**The issuer expects that delivery of the Notes will be made against payment therefor on or about the fourth business day following the date of pricing of the Notes (this settlement cycle being referred to as "T+4"). Accordingly, purchasers who wish to trade the Notes on the date of pricing will be required, by virtue of the fact that the Notes initially will settle in T+4, to specify an alternate settlement cycle at the time of any such trade to prevent a failed settlement. Purchasers of the Notes who wish to trade their Notes on the date of pricing should consult their own advisors.
