Edgar Filing: NAPCO SECURITY SYSTEMS INC - Form 10-Q

The accompanying Condensed Consolidated Financial Statements are unaudited. In management's opinion, all adjustments (consisting of only normal recurring accruals) necessary for a fair presentation have been made. The results of operations for the period ended December 31, 2005 are not necessarily indicative of results that may be expected for any other interim period or for the full year. Certain prior year amounts have been reclassified to conform with the current years' presentation.

The unaudited Condensed Consolidated Financial Statements include the accounts of Napco Security Systems, Inc. and all of its wholly-owned subsidiaries. The Company has also consolidated a 51%-owned joint venture. The 49% interest, owned by a third party, is reflected as minority interest. All inter-company balances and transactions have been eliminated in consolidation.

The Company has made a number of estimates and assumptions relating to the assets and liabilities, the disclosure of contingent assets and liabilities and the reporting of revenues and expenses to prepare these financial statements in conformity with accounting principles generally accepted in the United States. Actual results could differ from those estimates.

The unaudited Condensed Consolidated Financial Statements should be read in conjunction with the Consolidated Financial Statements and related notes contained in the Company's Annual Report on Form 10-K for the year ended June 30, 2005. The accounting policies used in preparing these unaudited Condensed Consolidated Financial Statements are consistent with those described in the June 30, 2005 Consolidated Financial Statements, except as described herein (see Note 2). However, for interim financial statements, inventories are calculated using a gross profit percentage.

Advertising and Promotional Costs

Advertising and promotional costs are included in "Selling, General and Administrative" expenses in the Condensed Consolidated Statements of Income and are expensed as incurred. Advertising expense for the three months ended December 31, 2005 and 2004 was \$185,000 and \$273,000, respectively. Advertising expense for the six months ended December 31, 2005 and 2004 was \$592,000 and \$625,000, respectively.

Research and Development Costs

Research and development costs incurred by the Company are charged to expense in the period incurred. Research and Development expense for the three months ended December 31, 2005 and 2004 was \$1,258,000 and \$1,274,000, respectively. Research and Development expense for the six months ended December 31, 2005 and 2004 was \$2,403,000 and \$2,470,000, respectively. These expenses are included in "Cost of Sales" in the Condensed Consolidated Statements of Income.

Business Concentration and Credit Risk

An entity is more vulnerable to concentrations of credit risk if it is exposed to risk of loss greater than it would have had if it mitigated its risk through diversification of customers. Such risks of loss manifest differently, depending on the nature of the concentration, and vary in significance. The Company has two major customers with Sales and Accounts Receivable as follows (in thousands):

Sales for the three months ended December 31,

Edgar Filing: NAPCO SECURITY SYSTEMS INC - Form 10-Q

	2005		2004	
	\$	%	\$	%
Customer A	1,245	7%	1,120	7%
Customer B	1,740	10%	1,458	9%
	-----	----	-----	----
	2,985	17%	2,578	16%
	=====	====	=====	====

7

Sales for the three months ended December 31,

	2005		2004	
	\$	%	\$	%
Customer A	2,562	8%	2,099	7%
Customer B	2,427	8%	2,570	9%
	-----	----	-----	----
	4,989	16%	4,669	16%
	=====	====	=====	====

Accounts Receivable as of:

	December 31, 2005		June 30, 2005	
	\$	%	\$	%
Customer A	4,845	23%	4,400	20%
Customer B	3,325	15%	3,306	15%
	-----	----	-----	----
	8,170	38%	7,706	35%
	=====	====	=====	====

These customers sell primarily within North America. Although management believes that these customers are sound and creditworthy, a severe adverse impact on their business operations could have a corresponding material adverse effect on the Company's net sales, cash flows, and/or financial condition. In the ordinary course of business, the Company has established an allowance for doubtful accounts and customer deductions in the amount of \$400,000 and \$380,000 as of December 31, 2005 and June 30, 2005, respectively. The allowance for doubtful accounts is a subjective critical estimate that has a direct impact on reported net earnings. This allowance is based upon the evaluation of accounts receivable aging, specific exposures and historical trends.

Edgar Filing: NAPCO SECURITY SYSTEMS INC - Form 10-Q

Stock Options

During the three and six months ended December 31, 2005 the Company granted 45,000 stock options under its 2002 Employee Incentive Stock Option Plan. The aggregate fair value of these options, calculated using the Black-Scholes option pricing model, was \$284,000, which will be expensed over the four year vesting schedule. 22,320 and 209,520 options were exercised under this plan during the three and six months ended December 31, 2005, respectively. These figures reflect the effect of the 3:2 stock split described below.

Stock Dividend and Stock Splits

On November 29, 2005 the Company's Board of Directors approved a 3-for-2 split of its common stock, payable in the form of a 50% stock dividend to stockholders of record on December 14, 2005. The additional shares were distributed on December 28, 2005. Upon completion of the split, the total number of shares of common stock outstanding increased from approximately 8,795,000 to approximately 13,192,000. There was no net effect on total stockholders' equity as a result of the stock split.

In November 2004, the Company's Board of Directors approved a twenty percent (20%) stock dividend of the Company's common stock payable to stockholders of record on November 22, 2004. The effect of the stock dividend, which has been accounted for similar to a stock split, has been retroactively reflected in all share and per share data. The additional shares were distributed on December 6, 2004. There was no net effect on total stockholders' equity as a result of the stock dividend.

In March 2004, the Company's Board of Directors approved a two-for-one stock split in the form of a 100% stock dividend of the Company's common stock payable to stockholders of record on April 13, 2004. The additional shares were distributed on April 27, 2004. There was no net effect on total stockholders' equity as a result of the stock split.

All share and per share amounts have been retroactively adjusted to reflect the stock dividend and stock splits.

8

Recent Accounting Pronouncements

In September 2005, the Financial Accounting Standards Board ("FASB") issued FASB Staff Position ("FSP") No. FAS 123(R)-1, "Classification and Measurement of Freestanding Financial Instruments Originally Issued in Exchange for Employee Services under FASB Statement No. 123(R)," to defer the requirement of SFAS No. 123(R) that a freestanding financial instrument originally subject to SFAS No. 123(R) becomes subject to the recognition and measurement requirements of other applicable GAAP when the rights conveyed by the instrument to the holder are no longer dependent on the holder being an employee of the entity. The rights under stock-based payment awards issued to employees by the Company are all dependent on the recipient being an employee of the Company. Therefore, this FSP currently does not have an impact on the Company's consolidated financial statements and its measurement of stock-based compensation in accordance with SFAS No. 123(R).

In October 2005, the FASB issued FSP No. FAS 123(R)-2, "Practical Accommodation to the Application of Grant Date as Defined in FASB Statement

Edgar Filing: NAPCO SECURITY SYSTEMS INC - Form 10-Q

No. 123(R)," to provide guidance on determining the grant date for an award as defined in SFAS No. 123(R). This FSP stipulates that assuming all other criteria in the grant date definition are met, a mutual understanding of the key terms and conditions of an award to an individual employee is presumed to exist upon the award's approval in accordance with the relevant corporate governance requirements, provided that the key terms and conditions of an award (a) cannot be negotiated by the recipient with the employer because the award is a unilateral grant, and (b) are expected to be communicated to an individual recipient within a relatively short time period from the date of approval. The Company has applied the principles set forth in this FSP upon its adoption of SFAS No. 123(R).

In November 2005, the FASB issued FSP No, FAS 123(R)-3, "Transition Election Related to Accounting for the Tax Effects of Share-Based Payment Awards", to provide an alternate transition method for the implementation of SFAS No. 123(R). Because some entities do not have, and may not be able to re-create, information about the net excess tax benefits that would have qualified as such had those entities adopted SFAS No. 123(R) for recognition purposes, this FSP provides an elective alternative transition method. That method comprises (a) a computational component that establishes a beginning balance of the APIC pool related to employee compensation and (b) a simplified method to determine the subsequent impact on the APIC pool of employee awards that are fully vested and outstanding upon the adoption of SFAS No. 123(R). The Company has applied the principles set forth in this FSP upon its adoption of SFAS No. 123(R).

2.) Employee Stock-based Compensation

The Company has established three share incentive programs as discussed in more detail in the Company's annual report on Form 10-K for the year ended June 30, 2005. Prior to fiscal 2006, the Company applied the intrinsic value method as outlined in Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees," ("APB No. 25") and related interpretations in accounting for stock options and share units granted under these programs. Under the intrinsic value method, no compensation expense was recognized if the exercise price of the Company's employee stock options equaled the market price of the underlying stock on the date of the grant. Accordingly, no compensation cost was recognized in the accompanying condensed consolidated statements of income prior to fiscal year 2006 on stock options granted to employees, since all options granted under the Company's share incentive programs had an exercise price equal to the market value of the underlying common stock on the date of grant. Stock-based compensation costs of \$56,000 and \$115,000 were recognized in three and six months ended December 31, 2005, respectively. The effect on both Basic and Diluted Earnings per share was \$0.004 and \$0.008 for the three and six months ended December 31, 2005, respectively.

Effective July 1, 2005, the Company adopted Statement of Financial Accounting Standards ("SFAS") No. 123(R), "Share-Based Payment" ("SFAS No. 123(R)"). This statement replaces SFAS No. 123, "Accounting for Stock-Based Compensation" ("SFAS No. 123") and supersedes APB No. 25. SFAS No. 123(R) requires that all stock-based compensation be recognized as an expense in the financial statements and that such cost be measured at the fair value of the award. This statement was adopted using the modified prospective method of application, which requires us to recognize compensation expense on a prospective basis. Therefore, prior period financial statements have not been restated. Under this method, in addition to reflecting compensation expense for new share-based awards, expense is also recognized to reflect the remaining service period of awards that had been included in pro-forma disclosures in prior periods. SFAS No. 123(R) also requires that excess tax benefits related to stock option exercises be reflected as financing cash inflows instead of operating cash inflows.

Edgar Filing: NAPCO SECURITY SYSTEMS INC - Form 10-Q

Prior to the Company's adoption of SFAS No. 123(R), SFAS No. 123 required that the Company provide pro forma information regarding net earnings and net earnings per common share as if compensation cost for the Company's stock-based awards had been determined in accordance with the fair value method prescribed therein. The Company had previously adopted the disclosure portion of SFAS No. 148, "Accounting for Stock-Based Compensation - Transition and Disclosure," requiring quarterly SFAS No. 123 pro forma disclosure. The pro forma charge for compensation cost related to stock-based awards granted was recognized over

9

the service period. For stock options, the service period represents the period of time between the date of grant and the date each option becomes exercisable without consideration of acceleration provisions (e.g., retirement, change of control, etc.).

The following table illustrates the effect on net earnings per common share as if the fair value method had been applied to all outstanding awards for the three and six months ended December 31, 2004:

	Three Months ended December 31, 2004	Six Months ended December 31, 2004
	(in thousands, except per share data)	(in thousands, except per share data)
Net income, as reported	\$ 872	\$1,385
Deduct: Total stock-based employee compensation expense determined under fair value method for all awards, net of related tax effects	(41)	(63)
Pro forma net income	\$ 831	\$1,322
Earnings per common share (1):		
Basic - as reported	\$0.07	\$ 0.11
Basic - pro forma	\$0.06	\$ 0.10
Diluted - as reported	\$0.06	\$ 0.10
Diluted - pro forma	\$0.06	\$ 0.10

(1) Information reflects stock dividend and stock splits. See Note 1.

3.) Inventories

December 31, 2005	June 30, 2005
-------------------	---------------

Inventories consist of (in thousands):

Edgar Filing: NAPCO SECURITY SYSTEMS INC - Form 10-Q

Component parts	\$13,918	\$10,740
Work-in-process	2,199	1,697
Finished products	4,931	3,805
	-----	-----
	\$21,048	\$16,242
	=====	=====

For interim financial statements, inventories are calculated using a gross profit percentage.

4.) Earnings Per Common Share

The Company follows the provisions of SFAS No. 128, "Earnings Per Share". In accordance with SFAS No. 128, earnings per common share amounts ("Basic EPS") were computed by dividing earnings by the weighted average number of common shares outstanding for the period. Earnings per common share amounts, assuming dilution ("Diluted EPS"), were computed by reflecting the potential dilution from the exercise of stock options. SFAS No. 128 requires the presentation of both Basic EPS and Diluted EPS on the face of the condensed consolidated statements of income.

A reconciliation between the numerators and denominators of the Basic and Diluted EPS computations for earnings is as follows (in thousands except per share data) (Information reflects the stock dividend and stock splits as described in Note 1):

10

Three months ended December 31, 2005			
	Net Income (numerator)	Shares (denominator)	Per Share Amounts
	-----	-----	-----
BASIC EPS			
Net income attributable to common stock	\$1,483	13,184	\$0.11
EFFECT OF DILUTIVE SECURITIES

DILUTED EPS			
Net income attributable to common stock and assumed option exercises	\$1,385	13,553	\$ 0.10

Edgar Filing: NAPCO SECURITY SYSTEMS INC - Form 10-Q

=====

No options to purchase shares of common stock in the six months ended December 31, 2004 were excluded in the computation of Diluted EPS because no option prices were in excess of the average market price for the six months ended September 30, 2004.

5.) Long Term Debt

11

In May 2001, the Company amended its secured revolving credit agreement with its primary bank. The Company's borrowing capacity under the amended agreement was increased to \$18,000,000. The amended revolving credit agreement is secured by all the accounts receivable, inventory, the Company's headquarters in Amityville, New York, common stock of three of the Company's subsidiaries and certain other assets of Napco Security Systems, Inc. The revolving credit agreement bears interest at either the Prime Rate less 1/4% or an alternate rate based on LIBOR as described in the agreement. The agreement contains various restrictions and covenants including, among others, restrictions on payment of dividends, restrictions on borrowings, restrictions on capital expenditures, the maintenance of minimum amounts of tangible net worth, and compliance with other certain financial ratios, as defined in the agreement. In October 2004 the Company renegotiated this secured revolving credit agreement at essentially the same terms and conditions with a new expiration date of September 2008.

6.) Geographical Data

The Company's domestic and foreign sales for the periods presented are summarized in the following tabulation (in thousands):

	Three Months		Six Months	
	Ended December 31,		Ended December 31,	
	2005	2004	2005	2004
	-----	-----	-----	-----
Sales to external customers (1):				
Domestic	\$14,688	\$13,576	\$26,682	\$25,038
Foreign	2,535	2,443	4,721	4,421
	-----	-----	-----	-----
Total Net Sales	\$17,223	\$16,019	\$31,403	\$29,459
	=====	=====	=====	=====

(1) All of the Company's sales occur in the United States and are shipped primarily from the Company's facilities in the United States and United Kingdom. There were no sales into any one foreign country in excess of 10% of Net Sales.

7.) Commitments and Contingencies

As previously reported, on or about August 27, 2001, a Complaint was filed against NAPCO Security Group and Alarm Lock Systems, Inc. by Jose Ramirez and Glenda Ramirez in the Supreme Court of State of New York, County of the Bronx.

Edgar Filing: NAPCO SECURITY SYSTEMS INC - Form 10-Q

The Complaint seeks fifteen million dollars (\$15,000,000) in damages on behalf of Mr. Ramirez based on theories including strict liability in tort, negligence, breach of warranty, failure to warn, etc. The Complaint also seeks damages in the amount of two million dollars (\$2,000,000) on behalf of Ms. Ramirez based on an allegation that she has been, and forever will be, "deprived of the society, services, companionship consortium and support of" Mr. Ramirez based on the personal injuries he suffered in a fire which purportedly occurred on November 5, 1999. This case was consolidated with the related case concerning the same incident, captioned Jose Ramirez and Glenda Ramirez v. Mark T. Miller, Chelsea Gardens Owners Corp., Eichner Rudd Management Associates, Ltd., Napco Security Group and Alarm Lock Systems, Inc., asserting the same claims against the Company. The action is being defended by NAPCO's insurance company on behalf of NAPCO. The Alarm Lock product in question has been tested and still functions correctly, and the Company believes that the action is without merit. NAPCO plans to continue its vigorous defense of this action.

In the normal course of business, the Company is a party to claims and/or litigation. Management believes that the settlement of such claims and/or litigation, considered in the aggregate, will not have a material adverse effect on the Company's financial position and results of operations.

12

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Napco Security Systems, Inc.

Management's Discussion and Analysis of Financial Condition and Results of Operations

This Quarterly Report on Form 10-Q and the information incorporated by reference may include "Forward-Looking Statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Exchange Act of 1934. The Company intends the Forward-Looking Statements to be covered by the Safe Harbor Provisions for Forward-Looking Statements. All statements regarding the Company's expected financial position and operating results, its business strategy, its financing plans and the outcome of any contingencies are Forward-Looking Statements. The Forward-Looking Statements are based on current estimates and projections about our industry and our business. Words such as "anticipates," "expects," "intends," "plans," "believes," "seeks," "estimates," or variations of such words and similar expressions are intended to identify such Forward-Looking Statements. The Forward-Looking Statements are subject to risks and uncertainties that could cause actual results to differ materially from those set forth or implied by any Forward-Looking Statements. For example, the Company is highly dependent on its Chief Executive Officer for strategic planning. If he is unable to perform his services for any significant period of time, the Company's ability to continue growing could be adversely affected. In addition, factors that could cause actual results to differ materially from the Forward-Looking Statements include, but are not limited to, adverse tax consequences of offshore operations, distribution problems, unforeseen environmental liabilities and the uncertain military, political and economic conditions in the world.

Overview

The Company is a diversified manufacturer of security products, encompassing intrusion and fire alarms, building access control systems and electronic locking devices. These products are used for commercial, residential,

Edgar Filing: NAPCO SECURITY SYSTEMS INC - Form 10-Q

institutional, industrial and governmental applications, and are sold worldwide principally to independent distributors, dealers and installers of security equipment. International sales accounted for approximately 16% and 15% of our revenues for fiscal year 2005 and the first six months of fiscal 2006, respectively.

The Company owns and operates manufacturing facilities in Amityville, New York and the Dominican Republic. A significant portion of our operating costs are fixed, and do not fluctuate with changes in customer demand or utilization of our manufacturing capacity. As product demand rises and factory utilization increases, the fixed costs are spread over increased output, which should improve profit margins. Conversely, when sales decline our fixed costs are spread over reduced levels, thereby decreasing margins.

The security market is characterized by constant incremental innovation in product design and manufacturing technologies. Generally, the Company devotes 7-8% of revenues to research and development (R&D) on an annual basis. Products resulting from our R&D investments in fiscal 2005 did not contribute materially to revenue during that fiscal year, but should benefit the Company over future years. In general, the new products introduced by the Company are initially shipped in limited quantities, and increase over time. Prices and manufacturing costs tend to decline over time as products and technologies mature.

Economic and Other Factors

The post September 11th era has generally been characterized by a favorable business climate for suppliers of electronic security products and services versus the rather sluggish performance of most technology related sectors during the similar period. Electronic security vendors, however, did not completely escape the fallout from the broader downturn in capital spending in the economy. The Company believes the security equipment market is likely to continue to exhibit healthy growth, particularly in industrial sectors, due to ongoing concerns over the adequacy of security safeguards.

Seasonality

The Company's fiscal year begins on July 1 and ends on June 30. Historically, the end users of Napco's products want to install its products prior to the summer; therefore sales of its products peak in the period April 1 through June 30, the Company's fiscal fourth quarter, and are reduced in the period July 1 through September 30, the Company's fiscal first quarter. To a lesser degree, sales in Europe are also adversely impacted in the Company's first fiscal quarter because of European vacation patterns, i.e., many distributors and installers are closed for the month of August.

Critical Accounting Policies

The Company's consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America which require, in some cases, that certain estimates and assumptions be made that affect the amounts and

disclosures reported in the those financial statements and the related accompanying notes. Estimates are based on current facts and circumstances, prior experience and other assumptions believed to be reasonable. Management uses its best judgment in valuing these estimates and may, as warranted, solicit external advice. Actual results could differ from these estimates, assumptions

Edgar Filing: NAPCO SECURITY SYSTEMS INC - Form 10-Q

and judgments and these differences could be material. The following critical accounting policies, some of which are impacted significantly by estimates, assumptions and judgments, affect the Company's consolidated financial statements. Our most critical accounting policies relate to revenue recognition; concentration of credit risk; inventory; goodwill and other intangible assets; and income taxes.

Revenue Recognition

Revenues from merchandise sales are recorded at the time the product is shipped or delivered to the customer pursuant to the terms of purchase. We report our sales levels on a net sales basis, which is computed by deducting from gross sales the amount of actual returns received and an amount established for anticipated returns and allowances.

Our sales return accrual is a subjective critical estimate that has a direct impact on reported net sales. This accrual is calculated based on a history of gross sales and actual sales returns, as well as management's estimate of anticipated returns and allowances.

Business Concentration and Credit Risk

An entity is more vulnerable to concentrations of credit risk if it is exposed to risk of loss greater than it would have had if it mitigated its risk through diversification of customers. Such risks of loss manifest differently, depending on the nature of the concentration, and vary in significance. The Company has two major customers with Sales and Accounts receivable as follows (in thousands):

Sales for the three months ended December 31,

	2005		2004	
	\$	%	\$	%
Customer A	1,245	7%	1,120	7%
Customer B	1,740	10%	1,458	9%
	2,985	17%	2,578	16%
	=====	===	=====	===

Sales for the six months ended December 31,

	2005		2004	
	\$	%	\$	%
Customer A	2,562	8%	2,099	7%
Customer B	2,427	8%	2,570	9%
	4,989	16%	4,669	16%
	=====	===	=====	===

Edgar Filing: NAPCO SECURITY SYSTEMS INC - Form 10-Q

Accounts Receivable as of:

	December 31, 2005		June 30, 2005	
	\$	%	\$	%
Customer A	4,845	23%	4,400	20%
Customer B	3,325	15%	3,306	15%
	8,170	38%	7,706	35%
	=====	===	=====	===

These customers sell primarily within North America. Although management believes that these customers are sound and creditworthy, a severe adverse impact on their business operations could have a corresponding material adverse effect on our net sales, cash flows, and/or financial condition. In the ordinary course of business, we have established an allowance for doubtful accounts and customer deductions in the amount of \$400,000 and \$380,000 as of December 31, 2005 and June 30, 2005, respectively. The

14

allowance for doubtful accounts is a subjective critical estimate that has a direct impact on reported net earnings. This allowance is based upon the evaluation of accounts receivable aging, specific exposures and historical trends.

Inventories

We state our inventory at the lower of cost or fair market value, with cost being determined on the first-in, first-out (FIFO) method. We believe FIFO most closely matches the flow of our products from manufacture through sale. The reported net value of our inventory includes finished saleable products, work-in-process and raw materials that will be sold or used in future periods. Inventory cost includes raw materials, direct labor and overhead.

We also record an inventory obsolescence reserve, which represents the difference between the cost of the inventory and its estimated fair market value, based on various product sales projections. This reserve is calculated using an estimated obsolescence percentage based on age, historical trends and requirements to support forecasted sales. In addition, and as necessary, we may establish specific inventory obsolescence reserves for known or anticipated events. For interim financial statements, inventories are calculated using a gross profit percentage.

Goodwill and Other Intangible Assets

Effective July 1, 2001, the Company adopted Statement of Financial Accounting Standards ("SFAS") No. 141, "Business Combinations" and SFAS No. 142, "Goodwill and Other Intangible Assets". These statements established accounting and reporting standards for acquired goodwill and other intangible assets. Specifically, the standards address how acquired intangible assets should be accounted for both at the time of acquisition and after they have been recognized in the financial statements. In accordance with SFAS No. 142, intangible assets, including purchased goodwill, must be evaluated for

Edgar Filing: NAPCO SECURITY SYSTEMS INC - Form 10-Q

impairment. Those intangible assets that are classified as goodwill or as other intangibles with indefinite lives are not amortized.

Impairment testing for Goodwill is performed in two steps: (i) the Company determines impairment by comparing the fair value of a reporting unit with its carrying value, and (ii) if there is an impairment, the Company measures the amount of impairment loss by comparing the implied fair value of goodwill with the carrying amount of that goodwill. The Company has performed its annual impairment evaluation required by this standard and determined that the goodwill is not impaired.

Income taxes

Deferred income taxes are recognized for the expected future tax consequences of temporary differences between the amounts reflected for financial reporting and tax purposes. Net deferred tax assets are adjusted by a valuation allowance if, based on the weight of available evidence, it is more likely than not that some portion or all of the net deferred tax assets will not be realized. If the Company determines that a deferred tax asset will not be realizable or that a previously reserved deferred tax asset will become realizable, an adjustment to the deferred tax asset will result in a reduction of, or increase to, earnings at that time. The provision (benefit) for income taxes represents U.S. Federal, state and foreign taxes. Through June 30, 2001, the Company's subsidiary in the Dominican Republic, Napco/Alarm Lock Group International, S.A. ("Napco DR"), was not subject to tax in the United States, as a result, no taxes were provided. Effective July 1, 2001, the Company made a domestication election for Napco DR. Accordingly, its income is subject to taxation in the United States on a going forward basis.

In March 2003, Napco Security Systems, Inc. timely filed its income tax return for the fiscal year ended June 30, 2002. This return included an election to treat one of the Company's foreign subsidiaries, Napco DR, as if it were a domestic corporation beginning July 1, 2001. This election was based on a then recently enacted Internal Revenue Code ("Code") provision. As a result of this election, Napco DR is treated, for Federal income tax purposes, as transferring all of its assets to a domestic corporation in connection with an exchange. Although this type of transfer usually results in the recognition of taxable income to the extent of any untaxed earnings and profits, the Code provision provides an exemption for applicable corporations. The Company qualifies as an applicable corporation pursuant to this Code section, and based on this Code exemption, the Company treated the transfer of approximately \$27,000,000 of Napco DR's untaxed earnings and profits as nontaxable.

The Internal Revenue Service has issued a Revenue Procedure which is inconsistent with the Code exemption described above. The Code is the actual law; a Revenue Procedure is the IRS's interpretation of the law. The Code has a higher level of authority than a Revenue Procedure. Management believes that it has appropriately relied on the guidance in the Code when filing its income tax return. If challenged, the Company believes that the potential liability would range from \$0 to \$9,450,000. However, the Company also believes there are other mitigating factors that would limit the amount of the potential liability, and as a result, management accrued a liability of \$2,243,000 as of June 30, 2002. The Company's tax provision utilizes estimates made by management and as such, is subject to change.

Results of Operations

Edgar Filing: NAPCO SECURITY SYSTEMS INC - Form 10-Q

	Three months ended December 31,			Six months ended December 31,		
	2005	2004	% Increase/ (decrease)	2005	2004	% Inc (dec)
Net sales	\$17,223	\$16,019	7.5%	\$31,403	\$29,459	6.8%
Gross profit	6,049	4,918	23.0%	11,174	9,191	21.2%
Gross profit as a % of net sales	35.1%	30.7%	4.4%	35.6%	31.2%	4.3%
Selling, general and administrative	3,785	3,468	9.1%	7,658	6,840	11.3%
Selling, general and administrative as a percentage of net sales	22.0%	21.6%	0.4%	24.4%	23.2%	1.3%
Income from operations	2,264	1,450	56.1%	3,516	2,351	49.3%
Interest expense	60	58	3.4%	98	126	(22.2%)
Other expense	2	55	(96.4)%	6	98	(93.8%)
Minority interest in net loss of subsidiary, net	54	--	n/a	115	--	n/a
Provision for income taxes	773	465	66.2%	1,229	742	63.9%
Net income	1,483	872	70.1%	2,298	1,385	65.6%

Sales for the three months ended December 31, 2005 increased by approximately 8% to \$17,223,000 as compared to \$16,019,000 for the same period a year ago. Sales for the six months ended December 31, 2005 increased by approximately 7% to \$31,403,000 as compared to \$29,459,000 for the same period a year ago. The increase in sales for the three and six months was mainly in the Company's intrusion alarm and access control product lines.

The Company's gross profit for the three months ended December 31, 2005 increased by \$1,131,000 to \$6,049,000 or 35.1% of sales as compared to \$4,918,000 or 30.7% of sales for the same period a year ago. The Company's gross profit for the six months ended December 31, 2005 increased by \$1,983,000 to \$11,174,000 or 35.6% of sales as compared to \$9,191,000 or 31.2% of sales for the same period a year ago. The increase in gross profit was due primarily to the increase in sales which allowed for more fixed overhead absorption. Increased margins also resulted from the Company's previously reported realignment of its burglar alarm product distribution network as well as cost reductions of certain of the Company's raw material costs.

Selling, general and administrative expenses for the three months ended December 31, 2005 increased by \$317,000 to \$3,785,000, or 22.0% of sales, as compared to \$3,468,000, or 21.6% of sales a year ago. Selling, general and administrative expenses for the six months ended December 31, 2005 increased by \$818,000 to \$7,658,000, or 24.4% of sales, as compared to \$6,840,000, or 23.2% of sales a year ago. The increase in dollars and as a percentage of sales for the three and six months ended December 31, 2005 was due primarily to increased selling activity, legal expenses relating to litigation as well as the recording of non-cash compensation expenses beginning in fiscal 2006 in accordance with FAS123.

Interest expense, net for the three months ended December 31, 2005 remained relatively constant at \$60,000 as compared to \$58,000 for the same period a year ago. Interest expense, net for the six months ended December 31, 2005 decreased \$28,000 to \$98,000 as compared to \$126,000 for the same period a year ago. The decrease in the first six months of fiscal 2006 resulted primarily from the reduction in the Company's average outstanding debt as compared to the same period a year ago.

The Company's provision for income taxes for the three months ended December 31, 2005 increased by \$308,000 to \$773,000 as compared to \$465,000 for the same

Edgar Filing: NAPCO SECURITY SYSTEMS INC - Form 10-Q

period a year ago. The Company's provision for income taxes for the six months ended December 31, 2005 increased by \$487,000 to \$1,229,000 as compared to \$742,000 for the same period a year ago. The tax provisions are calculated using an estimated effective tax rate of 35%. The increase in provision for income taxes resulted from the increase in Income before income tax, which resulted primarily from the aforementioned increase in net sales and gross profit.

Net income increased by \$611,000 to \$1,483,000 or \$0.11 per share for the three months ended December 31, 2005 as compared to \$872,000 or \$0.07 per share for the same period a year ago. Net income increased by \$913,000 to \$2,298,000 or \$0.18 per share for the six months ended December 31, 2005 as compared to \$1,385,000 or \$0.11 per share for the same period a year ago. These increases were primarily due to the aforementioned increases in net sales and gross profit as partially offset by the increases in selling, general and administrative expenses, net of the related increase in provision for income taxes. The effect of the 3-for-2 stock split discussed above has been retroactively reflected in all fiscal 2005 per share data.

16

Liquidity and Capital Resources

During the six months ended December 31, 2005 the Company utilized all of its cash generated from operations plus proceeds from its revolving line of credit (\$1,750,000) to purchase property, plant and equipment (\$1,010,000) and invest in additional inventory (\$4,806,000) as discussed below. The Company's management believes that current working capital, cash flows from operations and its revolving credit agreement will be sufficient to fund the Company's operations through at least the next twelve months.

Accounts Receivable at December 31, 2005 decreased \$615,000 to \$21,284,000 as compared to \$21,899,000 at June 30, 2005. This decrease is primarily the result of the higher sales volume during the quarter ended June 30, 2005 as compared to the quarter ended December 31, 2005 as well as extended terms granted to certain of the Company's customers during the quarter ended June 30, 2005. Certain of these terms extended beyond December 31, 2005.

Inventory at December 31, 2005 increased by \$4,806,000 to \$21,048,000 as compared to \$16,242,000 at June 30, 2005. This increase was primarily the result of the Company's level-loading its production schedule in anticipation of its historical sales cycle where a larger portion of the Company's sales occur in the latter fiscal quarters as compared to the earlier quarters as well as adding additional models to the Company's existing product lines.

As of December 31, 2005, the Company's credit facility consisted of an \$18,000,000 secured revolving credit agreement. In December 2004, the Company utilized a portion of this revolving credit agreement to accelerate repayment of two term loans aggregating \$1,658,000. As of December 31, 2005 there was approximately \$14,300,000 available under the secured revolving credit facility. This credit facility expires in September 2008.

As of December 31, 2005 the Company had no material commitments for capital expenditures or inventory purchases other than purchase orders used in the normal course of business.

ITEM 3: Quantitative and Qualitative Disclosures About Market Risk

The Company's principal financial instrument is long-term debt consisting of a revolving credit and term loan facility that provides for interest at a spread

Edgar Filing: NAPCO SECURITY SYSTEMS INC - Form 10-Q

above the prime rate. The Company is affected by market risk exposure primarily through the effect of changes in interest rates on amounts payable by the Company under this credit facility. At December 31, 2005 an aggregate amount of approximately \$3,700,000 was outstanding under this facility. If these borrowings remained at this quarter-end level for an entire year and the prime rate increased or decreased, respectively, by 1% the Company would pay or save, respectively, an additional \$37,000 in interest that year.

Where appropriate, the Company requires that letters of credit be provided on foreign sales. In addition, a significant number of transactions by the Company are denominated in U.S. dollars. As such, the Company has shifted foreign currency exposure onto many of its foreign customers. As a result, if exchange rates move against foreign customers, the Company could experience difficulty collecting unsecured accounts receivable, the cancellation of existing orders or the loss of future orders. The foregoing could materially adversely affect the Company's business, financial condition and results of operations because approximately 15% of the Company's net sales are derived from foreign customers. In addition, the Company transacts approximately 50% of these foreign sales in British Pounds Sterling, therefore exposing itself to a certain amount of foreign currency risk. Management believes that the amount of this exposure is immaterial. We are also exposed to foreign currency risk relative to the Dominican Peso ("RD\$"), the local currency of the Company's production facility in the Dominican Republic. The result of a 10% strengthening in the U.S. dollar to our RD\$ expenses would result in an annual decrease in income from operations of approximately \$260,000.

17

ITEM 4: Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management to allow timely decisions regarding required disclosure. Management necessarily applied its judgment in assessing the costs and benefits of such controls and procedures, which, by their nature, can provide only reasonable assurance regarding management's control objectives.

At the conclusion of the period ended December 31, 2005, we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective in alerting them in a timely manner to information relating to the Company required to be disclosed in this report.

Our independent registered accounting firm Marcum & Kliegman, LLP ("MK"), informed us and our Audit Committee of the Board of Directors that in connection with their audit of our financial results for the fiscal year ended June 30, 2005, MK had discovered conditions which they deemed to be significant deficiencies, (as defined by standards established by the Public Company Accounting Oversight Board) in our financial statement closing process. A significant deficiency is a control deficiency where there is more than a remote likelihood that a misstatement of the company's annual or interim financial statements that is more than inconsequential will not be prevented or detected. The significant deficiencies related to the timely performance of processes and procedures for the period end closing process and its review by internal

Edgar Filing: NAPCO SECURITY SYSTEMS INC - Form 10-Q

accounting personnel. Management has informed MK and the Audit Committee that it will increase its staffing relating to the financial statement closing process to more a adequate level to prevent reoccurrences of this deficiency and will continue to monitor the effectiveness of these actions and will make any other changes or take such additional actions as management determines to be appropriate. Management expects this action be be completed before the end of fiscal 2006.

During the second quarter of 2006, there were no changes in the Company's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting except as described above. Management does not believe that the above significant deficiencies affected the results of the quarter ended December 31, 2005 or any prior period.

18

PART II: OTHER INFORMATION

Item 4. Submission of Matters to a Vote of Security Holders

(a) The annual meeting of stockholders ("the Annual Meeting") was held on December 14, 2005.

(b) At the Annual Meeting, two directors were re-elected as Directors through 2008:

Andrew J. Wilder - 7,908,600 votes "for", 354,651 votes "withheld", and

Arnold Blumenthal - 7,916,760 votes "for", 346,491 votes "withheld"

(c) At the Annual Meeting, the Amended and Restated Certificate of Incorporation was amended to increase authorized Common Stock from twenty-one million shares to forty million shares - 7,916,294 votes "for", 342,213 votes "against", and 4,744 votes "abstain"

Item 6. Exhibits

31.1 Certification Pursuant to Rule 13a-14(a)/15d-14(a) of Richard L. Soloway, Chairman of the Board and President

31.2 Certification Pursuant to Rule 13a-14(a)/15d-14(a) of Kevin S. Buchel, Senior Vice President of Operations and Finance
