EXPLANATORY NOTE

This report combines the quarterly reports on Form 10-Q for the period ended June 30, 2013 of both Duke Realty Corporation and Duke Realty Limited Partnership. Unless stated otherwise or the context otherwise requires, references to "Duke Realty Corporation" or the "General Partner" mean Duke Realty Corporation and its consolidated subsidiaries; and references to the "Partnership" mean Duke Realty Limited Partnership and its consolidated subsidiaries. The terms the "Company," "we," "us" and "our" refer to the General Partner and the Partnership, collectively, and those entities owned or controlled by the General Partner and/or the Partnership.

Duke Realty Corporation is a self-administered and self-managed real estate investment trust ("REIT") and is the sole general partner of the Partnership, owning 98.7% of the common partnership interests of the Partnership ("General Partner Units") as of June 30, 2013. The remaining 1.3% of the common partnership interests ("Limited Partner Units" and, together with the General Partner Units, the "Common Units") are owned by limited partners. As the sole general partner of the Partnership, the General Partner has full, exclusive and complete responsibility and discretion in the day-to-day management and control of the Partnership. The General Partner also owns preferred partnership interests in the Partnership ("Preferred Units").

The General Partner and the Partnership are operated as one enterprise. The management of the General Partner consists of the same members as the management of the Partnership. As the sole general partner with control of the Partnership, the General Partner consolidates the Partnership for financial reporting purposes, and the General Partner does not have any significant assets other than its investment in the Partnership. Therefore, the assets and liabilities of the General Partner and the Partnership are substantially the same.

We believe combining the quarterly reports on Form 10-Q of the General Partner and the Partnership into this single report results in the following benefits:

- enhances investors' understanding of the General Partner and the Partnership by enabling investors to view the business as a whole in the same manner as management views and operates the business;
- eliminates duplicative disclosure and provides a more streamlined and readable presentation of information since a substantial portion of the Company's disclosure applies to both the General Partner and the Partnership; and
- creates time and cost efficiencies through the preparation of one combined report instead of two separate reports.

We believe it is important to understand the few differences between the General Partner and the Partnership in the context of how we operate as an interrelated consolidated company. The General Partner's only material asset is its ownership of partnership interests in the Partnership. As a result, the General Partner does not conduct business itself, other than acting as the sole general partner of the Partnership and issuing public equity from time to time. The General Partner does not issue any indebtedness, but does guarantee the unsecured debt of the Partnership. The Partnership holds substantially all the assets of the business, directly or indirectly, and holds the ownership interests related to certain of the Company's investments. The Partnership conducts the operations of the business and has no publicly traded equity. Except for net proceeds from equity issuances by the General Partner, which are contributed to the Partnership in exchange for General Partner Units or Preferred Units, the Partnership generates the capital required by the business through its operations, its incurrence of indebtedness and the issuance of Limited Partner Units to third parties.

Noncontrolling interests, shareholders' equity and partners' capital are the main areas of difference between the consolidated financial statements of the General Partner and those of the Partnership. The noncontrolling interests in the Partnership's financial statements include the interests in consolidated investees not wholly owned by the Partnership. The noncontrolling interests in the General Partner's financial statements include the same noncontrolling interests at the Partnership level, as well as the common limited partnership interests in the Partnership, which are accounted for as partners' capital by the Partnership.

In order to highlight the differences between the General Partner and the Partnership, there are separate sections in this report, as applicable, that separately discuss the General Partner and the Partnership including separate financial statements, and separate Exhibit 31 and 32 certifications. In the sections that combine disclosure of the General Partner and the Partnership, this report refers to actions or holdings as being actions or holdings of the collective Company.

DUKE REALTY CORPORATION AND DUKE REALTY LIMITED PARTNERSHIP
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

1. General Basis of Presentation

The interim consolidated financial statements included herein have been prepared by Duke Realty Corporation (the "General Partner") and Duke Realty Limited Partnership (the "Partnership"). In this Report, unless the context indicates otherwise, the terms "Company," "we," "us" and "our" refer to the General Partner and the Partnership, collectively, and those entities owned or controlled by the General Partner and/or the Partnership. The 2012 year-end consolidated balance sheet data included in this Quarterly Report on Form 10-Q (this "Report") was derived from the audited financial statements in the combined Annual Report on Form 10-K of the General Partner and the Partnership for the year ended December 31, 2012, but does not include all disclosures required by accounting principles generally accepted in the United States of America ("GAAP"). The financial statements have been prepared in accordance with GAAP for interim financial information and in accordance with Rule 10-01 of Regulation S-X of the Securities Exchange Act of 1934, as amended. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included. GAAP requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and revenue and expenses during the reporting period. Our actual results could differ from those estimates and assumptions. These financial statements should be read in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations included herein and the consolidated financial statements and notes thereto included in the combined Annual Report on Form 10-K of the General Partner and the Partnership for the year ended December 31, 2012. The General Partner was formed in 1985 and we believe that it qualifies as a real estate investment trust ("REIT") under the provisions of the Internal Revenue Code of 1986, as amended (the "Code"). The Partnership was formed on October 4, 1993, when the General Partner contributed all of its properties and related assets and liabilities, together with the net proceeds from an offering of additional shares of its common stock, to the Partnership. Simultaneously, the Partnership completed the acquisition of Duke Associates, a full-service commercial real estate firm operating in the Midwest whose operations began in 1972.

The General Partner is the sole general partner of the Partnership, owning approximately 98.7% of the common partnership interests of the Partnership ("General Partner Units") at June 30, 2013. The remaining 1.3% of the common partnership interests ("Limited Partner Units" and, together with the General Partner Units, the "Common Units") are owned by limited partners. As the sole general partner of the Partnership, the General Partner has full, exclusive and complete responsibility and discretion in the day-to-day management and control of the Partnership. The General Partner and the Partnership are operated as one enterprise. The management of the General Partner consists of the same members as the management of the Partnership. As the sole general partner with control of the Partnership, the General Partner consolidates the Partnership for financial reporting purposes, and the General Partner does not have any significant assets other than its investment in the Partnership. Therefore, the assets and liabilities of the General Partner and the Partnership are substantially the same.

Limited Partners have the right to redeem their Limited Partner Units, subject to certain restrictions. Pursuant to the Fourth Amended and Restated Agreement of Limited Partnership, as amended (the "Partnership Agreement"), the General Partner is obligated to redeem the Limited Partner Units in shares of its common stock, unless it determines in its reasonable discretion that the issuance of shares of its common stock could cause it to fail to qualify as a REIT. Each Limited Partner Unit shall be redeemed for one share of the General Partner's common stock, or, in the event that the issuance of shares could cause the General Partner to fail to qualify as a REIT, cash equal to the fair market value of one share of the General Partner's common stock at the time of redemption, in each case, subject to certain adjustments described in the Partnership Agreement. The Limited Partner Units are not required, per the terms of the Partnership Agreement, to be redeemed in registered shares of the General Partner. The General Partner also owns preferred partnership interests in the Partnership ("Preferred Units").

We own and operate a portfolio primarily consisting of industrial and office properties and provide real estate services to third-party owners. Substantially all of our Rental Operations (see Note 10) are conducted through the Partnership. We conduct our Service Operations (see Note 10) through Duke Realty Services, LLC, Duke Realty Services Limited Partnership and Duke Construction Limited Partnership ("DCLP"), which are consolidated entities that are 100% owned by a combination of the General Partner and the Partnership. DCLP is owned through a taxable REIT subsidiary. The consolidated financial statements include our accounts and the accounts of our majority-owned or controlled subsidiaries.

2. Reclassifications

Certain amounts in the accompanying consolidated financial statements for 2012 have been reclassified to conform to the 2013 consolidated financial statement presentation.

3. Other Comprehensive Income

In February 2013, the Financial Accounting Standards Board issued Accounting Standards Update No. 2013-02, Other Comprehensive Income (Topic 220): Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income ("ASU 2013-02"), which was effective for us beginning with the three months ended March 31, 2013. ASU 2013-02 requires presentation of significant amounts reclassified out of accumulated other comprehensive income. Activity within other comprehensive income or loss includes the amortization to interest expense, over the lives of previously hedged loans, of the values of interest rate swaps that have been settled, as well as changes in the fair values of currently outstanding interest rate swaps that we have designated as cash flow hedges. Activity within other comprehensive income is not material for any individual type of activity, as well as for all activities in the aggregate, for all periods presented in this Report.

4. Variable Interest Entities

At June 30, 2013, there are three unconsolidated joint ventures that we have determined meet the criteria to be considered variable interest entities ("VIEs"). These three unconsolidated joint ventures were formed with the sole purpose of developing, constructing, leasing, marketing and selling or operating properties. The business activities of these unconsolidated joint ventures have been financed through a combination of equity contributions, partner/member loans, and third-party debt that is guaranteed by a combination of us and the other partner/member of each entity. All significant decisions for these unconsolidated joint ventures, including those decisions that most significantly impact each venture's economic performance, require unanimous approval of each joint venture's partners or members. In certain cases, these decisions also require lender approval. Unanimous approval requirements for these unconsolidated joint ventures include entering into new leases, setting annual operating budgets, selling underlying properties, and incurring additional indebtedness. Because no single entity exercises control over the decisions that most significantly affect each joint venture's economic performance, we determined there to be no individual primary beneficiary and that the equity method of accounting is appropriate.

The following is a summary of the carrying value in our consolidated balance sheet, as well as our maximum loss exposure under guarantees for the three unconsolidated subsidiaries that we have determined to be VIEs as of June 30, 2013 (in millions):

	Carrying Value	Maximum Loss Exposure
Investment in Unconsolidated Companies	\$47.0	\$ 47.0
Guarantee Obligations (1)	\$(21.8) \$ (143.4)

We are party to guarantees of the third-party debt of these joint ventures and our maximum loss exposure is equal to the maximum monetary obligation pursuant to the guarantee agreements. We have also recorded a liability for (1) our probable future obligation under a guarantee to the lender of one of these ventures, which is included within the carrying value of our guarantee obligations. Pursuant to an agreement with the lender, we may make partner loans to this joint venture that will reduce our maximum guarantee obligation on a dollar-for-dollar basis. The carrying value of our recorded guarantee obligations is included in other liabilities in our Consolidated Balance Sheets.

5. Acquisitions and Dispositions

2013 Acquisitions

We acquired 13 operating properties during the six months ended June 30, 2013. These acquisitions consisted of three industrial properties in Central and Southern New Jersey, two industrial properties in Southern California, two industrial properties in Central California, one industrial property in Houston, Texas, one industrial property in Kansas City, Missouri, one industrial property near St. Louis, Missouri, one industrial property in Northeast Pennsylvania, one industrial property near Indianapolis, Indiana and one medical office property in Central Florida. The following table summarizes the fair value of amounts recognized for each major class of asset and liability (in thousands) for these acquisitions:

Real estate assets	\$ 388,100
Lease related intangible assets	54,499
Total acquired assets	442,599
Secured debt	103,638
Other liabilities	2,682
Total assumed liabilities	106,320
Fair value of acquired net assets	\$ 336,279

The leases in the acquired properties had a weighted average remaining life at acquisition of approximately 7.6 years.

Fair Value Measurements

The fair value estimates used in allocating the aggregate purchase price of each acquisition among the individual components of real estate assets and liabilities were determined primarily through calculating the "as-if vacant" value of each building, using the income approach, and relied significantly upon internally determined assumptions. We have determined these estimates to have been primarily based upon Level 3 inputs, which are unobservable inputs based on our own assumptions. The range of most significant assumptions utilized in making the lease-up and future disposition estimates used in calculating the "as-if vacant" value of each building acquired during the six months ended June 30, 2013 were as follows:

	Low	High	
Discount rate	6.82	% 9.67	%
Exit capitalization rate	5.10	% 7.67	%
Lease-up period (months)	12	24	
Net rental rate per square foot – Industrial	\$2.95	\$6.84	
Net rental rate per square foot – Medical Office	\$18.00	\$18.00	

Acquisition-Related Activity

The acquisition-related activity in our Consolidated Statements of Operations and Comprehensive Income for the six months ended June 30, 2013 and 2012 consists of transaction costs related to completed acquisitions, which are expensed as incurred, as well as gains or losses related to acquisitions where we had a pre-existing ownership interest. We recognized a gain of \$962,000 on the pre-existing ownership interest that we held in one of the industrial properties we acquired and expenses of \$2.7 million for transaction costs during the six months ended June 30, 2013. Activity during the six months ended June 30, 2012 consists of transaction costs related to acquisitions, which were expensed as incurred.

Dispositions

We disposed of certain consolidated income-producing real estate assets and undeveloped land and received net cash proceeds of \$259.2 million and \$89.5 million during the six months ended June 30, 2013 and 2012, respectively. During the six months ended June 30, 2013, 17 office properties and one industrial property were sold from certain of our unconsolidated joint ventures for which our capital distributions totaled \$89.2 million and our share of gains, which is included in equity in earnings, totaled \$48.8 million.

6. Indebtedness

All debt is held directly or indirectly by the Partnership. The General Partner does not have any indebtedness, but does guarantee all of the unsecured debt of the Partnership.

The following table summarizes the book value and changes in the fair value of our debt for the six months ended June 30, 2013 (in thousands):

	Book Value at 12/31/12	Book Value at 6/30/13	Fair Value at 12/31/12	Issuances and Assumptions	Payments/Payoffs	Adjustments to Fair Value at 6/30/13	Fair Value at 6/30/13

Unsecured line of credit	285,000	88,000	285,632	—	(197,000)	(632)	88,000
Total	\$4,446,170	\$4,396,777	\$4,891,881	\$605,571	\$ (653,316)	\$(136,160)	\$4,707,976

Secured Debt

Because our fixed rate secured debt is not actively traded in any marketplace, we utilized a discounted cash flow methodology to determine its fair value. Accordingly, we calculated fair value by applying an estimate of the current market rate to discount the debt's remaining contractual cash flows. Our estimate of a current market rate, which is the most significant input in the discounted cash flow calculation, is intended to replicate debt of similar maturity and loan-to-value relationship. The estimated rates ranged from 3.50% to 4.90%, depending on the attributes of the specific loans. The current market rates we utilized were internally estimated; therefore, we have concluded that our determination of fair value for our fixed rate secured debt was primarily based upon Level 3 inputs.

During the six months ended June 30, 2013, we repaid three secured loans, at their maturity dates, totaling \$22.7 million. These loans had a weighted average stated interest rate of 5.73%.

During the six months ended June 30, 2013, we assumed three secured loans, in conjunction with our acquisition activity, with a total face value of \$99.3 million and a fair value of \$103.6 million. These assumed loans have a weighted average remaining term at acquisition of 1.8 years and carry a weighted average stated interest rate of 5.59%. We used an estimated market interest rate of 3.00% in determining the fair value of these loans. Between the date of acquisition and the end of the most recent reporting period, interest rates increased, resulting in our estimated market interest rate for these loans increasing to 3.50%.

Unsecured Debt

At June 30, 2013, with the exception of the \$250.0 million variable rate term note described below, all of our unsecured debt bears interest at fixed rates and primarily consists of unsecured notes that are publicly traded. We utilized broker estimates in estimating the fair value of our fixed rate unsecured debt. Our unsecured notes are thinly traded and, in certain cases, the broker estimates were not based upon comparable transactions. The broker estimates took into account any recent trades within the same series of our fixed rate unsecured debt, comparisons to recent trades of other series of our fixed rate unsecured debt, trades of fixed rate unsecured debt from companies with profiles similar to ours, as well as overall economic conditions. We reviewed these broker estimates for reasonableness and accuracy, considering whether the estimates were based upon market participant assumptions

within the principal and most advantageous market and whether any other observable inputs would be more accurate indicators of fair value than the broker estimates. We concluded that the broker estimates were representative of fair value. We have determined that our estimation of the fair value of our fixed rate unsecured debt was primarily based upon Level 3 inputs, as defined. The estimated trading values of our fixed rate unsecured debt, depending on the maturity and coupon rates, ranged from 93.00% to 125.00% of face value.

In March 2013, we issued \$250.0 million of unsecured notes that bear interest at 3.625%, have an effective rate of 3.72%, and mature on April 15, 2023.

In May 2013, we issued and fully drew down on a term loan with an aggregate commitment of \$250.0 million that bears interest at a variable rate of LIBOR plus 1.35% (equal to 1.55% for outstanding borrowings as of June 30, 2013) and matures May 14, 2018.

During the six months ended June 30, 2013, we repaid two unsecured notes at their maturity dates totaling \$425.0 million. These notes had a weighted average effective rate of 6.40% and a weighted average stated rate of 5.68%. The indentures (and related supplemental indentures) governing our outstanding series of notes also require us to comply with financial ratios and other covenants regarding our operations. We were in compliance with all such covenants as of June 30, 2013.

Unsecured Line of Credit

Our unsecured line of credit as of June 30, 2013 is described as follows (in thousands):

Description	Maximum Capacity	Maturity Date	Outstanding Balance at June 30, 2013
Unsecured Line of Credit - Partnership	\$850,000	December 2015	\$88,000

The Partnership's unsecured line of credit has an interest rate on borrowings of LIBOR plus 1.25% (equal to 1.45% for outstanding borrowings as of June 30, 2013) and a maturity date of December 2015. Subject to certain conditions, the terms also include an option to increase the facility by up to an additional \$400.0 million, for a total of up to \$1.25 billion.

This line of credit provides us with an option to obtain borrowings from financial institutions that participate in the line at rates that may be lower than the stated interest rate, subject to certain restrictions.

This line of credit contains financial covenants that require us to meet certain financial ratios and defined levels of performance, including those related to fixed charge coverage, unsecured interest expense coverage and debt-to-asset value (with asset value being defined in the Partnership's unsecured line of credit agreement). As of June 30, 2013, we were in compliance with all covenants under this line of credit.

To the extent that there are outstanding borrowings, we utilize a discounted cash flow methodology in order to estimate the fair value of our unsecured line of credit. The net present value of the difference between future contractual interest payments and future interest payments based on our estimate of a current market rate represents the difference between the book value and the fair value. Our estimate of a current market rate is based upon the rate, considering current market conditions and our specific credit profile, at which we estimate we could obtain similar borrowings. The current market rate of 1.7% that we utilized was internally estimated; therefore, we have concluded that our determination of fair value for our unsecured line of credit was primarily based upon a Level 3 input, as defined.

7. Shareholders' Equity of the General Partner and Partners' Capital of the Partnership

General Partner

In January 2013, the General Partner completed a public offering of 41.4 million common shares at an issue price of \$14.25 per share, resulting in gross proceeds of \$590.0 million and, after deducting underwriting fees and estimated offering costs, net proceeds of approximately \$571.9 million. A portion of the net proceeds from this offering were

used to repay all of the outstanding borrowings under the Partnership's existing revolving credit facility, which had an outstanding balance of \$285.0 million as of December 31, 2012, and the remaining proceeds were used to redeem all of the General Partner's outstanding 8.375% Series O Cumulative Redeemable Preferred Shares ("Series O Shares") and for general corporate purposes.

In February 2013, the General Partner redeemed all of the outstanding shares of its Series O Shares at their liquidation amount of \$178.0 million. Original offering costs of \$5.9 million were included as a reduction to net income attributable to common shareholders in conjunction with the redemption of these shares.

In the first six months of 2013, the General Partner issued 1.7 million common shares pursuant to its at the market equity program, generating gross proceeds of approximately \$30.9 million and, after deducting commissions and other costs, net proceeds of approximately \$30.1 million. The General Partner paid approximately \$587,000 in commissions related to the sale of these common shares. The proceeds from these offerings were used for general corporate purposes, which include the funding of development costs.

Partnership

For each common share or preferred share that the General Partner issues, the Partnership issues a corresponding General Partner Unit or Preferred Unit, as applicable, to the General Partner in exchange for the contribution of the proceeds from the stock issuance. Similarly, when the General Partner redeems or repurchases common shares or preferred shares, the Partnership redeems the corresponding Common Units or Preferred Units held by the General Partner at the same price.

8. Related Party Transactions

We provide property management, asset management, leasing, construction and other tenant related services to unconsolidated companies in which we have equity interests. We recorded the corresponding fees based on contractual terms that approximate market rates for these types of services and we have eliminated our ownership percentage of these fees in the consolidated financial statements. The following table summarizes the fees earned from these companies, prior to elimination, for the three and six months ended June 30, 2013 and 2012, respectively (in thousands):

	Three Months Ended		Six Months Ended	
	June 30, 2013	2012	June 30, 2013	2012
Management fees	\$2,170	\$2,725	\$4,626	\$5,455
Leasing fees	568	940	1,122	2,234
Construction and development fees	1,510	912	2,577	1,755

9. Net Income (Loss) Per Common Share or Common Unit

Basic net income (loss) per common share or Common Unit is computed by dividing net income (loss) attributable to common shareholders or common unitholders, less dividends or distributions on share-based awards expected to vest (referred to as "participating securities" and primarily composed of unvested restricted stock units), by the weighted average number of common shares or Common Units outstanding for the period.

Diluted net income (loss) per common share is computed by dividing the sum of basic net income (loss) attributable to common shareholders and the noncontrolling interest in earnings allocable to Limited Partner Units (to the extent the Limited Partner Units are dilutive) by the sum of the weighted average number of common shares outstanding and, to the extent they are dilutive, Units outstanding and any potential dilutive securities for the period. Diluted net income (loss) per Common Unit is computed by dividing the basic net income (loss) attributable to common unitholders by the sum of the weighted average number of Common Units outstanding and any potential dilutive securities for the period.

The following table reconciles the components of basic and diluted net income (loss) per common share or Common Unit for the three and six months ended June 30, 2013 and 2012, respectively (in thousands):

The Limited Partner Units are anti-dilutive to the General Partner for the three and six months ended June 30, 2012 as a result of the net loss for those periods. In addition, substantially all potential shares related to our stock-based compensation plans are anti-dilutive for all periods presented. The following table summarizes the data that is excluded from the computation of net income (loss) per common share or Common Unit as a result of being anti-dilutive (in thousands):

10. Segment Reporting

We have four reportable operating segments at June 30, 2013, the first three of which consist of the ownership and rental of (i) industrial, (ii) office and (iii) medical office real estate investments. The operations of our industrial, office and medical office properties, along with our retail properties, are collectively referred to as "Rental Operations." Our retail properties, as well as any other properties not included in our reportable segments, do not by themselves meet the quantitative thresholds for separate presentation as a reportable segment. The fourth reportable segment consists of various real estate services such as property management, asset management, maintenance, leasing, development, general contracting and construction management to third-party property owners and joint ventures, and is collectively referred to as "Service Operations." Our reportable segments offer different products or services and are managed separately because each segment requires different operating strategies and management expertise.

Other revenue consists of other operating revenues not identified with one of our operating segments. Interest expense and other non-property specific revenues and expenses are not allocated to individual segments in determining our performance measure.

We assess and measure the overall operating results of the General Partner and the Partnership based upon Funds From Operations ("FFO"), which is an industry performance measure that management believes is a useful indicator of consolidated operating performance. FFO is used by industry analysts and investors as a supplemental operating performance measure of a REIT. The National Association of Real Estate Investment Trusts ("NAREIT") created FFO as a non-GAAP supplemental measure of REIT operating performance. FFO, as defined by NAREIT, represents GAAP net income (loss), excluding extraordinary items as defined under GAAP, gains or losses from sales of previously depreciated real estate assets, impairment charges related to depreciable real estate assets, plus certain non-cash items such as real estate asset depreciation and amortization, and after similar adjustments for unconsolidated partnerships and joint ventures. The most comparable GAAP measure is net income (loss) attributable to common shareholders or common unitholders. FFO attributable to common shareholders or common unitholders should not be considered as a substitute for net income (loss) attributable to common shareholders or common unitholders or any other measures derived in accordance with GAAP and may not be comparable to other similarly titled measures of other companies. FFO is calculated in accordance with the definition that was adopted by the Board of Governors of NAREIT.

Historical cost accounting for real estate assets in accordance with GAAP implicitly assumes that the value of real estate assets diminishes predictably over time. Since real estate values instead have historically risen or fallen with market conditions, many industry analysts and investors have considered presentation of operating results for real estate companies that use historical cost accounting to be insufficient by themselves. Management believes that the use of FFO attributable to common shareholders or common unitholders, combined with net income (which remains the primary measure of performance), improves the understanding of operating results of REITs among the investing public and makes comparisons of REIT operating results more meaningful. Management believes that the use of FFO as a performance measure enables investors and analysts to readily identify the operating results of the long-term assets that form the core of a REIT's activity and assist them in comparing these operating results between periods or between different companies.

We do not allocate certain income and expenses ("Non-Segment Items," as shown in the table below) to our operating segments. Thus, the operational performance measure presented here on a segment-level basis represents net earnings, excluding depreciation expense and the Non-Segment Items not allocated, and is not meant to present FFO as defined by NAREIT.

The following table shows (i) the revenues for each of the reportable segments and (ii) a reconciliation of FFO attributable to common shareholders or common unitholders to net income (loss) attributable to common shareholders or common unitholders for the three and six months ended June 30, 2013 and 2012, respectively (in thousands):

11. Discontinued Operations and Assets Held for Sale

The following table illustrates the number of properties in discontinued operations:

	Held for Sale at June 30, 2013	Sold in 2013	Sold in 2012	Total
Office	0	2	10	12
Industrial	0	4	17	21
Medical Office	1	2	0	3
Retail	0	1	1	2

We allocate interest expense to discontinued operations and have included such interest expense in computing income from discontinued operations. Interest expense allocable to discontinued operations includes interest on any secured debt for properties included in discontinued operations and an allocable share of our consolidated unsecured interest expense for unencumbered properties. The allocation of unsecured interest expense to discontinued operations was based upon the gross book value of the unencumbered real estate assets included in discontinued operations as it related to the total gross book value of our unencumbered real estate assets.

The following table illustrates the operations of the buildings reflected in discontinued operations for the three and six months ended June 30, 2013 and 2012, respectively (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,

Income from discontinued operations	\$83,687	\$2,006	\$91,911	\$6,607

Dividends or distributions on preferred shares or Preferred Units and adjustments for the redemption or repurchase of preferred shares or Preferred Units are allocated entirely to continuing operations for both the General Partner and the Partnership.

Allocation of Noncontrolling Interests - General Partner

The following table illustrates the General Partner's share of the income (loss) attributable to common shareholders from continuing operations and discontinued operations, reduced by the allocation of income or loss between continuing and discontinued operations to the Limited Partner Units, for the three and six months ended June 30, 2013 and 2012, respectively (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,

Net income (loss) attributable to common shareholders	\$61,494	\$(28,482) \$89,537	\$(64,872

Allocation of Noncontrolling Interests - Partnership

The income from discontinued operations for all periods presented in the Partnership's Consolidated Statements of Operations and Comprehensive Income is entirely attributable to the common unitholders.

Properties Held for Sale

At June 30, 2013, we classified one in-service property as held-for-sale, which was included in discontinued operations, due to our intention and ability to sell this property in the third quarter of 2013. We also classified a parcel of land as held-for-sale as of June 30, 2013. The following table illustrates aggregate balance sheet information of these properties at June 30, 2013 (in thousands):

	June 30, 2013

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following Management's Discussion and Analysis of Financial Condition and Results of Operations is intended to help the reader understand our operations and our present business environment. Management's Discussion and Analysis is provided as a supplement to and should be read in conjunction with our consolidated financial statements and the notes thereto, contained in Part I, Item I of this Quarterly Report on Form 10-Q (this "Report") and the consolidated financial statements and notes thereto, contained in Part IV, Item 15 of our combined Annual Report on Form 10-K for the year ended December 31, 2012, as filed with the Securities and Exchange Commission (the "SEC") on February 22, 2013 for Duke Realty Corporation (the "General Partner") and Duke Realty Limited Partnership (the "Partnership"). As used herein, the terms the "Company," "we," "us" and "our" refer to the General Partner and the Partnership, collectively, and those entities owned or controlled by the General Partner and/or the Partnership.

Cautionary Notice Regarding Forward-Looking Statements

Certain statements contained in or incorporated by reference into this Report, including, without limitation, those related to our future operations, constitute "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. The words "believe," "estimate," "expect," "anticipate," "intend," "plan," "seek," "may," and similar expressions or statements regarding future periods are intended to identify forward-looking statements.

These forward-looking statements involve known and unknown risks, uncertainties and other important factors that could cause our actual results, performance or achievements, or industry results, to differ materially from any predictions of future results, performance or achievements that we express or imply in this Report. Some of the risks, uncertainties and other important factors that may affect future results include, among others:

- Changes in general economic and business conditions, including the financial condition of our tenants and the value of our real estate assets;

- The General Partner's continued qualification as a real estate investment trust ("REIT") for U.S. federal income tax purposes;

- Heightened competition for tenants and potential decreases in property occupancy;

- Potential changes in the financial markets and interest rates;

- Volatility in the General Partner's stock price and trading volume;

- Our continuing ability to raise funds on favorable terms;

- Our ability to successfully identify, acquire, develop and/or manage properties on terms that are favorable to us;

- Potential increases in real estate construction costs;

- Our ability to successfully dispose of properties on terms that are favorable to us, including, without limitation, through one or more transactions that are consistent with our previously disclosed strategic plans;

- Our ability to retain our current credit ratings;

- Inherent risks in the real estate business, including, but not limited to, tenant defaults, potential liability relating to environmental matters and liquidity of real estate investments; and

- Other risks and uncertainties described herein, as well as those risks and uncertainties discussed from time to time in our other reports and other public filings with the SEC.

Although we presently believe that the plans, expectations and results expressed in or suggested by the forward-looking statements are reasonable, all forward-looking statements are inherently subjective, uncertain and subject to change, as they involve substantial risks and uncertainties beyond our control. New factors emerge from time to time, and it is not possible for us to predict the nature, or assess the potential impact, of each new factor on our business. Given these uncertainties, we caution you not to place undue reliance on these forward-looking statements.

We undertake no obligation to update or revise any of our forward-looking statements for events or circumstances that arise after the statement is made, except as otherwise may be required by law.

This list of risks and uncertainties, however, is only a summary of some of the most important factors and is not intended to be exhaustive. Additional information regarding risk factors that may affect us is included under the caption "Risk Factors" in Part II, Item 1A of this Report, and in our combined Annual Report on Form 10-K for the fiscal year ended December 31, 2012, which we filed with the SEC on February 22, 2013 for the General Partner and the Partnership. The risk factors contained in our Annual Report are updated by us from time to time in Quarterly Reports on Form 10-Q and other public filings.

Business Overview

The General Partner is a self-administered and self-managed REIT that began operations in 1986 and is the sole general partner of the Partnership. The Partnership is a limited partnership formed in 1993, at which time all of the properties and related assets and liabilities of the General Partner, as well as proceeds from a secondary offering of the General Partner's common shares, were contributed to the Partnership. Simultaneously, the Partnership completed the acquisition of Duke Associates, a full-service commercial real estate firm operating in the Midwest whose operations began in 1972. We operate the General Partner and the Partnership as one enterprise, and therefore, our discussion and analysis refers to the General Partner and its consolidated subsidiaries, including the Partnership, collectively. A more complete description of our business, and of management's philosophy and priorities, is included in our 2012 Annual Report on Form 10-K.

As of June 30, 2013, we:

Owned or jointly controlled 769 industrial, office, medical office and other properties, of which 751 properties with more than 145.2 million square feet are in service and 18 properties with more than 3.3 million square feet are under development. The 751 in-service properties are comprised of 643 consolidated properties with more than 123.0 million square feet and 108 jointly controlled unconsolidated properties with more than 22.2 million square feet. The 18 properties under development consist of 17 consolidated properties with approximately 3.1 million square feet and one jointly controlled unconsolidated property with approximately 274,000 square feet.

Owned, including through ownership interests in unconsolidated joint ventures, more than 4,500 acres of land and controlled more than 1,600 acres through purchase options.

A key component of our overall strategy is to increase our investment in quality industrial properties in both existing and select new markets, expand our medical office portfolio nationally to take advantage of demographic trends and to reduce our investment in suburban office properties and other non-strategic assets.

We have four reportable operating segments at June 30, 2013, the first three of which consist of the ownership and rental of (i) industrial, (ii) office and (iii) medical office real estate investments. The operations of our industrial, office and medical office properties, along with our retail properties, are collectively referred to as "Rental Operations." Our retail properties, as well as any other properties not included in our reportable segments, do not by themselves meet the quantitative thresholds for separate presentation as a reportable segment. The fourth reportable segment consists of various real estate services such as property management, asset management, maintenance, leasing, development, general contractor and construction management to third-party property owners and joint ventures, and is collectively referred to as "Service Operations." Our reportable segments offer different products or services and are managed separately because each segment requires different operating strategies and management expertise.

Key Performance Indicators

Our operating results depend primarily upon rental income from our Rental Operations. The following discussion highlights the areas of Rental Operations that we consider critical drivers of future revenues.

Occupancy Analysis

Our ability to maintain high occupancy rates is a principal driver of maintaining and increasing rental revenue. The following table sets forth percent leased and average net effective rent information regarding our in-service portfolio

of consolidated rental properties, including properties classified within both continuing and discontinued operations, as of June 30, 2013 and 2012, respectively (in thousands, except percentage data):

*Represents the percentage of total square feet leased based on executed leases and without regard to whether the leases have commenced.

**Represents average annual base rental payments per leased square foot, on a straight-line basis for the term of each lease, from space leased to tenants at the end of the most recent reporting period. This amount excludes additional amounts paid by tenants as reimbursement for operating expenses.

Leasing activity within our existing portfolio of properties as well as, to a lesser extent, acquisitions of fully leased industrial properties drove the increase in our total percent leased from June 30, 2012.

Total Leasing Activity

The initial leasing of newly completed or vacant space in acquired properties is referred to as first generation lease activity. The leasing of such space that we have previously held under lease is referred to as second generation lease activity. The total leasing activity for our consolidated rental properties, expressed in square feet of leases signed during the period, is as follows for the three and six months ended June 30, 2013 and 2012, respectively (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2013	2012	2013	2012

Renewal Leasing Activity	2,880	1,442	4,872	4,007
Total Leasing Activity	5,429	3,775	11,047	10,241

New Second Generation Leases

The following table sets forth the estimated costs of tenant improvements and leasing commissions, on a per square foot basis, that we are obligated to fulfill under the new second generation leases signed for our consolidated rental properties during the three and six months ended June 30, 2013 and 2012, respectively (square feet data in thousands):

* Represents the percentage change in net effective rent between the original leases and the renewal leases. Net effective rents represent average annual base rental payments, on a straight-line basis for the term of each lease, excluding operating expense reimbursements.

Industrial and office lease renewals increased during the three months ended June 30, 2013, compared to the lower-than-usual overall renewal rate of 45.7% during the three months ended March 31, 2013, due to the renewal of larger industrial spaces across several markets. The renewal percentage for the six months ended June 30, 2013 is lower than historic results, which generally approximate 70-80%, as the result of the renewal results during the three months ended March 31, 2013.

Lease Expirations

Our ability to maintain and improve occupancy rates, and net effective rents, primarily depends upon our continuing ability to re-lease expiring space. The table below reflects our consolidated in-service portfolio lease expiration

schedule, including square footage and annualized net effective rent for expiring leases, by property type as of June 30, 2013 (in thousands, except percentage data):

* Annualized rental revenue represents average annual base rental payments, on a straight-line basis for the term of each lease, from space leased to tenants at the end of the most recent reporting period. Annualized rental revenue excludes additional amounts paid by tenants as reimbursement for operating expenses.

Information on current market rents can be difficult to obtain, is highly subjective, and is often not directly comparable between properties. Because of this, we believe the increase or decrease in net effective rent on lease renewals, as previously defined, is the most objective and meaningful relationship between rents on leases expiring in the near-term and current market rents.

Acquisition Activity

Our decision process in determining whether or not to acquire a target property or portfolio of properties involves several factors, including expected rent growth, multiple yield metrics, property locations and expected demographic growth in each location, current occupancy of the target properties, tenant profile and remaining terms of the in-place leases in the target properties. We pursue both brokered and non-brokered acquisitions and it is difficult to predict which markets and product types may present acquisition opportunities that align with our strategy. Because of the numerous factors considered in our acquisition decisions, we do not establish specific target yields for future acquisitions.

We acquired 13 properties during the six months ended June 30, 2013 and 37 properties during the year ended December 31, 2012. The following table summarizes the acquisition price, percent leased at time of acquisition and in-place yields, by product type, for these acquisitions (in thousands, except percentage data):

Edgar Filing: DUKE REALTY CORP - Form 10-Q

Type	Year-to-Date 2013 Acquisitions			Full Year 2012 Acquisitions

* Includes real estate assets and net acquired lease-related intangible assets, including above or below market leases, but excludes other acquired working capital assets and liabilities.

** In-place yields of completed acquisitions are calculated as the current annualized net rental payments, from space leased to tenants at the date of acquisition, divided by the acquisition price of the acquired real estate. Annualized net rental payments are comprised of base rental payments, excluding additional amounts payable by tenants as reimbursement for operating expenses, less current annualized operating expenses not recovered through tenant reimbursements.

*** Represents percentage of total square feet leased based on executed leases and without regard to whether the leases have commenced, at the date of acquisition.

Disposition Activity

We regularly work to identify, consider and pursue opportunities to dispose of properties on an opportunistic basis and on a basis that is generally consistent with our strategic plans.

We sold nine buildings during the six months ended June 30, 2013 and 28 buildings during the year ended December 31, 2012. The following table summarizes the sales prices, in-place yields and percent leased, by product type, of these building sales (in thousands, except percentage data):

Type	Year-to-Date 2013 Dispositions			Full Year 2012 Dispositions				
	Sales Price	In-Place Yield*	Percent Leased**	Sales Price	In-Place Yield*	Percent Leased**

Total	\$260,145	5.8	% 84.9	% \$131,194	7.9	% 79.4	%	

* In-place yields of completed dispositions are calculated as current annualized net rental payments, from space leased to tenants at the date of sale, divided by the sales price of the real estate. Annualized net rental payments are comprised of base rental payments, excluding additional amounts payable by tenants as reimbursement for operating expenses, less current annualized operating expenses not recovered through tenant reimbursements.

** Represents percentage of total square feet leased based on executed leases and without regard to whether the leases have commenced, at the date of sale.

Sales of wholly-owned properties during the six months ended June 30, 2013 included a 391,000 square foot retail property in South Florida for \$188.0 million.

During the six months ended June 30, 2013, 17 office properties and one industrial property were sold by two of our unconsolidated joint ventures for which our capital distributions totaled \$89.2 million and our share of gains, which is included in equity in earnings, totaled \$48.8 million.

Development

At June 30, 2013, we had 3.3 million square feet of property under development with total estimated costs upon completion of \$556.8 million compared to 3.4 million square feet with total estimated costs upon completion of \$458.7 million at June 30, 2012. The square footage and estimated costs include both consolidated and joint venture development activity at 100%.

The following table summarizes our properties under development as of June 30, 2013 (in thousands, except percentage data):

Ownership Type	Square Feet	Percent Leased	Total Estimated Project Costs	Total Incurred to Date	Amount Remaining to be Spent

Funds From Operations

In addition to net income (loss) computed in accordance with GAAP, we assess and measure the overall operating results of the General Partner and the Partnership based upon Funds From Operations ("FFO"), which is an industry performance measure that management believes is a useful indicator of consolidated operating performance. FFO is used by industry analysts and investors as a supplemental operating performance measure of a REIT. The National Association of Real Estate Investment Trusts ("NAREIT") created FFO as a non-GAAP supplemental measure of REIT operating performance. FFO, as defined by NAREIT, represents GAAP net income (loss), excluding extraordinary items as defined under GAAP, gains or losses from sales of previously depreciated real estate assets, impairment charges related to depreciable real estate assets, plus certain non-cash items such as real estate asset depreciation and amortization, and after similar adjustments for unconsolidated partnerships and joint ventures. The most comparable GAAP measure is net income (loss) attributable to common shareholders or common unitholders. FFO attributable to common shareholders or common unitholders should not be considered as a substitute for net income (loss) attributable to common shareholders or common unitholders or any other measures derived in accordance with GAAP and may not be comparable to other similarly titled measures of other companies. FFO is calculated in accordance with the definition that was adopted by the Board of Governors of NAREIT.

Historical cost accounting for real estate assets in accordance with GAAP implicitly assumes that the value of real estate assets diminishes predictably over time. Since real estate values instead have historically risen or fallen with market conditions, many industry analysts and investors have considered presentation of operating results for real estate companies that use historical cost accounting to be insufficient by themselves. Management believes that the use of FFO attributable to common shareholders or common unitholders, combined with net income (which remains the primary measure of performance), improves the understanding of operating results of REITs among the investing public and makes comparisons of REIT operating results more meaningful. Management believes that the use of FFO as a performance measure enables investors and analysts to readily identify the operating results of the long-term assets that form the core of a REITs activity and assist them in comparing these operating results between periods or between different companies.

The following table shows a reconciliation of net income (loss) attributable to common shareholders or common unitholders to the calculation of FFO attributable to common shareholders or common unitholders for the three and six months ended June 30, 2013 and 2012, respectively (in thousands):

Comparison of Three Months Ended June 30, 2013 to Three Months Ended June 30, 2012

Rental and Related Revenue

The following table sets forth rental and related revenue from continuing operations by reportable segment for the three months ended June 30, 2013 and 2012, respectively (in thousands):

	Three Months Ended June 30,	
	2013	2012
Rental and Related Revenue:		
Industrial	\$118,350	\$108,257
Office	68,796	66,055
Medical Office	34,539	19,961
Other	2,980	2,940
Total Rental and Related Revenue from Continuing Operations	\$224,665	\$197,213

The following factors contributed to the increase in rental and related revenue from continuing operations:

We acquired 50 properties, of which 22 were industrial and 28 were medical office, and placed 13 developments in service from January 1, 2012 to June 30, 2013, which provided incremental revenues of \$24.2 million in the second quarter of 2013, as compared to the same period in 2012.

The remaining increase in rental and related revenue from continuing operations was primarily due to increased rental expense recoveries that were in large part attributable to an increase in repair and maintenance costs. Increased occupancy and rental rates within our existing base of properties also contributed, to a lesser extent, to the remaining increase in rental and related revenue from continuing operations.

Rental Expenses and Real Estate Taxes

The following table sets forth rental expenses and real estate taxes from continuing operations by reportable segment for the three months ended June 30, 2013 and 2012, respectively (in thousands):

	Three Months Ended June 30,	
	2013	2012
Rental Expenses:		
Industrial	\$10,585	\$9,128
Office	20,013	18,610
Medical Office	8,242	4,668
Other	1,137	693
Total Rental Expenses from Continuing Operations	\$39,977	\$33,099
Real Estate Taxes:		
Industrial	\$18,476	\$16,691
Office	8,253	8,114
Medical Office	3,512	2,092
Other	541	363
Total Real Estate Tax Expense from Continuing Operations	\$30,782	\$27,260

Overall, rental expenses from continuing operations increased by \$6.9 million in the second quarter of 2013, compared to the same period in 2012. We recognized incremental rental expenses of \$3.6 million associated with the 50 properties acquired and the 13 developments placed in service since January 1, 2012. The remaining increase in rental expenses was primarily a result of an increase in repair and maintenance costs, as well as a slight increase due to higher occupancy.

Overall, real estate taxes from continuing operations increased by \$3.5 million in the second quarter of 2013, compared to the same period in 2012. This increase was primarily due to the 50 properties acquired and the 13 developments placed in service since January 1, 2012, which resulted in incremental real estate tax expense of \$3.2 million.

Service Operations

The following table sets forth the components of the Service Operations reportable segment for the three months ended June 30, 2013 and 2012, respectively (in thousands):

	Three Months Ended June 30,	
	2013	2012
Service Operations:		
General contractor and service fee revenue	\$50,793	\$63,607
General contractor and other services expenses	(45,192) (57,879
Total	\$5,601	\$5,728

Service Operations primarily consist of the leasing, property management, asset management, development, construction management and general contractor services for joint venture properties and properties owned by third parties. Service Operations are heavily influenced by the current state of the economy, as leasing and property management fees are dependent upon occupancy, while construction and development services rely on the expansion of business operations of third-party property owners and joint venture partners. General contractor and service fee revenues decreased due to lower third party construction volume but, because of higher margins during the three months ended June 30, 2013, overall results from service operations were consistent between periods.

Depreciation and Amortization

Depreciation and amortization expense increased from \$88.7 million during the second quarter of 2012 to \$98.5 million for the same period in 2013, primarily due to depreciation related to additions to our continuing operations asset base from properties acquired, which have shorter depreciable lives relative to developed properties, and developments placed in service in 2012 and the first six months of 2013.

Impairment Charges

We recognized an impairment charge of \$3.8 million during the three months ended June 30, 2013 related to 30 acres of land that was designated as held-for-sale at June 30, 2013 and sold in early July 2013 for \$22.2 million. This sale was the result of an unsolicited offer and we had not previously identified or actively marketed this land for disposition.

General and Administrative Expenses

General and administrative expenses consist of two components. The first component includes general corporate expenses and the second component includes the indirect operating costs not allocated to, or absorbed by, the development or Rental Operations of our wholly-owned properties or our Service Operations. The indirect operating costs that are either allocated to, or absorbed by, the development or Rental Operations of our wholly-owned properties, or our Service Operations, are primarily comprised of employee compensation, including related costs such as benefits and wage-related taxes, but also include other ancillary costs such as travel and information technology support. Total indirect operation costs, prior to any allocation or absorption, and general corporate expenses are collectively referred to as our overall pool of overhead costs.

Those indirect costs not allocated to or absorbed by these operations are charged to general and administrative expenses. We regularly review our total overhead cost structure relative to our leasing, development and construction volume and adjust the level of total overhead, generally through changes in our level of staffing in various functional departments, as necessary in order to control overall general and administrative expense.

General and administrative expenses decreased from \$11.6 million for the second quarter of 2012 to \$9.7 million for the same period in 2013. The following table sets forth the factors that led to the decrease in general and administrative expenses from the second quarter of 2012 to the second quarter of 2013 (in millions):

General and administrative expenses - three-month period ended June 30, 2012	\$ 11.6	
Decrease to overall pool of overhead costs	(1.2)
Increased absorption of costs by wholly owned leasing and development activities (1)	(2.3)
Reduced allocation of costs to Service Operations and Rental Operations (2)	1.6	
General and administrative expenses - three-month period ended June 30, 2013	\$ 9.7	

(1) Increased levels of wholly-owned development activity during the three months ended June 30, 2013 resulted in a greater level of absorption of overhead costs. We capitalized \$7.5 million and \$7.4 million of our total overhead costs to leasing and development, respectively, for consolidated properties during the three months ended June 30, 2013, compared to capitalizing \$7.3 million and \$5.3 million of such costs, respectively, for the three months ended June 30, 2012. Combined overhead costs capitalized to leasing and development totaled 37.5% and 30.8% of our overall pool of overhead costs for the three months ended June 30, 2013 and 2012, respectively.

(2) The reduction in the allocation of overhead costs to Service Operations and Rental Operations resulted from reduced volumes of third-party construction projects as we increased our focus on wholly-owned development. See discussion of leasing/capital costs within the Uses of Liquidity section of this Item 2 for further discussion of our wholly-owned development expenditures.

Interest Expense

Interest expense allocable to continuing operations increased slightly from \$59.1 million in the second quarter of 2012 to \$59.3 million in the second quarter of 2013. Because we increased our total base of real estate assets throughout 2012, we carried a higher average level of unsecured borrowings during the three months ended June 30, 2013 as compared to the three months ended June 30, 2012, which resulted in increased interest costs. The increased overall interest costs were partially offset by increased capitalized interest due to the timing of development activities. During the three months ended June 30, 2013 we had more projects, which were financed in part by common equity issuances, that met the criteria for capitalization of interest. We capitalized \$5.0 million of interest costs during the three months ended June 30, 2013 compared to \$2.0 million during the three months ended June 30, 2012.

Discontinued Operations

Subject to certain criteria, the results of operations for properties sold during the year to unrelated parties, or classified as held-for-sale at the end of the period, are required to be classified as discontinued operations. The property specific components of earnings that are classified as discontinued operations include rental revenues, rental expenses, real estate taxes, allocated interest expense and depreciation expense, as well as the net gain or loss on the disposition of the properties.

The operations of 38 buildings are classified as discontinued operations for both the three months ended June 30, 2013 and June 30, 2012. These 38 buildings consist of 12 office, 21 industrial, three medical office, and two retail properties. As a result, we classified operating income, before gain on sales, of \$30,000 and an operating loss, before gain on sales, of \$1.1 million in discontinued operations for the three months ended June 30, 2013 and 2012, respectively.

Of the properties included in discontinued operations, three were sold during the second quarter of 2013 and four were sold during the second quarter of 2012. The gains on disposal of these properties of \$83.7 million and \$3.1 million for the three months ended June 30, 2013 and 2012, respectively, are also reported in discontinued operations.

Comparison of Six Months Ended June 30, 2013 to Six Months Ended June 30, 2012

Rental and Related Revenue

The following table sets forth rental and related revenue from continuing operations by reportable segment for the six months ended June 30, 2013 and 2012, respectively (in thousands):

	Six Months Ended June 30,	
	2013	2012
Rental and Related Revenue:		
Industrial	\$234,226	\$214,411
Office	135,168	132,093
Medical Office	68,104	39,718
Other	6,479	6,090
Total Rental and Related Revenue from Continuing Operations	\$443,977	\$392,312

The following factors contributed to the increase in rental and related revenue from continuing operations:

We acquired 50 properties, of which 22 were industrial and 28 were medical office, and placed 13 developments in service from January 1, 2012 to June 30, 2013, which provided incremental revenues of \$45.6 million in the six months ended June 30, 2013, as compared to the same period in 2012.

The remaining increase in rental and related revenue from continuing operations was primarily due to increased rental expense recoveries that were attributable to an increase in snow removal costs, as the first quarter of 2012 was a significantly milder winter for many of our markets than was the first quarter of 2013, as well as due to an increase in recoverable repair and maintenance costs. Increased occupancy and rental rates within our existing base of properties also contributed, to a lesser extent, to the remaining increase in rental and related revenue from continuing operations.

Rental Expenses and Real Estate Taxes

The following table sets forth rental expenses and real estate taxes from continuing operations by reportable segment for the six months ended June 30, 2013 and 2012, respectively (in thousands):

	Six Months Ended June 30,	
	2013	2012
Rental Expenses:		
Industrial	\$24,053	\$20,070
Office	39,391	37,472
Medical Office	15,601	9,418
Other	2,135	1,484
Total Rental Expenses from Continuing Operations	\$81,180	\$68,444
Real Estate Taxes:		
Industrial	\$36,077	\$33,398
Office	16,957	16,595
Medical Office	6,927	4,084
Other	1,120	926
Total Real Estate Tax Expense from Continuing Operations	\$61,081	\$55,003

Overall, rental expenses from continuing operations increased by \$12.7 million in the six months ended June 30, 2013, compared to the same period in 2012. We recognized incremental rental expenses of \$6.7 million associated with the 50 properties acquired and the 13 developments placed in service since January 1, 2012. The remaining increase in rental expenses was primarily a result of an increase in snow removal costs, as the first quarter of 2012 was a significantly milder winter for many of our markets than the first quarter of 2013, an increase in repair and maintenance costs and a slight increase due to higher occupancy.

Overall, real estate taxes from continuing operations increased by \$6.1 million in the six months ended June 30, 2013, compared to the same period in 2012. This increase was primarily due to the 50 properties acquired and the 13 developments placed in service since January 1, 2012, which resulted in incremental real estate tax expense of \$5.7 million.

Service Operations

The following table sets forth the components of the Service Operations reportable segment for the six months ended June 30, 2013 and 2012, respectively (in thousands):

	Six Months Ended June 30,	
	2013	2012
Service Operations:		
General contractor and service fee revenue	\$98,197	\$132,575
General contractor and other services expenses	(83,533) (121,800
Total	\$14,664	\$10,775

The increase in our earnings from Service Operations in the first six months of 2013 compared to the first six months of 2012 was the result of a \$4.2 million recovery in the first quarter of 2013 from a sub-contractor on a previously completed third-party construction job. Third party construction volume decreased from the first six months of 2012 but third party construction projects were generally performed at higher margins during the first six months of 2013.

Depreciation and Amortization

Depreciation and amortization expense increased from \$176.0 million during the first six months of 2012 to \$194.8 million for the same period in 2013, primarily due to depreciation related to additions to our continuing operations asset base from properties acquired, which have shorter depreciable lives relative to developed properties, and developments placed in service in 2012 and the first six months of 2013.

Equity in Earnings

Equity in earnings represents our ownership share of net income or loss from investments in unconsolidated companies that generally own and operate rental properties. Equity in earnings increased from \$1.8 million in the first six months of 2012 to \$50.5 million for the same period in 2013. The increase was largely due to the sale of properties in two of our unconsolidated joint ventures in 2013. In January 2013, we sold the sole property within one of our unconsolidated joint ventures and recorded \$12.2 million to equity in earnings for our share of the net gain. In March 2013, we sold our interest in 17 properties within another of our unconsolidated joint ventures to our partner in that venture, resulting in \$36.6 million recorded to equity in earnings for our share of the net gain on sale.

Impairment Charges

We recognized an impairment charge of \$3.8 million during the six months ended June 30, 2013 related to 30 acres of land that was designated as held-for-sale at June 30, 2013 and sold in early July 2013 for \$22.2 million. This sale was the result of an unsolicited offer and we had not previously identified or actively marketed this land for disposition.

General and Administrative Expense

General and administrative expenses decreased from \$23.4 million for the first six months of 2012 to \$22.9 million for the same period in 2013. The following table sets forth the factors that led to the decrease in general and administrative expenses from the six months ended June 30, 2012 to the six months ended June 30, 2013 (in millions):

General and administrative expenses - six-month period ended June 30, 2012	\$23.4	
Decrease to overall pool of overhead costs	(1.6)
Increased absorption of costs by wholly owned leasing and development activities (1)	(3.0)
Reduced allocation of costs to Service Operations and Rental Operations (2)	4.1	
General and administrative expenses - six-month period ended June 30, 2013	\$22.9	

(1) Increased levels of wholly-owned development activity during the six months ended June 30, 2013 were partially offset by decreased levels of leasing activity, which resulted in a net overall increase in the absorption of overhead costs. We capitalized \$16.5 million and \$13.9 million of our total overhead costs to leasing and development, respectively, for consolidated properties during the six months ended June 30, 2013, compared to capitalizing \$19.4 million and \$8.1 million of such costs, respectively, for the six months ended June 30, 2012. Combined overhead costs capitalized to leasing and development totaled 36.3% and 32.2% of our overall pool of overhead costs for 2013 and 2012, respectively.

(2) The reduction in the allocation of overhead costs to Service Operations and Rental Operations resulted from reduced volumes of third-party construction projects as we increased our focus on wholly-owned development. See discussion of leasing/capital costs within the Uses of Liquidity section of this Item 2 for further discussion of our wholly-owned development expenditures.

Interest Expense

Interest expense allocable to continuing operations increased slightly from \$118.0 million in the first six months of 2012 to \$118.9 million in the first six months of 2013. Because we increased our total base of real estate assets throughout 2012, we carried a higher average level of unsecured borrowings during the six months ended June 30, 2013 as compared to the six months ended June 30, 2012, which resulted in increased interest costs. The increased overall interest costs were partially offset by increased capitalized interest due to the timing of development activities. During the six months ended June 30, 2013 we had more projects, which were financed in part by common equity issuances that met the criteria for capitalization of interest. We capitalized \$9.6 million of interest costs during the six months ended June 30, 2013 compared to \$3.3 million during the six months ended June 30, 2012.

Discontinued Operations

The operations of 38 buildings are classified as discontinued operations for both the six months ended June 30, 2013 and June 30, 2012. These 38 buildings consist of 12 office, 21 industrial, three medical office and two retail properties. As a result, we classified operating losses, before gain on sales, of \$700,000 and \$3.0 million in discontinued operations for the six months ended June 30, 2013 and 2012, respectively.

Of the properties included in discontinued operations, nine were sold during the first six months of 2013 and 17 were sold during the first six months of 2012. The gains on disposal of \$92.6 million and \$9.6 million for the six months ended June 30, 2013 and 2012, respectively, are reported in discontinued operations.

Liquidity and Capital Resources

Sources of Liquidity

We expect to meet our short-term liquidity requirements over the next twelve months primarily through working capital, net cash provided by operating activities and proceeds received from real estate dispositions. Our short-term liquidity requirements include payments of dividends and distributions as well as the capital expenditures needed to maintain our current real estate assets. We had \$21.4 million in cash and \$88.0 million of outstanding borrowings on the Partnership's \$850.0 million unsecured line of credit at June 30, 2013.

In addition to our existing sources of liquidity, we expect to meet long-term liquidity requirements, such as scheduled mortgage and unsecured debt maturities, property acquisitions, financing of development activities and other capital improvements, through multiple sources of capital including operating cash flow, proceeds from property dispositions, term loans and through accessing the public debt and equity markets.

Rental Operations

Cash flows from Rental Operations is our primary source of liquidity and provides a stable source of cash flow to fund operational expenses. We believe that this cash-based revenue stream is substantially aligned with revenue recognition (except for periodic straight-line rental income accruals and amortization of above or below market rents) as cash receipts from the leasing of rental properties are generally received in advance of, or a short time following, the actual revenue recognition.

We are subject to a number of risks related to general economic conditions, including reduced occupancy, tenant defaults and bankruptcies and potential reduction in rental rates upon renewal or re-letting of properties, any of which would result in reduced cash flow from operations.

Unsecured Debt and Equity Securities

We use the Partnership's unsecured line of credit as a temporary source of capital to fund development activities, acquire additional rental properties and provide working capital.

At June 30, 2013, we had on file with the SEC an automatic shelf registration statement on Form S-3 relating to the offer and sale, from time to time, of an indeterminate amount of debt and equity securities (including guarantees of the Partnership's debt securities by the General Partner). Equity securities are offered and sold by the General Partner and the net proceeds of such offerings are contributed to the Partnership in exchange for additional General Partner Units or Preferred Units. From time to time, we expect to issue additional securities under this automatic shelf registration statement to fund the repayment of long-term debt upon maturity and for other general corporate purposes.

On May 7, 2012, the General Partner entered into an at the market equity program that allowed it to issue new common shares, from time to time, with an aggregate offering price of up to \$200.0 million. The General Partner has fully utilized this program, issuing approximately 13.5 million common shares from inception of the program through May 20, 2013, resulting in gross proceeds of approximately \$200.0 million. The General Partner paid approximately \$4.0 million in commissions related to the sales of these common shares and, after deducting those commissions and other costs, generated net proceeds of approximately \$195.4 million from the offerings.

On May 21, 2013, the General Partner entered into a new at the market equity program that allows it to issue new common shares, from time to time, with an aggregate offering price of up to \$300.0 million. Through June 30, 2013, the General Partner has issued approximately 167,000 common shares under this program, resulting in gross proceeds of approximately \$3.1 million. The General Partner has paid approximately \$31,000 in commissions related to the sales of these common shares and, after deducting those commissions and other costs, generated net proceeds of approximately \$3.0 million from the offerings.

In January 2013, the General Partner completed a public offering of 41.4 million common shares at an issue price of \$14.25 per share, resulting in gross proceeds of \$590.0 million and, after underwriting fees and estimated offering costs, net proceeds of approximately \$571.9 million.

The indentures (and related supplemental indentures) governing our outstanding series of notes also require us to comply with financial ratios and other covenants regarding our operations. We were in compliance with all such covenants, as well as applicable covenants under our unsecured line of credit, as of June 30, 2013.

Sale of Real Estate Assets

We regularly work to identify, consider and pursue opportunities to dispose of non-strategic properties on an opportunistic basis and on a basis that is generally consistent with our strategic plans. Our ability to dispose of such properties on favorable terms, or at all, is dependent upon a number of factors including the availability of credit to potential buyers to purchase properties at prices that we consider acceptable. Although we believe that we have demonstrated our ability to generate significant liquidity through the disposition of non-strategic properties, potential future adverse changes to general market and economic conditions could negatively impact our further ability to dispose of such properties.

Transactions with Unconsolidated Joint Ventures

Transactions with unconsolidated joint ventures also provide a source of liquidity. From time to time we will sell properties to unconsolidated joint ventures, while retaining a continuing interest in that entity, and receive proceeds commensurate to those interests that we do not own. Additionally, unconsolidated joint ventures will from time to time obtain debt financing or sell properties and will then distribute to us, and our joint venture partners, all or a portion of the proceeds from such transactions. During the six months ended June 30, 2013, as the result of property sales within two of our unconsolidated joint ventures, we received capital distributions of \$89.2 million, representing a distribution of our share of the net sale proceeds, and our share of gains totaled \$48.8 million, which is included in equity in earnings.

Uses of Liquidity

Our principal uses of liquidity include the following:

- property investment;
- leasing/capital costs;
- dividends and distributions to shareholders and unitholders;
- long-term debt maturities;
- opportunistic repurchases of outstanding debt and preferred stock; and
- other contractual obligations.

Property Investment

We continue to pursue an asset repositioning strategy that involves increasing our investment concentration in industrial and medical office properties while reducing our investment concentration in suburban office properties. Pursuant to this strategy, we evaluate development and acquisition opportunities based upon market outlook, including general economic conditions, supply and long-term growth potential. Our ability to make future property investments, along with being dependent upon identifying suitable acquisition and development opportunities, is also dependent upon our continued access to our longer-term sources of liquidity, including issuances of debt or equity securities as well as generating cash flow by disposing of selected properties.

Leasing/Capital Costs

Tenant improvements and lease-related costs pertaining to our initial leasing of newly completed space, or vacant space in acquired properties, are referred to as first generation expenditures. Such first generation expenditures for tenant improvements are included within "development of real estate investments" in our Consolidated Statements of Cash Flows, while such expenditures for lease-related costs are included within "other deferred leasing costs." Cash expenditures related to the construction of a building's shell, as well as the associated site improvements, are also included within "development of real estate investments" in our Consolidated Statements of Cash Flows.

Tenant improvements and leasing costs to re-let rental space that had been previously under lease to tenants are referred to as second generation expenditures. Building improvements that are not specific to any tenant but serve to improve integral components of our real estate properties are also second generation expenditures. One of the principal uses of our liquidity is to fund the second generation leasing/capital expenditures of our real estate investments.

The following is a summary of our second generation capital expenditures by type of expenditure, as well as capital expenditures for the development of real estate investments and for other deferred leasing costs (in thousands):

	Six Months Ended June 30,	
	2013	2012
Second generation tenant improvements	\$16,838	\$12,964
Second generation leasing costs	18,354	16,462
Building improvements	1,941	1,465
Total second generation capital expenditures	\$37,133	\$30,891
Development of real estate investments	\$224,202	\$95,192
Other deferred leasing costs	\$17,633	\$16,453

The increase in capital expenditures for the development of real estate investments was the result of our increased focus on wholly owned development projects. We had wholly owned properties under development with an expected cost of \$468.3 million at June 30, 2013, compared to projects with an expected cost of \$354.9 million at June 30, 2012. We expect this increased level of wholly owned development activity to continue in the near future.

We capitalized \$16.5 million and \$19.4 million of overhead costs related to leasing activities, including both first and second generation leases, during the six months ended June 30, 2013 and 2012, respectively. We capitalized \$13.9 million and \$8.1 million of overhead costs related to development activities, including both development and tenant improvement projects on first and second generation space, during the six months ended June 30, 2013 and 2012, respectively. Combined overhead costs capitalized to leasing and development totaled 36.3% and 32.2% of our overall pool of overhead costs for the six months ended June 30, 2013 and 2012, respectively. Further discussion of the capitalization of overhead costs can be found herein, in the discussion of general and administrative expenses in the Three- and Six-Month Comparison sections of Management's Discussion and Analysis of Financial Condition and Results of Operations as well as in the Critical Accounting Policies section of Management's Discussion and Analysis of Financial Condition and Results of Operations in our combined Annual Report on Form 10-K for the year ended December 31, 2012 as filed with the SEC on February 22, 2013.

In addition to the capitalization of overhead costs discussed above, we also capitalized \$9.6 million and \$3.3 million of interest costs in the six months ended June 30, 2013 and 2012, respectively.

The following is a summary of our second generation capital expenditures by reportable operating segment (in thousands):

	Six Months Ended June 30,	
	2013	2012
Industrial	\$15,710	\$15,588
Office	20,637	15,012
Medical Office	786	254
Non-reportable segments	—	37
Total	\$37,133	\$30,891

Both our first and second generation expenditures vary significantly between leases on a per square foot basis, dependent upon several factors including the product type, the nature of a tenant's operations, the specific physical characteristics of each individual property and the market in which the property is located.

Dividend and Distribution Requirements

The General Partner is required to meet the distribution requirements of the Internal Revenue Code of 1986, as amended (the "Code"), in order to maintain its REIT status. Because depreciation is a non-cash expense, cash flow will typically be greater than operating income. We paid dividends or distributions of \$0.17 per common share or Common Unit in the first and second quarters of 2013 and the General Partner's board of directors declared dividends or distributions of \$0.17 per common share or Common Unit for the third quarter of 2013. Our future dividends or distributions will be declared at the discretion of the General Partner's board of directors and will be subject to our future capital needs and availability.

At June 30, 2013, the General Partner had three series of preferred stock outstanding. The annual dividend rates on the General Partner's preferred shares range between 6.5% and 6.625% and are paid in arrears quarterly. In February 2013, the General Partner redeemed all of its outstanding 8.375% Series O Cumulative Redeemable Preferred Shares ("Series O Shares") for a total payment of \$178.0 million, thus reducing its future quarterly dividend commitments by \$3.7 million.

Debt Maturities

Debt outstanding at June 30, 2013 had a face value totaling \$4.4 billion with a weighted average interest rate of 5.63% and matures at various dates through 2028. Of this total amount, we had \$3.1 billion of unsecured debt, \$1.2 billion of secured debt and \$88.0 million outstanding on our unsecured line of credit at June 30, 2013. Scheduled principal amortization and maturities of such debt totaled \$456.3 million for the six months ended June 30, 2013.

The following is a summary of the scheduled future amortization and maturities of our indebtedness at June 30, 2013 (in thousands, except percentage data):

Year	Future Repayments			Weighted Average Interest Rate of Future Repayments	
	Scheduled Amortization	Maturities	Total		
Remainder of 2013	\$9,303	\$82,295	\$91,598	5.64	%
2014	16,876	350,407	367,283	6.18	%
2015	14,999	531,346	546,345	5.69	%
2016	12,591	532,249	544,840	6.09	%
2017	10,100	558,444	568,544	5.87	%
2018	7,937	550,000	557,937	4.05	%
2019	6,936	518,438	525,374	7.97	%
2020	5,381	250,000	255,381	6.73	%
2021	3,416	9,047	12,463	5.59	%
2022	3,611	600,000	603,611	4.20	%
2023	3,817	250,000	253,817	3.75	%
Thereafter	10,361	50,000	60,361	7.02	%
	\$105,328	\$4,282,226	\$4,387,554	5.63	%

We anticipate generating capital to fund our debt maturities by using undistributed cash generated from our Rental Operations and property dispositions, and by raising additional capital from future debt or equity transactions.

Repurchases of Outstanding Debt and Preferred Stock

The General Partner paid \$178.0 million in February 2013 to redeem its Series O Shares at par value.

To the extent that it supports our overall capital strategy, we may purchase certain of our outstanding unsecured debt prior to its stated maturity or the General Partner may redeem or repurchase certain of its outstanding series of preferred stock.

Historical Cash Flows

Cash and cash equivalents were \$21.4 million and \$106.6 million at June 30, 2013 and 2012, respectively. The following highlights significant changes in net cash associated with our operating, investing and financing activities (in millions):

	Six Months Ended June 30,	
	2013	2012
General Partner		
Net Cash Provided by Operating Activities	\$198.2	\$140.4
Net Cash Used for Investing Activities	\$(309.1)	\$(329.5)
Net Cash Provided by Financing Activities	\$98.4	\$81.8
Partnership		
Net Cash Provided by Operating Activities	\$198.2	\$140.5
Net Cash Used for Investing Activities	\$(309.1)	\$(329.5)
Net Cash Provided by Financing Activities	\$98.4	\$81.8

Operating Activities

The receipt of rental income from Rental Operations continues to be our primary source of operating cash flows. The increase in cash flows from operations noted in the table above was primarily due to the increase in rental revenues from continuing operations, as we had a significantly lower base of income-generating assets through the first half of 2012 until the proceeds from a significant office portfolio disposition in late 2011 were fully re-invested. Also contributing to the increase is the timing of cash payments and receipts on third-party construction contracts.

Investing Activities

Investing activities are one of the primary uses of our liquidity. Development and acquisition activities typically generate additional rental revenues and provide cash flows for operational requirements. Highlights of significant cash sources and uses are as follows:

During the six months ended June 30, 2013, we paid cash of \$334.3 million for real estate acquisitions and \$23.2 million for undeveloped land acquisitions, compared to \$231.0 million and \$33.4 million, respectively, for real estate and undeveloped land acquisitions in the same period in 2012.

Real estate development costs increased to \$224.2 million for the six months ended June 30, 2013 from \$95.2 million for the same period in 2012 as a result of increasing our development activities for industrial and medical office properties.

Sales of land and depreciated property provided \$259.2 million in net proceeds for the six months ended June 30, 2013, compared to \$89.5 million for the same period in 2012.

For the six months ended June 30, 2013, we received \$89.2 million in capital distributions, which represented our share of the net proceeds from the sales of 17 office properties and one industrial property within two of our unconsolidated joint ventures, compared to no capital distributions received for the same period in 2012.

Financing Activities

The following items highlight some of the factors that account for the difference in net cash flow related to financing activities in the first six months of 2013, compared to the same period in 2012:

During the six months ended June 30, 2013, the General Partner issued 43.1 million common shares for net proceeds of \$601.9 million, compared to issuances of 11.1 million common shares for net proceeds of \$151.3 million during the six months ended June 30, 2012.

In February 2013, the General Partner redeemed all of the outstanding shares of its Series O Shares for a total payment of \$178.0 million. In March 2012, the General Partner redeemed all of the outstanding shares of its 6.950% Series M Cumulative Redeemable Preferred Shares ("Series M Shares") for a total payment of \$168.3 million.

In March 2013, we issued \$250.0 million of senior unsecured notes that bear interest at 3.625%, have an effective interest rate of 3.72%, and mature on April 15, 2023. Additionally, in May 2013 we issued and fully drew down on a term loan with an aggregate commitment of \$250.0 million that bears interest at a variable rate of LIBOR plus 1.35% and matures May 14, 2018. In June 2012, we issued \$300.0 million of senior unsecured notes that bear interest at 4.375% and mature in June 2022.

During the six months ended June 30, 2013, we repaid two unsecured notes with a weighted average stated rate of 5.68% at their maturity dates totaling \$425.0 million.

For the six months ended June 30, 2013, we decreased net borrowings on the Partnership's unsecured line of credit by \$197.0 million, compared to no net change in borrowings for the same period in 2012.

Changes in book overdrafts are classified as financing activities within our Consolidated Statements of Cash Flows. Book overdrafts were \$6.4 million as of June 30, 2013, compared to \$45.3 million as of December 31, 2012. We had no book overdrafts as of June 30, 2012.

In June 2012, a newly formed subsidiary, consolidated by both the General Partner and the Partnership, borrowed \$13.3 million on a secured note bearing interest at a variable rate of LIBOR plus 2.5% and maturing in June 2017.

- During the six months ended June 30, 2012, we repaid \$95.8 million of secured loans with the proceeds obtained from the issuance of senior unsecured debt as described above.

Contractual Obligations

Aside from changes in long-term debt, there have not been material changes in our outstanding commitments since December 31, 2012, as previously discussed in our 2012 Annual Report on Form 10-K.

Off Balance Sheet Arrangements - Investments in Unconsolidated Companies

We analyze our investments in unconsolidated joint ventures to determine if they meet the criteria for classification as a variable interest entity (a "VIE") and would require consolidation. We (i) evaluate the sufficiency of the total equity at risk, (ii) review the voting rights and decision-making authority of the equity investment holders as a group, and whether there are any guaranteed returns, protection against losses, or capping of residual returns within the group and (iii) establish whether activities within the venture are on behalf of an investor with disproportionately few voting rights in making this VIE determination. To the extent that we (i) are the sole entity that has the power to direct the activities of the VIE and (ii) have the obligation or rights to absorb the VIE's losses or receive its benefits, then we would be determined to be the primary beneficiary of the VIE and would consolidate it. At the end of each reporting period, we re-assess our conclusions as to which, if any, party within the VIE is considered the primary beneficiary. To the extent that our joint ventures do not qualify as VIEs, we further assess each joint venture partner's substantive participating rights to determine if the venture should be consolidated.

We have equity interests in unconsolidated partnerships and limited liability companies that primarily own and operate rental properties and hold land for development. These unconsolidated joint ventures are primarily engaged in the operations and development of industrial, office and medical office real estate properties. These investments provide us with increased market share and tenant and property diversification. The equity method of accounting is used for these investments in which we have the ability to exercise significant influence, but not control, over operating and financial policies. As a result, the assets and liabilities of these entities are not included on our balance sheet. Our investments in and advances to unconsolidated subsidiaries represented approximately 4% and 5% of our total assets as of June 30, 2013 and December 31, 2012, respectively. Total assets of our unconsolidated subsidiaries were \$2.0 billion and \$2.5 billion as of June 30, 2013 and December 31, 2012, respectively. The combined revenues of our unconsolidated subsidiaries totaled \$124.8 million and \$143.7 million for the six months ended June 30, 2013 and 2012, respectively.

We have guaranteed the repayment of certain secured and unsecured loans of our unconsolidated subsidiaries and the outstanding balances on the guaranteed portion of these loans totaled \$189.0 million at June 30, 2013.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to interest rate changes primarily as a result of our line of credit and our long-term borrowings. Our interest rate risk management objective is to limit the impact of interest rate changes on earnings and cash flows and to lower overall borrowing costs. To achieve our objectives, we borrow primarily at fixed rates. We do not enter into derivative or interest rate transactions for speculative purposes. We have two outstanding swaps, which fix the rates on two of our variable rate loans and are not significant to our Financial Statements at June 30, 2013.

Our interest rate risk is monitored using a variety of techniques. The table below presents the principal amounts (in thousands) of the expected annual maturities, weighted average interest rates for the average debt outstanding in the specified period, fair values (in thousands) and other terms required to evaluate the expected cash flows and sensitivity to interest rate changes.

Edgar Filing: DUKE REALTY CORP - Form 10-Q

	Remainder of 2013	2014	2015	2016	2017	Thereafter	Face Value	Fair Value
Fixed rate secured debt	\$89,548	\$113,906	\$205,456	\$391,794	\$102,017	\$309,404	\$1,212,125	\$1,308,795

Rate at June 30, 2013	N/A	N/A	N/A	N/A	N/A	1.55	%	
Unsecured line of credit	\$—	\$—	\$88,000	\$—	\$—	\$—	\$88,000	\$88,000
Rate at June 30, 2013	N/A	N/A	1.45	% N/A	N/A	N/A		

As the above table incorporates only those exposures that exist as of June 30, 2013, it does not consider those exposures or positions that could arise after that date. As a result, the ultimate impact of interest rate fluctuations will depend on future exposures that arise, our hedging strategies at that time to the extent we are party to interest rate derivatives, and interest rates. Interest expense on our unsecured line of credit and our variable rate unsecured notes will be affected by fluctuations in the LIBOR indices as well as changes in our credit rating. The interest rate at such point in the future as we may renew, extend or replace our unsecured line of credit will be heavily dependent upon the state of the credit environment.

Item 4. Controls and Procedures

Control and Procedures (General Partner)

(a) Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. These disclosure controls and procedures are further designed to ensure that such information is accumulated and communicated to management, including the Chief Executive Officer and the Chief Financial Officer, to allow timely decisions regarding required disclosure.

We carried out an evaluation, under the supervision and with the participation of management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Exchange Act Rules 13a-15 and 15d-15. Based upon the foregoing, the Chief Executive Officer and the Chief Financial Officer concluded that, as of the end of the period covered by this Report, our disclosure controls and procedures were effective.

(b) Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting during the period covered by this Report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

There have been no changes in our internal control over financial reporting during the period covered by this Report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Part II - Other Information

Item 1. Legal Proceedings

From time to time, we are parties to a variety of legal proceedings and claims arising in the ordinary course of our businesses. While these matters generally are covered by insurance, there is no assurance that our insurance will cover any particular proceeding or claim. We presently believe that all of these proceedings to which we were subject as of June 30, 2013, taken as a whole, will not have a material adverse effect on our liquidity, business, financial condition or results of operations.

Item 1A. Risk Factors

In addition to the information set forth in this Report, you also should carefully review and consider the information contained in our other reports and periodic filings that we make with the SEC, including, without limitation the information contained under the caption "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2012. The risks and uncertainties described in our 2012 Annual Report on Form 10-K are not the only risks that we face. Additional risks and uncertainties not currently known to us, or that we presently deem to be immaterial, also may materially adversely affect our business, financial condition and results of operations.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

(a) Unregistered Sales of Equity Securities

None

(b) Use of Proceeds

None

(c) Issuer Purchases of Equity Securities

From time to time, we repurchase our securities under a repurchase program that initially was approved by the board of directors and publicly announced in October 2001 (the "Repurchase Program"). On July 31, 2013, the board of directors adopted a resolution that amended and restated the Repurchase Program and delegated authority to management to repurchase a maximum of \$300.0 million of common shares, \$300.0 million of debt securities

and \$300.0 million of preferred shares (the "July 2013 Resolution"). The July 2013 Resolution will expire on April 30, 2014. We did not repurchase any securities through the Repurchase Program during the quarter ended June 30, 2013 and the maximum amounts set forth under the July 2013 Resolution for the repurchase of common shares, debt securities and preferred shares are remaining in the Repurchase Program.

Item 3. Defaults upon Senior Securities

During the period covered by this Report, we did not default under the terms of any of our material indebtedness, nor has there been any material arrearage of dividends or other material uncured delinquency with respect to any class of the General Partner's preferred shares.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

During the period covered by this Report, there was no information required to be disclosed by us in a Current Report on Form 8-K that was not so reported, nor were there any material changes to the procedures by which our security holders may recommend nominees to the General Partner's board of directors.
