**Item 5.02. Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers.**

**(e) Performance Contingent Restricted Stock Units**

The Company previously reported in its Form 8-K filed April 26, 2007, that the Board of Directors approved the award of performance contingent restricted stock units under the 2005 Stock and Cash Incentive Plan. The award of the performance contingent restricted stock units provides participants with the opportunity to receive common shares of the Company if Company’s return on average invested capital (“ROAIC”) during a three-year performance period is equal to or exceeds the Company’s estimated cost of capital as defined in the Award. The initial performance period will be 33 months from April 2007 through December 2009. Future 3-year performance periods will run from January 1 of the first year in the cycle. If the performance goal is met, restricted stock units would vest on January 31 (or the first business day following if on a weekend day or holiday) following the end of the performance period, not cliff vest three years from the grant date as previously reported. Failure to meet the performance goal would result in forfeiture of shares. The award of performance contingent restricted stock units would apply to certain employees of the Company including the officers of the Company. The Company previously disclosed in its Form 8-K dated April 26, 2007, the grants to officers on April 25, 2007, and other authorized changes to the vesting of stock options and SARS. A copy of the Notification of Award of Performance Contingent Restricted Stock Units under Ball Corporation’s 2005 Stock and Cash Incentive Plan for certain employees located in the United States is attached hereto as Exhibit 10.1. A copy of the Notification of Award of Performance Contingent Restricted Stock Units under Ball Corporation’s 2005 Stock and Cash Incentive Plan for certain employees located outside the United States is attached hereto as Exhibit 10.2.
