CHEMUNG FINANCIAL CORPORATION AND SUBSIDIARIES  
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

To assist the reader, the Corporation has provided the following list of commonly used acronyms and abbreviations included in the Notes to Unaudited Consolidated Financial Statements.

FASB: Financial Accounting Standards Board	OTTI: Other-than-temporary impairment
FDIC: Federal Deposit Insurance Corporation	PCI: Purchased credit impaired
FHLB: Federal Home Loan Bank	SEC: Securities and Exchange Commission
GAAP: U.S. generally accepted accounting principles	CDO: Collateralized Debt Obligation

Organization and Principles of Consolidation

Chemung Financial Corporation (the “Corporation”) is a bank holding company headquartered in Elmira, New York. The Corporation provides a wide range of financial and fiduciary services through its wholly-owned subsidiaries, Chemung Canal Trust Company (the “Bank”), a state chartered bank, and CFS Group, Inc., a non-bank financial services company. The Corporation and the Bank are subject to the regulation of certain federal and state agencies and undergo periodic examinations by those regulatory authorities. The unaudited consolidated financial statements include the accounts of the Corporation, the Bank and CFS Group, Inc. All significant intercompany accounts and transactions have been eliminated in consolidation. Certain reclassifications of prior period amounts have been made to conform with the current period presentation. These reclassifications had no impact on previously reported net income.

Basis of Presentation

The unaudited consolidated financial statements have been prepared pursuant to the rules and regulations of the SEC in Article 10 of Regulation S-X and in accordance with the instructions to Form 10-Q and GAAP for interim financial information. Certain information, accounting policies and footnote disclosures normally included in complete financial statements prepared in accordance with GAAP have been condensed or omitted in accordance with such rules and regulations. These unaudited consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Corporation’s annual report on Form 10-K for the year ended December 31, 2012.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the unaudited consolidated financial statements and accompanying notes. Primary areas involving the use of estimates and assumptions include the allowance for loan losses, other-than-temporary impairment of securities, the carrying amount of goodwill and the amortization of other intangible assets. Actual results could differ from those estimates. In the opinion of management, all adjustments considered necessary, consisting of normal recurring items, have been included for a fair presentation of the accompanying unaudited consolidated financial statements. Operating results for the three months ended March 31, 2013, are not necessarily indicative of the results that may be expected for the full year or future periods.

Subsequent Events

The Corporation has evaluated events and transactions through the time the unaudited consolidated financial statements were issued. Financial statements are considered issued when they are widely distributed to all shareholders and other financial statement users, or filed with the SEC. In conjunction with applicable accounting

standards, all material subsequent events have been either recognized in the unaudited consolidated financial statements or disclosed in the notes to the unaudited consolidated financial statements.

## NOTE 2 EARNING PER COMMON SHARE

Basic earnings per share is net income divided by the weighted average number of common shares outstanding during the period. Issuable shares, including those related to directors' restricted stock units and directors' stock compensation, are considered outstanding and are included in the computation of basic earnings per share. All outstanding unvested share based payment awards that contain rights to nonforfeitable dividends are considered participating securities for this calculation. Restricted stock awards are grants of participating securities. The impact of the participating securities on earnings per share is not material. Earnings per share information is adjusted to present comparative results for stock splits and stock dividends that occur. Earnings per share were computed by dividing net income by 4,655,862 and 4,642,012 weighted average shares outstanding for the three-month periods ended March 31, 2013 and 2012, respectively. There were no dilutive common stock equivalents during the three-month periods ended March 31, 2013 or 2012.

## NOTE 3 ADOPTION OF NEW ACCOUNTING STANDARDS

In February 2013, the FASB issued Accounting Standards Update ("ASU") No. 2013-02, "Comprehensive Income (Topic 220) – Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income." ASU 2013-02 amends recent guidance related to the reporting of comprehensive income to enhance the transparency of the reporting of reclassifications out of accumulated other comprehensive income. ASU 2013-02 became effective for the Corporation on January 1, 2013 and did not have a material impact on the Corporation's financial statements. The additional disclosures are included in Note 8 Accumulated Other Comprehensive Income or Loss.

## NOTE 4 SECURITIES

Amortized cost and estimated fair value of securities available for sale are as follows:

	March 31, 2013			
	Amortized Cost	Unrealized Gains	Unrealized Losses	Estimated Fair Value

#### Other-Than-Temporary Impairment

As of March 31, 2013, the majority of the Corporation's unrealized losses in the investment securities portfolio related to a CDO consisting of a pool of trust preferred securities. The decline in fair value on this security is primarily attributable to the financial crisis and resulting credit deterioration and financial condition of the underlying issuers, all of which are financial institutions. This deterioration may affect the future receipt of both principal and interest payments on this security. This fact combined with the current illiquidity in the market makes it unlikely that the Corporation would be able to recover its investment in this security if it was sold at this time.

Our analysis of this investment includes a \$629,025 amortized cost of a CDO consisting of a pool of trust preferred securities. This security was rated high quality at inception, but at March 31, 2013 Moody's rated this security as Caa3, which is defined as substantial risk of default. The Corporation uses the OTTI evaluation model to compare the present value of expected cash flows to the previous estimate to determine if there are adverse changes in cash flows during each quarter. The OTTI model considers the structure and term of the CDO and the financial condition of the underlying issuers. Specifically, the model details interest rates, principal balances of note classes and underlying issuers, the timing and amount of interest and principal payments of the underlying issuers, and the allocation of the payments to the note classes. The current estimate of expected cash flows is based on the most recent trustee reports and any other relevant market information including announcements of interest payment deferrals or defaults of underlying trust preferred securities. Assumptions used in the model include expected future default rates and prepayments. We assume no recoveries on defaults and treat all interest payment deferrals as defaults.

Upon completion of the March 31, 2013 analysis, our model indicated no additional OTTI on this CDO. This security remained classified as available for sale and represented \$132,200 of the unrealized losses reported at March 31, 2013. Quarterly interest payments continue to be made on this security.

When conducting the March 31, 2013 analysis, the present value of expected future cash flows using a discount rate equal to the yield in effect at the time of purchase was compared to the previous quarters' analysis. The analysis indicated no further decline in value attributed to credit related factors stemming from further deterioration in the underlying collateral payment streams. Additionally, to estimate fair value the present value of the expected future cash flows was calculated using a current estimated discount rate that a willing market participant might use to value the security based on current market conditions and interest rates. Changes in credit quality may or may not correlate

to changes in the overall fair value of the impaired securities as the change in credit quality is only one component in assessing the overall fair value of the impaired securities. Therefore, the recognition of additional credit related OTTI could result in a gain reported in other comprehensive income. Total OTTI recognized in accumulated other comprehensive income was \$85,239 and \$188,878, net of tax for securities available for sale at March 31, 2013 and 2012, respectively.

The tables below present a roll forward of the cumulative credit losses recognized in earnings for the three-month periods ending March 31, 2013 and 2012:

	2013	2012
Beginning balance, January 1,	\$ 3,506,073	\$ 3,506,073
Amounts related to credit loss for which an other-than-temporary impairment was not previously recognized	-	-
Additions/Subtractions:		
Amounts realized for securities sold during the period	-	-
Amounts related to securities for which the company intends to sell or that it will be more likely than not that the company will be required to sell prior to recovery of amortized cost basis	-	-
Reductions for increase in cash flows expected to be collected that are recognized over the remaining life of the security	-	-
Increases to the amount related to the credit loss for which other-than-temporary impairment was previously recognized	-	-
Ending balance, March 31,	\$ 3,506,073	\$ 3,506,073

#### NOTE 5 LOANS AND ALLOWANCE FOR LOAN LOSSES

The composition of the loan portfolio, net of deferred origination fees and cost, and unearned income is summarized as follows:

	March 31, 2013			December 31, 2012		
	Originated Loans	Acquired Loans	Total Loans	Originated Loans	Acquired Loans	Total Loans
Commercial and agricultural:

Consumer loans:						
Credit cards	1,733,411	-	1,733,411	1,851,145	-	1,851,145
Home equity lines and loans	81,969,483	4,426,562	86,396,045	82,216,284	4,829,137	87,045,421

Edgar Filing: CHEMUNG FINANCIAL CORP - Form 10-Q

Indirect consumer loans	132,063,809	-	132,063,809	130,573,200	-	130,573,200
Direct consumer loans	17,987,749	73,800	18,061,549	19,440,549	82,822	19,523,371
Total loans, net	839,887,107	81,545,512	921,432,619	803,314,080	90,202,861	893,516,941
Interest receivable on loans	2,178,063	324,450	2,502,513	1,989,271	394,727	2,383,998
Total recorded investment in loans	\$ 842,065,170	\$ 81,869,962	\$ 923,935,132	\$ 805,303,351	\$ 90,597,588	\$ 895,900,939

The Corporation's concentrations of credit risk by loan type are reflected in the preceding table. The concentrations of credit risk with standby letters of credit, committed lines of credit and commitments to originate new loans generally follow the loan classifications in the table above.

The following tables present the activity in the allowance for loan losses by portfolio segment for the three-month periods ending March 31, 2013 and 2012. Loans originated by the Corporation are referred to as "Originated" loans and loans acquired in the merger with Fort Orange Financial Corp. ("FOFC"), which are referred to as "Acquired" loans.

### Troubled Debt Restructurings:

As of March 31, 2013 and December 31, 2012, the Corporation has a recorded investment in troubled debt restructurings of \$7,249,008 and \$5,728,610, respectively. There were specific reserves of \$172,403 allocated for troubled debt restructurings at March 31, 2013 and no specific reserves allocated at December 31, 2012. As of March 31, 2013, troubled debt restructurings totaling \$6,297,292 were accruing interest under the modified terms and \$951,716 were on non-accrual status. As of December 31, 2012, troubled debt restructurings totaling \$5,363,712 were accruing interest under the modified terms and \$364,898 were on non-accrual status. The Corporation has committed to lend additional amounts totaling up to \$72,000 and \$130,000 as of March 31, 2013 and December 31, 2012, respectively, to customers with outstanding loans that are classified as troubled debt restructurings.

During the three months ended March 31, 2013 and 2012, the terms of certain loans were modified as troubled debt restructurings. The modification of the terms of such loans included one or a combination of the following: reduced scheduled payments for greater than 3 months or an extension of the maturity date at a stated rate of interest lower than the current market rate for new debt with similar risk.

The following table presents loans by class modified as troubled debt restructurings that occurred during the three months ended March 31, 2013 and March 31, 2012:

	Number of Loans	Pre-Modification Outstanding Recorded Investment	Post-Modification Outstanding Recorded Investment
March 31, 2013			
Troubled debt restructurings:			
Commercial and agricultural:			
Commercial & industrial	2	\$ 431,293	\$ 431,293
Consumer loans:			
Home equity lines & loans	2	103,587	103,587
Total	4	\$ 534,880	\$ 534,880
March 31, 2012			
Troubled debt restructurings:			
Consumer loans:			
Home equity lines & loans	1	58,823	58,823
Total	1	\$ 58,823	\$ 58,823

The troubled debt restructurings described above increased the allowance for loan losses by \$38,260 and resulted in no charge offs during the three months ending March 31, 2013. The troubled debt restructurings described above did not increase the allowance for loan losses and resulted in no charge offs during the three months ending March 31, 2012.

There were no payment defaults on any loans previously modified as troubled debt restructurings during the three months ending March 31, 2013 or March 31, 2012, within twelve months following the modification. A loan is considered to be in payment default once it is 90 days contractually past due under the modified terms.

### Credit Quality Indicators

The Corporation establishes a risk rating at origination for all commercial loans. The main factors considered in assigning risk ratings include, but are not limited to: historic and future debt service coverage, collateral position, operating performance, liquidity, leverage, payment history, management ability, and the customer's industry. Commercial relationship managers monitor all loans in their respective portfolios for any changes in the borrower's ability to service their debt and affirm the risk ratings for the loans at least annually.

For the retail loans, which include lines of credit, installment, mortgage, and home equity loans, once a loan is properly approved and closed, the Corporation evaluates credit quality based upon loan repayment.

The Corporation uses the risk rating system to identify criticized and classified loans. Commercial relationships within the criticized and classified risk ratings are analyzed quarterly. The Corporation uses the following definitions for criticized and classified loans (which are consistent with regulatory guidelines):

**Special Mention** – Loans classified as special mention have a potential weakness that deserves management’s close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the loan or the institution’s credit position as some future date.

**Substandard** – Loans classified as substandard are inadequately protected by the current net worth and paying capability of the obligor or of the collateral pledged, if any. Loans so classified have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that the institution will sustain some loss if the deficiencies are not corrected.

**Doubtful** – Loans classified as doubtful have all the weaknesses inherent in those classified as substandard, with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions, and values, highly questionable and improbable.

Loans not meeting the criteria above that are analyzed individually as part of the above described process are considered to be not rated loans. Based on the analyses performed as of March 31, 2013 and December 31, 2012, the risk category of the recorded investment of loans by class of loans is as follows:

Originated Loans:	March 31, 2013

The Corporation considers the performance of the loan portfolio and its impact on the allowance for loan losses. For residential and consumer loan classes, the Corporation also evaluates credit quality based on the aging status of the loan, which was previously presented, and by payment activity. The following table presents the recorded investment in residential and consumer loans based on payment activity as of March 31, 2013 and December 31, 2012:

	March 31, 2013				
	Residential		Consumer Loans		Other Direct

Performing	\$ 12,496,908	\$ -	\$ 4,819,276	\$ -	\$ 83,543
Non-Performing	252,434	-	26,376	-	-
Total	\$ 12,749,342	\$ -	\$ 4,845,652	\$ -	\$ 83,543

At the time of the merger with FOFC, the Corporation identified certain loans with evidence of deteriorated credit quality, and the probability that the Corporation would be unable to collect all contractually required payments from the borrower. These loans are called PCI loans and included in Acquired loans. The Corporation adjusted its estimates of future expected losses, cash flows, and renewal assumptions on the PCI loans during the current year. These adjustments were made for changes in expected cash flows due to loans refinanced beyond original maturity dates, impairments recognized subsequent to the acquisition, advances made for taxes or insurance to protect collateral held and payments received in excess of amounts originally expected.

The table below summarizes the changes in total contractually required principal and interest cash payments, management's estimate of expected total cash payments and carrying value of the PCI loans from January 1, 2013 to March 31, 2013:

	Balance at December 31, 2012	Income Accretion	All Other Adjustments	Balance at March 31, 2013
Contractually required principal and interest	\$ 16,896,078	\$ -	\$ (1,640,666)	\$ 15,255,412
Contractual cash flows not expected to be collected				
(nonaccretable discount)	(4,605,358)	-	1,306,583	(3,298,775)
Cash flows expected to be collected	12,290,720	-	(334,083)	11,956,637
Interest component of expected cash flows (accretable yield)	(2,529,044)	493,820	(341,419)	(2,376,643)
Fair value of loans acquired with deteriorating credit quality	\$ 9,761,676	\$493,820	\$ (675,502)	\$ 9,579,994

## NOTE 6

## FAIR VALUE

Fair value is the exchange price that would be received for an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. There are three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a reporting entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The Corporation used the following methods and significant assumptions to estimate fair value:

**Investment Securities:** The fair values of securities available for sale are usually determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs), or matrix pricing, which is a mathematical technique widely used to value debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securities' relationship to other benchmark quoted securities (Level 2 inputs).

The Corporation's investment in collateralized debt obligations consisting of pooled trust preferred securities which are issued by financial institutions were historically priced using Level 2 inputs. The lack of observable inputs and market activity in this class of investments has been significant and resulted in unreliable external pricing. Broker pricing and bid/ask spreads, when available, have varied widely. The once active market has become comparatively inactive. As a result, these investments are now priced using Level 3 inputs.

The Corporation utilizes an external model for pricing these securities. This is the same model used in determining OTTI as further described in Note 4. Information such as historical and current performance of the underlying collateral, deferral/default rates, collateral coverage ratios, break in yield calculations, cash flow projections, liquidity and credit premiums required by a market participant, and financial trend analysis with respect to the individual issuing financial institutions, are utilized in determining individual security valuations. Discount rates were utilized along with the cash flow projections in order to calculate an appropriate fair value. These discount rates were calculated based on industry index rates and adjusted for various credit and liquidity factors. Due to current market conditions as well as the limited trading activity of these securities, the market value of the securities is highly sensitive to assumption changes and market volatility.

**Trading Assets:** Securities that are held to fund a deferred compensation plan are recorded at fair value with changes in fair value included in earnings. The fair values of trading assets are determined by quoted market prices (Level 1 inputs).

**Impaired Loans:** At the time a loan is considered impaired, it is valued at the lower of cost or fair value. Impaired loans carried at fair value have been partially charged-off or receive specific allocations as part of the allowance for loan loss accounting. For collateral dependent loans, fair value is commonly based on real estate appraisals. These appraisals may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach. Adjustments are routinely made in the appraisal process by independent appraisers to adjust for differences between the comparable sales and income data available. Such adjustments are usually significant and typically result in a Level 3 classification of the inputs for determining fair value. Non-real estate collateral may be valued using an appraisal, net book value per the borrower's financial statements, or aging reports, adjusted or discounted based on management's historical knowledge, changes in market conditions from the time of the valuation, and management's expertise and knowledge of the client and client's business, typically resulting in a Level 3 fair value classification. Impaired loans are evaluated on a quarterly basis for additional impairment and adjusted accordingly.

**Other Real Estate Owned:** Assets acquired through or instead of loan foreclosures are initially recorded at fair value less costs to sell when acquired, establishing a new cost basis. These assets are subsequently accounted for at lower of cost or fair value less estimated costs to sell. Fair value is commonly based on recent real estate appraisals. These appraisals may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach. Adjustments are routinely made in the appraisal process by independent appraisers to adjust for differences between the comparable sales and income data available. Such adjustments are usually significant and typically result in a Level 3 classification of the inputs for determining fair value.

Appraisals for both collateral-dependent impaired loans and other real estate owned (“OREO”) are performed by certified general appraisers (for commercial properties) or certified residential appraisers (for residential properties) whose qualifications and licenses have been reviewed and verified by the Corporation. Once received, appraisals are reviewed for reasonableness of assumptions, approaches utilized, Uniform Standards of Professional Appraisal Practice and other regulatory compliance, as well as the overall resulting fair value in comparison with independent data sources such as recent market data or industry-wide statistics. Appraisals are generally completed within the previous 12 month period prior to a property being placed into OREO. On impaired loans, appraisal values are adjusted based on the age of the appraisal, the position of the lien, the type of the property and its condition.

Assets and liabilities measured at fair value on a recurring basis are summarized below:

Financial Assets: Obligations of U.S. Government and U.S. Government sponsored enterprises	Fair Value	Fair Value Measurement at March 31, 2013 Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

There were no transfers between Level 1 and Level 2 during the three-month period ending March 31, 2013 or the year ending December, 31, 2012.

The significant unobservable inputs used in the fair value measurement of the Corporation's collateralized debt obligations are probabilities of specific-issuer defaults and deferrals and specific-issuer recovery assumptions. Significant increases in specific-issuer default assumptions or decreases in specific-issuer recovery assumptions would result in a significantly lower fair value measurement. Conversely, decreases in specific-issuer default assumptions or increases in specific-issuer recovery assumptions would result in a higher fair value measurement. The Corporation treats all interest payment deferrals as defaults and assumes no recoveries on defaults.

The tables below present a reconciliation of all assets measured at fair value on a recurring basis using significant unobservable inputs (Level 3) for the three-month periods ending March 31, 2013 and 2012:

	Fair Value Measurement for Three-Months Ended March 31, 2013 Using Significant Unobservable Inputs (Level 3)	Fair Value Measurement for Three-Months Ended March 31, 2012 Using Significant Unobservable Inputs (Level 3)

The following table presents information related to Level 3 non-recurring fair value measurement at March 31, 2013 and December 31, 2012:

Description	Fair Value at March 31, 2013	Technique	Unobservable Inputs
Impaired loans	\$ 561,875	Third party real estate and a 100% discount of personal property	1 Management discount based on underlying collateral characteristics and market conditions
Other real estate owned	\$ 564,581	Third party appraisals	1 Estimated holding period 2 Estimated closing costs
Description	Fair Value at December 31, 2012	Technique	Unobservable Inputs
Impaired loans	\$ 540,723	Third party real estate and a 100% discount of personal property	1 Management discount based on underlying collateral

				characteristics and market conditions
Other real estate owned	\$	564,581	Third party appraisals	1 2
				Estimated holding period Estimated closing costs

Impaired loans, which are measured for impairment using the fair value of the collateral for collateral dependent loans, had a principal balance of \$837,752 with a valuation allowance of \$275,877 as of March 31, 2013, resulting in \$83,239 of additional provision for loan losses for the three-month period ended March 31, 2013. Impaired loans had a principal balance of \$733,361, with a valuation allowance of \$192,638 as of December 31, 2012, resulting in no additional provision for loan losses for the year ending December 31, 2012.

OREO, which is measured by the lower of carrying or fair value less costs to sell, had a net carrying amount of \$564,581 at March 31, 2013. The net carrying amount reflects the outstanding balance of \$756,948 net of a valuation allowance of \$192,367 at March 31, 2013. There were no write downs for the three-month period ending March 31, 2013. OREO had a net carrying amount of \$564,581 at December 31, 2012. The net carrying amount reflects the outstanding balance of \$756,948 net of a valuation allowance of \$192,367 at December 31, 2012, which resulted in write downs of \$116,840 for the year ending December 31, 2012.

The carrying amounts and estimated fair values of other financial instruments, at March 31, 2013 and December 31, 2012, are as follows (dollars in thousands):

	Carrying Amount	Fair Value Measurements at March 31, 2013 Using			Estimated Fair Value (1)

(1) Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial instrument. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and, therefore, cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

The methods and assumptions used to estimate fair value are described as follows:

Cash, Due From and Interest-Bearing Deposits in Other Financial Institutions

For those short-term instruments that generally mature in 90 days or less, the carrying value approximates fair value of which non interest-bearing deposits are classified as Level 1 and interest-bearing deposits with the Federal Home Loan Bank of New York (“FHLB”) and Federal Reserve Bank of New York (“FRB”) are classified as Level 1.

#### FHLB and FRB Stock

It is not practicable to determine the fair value of FHLB and FRB stock due to restrictions placed on its transferability.

#### Loans Receivable

For variable-rate loans that reprice frequently, fair values approximate carrying values. The fair values for other loans are estimated through discounted cash flow analysis using interest rates currently being offered for loans with similar terms and credit quality. Loans are classified as Level 3. The methods utilized to estimate the fair value of loans do not necessarily represent an exit price. Loans held for sale are classified as Level 2.

## Deposits

The fair values disclosed for demand deposits, savings accounts and money market accounts are, by definition, equal to the amounts payable on demand at the reporting date (i.e., their carrying values) and classified as Level 1.

The fair value of certificates of deposits is estimated using a discounted cash flow approach that applies interest rates currently being offered on certificates to a schedule of the weighted-average expected monthly maturities and classified as Level 2.

## Securities Sold Under Agreements to Repurchase (Repurchase Agreements)

These instruments bear both variable and fixed rates of interest. Therefore, the carrying value approximates fair value for the variable rate instruments and the fair value of fixed rate instruments is based on discounted cash flows to maturity. These are classified as Level 2.

## Federal Home Loan Bank Advances

These instruments bear a stated rate of interest to maturity and, therefore, the fair value is based on discounted cash flows to maturity and classified as Level 2.

## Accrued Interest Receivable and Payable

For these short-term instruments, the carrying value approximates fair value resulting in a classification of Level 1, Level 2 or Level 3 depending upon the classification of the asset/liability they are associated with.

## NOTE 7 GOODWILL AND INTANGIBLE ASSETS

The changes in goodwill included in the core banking segment during the periods ending March 31, 2013 and 2012 were as follows:

	2013		2012	
Beginning of year	\$	21,824,443	\$	21,983,617
Acquired goodwill		-		
Adjustment of Acquired goodwill (1)		-		(159,174)
March 31,	\$	21,824,443	\$	21,824,443

(1) Adjustment related to Fort Orange Financial Corp. acquisition.

Acquired intangible assets were as follows at March 31, 2013 and December 31, 2012:

	At March 31, 2013		At December 31, 2012	
	Balance Acquired	Accumulated Amortization	Balance Acquired	Accumulated Amortization
Core deposit intangibles	\$ 3,819,798	\$ 1,934,940	\$ 3,819,798	\$ 1,796,853
Other customer relationship intangibles	6,063,423	3,039,062	6,063,423	2,942,548
Total	\$ 9,883,221	\$ 4,974,002	\$ 9,883,221	\$ 4,739,401

Aggregate amortization expense was \$234,601 and \$284,140 for the three-month periods ended March 31, 2013 and 2012, respectively.

The remaining estimated aggregate amortization expense at March 31, 2013 is listed below:

Year		Estimated Expense
2013	\$	641,923
2014		777,801
2015		681,176
2016		607,713
2017		557,893
2018 and thereafter		1,642,713
Total	\$	4,909,219

#### NOTE 8 ACCUMULATED OTHER COMPREHENSIVE INCOME OR LOSS

Accumulated other comprehensive income or loss represents the net unrealized holding gains or losses on securities available for sale and the funded status of the Corporation's defined benefit pension plan and other benefit plans, as of the consolidated balance sheet dates, net of the related tax effect.

The following is a summary of the changes in accumulated other comprehensive income or loss by component, net of tax, for the periods indicated:

	Unrealized Gains and Losses on Securities Available for Sale	Defined Benefit and Other Benefit Plans	Total
Balance at December 31, 2012	\$ 8,022,790	\$ (10,829,719)	\$ (2,806,929)
Other comprehensive income before reclassification	(43,193)	-	(43,193)
Amounts reclassified from accumulated other comprehensive income	-	226,924	226,924
Net current period other comprehensive income	(43,193)	226,924	183,731
Balance at March 31, 2013	\$ 7,979,597	\$ (10,602,795)	\$ (2,623,198)

	Unrealized Gains and Losses on Securities Available for Sale	Defined Benefit and Other Benefit Plans	Total
Balance at December 31, 2011	\$ 7,987,055	\$ (9,428,433)	\$ (1,441,378)
Other comprehensive income before reclassification	284,463	-	284,463
Amounts reclassified from accumulated other comprehensive income	(182,937)	193,768	10,831
Net current period other comprehensive income	101,526	193,768	295,924
Balance at March 31, 2012	\$ 8,088,581	\$ (9,234,665)	\$ (1,146,084)

The following is the reclassification out of accumulated other comprehensive income for the periods indicated:

Details about Accumulated Other Comprehensive Income Components	Three Months Ended March 31,		Affected Line Item in the Statement Where Net Income is Presented
	2013	2012	
Unrealized gains and losses on securities available for sale:			
Realized gains on securities available for sale	\$ -	\$ 297,169	Net gains on securities transactions
Income tax expense	-	114,232	Income tax expense
Net of tax	-	182,937	
Amortization of defined pension plan and other benefit plan items:			
Prior service costs (a)	20,786	20,786	Pension and other employee benefits
Actuarial losses (a)	(389,409)	(335,548)	Pension and other employee benefits
Income tax benefit	141,699	120,994	Income tax expense
Net of tax	(226,924)	(193,798)	
Total reclassification for the period, net of tax	\$\$ (226,924)	\$ (10,831)	

(a) These accumulated other comprehensive income components are included in the computation of net periodic pension and other benefit plan costs (see Note 10 for additional information).

## NOTE 9 COMMITMENTS AND CONTINGENCIES

The Corporation is a party to certain financial instruments with off-balance sheet risk such as commitments under standby letters of credit, unused portions of lines of credit, overdraft protection and commitments to fund new loans. In accordance with U.S. GAAP, these financial instruments are not recorded in the financial statements. The Corporation's policy is to record such instruments when funded. These transactions involve, to varying degrees, elements of credit, interest rate and liquidity risk. Such transactions are generally used by the Corporation to manage clients' requests for funding and other client needs.

The Bank is a party in two legal proceedings involving its Wealth Management Group Services. In both proceedings, the Bank, as trustee pursuant to written trust instruments, has sought judicial settlement of trust accounts in the New York Surrogate's Court for Chemung County. Individuals who are beneficiaries under the trusts have filed formal objections and/or demand letters with the Court in both of these accounting proceedings, objecting to the final settlement of the trust accounts. The objectants primarily assert that the Bank acted imprudently by failing to diversify the trusts' investments and they claim \$9.6 million and \$24.1 million, consisting of damages and disallowed trustee's commissions, plus unspecified legal fees in the respective proceedings. These proceedings are pending in the Surrogate's Court and are now in the discovery phase. While the outcome of litigation is not predictable the Bank believes that the claims are without merit and is vigorously defending them. As of March 31, 2013, no amount has been accrued for potential losses related to these proceedings as a potential loss is not considered probable or reasonably estimable in the opinion of management.

In the normal course of business, there are various outstanding claims and legal proceedings involving the Corporation or its subsidiaries. Except for the above matter, we believe that we are not a party to any pending legal, arbitration, or regulatory proceedings that could have a material adverse impact on our financial results or liquidity.

## NOTE 10 COMPONENTS OF QUARTERLY AND YEAR TO DATE NET PERIODIC BENEFIT COSTS

	Three Months Ended	
	March 31,

Amortization of unrecognized net loss	1,175	-
Net periodic postretirement, medical and life expense	\$ 2,500	\$ 2,500

## NOTE 11 SEGMENT REPORTING

The Corporation manages its operations through two primary business segments: core banking and wealth management group services. The core banking segment provides revenues by attracting deposits from the general public and using such funds to originate consumer, commercial, commercial real estate, and residential mortgage loans, primarily in the Corporation's local markets and to invest in securities. The wealth management group services segment provides revenues by providing trust and investment advisory services to clients.

Accounting policies for the segments are the same as those described in Note 1. Summarized financial information concerning the Corporation's reportable segments and the reconciliation to the Corporation's consolidated results are shown in the following table. Income taxes are allocated based on the separate taxable income of each entity and indirect overhead expenses are allocated based on reasonable and equitable allocations applicable to the reportable segment. Holding company amounts are the primary differences between segment amounts and consolidated totals, and are reflected in the Holding Company and Other column below, along with amounts to eliminate transactions between segments.

Three Months Ended March 31, 2013	Core Banking	Wealth Management Group	Holding Company And Other	Consolidated Totals
Net interest income	\$ 11,715,328	\$ -	\$ 1,639	\$ 11,716,967
