COLONIAL HIGH INCOME MUNICIPAL TRUST

ANNUAL REPORT

NOVEMBER 30, 2002

[PHOTO OF BUILDING]

PRESIDENT'S MESSAGE

DEAR SHAREHOLDER:

For a third consecutive year, the municipal bond market offered positive returns. In general, the bond market was aided by strong demand, as investors shied away from the stock market in light of economic uncertainty, corporate scandals and the threat of war. Relatively stable interest rates were also an aid to market performance. The Federal Reserve lowered short-term interest rates early in the period and again late in the period as the economy struggled and consumer confidence sagged. The volume of new municipal bonds increased as cities and states faced budget deficits and revenue shortfalls. However, investor demand for bonds also rose, and that helped support returns throughout the year.

The following report will provide you with more detailed information about the fund's performance and the investment strategies used by portfolio manager Maureen Newman. As always, we thank you for choosing Colonial High Income Municipal Trust and for giving us the opportunity to help you build a strong financial future.

/s/ Keith T. Banks

Keith T. Banks

Economic and market conditions change frequently. There is no assurance that the trends described in this report will continue or commence.

PORTFOLIO MANAGER'S REPORT

For the 12-month period ended November 30, 2002, Colonial High Income Municipal Trust generated a total return of 1.44%, based on net asset value. The trust underperformed its peer group, the Lipper High Yield Municipal Debt Funds

Edgar Filing: COLONIAL HIGH INCOME MUNICIPAL TRUST - Form N-30D

Category Average, which returned 2.53%.¹

The trust's underperformance was partially the result of our decision to reduce the trust's duration (a measure of interest rate sensitivity) by selling Treasury futures contracts. The use of the futures was driven by the longer duration that results from the leverage on the trust (the preferred shares). These short futures contracts positions held back the trust's results because US Treasuries actually significantly outperformed municipal bonds. (As the price of Treasury bonds went up, the value of the short futures contracts went down). However, the trust's leverage boosted the trust's income, which enhanced the income paid to common shareholders. During the period, high-quality municipal bonds outperformed lower-quality bonds, and the trust benefited from its large number of high-quality securities relative to the average of its Lipper category.

Toward the end of the fiscal year, we sold some of the high-quality issues that had performed well and invested the proceeds in lower-quality bonds, which were laggards. We believe that lower-quality bonds have the potential for strong performance, as economic growth improves. We found some of the best values in electric utility and certain housing development bonds, which are supported by property taxes.

We have structured the portfolio to take advantage of a slowly improving economy and a stable or slightly rising interest-rate environment. Because most states project large budgetary imbalances, we have been cautious about investing in sectors that depend on state government spending and that may be affected by budget cuts. We believe some of the best opportunities will come from the essential services sectors, such as utilities, and water and sewer.

/s/ Maureen G. Newman

Maureen G. Newman

Maureen G. Newman is the portfolio manager of Colonial High Income Municipal Trust and a senior vice president of Colonial Management Associates, Inc., an affiliate of Columbia Management Group. Ms. Newman received her BA in economics from Boston College and her MBA from Babson College. She is a Chartered Financial Analyst, a member of the Boston Security Analysts Society and former chairman of the National Federation of Municipal Analysts.

Past performance is no guarantee of future investment results. The principal value and investment returns will fluctuate, resulting in a gain or loss on sale.

Tax-exempt investing offers current tax-free income, but it also involves certain risks. The value of the trust shares will be affected by interest rate changes and the creditworthiness of issues held in the trust. Investing in high yield securities offers the potential for high current income and attractive total return, but involves certain risks. Lower-rated bond risks include default of the issuer and rising interest rates. Interest income from certain tax-exempt bonds may be subject to the federal alternative minimum tax for individuals and corporations.

¹ Lipper Inc., a widely respected data provider in the industry, calculates an average total return for mutual funds with similar investment objectives as those of the trust.

Quality breakdowns are calculated as a percentage of total investments, including short-term obligations. Ratings shown in the quality breakdown represent the highest rating assigned to a particular bond by one of the following nationally-recognized rating agencies: Standard & Poor's Corporation, Moody's Investors Service, Inc. or Fitch Investors Service, Inc. Sector breakdowns are calculated as a percentage of net assets.

Because the trust is actively managed, there can be no guarantee that the trust will continue to maintain this quality breakdown or invest in these sectors in the future.

ABOUT DURATION

Duration is a measure, expressed in years, of interest-rate sensitivity. It's similar to maturity, but because it takes into consideration the entire stream of future principal and interest payments and how long it will take to collect them, it is a more complex and also a more accurate measure of a trust's exposure to changing interest rates.

Because we are active duration managers, we tend to use duration as a tactical tool to anticipate or respond to interest rate changes. Because bond prices move in the opposite direction that interest rates are moving, we lower duration when we expect interest rates to rise and we raise duration when we expect interest rates to fall. This adjustment provides the potential to benefit performance. If we are wrong and interest rates rise after we lengthen duration or fall after we shorten duration, trust performance could be hurt.

INVESTMENT PORTFOLIO (CONTINUED)

November 30, 2002

NOTES TO INVESTMENT PORTFOLIO:

- (a) Zero coupon bond.
- (b) Denotes a restricted security, which is subject to restrictions on resale under federal securities laws. At November 30, 2002, these securities amounted to \$3,270,031, which represents 1.0% of net assets.

Additional information on these restricted securities is as follows:

SECURITY	ACQUISITION DATE	ACQUISITION COST
CA Statewide Community Development Authority: Crossroads School for Arts & Science, Series 1998, 6.000% 08/01/28	08/31/98	\$1,310,000
Eskaton Village - Grass Valley, Series 2000, 8.250% 11/15/31	09/08/00	1,000,000
MN White Bear Lake, Birch Lake Townhome Project, Series 1989B (a) 07/15/19	07/19/89	703,000
VI Government Refinery, Hovenssa Coker Project, Series 2002, 6.500% 07/01/21	11/15/02	375,000
		----- \$3,388,000 -----

- (c) Settlement of this security is on a delayed delivery basis.
- (d) These issuers are in default of certain debt covenants. Income is not being fully accrued.
- (e) This security is exempt from registration under Rule 144A of the Securities Act of 1933 and may be resold in transactions exempt from registration, normally to qualified institutional buyers. At November 30, 2002, the value of these securities amounted to \$5,512,238, which represented 1.7% of net assets.
- (f) Interest rates on variable rate securities change periodically. The rate listed is as of November 30, 2002.
- (g) The Trust has been informed that each issuer has placed direct obligations of the U.S. Government in an irrevocable trust, solely for the payment of the principal and interest.
- (h) This security, or a portion thereof with a market value of \$3,038,083, is being used to collateralize open futures contracts.
- (i) As of November 30, 2002, the Trust held securities of certain issuers that have filed for bankruptcy protection under Chapter 11 representing 1.2% of net assets. These issuers are in default of certain debt covenants. Income

Edgar Filing: COLONIAL HIGH INCOME MUNICIPAL TRUST - Form N-30D

is not being fully accrued.

- (j) Variable rate demand notes are considered short-term obligations. Interest rates change periodically on specified dates. These securities are payable on demand and are secured by either letters of credit or other credit support agreements from banks. The rates listed are as of November 30, 2002.
- (k) Cost for generally accepted accounting principles is \$329,587,850. Cost for federal income tax purposes is \$329,342,032. The difference between cost for generally accepted accounting principles and cost on a tax basis is related to amortization/accretion tax elections on fixed-income securities.
- (l) As of November 30, 2002, the Trust held bonds of United Airlines, Inc. representing 0.2% of net assets. United Airlines, Inc. filed for bankruptcy protection under Chapter 11 on December 9, 2002.
- (m) As of November 30, 2002, the Trust held bonds of US Airways, Inc. representing 0.2% of net assets. US Airways, Inc. filed for bankruptcy protection under Chapter 11 on August 11, 2002.

Short futures contracts open at November 30, 2002:

NOTES TO FINANCIAL STATEMENTS

November 30, 2002

NOTE 1. ACCOUNTING POLICIES

ORGANIZATION:

Colonial High Income Municipal Trust (the "Trust") is a Massachusetts business trust registered under the Investment Company Act of 1940 (the "Act"), as amended, as a diversified, closed-end management investment company. The Trust's

Edgar Filing: COLONIAL HIGH INCOME MUNICIPAL TRUST - Form N-30D

investment goal is to provide high current income, generally exempt from federal income taxes. The Trust's secondary investment goal is to seek total return. The Trust is authorized to issue an unlimited number of common shares of beneficial interest and 4,800 Auction Preferred Shares ("APS").

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. The following is a summary of significant accounting policies consistently followed by the Trust in the preparation of its financial statements.

SECURITY VALUATION AND TRANSACTIONS:

Debt securities generally are valued by a pricing service based upon market transactions for normal, institutional-size trading units of similar securities. Such services may use various pricing techniques which take into account appropriate factors such as yield, quality, coupon rate, maturity, type of issue, trading characteristics and other data, as well as broker quotes. Certain securities, which tend to be more thinly traded and of lesser quality, are priced based on fundamental analysis of the financial condition of the issuer and the estimated value of any collateral. Valuations developed through pricing techniques may vary from the actual amounts realized upon sale of the securities, and the potential variation may be greater for those securities valued using fundamental analysis. When management deems it appropriate, an over-the-counter or exchange bid quotation is used.

Futures contracts are valued at the settlement price established each day by the board of trade or exchange on which they are traded.

Options are valued at the last reported sale price, or in the absence of a sale, the mean between the last quoted bid and asking price.

Short-term obligations with a maturity of 60 days or less are valued at amortized cost.

Investments for which market quotations are not readily available, or quotations which management believes are not appropriate, are valued at fair value under procedures approved by the Board of Trustees.

Security transactions are accounted for on the date the securities are purchased, sold or mature.

Cost is determined and gains (losses) are based upon the specific identification method for both financial statement and federal income tax purposes.

The Trust may trade securities on other than normal settlement terms. This may increase the risk if the other party to the transaction fails to deliver and causes the Trust to subsequently invest at less advantageous prices.

FEDERAL INCOME TAXES:

Consistent with the Trust's policy to qualify as a regulated investment company and to distribute all of its taxable and tax-exempt income, no federal income tax has been accrued.

INTEREST INCOME, DEBT DISCOUNT AND PREMIUM:

Interest income is recorded on the accrual basis. Original issue discount is accreted to interest income over the life of the security with a corresponding increase in the cost basis. Premium is amortized against interest income with a corresponding decrease in the cost basis.

Edgar Filing: COLONIAL HIGH INCOME MUNICIPAL TRUST - Form N-30D

Effective December 1, 2001, the Trust adopted the provisions of the AICPA Audit and Accounting Guide for Investment Companies and began accreting market discount on all debt securities. The cumulative effect of this accounting change did not impact total net assets of the Trust, but resulted in reclassifications as follows, based on securities held by the Trust on December 1, 2001:

COST -----	NET UNREALIZED DEPRECIATION -----
\$186,128	\$ (186,128)

The effect of this change, for the year ended November 30, 2002, was as follows:

NET INVESTMENT INCOME -----	NET REALIZED LOSS -----	NET UNREALIZED DEPRECIATION -----
\$110,851	\$ (51,161)	\$ (59,690)

The Statement of Changes in Net Assets and Financial Highlights for prior periods have not been restated to reflect this change.

DISTRIBUTIONS TO SHAREHOLDERS:

Distributions to common shareholders are recorded on the ex-date.

Distributions to preferred shareholders are recorded daily and are payable at the end of each dividend period. Each dividend payment period for the APS is generally seven days. The applicable dividend rate for the APS on November 30, 2002 was 1.26% for Series T and 1.35% for Series W. For the year ended November 30, 2002, the Trust declared dividends to Auction Preferred shareholders amounting to \$1,763,487 representing an average APS dividend rate of 1.47%.

15

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

November 30, 2002

NOTE 2. FEDERAL TAX INFORMATION

Income and capital gain distributions are determined in accordance with income tax regulations, which may differ from generally accepted accounting principles. These differences are primarily due to differing treatments for discount accretion on debt securities, straddle deferrals, mark-to-market on futures contracts, current year distribution payable, capital loss carryforwards, non-deductible expenses, distribution reclassifications, expired capital loss carryforward and defaulted bond interest. Reclassifications are made to the Trust's capital accounts to reflect income and gains available for distribution (or available capital loss carryforwards) under income tax regulations.

For the year ended November 30, 2002 permanent items identified and reclassified among the components of net assets are as follows:

UNDISTRIBUTED NET INVESTMENT INCOME	ACCUMULATED NET REALIZED LOSS	PAID-IN CAPITAL
---	-------------------------------------	--------------------

Edgar Filing: COLONIAL HIGH INCOME MUNICIPAL TRUST - Form N-30D

-----	-----	-----
\$19,830	\$6,575,610	\$ (6,595,440)

Net investment income, net realized gains (losses) and net assets were not affected by this reclassification.

The tax character of distributions paid to common and APS shareholders during the year was as follows:

ORDINARY INCOME	TAX-EXEMPT INCOME
-----	-----
\$101,473	\$17,220,353

As of November 30, 2002, the components of distributable earnings on a tax basis were as follows:

UNDISTRIBUTED TAX-EXEMPT INCOME	UNREALIZED DEPRECIATION
-----	-----
\$3,667,224	\$ (6,432,207)

The following capital loss carryforwards are available to reduce taxable income arising from future net realized gains on investments, if any, to the extent permitted by the Internal Revenue Code:

YEAR OF EXPIRATION	CAPITAL LOSS CARRYFORWARD
-----	-----
2003	\$ 5,267,623
2004	2,815,387
2005	5,926,653
2007	3,941,668
2008	14,340,573
2009	4,198,716
2010	12,980,738

	\$ 49,471,358

NOTE 3. FEES AND COMPENSATION PAID TO AFFILIATES

MANAGEMENT FEE:

Colonial Management Associates, Inc. (the "Advisor") is the investment advisor of the Trust and furnishes accounting and other services and office facilities for a fee to be paid monthly at the annual rate of 0.75% of the Trust's average weekly net assets, including assets applicable to the APS.

PRICING AND BOOKKEEPING FEES:

The Advisor is responsible for providing pricing and bookkeeping services to the Trust under a Pricing and Bookkeeping Agreement. Under a separate agreement (the "Outsourcing Agreement"), the Advisor has delegated those functions to State Street Bank and Trust Company ("State Street"). The Advisor pays fees to State Street under the Outsourcing Agreement.

Under its pricing and bookkeeping agreement with the Trust, the Advisor receives from the Trust an annual flat fee of \$10,000, paid monthly, and in any month that the Trust's average weekly net assets, including assets applicable to the APS, are more than \$50 million, a monthly fee equal to the average weekly net

Edgar Filing: COLONIAL HIGH INCOME MUNICIPAL TRUST - Form N-30D

assets, including assets applicable to the APS, of the Trust for that month multiplied by a fee rate that is calculated by taking into account the fees payable to State Street under the Outsourcing Agreement. For the year ended November 30, 2002, the net asset based fee rate was 0.036%. The Trust also pays out-of-pocket costs for pricing services.

OTHER:

The Trust pays no compensation to its officers, all of whom are employees of the Advisor or its affiliates.

The Trust's Independent Trustees may participate in a deferred compensation plan which may be terminated at any time. Obligations of the plan will be paid solely out of the Trust's assets.

The Trust has an agreement with its custodian bank under which \$2,035 of custody fees were reduced by balance credits for the year ended November 30, 2002. The Trust could have invested a portion of the assets utilized in connection with the expense offset arrangement in an income-producing asset if it had not entered into such an agreement.

NOTE 4. PREFERRED SHARES

The Trust currently has outstanding 4,800 APS (2,400 shares each of Series T and W). The APS are redeemable at the option of the Trust on any dividend payment date at the redemption price of \$25,000 per share, plus an amount equal to any dividends accumulated on a daily basis unpaid through the redemption date (whether or not such dividends have been declared).

16

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

November 30, 2002

Under the Act, the Trust is required to maintain asset coverage of at least 200% with respect to the APS as of the last business day of each month in which any APS are outstanding. Additionally, the Trust is required to meet more stringent asset coverage requirements under the terms of the APS and in accordance with the guidelines prescribed by the rating agencies. Should these requirements not be met, or should dividends accrued on the APS not be paid, the Trust may be restricted in its ability to declare dividends to common shareholders or may be required to redeem certain of the APS. At November 30, 2002, there were no such restrictions on the Trust.

Under Emerging Issues Task Force ("EITF") promulgation Topic D-98, Classification and Measurement of Redeemable Securities, which was issued on July 19, 2001, preferred securities that are redeemable for cash or other assets are classified outside of permanent equity to the extent that the redemption is at a fixed or determinable price and at the option of the holder or upon the occurrence of an event that is not solely within the control of the issuer. Subject to the guidance of the EITF, the Trust's preferred shares, which were previously classified as a component of net assets, have been reclassified outside of permanent equity (net assets) in the accompanying financial statements. Prior year amounts have also been reclassified to conform with this presentation. The impact of this reclassification creates no change to the net assets available to common shareholders.

NOTE 5. PORTFOLIO INFORMATION

Edgar Filing: COLONIAL HIGH INCOME MUNICIPAL TRUST - Form N-30D

INVESTMENT ACTIVITY:

During the year ended November 30, 2002, purchases and sales of investments, other than short-term obligations, were \$48,000,090 and \$56,797,645, respectively.

Unrealized appreciation (depreciation) at November 30, 2002, based on cost of investments for federal income tax purposes, was:

Gross unrealized appreciation	\$ 15,225,298
Gross unrealized depreciation	(22,585,272)

Net unrealized depreciation	\$ (7,359,974)

OTHER:

There are certain risks arising from geographic concentration in any state. Certain revenue or tax related events in a state may impair the ability of certain issuers of municipal securities to pay principal and interest on their obligations.

The Trust may focus its investments in certain industries, subjecting it to greater risk than a trust that is more diversified.

The Trust may invest in municipal and U.S. Treasury futures contracts and purchase and write options on futures. The Trust will invest in these instruments to hedge against the effects of changes in the value of portfolio securities due to anticipated changes in interest rates and/or market conditions, for duration management, or when the transactions are economically appropriate to the reduction of risk inherent in the management of the Trust and not for trading purposes. The use of futures contracts and options involves certain risks, which include: (1) imperfect correlation between the price movement of the instruments and the underlying securities, (2) inability to close out positions due to different trading hours, or the temporary absence of a liquid market, for either the instrument or the underlying securities or (3) an inaccurate prediction by the Advisor of the future direction of interest rates. Any of these risks may involve amounts exceeding the amount recorded in the Trust's Statement of Assets and Liabilities at any given time.

Upon entering into a futures contract, the Trust deposits cash or securities with its custodian in an amount sufficient to meet the initial margin requirement. Subsequent payments are made or received by the Trust equal to the daily change in the contract value and are recorded as variation margin payable or receivable and offset in unrealized gains or losses. The Trust recognizes a realized gain or loss when the contract is closed or expires. Refer to the Trust's Investment Portfolio for a summary of open futures contracts at November 30, 2002.

Restricted securities are securities that may only be resold upon registration under federal securities laws or in transactions exempt from such registration. In some cases, the issuer of restricted securities has agreed to register such securities for resale, at the issuer's expense either upon demand by the Trust or in connection with another registered offering of the securities. Many restricted securities may be resold in the secondary market in transactions exempt from registration. Such restricted securities may be determined to be liquid under criteria established by the Board of Trustees. The Trust will not incur any registration costs upon such resale. The Trust's restricted securities are valued at the price provided by dealers in the secondary market or, if no market prices are available, at the fair value as determined in good faith using methods approved by the Board of Trustees.

Edgar Filing: COLONIAL HIGH INCOME MUNICIPAL TRUST - Form N-30D

- (a) The Trust changed its fiscal year end from December 31 to November 30.
- (b) Effective December 1, 2001, the Trust adopted the provisions of the AICPA Audit and Accounting Guide for Investment Companies and began accreting market discount on all debt securities. The effect of this change, for the year ended November 30, 2002, was to increase the ratio of net investment income to average net assets from 8.31% to 8.36% and increase the net investment income (adjusted for dividend payments to preferred shareholders) from 7.48% to 7.53%. The impact to net investment income and net realized and unrealized loss per share was less than \$0.01. Per share data and ratios for periods prior to November 30, 2002, have not been restated to reflect this change in presentation.
- (c) Per share data was calculated using average shares outstanding during the period.
- (d) The per share net investment income amount does not reflect the period's reclassification of differences between book and tax basis net investment income.
- (e) Total return at market value assuming all distributions reinvested at prices calculated in accordance with the Dividend Reinvestment Plan.
- (f) Not annualized.
- (g) The benefits derived from custody credits and directed brokerage arrangements, if applicable, had an impact of less than 0.01%.
- (h) Ratios reflect average net assets available to common shares only.
- (i) Annualized.

REPORT OF INDEPENDENT ACCOUNTANTS

TO THE TRUSTEES AND THE SHAREHOLDERS OF COLONIAL HIGH INCOME MUNICIPAL TRUST

In our opinion, the accompanying statement of assets and liabilities, including the investment portfolio, and the related statements of operations and of changes in net assets and the financial highlights present fairly, in all material respects, the financial position of Colonial High Income Municipal Trust (the "Trust") at November 30, 2002, and the results of its operations, the changes in its net assets and its financial highlights for the periods indicated, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as "financial statements") are the responsibility of the Trust's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with auditing standards generally accepted in

Edgar Filing: COLONIAL HIGH INCOME MUNICIPAL TRUST - Form N-30D

the United States of America, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at November 30, 2002 by correspondence with the custodian and brokers, provide a reasonable basis for our opinion.

20

UNAUDITED INFORMATION

FEDERAL INCOME TAX INFORMATION

99.41% of the distributions from net investment income will be treated as exempt income for federal income tax purposes.

21

DIVIDEND REINVESTMENT PLAN

COLONIAL HIGH INCOME MUNICIPAL TRUST

Shareholders may elect to have all distributions of dividends and capital gains automatically reinvested by EquiServe Trust Company, N.A. (the "Plan Agent"), as agent under the Trust's Dividend Reinvestment Plan (the "Plan"). Pursuant to the Plan, the provisions of which are described below, shareholders not making such an election will receive all such amounts in cash paid by check mailed directly to the shareholder by the Plan Agent, as the dividend paying agent.

If the Trustees of the Trust declare a dividend or determine to make a capital gain distribution payable either in shares of the Trust or in cash, as shareholders may have elected, non-participants in the Plan will receive cash and participants in the Plan will receive the equivalent in shares of the Trust. If the market price of the shares on the payment date for the dividend or distribution is equal to or exceeds their net asset value, participants will be issued shares of the Trust at the higher of net asset value of 95% of the market price. If net asset value exceeds the market price of Trust shares at such time, or if the Trust declares a dividend or other distribution payable only in cash,

Edgar Filing: COLONIAL HIGH INCOME MUNICIPAL TRUST - Form N-30D

the Plan Agent will, as agent for Plan participants, buy Trust shares in the open market, on the New York Stock Exchange or elsewhere, for the participants' accounts. If, before the Plan Agent has completed its purchases, the market price exceeds the net asset value of the Trust's shares, the average per share purchase price paid by the Plan Agent may exceed the net asset value of the Trust's shares, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Trust. In circumstances in which the net asset value of Trust shares is more than 5% below their market price, participants in the Plan will be issued shares through the Plan at a price exceeding net asset value.

Participants in the Plan may withdraw from the Plan upon written notice to the Plan Agent. When a participant withdraws from the Plan or upon termination of the Plan as provided below, certificates for whole shares credited to his account under the Plan will be issued and a cash payment will be made for any fraction of a share credited to such account. A shareholder's notice of election to participate in or withdraw from the Plan must be received by the Plan Agent before the record date for a dividend in order to be given effect with respect to that dividend.

In the case of shareholders such as banks, brokers or nominees holding shares for others who are the beneficial owners of those shares, the Plan Agent will administer the Plan on the basis of the number of shares certified from time to time by the shareholder of record as representing the total amount registered in such shareholder's name and held for the account of beneficial owners who are to participate in the Plan.

There is no charge to Plan participants for reinvesting dividends or distributions. The Plan Agent's fees for the handling of the reinvestment of dividends and distributions will be paid by the Trust. There will be no brokerage charges with respect to shares issued directly by the Trust as a result of dividends or distributions payable either in stock or in cash. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open market purchases in connection with the reinvestment of dividends or distributions.

The automatic reinvestment of dividends and distributions will not relieve participants of any income tax that may be payable on such dividends or distributions.

The Plan may be amended or terminated on 30 days' written notice to Plan participants. All correspondence concerning the Plan should be directed to EquiServe Trust Company, N.A., by mail at P.O. Box 43010, Providence, RI 02940-3010, or by phone at 1-800-730-6001.
