**PROPOSAL 1
ELECTION OF DIRECTORS**

The Board of Directors of Power-One, Inc. seeks your Proxy for use at our Annual Meeting of Stockholders. We will hold the meeting according to our Notice of Annual Meeting, unless we adjourn to a later date and/or time.

This Proxy Statement and the accompanying Notice of Annual Meeting discuss the purposes of the Annual Meeting. We have sent these Proxy solicitation materials on or about April 4, 2003 to all stockholders entitled to vote at the Annual Meeting.

*** VOTING AND SOLICITATION**

Each share of common stock has one vote on all matters submitted to our stockholders at the Annual Meeting. Stockholders of record as of the close of business on March 21, 2003 will receive notice of and may vote at the Annual Meeting. Eligible stockholders may vote by marking, signing, and returning the Proxy card.

There were 82,330,947 shares of our common stock outstanding as of March 21, 2003. The closing sale price on that date was \$4.99 per share. Our common stock is traded on the Nasdaq National Market® under the symbol "PWER."

Required Voting. The presence at the Annual Meeting, in person or by proxy, of the holders of a majority of the outstanding shares of our common stock will constitute a quorum for the meeting. Assuming such a quorum is present, the two nominees for director positions receiving the most votes will be elected, and the affirmative votes of a majority of votes cast is necessary to approve the other proposals presented to our stockholders at the Annual Meeting.

The inspector of elections that we appoint will count all votes cast in person or by proxy at the Annual Meeting. We will treat abstentions as shares that are present and entitled to vote to determine the presence of a quorum, but not as votes cast to determine the approval of any matter submitted to a vote of the stockholders.

If you hold your shares in "street name" through a broker or other nominee, and you do not give your broker or nominee specific instructions on how to vote your shares, your broker or nominee will be permitted to exercise voting discretion with respect to the matters proposed to be acted upon.

Under Delaware law, if a broker or nominee indicates on its proxy that it does not have discretionary authority to vote on a particular matter as to certain shares, those shares will be counted for general quorum purposes but will not be counted in determining the number of shares necessary for approval of the particular matter.

Revoking Your Proxy. Any Proxy may be revoked at any time before it is actually voted at the Annual Meeting. Regardless of the method of voting used, you may revoke your Proxy by doing one of the following:

Deliver a written notice of revocation, dated later than the Proxy, before the vote is taken at the Annual Meeting.

Execute a later dated Proxy before the vote is taken at the Annual Meeting.

Vote in person at the Annual Meeting (your attendance at the Meeting, by itself, does not revoke your earlier Proxy).

Edgar Filing: POWER ONE INC - Form DEF 14A

Any written notice of revocation, or later Proxy, should be delivered to Power-One, Inc., 740 Calle Plano, Camarillo, CA 93012, Attention: Corporate Secretary. Or, you may hand deliver a written revocation notice, or a later Proxy, to our Corporate Secretary at the Annual Meeting before we begin voting.

* DEADLINE FOR STOCKHOLDER PROPOSALS FOR THE FISCAL YEAR 2003 ANNUAL MEETING

Any stockholder who intends to present a proposal at our Annual Meeting for fiscal year 2003 must deliver the proposal to us at our principal executive offices not later than December 5, 2003 for inclusion in our Proxy

Statement and form of Proxy relating to the Meeting.

Stockholder proposals to be presented at an Annual Meeting of Stockholders but not submitted for inclusion in our Proxy Statement for that Meeting must be received by our Corporate Secretary not less than 90, nor more than 120 days prior to the Meeting. However, if less than 100 days' notice from the date of the Meeting is given to stockholders, then notice by the stockholder of any proposal need only be received within 10 days from the date on which notice of the Meeting is given. Stockholder proposals must contain certain information required by our bylaws and comply with applicable legal requirements. Any stockholder may obtain a copy of our bylaws by submitting a request to our Corporate Secretary at the address set forth on the cover of this Proxy Statement.

Directors are to be elected at the Annual Meeting of Stockholders. The nominees proposed for election as Class I Directors are Steven J. Goldman and Jay Walters, both of whom are currently directors. If re-elected, Mr. Goldman and Mr. Walters will serve until the Annual Meeting of stockholders in 2006, or until their respective successors are elected and qualified.

See "Security Ownership of Certain Beneficial Owners and Management" on page 19 for information on the stock ownership of each director candidate, plus information on stock ownership of all current directors and executive officers as a group. There are no family relationships among any of our directors or executive officers.

Proxies in the enclosed form will be voted, unless authority is withheld, for Mr. Goldman and Mr. Walters. Mr. Goldman and Mr. Walters have each indicated their willingness to serve if elected, but if either should become unable to serve, we will vote the Proxies we receive for the election of such other person as our directors shall recommend. We are not aware of any reason why either of our nominees will be unable or will decline to continue to serve as a director. Background information on Mr. Goldman and Mr. Walters appears below.

*** DIRECTOR COMPENSATION**

Effective January 1, 2003, the Board of Directors approved a revised cash compensation plan for outside directors. This action was taken following study of comparable director compensation structures, with attention to the increased responsibilities and demands upon directors related to statutory and regulatory changes implemented in 2002. Pursuant to the revised cash compensation structure effective January 1, 2003, in consideration for acting as a director to the Company, we pay each non-employee director as follows:

Annual retainer- \$20,000

Supplemental retainers-

Chairman Audit Committee- \$15,000

Chairman other Committee- \$5,000

Meeting fees (Board or Committee)-

In person- \$3,000/day

Telephonic- \$1,000/day for meetings over two hours, or which involve substantial advance preparation.

Under the prior director cash compensation plan, we paid each non-employee director \$5,000 per year, as well as \$3,000 per meeting for all Board of Directors meetings attended. In addition, Dr. Brändli received approximately \$9,000 in 2002 for serving on the boards of our Swiss subsidiaries.

All members of the Board of Directors (with the exception of Dr. Brändli due to Swiss income tax issues) elected to defer 100% of their eligible compensation as provided for and allowed under the 2001 Deferred Compensation Plan described in detail on page 14. During calendar 2002, this deferral was applicable to three regular meetings held during 2002.

We also reimbursed our directors for reasonable out-of-pocket expenses incurred in connection with attending board and committee meetings.

Our non-employee directors have also received, and are expected to continue to receive, options to purchase our common stock. In January 2002, the Board appointed Messrs. Walters and Melliar-Smith as members of a special technology committee of the Board. For service on this committee to be performed in 2002, the Board approved a grant of nonqualified stock options to each committee member to purchase 12,500 shares of the Company's Common Stock. The options were granted at the fair market value as of the date of grant, and vested in full on January 25, 2003.

*** AUDIT COMMITTEE REPORT***

The Audit Committee of the Board of Directors is responsible for monitoring the integrity of Power-One, Inc.'s consolidated financial statements, its system of internal controls and the independence and performance of its independent auditors. We also recommend to the Board of Directors, subject to stockholder ratification, the selection of the Company's independent auditors.

Edgar Filing: POWER ONE INC - Form DEF 14A

The Audit Committee is composed of four non-employee directors who meet the current NASDAQ independence requirements and operates under a written charter adopted and approved by the Board of Directors. Committee member Kendall Bishop, a former partner of O'Melveny & Myers LLP, a law firm which has performed legal services for the Company in the past, and is expected to do so in the future, retired as a partner of the firm effective January 2003 and is now of counsel to the firm. The Audit Committee believes that Mr. Bishop qualifies as an independent director under the current NASDAQ independence requirements.

*

This section of the proxy statement shall not be deemed to be incorporated by reference by any general statement incorporating by reference this proxy statement into any of our filings pursuant to the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, except to the extent we specifically incorporate the section by reference therein, and shall not be deemed soliciting material or otherwise deemed filed under either such Acts.

5

All Audit Committee members possess experience or have backgrounds which make each financially sophisticated. The Audit Committee, in concert with the Board of Directors, is evaluating the experience and expertise of its members to determine if one or more members of the Committee qualifies as an "audit committee financial expert" under applicable rules adopted by the U.S. Securities and Exchange Commission pursuant to the Sarbanes-Oxley Act of 2002 (the "Act"). The Audit Committee is committed to ensuring that at least one of its members fully qualifies as an "audit committee financial expert" at such time as final rules so require.

The Audit Committee has reviewed the relevant requirements of the Act, the proposed rules of the U.S. Securities and Exchange Commission and the proposed new listing standards of the NASDAQ Stock Market regarding audit committee procedures and responsibilities. The Audit Committee believes its existing procedures and responsibilities currently comply with the requirements of these rules and standards, and has therefore not amended its charter to date. The charter was published with our Proxy Statement dated April 4, 2001. However, the Audit Committee will continue to evaluate all applicable requirements, rules and listing standards and will modify its policies, procedures, membership, and Charter as may be appropriate as these requirements, rules and listing standards evolve.

Management is responsible for the Company's financial reporting process, including its system of internal control, and for the preparation of consolidated financial statements in accordance with U.S. generally accepted accounting principles. The independent auditors are responsible for auditing those financial statements. Our responsibility is to monitor and review these processes. We are not, however, professionally engaged in the practice of accounting or auditing. We rely on the information provided to us and on the representations made by management and the independent auditors. The Audit Committee will retain independent experts to advise and consult directly with the Audit Committee in the event the Audit Committee desires an independent opinion or review of any information provided or any representations made by management and the independent auditors.

In this context, we held six meetings during fiscal year 2002. The meetings were designed, among other things, to facilitate and encourage communication among the Audit Committee, management and the independent auditors, Deloitte & Touche LLP. We discussed with the independent auditors the overall scope and plans for their audit. We met with the independent auditors, with and without management present, to discuss the results of their examinations and their evaluations of the Company's system of internal controls.

In carrying out our responsibilities, we reviewed and discussed with management and the Company's outside auditors all financial statements prior to their issuance. We were advised by management and the auditors that all of the financial statements were prepared in accordance with U.S. generally accepted accounting principles. As part of our review, we discussed with management the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments and the clarity of the disclosures in the financial statements. We also requested the Company's auditors to express their judgment on these matters.

We also discussed with the independent auditors matters required to be discussed with audit committees under U.S. generally accepted auditing standards, including, among other things, matters related to the conduct of the audit of the consolidated financial statements and the matters required to be discussed by Statement on Auditing Standards No. 61, as amended (Communication with Audit Committees).

6

The independent auditors also provided to us the written disclosures and the letter required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees), and we discussed with the independent auditors their independence from

Edgar Filing: POWER ONE INC - Form DEF 14A

Power-One, Inc. When considering Deloitte & Touche LLP's independence, we considered whether their provision of services to the Company beyond those rendered in connection with their audit and review of the consolidated financial statements was compatible with maintaining their independence. Toward that end, the Audit Committee has established policies to review and pre-approve any non-audit services proposed to be provided by the independent auditors, and to review and pre-approve the scope, workplan and fees for the audit services to be provided by the independent auditors.

Based on our review and these meetings, discussions and reports, and subject to the limitations on our role and responsibilities referred to above and in the Audit Committee Charter, we recommended to the Board of Directors that Power-One, Inc.'s audited consolidated financial statements for the fiscal year ended December 31, 2002 be included in the Annual Report on Form 10-K. We have also recommended the selection of Power-One, Inc.'s independent auditors, and, based on our recommendation, the Board has selected Deloitte & Touche LLP as the independent auditors for the fiscal year ending December 31, 2003, subject to stockholder ratification.

Jay Walters, Chairman
Dr. Hanspeter Brändli
Kendall R. Bishop
Mark Melliar-Smith

RECOMMENDATION

The Board of Directors recommends a vote FOR the election of the Class I Directors listed above. We will vote Proxies received by us in favor of the nominees unless a contrary choice is indicated.

7

PROPOSAL 2 RATIFICATION OF APPOINTMENT OF AUDITORS

The Board of Directors, following the recommendation of the Audit Committee, has appointed Deloitte & Touche LLP, independent auditors, to audit our consolidated financial statements for the 2003 fiscal year. Services provided to us and our subsidiaries by Deloitte & Touche LLP in 2002 included the examination of our financial statements for the fiscal year ended December 31, 2002, limited reviews of quarterly reports, services related to filings with the Securities and Exchange Commission, consultations on various tax matters, and general accounting consultation. This appointment is being presented to the stockholders for ratification at the meeting. If the appointment is not ratified, the Board of Directors will reconsider its selection.

Deloitte & Touche LLP has audited our consolidated financial statements since 1993.

Representatives of Deloitte & Touche LLP are expected to be present at the Meeting. They will have the opportunity to address the audience at the Meeting, and will be available to answer appropriate questions from stockholders.

2001 STOCK OPTION PLAN SUMMARY OF MATERIAL TERMS

Edgar Filing: POWER ONE INC - Form DEF 14A

The 2001 Stock Option Plan (the "2001 Plan") was adopted in September 2001, per applicable regulations and exchange listing rules, as an equity compensation plan not approved by security holders. The 2001 Plan is administered by the Compensation Committee of the Board of Directors.

We established the 2001 Plan to attract, reward and retain talented and experienced key employees and certain other eligible persons (each, an "Eligible Employee") who may be granted awards from time to time by the Compensation Committee.

Awards under the 2001 Plan may only be nonstatutory stock options. No awards under the 2001 Plan may be made to any Director of the Company or to any person who is an officer within the meaning of Section 16 of the Securities Exchange Act of 1934, as amended.

The maximum term of options granted under the 2001 Plan is 10 years after the initial date of the award. No award under the 2001 Plan can be made after September 28, 2011. Options granted under the 2001 Plan are granted at the "Fair Market Value" (i.e. the closing price of our stock on the date the option is granted).

No more than 2,500,000 shares of Common Stock may be issued in respect of awards under the 2001 Plan (subject to anti-dilution adjustments).

Subject to approval of the Compensation Committee for an alternative arrangement for a given option grant, no award may vest and become exercisable more quickly than 25% per year. Generally, awards that are not yet exercisable will terminate upon the date an Eligible Employee is no longer employed by the Company, and those that are exercisable will remain exercisable for ninety (90) days after the end of employment.

9

All references to shares and options in this section have been adjusted to reflect the three-for-two and two-for-one splits to our common stock completed during 2000.

STOCK OPTION GRANTS 2002

Edgar Filing: POWER ONE INC - Form DEF 14A

This table shows grants made in 2002 to our Top 5 Compensated Executive Officers, and hypothetical gains for the options at the end of their anticipated ten-year term. We have arbitrarily assumed annualized growth rates of the market price of our common stock over the exercise price of the option of five percent (5%) and ten percent (10%), running from the date the option was granted to the end of the option term. Actual gains, if any, on option exercises depend on the future performance of our common stock and overall market conditions.

EMPLOYMENT CONTRACTS, TERMINATION OF EMPLOYMENT, CHANGE-IN-CONTROL ARRANGEMENTS AND CERTAIN TRANSACTIONS

William T. Yeates serves as our President and Chief Operating Officer under the terms set forth in a letter from Mr. Goldman related to the commencement of Mr. Yeates's employment with the Company. Pursuant to the letter, in addition to his salary and our standard employee benefits package, Mr. Yeates is eligible for a bonus based on the achievement of specific performance goals.

Pursuant to the letter, Mr. Yeates was also granted non-qualified stock options to purchase an aggregate of 675,000 shares of our common stock. Of these, 450,000 options become exercisable over four years at the rate of 25% per year; the remaining 225,000 vested and became exercisable on December 31, 2001.

In addition, we have made certain loans to Mr. Yeates in connection with his initial employment which commenced in January, 2000. These loans were in existence prior to the passage of the Sarbanes-Oxley Act of 2002 (the "Act"). The Act now prohibits loans by the Corporation to its executive officers. However, loans in existence as of the effective date of the Act were exempted from the prohibitions of the Act.

One non-interest-bearing loan in the amount of \$100,000, plus additional non-interest-bearing loans relating to new hire relocation expenses totaling approximately \$80,000, were forgiven on the third anniversary of Mr. Yeates' hire (i.e. on January 13, 2003). These loans related to amounts advanced to Mr. Yeates in connection with commencement of employment and relocation, and were forgiven per the original terms of the loan arrangements, specifically Mr. Yeates' continued employment with the Corporation as of January 13, 2003. A separate loan in the amount of \$660,000 remains outstanding, bears interest at the rate of 5.5% per annum and is due and payable on January 13, 2004 per its original terms. There has been no material modification of any term of this loan, nor renewal of this loan, after the effective date of the Act.

Finally, if we experience a change in control, as defined in the letter to include certain mergers and other triggering events, Mr. Yeates will receive a one-time payment equal to twice his most recent salary and annual bonus, and up to 337,500 of his stock options will vest and become immediately exercisable.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires our officers and directors and persons who own more than 10% of a registered class of our equity securities to file reports of ownership and changes in ownership with the SEC. These persons are required by regulation of the SEC to furnish us with copies of all Section 16(a) forms they file.

Edgar Filing: POWER ONE INC - Form DEF 14A

Based solely on our review of the copies of such forms that we received, or written representations from certain reporting persons, except as noted in the following sentence, we believe that during 2002 our officers, directors and greater than 10% beneficial owners complied with all applicable Section 16(a) filing requirements, inclusive of the accelerated reporting timelines mandated by the Sarbanes-Oxley Act of 2002. One late filing on Form 4 was made by Mr. Schnopp relating to a purchase of Company securities which occurred in September 2002.

OTHER COMPENSATION ARRANGEMENTS

* 2001 DEFERRED COMPENSATION PLAN

Summary of the Plan. Based upon recommendations of the consultants retained by the Compensation Committee, as well as advice and counsel from outside legal and accounting personnel, in October 2001 the Compensation Committee recommended adoption of, and the Board of Directors approved the implementation of, the 2001 Deferred Compensation Plan (the "Plan"). Under this Plan, full time employees (inclusive of executive officers) of the Company were eligible to make an irrevocable election to defer a percentage of their base salary (not to exceed 50% of base salary) for the period commencing October 22, 2001 and continuing through October 20, 2002 (the "Deferral Period"). Under the Plan, a non-employee director of the Company could irrevocably elect to defer up to 100% of their director compensation (annual retainer plus fees) for meetings scheduled during the Deferral Period (i.e. four (4) regular meetings). For any meetings of the Board of Directors during the Deferral Period in excess of the four (4) regular meetings scheduled at the outset of the Deferral Period, directors were paid meeting fees in cash.

At the end of the Deferral Period, a participant's base salary returned to its original pre-deferral amount. For non-employee directors, payment of annual retainer and meeting fees returned to cash payments after the end of the Deferral Period.

Effect of Deferral Election/Entitlement to Stock Units. Each participant under the Plan (i.e. an individual electing to defer salary or director compensation), received "credit" at the start of the Deferral Period for a given number of Stock Units, based upon the dollar amount of salary/percentage of director compensation deferred. A Stock Unit is a bookkeeping entry that represents one fictional share of the Company's common stock. A Stock Unit is used as a device to determine the number of shares of common stock of the Company that were distributed to a participant. The total number of Stock Units credited to a participant has been determined using this formula:

$$\text{Stock Unit} = (\text{compensation deferred} / \$6) \times 2$$

Stock Units had no voting rights, rights to dividends, or any other shareholder rights.

Vesting in Stock Units. Vesting in the credited Stock Units was tied to continued employment with or service to the Company. One-half (50%) of the total Stock Units credited to a participant as of the start of the Deferral Period vested on a pro-rata basis during the Deferral Period. For employees, vesting of this 50% of total Stock Units was prorated weekly over the 52 weeks of the Deferral Period. For non-employee directors, vesting of their 50% of total compensation payable for full service during the Deferral Period was tied to months of service during the Deferral Period coupled with meetings attended during the Deferral Period.

For both employees and non-employee directors who participated in the Plan, the other 50% of Stock Units were credited to the individual at the start of the Deferral Period vested in full on the first day in January 2003 after the Company released its actual earnings for the fiscal year ending December 31, 2002. This earnings release date was referred to in the Plan as the "Payment Date". Our formal "Payment Date" per the Plan was January 31, 2003.

Distribution of Common Stock to Participants. A participant who was actively employed by or providing director service to the Company as of the Payment Date received whole shares of common stock of the Company equal to the equivalent number (i.e. 100%) of total Stock Units credited to and vested in the participant on the Payment Date. For example, if based upon the percentage of salary elected to be deferred, a participant had 10,000 Stock

14

Units credited to their Stock Unit account, they received 10,000 shares of the Company's common stock on the Payment Date.

Edgar Filing: POWER ONE INC - Form DEF 14A

In the event the employment of a participant (or service of a non-employee director) ended prior to the Payment Date, a distribution of a given number of whole shares of common stock was to be made within thirty (30) days of the date of termination/end of service, based on the circumstances of termination of employment or ending of non-employee director service. If the relationship between the Company and the participant ended due to death, disability, or (for an employee) termination of employment by the Company for other than cause, the participant received a prorated number of shares of common stock per the vesting schedules noted above in "Vesting in Stock Units" computed based upon 100% of the Stock Units credited to the participant. If the relationship ended due to voluntary resignation, or due to termination of the relationship by the Company for cause, the participant received a prorated number of shares of common stock per the vesting schedules noted above in "Vesting in Stock Units" computed based upon 50% of the total Stock Units credited to the participant.

Upon the ultimate distribution of common stock to a participant, the shares are beneficially owned by the participant, unrestricted and may be sold or transferred at the discretion of the participant.

* 2003 RESTRICTED STOCK GRANTS

Following analysis performed by third party compensation consultants retained at the direction of the Compensation Committee, the Committee authorized and approved the grant of certain restricted stock to the executive officers and other members of management of the Company. The grants were issued January 8, 2003, and will be reported as required in the Company's Proxy Statement next year. The grants were issued as a means of supplementing cash compensation which the Committee determined, per the analysis of the compensation consultants, to be below industry medians for the applicable officers. The number of shares granted to each recipient equated in total value as of date of grant with the cash compensation shortfall determined for each affected officer, based on the closing price of the Company's Common Stock as of January 8, 2003 (\$6.02).

The grants vest in equal installments over eight quarters, commencing April 30, 2003, and every three months thereafter until January 31, 2005. Vesting is contingent upon ongoing full time employment of the recipient.

COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION*

The Compensation Committee (the "Committee") consists of Mr. Jacoby, Dr. Brändli and Mr. Walters, each of whom is an independent, non-employee director. The Committee determines the cash portion of the Chief Executive Officer's salary, sets the range within which the other executive officers' salaries should vary and determines equity awards for all executive officers. Additionally, from time to time the Committee undertakes to retain outside compensation experts to review current compensation and equity award plans, and to make recommendations to the Board of Directors for the adoption of such additional equity plans, and for grants under such plans.

This section of the proxy statement shall not be deemed to be incorporated by reference by any general statement incorporating by reference this proxy statement into any of our filings pursuant to the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, except to the extent we specifically incorporate the section by reference therein, and shall not be deemed soliciting material or otherwise deemed filed under either such Acts.

Our executive compensation program is designed to attract, retain and motivate the senior executive talent necessary to effectively manage the Company. The program also aims to support the creation of stockholder value and is designed to make pay consistent with performance. When establishing salaries, bonuses and stock or equity awards for executive officers, the Committee considers the individual's role, leadership responsibilities and performance during the last year and the amount of compensation paid to executive officers in similar positions at companies that compete with us for executives.

The Committee's belief historically has been that the Company's performance generally is reflected in its stock price. Therefore, the Company had historically generally paid base salaries and cash bonuses that have been in the lower half for executive officers at similar companies. This cash compensation has been supplemented with equity awards that are tied to the performance of the Company's stock.

However, commencing with the hiring of Mr. Yeates in 2000, and of Mr. Holliday in 2001, the Company has recognized the market realities of attracting and retaining experienced executives which require more competitive base salaries. The Committee recognizes that the base salaries of selected executive officers, inclusive of the Chief Executive Officer, are well below comparable levels per surveys and related research performed by compensation consultants at the direction of the Committee. As prior equity awards for long tenured officers mature, or expire without value being realized, and as the market comparisons on executive compensation continue to reflect an imbalance in the

Edgar Filing: POWER ONE INC - Form DEF 14A

compensation packages paid by the Company, the Committee believes that some adjustments in base salaries and other compensation elements will be required in the near term to ensure that all executive officers are compensated in line with current market rates.

As an interim step toward adjusting base compensation with industry norms, and as additional equity compensation, the Committee approved the grant of restricted stock to the named executive officers, among others, effective January 8, 2003. A summary of this action may be found starting at page 15 of this Proxy Statement under the heading of "2003 Restricted Stock Grants".

The Committee has continued to believe that the incorporation of equity awards tied to the performance of the Company's stock is an essential element of overall pay packages. As such, periodic awards to executive officers of stock options and other forms of equity compensation continue to be offered when deemed appropriate by the Committee.

The Committee believes that the executive officers have performed extremely well during times of unprecedented challenges. Their performance in the face of these challenges was a major consideration in setting compensation for 2002. While the Committee has been pleased with the performance of the executive officers in the face of ongoing economic challenges, the Committee believes that bonuses, incentive payments and other performance based awards must be tied directly to, and come as a reward for, clearly measurable performance associated directly with key financial metrics. Additionally, the Committee believes that the executive officers must have a significant portion of their total compensation potential aligned, via equity incentives, with shareholder interests to ensure that shareholder value remains a primary objective and criteria in the management of the Company.

2002 Compensation of the Chief Executive Officer. The Committee, in concert with the Board of Directors, evaluates the compensation of the Chief Executive Officer on an annual basis. In establishing the Chief Executive Officer's compensation for 2002, the Committee recognized the Company's results in 2001 and 2002 have been heavily impacted by a variety of external factors. These factors have included the

16

major general economic downturn, plus the significant contraction in several of the Company's primary markets, including enterprise networking and telecommunications service providers. Mr. Goldman's base salary remained unchanged from 2001. Additionally, in light of overall Company financial performance during 2002, no form of cash incentive or bonus which would be tied directly to measurable advances or year over year comparisons of financial metrics was paid to Mr. Goldman. No stock options or comparable incentive payments were made or issued to Mr. Goldman in 2002.

Base Salary. The Committee reviews the base salaries for all executive officers. None of the Company's executive officers received any increase in base salary in 2002 compared to their annualized salary in 2001.

Management Bonus Plan. Under our Management Bonus Plan, our executive officers can earn bonuses based on the Company's attaining specified EBITDA (earnings before interest, taxes, depreciation, amortization and acquisition-related charges) objectives during a particular fiscal year. Under this plan, which covers certain key employees (inclusive of executive officers), our executive officers can earn bonuses in amounts up to predetermined percentages of their base salaries. Mr. Goldman and Mr. Yeates are eligible to receive bonuses of up to 100% of their salaries. The remainder of our executive officers can earn bonuses of up to 80% of their salaries. Bonuses are based on actual EBITDA realized by the Company during any fiscal year as a percentage of planned EBITDA. Based on the Company's financial performance in 2002, none of our executive officers were awarded bonuses under the Management Bonus Plan for 2002, as indicated on the "Summary Compensation Table" on page 10.

Discretionary Bonus Plan. Under the Discretionary Bonus Plan, our executive officers can receive, at the sole discretion of the Committee, a bonus of up to 50% of their base salary. This bonus is based upon the Committee's determination of an individual's contribution to the Company in conjunction with the Company's (i) significantly exceeding projected earnings per share, (ii) having accelerated sales growth, (iii) executing acquisitions in an efficient manner, or (iv) achieving such other goals as the Board of Directors or the Committee may determine. The Committee did not award our executive officers any bonuses under the Discretionary Bonus Plan for 2002.

Equity Based Compensation. The Committee will provide long-term incentives linked to an increase in stock value by awarding stock options (at fair market value as of the date of grant) and other equity based awards at times it believes are appropriate. Outstanding stock options of our executive officers which were granted in 1996 and 1998 are exercisable in various increments on the second through seventh anniversaries of the date of grant, but such options may be exercisable on earlier dates if certain financial goals are met. In 1997, 1999 and 2000 we reached the applicable financial targets, and an additional 20% of each officer's outstanding options having provisions for earlier vesting became exercisable. All options granted after March 1, 1999 are exercisable in 25% increments over four years, unless otherwise approved by the Committee.

Edgar Filing: POWER ONE INC - Form DEF 14A

In 2000, the Committee recommended, and the Board of Directors approved, an amendment to our Amended and Restated 1996 Stock Incentive Plan that allows the Chairman to grant options, other than to officers or directors, at fair market value within aggregate limits approved by the Committee. The most recent aggregate limit was established by the Committee in 2001, set at 1.5 million options to be issued at the discretion of the Chairman. Pursuant to this authorization, 801,100 options were granted by the Chairman in 2001, and 369,650 options were granted by the Chairman in 2002.

The Deductibility of Executive Compensation. Section 162(m) of the Internal

17

Revenue Code does not permit us to deduct cash compensation in excess of \$1,000,000 paid to the Chief Executive Officer and the four other most highly compensated executive officers during any taxable year, unless such compensation meets certain requirements. We believe that our stock incentive plan and our Management Bonus Plan (as previously described) comply with the rules under Section 162(m) for treatment as performance-based compensation, allowing us to deduct fully compensation paid to executives under these plans. The 2001 Deferred Compensation Plan does not fall under the rules of Section 162(m) for treatment as performance-based compensation. Depending on the fair market value of our stock on the Payment Date under that plan, we may not be able to fully deduct compensation paid to executives under that plan.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

No member of our Compensation Committee has a relationship that would constitute an interlocking relationship with executive officers or directors of another entity.

Mr. Jacoby, who is a member of the Board of Directors and the Compensation Committee, serves as an officer of Stephens Group, Inc., our largest stockholder, and Stephens Inc., a financial advisor to us and an affiliate of Stephens Group, Inc. During the fiscal year, we paid Stephens Inc. \$76,000 for financial advisory services. We expect to pay Stephens Inc. for additional financial advisory services that it has or may perform for us during 2003. All compensation paid to Stephens Inc. has been on terms that we believe to be fair and reasonable for the services performed.

Several of our executive officers maintain individual brokerage accounts with Stephens, Inc. In addition, from time to time Stephens Group, Inc. has made opportunities available to Mr. Goldman to invest in various private partnerships. None of Mr. Goldman's investments made in these circumstances via the Stephens Group, Inc., individually or in the aggregate, have been material to him.
