012 Smile.Communications Submits Application for Mobile WiMAX Trials in Tel Aviv- Ramat Gan

Sunday May 4, 2:27 am ET

PETACH TIKVA, Israel, May 4 /PRNewswire-FirstCall/ -- Internet Gold - Golden Lines ltd (Nasdaq: IGLD; TASE) reports that her it's subsidiary 012 Smile.Communications (Nasdaq: SMLC; TASE), a growth-oriented provider of communication services in Israel, today announced that it has applied to Israel's Communications Ministry to expand its license for mobile WiMAX trials to allow an expanded trial in the Tel Aviv-Ramat Gan area, Israel's most densely populated business and residential center. Through the trial, the Company plans to provide users with an Internet connectivity rate of up to a high 10MB, a speed sufficient to support both mobile telephony and a variety of Internet-based applications. The trial will utilize WiMAX technology provided by Alvarion (Nasdaq: ALVR - News).

012 Smile.Communications was the first Israeli company to receive a license for the operation of a fixed WiMAX trial in March 2007. Later, the Company, in partnership with Alvarion and Intel, expanded the trial to bring WiMAX-based Internet and telephony services to the city of Sderot, currently a security challenged region in Israel's Western Negev. Under the framework of this innovative initiative, the Company brought connectivity to kindergartens and an elementary schools that had relocated in light of the security situation, and established a Mobile WiMAX area covering the campus of the region's Sapir Institute.

Ms. Stella Hendler, President and CEO of 012 Smile.Communications, commented, "We view Mobile WiMAX as an important technology for supporting a portion of the mobile services that we intend to roll out in the future, and our Tel Aviv trial is one more link in a chain of the activities that are preparing us to launch countrywide services. As soon as the Ministry of Communications grants us the required licenses and terms, we will be ready to enter the cellular market as an additional operator. Through the provision of services that combine MVNO, Mobile WiMAX and Mobile VoB (both VoB over 3G and VoB over Wi-Fi) technologies, we believe that we will be able to offer attractive cellular services, both from the standpoint of price and from the technological advancement of our offerings."

About Internet Gold

Internet Gold is one of Israel's leading communications groups with a major presence across all Internet-related sectors. Its 72.4% owned subsidiary, 012

012 Smile.Communications Ltd Announces That it has Been Notified of a Proposed Class Action Lawsuit With Respect to its International Calling Cards

Sunday May 4, 2:38 am ET

PETACH TIKVA, Israel, May 4 /PRNewswire-FirstCall/ -- Internet Gold - Golden Lines ltd (Nasdaq: IGLD; TASE) reports that her it's subsidiary 012 Smile.Communications (Nasdaq: SMLC; TASE), a growth-oriented provider of communication services in Israel, today announced that the company received a monetary claim and an application for permission to file it as a class action lawsuit against it, as well as against Netvision 013 Baraq Ltd.

The claim was filed in the Petach Tikva District Court by a citizen of the Philippines who is employed in Israel, and who claims to have used the international calling cards of two international telephony companies to call abroad. The purported plaintiff claims that the two international telephony companies improperly calculated the length of the international calls in

Edgar Filing: INTERNET GOLD GOLDEN LINES LTD - Form 6-K

whole-minutes units rather than in one-second units. The purported plaintiff also alleges that he and others were over charged due to a longer call duration calculation than the actual duration of the calls and that he and others were not informed about the per-minute calculation policy.

The purported plaintiff seeks court permission to file the claim as a class action lawsuit by virtue of Israel's Class Actions Law on behalf of groups of persons that include anyone who purchased calling cards distributed by one of the two international telephony companies during the seven year period prior to filing the claim or during the term of the proceedings. The purported plaintiff has alleged that the damages caused to all members of the purported class by both companies total approximately NIS 158 million.

The company has not had an opportunity to review the claims with its counsel and is unable to provide any comments at this time.
