The Company grants pensions and seniority premiums that are established in defined pension plans that cover substantially all employees.

Pension benefits are determined on the basis of compensation to employees in their final year employment, their seniority, and their age at the time of retirement.

The Company established an irrevocable trust fund to cover the payment of these obligations and has the policy of making annual contributions to such fund. These contributions are deductible for Mexican corporate income tax purposes.

The transition liability, past services and variations in assumptions are being amortized over a period of twelve years, that is the estimated average remaining working-life of the Company's employees.
