PROXY STATEMENT

FOR AN ANNUAL MEETING OF STOCKHOLDERS

TO BE HELD MAY 4, 2006

This Proxy Statement is provided to the stockholders of Darling International Inc. (Darling, we, or our company) in connection with the solicitation of proxies by the Board to be voted at an Annual Meeting of Stockholders to be held at the Omni Mandalay, 221 East Las Colinas Blvd., Irving, Texas 75039, at 10:00 a.m., local time, on Thursday, May 4, 2006, and at any adjournment or postponement thereof. This Proxy Statement and the enclosed proxy is first being sent or given to stockholders on or about April 11, 2006. This Proxy Statement provides information that should be helpful to you in deciding how to vote on the matters to be voted on at the Annual Meeting.

We are asking you to elect the six nominees as directors of Darling until the next annual meeting of stockholders (Proposal 1).

QUESTIONS AND ANSWERS ABOUT VOTING

What am I voting on?

The election of six directors for terms of one year (Proposal 1).

Who is entitled to vote at the Annual Meeting?

You are entitled to vote your shares of Darling common stock at the Annual Meeting and any adjournment or postponement thereof if our records show that you owned the shares at the close of business on April 3, 2006. A total of 64,480,205 shares of common stock are eligible to vote at the Annual Meeting. Each share of common stock is entitled to one vote on each matter properly brought before the Annual Meeting. The enclosed proxy card shows the number of shares you are entitled to vote at the meeting.

How do I vote?

Your shares may only be voted at the Annual Meeting if you are present in person or are represented by proxy. Whether or not you plan to attend the Annual Meeting, we encourage you to vote by proxy to assure that your shares will be represented. To vote by proxy, complete the enclosed proxy card and mail it in the postage-paid envelope provided, or you may vote by using the telephone or vote on the Internet, according to the instructions provided on the enclosed proxy card.

You may revoke your proxy at any time before it is exercised by timely submission of a written revocation to our Secretary, submission of a properly executed later-dated proxy or by voting by ballot at the Annual Meeting. Voting by proxy will in no way limit your right to vote at the Annual Meeting if you later decide to attend in person. Attendance at the Annual Meeting will not by itself constitute a revocation of a proxy you must vote at the Annual Meeting.

If your shares are held in the name of a bank, broker or other holder of record (i.e., a street name), you will receive instructions from the holder of record that you must follow in order for your shares to be voted.

All shares entitled to vote that are represented by properly-completed proxies received prior to the Annual Meeting and not revoked will be voted at the Annual Meeting in accordance with your instructions. If you do not indicate how your shares should be voted, the shares represented by your properly-completed proxy will be voted FOR Proposal 1 and in the discretion of the persons named in the proxies as proxy appointees as to any other matter that may properly come before the Annual Meeting.

Who may attend the Annual Meeting?

All stockholders that were stockholders of Darling as of the record date April 3, 2006, or their authorized representatives, may attend the Annual Meeting. Admission to the meeting will be on a first-come, first-served basis. If your shares are held in the name of a bank, broker or other holder of record and you plan to attend the Annual Meeting, you should bring proof of ownership to the Annual Meeting, such as a bank or brokerage account statement, to ensure your admission.

How will votes be counted?

The Annual Meeting will be held if a quorum, consisting of a majority of the outstanding shares entitled to vote, is represented in person or by proxy. Abstentions and broker non-votes will be counted as present and entitled to vote for purposes of determining a quorum. A broker non-vote occurs when a nominee, such as a bank or broker, holding shares for a beneficial owner, does not vote on a particular proposal because the nominee does not have discretionary voting power with respect to that item and has not received instructions from the beneficial owner. Under the rules of the American Stock Exchange (AMEX), absent instructions from the beneficial owners, banks and brokers who hold shares in street name for beneficial owners have the authority to vote on the election of directors and on routine corporate matters.

With respect to the nominees for director under Proposal 1 Election of Directors, to be elected, each nominee must receive a plurality of all votes cast with respect to such position as director. Accordingly, shares not voted in the election of directors (including shares covered by a proxy as to which authority is withheld to vote for all nominees) and shares not voted for any particular nominee (including shares covered by a proxy as to which authority is withheld to vote for only one or less than all of the identified nominees) will not prevent the election of any of the nominees for director.

Who will count the votes?

Our transfer agent, Computershare Trust Company, N.A., will tally the vote, and will serve as inspector of the Annual Meeting.

How are proxies being solicited and who will pay for the solicitation of proxies?

We will bear the expense of the solicitation of proxies. In addition to the solicitation of proxies by mail, solicitation may be made by our directors, officers and employees by other means, including telephone, over the Internet or in person. No special compensation will be paid to our directors, officers or employees for the solicitation of proxies. To solicit proxies, we will also request the assistance of banks, brokerage houses and other custodians, nominees or fiduciaries, and, upon request, will reimburse such organizations or individuals for their reasonable expenses in forwarding soliciting materials to beneficial owners and in obtaining authorization for the execution of proxies. We will also use the services of the proxy solicitation firm of The Altman Group to assist in the solicitation of proxies. For such services, we will pay a fee that is not expected to exceed \$5,000, plus out-of-pocket expenses.

Who can help answer my other questions and to whom should I send a request for copies of certain material?

If you have more questions about voting, wish to obtain another proxy card, or wish to receive a copy of our Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2005 without charge, you should contact:

CORPORATE GOVERNANCE

In accordance with the General Corporation Law of the State of Delaware and our certificate of incorporation, as amended, and our amended and restated bylaws, our business, property and affairs are managed under the direction of the Board.

Independent Directors

The Board has determined that each of Messrs. Albrecht, Flannery, Klink, Macaluso and Urbut meet the independence requirements of the AMEX.

Meetings of the Board

During the fiscal year ended December 31, 2005, the Board held five regular meetings and seven special meetings. Each of the directors attended at least 75% of all meetings held by the Board and all meetings of each committee of the Board on which such director served during the fiscal year ended December 31, 2005.

Our bylaws require that our Chief Executive Officer also serve as Chairman of the Board.

Lead Director

Because the Chairman of the Board is also the Chief Executive Officer, the Board has designated an independent director to serve as lead director to enhance the board's ability to fulfill its responsibilities independently. The directors appointed Mr. Macaluso as lead director. The lead director's role includes:

- Convening and chairing meetings of the non-employee directors as necessary from time to time.
- Coordinating the work and meetings of the standing committees of the board.
- Acting as liaison between directors, committee chairs and management.
- Serving as an information resource for other directors.

Committees of the Board

The Board has an audit committee, compensation committee, and nominating and corporate governance committee.

Audit Committee. The audit committee currently consists of Messrs. Urbut (Chairman), Albrecht, Flannery and Klink, each of whom is independent under the rules of the AMEX and the Securities and Exchange Commission (SEC). The audit committee continued its long-standing practice of meeting directly with the Company's internal audit staff to discuss the current year's audit plan and to allow for direct interaction between the audit committee members and the Company's internal auditors. The audit committee met six times during the fiscal year ended December 31, 2005. The audit committee is generally responsible for:

- Appointing, compensating, retaining and overseeing the Company's independent auditors
- Reviewing and discussing the adequacy of both the Company's internal accounting controls and other factors affecting the integrity of the Company's financial reports with management and the Company's independent auditors.
- Reviewing and discussing with management and the independent auditors critical accounting policies and the appropriateness of such policies.

Reviewing and discussing with management and the independent auditors any material financial or non-financial arrangements that do not appear on the financial statements and any related party transactions.

Reviewing the Company's annual and interim reports to the SEC, including the financial statements and the Management's Discussion and Analysis portion of those reports, and recommending appropriate action to the Board.

Discussing the Company's audited financial statements and any reports of the independent auditor with respect to interim periods with management and the independent auditors, including a discussion with the independent auditors regarding the matters to be discussed by Statement of Auditing Standards No. 61 and No. 90.

Reviewing relationships between the independent auditors and the Company in accordance with Independence Standards Board Standard No. 1.

Creating and periodically reviewing the Company's whistleblower policy.

The Board has determined that all members of the audit committee are financially literate and have financial management expertise, as the Board has interpreted such qualifications in its business judgment. The Board has designated Mr. Urbut as an audit committee financial expert in accordance with the requirements of the SEC and the AMEX.

The Board has adopted a written charter setting out the audit-related functions the audit committee is to perform. A copy of the audit committee charter is attached to last year's proxy statement. A copy of the audit committee charter can also be found on our website at darlingii.com/investors/governance.html.

Please see page 23 of this Proxy Statement for the Report of the Audit Committee.

Compensation Committee. The compensation committee currently consists of Messrs. Albrecht (Chairman), Flannery, Klink and Macaluso, each of whom is independent under the rules of the AMEX and the SEC. The compensation committee met three times during the fiscal year ended December 31, 2005. The compensation committee is generally responsible for:

Reviewing our policies relating to employee and executive compensation.

Reviewing and administering our incentive, bonus and employee benefit plans, including the 2004 Omnibus Incentive Plan.

Reviewing and evaluating the performance of the Chief Executive Officer.

Reviewing and recommending to the Board the direct and indirect compensation and employee benefits of our executive officers.

Reviewing management's long-range planning for executive development and succession.

Producing the annual report on executive compensation for inclusion in our annual proxy statement.

Compensation Committee Interlocks and Insider Participation. During the year ended December 31, 2005, the Company had no interlocking relationships in which (i) an executive officer of the Company served as a member of the compensation committee of another entity, one of whose executive officers served on the compensation committee of the Company, (ii) an executive officer of the Company served as a director of another entity, one of whose executive officers served on the compensation committee of the Company, and (iii) an executive officer of the Company served as a member of the compensation committee of another entity, one of whose executive officers served as a director of the Company.

Please see page 17 of this Proxy Statement for the Report of the Compensation Committee.

Nominating and Corporate Governance Committee. The nominating and corporate governance committee currently consists of Messrs. Klink (Chairman), Flannery, Macaluso and Urbut, each of whom is independent under the rules of the AMEX and the SEC. The nominating and corporate governance committee met two times during the fiscal year ended December 31, 2005. The nominating and corporate governance committee is generally responsible for:

Identifying, reviewing, evaluating and recommending potential candidates to serve as directors of our company.

Recommending to the Board the number and nature of standing and special committees to be created by the Board.

Recommending to the Board the members and chairperson for each Board committee.

Developing, recommending and periodically reviewing and assessing our Corporate Governance Principles and Code of Conduct and making recommendations for changes to the Board.

Establishing and periodically reevaluating the standards for criteria for membership for, and the process of selection of, new directors for the Board.

Communicating with our stockholders regarding nominees for the Board and considering whether to recommend such nominees to the Board.

Reviewing the Board's policy on compensation of directors and recommending to the Board any changes as appropriate.

Reviewing and addressing any potential conflicts of interest of our directors and executive officers.

Developing criteria for and assisting the Board in its annual self-evaluation.

Director Compensation

Non-employee members of the Board are paid a \$35,000 annual retainer. Each outside director receives \$1,500 for each board or committee meeting attended in person or by video where minutes are taken or \$1,000 if attended by telephone. The chairman of each of the audit, compensation, and nominating and corporate governance committees receives an additional \$7,500, \$5,000 and \$2,500, respectively, as an annual retainer, and the lead director of the Board receives an additional \$10,000 annual retainer.

Employee directors receive no additional compensation for serving on the Board.

On May 11, 2005, the Company's stockholders approved the 2004 Omnibus Incentive Plan. Awards to purchase an aggregate of 500,000 shares of our common stock may be granted to non-employee directors under the 2004 Omnibus Incentive Plan. The 2004 Omnibus Incentive Plan superceded the Non-Employee Directors Stock Option Plan. Under the Non-Employee Directors Stock Option Plan, prior to May 17, 2000, each outside director was granted an option to purchase 15,000 shares of our common stock on the tenth business day of July 1995 and was granted an identical option on the tenth business day of July of each year thereafter. Each outside director who was elected after July 1995, but prior to May 17, 2000, was granted an option to purchase 21,000 shares of our common stock on the day he was first elected by our stockholders as a member of the Board. Pursuant to an amendment to the Non-Employee Directors Stock Option Plan adopted on May 17, 2000, each outside director elected on or after May 17, 2000 was granted options to buy 4,000 shares of our common stock when he was first elected to the Board by our stockholders; and this practice is continued under the 2004 Omnibus Incentive Plan. Upon consummation of the recapitalization of our company in May 2002, all then outstanding options granted under the Non-Employee Directors Stock Option Plan became exercisable in full, whether or not they were otherwise exercisable.

Edgar Filing: DARLING INTERNATIONAL INC - Form DEF 14A

Since the May 17, 2000 amendment under the Non-Employee Directors Stock Option Plan and now under the 2004 Omnibus Incentive Plan, on the date of each calendar year on which our independent auditors sign their annual audit report, options to purchase 4,000 shares of our common stock have been and will be granted to each of our non-employee directors; but, such grants occur only if we obtain 90% of our target EBITDA for our most recent completed fiscal year. The per share exercise price of each option granted under the 2004 Omnibus Incentive Plan is equal to the fair market value per share of our common stock on the date of grant of the options relating thereto. Twenty-five percent of the shares subject to each option vest on the date that is six months following the date of grant and twenty-five percent of the shares vest on each of the first, second and third anniversaries of the date of grant thereafter.

On March 17, 2005, each non-employee director as of such date, Messrs. Albrecht, Flannery, Klink, Macaluso and Peterson, was granted 4,000 options with a per share exercise price of \$4.04 under the Non-Employee Directors Stock Option Plan. Additionally, on May 11, 2005, upon his election to the Board, Mr. Urbut was granted 4,000 options with a per share exercise price of \$3.95 under the 2004 Omnibus Incentive Plan. The per share exercise price of each option granted to non-employee directors under the 2004 Omnibus Incentive Plan is equal to the value per share closing price of our common stock on the AMEX on the date of grant of the options relating thereto. In total, 24,000 options were granted to non-employee directors during the fiscal year ended December 31, 2005.

We did not obtain 90% of our target EBITDA for the fiscal year 2005 and, therefore, each non-employee director was not granted 4,000 shares of our common stock as contemplated in our Long-Term Incentive Program.

As an element of annual non-employee director compensation, pursuant to the 2004 Omnibus Incentive Plan, each non-employee director will receive an annual grant of \$20,000 in restricted stock on the third business day after the Company releases its annual financial results. The number of shares granted is determined by dividing \$20,000 by the fair market value per share of our common stock on the second business day after we release the annual financial results. On March 21, 2006, each non-employee director received a grant of \$20,000 in restricted stock.

Director Nomination Process

The Board is responsible for approving nominees for election as directors. To assist in this task, the Board has designated a standing committee, the nominating and corporate governance committee, which is responsible for reviewing and recommending nominees to the Board. The committee is comprised solely of independent directors as defined by the rules of the AMEX and the SEC. The Company's Board has adopted a written charter for the committee. A copy of the nominating and corporate governance committee charter is attached to our 2004 proxy statement. A copy of the nominating and corporate governance committee charter can also be found on our website at darlingii.com/investors/governance.html.

The Board has a policy of considering director nominees recommended by stockholders. A stockholder who wishes to recommend a prospective board nominee for the nominating and corporate governance committee's consideration can write to the Nominating and Corporate Governance Committee, c/o Secretary, Darling International Inc., P.O. Box 141481, Irving, Texas 75014-1481. In addition to considering nominees recommended by stockholders, the committee also considers prospective board nominees recommended by current directors, management and other sources. The committee evaluates all prospective board nominees in the same manner regardless of the source of the recommendation.

In evaluating prospective nominees, including nominees recommended by stockholders, the committee looks for the following minimum qualifications, qualities and skills:

- Highest personal and professional ethics, integrity and values.
- Outstanding achievement in the individual's personal career.
- Breadth of experience.

Ability to make independent, analytical inquiries.

Ability to contribute to a diversity of viewpoints among board members.

Willingness and ability to devote the time required to perform board activities adequately (in this regard, the committee will consider the number of other boards of directors on which the individual serves).

Ability to represent the total corporate interests of the Company (a director will not be selected to, nor will he or she be expected to, represent the interests of any particular group).

Stockholders who wish to submit a proposal for inclusion of a nominee for director in our proxy materials must also comply with the deadlines and requirements of Rule 14a-8 promulgated by the SEC. Please see **Additional Information** in this proxy statement for more information regarding the procedures for submission by a stockholder of a director nominee or other proposals.

Stockholders and others who wish to communicate with the Board as a whole, or to individual directors, may write them: c/o Secretary, Darling International Inc., P.O. Box 141481, Irving, Texas 75014-1481. All communications sent to this address will be shared with the Board, or the lead director, if so addressed.

It is a policy of the Board to encourage directors to attend each annual meeting of stockholders. Such attendance allows for direct interaction between stockholders and members of the Board. All of our directors attended our 2005 annual stockholders meeting.

Required Vote

Employment Agreements

We are party to an employment agreement with Mr. Stuewe dated July 1, 2003, pursuant to which Mr. Stuewe is employed for a period of three years, subject to (i) extension for successive one-year periods thereafter unless terminated by not less than six months prior notice by either us or Mr. Stuewe, and

(ii) termination with or without cause as defined in the agreement.

Mr. Stuewe is employed as our Chairman and Chief Executive Officer and serves as a member of our Board. The employment agreement provides for an initial annual base salary of \$400,000, subject to annual increases at the discretion of the compensation committee of our Board. The agreement also provides for Mr. Stuewe to receive our standard retirement and welfare benefits for executive officers.

Mr. Stuewe's employment agreement also includes a severance agreement as described below.

On February 3, 2003, we granted Mr. Stuewe stock options to purchase 250,000 shares of our common stock at \$1.96 per share (an exercise price equal to 100% of the fair market value of our common stock on that date) pursuant to the terms of our 1994 Employee Flexible Stock Option Plan and an individual stock option agreement between Mr. Stuewe and us. On each of February 3, 2003, 2004, 2005 and 2006, 62,500 options became exercisable.

In addition, at the commencement of Mr. Stuewe's current employment agreement, we granted Mr. Stuewe stock options to purchase 250,000 shares of our common stock at \$2.30 per share (an option exercise price equal to 100% of the fair market value of our common stock on the effective date), pursuant to the terms of the 1994 Employee Flexible Stock Option Plan and of an individual stock option agreement between Mr. Stuewe and us. On each of July 1, 2003, 2004 and 2005, 62,500 options became exercisable and 62,500 options will become exercisable on July 1, 2006.

During his employment period, Mr. Stuewe is entitled to receive a bonus in an amount equal to 60% or greater of Mr. Stuewe's then current base salary based upon the relationship of actual EBITDA

(as defined in his employment agreement) for a fiscal year to budgeted EBITDA, as well as agreed upon goals as established by the Board for that fiscal year.

We have entered into severance agreements with each of Messrs. Stuewe, Muse, Katchen, Kilanowski and Seemann, which provide, subject to certain conditions, for severance compensation equal to one year's compensation to the officer in the event of a termination of the officer's employment unless such termination is voluntary or based upon cause as defined in the agreements.

Equity Compensation Plans

The following table sets forth certain information as of December 31, 2005 with respect to our equity compensation plans (including individual compensation arrangements) under which our equity securities are authorized for issuance, aggregated by (i) all compensation plans previously approved by our security holders, and (ii) all compensation plans not previously approved by our security holders. The table includes:

- the number of securities to be issued upon the exercise of outstanding options;
- the weighted-average exercise price of the outstanding options; and
- the number of securities that remain available for future issuance under the plans.

Plan Category	Number of securities to be issued upon exercise of outstanding options, warrants and rights	Weighted-average exercise price of outstanding options, warrants and rights	Number of securities remaining available for future issuance
Equity compensation plans approved by security holders	1,751,005	\$2.70	3,796,400
Equity compensation plans not approved by security holders	0		0
Total	1,751,005	\$2.70	3,796,400

Annual Incentive Plan

Our annual incentive plan is administered by our compensation committee and provides incentive cash bonuses to corporate, regional and plant management employees. In fiscal 2005, the annual incentive plan was tied to plan components comprised of actual levels achieved for EBITDA, collection/service charge revenue, operating expenses, safety goals, raw material procurement and individual initiatives. Incentive earned under each component is calculated independently of the other components and is expressed in terms of a percentage of base salary.

Pension Plan Table

The following table illustrates the approximate annual pension that the named executive officers would receive under the Salaried Employees Retirement Plan if the plan remains in effect and such executive officers retired at age 65. However, because of changes in the tax laws or future adjustments to benefit plan provisions, actual pension benefits could differ significantly from the amounts set forth in the table.

Average Annual Salary During the Last 5 Years	Estimated Annual Pension (Years of Service)				
	15	20	25	30	35
\$ 150,000	\$ 40,500	\$ 54,000	\$ 67,500	\$ 71,250	\$ 75,000
175,000	47,250	63,000	78,750	83,125	87,500
200,000	54,000	72,000	90,000	95,000	100,000
235,840	63,677	84,902	106,128	112,024	117,920

The above amounts do not reflect the compensation limitations for plans qualified under the Internal Revenue Code, effective January 1, 1994. Effective December 31, 2005 annual compensation in excess of \$210,000 (\$235,840 for 1993) is not taken into account when calculating benefits under the Retirement Plan. Such limitation will not, however, operate to reduce plan benefits accrued as of December 31, 1993.

If the named executive officers remain employees of our company until they reach age 65, the years of credited service for Messrs. Stuewe, Muse, Katchen, Kilanowski and Seemann will be as follows: Stuewe, 25 years; Muse, 16 years; Katchen, 40 years; Kilanowski, 40 years; and Seemann, 11 years.

Edgar Filing: DARLING INTERNATIONAL INC - Form DEF 14A

The Retirement Plan is a non-contributory defined benefit plan. Office and supervisory employees not covered under another plan automatically become participants in the Salaried Employee's Retirement Plan on the earlier of January 1 or July 1 following completion of 1,000 hours of service in a consecutive twelve-month period. Upon meeting the eligibility requirement, employees are recognized as a participant from the date of commencement of their service with our company. Eligible employees become fully vested in their benefits after completing five years of service. Benefits under the Retirement Plan are calculated on average monthly pay based upon the highest 60 consecutive months of the latest 120 months (and subject to the limitations discussed above) and the years of service completed.

The basic pension benefit is equal to 45% of the employee's average monthly pay, reduced proportionally for years of service less than 25 years. The multiple is increased 0.5% per year for years of service in excess of 25 years to a maximum of 15 additional years. Benefits are not subject to reduction for Social Security benefits or any other offset.

REPORT OF THE COMPENSATION COMMITTEE

The compensation committee of the Board (the committee) oversees various executive and employee compensation plans and programs. The Committee determines the appropriate compensation levels of executives, evaluates officer and director compensation plans, policies and programs, and reviews benefit plans for officers and employees. The compensation committee's charter reflects these various responsibilities, and the Committee and the Board periodically review and revise the charter. The Committee's membership is determined by the Board and is composed entirely of independent directors. The Committee meets as often as appropriate, but not less than twice annually, and it may also consider and take action by written consent. Mr. Albrecht, the Committee chairman, reports on Committee actions and recommendations from time to time at Board meetings. In addition, the Committee has the authority to engage the services of outside advisers, experts and others to assist the Committee. During fiscal 2004, the Committee engaged an outside compensation consultant to review executive compensation and the Company's incentive programs. The Committee met with the outside consultant twice, and through its chairman, conducted numerous teleconferences with the consultant during the course of reviewing the Company's existing executive compensation scheme and structuring the Company's 2004 Omnibus Incentive Plan. The 2004 Omnibus Incentive Plan was approved by the Company's stockholders on May 11, 2005. The compensation committee subsequently adopted a Long-Term Incentive Program Policy Statement for implementation of the Long-Term Incentive Plan.

Executive Compensation Policies and Programs

The Company's executive compensation programs are designed to attract and retain highly qualified executives and to motivate them to maximize stockholder returns by achieving goals aligning compensation with business objectives that should positively affect both short- and long-term stock performance. A significant portion of each executive's individual compensation is dependent upon achieving targeted business and financial goals and upon stock price appreciation.

Each year, the Committee reviews the executive compensation policies with respect to the linkage between executive compensation and the creation of stockholder value. The Committee determines whether the various components of the Company's Annual Incentive Plan have been achieved and, based upon the goals comprising the various targets, verifies the amount of annual bonuses for officers. The Committee also determines the long-term incentives to be awarded to each eligible employee, including the Company's named executive officers. The Committee also determines what changes, if any, are appropriate in the Company's compensation programs.

The Internal Revenue Code restricts deductibility of annual individual compensation to the Company's top executive officers in excess of \$1 million if certain conditions set forth in the Internal Revenue Code are not fully satisfied. The Company intends, to the extent practicable, to preserve deductibility under the Internal Revenue Code of compensation paid to its executive officers, while maintaining compensation programs that effectively attract and retain qualified executives in a highly competitive environment and, accordingly, compensation paid under the Company's compensation plans is generally tax-deductible. However, on occasion it may not be possible to satisfy all conditions of the Internal Revenue Code for deductibility and still meet the Company's compensation needs, and in such limited situations, certain compensation paid to some executives may not be tax-deductible.

Components of Compensation

There are three basic components to the Company's executive compensation: base salary, annual incentive bonus and long-term incentive compensation. Each executive's compensation is linked directly to the Company's performance through substantial variable pay at risk, based upon the achievement of pre-established financial and operational goals and individual management objectives. We did not obtain 90% of our target EBITDA for the fiscal year 2005 and, therefore, none of the Chief Executive Officer's compensation and none of the compensation paid or awarded to the named executive officers was performance-based. The Committee considers both long-term and near-term strategic and financial objectives in designing the Company's overall compensation programs. Each component of the program is addressed in the context of competitive conditions. In determining competitive compensation levels, the Committee considers guidance from outside advisors, particularly analysis provided by the Company's outside consultant of total compensation for executives in a general industry group of over 750 companies adjusted to the Company's annual revenues, and reviews of executive compensation paid by comparably-sized public companies.

Base Salary: Base pay is designed to be competitive compared with median prevailing market rates at general industrial companies that have similar total revenue and market capitalization and/or compete with the Company for management talent. The base salaries of our five most highly compensated executive officers at December 31, 2005 are set forth in the Summary Compensation Table on page 13 above. Executive positions are grouped by grades, which are part of the Company's overall salary structure. The base salaries of senior executives, except those established by employment agreements, are reviewed periodically to determine if adjustment is necessary based on competitive practices and economic conditions. Base salary for senior executives will also be reviewed and adjustment may be made based on individual performance and the individual's skills, experience and background.

Annual Incentive Bonus: Annual incentive compensation awards are made pursuant to the terms of the Company's Annual Incentive Plan. In fiscal 2005, 185 corporate, divisional and plant executives were eligible for awards under the plan. Award levels, like base salary levels, are set with reference to competitive conditions and are intended to motivate executives by providing substantial bonus payments for the achievement of both the Company and individual goals. In December 2004, the Committee established the target components of the 2005 Annual Incentive Plan for corporate, division and plant executives with specific elements in both financial and operational areas. The individual components included targeted performance levels for EBITDA (as defined in the Annual Incentive Plan), collection/service charge revenue, operating expenses, safety goals, raw material procurement and other individual goals. Individual initiatives were established based on objective factors. The types and relative importance of the individual objectives varied among the Company's executives depending upon their positions and the particular operations or functions for which they were responsible.

Each executive has a bonus target ranging from 10% to 60% of base salary paid. The Chief Executive Officer and Executive Vice President Finance and Administration targets are not limited to 60%. Other than awards for the Chief Executive Officer and the Executive Vice President Finance and Administration, actual awards can range from 0% to 60% of base salary paid, depending on performance against the pre-established financial goals and performance against other specific management objectives.

In fiscal 2005, the Company did not meet the predetermined threshold established for the payment of cash incentive awards to all employees participating in the Annual Incentive Plan. In establishing the Annual Incentive Plan, the Committee determined that a certain amount for discretionary bonuses should be available for mid-level management employees who are not participants with specific targets in both financial and operational areas but who had an opportunity to make significant contributions. Management of the Company recommended, and the Committee authorized, discretionary bonuses to those mid-level management employees whose efforts and accomplishments contributed significantly to the Company.

Edgar Filing: DARLING INTERNATIONAL INC - Form DEF 14A

Long-term Incentive Compensation: The principal purpose of the long-term incentive compensation program is to encourage the Company's executives to enhance the value of the Company and, hence, the price of the Company's stock and the stockholders' return. The long-term incentive component of the compensation system is also designed to create retention incentives for the individual.

The Long-Term Incentive Plan includes stock option grants that vest over a multi-year period of service and, therefore, are tied directly to stockholder returns. Stock options align executives' interests with those of the stockholders because if the price of the stock declines from the price established at the grant date, the executive obtains no value. The re-pricing of stock options is not permitted under the 2004 Omnibus Incentive Plan.

In addition to stock options, awards of performance-based restricted stock were made on a selective basis during fiscal 2005 to individual executives in order to enhance the incentive for them to remain with the company and to align their interests with attractive stockholder returns. These shares of restricted stock vest over an extended period of service of up to six years; however, 50% of each grant will vest upon a 25% increase in the price of the Company's stock over the price at the grant date, and the remaining 50% of each grant will vest in the event that there is an additional 25% increase in the price of the Company's stock. It is the Committee's intention to consider grants of performance-based restricted stock every three years.

Compensation of the Chief Executive Officer

The Committee remains responsible for reviewing and approving the corporate goals and objectives relevant to CEO compensation and evaluating the CEO's performance in light of those goals and objectives.

Pursuant to his employment agreement, Mr. Stuewe received a base salary of \$475,000 in fiscal 2005. Mr. Stuewe did not receive an annual incentive bonus for fiscal 2005 as the Company did not meet the required EBITDA target. In determining the level of award, the Board, upon recommendation of the Committee, took into consideration performance against predetermined corporate financial objectives discussed above and individual objectives related to leadership and management.

In fiscal 2005, Mr. Stuewe was granted, upon stockholder approval at the May 11, 2005 annual meeting of stockholders, 127,100 premium stock options at an exercise price of \$4.16 and 104,400 shares of performance-based restricted stock consistent with the performance measurement and compensation program applied to the five most highly compensated executives of the Company. Additionally, Mr. Stuewe was granted 82,600 premium stock options at an exercise price of \$3.94. See the information in the Summary Compensation Table and related footnotes beginning on page 13, and Employment Agreements on page 15 for further discussion of Mr. Stuewe's employment agreement.

Such persons are required by SEC regulation to furnish us with copies of all Section 16(a) forms they file. REPORT OF THE AUDIT COMMITTEE

The following report of the audit committee shall not be deemed to be soliciting material or to be filed with the SEC under the Securities Act of 1933 or the Securities Exchange Act of 1934 or incorporated by reference in any document so filed.

Under the guidance of a written charter adopted by the Board, the audit committee oversees our management's conduct of the financial reporting process on behalf of our Board. A copy of the charter is attached to our 2005 proxy statement. A copy of our audit committee charter can also be found on our website at darlingii.com/investors/governance.html. The audit committee also appoints the accounting firm to be retained to audit our company's consolidated financial statements, and once retained, the accounting firm reports directly to the audit committee. The audit committee is responsible for approving both audit and non-audit services to be provided by the independent auditors.

Management is responsible for our company's financial reporting process, including the system of internal controls, and for the preparation of consolidated financial statements in accordance with accounting principles generally accepted in the United States. Our company's independent auditors are responsible for auditing those consolidated financial statements and expressing an opinion on the conformity of those consolidated financial statements with accounting principles generally accepted in the United States. The audit committee's responsibility is to monitor and review these processes. It is not the audit committee's duty or responsibility to conduct auditing or accounting reviews.

The audit committee met with management periodically during fiscal 2005 to consider the adequacy of our company's internal controls, and discussed these matters and the overall scope and plans for the audit of our company with our independent auditors, KPMG LLP. The audit committee met with the independent auditors, with and without management present, to discuss the results of their examination, their evaluation of our internal controls and the overall quality of our financial reporting.

The audit committee also discussed with senior management and KPMG LLP our company's disclosure controls and procedures and the certifications by our Chief Executive Officer and Chief Financial Officer, which are required by the SEC under the recently enacted Sarbanes-Oxley Act of 2002 for certain of our company's filings with the SEC.

In fulfilling its oversight responsibilities, the audit committee reviewed and discussed the audited financial statements in the 2005 Annual Report with management, including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments and the clarity of disclosures in the financial statements.

The audit committee reviewed with the independent auditors, who are responsible for expressing an opinion on the conformity of those financial statements with accounting principles generally accepted in the United States, their judgments as to the quality, not just the acceptability, of our company's accounting principles and such other matters as are required to be discussed with the audit committee under auditing standards generally accepted in the United States. In addition, the audit committee has discussed with the independent auditors the auditors' independence from our company and our management, including the matters in the written disclosures and letter which were received by the audit committee from the independent auditors as required by the Independence Standards Board Standard No. 1, Independence Discussions with Audit Committees, as amended, and considered the compatibility of non-audit services with the auditors' independence. The audit committee has discussed with the independent auditors the matters required to be discussed by Statement on Auditing Standards No. 61, Communication with Audit Committee, as amended.

During the preparation of our Annual Report on Form 10-K for the period ended December 31, 2005, we, together with our independent registered public accounting firm, identified a material weakness related to accounting for state income taxes. Specifically, our policies and procedures did not provide for an effective review of state tax credits to ensure that it was probable that the related benefits would be sustained. In order to remediate the deficiency identified above, we intend to add as an internal control over financial reporting a procedure to ensure that additional substantiating documentation relating to proposed state tax credits is obtained to ensure that it is probable that benefits related to a recorded credit will be sustained.

Our management, our audit committee and our Board are fully committed to the review and evaluation of our procedures and policies designed to assure effective internal control over financial reporting. All steps and disclosures relating to this matter have been and will remain subject to the oversight of our audit committee.

In reliance on the reviews and discussions referred to above, the audit committee recommended to the Board, and the Board approved, that the audited financial statements be included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2005 for filing with the SEC.

Pre-approval Policy

The audit committee is required to pre-approve the audit and non-audit services to be performed by the independent auditor in order to assure that the provision of such services does not impair the auditor's independence.

All audit services, audit-related services, tax services and other services provided by KPMG LLP were pre-approved by the audit committee, which concluded that the provision of such services by KPMG LLP was compatible with the maintenance of that firm's independence in the conduct of its auditing functions, and 1.8% of all services provided by KPMG LLP to the Company for the year ended December 31, 2005 were non-audit related services. The audit committee charter provides for pre-approval of any audit or non-audit services provided to the Company by its independent auditors. The audit committee may delegate to its chairman pre-approval authority with respect to all permitted audit and non-audit services, provided that any services pre-approved pursuant to such delegated authority shall be presented to the full audit committee at its next regular meeting.

OTHER MATTERS

Our management is not aware of any other matters to be presented for action at the Annual Meeting; however, if any such matters are properly presented for action, it is the intention of the persons named in the enclosed form of proxy to vote in accordance with their best judgment on such matters.
