APPLIED GRAPHICS TECHNOLOGIES, INC.

NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS
(IN THOUSANDS OF DOLLARS)

1. BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements of Applied Graphics Technologies, Inc. and its subsidiaries (the "Company"), which have been prepared in accordance with the instructions to Form 10-Q and, therefore, do not include all information and footnotes necessary for a fair presentation of financial position, results of operations, and cash flows in conformity with generally accepted accounting principles, should be read in conjunction with the notes to consolidated financial statements contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2001. In the opinion of the management of the Company, all adjustments (consisting primarily of normal recurring accruals) necessary for a fair presentation have been included in the financial statements. The operating results of any quarter are not necessarily indicative of results for any future period.

Certain prior-period amounts in the accompanying financial statements have been reclassified to conform with the 2002 presentation.

2. SALE OF PUBLISHING BUSINESS

In connection with the Company's adoption of a plan approved by its Board of Directors in June 2000 to sell its publishing business, the results of operations of that business were reported as a discontinued operation in the Company's financial statements. Since as of June 30, 2001, one year from the measurement date, the Company had not reached definitive terms with a potential buyer, the net assets of the publishing business previously reported as a discontinued operation were reclassified as "Net assets held for sale" in the Company's Consolidated Balance Sheet. Commencing July 1, 2001, the assets of the publishing business are no longer depreciated and its results of operations are included as part of continuing operations.

The Company sold the publishing business in April 2002. Net proceeds from the sale were approximately \$33,500, of which \$31,500 were used in April 2002 to repay term loans outstanding under the Company's credit facility and \$2,000 are being held in escrow under the terms of the sale. The escrow will be available to satisfy any claims related to the working capital transferred at closing and contractual warranties. Any remaining escrow balance as of March 31, 2003, will be used to further repay the outstanding term loans. The final terms of the sale deviated sufficiently from the original plan to require the Company to obtain a consent from its lenders that the sale satisfied a contingency of the Company's credit facility, and therefore a new measurement date was established in April

Edgar Filing: APPLIED GRAPHICS TECHNOLOGIES INC - Form 10-Q

2002. In April 2002 the Company began reporting the publishing business as a discontinued operation in accordance with Statement of Financial Accounting Standards (SFAS) No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets."

At March 31, 2002, the Company recognized an impairment charge related to the publishing business of \$7,164 that was based on the terms of the April 2002 sale and is subject to change based on potential working capital adjustments resulting from the finalization of the closing date balance sheet.

APPLIED GRAPHICS TECHNOLOGIES, INC.

NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED)

The results of operations of the publishing business for the three months ended March 31, 2001, are presented as Discontinued Operations in the accompanying Consolidated Statement of Operations as follows:

Revenues.....	\$18,429
	=====
Income from operations before income taxes.....	\$ 822
Provision equivalent to income taxes.....	1,018

Loss from operations.....	(196)
Reversal of loss on disposal.....	196

Income from discontinued operations.....	\$ --
	=====

The results of operations of the publishing business include an allocation of interest expense of \$321 for the three months ended March 31, 2001. The allocated interest expense consisted solely of the interest expense on the Company's borrowings under its credit facility, which represents the interest expense not directly attributable to the Company's other operations. Interest expense was allocated based on the ratio of the net assets of the discontinued operation to the sum of the consolidated net assets of the Company and the outstanding borrowings under the Company's credit facility.

The revenues, gross profit, and operating income from the publishing business included in the Company's results of continuing operations for the three months ended March 31, 2002, were \$19,778, \$10,195, and \$2,599, respectively. The net assets of the publishing business include \$262 of long-term debt and obligations under capital leases, inclusive of the current portion, at March 31, 2002.

3. GOODWILL AND OTHER INTANGIBLE ASSETS

On January 1, 2002, the Company adopted Statement of Financial Accounting Standards (SFAS) No. 142, "Goodwill and Other Intangible Assets." Under SFAS No. 142, acquired goodwill and other intangible assets with indefinite useful lives are no longer amortized over an estimated useful life, but instead are subject to an impairment test. Intangible assets with finite useful lives continue to be amortized over their useful lives.

Upon the initial application of SFAS No. 142, the Company incurred an impairment charge of \$328,529 relating to its goodwill, of which \$321,952 related to the Company's content management services business and \$6,577 related

Edgar Filing: APPLIED GRAPHICS TECHNOLOGIES INC - Form 10-Q

to the Company's broadcast media distribution services business. The fair value of each reporting unit was determined based on applying a multiple to each reporting unit's earnings before interest, taxes, depreciation, and amortization. The Company reported the impairment charge, net of a tax benefit of \$654, as a cumulative effect of a change in accounting principle.

APPLIED GRAPHICS TECHNOLOGIES, INC.

NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED)

The Company's intangible assets not subject to amortization under SFAS No. 142 consist entirely of goodwill. The changes in the carrying amount of goodwill during the three months ended March 31, 2002, and the full year ended December 31, 2001, were as follows:

	2002		2001	
	CONTENT MANAGEMENT SERVICES	OTHER OPERATING SEGMENTS	CONTENT MANAGEMENT SERVICES	OTHER OPERATING SEGMENTS

	=====	=====	=====	=====

The Company's intangible assets subject to amortization under SFAS No. 142 consist entirely of contract acquisition costs, which represent consideration paid by the Company to enter into certain long-term contracts. Contract acquisition costs are amortized on a straight-line basis over the life of the underlying contract. The gross carrying amount and accumulated amortization of contract acquisition costs were as follows:

	MARCH 31, 2002	DECEMBER 31, 2001
Gross carrying amount.....	\$ 2,446	\$ 2,821
Accumulated amortization.....	(1,316)	(1,611)
	-----	-----
Net carrying amount.....	\$ 1,130	\$ 1,210
	=====	=====

Amortization expense associated with contract acquisition costs for the three months ended March 31, 2002 and 2001, was \$80 and \$200, respectively. The estimated amortization expense for each of the next five full fiscal years is as follows:

4. RESTRUCTURING

The Company initiated various restructuring plans in prior periods (the "2001 Fourth Quarter Plan," the "2001 Second Quarter Plan," the "2000 Second Quarter Plan," the "1999 Fourth Quarter Plan," and the "1998 Fourth Quarter Plan," respectively) under which it continues to make certain payments. The amounts included in "Other current liabilities" in the accompanying Consolidated Balance Sheet as of March 31, 2002, for the future costs of the various restructuring plans, and the amounts charged against the respective restructuring liabilities during the three months ended March 31, 2002, were as follows:

Edgar Filing: APPLIED GRAPHICS TECHNOLOGIES INC - Form 10-Q

The components of inventory were as follows:

Raw materials.....	2,182	2,372
	-----	-----
Total.....	\$19,456	\$14,837
	=====	=====

6. LONG TERM DEBT

Under the terms of its credit facility, as amended, the Company was obligated to satisfy certain milestones in connection with raising amounts to repay borrowings. The consummation of the sale of the publishing business satisfied one such milestone and resulted in the elimination of a previous increase in interest rates of 100 basis points that had been in effect since January 1, 2002. The Company failed, however, to satisfy two other milestones with deadlines of February 28, 2002, and April 30, 2002. Failure to satisfy the first milestone resulted in a fee of \$500 being paid to the Company's lenders. Failure to satisfy the second milestone resulted in, effective May 1, 2002, an increase in interest rates of 100 basis points and the issuance of warrants with an exercise price of \$0.01 to the Company's lenders to purchase 453,378 shares of the Company's common stock. Such warrants become exercisable upon the earlier of the fifth anniversary of the date of grant or an event of default under the credit facility.

7. DERIVATIVES

The fair value of the Company's interest rate swaps was a net loss of \$1,773 and \$1,370 at March 31, 2002 and 2001, respectively. For the three months ended March 31, 2002 and 2001, the Company recognized a non-cash benefit of \$353 and a non-cash charge of \$238, respectively, which consisted of the following:

	2002	2001
	-----	-----
Change in fair market value of swaps not designated as hedges.....	\$(462)	
Ineffectiveness of swaps designated as hedges.....		\$253
Reclassification of loss in "Accumulated other comprehensive income (loss)".....	99	
Reclassification of cumulative effect recorded upon adoption of SFAS No. 133.....	10	(15)
	-----	-----
Total charge (benefit).....	\$(353)	\$238
	=====	=====

Edgar Filing: APPLIED GRAPHICS TECHNOLOGIES INC - Form 10-Q

The company expects \$212 of the loss in "Accumulated other comprehensive income (loss)" to be reclassified into earnings in the next twelve months.

8. INCOME TAXES

In connection with the impairment of goodwill incurred upon the initial adoption of SFAS No. 142 (see Note 3 to the Interim Consolidated Financial Statements), the Company recognized a deferred tax asset of \$16,806, resulting in a consolidated deferred tax asset of \$35,592 as of March 31, 2002. Based on its most recent projections, the Company does not believe that it is more likely than not that the benefit associated with the deferred tax assets will be entirely realized in the future. Accordingly, at March 31, 2002, the Company established a valuation allowance in the amount of \$16,152, all of which was included as part of the cumulative effect of a change in accounting principle.

9. RELATED PARTY TRANSACTIONS

Sales to, purchases from, and administrative charges incurred with related parties during the three months ended March 31, 2002 and 2001, were as follows:

Certain statements made in this Quarterly Report on Form 10-Q are "forward-looking" statements (within the meaning of the Private Securities Litigation Reform Act of 1995, as amended). Such statements involve known and unknown risks, uncertainties, and other factors that may cause actual results, performance, or achievements of the Company to be materially different from any future results, performance, or achievements expressed or implied by such forward-looking statements. Although the Company believes that the expectations reflected in such forward-looking statements are based upon reasonable assumptions, the Company's actual results could differ materially from those set forth in the forward-looking statements. Certain factors that might cause such a difference include the following: the ability of the Company to maintain compliance with the financial covenant requirements under its credit facility; the ability of the Company to successfully renegotiate the terms of its credit facility; the ability of Kmart Corporation ("Kmart") to successfully emerge from bankruptcy; the impact of technological advancements on the ability of customers and competitors to provide services comparable to those provided by the Company; the continued softness in the advertising market; the timing of completion and the success of the Company's restructuring plans and integration efforts; the rate and level of capital expenditures; and the adequacy of the Company's credit facility and cash flows to fund cash needs.

The results of operations of the Company's publishing business were reported as part of continuing operations for the three months ended March 31, 2002, and as a discontinued operation for the three months ended March 31, 2001. The following discussion and analysis (in thousands of dollars) should be read in conjunction with the Company's Interim Consolidated Financial Statements and notes thereto.

Management must make certain estimates and assumptions in preparing the financial statements of the Company. Certain of these estimates and assumptions relate to matters that are inherently uncertain as they pertain to future events. These estimates and assumptions include the fair value of net assets held for sale, the fair value of goodwill, future estimated taxable income, the collectibility of accounts receivable, and the timing and amount of the settlement on certain lease obligations relating to restructuring charges. While management believes that the estimates and assumptions used were appropriate, actual results could differ significantly from those estimates under different conditions.

RESULTS OF OPERATIONS

THREE MONTHS ENDED MARCH 31, 2002, COMPARED WITH 2001

Revenues in the first quarter of 2002 were \$571 higher than in the comparable period in 2001. Exclusive of the publishing business, which was reported as a discontinued operation for the first quarter of 2001, revenues in the first quarter of 2002 were \$19,207 lower than the first quarter of 2001. Revenues in the 2002 period decreased by \$18,692 from content management services and \$515 from digital services. Decreased revenues from content management services primarily resulted from a weaker advertising market in the first quarter of 2002 as compared to the 2001 period, which adversely impacted the Company's prepress operations servicing advertising agencies and magazine publishers.

Gross profit increased \$6,118 in the first quarter of 2002. The gross profit percentage in the first quarter of 2002 was 34.7% as compared to 29.7% in

Edgar Filing: APPLIED GRAPHICS TECHNOLOGIES INC - Form 10-Q

the 2001 period. Exclusive of the publishing business, the gross profit percentage was 31.3% in the 2002 period. This increase primarily resulted from improved operating efficiencies and cost cutting related to the Company's restructuring and integration efforts.

Selling, general, and administrative expenses in the first quarter of 2002 were \$2,623 higher than in the 2001 period, and as a percent of revenue increased to 32.3% in the 2002 period from 30.2% in the 2001 period. Selling, general, and administrative expenses in the 2002 period include charges of \$499 for nonrestructuring-related employee termination costs and \$627 for consultants retained to assist the Company with its restructuring and integration efforts. The 2002 period also includes the results of operations of the publishing business, which business incurs selling, general, and administrative costs at a higher rate than the Company's other businesses. Selling, general, and administrative expenses in 2001 include a charge of \$419 for nonrestructuring-related employee termination costs. Exclusive of the publishing business, and adjusting for

11

these other charges, selling general, and administrative expenses as a percent of revenue were 29.9% and 29.8% in 2002 and 2001, respectively.

The Company incurred an impairment charge of \$7,164 in the first quarter of 2002 in connection with the sale of its publishing business in April 2002.

Interest expense in the first quarter of 2002 was \$1,289 lower than in the 2001 period due primarily to reduced borrowings outstanding under the Company's credit facility and a non-cash credit of \$353 related to two interest rate swap agreements (see Note 6 to the Interim Consolidated Financial Statements).

The Company recorded an income tax provision of \$551 in the first quarter of 2002. The provision recognized was at a lower rate than the statutory rate due primarily to the projected annual permanent items related to the nondeductible portion of the impairment charge and meals and entertainment expenses.

On January 1, 2002, the Company adopted Statement of Financial Accounting Standards (SFAS) No. 142, "Goodwill and Other Intangible Assets." Under SFAS No. 142, acquired goodwill and other intangible assets with indefinite useful lives are no longer amortized over an estimated useful life, but instead are subject to an impairment test. Intangible assets with finite useful lives continue to be amortized over their useful lives. Upon the initial application of SFAS No. 142, the Company incurred an impairment charge of \$328,529 relating to its goodwill. The Company reported the impairment charge, net of a tax benefit of \$654, as a cumulative effect of a change in accounting principle.

Revenues from business transacted with affiliates for the three months ended March 31, 2002 and 2001, totaled \$1,315 and \$2,708, respectively, representing 1.1% and 2.3%, respectively, of the Company's revenues.

FINANCIAL CONDITION

In March 2002, the Company entered into an amendment to its credit facility (the "Sixth Amendment") that extended the maturity through April 2003. In connection with the Sixth Amendment, the Company incurred fees of \$250 and agreed to issue warrants with a nominal exercise price to its lenders to purchase 5% of the Company's outstanding common stock. The warrants become immediately issuable if an agreement in principle for an overall restructuring of the credit facility is not reached by June 30, 2002, or if a definitive agreement for such restructuring is not entered into by September 30, 2002. In

Edgar Filing: APPLIED GRAPHICS TECHNOLOGIES INC - Form 10-Q

addition, as part of the Sixth Amendment, available borrowings under the Company's revolving credit line were reduced to \$66,000 from \$81,000. The Company does not believe that the reduced borrowing capacity will have a material adverse effect on its financial condition or liquidity. The Company had available borrowing capacity under its revolving credit line of \$40,953 as of March 31, 2002.

Under the terms of its credit facility, as amended, the Company was obligated to satisfy certain milestones in connection with raising amounts to repay borrowings. The consummation of the sale of the publishing business satisfied one such milestone and resulted in the elimination of a previous increase in interest rates of 100 basis points that had been in effect since January 1, 2002. The Company failed, however, to satisfy two other milestones with deadlines of February 28, 2002, and April 30, 2002. Failure to satisfy the first milestone resulted in a fee of \$500 being paid to the Company's lenders. Failure to satisfy the second milestone resulted in, effective May 1, 2002, an increase in interest rates of 100 basis points and the issuance of warrants with an exercise price of \$0.01 to the Company's lenders to purchase 453,378 shares of the Company's common stock. Such warrants become exercisable upon the earlier of the fifth anniversary of the date of grant or an event of default under the credit facility.

Under the terms of its credit facility, as amended, the Company must comply with certain quarterly covenants related to leverage ratios, interest coverage ratios, fixed charge coverage ratios, and capital spending. In addition, the Company must satisfy a minimum cumulative EBITDA (as defined in the credit facility) covenant. If the Company does not satisfy such minimum cumulative EBITDA covenant for any non-quarter month end, the Company's short-term borrowing availability would be limited until such time as the Company is in compliance with the covenant, but such failure would not constitute an event of default. The Company was in compliance with all covenants at March 31, 2002. Based on current projections, the Company believes

12

that it will be able to remain in compliance with the amended covenant requirements throughout 2002, although there can be no assurance that such compliance will be maintained.

The Company is engaged in discussions with its lenders to renegotiate the terms of its credit facility. These discussions have covered a wide range of alternatives and are currently focused on either a forgiveness of a portion of the debt by the lenders or the deferral of cash interest payments on a portion of the debt, an extension of the maturity of the credit facility by several years, and several other significant modifications. Any renegotiation of terms is likely to be subject to various contingencies, including those relating to the settlement of the Company's other debt obligations. In connection with any such agreement, the lenders would likely receive warrants for an additional portion of the Company's outstanding common stock. There can be no assurances as to the terms or the success of any renegotiation of the Company's credit facility.

On January 22, 2002, Kmart, one of the Company's two largest customers, filed for protection under Chapter 11 of the United States Bankruptcy Code. A particular class of vendors was afforded critical vendor status by the bankruptcy court. The Company has been treated as a critical vendor, and has been paid substantially all of its accounts receivable for services rendered to Kmart prior to its bankruptcy filing. The Company continues to be paid under its normal trade terms for services rendered to Kmart subsequent to January 22, 2002.

Edgar Filing: APPLIED GRAPHICS TECHNOLOGIES INC - Form 10-Q

During the first three months of 2002, the Company repaid \$3,300 of the borrowings under its credit facility, repaid \$249 of notes and capital lease obligations, and invested \$3,149 in facility construction and new equipment. Such amounts were primarily funded by cash from operating activities.

Cash flows from operating activities of continuing operations during the first three months of 2002 decreased by \$473 as compared to the comparable period in 2001 due primarily to the timing of customer collections and growth in inventory, partially offset by the timing of vendor payments and an increase in cash from operating income.

The Company expects to spend approximately \$14,000 over the course of the next twelve months for capital improvements, essentially all of which is for modernization. The Company intends to finance these expenditures under operating or capital leases, sale and leaseback arrangements, or with working capital or borrowings under its credit facility.

The Company believes that the cash flow from operations, including potential improvements in operations as a result of its integration and restructuring efforts, and available borrowing capacity, subject to the Company's ability to remain in compliance with the financial covenants under its credit facility, will provide sufficient cash flows to fund its cash needs throughout 2002.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company's primary exposure to market risk is interest rate risk. The Company had \$204,711 outstanding under its credit facility at March 31, 2002. Interest rates on funds borrowed under the Company's credit facility vary based on changes to the prime rate or LIBOR. The Company partially manages its interest rate risk through two interest rate swap agreements under which the Company pays a fixed rate and is paid a floating rate based on the three month LIBOR rate. The notional amounts of the two interest rate swaps totaled \$50,000 at March 31, 2002. A change in interest rates of 1.0% would result in a change in income before taxes of \$1,547 based on the outstanding balance under the Company's credit facility and the notional amounts of the interest rate swap agreements at March 31, 2002.

13

PART II -- OTHER INFORMATION

ITEM 2. CHANGES IN SECURITIES AND USE OF PROCEEDS

In May 2002, pursuant to the terms of its credit facility, the Company issued warrants with an exercise price of \$0.01 to its lenders to purchase 453,378 shares of the Company's common stock. Such warrants become exercisable upon the earlier of the fifth anniversary of the date of grant or an event of default under the Company's credit facility. The issuance of such securities by the Company were effected without registration based on reliance upon the exemption from registration provided by Section 4(2) of the Securities Act of 1933 for private placements.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

As previously disclosed in its Annual Report on Forms 10-K for the years ended December 31, 2001 and 2000, a subsidiary of the Company, Wace Group Limited ("Wace"), is in arrears on the dividend payments related to its 8% Cumulative Convertible Redeemable Preference Shares. Wace has been prohibited from making dividend payments due to the lack of distributable reserves in Wace, and has not made a dividend payment since July 1999. The arrearage, which is

Edgar Filing: APPLIED GRAPHICS TECHNOLOGIES INC - Form 10-Q

included as part of "Minority interest" in the Consolidated Balance Sheets, totals \$5,823,000 at May 14, 2002.

ITEM 5. OTHER INFORMATION

(a) In May 2002, the Board of Directors of the Company appointed Fred Drasner as Chief Executive Officer of the Company. Mr. Drasner continues to serve as Chairman of the Board of Directors.

(b) On April 11, 2002, pursuant to a Stock Purchase Agreement entered into by and among DPG Holdings, Inc., Devon Group, Inc., and Applied Graphics Technologies, Inc. (the "Company"), the Company sold all of the outstanding common stock of Portal Publications Ltd. ("Portal"), an indirect wholly-owned subsidiary, to Lynx Private Equity II, L.P. The assets sold represent the entirety of the Company's publishing business. In connection with the sale, the Company received approximately \$33,500,000 in cash, of which \$31,500,000 was used to repay borrowings outstanding under the Company's credit facility and \$2,000,000 was deposited into an escrow account under the terms of the sale.

The following pro forma financial information is presented for informational purposes. The pro forma consolidated balance sheet as of March 31, 2002, is presented as if the disposition of Portal had occurred on March 31, 2002. The pro forma statements of operations for the three months ended March 31, 2002, and for the year ended December 31, 2001, are presented as if the disposition of Portal had occurred on January 1, 2001. The pro forma financial information does not purport to present the financial position or results of operations of the Company had the transaction and events assumed therein occurred on the dates specified, nor are they necessarily indicative of the results of operations in the future. The pro forma financial information is based on certain assumptions and adjustments described in the Notes to Pro Forma Financial Information and should be read in conjunction therewith and with the financial statements and related notes included in this Quarterly Report on Form 10-Q and in the Company's Annual Report on Form 10-K for the year ended December 31, 2001.
