Edgar Filing: PORTLAND GENERAL ELECTRIC CO /OR/ - Form 8-K

Item 7.01 Regulation FD Disclosure.

On December 21, 2015 Portland General Electric Company (PGE or Company) filed a report on Form 8-K disclosing certain developments concerning construction at the Carty Generating Station (Carty or the Project). In that report, the Company disclosed that construction activities at Carty ceased on December 14, 2015 and that on December 18, 2015 the Company declared its engineering, procurement and construction contractor in default under its construction agreement, terminated the construction agreement and took control of the Carty site. In that report, the Company also stated that it expected construction to resume during the week of December 21, 2015.

The Company is filing this report on Form 8-K to confirm that construction at Carty has resumed, with preparatory work beginning the week of December 21, 2015 and broader construction activity ramping up since that time. PGE is continuing to assess the status of the Project, including any changes in the expected cost and completion date. PGE is also continuing discussions with the sureties who provided a performance bond of \$145.6 million under the terminated construction agreement with the prior contractor to make a final determination of the sureties' obligations under the performance bond and the process for completion of construction. PGE plans to provide an update on the status of the Project during PGE's earnings call for the fourth quarter of 2015 in mid-February 2016.
