Note 1 Organization

Greenhill & Co., Inc., a Delaware corporation, together with its subsidiaries (collectively, the Company), is an independent investment banking firm. The Company has clients located throughout the world, with offices located in New York, London, Frankfurt, Toronto, Tokyo, Dallas and San Francisco.

The Company's activities as an investment banking firm constitute a single business segment, with two principal sources of revenue:

Advisory, which includes financial advice on mergers, acquisitions, restructurings and similar corporate finance matters as well as fund placement services for private equity and other financial sponsors; and

Merchant banking, which includes the management of outside capital invested in the Company's merchant banking funds and other similar vehicles, primarily Greenhill Capital Partners (GCP I), Greenhill Capital Partners II (GCP II), Greenhill Capital Partners Europe (GCP Europe), and Greenhill SAV Partners (GSAVP) together with GCP I, GCP II and GCP Europe, the Greenhill Funds, and the Company's principal investments in the Greenhill Funds and other merchant banking funds and similar vehicles.

The Company's U.S. and international wholly-owned subsidiaries include Greenhill & Co., LLC (G&Co), Greenhill Capital Partners, LLC (GCPLLC), Greenhill Venture Partners, LLC (GVP), Greenhill Aviation Co., LLC (GAC), Greenhill & Co. Europe Holdings Limited (GCE), and Greenhill & Co. Holding Canada Ltd (GCH).

G&Co is a registered broker-dealer under the Securities Exchange Act of 1934, as amended, and is registered with the Financial Industry Regulation Authority. G&Co is engaged in the investment banking business principally in North America.

GCE is a U.K. based holding company. GCE controls Greenhill & Co. International LLP (GCI), Greenhill & Co. Europe LLP (GCEI) and Greenhill Capital Partners Europe LLP (GCPE), through its controlling membership interests. GCI and GCEI are engaged in investment banking activities, principally in Europe, and are subject to regulation by the U.K. Financial Services Authority (FSA). GCPE is also regulated by the FSA and provides investment advisory services to GCP Europe, our UK-based private equity fund that invests in a diversified portfolio of private equity and equity related investments in mid-market companies located primarily in the United Kingdom and Continental Europe. The majority of the investors in GCP Europe are third parties; however, the Company and its employees have also made investments in GCP Europe.

The Company, through Greenhill & Co. Canada Ltd., a wholly-owned Canadian subsidiary of GCH, engages in investment banking activities in Canada.

GCPLLC is an investment adviser, registered under the Investment Advisers Act of 1940 (IAA). GCPLLC provides investment advisory services to GCP I and GCP II, our U.S. based private equity funds that invest in a diversified portfolio of private equity and equity related investments. The majority of the investors in GCP I and GCP II are third parties; however, the Company and its employees have also made investments in GCP I and GCP II.

GVP is an investment advisor, registered under the IAA. GVP provides investment advisory services to GSAVP, our venture funds that invest in early growth stage companies in the tech-enabled and business information services industries. The majority of the investors in GSAVP are third parties; however, the Company and its employees have also made investments in GSAVP.

GAC owns and operates an aircraft, which is used for the exclusive benefit of the Company's employees and their immediate family members.

On February 21, 2008, the Company completed the initial public offering of units in its subsidiary, GHIL Acquisition Corp., a blank check company ("GHILAC"). In the offering, GHILAC sold

40,000,000 units for an aggregate purchase price of \$400,000,000. Each unit consists of one share of GHLAC's common stock (GHLAC Common Stock) and one warrant (the Founder Warrants). In addition, the Company purchased private placement warrants for an aggregate purchase price of \$8,000,000 (the GHLAC Private Placement Warrants, together with the Founder Warrants, the GHLAC Warrants). Currently, the Company owns approximately 8,369,563 (17.3%) of the outstanding common stock of GHLAC. As a result of its public offering GHLAC is no longer a wholly-owned subsidiary of the Company.

Note 2 Summary of Significant Accounting Policies

Basis of Financial Information

These condensed consolidated financial statements are prepared in conformity with accounting principles generally accepted in the United States, which require management to make estimates and assumptions regarding future events that affect the amounts reported in our financial statements and these footnotes, including investment valuations, compensation accruals and other matters. Management believes that the estimates used in preparing its condensed consolidated financial statements are reasonable and prudent. Actual results could differ materially from those estimates.

The condensed consolidated financial statements of the Company include all consolidated accounts of Greenhill & Co., Inc. and all other entities in which the Company has a controlling interest, including GCI, GCEI and GCPE, after eliminations of all significant inter-company accounts and transactions. In accordance with FASB Interpretation No. 46, Consolidation of Variable Interest Entities (FIN 46-R), the Company consolidates the general partners of its merchant banking funds in which it has a majority of the economic interest. The general partners account for their investments in their merchant banking funds under the equity method of accounting pursuant to Accounting Principles Board Opinion No. 18, The Equity Method of Accounting for Investments in Common Stock (APB 18). As such, the general partners record their proportionate shares of income from the underlying merchant banking funds. As the merchant banking funds follow investment company accounting, and generally record all their assets and liabilities at fair value, the general partners' investment in merchant banking funds represents an estimation of fair value. The Company does not consolidate the merchant banking funds since the Company, through its general partner and limited partner interests, does not have a majority of the economic interest in such funds and under EITF No. 04-5,

Accounting for an Investment in a Limited Partnership When the Investor Is the Sole General Partner and the Limited Partners Have Certain Rights (EITF 04-5), is subject to removal by a simple majority of unaffiliated third-party investors.

These condensed consolidated financial statements are unaudited and should be read in conjunction with the audited consolidated financial statements and notes thereto for the year ended December 31, 2007 as filed with the Securities and Exchange Commission. The condensed consolidated financial information as of December 31, 2007 has been derived from audited consolidated financial statements not included herein. The results of operations for interim periods are not necessarily indicative of results for the entire year.

Minority Interest

The portion of the consolidated interests in the general partners of our merchant banking funds, which are held directly by employees of the Company, are represented as minority interest in the accompanying condensed consolidated financial statements.

Revenue Recognition

Advisory Fees

The Company recognizes financial advisory fee revenue when the services related to the underlying transactions are completed in accordance with the terms of the engagement letter. The

Company recognizes placement advisory fees at the time of the client's acceptance of capital or capital commitments in accordance with the terms of the engagement letter. Retainer fees are recognized as advisory fee income over the period in which the related service is rendered.

The Company's clients reimburse certain expenses incurred by the Company in the conduct of financial advisory engagements. Expenses are reported net of such client reimbursements. Client reimbursements totaled \$1.3 million and \$1.3 million for the three months ended September 30, 2008 and 2007, respectively and \$3.2 million and \$2.9 million for the nine months ended September 30, 2008 and 2007, respectively.

Merchant Banking Revenue

Merchant banking revenue consists of (i) management fees on the Company's merchant banking activities, (ii) gains (or losses) from the Company's investments in merchant banking funds and other principal investment activities, and (iii) merchant banking profit overrides.

Management fees earned from the Company's merchant banking activities are recognized over the period of related service.

The Company recognizes revenue on investments in its merchant banking funds based on its allocable share of realized and unrealized gains (or losses) reported by such funds.

The Company recognizes merchant banking profit overrides when certain financial returns are achieved over the life of the fund. Profit overrides are generally calculated as a percentage of the profits over a specified threshold earned by each fund on investments managed on behalf of unaffiliated investors in GCP I and principally all investors (except the Company in GCP II, GCP Europe and GSAVP). The profit overrides earned by the Company are recognized on an accrual basis throughout the year in accordance with Method 2 of EITF Issue No. D-96, "Accounting for Management Fees Based on a Formula" (EITF D-96). In accordance with Method 2 of EITF D-96, the Company records as revenue the amount that would be due pursuant to the fund agreements at each period end as if the fund agreements were terminated at that date. Overrides are generally calculated on a deal-by-deal basis but are subject to investment performance over the life of each merchant banking fund. We may be required to repay a portion of the overrides to the limited partners of the funds in the event a minimum performance level is not achieved by the fund as a whole (we refer to these potential repayments as "clawbacks"). We would be required to establish a reserve for potential clawbacks if we were to determine the likelihood of a clawback is probable and the amount of the clawback can be reasonably estimated. As of September 30, 2008, the Company has not reserved for any clawback obligations under applicable fund agreements. See Note 3 Investments for further discussion of the merchant banking revenue recognized.

Investments

The Company's investments in merchant banking funds are recorded under the equity method of accounting based upon the Company's proportionate share of the fair value of the underlying merchant banking fund's net assets. The Company's holdings of the GHLAC common stock are also recorded under the equity method of accounting. The Company's other investments are recorded at estimated fair value.

Advisory Fees Receivables

Receivables are stated net of an allowance for doubtful accounts. The estimate for the allowance for doubtful accounts is derived by the Company by utilizing past client transaction history and an assessment of the client's creditworthiness. The Company did not record any bad debt expense for the nine months ended September 30, 2008, and had bad debt expense of \$0.2 million for the nine months ended September 30, 2007.

Restricted Stock Units

In accordance with the fair value method prescribed by FASB Statement No. 123(R), *Share-Based Payment* (SFAS 123(R)), which is a revision of FASB Statement No. 123, *Accounting for Stock-Based Compensation* , the fair value of restricted stock units granted to employees with future service requirements are recorded as compensation expense and generally are amortized over a five-year service period following the date of grant. Compensation expense is determined at the date of grant. As the Company expenses the awards, the restricted stock units recognized are recorded within stockholders' equity. The restricted stock units are reclassified into common stock and additional paid-in capital upon vesting. The Company records dividend equivalent payments on outstanding restricted stock units as a charge to stockholders' equity.

Earnings per Share

The Company calculates earnings per share (EPS) in accordance with FASB Statement No. 128, *Earnings per Share* (SFAS 128). Basic EPS is calculated by dividing net income by the weighted average number of shares outstanding for the period. Diluted EPS includes the determinants of basic EPS plus the dilutive effect of the common stock deliverable pursuant to restricted stock units for which future service is required as a condition to the delivery of the underlying common stock.

Foreign Currency Translation

Foreign currency assets and liabilities have been translated at rates of exchange prevailing at the end of the periods presented in accordance with FASB Statement No. 52 *Foreign Currency Translation* (SFAS 52). Income and expenses transacted in foreign currency have been translated at average monthly exchange rates during the period. Translation gains and losses are included in the foreign currency translation adjustment included as a component of other comprehensive income in the condensed consolidated statement of changes in stockholders' equity. Foreign currency transaction gains and losses are included in the condensed consolidated statement of income.

Goodwill

Goodwill is the cost in excess of the fair value of identifiable net assets at acquisition date. In accordance with SFAS No. 142, *Goodwill and Other Intangible Assets*, (SFAS 142) goodwill is tested at least annually for impairment. An impairment loss is triggered if the estimated fair value of an operating business is less than estimated net book value. Such loss is calculated as the difference between the estimated fair value of goodwill and its carrying value. Goodwill is translated at the rate of exchange prevailing at the end of the periods presented in accordance with SFAS 52. Any translation gain or loss resulting from the translation is included in the foreign currency translation adjustment included as a component of other comprehensive income in the condensed consolidated statement of changes in stockholders' equity.

Property and Equipment

Property and equipment is stated at cost less accumulated depreciation and amortization. Depreciation is computed by the straight-line method over the life of the assets. Amortization of leasehold improvements is computed by the straight-line method over the lesser of the life of the asset or the term of the lease.

Provision for Taxes

The Company accounts for taxes in accordance with FASB Statement No. 109, *Accounting for Income Taxes* (SFAS 109), which requires the recognition of tax benefits or expenses on the temporary differences between the

financial reporting and tax bases of its assets and liabilities.

Cash Equivalents

The Company considers all highly liquid investments with a maturity date of three months or less, when purchased, to be cash equivalents. At September 30, 2008 and December 31, 2007, the carrying value of the Company's cash equivalents approximated fair value.

Financial Instruments and Fair Value

The Company adopted FASB Statement No. 157, Fair Value Measurements (SFAS 157), as of January 1, 2008. SFAS 157 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under SFAS 157 are described below:

Basis of Fair Value Measurement

Level 1 Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 Quoted prices in markets that are not active or financial instruments for which all significant inputs are observable, either directly or indirectly;

Level 3 Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. In determining the appropriate levels, the Company performs a detailed analysis of the assets and liabilities that are subject to SFAS 157. At each reporting period, all assets and liabilities for which the fair value measurement is based on significant unobservable inputs or instruments which trade infrequently and therefore have little or no price transparency are classified as Level 3.

Derivative Instruments

The Company accounts for the GHLAC Warrants, which were obtained in connection with its investment in the GHLAC under FASB Statement No. 133, Accounting for Derivative Instruments and Hedging Activities (SFAS 133). SFAS 133 establishes accounting and reporting standards for derivative instruments and other hedging activities. In accordance with SFAS 133, the Company records the GHLAC Warrants in the condensed consolidated statement of financial condition at fair value, with changes in fair value recorded in merchant banking revenue in the condensed consolidated financial statements.

Accounting Developments

In December 2007, FASB Statement No. 160, Noncontrolling Interests in Consolidated Financial Statements—an amendment of Accounting Research Bulletin No. 51 (SFAS 160) was issued. SFAS 160 requires reporting entities to present noncontrolling (minority) interests as equity (as opposed to as a liability or mezzanine equity) and provides guidance on the accounting for transactions between an entity and noncontrolling interests. The effective date for SFAS 160 is for annual periods beginning on or after December 15, 2008. Early adoption and retroactive application of SFAS 160 to fiscal years preceding the effective date are not permitted. The Company is currently evaluating the potential impact of adopting SFAS 160 on its condensed consolidated financial statements.

In March 2008, FASB Statement No. 161, Disclosures about Derivative Instruments and Hedging Activities an amendment of FASB Statement No. 133 (SFAS 161) was issued. SFAS 161 requires companies to provide enhanced disclosures regarding derivative instruments and hedging activities. It

requires companies to better convey the purpose of derivative use in terms of the risks that such company is intending to manage. Disclosures about (a) how and why an entity uses derivative instruments, (b) how derivative instruments and related hedged items affect a company's financial position, financial performance, and cash flows are required. This Statement retains the same scope as SFAS 133 and is effective for fiscal years and interim periods beginning November 15, 2008. The Company is currently evaluating the potential impact of adopting SFAS 161 on its condensed consolidated financial statements.

In June 2008, FSP EITF 03-6-1, *Determining Whether Instruments Granted in Share-Based Payments Transactions Are Participating Securities* (FSP EITF 03-6-1) was issued. FSP EITF 03-6-1 addresses whether instruments granted in share-based payment transactions are participating securities prior to vesting and therefore need to be included in the earnings allocation in calculating earning per share under the two-class method described in SFAS 128. FSP EITF 03-06-1 requires companies to treat unvested share-based payment awards that have non-forfeitable rights to dividend or dividend equivalents as a separate class of securities in calculating earnings per share. FSP EITF 03-06-1 is effective for fiscal years beginning after December 15, 2008; earlier application is not permitted. The Company is currently evaluating the potential impact of adopting FSP EITF 03-6-1 on its condensed consolidated financial statements.

Note 3 Investments

Affiliated Merchant Banking Investments

The Company invests in merchant banking funds for which it also acts as the managing general partner. In addition to recording its direct investments in the funds, the Company consolidates each general partner in which it has a majority of the economic interest.

The Company recognizes revenue on investments in merchant banking funds based on its allocable share of realized and unrealized gains (or losses) reported by such funds on a quarterly basis. Investments held by merchant banking funds are recorded at estimated fair value. Investments in privately held companies are initially carried at cost as an approximation of fair value as determined by the general partner of the fund after giving consideration to the cost of the security, the pricing of other sales of securities by the portfolio company, the price of securities of other companies comparable to the portfolio company, purchase multiples paid in other comparable third-party transactions, the original purchase price multiple, market conditions, liquidity, operating results and other quantitative and qualitative factors. Discounts are generally applied to the funds' privately held investments to reflect the lack of liquidity and other transfer restrictions. Investments in publicly traded securities are valued using quoted market prices discounted for any legal or contractual restrictions on sale. Because of the inherent uncertainty of valuations as well as the discounts applied, the estimated fair values of investment in privately held companies may differ significantly from the values that would have been used had a ready market for the securities existed. The values at which the investments are carried are adjusted to fair value at the end of each quarter and volatility in general economic conditions, stock markets and commodity prices may result in significant changes in the fair value of the investments and consequently also that portion of the revenues attributable to the Company's merchant banking investments.

The Company's management fee income consists of fees paid by its merchant banking funds and other transaction fees paid by the portfolio companies.

Investment gains from the merchant banking activities are comprised of investment income, realized and unrealized gains from the Company's investment in the Greenhill Funds, and the consolidated earnings of the general partner in which it has a majority economic interest, offset by allocated expenses of the funds. That portion of the earnings of the general partner which are held by employees and former employees of the Company is recorded as minority interest.

As the managing general partner the Company makes investment decisions for the Greenhill Funds and is entitled to receive an override of the profits realized from the funds. The Company includes in consolidated merchant banking revenue all realized and unrealized profit overrides it earns from the Greenhill Funds. This includes profit overrides of the managing general partner of GCP I with respect to all investments it made after January 1, 2004 and the profit overrides of the general partners of GCP II, GCP Europe and GSAVP for all investments. From an economic perspective, profit overrides in respect of all merchant banking investments made after January 1, 2004 are generally allocated 50% to the Company and 50% to employees of the Company. In addition, the Company also includes in merchant banking revenue its portion and certain employees' portion of the profit overrides of GCP I with respect to investments made prior to January 1, 2004. The economic share of the profit overrides allocated to the employees of the Company is recorded as compensation expense.

The Company's merchant banking revenue, by source, is as follows:

At September 30, 2008 and December 31, 2007, the investment in GCP I included \$0.6 million and \$1.0 million, respectively, related to the interests in the managing general partner of GCP I held directly by various employees of the Company. At September 30, 2008 and December 31, 2007, the investment in GCP II included \$1.6 million and \$1.2 million, respectively, related to the interests in the general partner of GCP II held directly by various employees

of the Company. At September 30, 2008 and December 31, 2007, approximately \$2.3 million and \$5.3 million, respectively, of the Company's compensation payable related to profit overrides for unrealized gains of the Greenhill Funds. This amount may increase or decrease depending on the change in the fair value of the Greenhill Funds portfolio and is payable, subject to clawback, at the time the funds realize cash proceeds.

At September 30, 2008, the Company had unfunded commitments of \$57.2 million to the Greenhill Funds. These commitments are expected to be drawn on from time to time over a period of up to five years from the relevant commitment date of each fund. The commitments to GCP I expired on March 31, 2007. At September 30, 2008, the Company had unfunded commitments to GCP II of \$17.6 million which may be funded through June 2010, unfunded commitments to GSAVP of

\$6.4 million which may be funded through September 2011, and unfunded commitments to GCP Europe of \$33.2 million which may be funded through December 2012.

Due to the significant carrying values of the Company's investment in GCP I and GCP II, summarized financial information is provided below. This information is not provided for the Company's investments in GSAVP and GCP Europe.

Note 4 Related Parties

At September 30, 2008 and December 31, 2007, the Company had receivables of \$1.2 million and \$0.0 million due from the Greenhill Funds, respectively, relating to accrued management fees and expense reimbursements, which are included in due from affiliates.

Due to affiliates at December 31, 2007 represents undistributed earnings to the U.K. members of GCI from the period prior to the Company's reorganization. In April 2008 the Company repaid the principal amount of undistributed

earnings to the U.K. members of GCI. Included in accounts payable and accrued expenses are \$0.3 million at September 30, 2008 and \$0.2 million at December 31, 2007 in interest payable on the undistributed earnings to the U.K. members of GCI.

Note 5 Revolving Bank Loan Facility

The Company has a \$90.0 million revolving loan facility from a U.S. banking institution to provide for working capital needs, facilitate the funding of investments and other general corporate purposes. The revolving bank loan facility is secured by all management fees earned by GCPLLC and GVP and any cash distributed to GCPLLC or GVP in respect of its partnership interests in GCP I and GCP II or GSAVP, respectively. Interest on borrowings is based on one month LIBOR plus 1.45% and interest is payable monthly. The revolving bank loan facility matures on June 30, 2009. The weighted average daily borrowings outstanding under the loan facility during the nine months ended September 30, 2008 and 2007, respectively, were approximately \$75.2 million and \$39.5 million, respectively. The weighted average interest rates were 4.39% and 6.95% for the nine month periods ended September 30, 2008 and 2007, respectively.

¹ The GHLAC Warrants consist of the Founder Warrants and the GHLAC Private Placement Warrants discussed in Note 1.

Note 6 Stockholders Equity

During the nine month period ended September 30, 2008 the Company declared and paid dividends of \$1.35 per common share. For the nine month period ending September 30, 2008 dividend equivalents of \$2.6 million were paid on the restricted stock units that are expected to vest.

In January 2008, the Board of Directors of the Company authorized the repurchase of up to \$100.0 million of common stock in open market purchases through January 2009. During the nine months ended September 30, 2008, the Company repurchased in open market transactions 240,880 shares of its common stock at an average price of \$62.27. In addition, during the nine months ended September 30, 2008, the Company is deemed to have repurchased 102,492 shares of its common stock at an average price of \$64.44 per share in conjunction with the payment of tax liabilities in respect of stock delivered to its employees in settlement of restricted stock units.

During the nine months ended September 30, 2007, the Company repurchased in open market transactions 1,917,451 shares of its common stock at an average price of \$62.61. In addition, during the nine months ended September 30, 2007, the Company is deemed to have repurchased 70,745 shares of its common stock at an average price of \$68.48 per share in conjunction with the payment of tax liabilities in respect of stock delivered to its employees in settlement of restricted stock units.

Note 8 Income Taxes

The Company's effective rate will vary depending on the source of the income. Investment and certain foreign sourced income are taxed at a lower effective rate than U.S. trade or business income. In the normal course of business, the

Company may take positions on its tax returns that may be challenged by domestic and foreign taxing authorities. All such transactions are subject to substantial tax due diligence and planning, in which the underlying form, substance and structure of the transaction is evaluated. The Company believes it is more likely than not that all deferred tax assets will be realized.

² Excludes 56,454 shares for the three month period ended September 30, 2008, which were considered antidilutive and thus were not included in the above calculation.

Note 9 Regulatory Requirements

Certain subsidiaries of the Company are subject to various regulatory requirements in the United States and United Kingdom, which specify, among other requirements, minimum net capital requirements for registered broker-dealers.

G&Co is subject to the Securities and Exchange Commission's Uniform Net Capital requirements under Rule 15c3-1 (the "Rule"), which specifies, among other requirements, minimum net capital requirements for registered broker-dealers. The Rule requires G&Co to maintain a minimum net capital of the greater of \$5,000 or 1/15 of aggregate indebtedness, as defined in the Rule. As of September 30, 2008, G&Co's net capital was \$8.5 million, which exceeded its requirement by \$8.0 million. G&Co's aggregate indebtedness to net capital ratio was 0.85 to 1 at September 30, 2008. Certain advances, distributions and other capital withdrawals of G&Co are subject to certain notifications and restrictive provisions of the Rule.

GCI, GCEI and GCPE are subject to capital requirements of the FSA. As of September 30, 2008, each of GCI, GCEI and GCPE were in compliance with their local capital adequacy requirements.

Note 10 Business Information

The Company's activities as an investment banking firm constitute a single business segment, with two principal sources of revenue:

Advisory, which includes financial advice on mergers, acquisitions, restructuring and similar corporate finance matters as well as fund placement services for private equity and other financial sponsors; and

Merchant banking, which includes the management of outside capital invested in the Greenhill Funds and the Company's principal investments in such funds and similar vehicles.

The following provides a breakdown of our aggregate revenues by source for the three month and nine month periods ended September 30, 2008 and 2007, respectively:

	For the Three Months Ended			
	September 30, 2008		September 30, 2007

Edgar Filing: GREENHILL & CO INC - Form 10-Q

Advisory fees	\$ 156.3	92%	\$ 279.7	92%
Merchant banking & other revenue	12.8	8%	23.7	8%
Total revenues	\$ 169.1	100%	\$ 303.4	100%

The Company's advisory and merchant banking activities are closely aligned and have similar economic characteristics. A similar network of business and other relationships upon which the Company relies for advisory opportunities also generate merchant banking opportunities. Generally, the Company's professionals and employees are treated as a common pool of available resources and the related compensation and other Company costs are not directly attributable to either particular revenue source. In reporting to management, the Company distinguishes the sources of its investment banking revenues between advisory and merchant banking. However, management does not evaluate

other financial data or operating results such as operating expenses, profit and loss or assets by its advisory and merchant banking activities.

Note 11 Subsequent Events Note

On October 14, 2008, the Company announced plans to expand its operations to Japan and has opened a Tokyo office to advise Japanese companies on domestic and cross-border merger, acquisition and restructuring opportunities. The Company expects that by January 2009, there will be two managing directors located in its Tokyo office.

On October 23, 2008, the Board of Directors of the Company declared a quarterly dividend of \$0.45 per share. The dividend will be payable on December 17, 2008 to the common stockholders of record on December 3, 2008.

On October 24, 2008, GCE, a subsidiary of the Company, completed its previously announced \$22.9 million investment in Iridium Holdings, L.L.C. ("Iridium"), a leading provider of voice and data mobile satellite services. In September 2008 GHLAC announced its agreement to acquire Iridium (the "Acquisition") in a transaction that valued Iridium at an enterprise value of approximately \$591 million, subject to stockholder approval, various regulatory approvals and other customary closing conditions. The GCE investment is in the form of a convertible subordinated note (the "Note"), which is unsecured, accrues interest at the rate of 5% per annum starting six months after the issuance date and matures on October 24, 2015. The Note is convertible at GCE's option at any time upon the later of (i) October 24, 2009 or (ii) the earlier of a termination event or the closing of the Acquisition contemplated by the transaction agreement between Iridium and GHLAC. The conversion right will terminate if not exercised by GCE before the earlier of (x) the closing of the Acquisition and (y) Iridium's initial public offering, at which point Iridium will have ten business days to redeem the Note at its option. The Note is convertible into the number of Iridium Class A Units equal to the aggregate principal amount outstanding plus accrued and unpaid interest as of the date of such conversion divided by the conversion price of \$272.87 (derived from the enterprise valuation implied by the Acquisition), subject to adjustment for certain events. If the Acquisition is completed on the agreed terms and the Note is converted without any adjustment to the conversion price, the Company will own approximately 9.2 million common shares of the combined company (AMEX:GHQ) and 6 million warrants (AMEX:GHQ/WS).

Overview

Greenhill is an independent investment banking firm that (i) provides financial advice on significant mergers, acquisitions, restructurings and similar corporate finance matters as well as fund placement services for private equity and other financial sponsors and (ii) manages merchant banking funds and similar vehicles and commits capital to those funds and vehicles. We act for clients located throughout the world from offices in New York, London, Frankfurt, Toronto, Tokyo, Dallas and San Francisco. Our activities constitute a single business segment with two principal sources of revenue:

Advisory, which includes financial advice on mergers, acquisitions, restructurings and similar corporate finance matters as well as fund placement services for private equity and other financial sponsors; and

Merchant banking, which currently consists primarily of management of Greenhill's private equity funds, Greenhill Capital Partners or GCP, and Greenhill's venture capital fund, GSAVP; Greenhill Capital Partners Europe or GCP Europe; and principal investments by Greenhill in those funds.

Historically, our advisory business has accounted for the majority of our revenues, and we expect that to remain so for the near to medium term. However, there have been periods, such as the second and third quarters of 2008 and the first quarter of 2006, in which the revenues or losses of the merchant banking business have outweighed our advisory revenues. Since our initial public offering our advisory business has generated 83% of total revenues and our merchant banking business has generated approximately 17% of our total revenue.

The main driver of the advisory business is overall mergers and acquisitions, or M&A, and restructuring volume, particularly in the industry sectors and geographic markets in which we focus. We have recruited and plan to continue to recruit new managing directors to expand our industry sector and geographic coverage. We expect these hires will,

over time, add incrementally to our revenue and

income growth potential. Furthermore, we recently expanded our advisory business with the addition of senior bankers dedicated to the fund placement advisory service.

The principal drivers of our merchant banking revenues are realized and unrealized gains on investments and profit overrides, the size and timing of which are tied to a number of different factors including the performance of the particular companies in which we invest, general economic conditions in the debt and equity markets and other factors which affect the industries in which we invest, such as commodity prices. Presently, we have three merchant banking funds which are actively investing and we have assets under management in those funds of \$1.3 billion. In addition, in early 2008 we completed a \$400 million initial public offering of GHL Acquisition Corp. (GHLAC), a special purpose acquisition company, and in September 2008 GHLAC announced an agreement to acquire Iridium Holdings, LLC (Iridium), a leading provider of voice and data mobile satellite services.

Business Environment

Economic and global financial market conditions can materially affect our financial performance. See the Risk Factors in our Report on Form 10-K filed with the Securities and Exchange Commission. Net income and revenues in any period may not be indicative of full-year results or the results of any other period and may vary significantly from year to year and quarter to quarter.

Advisory revenues were \$37.0 million for the three months ended September 30, 2008 compared to \$116.5 million for the three months ended September 30, 2007, which represents a decrease of 68%. Advisory revenues were \$156.3 million for the nine months ended September 30, 2008 compared to \$279.7 million for the nine months ended September 30, 2007, which represents a decrease of 44%. At the same time global M&A completed transactions decreased 26% from \$2,767 billion in the first nine months of 2007 to \$2,044 billion in the first nine months of 2008³.

Since July 2007 the financial markets have experienced a sharp contraction in credit availability and global M&A activity. Recent levels of capital markets volatility and an uncertain macroeconomic outlook have further contributed to a volatile and uncertain environment for evaluating many assets, securities and companies, which may lead to a more difficult environment for M&A activity. Because we earn a majority of our advisory revenue from completion fees that are dependent on the successful completion of a merger, acquisition, restructuring or similar transaction, our advisory business has been impacted and may be further impacted by a reduction in M&A activity. We believe, however, that our simple business model as an independent, unconflicted advisor, in a period of consolidation of many of our banking focused larger competitors, will continue to attract new clients and that we will also continue to generate advisory revenue that is unrelated to the completion of publicly announced transactions. Further, we believe we will continue to attract talented senior bankers who will give us the opportunity to compete for advisory assignments in industry sectors and geographies in which we had not previously had a presence. In 2008 we have announced the recruitment of eleven Managing Directors, increasing our Managing Director count on a net basis by 31%. This group of experienced bankers brings us sector expertise in Health Care Devices, Health Care Services, Industrials, Paper & Forest Products and Telecom; new offices in San Francisco and Tokyo; and a new Fund Placement Advisory business.

Merchant banking and other revenue were negative (\$51.9) million for the three months ended September 30, 2008 compared to revenues of \$2.9 million for the three months ended September 30, 2007. The negative revenue reported in the third quarter of 2008 related to the reversal of unrealized profit overrides recorded in the second quarter of 2008 and mark-to-market adjustments in the carrying value of the merchant banking investment portfolio. Merchant banking and other revenue were \$12.8 million for the nine months ended September 30, 2008 compared to \$23.7 million for the nine months ended September 30, 2007, which represents a decrease of 46%. Year-to-date merchant

³ Source: Thomson Financial as of October 20, 2008

banking revenues for the period ended September 30, 2008 consisted principally of management fees offset by a small investment loss.

Adverse changes in general economic conditions, commodity prices, credit and public equity markets could impact negatively the amount of advisory and merchant banking revenue realized by the firm.

Results of Operations

Summary

Due to the reversal of the unrealized profit override recorded in the second quarter 2008, mark-to-market adjustments in the carrying value of our merchant banking investments as well as a decrease in advisory revenue, our third quarter 2008 revenues were negative (\$14.9) million as compared to revenues of \$119.4 million for the third quarter of 2007. The decrease in revenue in the third quarter 2008 revenue as compared to the same period in the prior year was attributable to decreases in both advisory revenue and merchant banking revenue. On a year-to-date basis, revenue through September 30, 2008 was \$169.1 million, compared to \$303.4 million for the comparable period in 2007, representing a decrease of \$134.3 million or 44%. The decrease in year-to-date 2008 revenues was primarily attributable to a decline in advisory revenues due to the completion of smaller scale and fewer advisory assignments as compared to same period in 2007. Merchant banking and other revenue for the nine months ended September 30, 2008 decreased \$10.9 million as compared to the same period in 2007 due principally to a decline in the carrying value of our merchant banking portfolio.

For the third quarter of 2008 we reported a net loss of (\$11.7) million as compared to net income of \$35.3 million for the third quarter of 2007. The third quarter 2008 loss resulted primarily from the previously mentioned reversal of the unrealized merchant banking investment gains and profit overrides reported in the second quarter of 2008. On a year-to-date basis, net income was \$36.4 million through September 30, 2008, compared to net income of \$86.8 million for the comparable period in 2007, which represents a decrease of 58%. This decrease was primarily due to the decrease in advisory revenues.

Our quarterly revenues and net income can fluctuate materially depending on the number and size of completed transactions on which we advised, the number and size of merchant banking gains (or losses) and other factors. Accordingly, the revenues and net income in any particular quarter may not be indicative of future results.

Revenues By Source

The following provides a breakdown of our total revenues by source for the three and nine month periods ended September 30, 2008 and 2007, respectively:

Revenue by Principal Source of Revenue

	For the Three Months Ended			
	September 30, 2008		September 30, 2007

Merchant banking & other revenue	12.8	35%	23.7	8%
Total revenues	\$ 169.1	100%	\$ 303.4	100%

Advisory Revenues

Advisory revenues primarily consist of financial advisory and transaction related fees earned in connection with advising companies in mergers, acquisitions, restructurings or similar transactions. We earned \$37.0 million in advisory revenues in the third quarter of 2008 compared to \$116.5 million in the third quarter of 2007, which represents a decrease of 68%. For the nine months ended September 30, 2008, advisory revenues were \$156.3 million compared to \$279.7 million for the comparable period in 2007, representing a decrease of 44%. The decrease in our advisory revenues in the three and nine months ended September 30, 2008 as compared to the same periods in the prior year reflected smaller scale and fewer completed assignments than historically have been completed in past periods by our advisory business.

Completed assignments in the third quarter of 2008 included:

- the sale of the Akzo Nobel NV's Crown Paints business in the United Kingdom and Ireland to Endless LLP;
- the sale of the Akzo Nobel NV's selected Belgian paints brands to Rieu Investissements S.A.;
- the acquisition by Capvis General Partner III Ltd of the BARTEC Group from Allianz Capital Partners;
- the sale of Energy East Corporation to Iberdrola SA;
- the acquisition by Greenfield Partners of Clayton Holdings; and
- the sale of the Philadelphia Stock Exchange, Inc. to the NASDAQ Stock Market, Inc.

Merchant Banking & Other Revenue

Our merchant banking activities currently consist primarily of the management of and our investment in Greenhill's merchant banking funds: GCP I, GCP II, GSAVP and GCP Europe. We generate merchant banking revenue from (i) management fees paid by the funds, (ii) gains (or losses) on our investments in the merchant banking funds, and (iii) profit overrides. The following table sets forth additional information relating to our merchant banking and interest income:

For the Three Months	For the Nine Months
-------------------------	---------------------

	Ended September 30, 2008		Ended September 30, 2007	
	(in millions, unaudited)			
Management fees	\$ 5.1	\$ 4.6	\$ 14.7	\$ 12.7
Net realized and unrealized gains (losses) on investments in merchant banking funds	(21.8)	(2.3)	(2.5)	3.3
Net realized and unrealized merchant banking profit overrides	(35.5)	(0.9)	(0.9)	1.6
Other investment (loss) income	(0.5)	0.4	(1.8)	2.2
Interest income	0.8	1.1	3.3	3.9
Merchant banking & other revenue	\$ (51.9)	\$ 2.9	\$ 12.8	\$ 23.7

The firm recorded negative (\$51.9) million in merchant banking and other revenue in the third quarter of 2008 compared to revenues of \$2.9 million in the third quarter of 2007. This decrease was primarily attributable to the reversal of unrealized accrued profit overrides recorded in the second quarter of 2008 and a decline in the carrying value of the merchant banking investment portfolio. We value our merchant banking investments at their fair value at the end of each quarter. During the second quarter we reported substantial unrealized gains in merchant banking investment portfolio principally due to mark-to-market gains in two public energy companies, EXCO Resources Inc. (NYSE: XCO) and Crusader Energy Group, Inc. (AMEX: KRU), both of which became publicly traded companies after we first invested in them. During the third quarter the market value of these energy companies declined significantly from relative peak valuations at the end of the second quarter of 2008, resulting in a reversal of the profit override and previously recognized unrealized gains. Specifically, in the third quarter of 2008 we recognized unrealized losses of (\$57.3) million related to the merchant banking portfolio as compared to the recognition of unrealized gains of \$53.8 million in the second quarter of 2008. A substantial portion of the unrealized loss recorded in the third quarter of 2008 related to the reversal of the second quarter accrual of unrealized profit overrides of \$35.5 million. We calculate the amount of merchant banking profit overrides, if any, on an accrual basis at the end of each period by measuring the profit on each investment over a specified threshold earned by the investment funds. At June 30, 2008 we exceeded the profit threshold for the investment funds in GCP II and we entered the catch-up adjustment phase for the profit override, which entitled us to record 100 percent of the gain until we reach 20 percent of the total gain on our investment. At September 30, 2008 we no longer exceeded the profit threshold in GCP II and the previously recognized but unrealized profit override was reversed. In addition to GCP II, we were also below the profit threshold for each of GSAVP and GCP Europe at September 30, 2008. In total, during the third quarter of 2008 our merchant banking funds (and the firm) recognized gains from two (2) of our portfolio companies and recorded losses on eight (8) of our portfolio companies.

For the first nine months of 2008, the firm earned \$12.8 million in merchant banking and other revenue compared to \$23.7 million in the first nine months of 2007, a decrease of 46%. This decrease was mainly attributable to a decline in the market value of our merchant banking portfolio and the write off of a principal investment. On a year-to-date basis our merchant banking funds (and the firm) recognized gains from eleven (11) of our portfolio companies and recorded losses on twelve (12) of our portfolio companies.

The values at which our investments are carried on our books are adjusted to fair value at the end of each quarter based upon a number of factors including the length of time the investments have been held, the trading price of the shares (in the case of publicly traded securities), restrictions on transfer and other recognized valuation methodologies. Significant changes in general economic conditions, stock markets and commodity prices, as well as capital events at the portfolio companies such as initial public offerings or private sales of securities, may result in significant movements in the fair value of such investments. Accordingly, any such changes or capital events may have a material effect, positive or negative, on our revenues and results of operations. The frequency and timing of such changes or capital events and their impact on our results are by nature unpredictable and will vary from period to period. For example, since the end of the third quarter the publicly traded values of companies in the energy sector, including our investments in energy companies, have declined significantly.

Moreover, the aggregate value of our merchant banking investments may fluctuate depending on the timing of the investment and liquidation events and the life cycles of each of the funds. For example, the commitment period for GCP I expired on March 31, 2007, and the investments in GCP I have been largely sold or otherwise monetized, while the commitments made to GCP II, GCPE and GSAVP are still in the process of being invested (with approximately 73% of the commitments in GCP II, 22% of the commitments in GCPE, and 31% of the commitments in GSAVP having been invested as of September 30, 2008). The time elapsed between making and monetization of investments in our merchant banking funds can vary considerably and the fair value of the investments may fluctuate significantly over that time.

At September 30, 2008, the firm had principal investments of \$103.5 million, nearly all of which either were through investments in our four merchant banking funds or were in GHL Acquisition Corp. (AMEX: GHQ), our special purpose acquisition company. Of that amount, 32% of our investments related to the energy sector, 31% to the financial services sector and 37% to other industry sectors. We held 96% of our total principal investments in North American companies, with the remainder in European companies. Our investments in companies that have become publicly traded after we first invested in them represented 35% of our total investments.

In September 2008 we announced that we had agreed to invest \$22.9 million in Iridium. GHLAC announced at the same time that it had agreed to acquire Iridium in a transaction that values Iridium at an enterprise value of approximately \$591 million, subject to stockholder approval, various regulatory approvals and other customary closing conditions. If the acquisition of Iridium is completed on the agreed terms and our investment is converted to common shares without any adjustment to the conversion price, the firm will own approximately 9.2 million common shares of the combined company (AMEX:GHQ) and 6 million warrants (AMEX:GHQ.WS). While we can provide no assurances that the transaction will receive stockholder approval and the various regulatory approvals required or that the parties will satisfy the various other closing conditions, if consummated the transaction could provide a significant source of additional merchant banking revenue after completion. In the event that GHLAC is unable to consummate a business combination prior to February 14, 2010 we will write-off our investment in GHLAC made at the time of its initial public offering.

In terms of new investment activity during the third quarter of 2008, our funds invested \$114.6 million, 11% of which was firm capital. In the same period in 2007, our funds invested \$26.4 million, 19% of which was firm capital.

The investment gains or losses in our investment portfolio may fluctuate significantly over time due to factors beyond our control, such as individual portfolio company performance, equity market valuations and merger and acquisition opportunities. Revenue recognized from gains recorded in any particular period is not necessarily indicative of revenue that may be realized in future periods.

Operating Expenses

We classify operating expenses as compensation and benefits expense and non-compensation expenses.

Our operating expenses for the third quarter of 2008 were \$4.0 million, which compares to \$65.1 million of operating expenses for the third quarter of 2007. This decrease related to a reduction in the amount of accrued compensation due to the negative revenue reported in the quarter and is more fully described below.

For the nine months ended September 30, 2008, total operating expenses were \$111.0 million, which compares to total operating expenses of \$169.5 million for the comparable period in 2007. The decrease of \$58.5 million or 35% relates principally to the decrease in compensation expense offset by slightly increased non-compensation expense and is described in more detail below. The pre-tax income margin for the nine months ended September 30, 2008 was 35% compared to 44% for the comparable period in 2007.

The following table sets forth information relating to our operating expenses, which are reported net of reimbursements of certain expenses by our clients and merchant banking portfolio companies:

	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2008	2007	2008	2007
	(in millions, unaudited)			
Employee compensation & benefits expense	\$ (6.6)	\$ 54.9	\$ 77.9	\$ 139.6

Non-compensation expense	10.6	10.2	33.1	29.9
<i>% of revenues</i>	NM	9%	20%	10%
Total operating expense	4.0	65.1	111.0	169.5
<i>% of revenues</i>	NM	55%	66%	56%

Total income (loss) before tax	(18.4)	54.3	58.3	133.9
<i>Pre-tax income margin</i>	NM	46%	35%	44%

Compensation and Benefits

In the third quarter of 2008 we reversed a portion of the annual bonus accrual recorded previously in the year consistent with the negative revenue reported for the quarter. Accordingly, compensation and benefits expenses in the third quarter of 2008 were negative (\$6.6) million as compared to \$54.9 million for the third quarter of 2007. For the nine months ended September 30, 2008 and 2007, the ratio of compensation to revenues remained constant at 46%. Employee compensation and benefits expense for the nine months ended September 30, 2008 amounted to \$77.9 million, which compares to \$139.6 million for the nine months ended September 30, 2007 and reflected a 46% ratio of compensation to revenues. The decrease of \$61.7 million or 44% is due to the lower level of revenues during 2008 as compared to the same period in the prior year.

Our compensation expense is generally based upon revenue and can fluctuate materially in any particular quarter depending upon the amount of revenue recognized as well as other factors. Accordingly, the amount of compensation expense recognized in any particular quarter may not be indicative of compensation expense in a future period.

Non-Compensation Expenses

Our non-compensation expenses include the costs for occupancy and rental, communications, information services, professional fees, recruiting, travel and entertainment, insurance, depreciation, interest expense and other operating expenses. Reimbursable client expenses are netted against non-compensation expenses.

Our non-compensation expenses were \$10.6 million in the third quarter of 2008, which compared to \$10.2 million in the third quarter of 2007, representing an increase of 4%. The increase is principally related to greater travel and costs primarily attributable to the growth in personnel and new business activities.

For the first nine months of 2008, our non-compensation expenses were \$33.1 million, which compared to \$29.9 million in the first nine months of 2007, representing an increase of 11%. The increase is principally related to greater travel and information service costs primarily attributable to the growth in personnel, higher occupancy and other costs associated with new office space in London and Frankfurt offices and an increase in interest expense

related to greater average short term borrowings offset by lower average borrowing rates during the first nine months of 2008 as compared to the same period in 2007.

Non-compensation expenses as a percentage of revenues in the nine months ended September 30, 2008 were 20% compared to 10% for the same period in the prior year. This increase in non-compensation expenses as a percentage of revenue in the nine months ended September 30, 2008 as compared to the same period in the prior year reflects slightly higher expenses spread over significantly lower revenues.

The firm's non-compensation expenses as a percentage of revenue can vary as a result of a variety of factors including fluctuation in quarterly revenue amounts, the amount of recruiting and business development activity, the amount of reimbursement of engagement-related expenses by clients, the amount of short term borrowings, interest rate and currency movements and other factors. Accordingly, the non-compensation expenses as a percentage of revenue in any particular quarter may not be indicative of the non-compensation expenses as a percentage of revenue in future periods.

Provision for Income Taxes

For the three months ended September 30, 2008 we recognized an income tax benefit of \$6.7 million. This reduction in income tax expense reflected a reversal of taxes provided in prior quarters at an effective rate of approximately 36%. In the third quarter of 2007 we recorded a provision for taxes of \$19.0 million, which reflected an effective income tax rate of approximately 35%.

For the nine months ended September 30, 2008, the provision for taxes was \$21.9 million, which reflects an effective tax rate of approximately 38%. This compares to a provision for taxes for the nine months ended September 30, 2007 of \$47.2 million, which reflects an effective tax rate of approximately 35% for the period. The increase in the effective tax rate in 2008 as compared to 2007 related to a greater proportion of our pre-tax income being earned in higher tax rate jurisdictions during the period.

The effective tax rate can fluctuate as a result of variations in the relative amounts of advisory and merchant banking income earned in the tax jurisdictions in which the firm operates and invests. Accordingly, the effective tax rate in any particular quarter may not be indicative of the effective tax rate in future periods.

Liquidity and Capital Resources

Our liquidity position is monitored by our Management Committee, which generally meets monthly. The Management Committee monitors cash, other significant working capital assets and liabilities, debt, principal investment commitments and other matters relating to liquidity requirements. As cash accumulates it is invested in short term liquid investments expected to provide significant liquidity.

We generate cash from both our operating activities in the form of advisory fees and asset management fees and our merchant banking investments in the form of distributions of investment proceeds and profit overrides. We use our cash primarily for operating purposes, compensation of our employees, payment of income taxes, investments in merchant banking funds, payment of dividends, repurchase of shares of our stock and leasehold improvements.

Our liabilities may increase or decrease from period to period depending upon on the change in the fair value of our investments in the merchant banking funds and other principal investments. To the extent we record an unrealized gains (i.e. gains recorded on our books but for which cash proceeds have not yet been received) from our merchant banking investments, our accrued bonus liability and deferred tax liability will increase. In the event such unrealized gains reverse, such as occurred in the third quarter of 2008, or we incur an unrealized loss, our accrued bonus liability and deferred tax liability will decrease

To increase our financial flexibility we have obtained a \$90 million revolving loan facility from a U.S. commercial bank. Borrowings under the facility are secured by all management fees earned by Greenhill Capital Partners, LLC and Greenhill Venture Partners, LLC and any cash distributed in

respect of their partnership interests in GCP I, GCP II and GSAVP, applicable. Interest on borrowings is based on one month LIBOR plus 1.45% and interest is payable monthly. The revolving bank loan facility matures on June 30, 2009. At September 30, 2008, \$81.2 million of borrowings were outstanding on the loan facility and we were in compliance with all loan covenants.

We utilize our revolving loan facility (as well as any cash reserves held in the U.S.) to provide for our domestic cash needs, which include the funding of capital calls for GCP II and GSAVP, dividend payments, share repurchases and for other corporate purposes. We repay the revolving loan facility with cash generated from our domestic operations and proceeds from investments.

As of September 30, 2008 we had cash and cash equivalents on hand of \$70.3 million, of which \$56.3 million were held outside the U.S. Since we became a C Corp at the time of our initial public offering we have been subject to federal income tax on our domestic earnings and that portion of our foreign earnings which we repatriate. It has been our policy to retain approximately 50% of our foreign earnings within our foreign operating units to minimize our global tax burden and to fund our foreign investment needs. However, in the event our cash needs in the U.S. exceed our cash reserves and availability under the revolving loan facility we may repatriate additional cash from our foreign operations.

As of September 30, 2008, we had total commitments (not reflected on our balance sheet) relating to future principal investments in GCP II, GSAVP, GCP Europe and other merchant banking activities of \$58.9 million. These commitments are expected to be drawn on from time to time and be substantially invested over a period of up to five years from the relevant commitment dates. In addition, on October 24, 2008 we completed our previously announced \$22.9 million investment in Iridium.

During the three months ended September 30, 2008, the Company is deemed to have repurchased 9,065 shares of its common stock at an average price of \$62.07 per share in conjunction with the payment of tax liabilities in respect of stock delivered to its employees in settlement of restricted stock units.

We evaluate our cash operating position on a regular basis in light of current market conditions. Our recurring monthly operating disbursements consist of base compensation expense and other operating expenses, which principally include rent and occupancy, information services, professional fees, travel and entertainment and other general expenses. Our recurring quarterly and annual disbursements consist of tax payments, dividend distributions and cash bonus payments. These amounts vary depending upon our profitability and other factors. We incur non-recurring disbursements for our investments in our merchant banking funds and other principal payments, leasehold improvements and share repurchases. While we believe that the cash generated from operations and funds available from the revolving bank loan facility will be sufficient to meet our expected operating needs, commitments to our merchant banking activities, build-out costs of new office space, tax obligations, share repurchases and common dividends, we may adjust our variable expenses and non-recurring disbursements, if necessary, to meet our liquidity needs. In the event that our needs for liquidity should increase further as we expand our business, we may consider a range of financing alternatives to meet any such needs.

Cash Flows

In the first nine months of 2008, our cash and cash equivalents decreased by \$121.4 million from December 31, 2007. We used \$32.6 million in operating activities, including \$69.3 million from net income after giving effect to the non-cash items, offset by a net decrease in working capital of \$101.9 million (principally from the payments of year-end bonuses and taxes). We used \$13.8 million in investing activities, including \$40.6 million for investments in our merchant banking funds and GHL Acquisition Corp. and \$2.1 million which was used for equipment purchases and leasehold improvements partially, offset by \$17.7 million related to distributions received from our merchant

banking investments and proceeds of \$11.2 million from the sale of investments. We used \$66.0 million

for financing activities, including \$5.3 million for the net borrowings from our revolving loan facility, \$21.6 million for the repurchase of our common stock, \$39.0 million for the payment of dividends and \$1.4 million for the repayment of prior undistributed earnings to GCI's U.K. members.

In the first nine months of 2007, our cash and cash equivalents increased by \$53.8 million from December 31, 2006. We generated \$92.5 million in operating activities, including \$105.5 million from net income after giving effect to the non-cash items, partially offset by a net decrease in working capital of \$13.0 million (principally from an increase in accounts receivable, the payment of bonuses and taxes). We generated \$66.4 million in investing activities, including \$38.8 million from the sale of auction rate securities, \$32.9 million from distributions received from our merchant banking investments, and \$30.1 million from the sale of the Ironshore investment to GCP Europe, partially offset by \$31.9 million in new investments in our merchant banking funds and \$3.5 million which was used for the build-out of new office space. We used \$109.2 million for financing activities, including \$124.9 million for the repurchase of our common stock and \$26.0 million for the payment of dividends. A portion of our financing activities were funded through net revolving borrowings of \$39.6 million.

Market Risk

We limit our investments to (1) short term cash investments, which we believe do not face any material interest rate risk, equity price risk or other market risk and (2) principal investments made in GCP, GSAVP, GCP Europe and other merchant banking funds and GHLAC and related investments.

We have invested our cash in short duration, highly rated fixed income investments including bank deposits and money market funds. Changes in interest rates and other economic and market conditions could affect these investments adversely; however, we do not believe that any such changes will have a material effect on our results of operations. We monitor the quality of these investments on a regular basis and may choose to diversify such investments to mitigate perceived market risk. Our short term cash investments are primarily denominated in U.S. dollars, pound sterling and Euros, and we face modest foreign currency risk in our cash balances held in accounts outside the United States due to potential currency movements and the associated foreign currency translation accounting requirements. To the extent that the cash balances in local currency exceed our short term obligations, we may hedge our foreign currency exposure.

With regard to our principal investments (including our portion of any profit overrides earned on such investments), we face exposure to changes in the estimated fair value of the companies in which we and our merchant banking funds invest, which historically has been volatile. Significant changes in the public equity markets may have a material effect on our results of operations. Volatility in the general equity markets would impact our operations primarily because of changes in the fair value of our merchant banking or principal investments that are publicly traded securities. We have analyzed our potential exposure to general equity market risk by performing sensitivity analyses on those investments held by us and in our merchant banking funds which consist of publicly traded securities. This analysis showed that if we assume that at September 30, 2008, the market prices of all public securities were 10% lower, the impact on our operations would be a decrease in revenues of \$2.1 million. We meet on a quarterly basis to determine the fair value of the investments held in our merchant banking portfolio and to discuss the risks associated with those investments. The respective Investment Committee manages the risks associated with the merchant banking portfolio by closely monitoring and managing the types of investments made as well as the monetization and realization of existing investments.

In addition, the reported amounts of our revenues may be affected by movements in the rate of exchange between the euro, pound sterling and Canadian dollar (in which, collectively, 40% of our revenues for the nine months ended September 30, 2008 were denominated) and the dollar, in which our financial statements are denominated. We do not currently hedge against movements in these exchange rates. We analyzed our potential exposure to a decline in

exchange rates by performing a sensitivity analysis on our net income. We do not believe we face any material risk in this respect.

Critical Accounting Policies and Estimates

We believe the following discussion addresses Greenhill's most critical accounting policies, which are those that are most important to the presentation of our financial condition and results of operations and require management's most difficult, subjective and complex judgments.

Basis of Financial Information

Our condensed consolidated financial statements are prepared in conformity with accounting principles generally accepted in the United States, which require management to make estimates and assumptions regarding future events that affect the amounts reported in our financial statements and related footnotes, including investment valuations, compensation accruals and other matters. We believe that the estimates used in preparing our condensed consolidated financial statements are reasonable and prudent. Actual results could differ materially from those estimates.

The condensed consolidated financial statements of the firm include all consolidated accounts and Greenhill & Co., Inc. and all other entities in which we have a controlling interest, including Greenhill & Co. International LLP, Greenhill & Co Europe LLP and Greenhill Capital Partners Europe LLP, after eliminations of all significant inter-company accounts and transactions. In accordance with FASB Interpretation No. 46, Consolidation of Variable Interest Entities (FIN 46-R), the firm consolidates the general partners of our merchant banking funds in which we have a majority of the economic interest. The general partners account for their investments in their merchant banking funds under the equity method of accounting pursuant to Accounting Principles Board Opinion No. 18, The Equity Method of Accounting for Investments in Common Stock (APB 18). As such, the general partners record their proportionate share of income from the underlying merchant banking funds. As the merchant banking funds follow investment company accounting, and generally record all their assets and liabilities at fair value, the general partners' investment in merchant banking funds represent an estimation of fair value. The firm does not consolidate the merchant banking funds since the firm, through its general partner and limited partner interests, does not have a majority of the economic interest in such funds and under EITF No. 04-5, Accounting for an Investment in a Limited Partnership When the Investor Is the Sole General Partner and the Limited Partners Have Certain Rights (EITF 04-5), is subject to removal by a simple majority of unaffiliated third-party investors.

Revenue Recognition

Advisory Fees

We recognize financial advisory fee revenue when the services related to the underlying transactions are completed in accordance with the terms of the engagement letter. The firm recognizes placement advisory fees at the time of the client's acceptance of capital or capital commitments in accordance with the terms of the engagement letter. Retainer fees are recognized as advisory fee income over the period in which the service is rendered.

Our clients reimburse certain out-of-pocket expenses incurred by us in the conduct of financial advisory engagements. Expenses are reported net of such client reimbursements.

Merchant Banking Revenue

Merchant banking revenue consists of (i) management fees on our merchant banking activities, (ii) gains (or losses) from investments in our merchant banking funds and other principal investment activities, and (iii) merchant banking profit overrides.

Management fees earned from the firm's merchant banking activities are recognized over the period of related service.

We recognize revenue on investments in our merchant banking funds based on our allocable share of realized and unrealized gains (or losses) reported by such funds.

We recognize merchant banking profit overrides when certain financial returns are achieved over the life of the fund. Profit overrides are generally calculated as a percentage of the profits over a specified threshold earned by each fund on investments managed on behalf of unaffiliated investors in GCP I and principally all investors, except the firm in GCP II, GCP Europe and GSAVP. The profit overrides earned by the firm are recognized on an accrual basis throughout the year in accordance with Method 2 of EITF D-96, *Accounting for Management Fees Based on A Formula* (EITF D-96). In accordance with Method 2 of EITF D-96, the firm records as revenue the amount that would be due pursuant to the fund agreements at each period end as if the fund agreements were terminated at that date. Overrides are generally calculated on a deal-by-deal basis but are subject to investment performance over the life of each merchant banking fund. We may be required to repay a portion of the overrides to the limited partners of the funds in the event a minimum performance level is not achieved by the fund as a whole (we refer to these potential repayments as *clawbacks*). We would be required to establish a reserve for potential clawbacks if we were to determine that the likelihood of a clawback is probable and the amount of the clawback can be reasonably estimated. As of September 30, 2008, we have not reserved for any clawback obligations under applicable fund agreements. See Note 3 *Investments* for further discussion of the merchant banking revenues recognized.

Investments

The firm's investments in merchant banking funds are recorded under the equity method of accounting based upon the firm's proportionate share of the fair value of the underlying merchant banking fund's net assets. The firm's holdings of the GHLAC common stock are also recorded under the equity method of accounting. The firm's other investments are recorded at estimated fair value.

Restricted Stock Units

In accordance with the fair value method prescribed by FASB Statement No. 123(R), *Share-Based Payment* (SFAS 123(R)), which is a revision of FASB Statement No. 123, *Accounting for Stock-Based Compensation* , the fair value of restricted stock units granted to employees with future service requirements are recorded as compensation expense and generally are amortized over a five-year service period following the date of grant. Compensation expense is determined at the date of grant. As the firm expenses the awards, the restricted stock units recognized are recorded within stockholders' equity. The restricted stock units are reclassified into common stock and additional paid-in capital upon vesting. The firm records dividend equivalent payments on outstanding restricted stock units as a charge to stockholders' equity.

Provision for Taxes

The firm accounts for taxes in accordance with FASB Statement No. 109, *Accounting for Income Taxes* (SFAS 109), which requires the recognition of tax benefits or expenses on the temporary differences between the financial reporting and tax bases of its assets and liabilities.

Financial Instruments and Fair Value

The firm adopted FASB Statement No. 157, *Fair Value Measurements* (SFAS 157), as of January 1, 2008. SFAS 157 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under SFAS 157 are described below:

Basis of Fair Value Measurement

Level 1 Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 Quoted prices in markets that are not active or financial instruments for which all significant inputs are observable, either directly or indirectly;

Level 3 Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. In determining the appropriate levels, the firm performs a detailed analysis of the assets and liabilities that are subject to SFAS 157. At each reporting period, all assets and liabilities for which the fair value measurement is based on significant unobservable inputs or instruments which trade infrequently and therefore have little or no price transparency are classified as Level 3.

Derivative Instruments

The firm accounts for the GHLC Warrants, which were obtained in connection with its investment in the GHLC under FASB Statement No. 133, Accounting for Derivative Instruments and Hedging Activities (SFAS 133). SFAS 133 establishes accounting and reporting standards for derivative instruments and other hedging activities. In accordance with SFAS 133, the firm records the GHLC Warrants in the condensed consolidated statement of financial condition at fair value, with changes in fair value recorded in merchant banking revenue in the condensed consolidated financial statements.

Accounting Developments

In December 2007, FASB Statement No. 160, Noncontrolling Interests in Consolidated Financial Statements—an amendment of Accounting Research Bulletin No. 51 (SFAS 160) was issued. SFAS 160 requires reporting entities to present noncontrolling (minority) interests as equity (as opposed to as a liability or mezzanine equity) and provides guidance on the accounting for transactions between an entity and noncontrolling interests. The effective date for SFAS 160 is for annual periods beginning on or after December 15, 2008. Early adoption and retroactive application of SFAS 160 to fiscal years preceding the effective date are not permitted. The firm is currently evaluating the potential impact of adopting SFAS 160 on its condensed consolidated financial statements.

In March 2008, FASB Statement No. 161, Disclosures about Derivative Instruments and Hedging Activities—an amendment of FASB Statement No. 133 (SFAS 161) was issued. SFAS 161 requires companies to provide enhanced disclosures regarding derivative instruments and hedging activities. It requires companies to better convey the purpose of derivative use in terms of the risks that such company is intending to manage. Disclosures about (a) how and why an entity uses derivative instruments, (b) how derivative instruments and related hedged items affect a company's financial position, financial performance, and cash flows are required. This Statement retains the same scope as SFAS 133 and is effective for fiscal years and interim periods beginning November 15, 2008. The firm is currently evaluating the potential impact of adopting SFAS 161 on its condensed consolidated financial statements.

In June 2008, FSP EITF 03-6-1, Determining Whether Instruments Granted in Share-Based Payments Transactions Are Participating Securities (FSP EITF 03-6-1) was issued. FSP EITF 03-6-1 addresses whether instruments granted in share-based payment transactions are participating securities prior to vesting and therefore need to be included in the earnings allocation in calculating earnings per share under the two-class method described in FASB Statement No. 128, Earnings per Share. FSP EITF 03-6-1 requires companies to treat unvested share-based payment awards that have non-forfeitable rights to dividend or dividend equivalents as a separate class of securities in calculating earnings per share. FSP EITF 03-6-1 is effective for fiscal years beginning after December 15, 2008; earlier application is not permitted. The firm is currently evaluating the potential impact of adopting FSP EITF 03-6-1 on its condensed consolidated financial statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We do not believe we face any material interest rate risk, foreign currency exchange risk, equity price risk or other market risk. See Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations Market Risk above for a discussion of market risks.

Item 4. Controls and Procedures

Under the supervision and with the participation of the firm's management, including our Co-Chief Executive Officers and Chief Financial Officer, we conducted an evaluation of the effectiveness of the firm's disclosure controls and procedures (as defined in Rule 13a-15(e) of the Securities Exchange Act of 1934, as amended (the Exchange Act)). Based upon this evaluation, our Co-Chief Executive Officers and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of the end of the period covered by this report.

No change in the firm's internal control over financial reporting (as defined in Rule 13a-15(f) and 15d-15(f) of the Exchange Act) occurred during the period covered by this report that materially affected, or is reasonably likely to materially affect, the firm's internal control over financial reporting.

Part II. Other Information**Item 1. Legal Proceedings**

From time to time, in the ordinary course of our business, we are involved in lawsuits, claims, audits, investigations and employment disputes, the outcome of which, in the opinion of the firm's management, will not have a material adverse effect on our financial position, cash flows or results of operations.

Item 1A: Risk Factors

There have been no material changes in our risk factors from those disclosed in our 2007 Annual Report on Form 10-K.
