PROXY STATEMENT

Mailed on or about March 2, 2016

General Information

The proxy that accompanies this statement is solicited by the Board of Directors of SIFCO Industries, Inc. (the "Company" or "SIFCO") for use at the 2016 Annual Meeting of the Shareholders of the Company to be held March 18, 2016, or at any adjournment thereof. This proxy statement was first mailed on or about March 2, 2016 to the Shareholders of record on February 25, 2016.

Any shareholder giving a proxy for the meeting may revoke it before it is exercised by giving a later dated proxy or by giving notice of revocation to the Company in writing before or at the 2016 Annual Meeting. However, the mere presence at the 2016 Annual Meeting of the shareholder granting a proxy will not revoke the proxy. Unless revoked by notice as above stated, shares represented by valid proxies will be voted on all matters to be acted upon at the 2016 Annual Meeting. On any matter or matters with respect to which the proxy contains instructions for voting, such shares will be voted in accordance with such instructions. Abstentions and broker non-votes will be deemed to be present for the purpose of determining a quorum for the 2016 Annual Meeting. Abstentions will not affect the vote on Proposal No. 1, but will be counted as "votes against" with respect to proposal No. 2 and 3. Brokers who have not received voting instructions from beneficial owners generally may vote in their discretion with respect to the ratification of the selection of the independent registered public accounting firm, but will not be able to vote with respect to Proposal No. 1 and 3. Broker non-votes will not affect the outcome of any proposals brought before the 2016 Annual Meeting.

The cost of solicitation of proxies in the form accompanying this statement will be borne by the Company. Proxies will be solicited by mail, electronically by email or by telephone. The choice to receive future proxy materials by email will save the Company the cost of printing and mailing documents to shareholders and will reduce the impact of annual meetings on the environment. A shareholder's election to receive proxy materials by email will remain in effect until the shareholder terminates it.

Although the Company does not contemplate that any of the nominees will be unavailable for election, if a vacancy in the slate of nominees is occasioned by death or other unexpected occurrence, it is currently intended that the remaining directors will, by the vote of a majority of their number, designate a different nominee for election to the Board at the 2016 Annual Meeting.

Board Recommendation - The Board of Directors recommends that you vote FOR the election of all nominees. Unless you instruct otherwise on your proxy card or in person, your proxy will be voted in accordance with the Board's recommendation.

Nominees for election to the Board of Directors

Set forth below for each nominee for election as a director is a brief statement, including the age, principal occupation and business experience, and any directorships held. The members of the Nominating and Governance Committee have recommended the persons listed below as nominees for the Board of Directors, all of whom presently are directors of the Company.

The Nominating and Governance Committee reviews and evaluates individuals for nomination, to stand for election as a director, who are recommended to the Nominating and Governance Committee in writing by any of our shareholders pursuant to the procedure outlined below in the section titled "Process for Selecting and Nominating Directors" on the same basis as candidates who are suggested by our current or past directors, executive officers, or other sources. In considering individuals for nomination to stand for election, the Nominating and Governance Committee will consider: (1) the current composition of directors and how they function as a group; (2) the skills, experiences or background, and the personalities, strengths, and weaknesses of current directors; (3) the value of contributions made by individual directors; (4) the need for a person with specific skills, experiences or background to be added to the Board; (5) any anticipated vacancies due to retirement or other reasons; and (6) other factors may enter into the nomination decision. The Nominating and Governance Committee endeavors to select nominees that contribute requisite skills and professional experiences in order to advance the performance of the Board of Directors and establish a well rounded Board with diverse views that reflect the interests of our shareholders. The Nominating and Governance Committee considers diversity as one of a number of factors in identifying nominees for directors, however, there is no formal policy in this regard. The Nominating and Governance Committee views diversity broadly to include diversity of experience, skills and viewpoint, in addition to traditional concepts of diversity, such as race and gender.

When considering an individual candidate's suitability for the Board, the Nominating and Governance Committee does not prescribe minimum qualifications or standards for directors, however, the Nominating and Governance Committee looks for directors who have personal characteristics, educational backgrounds and relevant experience that would be expected to help further the goals of both the Board and the Company. The Nominating and Governance Committee will review the extent of the candidate's demonstrated success in his or her chosen business, profession, or other career and the skills that the candidate would be expected to add to the Board. The Nominating and Governance Committee may, in certain cases, conduct interviews with the candidate and/or contact references, business associates, other members of boards on which the candidate serves or other appropriate persons to obtain additional information. The Nominating and Governance Committee will make its determinations on whether to nominate an individual candidate based on the Board's then-current needs, the merits of that candidate and the

qualifications of other available candidates. The types of key attributes and/or experience that the Nominating and Governance Committee believes the composite board membership needs to possess to ensure the existence of a functionally effective board are: (i) proven leadership capabilities; (ii) familiarity with the organizational and operational requirements of medium and large-sized manufacturing organizations; (iii) strategic planning; (iv) experience in mergers and acquisitions and an understanding of financial markets; (v) experience in finance and accounting; (vi) familiarity with the aerospace, defense, energy and related industries and markets, (vii) experience with public company compensation matters and structure; and (viii) service on the boards of directors of other companies – both public and private. SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934 (“Exchange Act”) requires the Company’s officers and directors, and persons who own more than ten percent (10%) of a registered class of the Company’s equity securities, to file reports of ownership and changes in ownership with the U.S. Securities and Exchange Commission (“SEC”). Officers, directors and greater than ten percent (10%) shareholders are required by SEC regulations to furnish the Company with copies of all Section 16(a) forms they file.

Based solely upon a review of Forms 3, 4 and 5 furnished to the Company during, or with respect to, the fiscal year ended September 30, 2015, the Company believes that no director, officer, beneficial owner of more than ten percent (10%) of its outstanding Common Shares or any other person subject to Section 16(a) of the Exchange Act failed to file on a timely basis during fiscal 2015 any reports required by 16(a) of the Exchange Act.

CORPORATE GOVERNANCE AND BOARD OF DIRECTORS MATTERS

Board of Directors - The Company's Board of Directors held six (6) scheduled meetings during fiscal 2015. The Board of Directors' standing committees are the Audit, Compensation, Nominating and Governance Committees. From time-to-time, the Board may determine that it is appropriate to form a special committee of its independent directors to address a particular matter(s) not specific to one of its standing committees. Directors are expected to attend Board meetings, the annual shareholders’ meeting, and meetings of the committees on which he or she serves. During fiscal 2015, each director attended at least 75% of the total number of meetings of the Board and the committees on which he or she served. SIFCO’s independent directors meet in executive session at each regularly scheduled Board meeting. All of the directors, with the exception of Mr. Chapman, Sr., attended the Company’s 2015 Annual Meeting of Shareholders.

Director Independence - The members of the Board of Directors' standing committees are all independent directors as defined in Section 803 of the NYSE MKT Company Guide. The Board has affirmatively determined that Mr. Molten, Jr., Ms. Reitman, Mr. Chapman, Sr., Mr. Wells, Jr. and Mr. Silk meet these standards of independence. There are no undisclosed transactions, relationships, or arrangements between the Company and any of such directors. The Board has affirmatively determined that Mr. Gotschall, due to his employment with the Company within the past 3 years, Mr. Lipscomb, a current employee of the Company, and Mr. Smith, due to his relationship as described in the Director Compensation section included herein, do not meet these standards of independence, are therefore not independent and, accordingly, are not members of any of the Board’s standing committees.

Board Committees

Audit Committee - The functions of the Audit Committee are to select, subject to shareholder ratification, the Company’s independent registered public accounting firm; to approve all non-audit related services performed by the Company’s independent registered public accounting firm; to determine the scope of the audit; to discuss any special problems that may arise during the course of the audit; and to review the audit and its findings for the purpose of reporting to the Board of Directors. Further, the Audit Committee receives a written statement delineating the relationship between the independent registered public accounting firm and the Company. None of the members of the Audit Committee participated in the preparation of the Company’s financial statements at any time during the past three (3) years. The members of the Audit Committee are all independent directors as defined in Section 803 of the NYSE MKT Company Guide and SEC Rule 10A-3. Each member of the Audit Committee is financially literate and Ms. Reitman is designated as the Audit Committee financial expert. None of the Audit Committee members serve

on more than one (1) other public company audit committee. The Audit Committee, currently composed of Ms. Reitman (Chairperson), Mr. Molten, Jr., Mr. Wells, Jr., Mr. Silk and Mr. Chapman, Sr., held five (5) meetings during fiscal 2015. The Audit Committee operates under a written charter that is available on the Company's website at www.sifco.com.

Compensation Committee - The functions of the Compensation Committee are to review and make recommendations to the Board to ensure that our executive compensation and benefit programs are consistent with our compensation philosophy and corporate governance guidelines and, subject to the approval of the Board, to establish the executive compensation packages offered to directors and officers. Officers' base salary, target annual incentive compensation awards and granting of long-term equity-based incentive compensation, and the number of shares that should be subject to each equity instrument so granted, are set at competitive levels with the opportunity to earn competitive pay for targeted performance as measured against a peer group of companies. The Compensation Committee is appointed by the Board, and consists entirely of directors who are independent directors as defined in Section 803 of the NYSE MKT Company Guide. Our Compensation Committee, currently composed of Mr. Wells, Jr. (Chairperson), Ms. Reitman, Mr. Molten, Jr., Mr. Silk and Mr. Chapman, Sr., held four (4) meetings during fiscal 2015 and conducted other committee discussions as a part of a regular board meeting, some of which discussions were conducted without the CEO present. The Compensation Committee operates under a written charter that is available on the Company's website at www.sifco.com.

Nominating and Governance Committee - The functions of the Nominating and Governance Committee are to recommend candidates for the Board of Directors and address issues relating to (i) senior management performance and succession and (ii) the composition and procedures of the Board. The Nominating and Governance Committee is currently composed of Mr. Chapman, Sr. (Chairperson), Ms. Reitman, Mr. Wells, Jr., Mr. Silk and Mr. Molten, Jr. The members of the Nominating and Governance Committee are all independent directors as defined in Section 803 of the NYSE MKT Company Guide. The Nominating and Governance Committee held two (2) meeting during fiscal 2015. Other functions of the Nominating and Governance Committee were fulfilled during sessions of the full Board of Directors. The Nominating and Governance Committee operates under a written charter that is available on the Company's website at www.sifco.com.

Board Role in Risk Oversight - The Board reviews the Company's annual plan and strategic plan, which address, among other things, the risks and opportunities facing the Company. The Board also has overall responsibility for executive officer succession planning, and discusses and reviews succession planning on a regular basis. Certain areas of oversight may be delegated to the relevant committees of the Board and the committees report back on their deliberations. This oversight is enabled by reporting processes that are designed to provide visibility to the Board about the identification, assessment, monitoring and management of enterprise-wide risks. Management incorporates enterprise-wide risk assessment of the Company as part of its annual planning process, including each of its business segments, and presents it to the Board for review as part of senior management's annual planning document. The principal areas of this risk assessment include a review of strategic business, financial, operational, compliance and technology objectives and the potential risk for the Company. In addition, on an ongoing basis: (a) the Audit Committee maintains primary responsibility for oversight of risks and exposures pertaining to the accounting, auditing and financial reporting processes of the Company; (b) the Compensation Committee maintains primary responsibility for risks and exposures associated with oversight of the administration and implementation of our compensation policies; and (c) the Nominating and Governance Committee maintains primary responsibility for risks and exposures associated with corporate governance and succession planning.

Separation of Role of Chairman of the Board and CEO - The Board has appointed Mr. Lipscomb as Chairman of the Board of Directors, and in November of 2015, Mr. Wells was elected Lead Independent Director. The Company has determined this structure to be most effective as the Chairman serves as a liaison between our directors and management and helps to maintain communication and discussion among the Board and management, while the Lead Independent Director provides for an independent liaison where appropriate and for an individual to manage the independent functions of the Board and preside over executive sessions of the Board. In addition, the Lead Independent Director has the authority to communicate to management the results of private discussions among independent directors, engage in direct communication, as appropriate, with the Company's shareholders, and engage outside counsel and consultants.

Process for Selecting and Nominating Directors - In its role as the nominating body for the Board, the Nominating and Governance Committee reviews the credentials of potential director candidates (including any potential candidates recommended by shareholders), conducts interviews and makes formal recommendations to the Board for the annual and any interim election of directors. The Nominating and Governance Committee will consider shareholder nominations for directors at any time. Any shareholder desiring to have a nominee considered by the Nominating and Governance Committee should submit such recommendation in writing to a member of the Nominating and Governance Committee or the Corporate Secretary of the Company, c/o SIFCO Industries, Inc., 970 East 64th Street, Cleveland, OH 44103. The recommendation letter should include the shareholder's own name, address and the number of shares owned and the candidate's name, age, business address, residence address, and principal occupation, as well as the number of shares the candidate owns. The letter should provide all of the information that would need to be disclosed in the solicitation of proxies for the election of directors under federal securities laws. Finally, the shareholder should also submit the recommended candidate's written consent to be elected and commitment to serve if elected. The Company may also require a candidate to furnish additional information regarding his or her eligibility and qualifications.

Compensation Committee Interlocks and Insider Participation - None of the directors who served on the Compensation Committee during fiscal 2015 was a current or former officer or an employee of the Company or had any relationship with the Company that would be required to be disclosed by the Company under applicable related party transaction requirements. During fiscal 2015, no executive officer of the Company served as a member of the board of directors or compensation committee of any entity that has one or more of its executive officers serving as a member of the Company's Board of Directors or Compensation Committee and, therefore, there were no interlocking relationships (as described in Item 407(e)(iii) of SEC Regulation S-K) between members of the Compensation Committee and the Company. Mr. Molten, Jr., Ms. Reitman, Mr. Wells, Jr., Mr. Silk and Mr. Chapman, Sr. served as the members of the Compensation Committee during fiscal 2015.

Communications with the Board of Directors – Shareholders may communicate their concerns directly to the entire Board of Directors or specifically to non-management directors of the Board. Such communication can be confidential or anonymous, if so designated, and may be submitted in writing to the following address: Board of Directors, SIFCO Industries, Inc., c/o Ms. Megan L. Mehalko, Corporate Secretary, 970 E. 64th Street, Cleveland, Ohio 44103, who will forward the communication to the specified director(s) as necessary.

Code of Ethics – The Company's Code of Ethics applies to all of its Directors and its employees, including its Chief Executive Officer and its Chief Financial Officer. The Code of Ethics and all committee charters are posted in the Investor Relations portion of the Company website at www.sifco.com.

Certain Relationships and Related Transactions - There were no transactions between the Company and its officers, directors or any person related to its officers or directors, or with any holder of more than 5% of the Company's Common Shares, either during fiscal 2015 or up to the date of this proxy statement, except for the sales representative agreement in place between the Company and Mr. Smith that is discussed below under the heading "Director Compensation."

The Company reviews all transactions between the Company and any of its officers and directors. The Company's Code of Ethics, which applies to all employees, emphasizes the importance of avoiding situations or transactions in which personal interests may interfere with the best interests of the Company or its shareholders. In addition, the Company's general corporate governance practice includes board-level discussion and assessment of procedures for discussing and assessing relationships, including business, financial, familial and nonprofit, among the Company and its officers and directors, to the extent that they may arise. The Board reviews any transaction with an officer or director to determine, on a case-by-case basis, whether a conflict of interest exists. The Board ensures that all directors voting on such a matter have no interest in the matter and discusses the transaction with counsel as the Board deems necessary. The Board will generally delegate the task of discussing, reviewing and approving transactions between the Company and any of its related persons to the Audit Committee.

COMPENSATION DISCUSSION AND ANALYSIS ("CD&A")

Executive Summary:

The Compensation Committee manages our executive pay program. The role of the Compensation Committee is to approve the Company's compensation philosophy, oversee our executive pay plans and policies, administer our stock plans, engage outside consultants, as appropriate, and annually review and make recommendations to the Board for all pay decisions relating to our executives, including the Named Executive Officers ("NEOs"):

- Michael S. Lipscomb, Chairman and Chief Executive Officer
- James P. Woidke, Executive President and Chief Operating Officer (through February 28, 2015)
- Catherine M. Kramer, Chief Financial Officer and Vice President, Finance (through April 3, 2015)
- Thomas R. Kubera, Interim Chief Financial Officer (April 4, 2015 through May 10, 2015)
- Salvatore Incanno, Chief Financial Officer and Vice President, Finance (effective May 11, 2015)

Shareholders should take into account the following as they evaluate the effectiveness of our executive pay program for fiscal 2015:

We target total direct compensation (defined as base salary, target annual incentive opportunity and long-term incentives) at the median of the competitive market, and place relatively more emphasis on long-term equity incentives that are aligned with increasing shareholder value.

We continue to use predominately performance shares in our long-term incentive program, directly tying a significant portion of our NEOs' total compensation to long-term financial results that benefit shareholders.

We use several pay practices and policies that are in the best interests of our shareholders, including not providing perquisites, limited executive retirement benefits, and stock ownership guidelines.

We do not use employment contracts for our NEOs and instead use severance agreements or change in control agreements to provide greater flexibility in managing executive severance benefits.

The remainder of this report provides background for these conclusions and examines our pay philosophy and objectives, the process used to set pay for fiscal 2015, the elements of pay awarded and other policies affecting our executive pay program.

Pay Philosophy and Practices

Our philosophy for compensation policies and practices for all of our employees uses a balance of salary, annual cash incentives and, in some cases, equity-based compensation that supports the enhancement of revenue, earnings and cash performance of the Company for our shareholders without creating undue risk. Under our long term incentive program adopted in 2007 (the "LTIP"), we use a blend of performance-based awards and service-based awards with a greater emphasis on performance-based awards to further align the interests of our employees with those of our shareholders.

Our success depends largely on the contributions of motivated, focused and energized executives all working to achieve our strategic objectives. The Compensation Committee and senior management, with assistance from our independent compensation advisor, develop competitive pay programs for our executives and we follow the basic tenets set forth below:

What We Do:

- Pay for Performance
- Reasonable Post-Employment/Change in Control Provisions
- Double Trigger Change in Control Agreements
- Share Ownership Guidelines
- Share Retention Requirements post-vesting, regardless of ownership level
- Use an Independent Compensation Advisor

What We Don't Do:

- Enter into Employment Contracts
 - Offer Tax Gross-Ups
 - Issue Stock Options
- Process Used to Set Pay for Fiscal 2015
- Our executive pay program for fiscal 2015 was created with input from:
- Compensation Committee;
 - Senior Management;
 - Independent Compensation Advisor; and
 - Outside Advisors, including legal counsel.

Role of Compensation Committee:

Five independent directors comprise our Compensation Committee, which is responsible for establishing and administering our compensation policies, programs and procedures. In performing its duties, the Compensation Committee may request information from senior management regarding the Company's performance, pay and programs to assist it in its actions. Moreover, the Compensation Committee has the authority to retain outside advisors as needed to assist it in reviewing the Company's programs, revising them and providing analysis regarding competitive pay information.

The Compensation Committee annually reviews and establishes the goals used for our incentive plans. In addition, it annually assesses the performance of the Company and the Chief Executive Officer. Based on this evaluation, the Compensation Committee then recommends the Chief Executive Officer's compensation for the next year to the Board for its consideration and approval. In addition, the Compensation Committee reviews the Chief Executive Officer's compensation recommendations for the remaining NEOs, providing appropriate input and approving final awards. Finally, the Compensation Committee provides approval for the Chief Executive Officer's recommendations of the compensation of other key executives.

Role of Senior Management:

The Company's management serves in an advisory or support capacity as the Compensation Committee carries out its charter. Typically, the Company's Chief Executive Officer participates in meetings of the Compensation Committee. The Company's other NEOs and senior management may participate as necessary or at the Compensation Committee's request. The NEOs and senior management normally provide the Compensation Committee with information regarding the Company's performance, as well as information regarding executives who participate in the Company's various plans. Such data is usually focused on the executives' historical pay and benefit levels, plan costs, context for how programs have changed over time and input regarding particular management issues that need to be addressed. In addition, management normally furnishes similar information to the Compensation Committee's independent compensation advisor.

Management provides input regarding the recommendations made by outside advisors or the Compensation Committee. Management implements, communicates and administers the programs approved by the Compensation Committee.

The Chief Executive Officer annually evaluates the performance of the Company and its other NEOs. Based on his evaluation, he provides the Compensation Committee with his recommendations regarding the pay for the other NEOs for its consideration, input and approval. The Compensation Committee, in turn, authorizes the Chief Executive Officer to establish the pay for the Company's other executives based on terms consistent with those used to establish the pay of the NEOs. Members of management present at meetings when pay is discussed are recused from such discussions when the Compensation Committee focuses on their individual pay.

Role of Independent Compensation Advisor:

The fiscal 2015 pay program utilized compensation data from a market pay study conducted by Pay Governance ("Pay Governance"). This study was commissioned by the Compensation Committee in fiscal 2013 in order to achieve a comprehensive, independent review of the Company's executive compensation program. The Pay Governance study provided compensation information from a peer group of companies in technology-oriented metals manufacturing companies whose median revenues and assets are comparable to ours, as well as data from

compensation surveys that included hundreds of companies in a broader range of industries with revenues that are comparable to ours. We continued to reference this data when making our fiscal 2015 and fiscal 2016 pay decisions, applying an aging factor provided by Pay Governance to bring the 2013 data current to fiscal 2015. The peer group used included the following companies:

Air Industries Group, Inc.	Dynamic Materials Corp
Allied Motion Technologies, Inc.	EDAC Technologies Corp.
American Superconductor Corp.	Graham Corp.
Breeze-Eastern Corporation	Natural Gas Services Group, Inc.
Broadway Energy, Inc.	Power Solutions International, Inc.
Butler National Co.	Sun Hydraulics Corp
Capstone Turbine Corp.	Synalloy Corp.
CPI Aerostructures, Inc.	Universal Stainless & Alloy Products

In fiscal 2015, the Company utilized Pay Governance to provide reports about our industry peer group in order to be able to determine our relative EBITDA margin performance under the long-term incentive plan awards.

We believe our practices are consistent with the practices for other companies of our size, reflect best practices regarding the governance of executive pay programs and reflect the executive pay program's objectives of delivering competitive and appropriate pay aligned with our shareholders' interests.

Elements of Pay for Fiscal 2015

The basic elements of our compensation package include:

- Base salary;
- Annual incentive opportunities;
- Long-term equity incentives in the form of performance shares; and
- Retirement and other benefits generally available to all other Company employees.

Our pay philosophy targets total direct compensation at the market median, recognizing the importance of identifying an appropriate peer group. We believe targeting median pay levels is appropriate as it is sufficient to attract and retain key executives, but does not position our compensation costs out of line with other companies of similar size. Pay can vary from target levels to the degree that an executive's individual experience and performance varies, and to the degree the Company's performance or stock price increases or decreases, affecting the value our executives realize from SIFCO's annual incentive and long-term incentive awards.

We do not have a prescribed or target pay mix for our NEOs. However, a significant portion of our NEOs' total compensation is performance-based. The following table shows the percentage of each NEO's total target direct compensation that was attributable to base salary, target annual cash incentives, and long-term equity incentives in fiscal 2015. Because annual cash incentives and long-term equity incentives are tied to meeting specific, pre-defined performance goals, these pay components are considered to be performance-based. All NEOs had at least 49% of their target total compensation allocated to performance-based pay, with the exception of Mr. Kubera, who was an NEO for a brief period as Interim Chief Financial Officer and whose pay mix reflects his role as Corporate Controller:

Component of Pay	Mr. Michael S. Lipscomb	Mr. James P. Woidke	Ms. Catherine M. Kramer	Mr. Thomas R. Kubera	Mr. Salvatore Incanno
Base Salary	31%	51%	49%	67%	50%
Target Annual Incentives	19%	23%	27%	17%	25%
Long-Term Incentives	50%	26%	24%	17%	25%

Base Salaries:

Base salaries are the guaranteed part of our executives' pay. We pay base salaries to recognize the skills, competencies, experience, and individual performance an executive brings to his or her role. As a result, changes in base salary result primarily from changes in the executive's responsibilities, an assessment of their annual performance, our financial ability to pay base salaries and provide increases to them, and our analysis of market pay trends.

Salaries for our executives are based on the scope of their responsibilities and their relevant background, training and experience. Data on compensation practices of companies similar to ours is also considered in setting base salaries. The Compensation Committee targets base salaries at approximately the 50th percentile, but also considers an individual's experience, performance, and external market conditions. Under the terms of the severance agreement in effect for Mr. Woidke at the beginning of fiscal 2015, his compensation could not be materially reduced without the triggering of a severance payment.

Based on company performance, senior management's recommendations, and the existing survey data, the Compensation Committee approved a base salary increase of 5% for Mr. Lipscomb, 14.8% for Mr. Woidke and 10% for Ms. Kramer at the beginning of fiscal 2015. These increases resulted in Mr. Lipscomb's base salary being positioned at 84% of the market 50th percentile for his position in order to provide a more aggressive performance-based compensation opportunity for him, as discussed below. Mr. Woidke's base salary was positioned at 108% of the market 50th percentile for his position, and Ms. Kramer's base salary increased to 86% of the market 50th percentile for her position. Ms. Kramer's salary position relative to market median reflected her short tenure in the Chief Financial Officer position. The Compensation Committee approved a base salary increase equal to 1.5% for Mr. Kubera at the beginning of the fiscal year due to his short tenure with the company at the time. In recognition of his strong leadership of the Financial Accounting function, including his time as Interim Chief Financial Officer, the Committee approved an additional base salary increase of 4.7% for Mr. Kubera effective in May 2015, positioning his base salary just above the market 50th percentile for his position. Mr. Incanno's base salary was established at \$270,000 upon his hire as Chief Financial Officer effective May 11, 2015. Mr. Incanno's base salary is positioned at 105% of the market 50th percentile, reflecting his significant experience in key financial management positions at prior organizations.

Annual Cash Incentives:

In keeping with our policy of rewarding our executive officers for performance, executives, including our NEOs, were eligible to earn annual cash incentives under our annual incentive plan. Incentives under the plan increase each executive's focus on specific short-term corporate operational goals. As a result, it balances the objectives of our other pay programs, which concentrate on individual performance (base salaries), and long-term financial results and stock price growth (long-term equity incentives). Finally, annual cash incentives allow us to manage fixed compensation costs, while still providing executives with competitive cash compensation consisting of salaries and incentives.

Each year, the Compensation Committee approves a target annual incentive opportunity for each NEO. Generally, we intend for our target incentives to be at median levels to provide competitive rewards to executives for achieving annual operating results. For fiscal 2015, our target incentives were 60% of salary for Mr. Lipscomb, 55% of salary for Mr. Woidke, and 45% of salary for Ms. Kramer. Mr. Kubera's target annual incentive opportunity remained at 25% of salary, the target established for his Corporate Controller position, during his interim assignment as Chief Financial Officer. Upon his hire, Mr. Incanno's target annual incentive opportunity was established at 50% of salary. In Mr. Lipscomb's case, the target cash incentive was set slightly below the market median of 65% in order to provide more aggressive long-term incentive opportunities, as discussed below. Mr. Incanno's target cash incentive was set slightly above the market median of 45% to recognize his ability to contribute to the Company's operating results and strategic initiatives. Actual incentives can range from 0% to 150% of target depending on actual performance, practices that are consistent with the range of annual incentive opportunities of peers and those of other companies our size. In this manner, we can reward our executives with higher levels of cash compensation for results that substantially exceed target results. Conversely, we pay relatively lower levels of cash compensation for results that fail to meet threshold levels of performance.

Annual cash incentives are based primarily on earnings before interest, taxes, depreciation and amortization ("EBITDA"), as adjusted for (i) (gain)/loss on the disposition or impairment of assets; (ii) LIFO adjustment; (iii) equity compensation expense; (iv) Salaried Retirement Plan pension settlement expense; (v) M&A transaction expenses; (vi) purchase price adjustment for inventory fair value adjustment; and (vii) Incentive Expense over/(under) Plan; and (viii) adjustments that are approved by the Compensation Committee. EBITDA results determine 100% of an executive's annual cash incentive, subject to modification based on the Company's working capital levels. Working capital is based on (i) FIFO based inventory; (ii) accounts receivable, (iii) accounts payable; and (iv) accrued expenses. If working capital is maintained within the target range, earned incentives are not adjusted. If working capital is below the target, earned incentives may be increased by up to 10%. If working capital is above the target range, earned incentives may be decreased by up to 10%. The working capital adjustment may not increase the total incentive paid to more than 150% of target.

The use of EBITDA as an incentive plan metric focuses on core operating profitability and is not influenced by accounting policies, significant non-operating results or other extraordinary items that can obscure operating results. We believe consistent improvements in our operating results over time should produce value for our shareholders over the long term. The working capital modifier balances the profitability focus of EBITDA by measuring our ability to generate discretionary cash that can be used to invest in assets, make acquisitions, retire debt, and pay dividends. It also serves to focus all incentive plan participants, including individuals beyond the NEOs, to efficiently use the capital that is within their control or influence.

Each year, the Compensation Committee approves annual performance targets for EBITDA and working capital which are adjusted accordingly to reflect acquisitions or divestitures made during the fiscal year. These targets are based on the annual financial plan developed by our senior management through vigorous top-down and bottom-up planning, evaluation of business expectations, customer reviews, raw material availability, pricing evaluations, SG&A considerations and general economic conditions. The annual financial plan is reviewed and approved by the Board. Performance targets are intended to be challenging, yet reasonably attainable. Once targets are established, the Compensation Committee sets minimum and maximum performance levels to appropriately reward for results that exceed or fall short of target expectations. At minimum performance, 50% of target incentives are paid; at maximum performance, 150% of target incentives are paid.

For fiscal 2015, actual Adjusted EBITDA results were below target and actual working capital was above the target range, resulting in no annual incentive payout.

Long-Term Incentives:

The 2007 Long Term Incentive Plan (“LTIP”) provides us with flexibility to grant stock options, stock appreciation rights, performance share awards, restricted stock, stock units, and other forms of equity-based awards. To date, the Company has chosen to use performance share awards as the primary vehicle for delivering equity to executives and to use restricted stock on a limited basis. Performance share awards are consistent with our goal of motivating and rewarding our executive officers for achieving long-term performance goals that increase shareholder value, and they promote SIFCO’s long-term interests by aiding the retention of high-quality executives. Our use of long-term equity incentives reflects the belief that a significant component of executive compensation should be at risk where the amount earned depends on achieving Company performance objectives designed to enhance shareholder value. Finally, long-term incentives in the form of stock help build executive stock ownership, consistent with our stock ownership objectives more fully described in the section titled “Stock Ownership Guidelines” and strengthen the alignment with our shareholders’ interests.

Each year, the Compensation Committee approves a target long-term incentive opportunity for each NEO. We intend for our target incentives to be at or above median levels to provide competitive rewards to executives for achieving long-term financial and strategic results. As discussed earlier, Mr. Lipscomb's base pay and annual cash incentive opportunity are maintained below the market median in order to provide more significant compensation opportunities under the LTIP, which most closely aligns with shareholder value. Ms. Kramer's LTIP target award was set above the market median in order to achieve a total direct compensation opportunity that is closer to the market median. For fiscal 2015, Mr. Lipscomb's target award was set at 160% of base salary, and Mr. Woidke’s and Ms. Kramer's target awards were set at 50% of base salary. Mr. Kubera's target award remained at 25% of base salary, the target established for his Corporate Controller position, during his interim assignment as Chief Financial Officer. Mr. Incanno's target award was established at 50% of base salary upon his hire, keeping the target award for the Chief Financial Officer positioned above the market median in order to recognize Mr. Incanno's significant opportunity to lead the company in achieving its strategic goals.

Actual incentives can range from 0% to 150% of target depending on actual performance, practices that are consistent with the range of annual incentive opportunities of peers and those of other companies our size. In this manner, we can reward our executives with higher levels of equity compensation for results that substantially exceed target results. Conversely, we pay relatively lower levels of equity compensation for results that fail to meet threshold levels of performance.

To strengthen the awards' long-term ties to performance, as well as to help retain our executives, long-term incentives are earned over a multi-year period, based on the achievement of pre-established objectives for the period. For the three-year period beginning in fiscal 2015 and ending in fiscal 2017, long-term incentives are based on our EBITDA margin relative to a performance peer group that was adopted by the Compensation Committee. The peer group consists of companies operating in our primary industry of aerospace and defense. We believe that comparing our EBITDA margin to this industry peer group measures how well our executive team responds to the challenges and opportunities of the markets within which we compete. This focus on optimizing profitability in any economic cycle encourages our executives to continually improve operating results, which in turn should produce value to our shareholders over the long term. The Company set the performance goal equal to the 50th percentile of the performance peer group. The performance threshold was set at the 35th percentile of the peer group and the performance maximum was set at the 75th percentile.

For the two-year period ending in fiscal 2015, the LTIP used EBITDA margin relative to the performance peer group as the performance metric, as described above. The performance threshold was set at the 35th percentile of the peer group and the performance maximum was set at the 75th percentile. For such two-year period, the Company achieved an average EBITDA margin of 8%, placing its performance at the 18th percentile of the performance peer group. As a result, no shares were earned. Mr. Woidke's shares under this LTIP Plan award were forfeited upon his separation from the Company. Pursuant to the terms of his separation agreement, Mr. Woidke received 11,247 shares of SIFCO stock on March 9, 2015. Ms. Kramer's shares under this LTIP Plan award were forfeited upon her voluntary resignation from the Company effective April 3, 2015. Mr. Incanno was not a participant in the LTIP at the time this grant for the two-year period ending in fiscal 2015 was made.

Retirement and Other Benefits:

We also maintain qualified retirement programs to provide our executives and other employees basic life and income security needs and recognize individual contributions during their career with SIFCO. The NEOs participate in our qualified retirement plan (a tax-qualified 401(k) Plan, pursuant to which all participants are eligible to receive matching contributions from the Company) on the same terms as all of our other employees. NEOs also participate in broad-based benefit plans that are available to all employees, including health insurance and life and disability insurance. Executives' benefits are not tied to individual or Company performance, which is the same approach used for other employees. Moreover, changes to executives' benefits reflect the changes to the benefits of other employees.

Executive Perquisites:

With the exception of professional club dues paid on behalf of Mr. Woidke, we do not and have not historically provided any executive perquisites. We believe this practice supports the pay-for-performance tenet of our compensation philosophy and supports our open, interactive culture by aligning executives with other employees.

Other Policies and Practices

Timing of Equity Grants and Grant Price: Performance share grants are generally awarded during the first Compensation Committee meeting of the fiscal year, normally in early or mid-November. This meeting date is normally set a year in advance, limiting our ability to time the market for equity awards. The value of any such grants is determined by the 90-day average closing price of our stock on the NYSE MKT as of the last day of the fiscal year (September 30). In addition, from time-to-time during the year, the Compensation Committee may make grants to a new employee or, in rare circumstances, to a current employee. In such cases, the value of the grants is also determined by the 90-day average closing price of our stock on the NYSE MKT as of the last day of the fiscal year.

Stock Ownership Guidelines: A key objective of our long-term incentive awards is to encourage and build stock ownership. As a result, we adopted stock ownership guidelines that are common at other companies. These guidelines were adopted in January 2008 and require our NEOs to own shares that are equal to two times their base salary. Until the ownership guideline is achieved, NEOs are required to retain 100% of the net shares (after settling tax obligations) delivered through the LTIP. In addition, NEOs are required to retain all net shares delivered through the LTIP for a minimum of one year following receipt of the shares, regardless of whether the ownership guideline has been achieved. In determining stock ownership, we count all shares reported on SEC Form 4 as “beneficially owned”, including shares owned jointly with a spouse or separately by a spouse and/or children that share the NEO’s household.

Accounting and Tax Considerations: In designing our compensation programs, we take into consideration the accounting and tax effect, including the impact of Section 162(m) of the Internal Revenue Code, that the components will have or may have on our executive officers and the Company. Our Long-Term Incentive Plan meets the definition of “performance based compensation” under Section 162(m).

Pay Decisions for Fiscal 2016

For 2016, we have two NEOs: Mr. Lipscomb and Mr. Incanno. The approved fiscal 2016 executive pay program for NEOs continues the pay programs adopted in 2013 as a result of the Pay Governance market study:

Base salaries for fiscal 2016 were conservative in light of the Company's performance. Mr. Lipscomb did not receive a base salary increase. Mr. Incanno received a 3% base salary increase, which maintains his base salary at 105% of the market median.

Annual cash incentives remain tied to achieving financial plan EBITDA and working capital. The performance range for the annual cash incentive plan will be maintained at 80% of plan as the performance threshold and 120% of plan as the performance maximum, to provide appropriate motivational value to participants while driving higher financial results that can create value for shareholders;

NEOs will continue to receive performance shares as the equity vehicle under the LTIP;

Performance share awards will continue to have double-trigger change in control provisions;

Performance shares will continue to be tied to EBITDA margin relative to the performance peer group that was adopted by the Compensation Committee. Performance will continue to be targeted at the 50th percentile of peer group performance, with threshold performance established at the 35th percentile and maximum performance at the 75th percentile of the peer group.

For Mr. Lipscomb and Mr. Incanno, target incentive opportunities for fiscal 2016 will remain at the levels established in 2015, which were target annual incentive opportunities of 60% and 50%, respectively; and target long-term incentive opportunities of 160% for Mr. Lipscomb and 50% for Mr. Incanno. This results in target total direct compensation that is above market median for both Mr. Lipscomb and Mr. Incanno. As discussed earlier, the Committee has established a pay mix for Mr. Lipscomb that reflects a strong bias for performance-based compensation tied to shareholder value creation. Mr. Lipscomb's target total direct compensation package will continue to have 50% weight on equity-based compensation and 70% weight on performance-based components of pay (annual cash incentives plus long-term equity incentives). Mr. Incanno's pay positioning relative to the market median likewise has a strong bias for performance-based compensation, with his target total direct compensation package having 54% weight on performance-based components of pay. Mr. Incanno's pay package reflects his experience as a

financial executive prior to joining the Company, as well as his potential to contribute to achieving the Company's strategic growth goals.

In arriving at its decisions on executive compensation, the Compensation Committee referenced two separate peer groups, a proxy peer group of similarly-situated companies, used to determine compensation levels; and a broader general industry peer group, used to benchmark performance for purposes of determining EBITDA margin relative to peers as part of the revised Long Term Incentive Plan. The proxy peer group provides appropriate benchmarks for total direct compensation levels of companies of similar size and scope, regardless of the specific markets within which the Company competes. On the other hand, the general industry peer group used for performance comparisons reveals how well the Company is responding in the face of the challenges and opportunities of the markets in which we compete.

The proxy peer group used for fiscal 2016 compensation decisions is the same peer group used for the fiscal 2015 compensation decisions, as well as the compensation study conducted in fiscal 2013, and included the following companies:

Air Industries Group, Inc.	Dynamic Materials Corp
Allied Motion Technologies, Inc.	EDAC Technologies Corp.
American Superconductor Corp.	Graham Corp.
Breeze-Eastern Corporation	Natural Gas Services Group, Inc.
Broadway Energy, Inc.	Power Solutions International, Inc.
Butler National Co.	Sun Hydraulics Corp
Capstone Turbine Corp.	Synalloy Corp.
CPI Aerostructures, Inc.	Universal Stainless & Alloy Products

The general industry peer group selected for the purpose of performance comparisons was the Global Industry Classification Standard (GICS) Aerospace and Defense group of companies larger than \$50 million in revenues. Fifty-one companies are currently classified into this peer group.

In arriving at its decisions on executive compensation, the Compensation Committee took into account the affirmative shareholder “say-on-pay” vote received when last voted on at the Company’s 2014 Annual Meeting.

Compensation Committee Interlocks and Insider Participation

During fiscal 2015, the following directors were members of the Compensation Committee: John G. Chapman, Sr., Donald C. Molten, Jr., Alayne L. Reitman, Mark J. Silk (effective August 2015) and Norman E. Wells, Jr. None of the Compensation Committee’s members have at any time been an officer or employee of the Company. None of our NEOs serve or in the past fiscal year has served as a member of the board of directors or compensation committee of any entity that has one or more NEOs serving on the Company’s Board or Compensation Committee.

The awards for which amounts are shown in this column include the stock awards described in the aforementioned "Long-Term Incentives." The above amounts represent the grant date fair values of the stock awards granted in fiscal 2015, 2014 and 2013, as measured in accordance with Financial Accounting Standards Board ("FASB") Accounting Standard (2) Codification Topic 718, Compensation – Stock Compensation. Such fair value is based on the target number of restricted and performance-based stock awards granted in each of the three fiscal years noted multiplied by the closing market price of the Company's Common Shares on the NYSE MKT Exchange on the date of grant. As explained under "Long Term Incentives" in the prior year's Compensation Discussion and Analysis, the long-term incentive awards originally granted in fiscal 2013 were canceled and replaced with a new grant in fiscal 2014.

Reflects the value of annual incentive compensation earnings for named executive officers. For fiscal 2015, actual (3) Adjusted EBITDA results were below target and actual working capital was above the target range, resulting in no payout.

(4) All other compensation for Messrs. Lipscomb and Kubera consists of amounts contributed by the Company as matching contributions pursuant to the SIFCO Industries, Inc. Employees' 401(k) Plan, a defined contribution plan.

Employees' 401(k) Plan, a defined contribution plan; (5) severance benefits paid pursuant to his Severance Agreement executed on February 28, 2015. The shares of stock granted to Mr. Woidke as part of his Severance Agreement were valued using the fair market value on the date of the grant. See Payments upon Termination for additional detail.

(6) All other compensation for Ms. Kramer consists of amounts contributed by the Company as matching contributions pursuant to the SIFCO Industries, Inc. Employees' 401(k) Plan, a defined contribution plan; the value of Company-owned electronic devices retained by Ms. Kramer following her separation from the Company; and relocation benefits paid by the Company in fiscal 2013.

(7) All other compensation for Mr. Incanno consists of relocation benefits paid by the Company in fiscal 2015.

Potential Payments Upon Termination or Change-in-Control

The Company had entered into a Change in Control and Severance Agreement with Mr. Woidke, which provided severance benefits in the event of his involuntary termination with or without a change in control. The Company had entered into a Change in Control Agreement with Ms. Kramer, which provided severance benefits in the event of her involuntary termination as a result of a change in control. The Company has entered into a Change in Control Agreement with Mr. Incanno, which provides severance benefits in the event of his involuntary termination as a result of a change in control. The purpose of these agreements is to reinforce and encourage the continued attention and dedication of these executives to their assigned duties without distraction in the face of (i) solicitations by other employers and (ii) the potentially disturbing circumstances arising from the possibility of a change in control of the Company. These agreements provide the following benefits:

- Pursuant to a Separation Agreement between Mr. Woidke and the Company (as can be found attached as Exhibit 10.1 to the Company's Current Report on Form 8-K, filed March 2, 2015), Mr. Woidke received the

following severance benefits upon his termination from the Company in February 2015: a lump sum severance payment of \$705,800 (equal to 150% of his annual compensation in effect at the time of termination, including base salary plus average annual cash incentive of the past three years); continuation of health and welfare insurance coverage for up to 24 months following termination, valued at \$44,908; and 11,247 shares of SIFCO stock.

•Ms. Kramer's Change in Control agreement became null and void upon her voluntary resignation from the Company effective in April 2015.

•In the case of Mr. Incanno, if, within the two year period following a change of control, Mr. Incanno is terminated other than for cause or if he terminates for good reason, the Change in Control Agreement provides for a lump sum severance payment equal to 150% of his annual base salary in effect at the time of termination and continuation of health and welfare insurance coverage for up to 24 months following termination. The terms of the long term equity incentive award granted in fiscal 2016 provide for accelerated full vesting upon a termination within 12 months following a change in control.

There are no agreements in place with respect to payments to be made to Mr. Lipscomb or Mr. Kubera in the event of their termination. The terms of the equity incentive award granted in fiscal 2014, 2015 and 2016 provide for full vesting upon a termination within 12 months following a change in control.

The following table describes the potential payments upon termination of employment of Mr. Incanno. The table assumes the executive's employment was terminated on September 30, 2015, the last business day of the Company's 2015 fiscal year.

With respect to Mr. Smith, all other compensation consists of payments made to Forged Aerospace Sales, LLC (2) during fiscal 2015 under the Sales Representative Agreement, further described below, for services other than as director.

Mr. Smith previously held several executive level positions with the Company and, in connection with his resignation from the Company, Mr. Smith entered into a Sales Representative Agreement with the Company, the terms of which are substantially the same as the terms of other agreements the Company maintains with its third-party sales

representatives. Compensation under the Sales Representative Agreement, which resulted in payments of \$221,627 in fiscal 2015, is based strictly upon earned sales commissions with no guaranteed minimum obligation to Mr. Smith and/or to Forged Aerospace Sales, LLC.

PROPOSAL 2 – TO RATIFY THE SELECTION OF AUDITORS

The firm of Grant Thornton LLP has been the Company's independent registered public accounting firm since 2002. The Board of Directors has chosen that firm to audit the accounts of the Company and its consolidated subsidiaries for the fiscal year ending September 30, 2016, subject to the ratification of the shareholders for which the affirmative vote of a majority of the Common Shares present and voting at the 2016 Annual Meeting (in person or by proxy) is required. Proposal No. 2 is a non-binding proposal. Although shareholder ratification is not required under the laws of the State of Ohio, the appointment of Grant Thornton LLP is being submitted to the Company's shareholders for ratification at the 2016 Annual Meeting in order to provide a means by which our shareholders may communicate their opinion to the Audit Committee. If our shareholders do not ratify the appointment of Grant Thornton LLP, the Audit Committee will reconsider the appointment, but is not obligated to change the appointment, and may for other reasons be unable to make another appointment. Grant Thornton LLP has advised the Company that neither the firm nor any of its members or associates has any direct or indirect financial interest in the Company or any of its affiliates other than as auditors.

Board Recommendation - the Board of Directors recommends that you vote FOR the ratification of the selection of Grant Thornton LLP as the independent registered public accounting firm of the Company for the year ending September 30, 2016. Unless you instruct otherwise on your proxy card or in person, your proxy will be voted in accordance with the Board's recommendation.

Representatives of Grant Thornton LLP are expected to be present at the 2016 Annual Meeting with the opportunity to make a statement if they desire to do so and to be available to respond to appropriate questions.

PROPOSAL 3 – TO CAST A NON-BINDING ADVISORY VOTE ON EXECUTIVE COMPENSATION

As required by Section 14A of the Security Exchange Act of 1934, this proposal, commonly known as a "say-on-pay" proposal, gives you, as a shareholder the opportunity to endorse or not to endorse our executive compensation program through the following resolution:

"RESOLVED, that the shareholders approve the compensation paid to our NEOs, as disclosed pursuant to the compensation disclosure rules of the SEC, including the compensation tables and accompanying narrative disclosure under the Compensation Discussion and Analysis section in this proxy."

As discussed in the Compensation Discussion and Analysis, the Compensation Committee's compensation objectives are to attract and retain highly qualified individuals with a demonstrated record of achievement; reward past performance, provide incentives for future performance, and align the interests of the NEOs with the interests of the shareholders. To do this, we currently offer a competitive total compensation package. The Compensation Committee has determined that the compensation structure for our NEOs is effective and appropriate.

Board Recommendation - The Board of Directors recommends that you vote FOR Proposal 3 relating to the approval of the Company's executive compensation.

SHAREHOLDER PROPOSALS FOR THE 2017 ANNUAL MEETING OF SHAREHOLDERS

A shareholder who intends to present a proposal at the 2017 Annual Meeting, and who wishes to have the proposal included in the Company's proxy statement and form of proxy for that meeting, must deliver the proposal to the Company no later than October 1, 2016. Any shareholder proposal submitted other than for inclusion in the Company's proxy materials for the 2016 Annual Meeting must be delivered to the Company no later than October 30, 2016 or such proposal will be considered untimely. If a shareholder proposal is received after October 30, 2016, the Company may vote, in its discretion as to the proposal, all of the Common Shares for which it has received proxies for the 2017 Annual Meeting.

OTHER MATTERS

The Company does not know of any other matters that will come before the meeting. In case any other matter should properly come before the 2016 Annual Meeting, it is the intention of the persons named in the enclosed proxy or their substitutions to vote in accordance with their best judgment in accordance with the recommendation of the Board of Directors or, in the absence of such a recommendation, in accordance with their judgment pursuant to the discretionary authority conferred by the enclosed proxy.

NO INCORPORATION BY REFERENCE

The Compensation Committee Report and the Audit Committee Report (including reference to the independence of the Audit Committee members) are not deemed filed with the SEC or subject to the liabilities of Section 18 of the Exchange Act, and shall not be deemed incorporated by reference into any prior or future filings made by us under the Securities Act, or the Exchange Act, except to the extent that we specifically incorporate such information by reference. The section of this Proxy Statement entitled "Proposal to Elect Eight (8) Directors," "Section 16(a) Beneficial Ownership Reporting Compliance," "Corporate Governance and Board of Director Matters," "Compensation Discussion and Analysis," "Executive Compensation," "Compensation Committee Report," "Compensation Committee Interlocks and Insider Participation," "Director Compensation," and "Principal Accounting Fees and Services" are specifically incorporated by reference in the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2015.

NOTICE REGARDING DELIVERY OF SECURITY HOLDER DOCUMENTS

The SEC now permits companies to send a single set of annual disclosure documents to any household at which two or more stockholders reside, unless contrary instructions have been received, but only if the company provides advance notice and follows certain procedures. In such cases, such stockholders continue to receive a separate notice of the meeting and proxy card. This "householding" process reduces the volume of duplicate information and reduces printing and mailing expenses. The Company has not instituted householding for shareholders of record;

however, a number of brokerage firms may have instituted householding for beneficial owners of the Company's Common Shares held through such brokerage firms. If your family has multiple accounts holding shares of Common Shares of the Company, you already may have received householding notification from your broker. Please contact your broker directly if you have any questions or require additional copies of the annual disclosure documents. The broker will arrange for delivery of a separate copy of this Proxy Statement or our Annual Report promptly upon your written or oral request. You may decide at any time to revoke your decision to household, and thereby receive multiple copies.

EXECUTIVE OFFICERS OF THE COMPANY

Disclosure regarding the executive officers of the Company is set forth in the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2015 filed with the SEC under the heading "Directors, Executive Officers and Corporate Governance", which is incorporated into this Proxy Statement by reference. This Annual Report will be delivered to our shareholders with the Proxy Statement. Copies of the Company's filings with the SEC, including the Annual Report, are available to any shareholder through the SEC's internet website at <http://www.sec.gov> or in person at the SEC's Public Reference Room at 100 F Street, N.E., Room 1580, Washington, DC 20549. Information regarding operations of the Public Reference Room may also be obtained by calling the SEC at 1-800-SEC-0330.
