PRESS RELEASE

TELECOM ITALIA e.BISCOM AGREE ON

AP.BISCOM PRESS AGENCY DEAL

TELECOM ITALIA CONSOLIDATES ITS PUBLISHING PLANS SURROUNDING TELECOM ITALIA MEDIA, THE COMPANY UNDER WHICH AP.BISCOM WILL OPERATE

Antonio Calabrò appointed editor

e.BISCOM TO FOCUS ON CORE TELECOMMUNICATIONS BUSINESS

Milan, 18 June 2003 - Telecom Italia today reached agreement with **e.Biscom** for the acquisition of the **AP.Biscom** press agency.

This move is targeted at consolidating publishing operations by expanding Telecom Italia Media, the new company founded after hiving off Seat Pagine Gialle.

Antonio Calabrò is the new editor to be.

The e.Biscom Group will increasingly closely focus operations on its core business of broadband telecommunications.

This acquisition of AP.Biscom which has run successful publishing operations in its initial phase enables Telecom Italia to take a major step into the international news arena, in partnership with the prestigious Associated Press. Telecom Italia is poised to leverage all of the **major opportunities for complete synergy in the various new media markets (television, Internet, press agencies) in which it now has a presence.**

Telecom Italia has a television presence through **Telecom Italia Media** with **La 7** and **MTV**, and an Internet presence with **Virgilio** and **Tin.it**. **Acquisition of a 100% equity stake in e.BisNews, which currently operates under the AP.Biscom brand**, is an expression of the Group's strategies in this sector. The Company will be able to exploit original news content ideal for the Internet and television. Major synergies with other Group companies will be realized as the press agency grows, particularly in regard to mobile telephony.

Acquisition of a 100% equity stake in e.BisNews, publisher of the AP.Biscom press agency, which is currently in the start-up phase, is being undertaken at a symbolic price of one euro.

The company, whose revenues for 2003 are forecast at 3.5 million euros, has no debt.

Completion of the deal is conditional upon approval by the relevant authorities.

Cautionary Statement for Purposes of the "Safe Harbor" Provision of the United States Private Securities Litigation Reform Act of 1995.

The Private Securities Litigation reform Act of 1995 provides a "safe harbor" for forward-looking statements. The Press Release included in this Form 6-K contains certain forward looking statements and forecasts reflecting management's current views with respect to certain future events. The ability of the Telecom Italia Group to achieve its projected results is dependant on many factors which are outside of management's control. Actual results may differ materially from those projected or implied in the forward-looking statements. Such forward-looking information involves risks and uncertainties that could significantly affect expected results and are based on certain key assumptions.

The following important factors could cause the Telecom Italia Group's actual results to differ materially from those projected or implied in any forward-looking statements:

- the continuing impact of increased competition in a liberalized market, including competition from global and regional alliances formed by other telecommunications operators in the core domestic fixed-line and wireless markets of the Telecom Italia Group;
- the ability of the Telecom Italia Group to introduce new services to stimulate increased usage of its fixed and wireless networks to offset declines in its fixed-line business due to the continuing impact of regulatory required price reductions, market share loss and pricing pressures generally;
- the ability of the Telecom Italia Group to achieve cost-reduction targets in the time frame established or to continue the process of rationalizing its non-core assets;
- the impact of regulatory decisions and changes in the regulatory environment;
- the impact of the slowdown in Latin American economies and the slow recovery of economies generally on the international business of the Telecom Italia Group focused on Latin America and on its foreign investments and capital expenditures;
- the continuing impact of rapid changes in technologies;
- the impact of political and economic developments in Italy and other countries in which the Telecom Italia Group operates;
- the impact of fluctuations in currency exchange and interest rates;
- Telecom Italia's ability to continue the implementation of its 2002-2004 Industrial Plan, including the rationalization of its corporate structure and the disposition of Telecom Italia's interests in various companies;
- the ability of the Telecom Italia Group to successfully achieve its debt reduction targets;
- Telecom Italia's ability to successfully roll out its UMTS networks and services and to realize the benefits of its investment in UMTS licenses and related capital expenditures;
- Telecom Italia's ability to successfully implement its internet strategy;

Edgar Filing: TELECOM ITALIA S P A - Form 6-K

- the ability of the Telecom Italia Group to achieve the expected return on the significant investments and capital expenditures it has made in Latin America and in Europe;
- the amount and timing of any future impairment charges for Telecom Italia's licences, goodwill or other assets; and
- the impact of litigation or decreased mobile communications usage arising from actual or perceived health risks or other problems relating to mobile handsets or transmission masts.

The foregoing factors should not be construed as exhaustive. Due to such uncertainties and risks, readers are cautioned not to place undue reliance on such forward-looking statements, which speak only as of the date hereof. Accordingly, there can be no assurance that the group will achieve its projected results.
