THE LEATHER FACTORY REPORTS 3RD QUARTER 2004 RESULTS

FORT WORTH, TEXAS - The Leather Factory, Inc. (AMEX: TLF) today reported financial results for the third quarter of 2004. Consolidated net income for the quarter ended September 30, 2004 was \$427,000 compared to consolidated net income of \$602,000 for the third quarter of 2003. Fully diluted earnings per share for the quarter was \$0.04, compared to \$0.06 in the same quarter of last year. Total sales for the quarter ended September 30, 2004 increased 4.6% to \$10.6 million from \$10.1 million for the third quarter last year.

Consolidated sales for the nine months ended September 30, 2004 were \$33.7 million, an increase of 8.3% over total sales of \$31.1 million in the first three quarters of 2003. Consolidated net income for the current year was \$1.9 million or \$0.17 per fully-diluted share versus \$2.1 million or \$0.20 per fully-diluted share in the comparable period last year.

Sales at our Tandy Leather subsidiary increased \$720,000 in the third quarter, a 31% improvement over last year's third quarter. Thirty-six stores comprised Tandy Leather's retail operations on September 30, 2004, compared to twenty-six retail stores a year ago. Four stores were added in the third quarter of 2004 bringing the total number of new stores added in 2004 to ten as of the end of the quarter. For the first nine months of 2004, Tandy Leather sales increased \$2.9 million, or 46%, over the first nine months of 2003. Third quarter sales for the Leather Factory wholesale division decreased \$305,000 over the same quarter last year, a 4.1% decline. The sales decrease is due to a reduction in sales to our national account customers of \$353,000 that was partially offset by a \$48,000 sales gain to our other customer groups. For the first nine months of 2004, the Leather Factory wholesale division sales were down \$440,000 over the same period in 2003 as a result of sales declines to our national account customers totaling \$1.2 million partially offset by sales gains to our other customer groups of \$740,000.

Consolidated gross profit margin for the current quarter was 56.1%, an improvement from 55.2% for the third quarter of 2003. For the first three quarters, consolidated gross profit margin was 55.3%, an improvement over last year's gross profit margin of 54.5%. Consolidated operating expenses rose \$490,000 in the current quarter and \$1.8 million for the first nine months over the same periods a year ago. Operating costs associated with the new Tandy Leather stores, advertising expenses, and rising healthcare costs account for the majority of the increase.

Wray Thompson, Chairman and Chief Executive Officer, commented, "Our third quarter turned out to be a continuation of our second quarter. The Tandy stores reported solid sales gains although business this summer has been slower than we initially expected. Nonetheless, we have met our internal goal of opening or acquiring twelve Tandy stores this year, and our Tandy retail store sales have increased 46% over the first nine months of 2003, increasing higher-margin retail sales to 27% of our total revenue. The Leather Factory wholesale centers generated a modest sales gain for the quarter but are still running better than 4% gains on a year-to-date basis. However, our national account group is still

reporting sales declines which more than offset the wholesale centers' sales gains. While rising health care costs and expenses associated with Sarbanes-Oxley compliance continue to impact our operating margins, we believe the sales decline to our national account group is the reason we must adjust our 2004 guidance downward. However, with the growth in our retail sales division and a continued focus on cost reduction, we expect 2005 earnings to be up approximately 15-18% over our 2004 expectations."

Financial Outlook:

The following statements are based on TLF's current expectations as of November 2, 2004. These statements are forward-looking statements and should be read in conjunction with the cautionary information about these statements that appears below.
