PRESS RELEASE - For Immediate Release

HOME FEDERAL BANCORP, INC.
ANNOUNCES FOURTH QUARTER AND ANNUAL EARNINGS

Nampa, ID (November 3, 2005)

Edgar Filing: HOME FEDERAL BANCORP INC - Form 8-K

- Home Federal Bancorp, Inc. (the "Company") (Nasdaq: HOME), the parent company of Home Federal Bank (the "Bank"), today reported net income of \$1.7 million, or \$0.12 per diluted share, for the quarter ended September 30, 2005, compared to \$1.4 million for the same period a year ago. Net income for the fiscal year ended September 30, 2005 was \$5.3 million, or \$0.36 per diluted share, compared to \$4.7 million for the fiscal year ended September 30, 2004. Results for the fiscal year ended September 30, 2005 include a \$386,000 pre-tax gain on the sale of a former branch and a \$1.8 million pre-tax expense for establishing the Home Federal Foundation, Inc. (the "Foundation"). Excluding the gain on the sale of the branch and the expense for establishing the Foundation, the Company had net income of \$6.2 million, or \$0.42 per diluted share, for the fiscal year ended September 30, 2005.

On December 6, 2004, the Bank completed its mutual holding company reorganization, at which time the Bank converted to stock form and the Company and Home Federal MHC, the federally chartered mutual holding company was organized. As a result, comparisons to prior periods refer to the results of the Bank as a federal mutual savings and loan association, and per share data is not applicable. The per share data for the fiscal year ended September 30, 2005 is being reported on shares outstanding from December 6, 2004 through September 30, 2005. In connection with the reorganization, the Company received \$53.6 million in net proceeds from the sale of its common stock in a minority stock offering.

The following table reconciles the Company's actual net income to pro forma net income for the fiscal year ended September 30, 2005, exclusive of the sale of the branch and the contribution to the Foundation, and as adjusted for Federal and state taxes (in thousands, except per share data):

Revenues for the quarter ended September 30, 2005, which consisted of net interest income before the provision for loan losses plus noninterest income, increased 19% to \$8.2 million for the quarter, compared to \$6.9 million for the

quarter ended September 30, 2004. Revenues for the fiscal year ended September 30, 2005 increased 19% to \$31.8 million, compared to \$26.8 million for the fiscal year ended September 30, 2004. Net interest income before the provision for loan losses increased 17% to \$5.6 million for the quarter ended September 30, 2005, compared to \$4.8 million for the same quarter of the prior year. For the fiscal year ended September 30, 2005, net interest income before the provision for loan losses increased 21% to \$21.7 million, compared to \$17.9 million for the fiscal year ended September 30, 2004.

For the quarter ended September 30, 2005, net interest income after provision for loan losses increased 17% to \$5.6 million, compared to \$4.8 million for the same quarter a year ago. For the quarter ended September 30, 2005, no provision for loan losses was established by management in connection with its analysis of the loan portfolio. Net interest income after provision for loan losses for the fiscal year ended September 30, 2005 increased 25% to \$21.2 million, compared to \$17.0 million for the fiscal year ended September 30, 2004.

The Company's net interest margin decreased 17 basis points to 3.48% for the quarter ended September 30, 2005, from 3.65% for the same quarter last year. The yield on deposits was 2.06% for the fourth quarter compared to 1.72% for the fourth quarter of the prior year. The increase was primarily attributable to general market rate increases following Federal Reserve rate increases during the past fiscal year. The net interest margin for the fiscal year ended September 30, 2005 decreased 27 basis points to 3.57% from 3.84% for the fiscal year ended September 30, 2004. During the year ended September 30, 2005, the Company increased its investment in mortgage-back securities by \$98 million. The additional mortgage-backed securities, which generally have a lesser yield than comparable loans, were the primary reason for the decrease in the net interest margin for the fiscal year ended September 30, 2005.

Noninterest income increased 30% to \$2.6 million for the quarter ended September 30, 2005, compared to \$2.0 million for the same quarter a year ago. The growth in service charges and fees accounted for the majority of the increase from the prior quarter a year ago. For the fiscal year ended September 30, 2005, noninterest income increased 12% to \$10.1 million, compared to \$9.0 million for the fiscal year ended September 30, 2004. The increase in other noninterest income is primarily attributable to the \$873,000 increase in service charges and fees, \$386,000 gain on the sale of a branch and the receipt of \$456,000 in life insurance proceeds, offset by a \$300,000 impairment of the Company's mortgage servicing rights.

Noninterest expense for the quarter ended September 30, 2005 increased 17% to \$5.4 million, compared to \$4.6 million for the comparable period a year earlier. Compensation and benefits accounted for \$833,000 of the increase with the majority of the increase attributable to the establishment of an employee stock ownership plan ("ESOP") and additional costs related to the employee incentive plan. The efficiency ratio improved to 65.72% for the quarter ended September 30, 2005 compared to 67.60% for the same quarter a year ago. Noninterest expense for the fiscal year ended September 30, 2005 increased 25% to \$23.2 million, compared to \$18.6 million for the fiscal year ended September 30, 2004. The \$4.6 million increase was primarily a result of the \$1.8 million contribution to the Foundation, the \$206,000 death benefit paid to the family of a former Bank officer, additional compensation expense including \$615,000 as a result of the establishment of the ESOP and professional

expenses related to being a publicly held company. The efficiency ratio was 72.81% for the fiscal year ended September 30, 2005, compared to 69.20% for the fiscal year ended September 30, 2004. Excluding the non-recurring contribution to the Foundation and the gain on sale of the branch, the efficiency ratio was 67.89% for the fiscal year ended September 30, 2005. The efficiency ratio indicates how much is spent on non-interest expenses as a percentage of total revenue.

Total assets decreased 7% to \$689.6 million at September 30, 2005 compared to \$743.9 million at September 30, 2004. Assets at September 30, 2004 included \$220.8 million that was received from subscribers in the Company's minority stock offering. These subscription funds were subsequently refunded to subscribers in the quarter ended December 31, 2004 as a result of a change in the appraisal of the Company, which increased the valuation range of the minority stock offering. Following the refund to subscribers, the Company conducted a resolicitation and received \$153.1 million from subscribers. The Company's minority stock offering, however, was oversubscribed and as a result, \$97.2 million of the \$153.1 million of subscription funds received by the Company were returned to investors in the quarter ended December 31, 2004.

Net loans at September 30, 2005, increased 10% to \$430.9 million, compared to \$392.6 million at September 30, 2004. Single family lending represented 61% of the Bank's loan portfolio at September 30, 2005, compared to 63% at September 30, 2004. Commercial real estate loans accounted for 28% of the Bank's loan portfolio at September 30, 2005, compared to 26% at September 30, 2004.

Credit quality remains high, as non-performing assets were \$1.0 million, or 0.15% of total assets, at September 30, 2005, compared to \$723,000, or 0.10% of total assets, at September 30, 2004. The allowance for loan losses was \$2.9 million, or 0.66% of gross loans, including loans held for sale, at September 30, 2005 compared to \$2.6 million, or 0.66% of gross loans, at September 30, 2004.

Deposits increased 16% to \$396.3 million at September 30, 2005 compared to \$343.1 million at September 30, 2004. Noninterest-bearing demand deposits increased \$16.7 million to \$46.3 million at September 30, 2005, compared to \$29.6 million at September 30, 2004. Interest-bearing deposits grew \$3.6 million to \$127.3 million at September 30, 2005, compared to \$123.8 million at September 30, 2004. Certificates of deposit increased \$33.2 million with the majority of the increase in 12 to 23 month terms.

Stockholder's equity increased \$56.3 million to \$101.4 million at September 30, 2005 compared to \$45.1 million a year earlier. The increase was primarily the result of \$55.1 million from the minority stock offering, \$5.3 million net income, and \$615,000 earned ESOP shares, offset by \$564,000 of cash dividends paid to stockholders and \$3.9 million for the repurchase of 298,092 shares of common stock. The Company's book value per share as of September 30, 2005 was \$6.80 per share based upon 14,910,658 outstanding shares of common stock.
