Section 2. Financial Information.

Item 2.05. Costs Associated with Exit or Disposal Activities. On October 4, 2004, the Board of Directors ("Board") of Perma-Fix Environmental Services, Inc. (the "Company"), decided to discontinue operations of the facility in Detroit, Michigan, owned by its subsidiary, Perma-Fix of Michigan, Inc. The decision to discontinue operations at the Detroit facility was principally as a result of two fires that

significantly disrupted operations at the facility in 2003.

Revenue for the Detroit facility was \$5,739,000, or 6.8 percent, of total consolidated revenues for the year ended December 31, 2003, and \$1,398,000, or 3.8 percent, of total consolidated revenues for the six months ended June 30, 2004. The loss attributable to the Detroit facility, for the six months ended June 30, 2004, was \$1,017,000, and approximately \$524,000 for the year ended December 31, 2003.

The Company has estimated, based on current information available, that in the third quarter of 2004 it will record a one-time charge of approximately \$11,275,000 as a result of the discontinued operations of the Detroit facility. Estimated future cash outlays included in the one-time charge are approximately \$1,598,000 in one-time severance and pension plan withdrawal liability, and \$2,464,000 for environmental closure and remediation of the facility. The charge includes an estimated non-cash write down of its tangible assets of approximately \$4,723,000, and unamortized goodwill and other intangibles allocated to the facility from its time of acquisition of approximately \$2,490,000. The Company is in the process of calculating the amount of goodwill and other intangible assets allocable to the discontinued operations, which could effect a change in the actual amounts allocated to discontinued operations. Additionally, the one-time charge could change as a result of valuation of fixed assets, completion of an actuarial study of the withdrawal liability under the pension plan at the Detroit facility, completion of closure and remediation of the facility and recovery of any settlements, if any, of the insurance claims discussed below. The Company has also submitted insurance claims for the two fires at the facility, and is currently negotiating settlements for those claims, but at this time, the completion date and amount cannot be determined.

As a result of the discontinued operations, pursuant to standards set forth in FAS 142 "Goodwill and Other Intangible Assets", the Company is required to test the remaining goodwill and other intangible assets of its Industrial segment for potential impairment, and is currently in the process of completing that test.

Item 2.06. Material Impairment. See Item 2.05 above for a discussion of material impairments due to the Board's decision to discontinue operations of the Detroit facility, owned by the Company's subsidiary, Perma-Fix of Michigan, Inc.
