TANDY LEATHER FACTORY, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. BASIS OF PRESENTATION AND CERTAIN SIGNIFICANT ACCOUNTING POLICIES

These financial statements include the accounts of Tandy Leather Factory, Inc. and its subsidiaries. Unless the context indicates otherwise, references to “we”, “us”, and “our” refer to the consolidated operations of Tandy Leather Factory, Inc. and its subsidiaries. In the opinion of management, the accompanying consolidated financial statements for Tandy Leather Factory, Inc. and its consolidated subsidiaries contain all adjustments (consisting of normal recurring adjustments) necessary to present fairly its financial position as of June 30, 2008 and December 31, 2007, and its results of operations and cash flows for the three and/or six-month periods ended June 30, 2008 and 2007. Operating results for the three and six-month periods ended June 30, 2008 are not necessarily indicative of the results that may be expected for the fiscal year ending December 31, 2008. These consolidated financial statements should be read in conjunction with the audited consolidated financial statements and accompanying notes included in our Annual Report on Form 10-K for the year ended December 31, 2007.

The preparation of financial statements in accordance with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Inventory. Inventory is stated at the lower of cost or market and is accounted for on the “first in, first out” method. Based on negotiations with vendors, title generally passes to us when merchandise is put on board. Merchandise to which we have title but have not yet received is recorded as “Inventory in transit”. In addition, the value of inventory is periodically reduced for slow-moving or obsolete inventory based on management's review of items on hand compared to their estimated future demand.

The components of inventory consist of the following:

	As of	
	June 30, 2008	December 31, 2007
Inventory on hand:		
Finished goods held for sale	\$13,817,053	\$16,482,845
Raw materials and work in process	442,559	633,188
Inventory in transit	1,051,335	357,319
	\$15,310,947	\$17,473,352

Goodwill and Other Intangibles. Statement of Financial Accounting Standards No. 142, "Goodwill and Other Intangible Assets" (“SFAS 142”) prescribes a two-phase process for impairment testing of goodwill, which is performed annually, absent indicators of impairment during the interim. The first phase screens for impairment, while the second phase (if necessary) measures the impairment. We have elected to perform the annual analysis during the fourth calendar quarter of each year. As of December 31, 2007, management determined that the present value of the discounted estimated future cash flows of the stores associated with the goodwill is sufficient to support their

respective goodwill balances. No indicators of impairment were identified during the first six months of 2008.

A summary of changes in our goodwill for the periods ended June 30, 2008 and 2007 is as follows:

	Leather Factory	Tandy Leather	Total
Balance, December 31, 2006	\$362,733	\$383,406	\$746,139

Impairments	-	-	-
Balance, June 30, 2008	\$604,120	\$383,406	\$987,526

Other intangibles consist of the following:

	As of June 30, 2008			As of December 31, 2007		
	Accumulated			Accumulated		
	Gross	Amortization	Net	Gross	Amortization	Net
Trademarks, Copyrights	\$544,369	\$301,630	\$242,739	\$544,369	\$283,485	\$260,884
Non-Compete Agreements	153,000	37,250	115,750	153,000	29,750	123,250
	\$697,369	\$338,880	\$358,489	\$697,369	\$313,235	\$384,134

We recorded amortization expense of \$25,645 during the first six months of 2008 compared to \$19,146 during the first half of 2007. All of our intangible assets are subject to amortization under SFAS 142. Based on the current amount of intangible assets subject to amortization, the estimated amortization expense for each of the succeeding five years is as follows:

	Wholesale Leathercraft	Retail Leathercraft	Total
2008	\$20,954	\$30,337	\$51,291
2009	20,954	30,337	51,291
2010	20,954	30,337	51,291
2011	20,027	30,337	50,364
2012	1,250	30,337	31,587

Revenue Recognition. Our sales generally occur via two methods: (1) at the counter in our stores, and (2) shipment by common carrier. Sales at the counter are recorded and title passes as transactions occur. Otherwise, sales are recorded and title passes when the merchandise is shipped to the customer. Our shipping terms are FOB shipping point.

We offer an unconditional satisfaction guarantee to our customers and accept all product returns. Net sales represent gross sales less negotiated price allowances, product returns, and allowances for defective merchandise.

Recent Accounting Pronouncements. In September 2006, the Financial Accounting Standards Board (“FASB”) issued Statement of Financial Accounting Standards No. 157, Fair Value Measurements (“SFAS 157”). SFAS 157 defines fair value, creates a framework within GAAP for measuring fair value, and expands disclosures about fair value measurements. In defining fair value, SFAS 157 emphasizes a market-based measurement approach that is based on the assumptions that market participants would use in pricing an asset or liability. SFAS 157 does not require any new fair value measurements, but does generally apply to other accounting pronouncements that require or permit fair value measurements. In February 2008, FASB issued FSP FAS 157-2, Effective Date of FASB Statement No. 157, which delays for one year the effective date of SFAS 157 for most nonfinancial assets and nonfinancial liabilities. Nonfinancial instruments affected by this deferral include assets and liabilities such as reporting units measured at fair value in a goodwill impairment test and nonfinancial assets acquired and liabilities assumed in a business combination. Effective January 1, 2008, we adopted SFAS 157 for financial assets and financial liabilities recognized at fair value on a recurring basis. The adoption of SFAS 157 for these items did not have a material impact on our financial position, results of operations and cash flows.

In February 2007, FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities — including an amendment of FASB Statement No. 115. This statement permits entities to choose to measure many financial instruments and certain other items at fair value. This statement is effective for financial statements issued for fiscal years beginning after November 15, 2007, including interim periods within that fiscal year. We did not elect the fair value option for any of our existing financial instruments as of June 30, 2008 and we have not determined whether or not we will elect this option for financial instruments we may acquire in the future.

In December 2007, FASB issued SFAS No. 141 (revised 2007), Business Combinations (“SFAS 141R”). SFAS 141R defines a business combination as a transaction or other event in which an acquirer obtains control of one or more businesses. Under SFAS 141R, all business combinations are accounted for by applying the acquisition method (previously referred to as the purchase method), under which the acquirer measures all identified assets acquired, liabilities assumed, and noncontrolling interests in the acquiree at their acquisition date fair values. Certain forms of contingent consideration and certain acquired contingencies are also recorded at their acquisition date fair values. SFAS 141R also requires that most acquisition related costs be expensed in the period incurred. SFAS 141R is effective for us in January 2009. SFAS 141R will change our accounting for business combinations on a prospective basis.

In December 2007, FASB issued SFAS No. 160, Noncontrolling Interests in Consolidated Financial Statements – an amendment of ARB No. 51 (“SFAS 160”). SFAS 160 requires a company to recognize noncontrolling interests (previously referred to as “minority interests”) as a separate component in the equity section of the consolidated statement of financial position. It also requires the amount of consolidated net income specifically attributable to the noncontrolling interest be identified in the consolidated statement of income. SFAS 160 also requires changes in ownership interest to be accounted for similarly, as equity transactions; and when a subsidiary is deconsolidated, any retained noncontrolling equity investment in the former subsidiary and the gain or loss on the deconsolidation of the subsidiary be measured at fair value. SFAS 160 is effective for us in January 2009. We are currently evaluating the impact, if any, SFAS 160 will have on our financial position, results of operations and cash flows.

In March 2008, FASB issued SFAS No. 161, Disclosures about Derivative Instruments and Hedging Activities (“SFAS 161:”). SFAS 161 requires a company with derivative instruments to disclose information that should enable financial statement users to understand how and why a company uses derivative instruments, how derivative instruments and related hedged items are accounted for under SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities, and how derivative instruments and related hedged items affect a company’s financial position, financial performance, and cash flows. SFAS 161 is effective for us in January 2009.

2. STOCK-BASED COMPENSATION

Edgar Filing: TANDY LEATHER FACTORY INC - Form 10-Q

We have one stock option plan which provides for stock option grants to non-employee directors. No options have been awarded under this plan as of June 30, 2008. We maintained two other stock option plans from 1995 until they expired in 2005 which provided for stock option grants to officers, key employees and non-employee directors. The expiration of the plans has no effect on the options previously granted. Options outstanding and exercisable were granted at a stock option price which was not less than the fair market value of our common stock on the date the option was granted and no option has a term in excess of ten years. Additionally, options vest and become exercisable either six months from the option grant date or in equal installments over a five year period. Prior to fiscal 2006, we accounted for stock-based compensation using the intrinsic value method prescribed in Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees, and related Interpretations and provided the required pro forma disclosures of SFAS No. 123, Accounting for Stock-Based Compensation.

On January 1, 2006, we adopted SFAS No. 123(R), Share-Based Payment, and elected to adopt the standard using the modified prospective transition method. Under this transition method, compensation cost associated with stock options recognized in 2006 includes: (1) amortization related to the remaining unvested portion of all share based payments granted prior to, but not vested as of December 31, 2005, based on the grant date fair value estimated in accordance with the original pro forma footnote disclosure provisions of FASB Statement No. 123 and (2) amortization related to all share based payments granted subsequent to December 31, 2005, based on the grant date fair value estimated in accordance with the provisions of SFAS No. 123(R). Accordingly, stock compensation award expense is recognized over the requisite service period using the straight-line attribution method. We recognized share based compensation expense of \$7,625 for each of the quarters ended June 30, 2008 and 2007, respectively, and \$15,250 for each of the six month periods ended June 30, 2008 and 2007, respectively, as a component of operating expenses.

During the six months ended June 30, 2008 and 2007, the stock option activity under our stock option plans was as follows:

	Weighted Average Exercise Price	# of shares	Weighted Average Remaining Contractual (in years)	Aggregate Intrinsic Value

4. SEGMENT INFORMATION

We identify our segments based on the activities of four distinct operations:

- Wholesale Leathercraft, which consists of a chain of warehouse distribution units operating under the name, The Leather Factory, located in North America;
- Retail Leathercraft, which consists of a chain of retail stores operating under the name, Tandy Leather Company, located in the North America;
- International Leathercraft, sells to both wholesale and retail customers. It carries the same products as North American stores. We started this operation in February 2008 and have one store located in Northampton, United Kingdom; and
- Other, which consists of Roberts, Cushman and Co., a producer of decorative hat trims sold directly to hat manufacturers.

Our reportable operating segments have been determined as separately identifiable business units and we measure segment earnings as operating earnings, defined as income before interest and income taxes.

Geographic sales information is based on the location of the customer. No single foreign country, except for Canada, accounted for any material amount of our consolidated net sales for the three or six-month periods ended June 30, 2008 or 2007. We do not have any significant long-lived assets outside of the United States.

5. MARKETABLE SECURITIES

Our investments are considered available-for-sale and consist of one auction rate security (“ARS”). ARS are intended to provide liquidity via an auction process that resets the applicable interest rate at predetermined calendar intervals, allowing investors to either roll over their holdings or gain immediate liquidity by selling such interests at par. The recent uncertainties in the credit markets have affected our holdings in our ARS investment as the auctions for this investment have failed to settle on the respective settlement dates. Consequently, our investment is not currently liquid and we will not be able to access these funds until a future auction of this investment is successful or a buyer is found outside of the auction process. We have classified this investment as a current asset because we believe that the issuer of the ARS has the ability to refinance this investment as evidenced by a partial redemption of our investment at par in July 2008. In addition, recent announcements indicate a buyer is expected to emerge beginning in January 2009 with an offer to buy at par specific ARS positions if a pending issuer redemption or successful auction is not likely. Nonetheless, there is no guarantee that redemption or sale of this investment will occur within the expected time frame. However, as of June 30, 2008, the ARS was only 5.1% of our total cash position, and consequently we believe we currently have the ability to hold this ARS investment until maturity if need be.

Our Business

We are the world’s largest specialty retailer and wholesale distributor of leather and leathercraft related items. We market our products to our growing list of customers through company-owned retail and wholesale stores. We are a Delaware corporation and our common stock trades on the American Stock Exchange under the symbol “TLF.” We operate our business in four segments: Wholesale Leathercraft, which operates wholesale stores in North America under the trade name, The Leather Factory, Retail Leathercraft, which operates retail stores in North America under the trade name, Tandy Leather Company, International Leathercraft, which operates combination retail/wholesale stores outside of North America under the trade name, Tandy Leather Factory, and Other. See Note 4 to the Consolidated Financial Statements for additional information concerning our segments.

Our Wholesale Leathercraft segment operates 30 company-owned wholesale stores in 20 states and three Canadian provinces. These stores are engaged in the wholesale distribution of leather and related items, including leatherworking tools, buckles and belt adornments, leather dyes and finishes, saddle and tack hardware, and do-it-yourself kits, to retailers, manufacturers, and end users. Our Wholesale Leathercraft segment also includes our National Account sales group.

Our Retail Leathercraft segment operates company-owned Tandy Leather retail stores in 34 states and five Canadian provinces. Tandy Leather, the oldest and best-known supplier of leather and related supplies used in the leathercraft industry, has been the primary leathercraft resource for decades. Tandy Leather's products include quality tools, leather, accessories, kits and teaching materials. In 2002, we began expanding Tandy Leather's industry presence by opening retail stores. As of August 1, 2008, we were operating 72 Tandy Leather retail stores located throughout the United States and Canada.

Our International Leathercraft segment operates one company-owned store in Northampton, United Kingdom. The store, which opened in February 2008, functions as a combination retail and wholesale store.

Our "Other" segment consists of Roberts, Cushman and Co., a wholly-owned subsidiary that custom designs and distributes decorative hat trims for headwear manufacturers.

Critical Accounting Policies

A description of our critical accounting policies appears in Item 7. Management's Discussions and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the year ended December 31, 2007.

Forward-Looking Statements

Certain statements contained in this report and other materials we file with the Securities and Exchange Commission, as well as information included in oral statements or other written statements made or to be made by us, other than statements of historical fact, are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements generally are accompanied by words such as "may," "will," "could," "should," "anticipate," "believe," "budgeted," "intend," "plan," "project," "potential," "estimate," "continue," or "future" variations thereof or other similar statements. There are certain important risks that could cause results to differ materially from those anticipated by some of the forward-looking statements. Some, but not all, of the important risks, including those described below, could cause actual results to differ materially from those suggested by the forward-looking statements. Please refer also to our annual report on Form 10-K for fiscal year 2007 for additional information concerning these and other uncertainties that could negatively impact the Company.

Ø We believe that the continued rise in oil and natural gas prices will increase the costs of the goods that we sell, including the costs of shipping those goods from the manufacturer to our stores and customers.

Various oils used to manufacture certain leather and leathercrafts are derived from petroleum and natural gas. Also, the carriers who transport our goods rely on petroleum-based fuels to power their ships, trucks and trains. They are likely to pass their increased costs on to us. We are unsure how much of this increase we will be able to pass on to our customers.

Ø Continued weakness in the economy in the United States, as well as abroad, may cause our sales to decrease or not to increase or adversely affect the prices charged for our products. Furthermore, negative trends in general consumer-spending levels, including the impact of the availability and level of consumer debt and levels of consumer confidence could adversely affect our sales.

General economic factors that are beyond our control impact our forecasts and actual performance. These factors include interest rates, recession, inflation, deflation, consumer credit availability, consumer debt levels, tax rates and policy, unemployment trends and other matters that influence consumer confidence and spending.

We assume no obligation to update or otherwise revise our forward-looking statements even if experience or future changes make it clear that any projected results, express or implied, will not be realized.

Results of Operations

Three Months Ended June 30, 2008 and 2007

The following tables present selected financial data of each of our four segments for the quarters ended June 30, 2008 and 2007. Certain prior year amounts have been reclassified to conform to the current year presentation.

	Quarter Ended June 30, 2008		Quarter Ended June 30, 2007	
	Sales	Operating Income	Sales	Operating Income
Wholesale Leathercraft	\$7,218,197	\$524,619	\$7,176,153	\$411,368

Total Operations	\$13,847,964	\$1,091,518	\$13,376,987	\$704,351

Consolidated net sales for the quarter ended June 30, 2008 increased \$471,000 or 4%, compared to the same period in 2007. Retail and Wholesale Leathercraft contributed \$393,000 and \$42,000 of additional sales, offset with a sales decrease of \$158,000 in Other. International Leathercraft added new sales of \$194,000 in this year's second quarter. Operating income on a consolidated basis for the quarter ended June 30, 2008 was up 55% or \$387,000 over the second quarter of 2007.

The following table shows in comparative form our consolidated net income for the second quarters of 2007 and 2006:

	2008	2007	% Change
Net income	\$655,250	\$396,692	65.2%

Wholesale Leathercraft

Our Wholesale Leathercraft operation consists of 30 wholesale stores and our National Account group. The following table presents the combined sales mix by customer categories for the quarters ended June 30, 2008 and 2007:

Customer Group	Quarter ended	
	06/30/08	06/30/07
RETAIL (end users, consumers, individuals)	25%	21%
INSTITUTION (prisons, prisoners, hospitals, schools, youth organizations, etc.)	10%	9%

	\$7,218,197	\$7,176,153	\$42,044	0.6%

Edgar Filing: TANDY LEATHER FACTORY INC - Form 10-Q

Our same store sales declined 4% in the second quarter of 2008, as compared with the same period in 2007. Compared to the second quarter of 2007, sales increased slightly in the retail and institution customer categories while sales to our wholesale and manufacturer customer groups were down, which we attribute to the general economic conditions. Sales to our national account customers were up 34% for the quarter compared to the same quarter last year due to some one-time sales of merchandise normally stocked for Wal-Mart, a former customer.

Operating income for Wholesale Leathercraft during the quarter ended June 30, 2008 increased by \$113,000 from the comparative 2007 quarter, an increase of 28%. Operating expenses as a percentage of sales were 46.8%, down \$300,000 from the second quarter of 2007. Employee compensation decreased \$300,000 as we trimmed our headcount in most of our support departments. Outside services decreased \$100,000 due to the elimination of various consulting services. Rent expense decreased \$80,000 due to moving our corporate offices and support units to a company-owned facility at the end of the first quarter of 2008. Purchases of office and shipping supplies in our stores and support departments decreased \$60,000 in the current quarter as well. These reductions in operating expenses were partially offset by an increase in depreciation expense of \$175,000, the cause of which is the building and various equipment placed in service at the end of the first quarter of 2008.

Retail Leathercraft

Our Retail Leathercraft operation consists of 72 Tandy Leather retail stores at June 30, 2008, compared to 68 stores at June 30, 2007. Net sales were up approximately 7% for the second quarter of 2008 over the same quarter last year. A store is categorized as "new" until it is operating for the full comparable period in the prior year.

	# Stores	Qtr Ended 06/30/08	Qtr Ended 06/30/07	\$ Incr (Decr)	% Incr (Decr)

Total sales	72	\$6,235,427	\$5,842,198	\$393,229	6.7%

The following table presents sales mix by customer categories for the quarters ended June 30, 2008 and 2007 for our Retail Leathercraft operation:

Customer Group	Quarter Ended	
	06/30/08	06/30/07
RETAIL (end users, consumers, individuals)	60%	61%
INSTITUTION (prisons, prisoners, hospitals, schools, youth organizations, etc.)	11%	10%
WHOLESALE (resellers & distributors, saddle & tack shops, authorized dealers, etc.)	28%	26%
NATIONAL ACCOUNTS	-	-
MANUFACTURERS	1%	3%
	100%	100%

Sales to our Retail, Institution, and Wholesale customer groups in the second quarter of 2008 increased compared to the second quarter of 2007, while sales to our Manufacturer customer group declined. These sales trends are consistent throughout the company – that is our retail business appears to be holding fairly steady while our wholesale business has declined. We believe the weak economy is the primary reason for these sales trends. The retail stores averaged approximately \$29,000 in sales per month for the second quarter of 2008.

Operating income in the second quarter of 2008 increased \$306,000 from the comparative 2007 quarter to 9.2% of sales, compared to 4.6% of sales in the second quarter of 2007. Our gross margin improved from 59.0% to 62.5% due

to the increase in retail sales, which brings a higher gross profit margin per sales dollar, and a reduction in sales to manufacturers, which brings a lower gross profit margin per sales dollar. Operating expenses as a percentage of sales decreased slightly from 54.5% to 53.3%.

9

International Leathercraft

Sales totaled \$194,000 for the second quarter of 2008, generated from our new store located in the UK. The store was opened in February 2008. Gross profit margin was 57.9%. Operating expenses totaled \$120,000, with the largest contributors being employee compensation, advertising and shipping to customers.

Other (Roberts, Cushman)

Sales decreased \$158,000 or 44.1% for the second quarter of 2008. Gross profit margin improved to 49.7% compared to 41.6% in the comparable quarter in 2007. Operating income decreased \$24,000 due to various overhead expenses.

Other Expenses

We paid \$88,000 in interest expense in the second quarter of 2008 on the bank debt related to the building purchase compared to no interest expense in the second quarter last year. We earned \$32,000 during the second quarter of 2008 in interest income, down slightly from last year's second quarter interest income earned of \$34,000 due to a decrease in interest rates. We recorded \$6,000 in income during the second quarter of 2008 related to currency fluctuations from our Canadian and UK operations. Comparatively, in the second quarter of 2007, we recorded an expense of \$12,000 for currency fluctuations.

Six Months Ended June 30, 2008 and 2007

The following table presents selected financial data of each of our four segments for the six months ended June 30, 2008 and 2007:

Consolidated net sales for the six months ended June 30, 2008 were down 3%, decreasing \$776,000, compared to the same period in 2007. Retail Leathercraft contributed additional sales of \$410,000, offset by a combined sales decrease of \$1.4 million from Wholesale Leathercraft and Other. International Leathercraft added new sales of \$236,000. Operating income on a consolidated basis for the six months ended June 30, 2008 was down 31.8% or \$846,000 compared to the first half of 2007.

The following table shows in comparative form our consolidated net income for the first half of 2008 and 2007:

	2008	2007	% change
Net income	\$1,239,748	\$1,743,042	(28.9)%

Edgar Filing: TANDY LEATHER FACTORY INC - Form 10-Q

Operating income for the first six months of 2008 increased \$367,000 from the comparative 2007 period and as a percentage of sales, from 6.8% in the first half of 2007 to 9.5% in the first half of 2008. Gross margin improved from 59.8% to 62.4% due to an increase in retail sales and the high margins associated with that selling level. Operating expenses as a percentage of sales remained steady at 52.9% during the first half of 2008 as compared to the same period of 2007.

International Leathercraft

Sales totaled \$236,000 for the first six months of 2008, generated from our new store located in the UK, which opened in February 2008. Gross profit margin was 60.3%, which is slightly higher than the comparable U.S. stores. The store's higher profit margin is primarily due to the store's unique sales mix and the level at which we set our selling prices in the UK. We establish such levels to compensate for the higher cost of doing business overseas compared to the US. We do not expect the gross margins to maintain this level in the future. Operating expenses totaled \$190,000 and the operating loss generated year-to-date totaled \$49,000.

Other (Roberts, Cushman)

Sales decreased \$262,000 in the first six months of 2008 compared to the same period in 2007. Gross profit margins decreased by \$101,000 and operating margin decreased by \$55,000. Operating expenses decreased by \$46,000 in the first half of 2008 compared to 2007.

Other Expenses

We paid \$170,000 in interest expense in the first six months of 2008 on our debt related to our building purchase compared to no interest expense in the first half of 2007. We earned \$73,000 in interest income in the six months ended June 30, 2008, down from last year's interest income of \$81,000. We recorded \$21,000 in income during the six months ended June 30, 2008 for currency fluctuations from our Canadian and UK operations. Comparatively, in the first half of 2007, we recorded an expense of \$5,000 for currency fluctuations.

Capital Resources, Liquidity and Financial Condition

On our consolidated balance sheet, total assets increased from \$37.6 million at year-end 2007 to \$40.9 million at June 30, 2008. The increase in cash and property, offset partially by the decrease in inventory, accounted for the increase. Total stockholders' equity increased from \$29.8 million at December 31, 2007 to \$31.0 million at June 30, 2008. Most of the increase was attributable to earnings in the first half of this year. Our current ratio fell from 7.5 at December 31, 2007 to 5.7 at June 30, 2008 due to the increase in the current portion of our debt.

Our investment in inventory decreased by \$2.2 million at June 30, 2008 from year-end 2007. The decrease is attributable a decrease in our purchases to match the sales trend. Inventory turnover increased to an annualized rate of 3.66 times during the first half of 2008, from 3.13 times for the first half of 2007. Inventory turnover was 3.19 times for all of 2007. We compute our inventory turns as sales divided by average inventory. At the end of the second quarter of 2008, our total inventory on hand was 6% below our internal targets for optimal inventory levels. We plan to increase our inventory in our central warehouse during the remainder of the year in order to maintain a sufficient inventory to support the stores' needs.

Trade accounts receivable was \$2.4 million at June 30, 2008, down \$183,000 from \$2.6 million at year-end 2007. The average days to collect accounts for the first half of 2008 were 59.2 days, up from the first half of 2007 of 50.4 days. We have adjusted our credit policy given the current economic environment and are analyzing our customers with open accounts to ensure collectability of the accounts.

Accounts payable increased \$292,000 to \$1.8 million at the end of the June 2008, due to an intentional slowdown of payments to vendors, taking full advantage of the payment terms. Accrued expenses and other liabilities increased \$721,000, the majority of which is the increase in inventory in transit to us at June 30, 2008 compared to December 31, 2007.

During the first half of 2008, cash flow provided by operating activities was \$5.5 million. The decrease in inventory, the increase in accounts payable and accrued expenses, and net income accounted for the majority of the cash provided. Cash flow used in investing activities totaled \$2.7 million, consisting of \$3 million in fixed asset purchases, the majority of which was the improvements to the building, offset partially by the decrease in other assets. Cash flow used by financing activities totaled \$124,000, consisting of payments on our capital lease of \$104,000 and payments on our building debt of \$34,000, offset partially by proceeds from employee stock option exercises totaling \$14,000.

We expect to fund our operating and liquidity needs as well as our current expansion of Tandy Leather's retail store chain from a combination of current cash balances and internally generated funds.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

For disclosures about market risk affecting us, see Item 7A "Quantitative and Qualitative Disclosures About Market Risk" in our Annual Report on Form 10-K for fiscal year ended December 31, 2007. Our exposure to market risks has not changed significantly since December 31, 2007.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

Our management team, under the supervision and with the participation of our principal executive officer and our principal financial officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures as such term is defined under Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended, as of the last day of the fiscal period covered by this report, June 30, 2008. The term disclosure controls and procedures means our controls and other procedures that are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act of 1934, as amended, is accumulated and communicated to management, including our principal executive and principal financial officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. Based on this evaluation, our principal executive officer and our principal financial officer concluded that, as of June 30, 2008, our disclosure controls and procedures were effective at a reasonable assurance level.

Changes in Internal Control Over Financial Reporting

There have been no changes in our internal control over financial reporting during the fiscal quarter ended June 30, 2008 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
