Item 2.05 Costs Associated with Exit or Disposal Activities.

On May 31, 2017, the Board of Directors of SIFCO Industries, Inc. (“SIFCO” or “the Company”) approved the decision of management to close one of its manufacturing plants located in Alliance, Ohio ("Alliance"). There are approximately 38 employees affected by the decision. Management communicated the decision to the affected employees on June 1, 2017. The decision to close Alliance was made primarily due to the loss of a key customer in fiscal year 2015, which resulted in the erosion of its sales volume over the past two years. This closure falls in line with management's key strategic initiatives to make organizational and operational changes needed to improve profitability.

In connection with the closure, the Company is still in the process of estimating its exit costs. Once the costs have been determined, SIFCO will file an amended Form 8-K. The Company expects the closure process to begin immediately and occur over the next 150 days, during which it will incur the majority of the anticipated exit costs.

A copy of the press release is furnished herewith as Exhibit 99.1.
