Eldorado Gold Commences Efemçukuru Construction

VANCOUVER, BC Paul N. Wright, President and Chief Executive Officer of Eldorado Gold Corporation (Eldorado, the Company, or we) is pleased to announce that the Company is in receipt of all permits and approvals necessary to construct its Efemçukuru mine (Efemçukuru or the mine) in Turkey.

Site preparation activities are now underway with work initially focused on providing upgraded access to the site and the necessary site clearing.

The Company has received notice that the Fourth Administrative Court in Izmir has ruled in favour of the Environmental Positive Opinion issued by the Ministry of Environment and Forestry for the Project.

The 2008 Exploration Programme has commenced on site with the initiation of surface exploration work aimed at identifying new targets outside of the presently defined resource. Crews have been conducting soil sampling over an extended grid and preparations are being made for a detailed magnetic survey. Initial soil sampling has identified extensions to anomalies at the north end of the system and we will be following up with detailed mapping and sampling to better understand the significance of the extensions.

We are excited to have commenced construction activities on our second mine in Turkey and are particularly pleased with the recent court decision confirming the integrity of the Efemçukuru Environmental Impact Assessment, commented Paul N. Wright, President and Chief Executive Officer.

Eldorado is a gold producing and exploration company actively growing businesses in Brazil, Turkey, China and surrounding regions. With our international expertise in mining, finance and project development, together with highly skilled and dedicated staff, we believe that Eldorado is well positioned to grow in value as we create and pursue new opportunities.

ON BEHALF OF

ELDORADO GOLD CORPORATION

Paul N. Wright

Paul N. Wright

President and Chief Executive Officer

Certain of the statements made herein may contain forward-looking statements or information within the meaning of the United States Private Securities Litigation Reform Act of 1995, and forward looking statements or information within the meaning of the Securities Act (Ontario). Such forward looking statements or information include, but are not limited to statements or information with respect to unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Forward-looking statements or information are subject to a variety of risks and uncertainties, which could cause Page 2 actual events, or results to differ from those reflected in the forward-looking statements or information. Should one or more of these risks and uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those described in forward looking statements. Specific reference is made to Forward Looking Statements and Risk Factors in the Company's Annual Information Form and Form 40-F dated March 31, 2008. Forward-looking statements herein include statements regarding the expectations and beliefs of management. Such factors included, amongst others the following: gold price volatility; impact of any hedging activities,
