

PUTNAM INVESTMENT GRADE MUNICIPAL TRUST
Form 425
October 18, 2007

John A. Hill

The Putnam Funds
Chairman of the Trustees

*One Post Office Square
Boston, Massachusetts 02109*

The Putnam Funds

Adjournment Notice

Dear Shareholder:

In September, we mailed you a proxy statement requesting your vote on a proposed merger of **Putnam Investment Grade Municipal Trust** and **Putnam Municipal Bond Fund** into **Putnam Municipal Opportunities Trust**, each of which is managed by Putnam Investment Management. The Trustees unanimously recommend approval of the proposed merger. Unfortunately, your Putnam fund(s) failed to reach the quorum necessary to conduct the shareholder meeting that was scheduled for October 15, 2007, because owners of preferred shares did not vote in sufficient numbers. As a result, the meeting was adjourned.

You are receiving this letter as the owner of one of the largest positions in preferred shares as of July 30, 2007, the official record date for voting on the proposed merger. Your vote is critical in enabling the shareholder meeting to be conducted. Even if you have sold your preferred shares since July 30, 2007, **we strongly urge you to vote your proxy now.**

We have included another copy of the ballot(s) and a postage-paid return envelope for your convenience. If you have any questions regarding this information, please call the toll-free number 1-800-780-7316.

Thank you for your assistance.

Sincerely,

John A. Hill
Chairman of the Trustees

248392 10/07

5 FREMONT GENERAL CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS ON FORM 10-Q (UNAUDITED) NOTE A - BASIS OF PRESENTATION OF FINANCIAL STATEMENTS These statements have been prepared in accordance with accounting principles generally accepted in the United States and, accordingly, adjustments (consisting of normal accruals) have been made as management considers necessary for fair presentations. For further information, refer to the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2002. Certain 2002 amounts have been reclassified to conform to the 2003 presentation.

NOTE B - LOANS RECEIVABLE Loans receivable consist of commercial and residential real estate loans and syndicated commercial loans. Commercial real estate loans, which are primarily variable rate, represent loans secured primarily by first mortgages on properties such as office, retail, industrial, lodging, multi-family and commercial mixed-use properties. Commercial real estate loans are reported net of participations to other financial institutions or investors in the amount of \$115.1 million and \$93.2 million as of March 31, 2003 and December 31, 2002, respectively. Residential real estate loans have loan terms for up to thirty years and are generally secured by first deeds of trust on single-family residences. Syndicated commercial loans are commercial variable rate senior loans and are generally secured by substantially all of the assets of the borrower. Loans held for sale consist solely of residential real estate loans which are aggregated prior to their sale and are carried at the lower of aggregate amortized cost or market.

NOTE C - DEPOSITS AND FHLB ADVANCES Certificates of deposit as of March 31, 2003 are detailed by maturity and rates as follows (thousands of dollars):

MATURING BY WEIGHTED AMOUNT MARCH 31, AVERAGE RATE	\$ 3,323,988	2004 2.39%	219,439	2005 4.22%	65,473	2006 5.34%	32,897	2007 5.65%	2,201	2008 4.73%	48,157	2009 5.38%	\$ 3,692,155
--	--------------	------------	---------	------------	--------	------------	--------	------------	-------	------------	--------	------------	--------------

Of the total certificates of deposit at March 31, 2003, \$1,104.9 million were obtained through brokers. 6 The Federal Home Loan Bank ("FHLB") advances are collateralized by loans pledged to the FHLB. The following table details the FHLB amounts outstanding at March 31, 2003 by maturities and rates (thousands of dollars):

MATURING BY WEIGHTED AMOUNT MARCH 31, AVERAGE RATE	\$ 340,000	2004 2.20%	385,000	2005 3.21%	\$ 725,000
--	------------	------------	---------	------------	------------

NOTE D - DISCONTINUED INSURANCE OPERATIONS In December 2002, the Company accrued a charge for all of the potential future cash contributions to its discontinued workers' compensation, reinsurance and life insurance businesses. These future contributions include both mandatory and contingent capital contributions as per the Company's July 2002 agreement with the California Department of Insurance ("DOI"). At December 31, 2002, the total amount of these future contributions was \$79.5 million (\$74.5 million present value), payable ratably at \$13.25 million annually over a period of six years. The \$79.5 million commitment represents the Company's maximum amount of liability for cash contributions to its discontinued insurance operations under the agreement with the DOI. At March 31 2003, the remaining amount of these future cash contributions is \$76.2 million (\$71.4 million present value). The assets and liabilities of the discontinued insurance operations are excluded from the accompanying Consolidated Balance Sheet because the Company no longer has effective control of these operations whose activities are done at the consent and under the direction of the DOI.

NOTE E - GAIN ON EXTINGUISHMENT OF DEBT The Company extinguished debt that resulted in gains that are

included in non-interest income in the accompanying Consolidated Statement of Operations. Prior period gains have been reclassified from an extraordinary item to conform to this new presentation. The gains are summarized in the following table: THREE MONTHS ENDED MARCH 31, ----- 2003 2002 ----- (THOUSANDS OF DOLLARS) 7.70% SENIOR NOTES DUE 2004: Par Value of debt extinguished \$ 4,316 \$ 5,980 Pre-tax gain on extinguishment 93 880 7 NOTE F - TOTAL

COMPREHENSIVE INCOME The components of total comprehensive income are summarized in the following table: THREE MONTHS ENDED MARCH 31, ----- 2003 2002 ----- (THOUSANDS OF DOLLARS) Net income \$ 41,576 \$ 18,057 Other comprehensive loss: Net change in unrealized gains during the period (41) (57) Less deferred income tax benefit 18 20 ----- Other comprehensive loss (23) (37) ----- Total comprehensive income \$ 41,553 \$ 18,020 =====

NOTE G - OPERATIONS BY REPORTABLE SEGMENT The Company's business is engaged in four reportable segments: commercial real estate; residential real estate; syndicated commercial and retail banking. Additionally, there are certain corporate revenues and expenses, comprised primarily of investment income, interest expense and certain general and administrative expenses, that are not allocated to the reportable segments. The following data for the three months ended March 31, 2003 and 2002 provide certain information related to the reportable segment disclosure. Intersegment eliminations relate to the credit allocated to retail banking for operating funds provided to the other three reportable segments. COMMERCIAL RESIDENTIAL SYNDICATED RETAIL INTERSEGMENT TOTAL REAL ESTATE REAL ESTATE COMMERCIAL BANKING CORPORATE ELIMINATIONS CONSOLIDATED

..... \$ 0.56 \$ 0.25 ===== NOTE I - NEW ACCOUNTING STANDARDS In December 2002, the Financial Accounting Standards Board issued SFAS No. 148, "Accounting for Stock-Based Compensation - Transition and Disclosure" that amends SFAS No. 123, "Accounting for Stock-Based Compensation."

SFAS No. 148 provides alternative methods of transition to the fair value method of accounting for stock-based employee compensation. The statement also amends the disclosure requirements of SFAS No. 123 to require prominent disclosures in both annual and interim financial statements about the method of accounting for stock-based compensation and the effect of the method used on reported results. The Company believes that the impact of this new standard on the Company's financial position and results of operations will be consistent with the SFAS No. 123 pro forma disclosure. 9 NOTE J - SUBSEQUENT EVENT On May 7, 2003, the Company repurchased an additional \$45.0 million in par value of its 7.7% senior notes outstanding. These notes were repurchased at par value and the outstanding par value of the 7.7% senior notes due in 2004 has now been reduced to \$22.4 million. The Company has extinguished a total of \$211.9 million in par value of its original \$425 million par value in senior notes outstanding. 10 ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS This report may contain "forward-looking statements" within the meaning of Section 27A of the

Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, and are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements and the currently reported results are based upon the current expectations and beliefs of Fremont General Corporation ("Fremont") and its subsidiaries (combined "the Company") concerning future developments and their potential effects upon the Company. These statements and the Company's results reported herein are not guarantees of future performance or results and there can be no assurance that actual developments and economic performance will be as anticipated by the Company. Actual developments and/or results may differ significantly and adversely from the Company's expected results as a result of significant risks, uncertainties and factors beyond the Company's control (as well as the various assumptions utilized in determining the Company's expectations) which include, but are not limited to, the following: o the variability of general and specific economic conditions and trends, and changes in, and the level of, interest rates; o the impact of competition and pricing environments on loan and deposit products and the resulting effect upon the Company's net interest margin and net gain on sale; o changes in the Company's ability to originate loans, and any changes in the cost and volume of loans originated as a result; o the ability to access the necessary capital resources in a cost-effective manner to fund loan originations and the condition of the whole loan sale and securitization markets; o the ability of the Company to sell or securitize the residential real estate loans it originates, the pricing of existing and future loans, and the net premiums realized upon the sale of such loans; o the ability of the Company to sell certain of the commercial real estate loans and foreclosed real estate in its portfolio and the net proceeds realized upon the sale of such; o the impact of changes in the commercial and residential real estate markets, and changes in the fair values of the Company's assets and loans, including the value of the underlying real estate collateral; o the ability to collect and realize the amounts outstanding, and the timing thereof, of loans and foreclosed real estate, and the variability in determining the level of the allowance for loan losses; o the effect of certain determinations or actions taken by, or the inability to secure regulatory approvals from, the Federal Deposit Insurance Corporation, the Department of Financial Institutions of the State of California or other regulatory bodies on various matters; o the ability of the Company to maintain cash flow sufficient for it to meet its debt service and other obligations; 11 o the impact and cost of adverse state and federal legislation and regulations, litigation, court decisions and changes in the judicial climate; o the ability of the Company to utilize the net operating loss carryforwards currently held and the impact of changes in federal and state tax laws and interpretations, including tax rate changes, and the effect of any adverse outcomes from the resolution of issues with taxing authorities; o the ability of the Company to meet its contribution and other obligations as set forth in its July 2002 agreement with the California Department of Insurance regarding its discontinued insurance operations and the impact in enforcing its rights under the agreement; and o other events, risks and uncertainties discussed elsewhere in this Form 10-Q and from time to time in Fremont's other reports, press releases and filings with the Securities and Exchange Commission. The Company undertakes no obligation to publicly update such forward-looking statements. GENERAL Fremont General Corporation ("Fremont" or when combined with its subsidiaries "the Company") is a financial services holding company. The Company's financial services business is consolidated within Fremont General Credit Corporation ("FGCC"), which is engaged in commercial and residential real estate lending nationwide through its California-chartered industrial bank subsidiary, Fremont Investment & Loan ("FIL"). Additionally, there are certain corporate revenues and expenses, comprised primarily of investment income, interest expense and certain general and administrative expenses, which are not allocated by Fremont to FGCC or to the discontinued insurance operations. This discussion and analysis should be read in conjunction with the Consolidated Financial Statements and Notes thereto presented under Item 1, and the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2002. 12 RESULTS OF OPERATIONS The Company reported net income of \$41,576,000 for the first quarter of 2003. This is compared to net income of \$18,057,000 for the first quarter of 2002. The following table presents a summary of the Company's income before income taxes and net income for the quarterly periods ended March 31, 2003 and 2002, respectively: THREE MONTHS ENDED MARCH 31, ----- 2003 2002 ----- (THOUSANDS OF DOLLARS) Income (loss) before income taxes: Financial services \$ 87,724 \$ 42,186 Unallocated corporate interest and other expenses (16,898) (12,486) ----- Income before income taxes 70,826 29,700 Income tax expense (29,250) (11,643) ----- Net income \$ 41,576 \$ 18,057 ===== The Company's financial services operation recorded income before taxes of \$87.7 million for the first quarter of 2003 as compared to \$42.2

million for the first quarter of 2002. This increase in financial services pre-tax income for the first quarter of 2003, which represents an 108% increase over the results for the first quarter of 2002, is the primary reason for the increase in net income during the first quarter of 2003, offset to a lesser degree by increases in the amount of unallocated corporate interest and other expense and in income tax expense. See "Financial Services Operation" for further discussion regarding the financial services operation's results. The unallocated corporate interest and other expense loss before taxes for the quarter ended March 31, 2003, was \$16.9 million as compared to \$12.5 million for the same quarter in 2002. The increase for the first quarter of 2003, as compared to the first quarter of 2002, is substantially due to the net effect of the following: during the first quarter of 2003 the Company incurred a write-off of intercompany receivables from the discontinued insurance operation in the amount of \$2.3 million and \$1.7 million in higher compensation expense, primarily incentive related, offset by lower interest expense of \$1.4 million and \$1.1 million in interest income from a tax refund; during the first quarter of 2002, the Company had a reduction of \$1.7 million in the amount of compensation expense, primarily due to cash received from forfeited shares in the Company's incentive compensation plan, and an additional \$800,000 in gain from the extinguishment of debt. 13 During the quarter ended March 31, 2003, the Company extinguished \$4.3 million in principal amount of its publicly traded 7.70% Senior Notes due 2004 and recognized a pre-tax gain of \$93,000. Income tax expense of \$29.3 million and \$11.6 million for the quarters ended March 31, 2003 and 2002, respectively, represents effective tax rates of 41.3% and 39.2%, respectively, on income before income taxes of \$70.8 million and \$29.7 million for the same respective periods. The effective tax rates for both periods presented are different than the federal enacted tax rate of 35%, due mainly to various state income tax provisions within the Company's financial services operation. FINANCIAL SERVICES OPERATION The following table summarizes the Company's financial services operation's earnings for the respective quarters indicated: THREE MONTHS ENDED MARCH 31, ----- 2003 2002 -----

		2003	2002	
----- (THOUSANDS OF DOLLARS) FINANCIAL SERVICES Interest and fee income on loans				
	\$ 118,636	\$ 99,377	Interest income on investment securities	1,146
723	-----	-----	Total interest income	119,782 100,100
	38,238	39,261	-----	----- Net interest income
	81,544	60,839	Provision for loan losses	22,920
15,511	-----	-----	Net interest income after provision for loan losses	58,624 45,328
	37,732	14,841	Net gain on sale of residential real estate loans	
	17,503	-	Other non-interest income	5,926 3,105
	(32,061)	(21,088)	-----	----- Operating expenses
	\$ 87,724	\$ 42,186	=====	===== The Company's financial services

operation recorded income before taxes of \$87.7 million for the first quarter of 2003 as compared to \$42.2 million for the first quarter of 2002. The increase in income before taxes for the first quarter of 2003 represents an 108% increase over the results for the first quarter of 2002 and is a result of significantly increased levels of net interest income and net gain on the sale of residential real estate loans, a \$17.5 million gain on the sale of residual interests in securitizations, offset by a higher provision for loan losses and operating expenses. The net interest income for the first quarter of 2003 was \$81.5 million as compared to \$60.8 million for the first quarter of 2002. The increase in net interest income is primarily a result of an increase in the net interest 14 income margin (net interest income as a percentage of average interest-earning assets). The net interest income margin improved to an annualized 5.29% for the first quarter of 2003 from 4.98% for the first quarter of 2002. The net gain on the sale of residential real estate loans, net of reductions in the carrying valuations of loans held for sale, increased from \$14.8 million in the first quarter of 2002 to \$37.7 million for the first quarter of 2003. This increase is primarily attributable to a significant increase in the volume of loans sold in the two comparable quarters. A total of \$2.18 billion in loans were sold during the first quarter of 2003, as compared to loan sales of \$896.8 million during the first quarter of 2002. The net gain percentage (net gain after allocated costs divided by net whole loan sales) on these sales increased from 1.65% in the first quarter of 2002 to 1.73% in the first quarter of 2003. The provision for loan losses increased to \$22.9 million for the first quarter of 2003 as compared to \$15.5 million for the first quarter of 2002. The Company's net loans receivable (excluding loans held for sale), before the allowance for loan losses, were approximately \$4.12 billion at March 31, 2003, as compared to \$4.14 billion and \$3.88 billion at December 31, 2002 and March 31, 2002, respectively. The Company's residential real estate loans held for sale have increased from \$1.03 billion at March 31, 2002 to \$1.80 billion at March 31, 2003; this increase is reflective of a significant increase in loan production volume

Edgar Filing: PUTNAM INVESTMENT GRADE MUNICIPAL TRUST - Form 425

- during the first quarter of 2002, residential real estate loan originations totaled \$1.33 billion as compared to \$2.33 billion for the first quarter of 2003. The following table shows loans receivable outstanding (excluding loans held for sale) in the various financing categories as of the dates indicated: 15 MARCH 31, DECEMBER 31, MARCH 31, 2003 2002 2002 ----- (THOUSANDS OF DOLLARS) Commercial real estate loans: Bridge

===== Residential real estate loans held for sale	\$ 1,801,560	\$ 1,673,145	\$ 1,032,923

===== As of March 31, 2003, approximately 45% of the Company's commercial real estate loans outstanding were secured by properties located within California; no other state represented greater than 8% of the loan portfolio. The Company's largest single commercial real estate loan outstanding at March 31, 2003 was \$53.1 million; this loan has a total loan commitment of \$67.9 million, however, it is cross-collateralized and cross-defaulted with another loan with the same investment fund on a related real estate project. The combined loan principal outstanding and total loan commitment of these two loans at March 31, 2003 is \$67.1 million and \$81.9 million, respectively. The Company's largest net commitment for a single loan at March 31, 2003 was \$82.5 million; this represents the maximum loan amount to the borrower. In addition, the portfolio has one concentration by common investor or sponsor that is in excess of \$75 million in loan principal outstanding. This concentration, which totals \$101.2 million in loan principal outstanding and \$130.4 million in total loan commitment at March 31, 2003, is from one investment fund (common advisor) and is comprised of fourteen separate loans, each of which was performing as of March 31, 2003. The following table stratifies the commercial real estate portfolio by loan amounts outstanding as of March 31, 2003 (in thousands of dollars, except percents and number of loans):

NUMBER TOTAL LOANS LOAN SIZE RANGE OF LOANS OUTSTANDING % -----	-----	---	\$0 - \$5 million	384	\$ 746,274	20%	> \$5 million - \$10 million

----- (1) Annualized. (2) Average loan balances include non-accrual loan balances and exclude residual interests in securitized loans. (3) Includes loans held for sale and other consumer loans. 17 The Company's net interest margin as a percentage of average interest-earning assets increased to 5.29% in the first quarter of 2003 as compared to 4.98% for the first quarter of 2002. The increase in the Company's net interest margin is due primarily to higher net spreads between the commercial and residential real estate loans yields and the effective cost of funds employed to fund these assets as the interest yields on deposits and Federal Home Loan Bank ("FHLB") borrowings declined on a quarter-to-quarter comparison more than the yields on commercial and residential real estate loans did. This is due in part to the presence of interest rate floors (in which the total of the variable base rate, such as six-month LIBOR, plus the related spread on a commercial real estate loan will not contractually drop below a certain absolute level, such as 7%) on a significant number of the Company's commercial real estate loans, as well as various economic and market factors. The following tables report the non-performing asset classifications, accruing loans past due 90 days or more, loan loss experience and allowance for loan losses reconciliation of the financial services operation as of or for the

..... - - (10) ----- Total allowance for loan losses
 \$ 175,162 \$ 161,190 \$ 114,076 ===== Non-performing

assets decreased to \$104.0 million, or 1.75% of total loans receivable, loans held for sale and real estate owned at
 March 31, 2003, from \$107.3 million or 1.84% at December 31, 2002 and \$167.4 million or 3.38% at March 31, 2002.
 Accruing loans 90 days or greater past due totaled \$11.6 million at March 31, 2003 and include loans that are
 contractually past maturity, but continue to make full interest payments. The level of non-performing assets fluctuates

and specific loans can have a material impact upon the total. During the first quarter of 2003, there was one loan restructured as to its terms and included in accrual status at March 31, 2003. The total loan principal 19 outstanding under this one loan was \$8.9 million at March 31, 2003 and the Company incurred a \$139,000 charge-off related to the restructuring of the loan during the first quarter of 2003. During the first quarter of 2002, there were five commercial real estate loans, with a total outstanding balance of \$103.2 million at March 31, 2002, that were restructured and included in accrual status. Of the five loans restructured during the first quarter of 2002, three (total balance of \$56.4 million) were paid off in full during the second quarter of 2002, and two (total balance of \$46.8 million) remained on accrual status as of March 31, 2003. The Company incurred \$559,000 in charge-offs related to the restructuring of the five loans during the first quarter of 2002. The provision for loan losses for the first quarter of 2003 increased to \$22.9 million, as compared to \$15.5 million in the first quarter of 2002. The allowance for loan losses, as a percentage of total loans receivable, excluding loans held for sale, increased to 4.25% as of March 31, 2003, as compared to 2.94% at March 31, 2002. The increase in the provision for loan losses during the first quarter of 2003, as compared to the first quarter of 2002, is primarily due to an increased level of net loan charge-offs in the first quarter of 2003 and a small amount of growth in the total loan portfolio. Net charge-offs in the first quarter of 2003 totaled \$8.9 million, as compared to \$5.6 million for the first quarter of 2002. The total increase is a result of an increase of \$5.0 million in net charge-offs for commercial real estate loans, offset by \$1.8 million less in syndicated commercial loan net charge-offs. The increase in net charge-offs for commercial real estate loans during 2003 primarily is a reflection of the effect of a contracted economic environment. During the first quarter of 2003, the Company sold all of its residual interests in its three securitizations of residential real estate loans for \$40.2 million in cash to an unaffiliated third party. The Company recognized a pre-tax gain on the sale of \$17.5 million during the first quarter of 2003. 20 LIQUIDITY AND CAPITAL RESOURCES FIL finances its lending activities primarily through Federal Deposit Insurance Corporation ("FDIC") insured customer deposits, which totaled \$5.0 billion at March 31, 2003. FIL is also eligible for financing through the Federal Home Loan Bank of San Francisco ("FHLB"), which financing is available at various rates and terms. At March 31, 2003, FIL had borrowing availability with the FHLB of \$1.39 billion, of which \$725 million was borrowed and outstanding. In addition, FIL has a line of credit with the Federal Reserve Bank of San Francisco ("FRB") with a borrowing availability of \$161.2 million at March 31, 2003. There were no amounts outstanding under the line of credit with the FRB at March 31, 2003. The FDIC has established certain capital and liquidity standards for its member institutions, and FIL was in compliance with these standards as of March 31, 2003. The Company believes it has sufficient liquidity and capital resources to fund its financial services operation for the foreseeable future. As a holding company, Fremont pays its operating expenses, interest expense and stockholders' dividends, and meets its other obligations primarily from its cash on hand and intercompany-tax payments from FIL. Dividends of \$1.5 and \$2.8 million were paid on Fremont's common stock in the quarters ending March 31, 2003 and 2002, respectively; however, the Company can give no assurance that future common stock dividends will be declared. Fremont is obligated under an agreement with the California Department of Insurance to make certain cash contributions to its discontinued workers' compensation insurance subsidiary. The total amount of these future contributions is \$76.2 million as of March 31, 2003, payable quarterly at a rate of \$13.25 million per year through 2008. The present value of these contributions has been accrued for and a liability of \$71.4 million is reflected on the Company's consolidated balance sheets. Fremont has available to it significant federal tax net operating loss carryforwards, which may be utilized to reduce or eliminate future tax payments. As a result, intercompany payments of federal tax obligations from FIL, which would otherwise be payable to taxing authorities, are available for use by Fremont for general working capital purposes, including the extinguishment of debt. The Company currently pays various state taxes, primarily California Franchise Taxes, as there are no significant state net operating loss carryforwards available to it for offset. The Company's discontinued insurance operations are generally subject to state premium taxes, and not income taxes, and thus no significant state net operating loss carryforwards were generated. The Company has certain California Franchise Tax issues pending resolution. The Company does not believe that the ultimate outcome of these 21 matters, which are expected to take several years to resolve, will have a material effect on the Company's financial position or liquidity. Fremont has cash and short term investments of \$61.3 million at March 31, 2003 and no debt maturities until March of 2004 and believes that, with its other available sources of liquidity, it will have sufficient means to satisfy its liquidity needs for at least the next twelve months.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK The Company is subject to market risk resulting primarily from fluctuations in interest rates arising from balance sheet financial

instruments such as investments, loans and debt. Changes in interest rates will affect the Company's net investment income, loan interest, net gain on the sale of residential real estate loans, interest expense and total stockholders' equity. The level of net gain on the sale of residential real estate loans is highly dependent upon the level of loan origination volume and the net premium paid by the purchasers of such loans. Both the volume and net premium, in turn, are highly dependent upon changes in, and the level of, interest rates and other economic factors. The Company may experience a decrease in the amount of net gain it realizes should significant interest rate increases occur or if other economic factors have a negative impact on the value and volume of the loans the Company originates. The objective of the Company's asset and liability management activities is to provide the highest level of net interest and investment income and to seek cost effective sources of capital, while maintaining acceptable levels of interest rate and liquidity risk. As part of its residential real estate mortgage banking operations, the Company enters into commitments to originate loans ("interest rate lock commitments"), which represent commitments that have been extended by the Company, generally for the period of 30 days, at a stated interest rate to its potential borrowers. The Company determined that its interest rate lock commitments have met the definition of derivatives under SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities"; however, the impact of the change in fair value of such derivative instruments is not material to the Company's results of operations. Typically, the Company hedges the risk of overall changes in the fair value for its loans held for sale through entering into forward loan sale commitments. Quantitative and qualitative disclosures about the Company's market risk are included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2002. There have 22 been no material changes in such risks or in the Company's asset and liability management activities during the three months ended March 31, 2003. ITEM 4. CONTROLS AND PROCEDURES As of March 31, 2003, the Company evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures. The evaluation was performed under the supervision and with the participation of the Company's management, including the Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO"). Based on that evaluation, the Company's management, including the CEO and CFO, concluded that the Company's disclosure controls and procedures were effective as of March 31, 2003. There have been no significant changes in the Company's internal controls or in other factors that could significantly affect internal controls subsequent to March 31, 2003 through the date of the filing of this Form 10-Q. 23 PART II - OTHER INFORMATION ITEM 6: EXHIBITS, FINANCIAL STATEMENT SCHEDULES AND REPORTS ON FORM 8-K (a) EXHIBITS.
