TABLE OF CONTENTS

PART 1 - FINANCIAL INFORMATION

Item 1 - Financial Statements.

Home Federal Bancorp, Inc. (the "Company") was formed to serve as the stock holding company for Home Federal Savings and Loan Association of Nampa (the "Association") pursuant to the Association's mutual holding company reorganization. In connection with the mutual holding company reorganization, the Association converted to a federally chartered stock savings bank and changed its name to Home Federal Bank (the "Bank"). On December 6, 2004, the Company's minority stock offering closed and 6,083,500 shares were sold at \$10.00 per share, 8,979,246 shares were issued to Home Federal MHC, the mutual holding company parent of the Company, and an additional 146,004 shares were issued to the Home Federal Foundation, Inc. (the "Foundation"). For further discussion of the Company's formation and operations, see the Company's Annual Report on Form 10-K for the year ended September 30, 2004 ("2004 10-K"). Based upon the foregoing, the Unaudited Interim Consolidated Financial Statements filed as a part of this quarterly report for periods prior to December 6, 2004, are those of the Bank as a federal mutual savings and loan association and its wholly-owned subsidiary, Idaho Home Service Corporation, as follows:

HOME FEDERAL BANCORP, INC. AND SUBSIDIARY
SELECTED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Note 1 - Basis of Presentation

The consolidated financial statements presented in this quarterly report include the accounts of the Company and its wholly-owned subsidiary, Home Federal Bank. The financial statements of the Company have been prepared in conformity with accounting principles generally accepted in the United States of America for interim financial information and are unaudited. All significant intercompany transactions and balances have been eliminated. In the opinion of the Company's management, all adjustments consisting of normal recurring accruals necessary for a fair presentation of the financial condition and results of operations for the interim periods included herein have been made. The consolidated statement of financial condition as of September 30, 2004 has been derived from the audited consolidated statement of financial condition of the Bank as a federal mutual savings and loan association as of that date.

Certain information and note disclosures normally included in the Company's annual consolidated financial statements have been condensed or omitted. Therefore, these consolidated financial statements and notes thereto should be read in conjunction with the Company's September 30, 2004 audited financial statements and notes included in the 2004 Form 10-K filed with the Securities and Exchange Commission ("SEC") on December 29, 2004.

Note 2 - Summary of Significant Accounting Policies

The preparation of the consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect amounts reported in the consolidated financial statements. Changes in these estimates and assumptions are considered reasonably possible and may have a material impact on the consolidated financial statements, and thus actual results could differ from the amounts reported and disclosed herein. The Company considers the allowance for loan losses, mortgage servicing rights, and deferred income taxes to be critical accounting estimates.

The accounting estimate related to the allowance for loan losses is a critical accounting estimate because it is highly susceptible to change from period to period requiring management to make assumptions about future losses on loans. The impact of a sudden large loss could deplete the allowance and potentially require increased provisions to replenish the allowance, which would negatively affect earnings.

The most critical accounting policy associated with mortgage servicing is the methodology used to determine the fair value of capitalized mortgage servicing rights, which requires the development of a number of estimates, the most

critical of which is the mortgage loan prepayment speeds assumption. The Company performs a quarterly review of mortgage servicing rights for potential declines in value. This review may include an independent appraisal by an outside party of the fair value of the mortgage servicing rights.

Deferred income taxes are computed using the asset and liability approach as prescribed in the Statement of Financial Accounting Standards ("SFAS") No. 109, *Accounting for Income Taxes*. Under this method, a deferred tax asset or liability is determined based on the currently enacted tax rates applicable to the period in which the differences between the financial statement carrying amounts and tax basis of the existing assets and liabilities are expected to be reported in the Company's income tax returns.

At June 30, 2005, there were no material changes in the Company's significant accounting policies or critical accounting estimates from those disclosed in the Company's 2004 Form 10-K.

Note 3 - Mutual Holding Company Reorganization

On May 18, 2004, the Board of Directors of the Association unanimously adopted a Plan of Reorganization and Stock Issuance. At the special meeting of members of the Association held on September 20, 2004, members approved the Plan of Reorganization and Stock Issuance and the contribution to the Foundation by more than the required majority of the total votes entitled to be cast at the special meeting.

Pursuant to the Plan of Reorganization and Stock Issuance, the Association: (i) converted to a federal stock savings bank (Stock Savings Bank) as the successor to the Association in its current mutual form; (ii) organized a Stock Holding Company as a federally-chartered corporation that owns 100% of the common stock of the Stock Savings Bank; and (iii) organized a Mutual Holding Company as a federally-chartered mutual holding company that owns at least 51% of the common stock of the Stock Holding Company for as long as the Mutual Holding Company remains in existence. The Stock Savings Bank succeeded to the business and operations of the Association in its mutual form, and the Stock Holding Company sold 40.0% of its common stock in a public stock offering that was completed on December 6, 2004.

All depositors who had membership or liquidation rights with respect to the Association as of December 6, 2004 (the effective date of the reorganization) continue to have such rights solely with respect to the Mutual Holding Company for as long as they continue to hold deposit accounts with the Bank. In addition, all persons who become depositors of the Bank subsequent to the reorganization have membership and liquidation rights with respect to the Mutual Holding Company. Borrower members of the Association at the time of the reorganization have the same membership rights in the Mutual Holding Company that they had in the Association immediately prior to the reorganization for as long as their existing borrowings remain outstanding.

On December 6, 2004, the Bank completed the mutual holding company reorganization and minority stock offering. The Company sold 6,083,500 shares of its common stock, \$0.01 par value, at a price of \$10.00 per share. As part of the reorganization and minority stock offering, the Company also established and capitalized the Foundation with a \$1.8 million one-time contribution, which consisted of 146,004 shares of its common stock and \$365,010 in cash. In addition, the Company issued 8,979,246 additional shares, or 59.04% of its outstanding shares, to Home Federal MHC, a federally-chartered mutual holding company.

Note 4 - Employee Stock Ownership Plan

In connection with the minority stock offering, the Company established an ESOP for the benefit of its employees. The Company issued 498,360 shares of common stock to the ESOP in exchange for a ten-year note of approximately \$5.0 million, which has been recorded as "Unearned shares issued to employee stock ownership plan" within stockholders' equity. As shares are released from collateral, the Company will report compensation expense equal to the current market price of the shares. Dividends on allocated ESOP shares reduce retained earnings; dividends on unallocated ESOP shares reduce principal or interest on the ESOP loan.

Note 5 - Stock-Based Compensation

On June 23, 2005, stockholders approved long-term stock-based benefit plans that enable the Company to grant stock options, stock appreciation rights and restricted stock awards to employees and directors. The Company measures its stock-based compensation arrangements using the provisions outlined in Accounting Principles Board Opinion ("APB") No. 25, *Accounting for Stock Issued to Employees*, which is an intrinsic value-based method of recognizing compensation costs. The Company has adopted the disclosure-only requirements of SFAS No. 123, as amended by SFAS No. 148, *Accounting for Stock-Based Compensation - Transition and Disclosure - An Amendment of FASB Statement No. 123*. As of June 30, 2005, no stock options, stock appreciation rights or restricted stock had been granted.

Stock Option and Incentive Plan ("SOP").

The Company implemented the SOP to promote the long-term interests of the Company and its stockholders by providing an incentive to those key employees who contribute to the operating success of the Company. The maximum number of stock options and stock appreciation rights that may be issued under the SOP is 745,229. On July 19, 2005, the Company granted stock options covering 581,278 shares of common stock to certain employees and directors. The options were granted at the then fair market value, vest over five years and expire 10 years from the date of grant.

7

<PAGE>

Recognition and Retention Plan ("RRP").

The purpose of the RRP is to promote the long-term interests of the Company and its stockholders by providing restricted stock as a means for attracting and retaining directors and certain employees. The maximum number of shares that may be awarded under the RRP is 298,092. Restricted stock awards vest over a five-year period, and therefore, the cost of such will be accrued ratably over a five-year period as compensation expense.

Note 6 - Earnings Per Share

Earnings per share ("EPS") is computed using the basic and diluted weighted average number of common shares outstanding during the period. Basic EPS is computed by dividing the Company's net income or loss by the weighted average number of common shares outstanding for the period. Diluted EPS is computed by dividing net income or loss by diluted weighted average shares outstanding, which include common stock equivalent shares outstanding using the treasury stock method, unless such shares are anti-dilutive. There were no outstanding securities or contracts that could be exercised or converted into common stock as of June 30, 2005. Therefore, basic and diluted earnings per share are the same. ESOP shares are not considered outstanding for earnings per share purposes until they are committed to be released.

The following table presents the computation of basic and diluted earnings per share for the periods indicated (in thousands, except share data):

Three Months Ended

Nine Months Ended

	June 30,		June 30,	
	2005	2004	2005	2004

Weighted average shares outstanding				
Basic and diluted earnings per share (1)	\$ 0.12	nm ⁽¹⁾	\$ 0.24	nm ⁽¹⁾

Shares outstanding and earnings per share information are not meaningful. The Company did not complete its minority stock offering until December 6, 2004.

Note 7 - Recently Issued Accounting Standards

In December 2004, the Financial Accounting Standards Board ("FASB") issued SFAS No. 123 (Revised 2004), *Share-Based Payment*. This Statement replaces SFAS No. 123, *Accounting for Stock Based Compensation*, and supersedes APB Opinion No. 25, *Accounting for Stock Issued to Employees*. SFAS No. 123(R) requires that the compensation cost relating to share-based payment transactions (for example, stock options granted to employees of the Company) be recognized in the Company's financial statements. That cost will be measured based on the fair value of the equity or liability instruments used. SFAS No. 123(R) covers a wide range of share-based compensation arrangements including stock options, restricted stock plans, performance-based awards, stock appreciation rights, and employee stock purchase plans. On April 21, 2005 the SEC issued a ruling extending the mandatory compliance date for SFAS 123(R). Under the ruling, public entities (other than those filing as small business issuers) will be required to apply SFAS No. 123(R) for fiscal years beginning after June 15, 2005. The Company plans to adopt the provisions of SFAS No. 123(R) effective October 1, 2005, and is in the process of evaluating the impact on its consolidated financial position or results of operations.

On May 30, 2005, FASB issued SFAS No. 154, *Accounting Changes and Error Corrections*. This Statement eliminates the requirement in APB Opinion No. 20, *Accounting Changes*, to include the cumulative effect of changes in accounting principle in the income statement in the period of change. To enhance the comparability of prior period financial statements, Statement 154 requires that changes in accounting principle be retrospectively applied. The Statement is effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005. The adoption of SFAS No. 154 is not expected to have any impact on the Company's consolidated financial condition or results of operations.
