a 100% penalty tax, we may jeopardize our ability to retain future gains on real property sales, or our taxable REIT subsidiaries may be denied deductions, to the extent our dealings with our taxable REIT subsidiaries are not deemed to be arm's length in nature or are otherwise not respected.

REIT Distribution Requirements Limit Our Available Cash. As a REIT, UDR is subject to annual distribution requirements, which limit the amount of cash we retain for other business purposes, including amounts to fund our growth. We generally must distribute annually at least 90% of our net REIT taxable income, excluding any net capital gain, in order for our distributed earnings not to be subject to corporate income tax. We intend to make distributions to UDR's stockholders to comply with the requirements of the Code. However, differences in timing between the recognition of taxable income and the actual receipt of cash could require us to sell assets or borrow funds on a short-term or long-term basis to meet the 90% distribution requirement of the Code.

Certain Property Transfers May Generate Prohibited Transaction Income, Resulting in a Penalty Tax on Gain Attributable to the Transaction. From time to time, we may transfer or otherwise dispose of some of our properties. Under the Code, any gain resulting from transfers of properties that we hold as inventory or primarily for sale to customers in the ordinary course of business would be treated as income from a prohibited transaction and subject to a 100% penalty tax. Since we acquire properties for investment purposes, we do not believe that our occasional transfers or disposals of property are prohibited transactions. However, whether property is held for investment purposes is a question of fact that depends on all the facts and circumstances surrounding the particular transaction. The Internal Revenue Service may contend that certain transfers or disposals of properties by us are prohibited transactions. If the Internal Revenue Service were to argue successfully that a transfer or disposition of property constituted a prohibited transaction, then we would be required to pay a 100% penalty tax on any gain allocable to us from the prohibited transaction and we may jeopardize our ability to retain future gains on real property sales. In addition, income from a prohibited transaction might adversely affect UDR's ability to satisfy the income tests for qualification as a REIT for federal income tax purposes.

We Could Face Possible State and Local Tax Audits and Adverse Changes in State and Local Tax Laws. As discussed in the risk factors above, because UDR is organized and qualifies as a REIT it is generally not subject to federal income taxes, but it is subject to certain state and local taxes. From time to time, changes in state and local tax laws or regulations are enacted, which may result in an increase in our tax liability. A shortfall in tax revenues for states and municipalities in which we own apartment communities may lead to an increase in the frequency and size of such changes. If such changes occur, we may be required to pay additional state and local taxes. These increased tax costs could adversely affect our financial condition and the amount of cash available for the payment of distributions to UDR's stockholders. In the normal course of business, entities through which we own real estate may also become subject to tax audits. If such entities become subject to state or local tax audits, the ultimate result of such audits could have an adverse effect on our financial condition.

Table of Contents

The Operating Partnership Intends to Qualify as a Partnership, But Cannot Guarantee That It Will Qualify. The Operating Partnership intends to qualify as a partnership for federal income tax purposes at any such time that the Operating Partnership admits additional limited partners other than UDR. If classified as a partnership, the Operating Partnership generally will not be a taxable entity and will not incur federal income tax liability. However, the Operating Partnership would be treated as a corporation for federal income tax purposes if it were a “publicly traded partnership,” unless at least 90% of the Operating Partnership's income was qualifying income as defined in the Code. A “publicly traded partnership” is a partnership whose partnership interests are traded on an established securities market or are readily tradable on a secondary market (or the substantial equivalent thereof). Although the Operating Partnership's partnership units are not traded on an established securities market, because of the redemption right, the Operating Partnership's units held by limited partners could be viewed as readily tradable on a secondary market (or the substantial equivalent thereof), and the Operating Partnership may not qualify for one of the “safe harbors” under the applicable tax regulations. Qualifying income for the 90% test generally includes passive income, such as real property rents, dividends and interest. The income requirements applicable to REITs and the definition of qualifying income for purposes of this 90% test are similar in most respects. The Operating Partnership may not meet this qualifying income test. If the Operating Partnership were to be taxed as a corporation, it would incur substantial tax liabilities, and UDR would then fail to qualify as a REIT for tax purposes, unless it qualified for relief under certain statutory savings provisions, and our ability to raise additional capital would be impaired.

Qualifying as a REIT Involves Highly Technical and Complex Provisions of the Code. Our qualification as a REIT involves the application of highly technical and complex Code provisions for which only limited judicial and administrative authorities exist. Even a technical or inadvertent violation could jeopardize our REIT qualification. Moreover, new legislation, court decisions or administrative guidance, in each case possibly with retroactive effect, may make it more difficult or impossible for us to qualify as a REIT. Our qualification as a REIT will depend on our satisfaction of certain asset, income, organizational, distribution, shareholder ownership and other requirements on a continuing basis. Our ability to satisfy the REIT income and asset tests depends upon our analysis of the characterization and fair market values of our assets, some of which are not susceptible to a precise determination and for which we will not obtain independent appraisals, and upon our ability to successfully manage the composition of our income and assets on an ongoing basis. In addition, our ability to satisfy the requirements to qualify as a REIT depends in part on the actions of third parties over which we have no control or only limited influence, including in cases where we own an equity interest in an entity that is classified as a partnership for U.S. federal income tax purposes.

Risks Related to Our Organization and Ownership of UDR's Stock

Changes in Market Conditions and Volatility of Stock Prices Could Adversely Affect the Market Price of UDR's Common Stock. The stock markets, including the New York Stock Exchange (“NYSE”), on which we list UDR's common stock, have experienced significant price and volume fluctuations. As a result, the market price of UDR's common stock could be similarly volatile, and investors in UDR's common stock may experience a decrease in the value of their shares, including decreases unrelated to our operating performance or prospects. In addition to the risks listed in this “Risk Factors” section, a number of factors could negatively affect the price per share of UDR's common stock, including:

- general market and economic conditions;

- actual or anticipated variations in UDR's quarterly operating results or dividends or UDR's payment of dividends in shares of UDR's stock;

- changes in our funds from operations or earnings estimates;

- difficulties or inability to access capital or extend or refinance existing debt;

- decreasing (or uncertainty in) real estate valuations;
- changes in market valuations of similar companies;
- publication of research reports about us or the real estate industry;

•the general reputation of real estate investment trusts and the attractiveness of their equity securities in comparison to other equity securities (including securities issued by other real estate companies);

•general stock and bond market conditions, including changes in interest rates on fixed income securities, that may lead prospective purchasers of UDR's stock to demand a higher annual yield from future dividends;

Table of Contents

• a change in analyst ratings;

• additions or departures of key management personnel;

• adverse market reaction to any additional debt we incur in the future;

• speculation in the press or investment community;

• terrorist activity which may adversely affect the markets in which UDR's securities trade, possibly increasing market volatility and causing the further erosion of business and consumer confidence and spending;

• failure to qualify as a REIT;

• strategic decisions by us or by our competitors, such as acquisitions, divestments, spin-offs, joint ventures, strategic investments or changes in business strategy;

• failure to satisfy listing requirements of the NYSE;

• governmental regulatory action and changes in tax laws; and

• the issuance of additional shares of UDR's common stock, or the perception that such sales might occur, including under UDR's at-the-market equity distribution program.

Many of the factors listed above are beyond our control. These factors may cause the market price of shares of UDR's common stock to decline, regardless of our financial condition, results of operations, business or our prospects.

We May Change the Dividend Policy for UDR's Common Stock in the Future. The decision to declare and pay dividends on UDR's common stock, as well as the timing, amount and composition of any such future dividends, will be at the sole discretion of our board of directors and will depend on our earnings, funds from operations, liquidity, financial condition, capital requirements, contractual prohibitions or other limitations under our indebtedness, the annual distribution requirements under the REIT provisions of the Code, state law and such other factors as our board of directors considers relevant. Any change in our dividend policy could have a material adverse effect on the market price of UDR's common stock.

Maryland Law May Limit the Ability of a Third Party to Acquire Control of Us, Which May Not be in UDR's Stockholders' Best Interests. Maryland business statutes may limit the ability of a third party to acquire control of us. As a Maryland corporation, we are subject to various Maryland laws which may have the effect of discouraging offers to acquire our Company and of increasing the difficulty of consummating any such offers, even if our acquisition would be in UDR's stockholders' best interests. The Maryland General Corporation Law restricts mergers and other business combination transactions between us and any person who acquires beneficial ownership of shares of UDR's stock representing 10% or more of the voting power without our board of directors' prior approval. Any such business combination transaction could not be completed until five years after the person acquired such voting power, and generally only with the approval of stockholders representing 80% of all votes entitled to be cast and 66 2/3% of the votes entitled to be cast, excluding the interested stockholder, or upon payment of a fair price. Maryland law also provides generally that a person who acquires shares of our equity stock that represents 10% (and certain higher levels) of the voting power in electing directors will have no voting rights unless approved by a vote of two-thirds of the shares eligible to vote.

Limitations on Share Ownership and Limitations on the Ability of UDR's Stockholders to Effect a Change in Control of Our Company Restricts the Transferability of UDR's Stock and May Prevent Takeovers That are Beneficial to UDR's Stockholders. One of the requirements for maintenance of our qualification as a REIT for U.S. federal income tax purposes is that no more than 50% in value of our outstanding capital stock may be owned by five or fewer

individuals, including entities specified in the Code, during the last half of any taxable year. Our charter contains ownership and transfer restrictions relating to UDR's stock primarily to assist us in complying with this and other REIT ownership requirements; however, the restrictions may have the effect of preventing a change of control, which does not threaten REIT status. These restrictions include a provision that generally limits ownership by any person of more than 9.9% of the value of our outstanding equity stock, unless our board of directors exempts the person from such ownership limitation, provided that any such exemption shall not allow the person to exceed 13% of the value of our outstanding equity stock. Absent such an exemption from our board of directors, the transfer of UDR's stock to any person in excess of the applicable ownership limit, or any transfer of shares of such stock in violation of the ownership requirements of the Code for REITs, will be considered null and void, and the intended transferee of

Table of Contents

such stock will acquire no rights in such shares. These provisions of our charter may have the effect of delaying, deferring or preventing someone from taking control of us, even though a change of control might involve a premium price for UDR's stockholders or might otherwise be in UDR's stockholders' best interests.

Item 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Unregistered Sales of Equity Securities

From time to time the Company issues shares of the Company's common stock in exchange for operating partnership units ("OP Units") tendered to the Operating Partnership, for redemption in accordance with the provisions of the Operating Partnership's limited partnership agreement. The holders of limited partnership OP Units have the right to require the Operating Partnership to redeem all or a portion of their limited partnership OP units in exchange for a cash payment based on the market value of our common stock at the time of redemption. However, the Operating Partnership's obligation to pay the cash amount is subject to the prior right of the Company to acquire such OP Units in exchange for either the Cash Amount or the number of shares of the Company's common stock equal to the number of OP Units being redeemed.

On January 14, 2013 and March 15, 2013, we issued 1,667 and 67,570, respectively, shares of our common stock upon redemption of OP Units. Because these shares of common stock were issued to accredited investors in transactions not involving a public offering, the transaction is exempt from registration under the Securities Act of 1933 in accordance with Section 4(2) of the Securities Act. We did not issue any other shares of our common stock upon redemption of OP Units during the three months ended March 31, 2013.

Repurchase of Equity Securities

In February 2006, UDR's Board of Directors authorized a 10 million share repurchase program. In January 2008, our Board of Directors authorized a new 15 million share repurchase program. Under the two share repurchase programs, UDR may repurchase shares of our common stock in open market purchases, block purchases, privately negotiated transactions or otherwise. As reflected in the table below, no shares of common stock were repurchased under these programs during the quarter ended March 31, 2013.

Period	Total Number of Shares Purchased	Average Price per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs (1)
Beginning Balance	9,967,490	\$22.00	9,967,490	15,032,510
January 1, 2013 through January 31, 2013	—	—	—	15,032,510
February 1, 2013 through February 28, 2013	—	—	—	15,032,510
March 1, 2013 through March 31, 2013	—	—	—	15,032,510
Balance as of March 31, 2013	9,967,490	\$22.00	9,967,490	15,032,510

(1) This number reflects the amount of shares that were available for purchase under our 10,000,000 share repurchase program authorized in February 2006 and our 15,000,000 share repurchase program authorized in January 2008.

Item 3. DEFAULTS UPON SENIOR SECURITIES

None.

Item 4. MINE SAFETY DISCLOSURES

Not applicable.

RESTRICTED STOCK AWARD AGREEMENT

under the
UDR, INC.

1999 LONG-TERM INCENTIVE PLAN

Grantee:	[Name]
Number of Shares:	[Shares]
Date of Grant:	February 8, 2013
Value as of Grant Date:	\$24.12 per share

1. Grant of Shares. UDR, Inc. (the "Company") hereby grants to the Grantee named above (the "Grantee"), as additional compensation for services to be rendered, and subject to the restrictions and the other terms and conditions set forth in the Company's 1999 Long-Term Incentive Plan (the "Plan") and in this Restricted Stock Award Agreement (this "Agreement"), the number of shares indicated above of the Company's \$0.01 par value common stock (the "Shares"). Capitalized terms used herein and not otherwise defined shall have the meanings assigned such terms in the Plan.

2. Vesting of Stock. Unless the vesting under this Agreement is accelerated in accordance with Article 14 of the Plan, the Shares shall vest only to the extent established metrics related to FFO growth (the "FFO Metric") and TSR Ranking (the "TSR Ranking Metric") described on Appendix A are met for calendar year 2013. On the date in 2014 the Committee determines performance (the "Determination Date") the sum of the Shares resulting from performance against the FFO Metric and the TSR Ranking Metric (the "Performance Result"), plus any shares resulting from the reinvestment of dividends on those Shares pursuant to Section 6 through the Determination Date shall be divided by three (3). One-third (1/3) of that sum shall vest on the Determination Date (provided the Grantee remains in the employment of the Company or a Parent or Subsidiary through December 31, 2013), and the remaining two-thirds (2/3) shall vest in equal parts on each of December 31, 2014 and December 31, 2015, subject to the Grantee's employment with the Company or a Parent or Subsidiary through the respective vesting date. Any Shares not awarded as a result of the Committee's determination (including Shares resulting from reinvested dividends) shall be forfeited and re-conveyed to the Company upon that determination without further consideration or any act or action by the Grantee.

To the extent the Performance Result exceeds the number of Shares initially granted pursuant to the Award, additional Shares with a value (as determined by the Committee) equal to the excess shall be granted on the Determination Date as part of the Performance Result and the total shall be subject to the same division by three.

3. Restrictions. The Shares are subject to each of the following restrictions. "Restricted Shares" means those Shares that are subject to the restrictions imposed hereunder which restrictions have not then expired or terminated. Restricted Shares may not be sold, transferred, exchanged, assigned, pledged, hypothecated or otherwise encumbered. If the Grantee's employment with the Company or any Parent or Subsidiary terminates for any reason other than as set forth in paragraph (a) or (b) of Section 4 hereof or as set forth in Section 2 with respect to Shares vesting on the Determination Date, then the Grantee shall forfeit all of the Grantee's right, title and interest in and to the Restricted Shares as of the date of employment termination and such Restricted Shares shall be re-conveyed to the Company without further consideration or any act or action by the Grantee.

Table of Contents

The restrictions imposed under this Section 3 shall apply to all shares of the Company's stock or other securities issued with respect to Restricted Shares hereunder in connection with any merger, reorganization, consolidation, re-capitalization, stock dividend or other change in corporate structure affecting the common stock of the Company.

4.Expiration and Termination of Restrictions. The restrictions imposed under Section 3 will expire on the earliest to occur of the following:

(a)Upon vesting pursuant to Section 2;

(b)On the date of termination of the Grantee's employment with the Company or any Parent or Subsidiary because of his or her death or Disability; or

(c)On the date specified by the Committee or as otherwise established in the Plan in the event of an acceleration of vesting under Article 14 of the Plan (including, without limitation, upon the occurrence of a Change in Control, as defined in the Plan).

5.Delivery of Shares. The Shares will be registered in the name of the Grantee as Restricted Stock and may be held by the Company prior to the lapse of the restrictions thereon as provided in Section 4 hereof (the "Restricted Period"). Any certificate for Shares issued during the Restricted Period shall be registered in the name of the Grantee and shall bear a legend in substantially the following form:

THIS CERTIFICATE AND THE SHARES OF STOCK REPRESENTED HEREBY ARE SUBJECT TO THE TERMS AND CONDITIONS (INCLUDING FORFEITURE AND RESTRICTIONS AGAINST TRANSFER) CONTAINED IN A RESTRICTED STOCK AWARD AGREEMENT DATED FEBRUARY 8, 2013 BETWEEN THE REGISTERED OWNER OF THE SHARES REPRESENTED HEREBY AND UDR, INC. RELEASE FROM SUCH TERMS AND CONDITIONS SHALL BE MADE ONLY IN ACCORDANCE WITH THE PROVISIONS OF SUCH AGREEMENT, COPIES OF WHICH ARE ON FILE IN THE OFFICE OF UDR, INC.

If requested, the Grantee shall deposit with the Company, a stock power, or powers, executed in blank and sufficient to re-convey the Restricted Shares to the Company upon termination of the Grantee's employment during the Restricted Period, in accordance with the provisions of this Agreement. Stock certificates shall be delivered to the Grantee as soon as practicable after the lapse of the restrictions on the Shares, but delivery may be postponed for such period as may be required for the Company with reasonable diligence to comply if deemed advisable by the Company, with registration requirements under the 1933 Act, listing requirements under the rules of any stock exchange, and requirements under any other law or regulation applicable to the issuance or transfer of the Shares.

6.Voting and Dividend Rights. The Grantee, as beneficial owner of the Shares, shall have full voting rights with respect to the Shares and shall receive dividends on the Shares during the Restricted Period which dividends shall automatically be reinvested into additional shares of restricted stock through the Determination Date and vest as provided in Section 2 hereof. Dividends on the Shares are not eligible for participation in the Company's Dividend Reinvestment Plan during that period. From and after the Determination Date, the Grantee shall receive cash dividends as and when paid on both the Shares vesting on the Determination Date and those scheduled to vest later, as provided in Section 2.

7.Restrictions on Transfer and Pledge. The Restricted Shares may not be pledged, encumbered, or hypothecated to or in favor of any party other than the Company or a Parent or Subsidiary, or be subject to any lien, obligation, or liability of the Grantee to any other party other than the Company or a Parent or Subsidiary. The Restricted Shares are not assignable or transferable by the Grantee other than by will or the laws of descent and distribution.

8.Changes in Capital Structure. In the event a stock dividend is declared upon the Stock, the shares of Stock then subject to this Agreement shall be increased proportionately. In the event the Stock shall be changed into or exchanged for a different number or class of shares of stock or securities of the Company or of another corporation, whether through reorganization, re-capitalization, reclassification, share exchange, stock split-up, combination of shares, merger or consolidation, there shall be substituted for each such share of Stock then subject to this Agreement the number and class of shares into which each outstanding share of Stock shall be so exchanged, or there shall be made such other equitable adjustment as the Committee shall approve.

9.Stop Transfer Notices. In order to ensure compliance with the restrictions on transfer set forth in this Agreement or the Plan, the Company may issue appropriate "stop transfer" instructions to its transfer agent, if any, and, if the Company transfers its own securities, it may make appropriate notations to the same effect in its own records.

Table of Contents

10. Refusal to Transfer. The Company shall not be required (a) to transfer on its books any Restricted Shares that have been sold or otherwise transferred in violation of any of the provisions of this Agreement or (b) to treat as owner of such Restricted Shares or to accord the right to vote or pay dividends to any purchaser or other transferee to whom such Restricted Shares shall have been so transferred.

11. No Right of Continued Employment. Nothing in this Agreement shall interfere with or limit in any way the right of the Company or any Parent or Subsidiary to terminate the Grantee's employment at any time, nor confer upon the Grantee any right to continue in the employ of the Company or any Parent or Subsidiary.

12. Payment of Taxes.

(a) The Grantee upon issuance of the Shares hereunder, shall be authorized to make an election to be taxed upon such award under Section 83(b) of the Code. To effect such election, the Grantee may file an appropriate election with the Internal Revenue Service within thirty (30) days after award of the Shares and otherwise in accordance with applicable Treasury Regulations.

(b) The Grantee will, no later than the date as of which any amount related to the Shares first becomes includable in the Grantee's gross income for federal income tax purposes, pay to the Company, or make other arrangements satisfactory to the Committee regarding payment of, any federal, state and local taxes of any kind required by law to be withheld with respect to such amount. The obligations of the Company under this Agreement will be conditional on such payment or arrangements, and the Company, and, where applicable, its Subsidiaries will, to the extent permitted by law, have the right to deduct any such taxes from any payment of any kind otherwise due to the Grantee.

13. Grantee's Covenant. The Grantee hereby agrees to use his best efforts to provide services to the Company in a workmanlike manner and to promote the Company's interests.

14. Amendment. The Committee may amend, modify or terminate this Agreement without approval of the Grantee; provided, however, that such amendment, modification or termination shall not, without the Grantee's consent, reduce or diminish the value of this award determined as if it had been fully vested on the date of such amendment or termination.

15. Plan Controls. The terms contained in the Plan are incorporated into and made a part of this Agreement and this Agreement shall be governed by and construed in accordance with the Plan. In the event of any actual or alleged conflict between the provisions of the Plan and the provisions of this Agreement, the provisions of the Plan shall be controlling and determinative.

16. Successors. This Agreement shall be binding upon any successor of the Company, in accordance with the terms of this Agreement and the Plan.

17. Severability. If any one or more of the provisions contained in this Agreement is invalid, illegal or unenforceable, the other provisions of this Agreement will be construed and enforced as if the invalid, illegal or unenforceable provision had never been included.

18. Notice. Notices and communications under this Agreement must be in writing and either personally delivered or sent by registered or certified United States mail, return receipt requested, postage prepaid. Notices to the Company must be addressed to:

UDR, Inc.

1745 Shea Center Dr., Suite 200

Highlands Ranch, Colorado 80129

Attn: Corporate Secretary

or any other address designated by the Company in a written notice to the Grantee. Notices to the Grantee will be directed to the address of the Grantee then currently on file with the Company, or at any other address given by the Grantee in a written notice to the Company.

19. Dispute Resolution. The provisions of this Section 19 shall be the exclusive means of resolving disputes arising out of or relating to the Plan and this Agreement. The Company, the Grantee, and the Grantee's assignees (the "parties") shall attempt in good faith to resolve any disputes arising out of or relating to the Plan and this Agreement by negotiation between individuals who have authority to settle the controversy. Negotiations shall be commenced by either party by notice of

Table of Contents

a written statement of the party's position and the name and title of the individual who will represent the party. Within thirty (30) days of the written notification, the parties shall meet at a mutually acceptable time and place, and thereafter as often as they reasonably deem necessary, to resolve the dispute. If the dispute has not been resolved by negotiation, the parties agree that any suit, action, or proceeding arising out of or relating to the Plan or this Agreement shall be brought in the United States District Court for the District of Colorado (or should such court lack jurisdiction to hear such action, suit or proceeding, in a state court in Colorado) and that the parties shall submit to the jurisdiction of such court. The parties irrevocably waive, to the fullest extent permitted by law, any objection the party may have to the laying of venue for any such suit, action or proceeding brought in such court. **THE PARTIES ALSO EXPRESSLY WAIVE ANY RIGHT THEY HAVE OR MAY HAVE TO A JURY TRIAL OF ANY SUCH SUIT, ACTION OR PROCEEDING.** If any one or more provisions of this Section 19 shall for any reason be held invalid or unenforceable, it is the specific intent of the parties that such provisions shall be modified to the minimum extent necessary to make it or its application valid and enforceable.

IN WITNESS WHEREOF, the Company and the Grantee have executed this Agreement and agree that the Shares are to be governed by the terms and conditions of this Agreement and the Plan.

UDR, INC.

By:

Name: Warren L. Troupe

Title: Senior Executive Vice President

The Grantee acknowledges receipt of a copy of the Plan and this Agreement and represents that he or she is familiar with the terms and provisions thereof, and hereby accepts the Shares subject to all of the terms and provisions hereof and thereof. The Grantee has reviewed this Agreement and the Plan in their entirety, has had an opportunity to obtain the advice of counsel prior to executing this Agreement and fully understands all provisions of this Agreement and the Plan. The Grantee hereby agrees that all disputes arising out of or relating to this Agreement and the Plan shall be resolved in accordance with Section 19 of this Agreement. The Grantee further agrees to notify the Company upon any change in the residence address indicated in this Agreement.

CERTIFICATION

I, Thomas W. Toomey, certify that:

1. I have reviewed this quarterly report on Form 10-Q of UDR, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
