Weighted Average Shares Outstanding	7,310,803	7,310,803

The estimated decrease in revenues between the two periods is due to a significant decrease in product prices over 2008 and the first quarter in 2009. Average oil prices have declined approximately 45% compared to the first quarter in 2009. Average gas prices have declined approximately 33%. In addition, gas sales volume decreased by approximately 45% from the same period in 2008. The decrease is from a drop in initial flush sales volumes from new horizontal Barnett Shale wells that were completed and placed into production in the fourth quarter of 2007 and the first quarter of 2008.
