THE FOLLOWING IS A PORTION OF HECLA'S 2007 YEAR-END EARNINGS NEWS RELEASE WHICH WAS ISSUED ON FEBRUARY 21, 2008.

NEWS RELEASE

HECLA REPORTS HIGHEST REVENUE AND CASH FLOW IN 117-YEAR

HISTORY: RECORD LOW SILVER CASH COSTS

For the Period Ended December 31, 2007

For Release: February 21, 2008

COEUR D'ALENE, IDAHO -- Hecla Mining Company ([HL:NYSE](#)) today reported 2007 income applicable to common shareholders of \$52.2 million, or 43 cents per common share, on revenue of \$222.6 million. This compares to 2006 income of \$68.6 million, or 57 cents per common share, on revenue of \$218.9 million. Revenue and cash provided by operations for 2007 set record highs for Hecla. Earnings in 2007 were at their second-highest levels in the company's 117-year history, just behind 2006 results, despite a significant reduction in gold production from the La Camorra unit as mining transitioned to a single deposit. Hecla's average total cash cost for silver in 2007 was the lowest on record, at *negative* \$2.81 per ounce, after by-product credits. The 2007 financial results included a non-cash charge in the second quarter of \$46 million for environmental accruals, offset by a gain of \$63 million on the sale of the Hollister Development Block. In 2006, earnings were positively impacted by a gain of \$41 million on sales of investments and other assets.

...

Hecla also announced last week that it has signed an agreement to acquire substantially all of the assets of Independence Lead Mines Company (ILM), located in northern Idaho's Silver Valley. ILM's assets include the West Independence property and ILM's claims pertaining to the DIA agreement, which included a future 18.5% royalty obligation to ILM once all development and capital costs related to the Lucky Friday Expansion Area had been recouped. The transaction is subject to approval by shareholders of ILM. Baker said, "This transaction not only guarantees that Hecla will receive 100% of the future profits of the Lucky Friday mine, but also helps to consolidate our land position in the Silver Valley. In exchange for the assets, Hecla will distribute 6,936,884 of its common shares to ILM shareholders. The transaction is expected to close in the second quarter.
