**PROXY STATEMENT
FOR ANNUAL MEETING OF SHAREHOLDERS
JUNE 23, 2010**

The board of directors of Genesco Inc. (Genesco or the Company) is requesting proxies to be voted at the annual meeting of shareholders. The meeting will be held at the Company s executive offices at 10:00 a.m. Central Time, on June 23, 2010. The Company s executive offices are located at Genesco Park, 1415 Murfreesboro Road, Nashville, Tennessee 37217. The notice that accompanies this statement describes the items on the meeting agenda.

The Company will pay the cost of the proxy solicitation. The Company has retained Georgeson Inc. to assist in the proxy solicitation. It will pay Georgeson a proxy solicitation fee of \$11,000, plus \$5.00 per completed telephone call to shareholders in the event that active solicitation is required, and reimburse its expenses. In addition to this request, officers, directors and regular employees of the Company may solicit proxies personally and by mail, facsimile or telephone. They will receive no extra compensation for any solicitation activities. The Company will request brokers, nominees, fiduciaries and other custodians to forward soliciting material to the beneficial owners of shares and will reimburse the expenses they incur in doing so.

All valid proxies will be voted as the board of directors recommends, unless otherwise specified. A shareholder may revoke a proxy before the proxy is voted at the annual meeting by giving written notice of revocation to the secretary of the Company, by executing and delivering a later-dated proxy, by casting a new vote by telephone or the internet or by attending the annual meeting and voting in person the shares the proxy represents.

The board of directors does not know of any matter that will be considered at the annual meeting other than those the accompanying notice describes. If any other matter properly comes before the meeting, persons named as proxies will use their best judgment to decide how to vote on it.

This proxy material was first mailed to certain shareholders on or about May 14, 2010. Also on that date, the Company mailed to all shareholders of record at the close of business on April 26, 2010, a Notice of Internet Availability of Proxy Materials containing instructions on how to access this proxy statement and the Company s annual report online and how to vote online.

The proxy statement for the annual meeting and the annual report for the fiscal year ended January 30, 2010 are available at www.edocumentview.com/GCOB.

Table of Contents**VOTING SECURITIES**

The various classes of voting preferred stock and the common stock will vote together as a single group at the annual meeting.

April 26, 2010 was the record date for determining who is entitled to receive notice of and to vote at the annual meeting. On that date, the number of voting shares outstanding and the number of votes entitled to be cast were as follows:

Class of Stock	No. of Shares	Votes per Share	Total Votes
Subordinated Serial Preferred Stock:			
\$2.30 Series 1	33,497	1	33,497
\$4.75 Series 3	12,163	2	24,326
\$4.75 Series 4	3,579	1	3,579
\$1.50 Subordinated Cumulative Preferred Stock	30,067	1	30,067
Employees Subordinated Convertible Preferred Stock	50,072	1	50,072
Common Stock	24,050,377	1	24,050,377

A majority of the votes entitled to be cast on a matter constitutes a quorum for action on that matter. Once a share is represented at the meeting, it is considered present for quorum purposes for the rest of the meeting. Abstentions and shares represented at the meeting, but not voted on a particular matter due to a broker's lack of discretionary voting power (broker non-votes), will be counted for quorum purposes but not as votes cast for or against a matter. The ratification of the independent registered public accounting firm is a routine matter as to which, under applicable New York Stock Exchange (NYSE) rules, a broker will have discretionary authority to vote if instructions are not received from the client at least 10 days prior to the annual meeting. The election of directors is not a matter as to which a broker may exercise discretionary voting authority.

Each of the director nominees must receive affirmative votes from a plurality of the votes cast to be elected. The proposal to ratify the selection of Ernst & Young LLP as the independent registered public accounting firm to the Company will be approved if the votes cast in favor of ratification exceed the votes cast against it. Broker non-votes will not affect the outcome of the proposal.

ELECTION OF DIRECTORS

Ten directors are to be elected at the meeting. They will hold office until the next annual meeting of shareholders and until their successors are elected and qualify. A plurality of the votes cast by the shares entitled to vote in the election is required to elect a director. All the nominees are presently serving as directors, and all have agreed to serve if elected. The shares represented by valid proxies will be voted FOR the election of the following nominees, unless the proxies specify otherwise. If any nominee becomes unable or unwilling to serve prior to the annual meeting, the board of directors will reduce the number of directors comprising the board, pursuant to the Company's Bylaws, or the proxies will be voted for a substitute nominee recommended by the board of directors.

The board of directors recommends that the shareholders vote FOR all of the director nominees.

Director Independence

The board has determined that Mr. Beard, Dr. Berry, Mr. Blaufuss, Mr. Bradford, Mr. Dale, Mr. Diamond, Mr. Dickens, Mr. Harris and Ms. Mason are independent under applicable NYSE rules. The board considered the following payments made by the Company in the fiscal year ended January 30, 2010 (Fiscal 2010):

contributions totaling \$10,100 to a tax-exempt organization with which Mr. Bradford is affiliated; and

contributions and a facility use fee totaling \$31,633 to two tax-exempt organizations of which Mr. Dickens is a director.

The board determined that none of such payments affected the independence of the directors affiliated with the recipient organizations.

Certain Relationships and Related Transactions

The Company is aware of no related-party transactions since the beginning of the last fiscal year between the Company and any of its directors, executive officers, 5% shareholders or their family members that are required to be disclosed under Item 404 of Regulation S-K under the Securities Exchange Act of 1934 (the Exchange Act).

Each year, the Company requires its directors and executive officers to complete a comprehensive questionnaire, one of the purposes of which is to disclose any related-party transactions with the Company, including any potential Item 404 transactions. No such transactions were disclosed for Fiscal 2010. The Company does not have a history of engaging in related-party transactions with its directors or executive officers or their respective related persons or affiliates and does not have a formal or other written policy regarding the analysis or approval of such transactions. Any material proposed related-party transaction, including any Item 404 transaction irrespective of materiality, would, however, be brought before the board of directors or a specially designated committee thereof (with any interested director recusing himself or herself from the proceedings) to be specifically considered and approved before the Company would knowingly engage in any such transaction.

Board Committees and Meetings

The board of directors met eight times during Fiscal 2010. No director was present at fewer than 75% of the total number of meetings of the board of directors and the committees of the board on which he or she served during Fiscal 2010. The board of directors has standing audit, nominating and governance, compensation and finance committees. All committees are composed entirely of independent directors. It is the policy of the board of directors that no current or former employee of the Company will serve on the audit, nominating and governance, or compensation committee. A description of each board committee and its membership follows.

Audit Committee

Members: William F. Blaufuss, Jr. (chairman), James S. Beard, Robert V. Dale and Kathleen Mason

The Company has a separately designated standing audit committee established in accordance with Section 3(a)(58)(A) of the Exchange Act. The audit committee is currently composed of four independent directors (as defined under the applicable rules

CORPORATE GOVERNANCE

Nominating and Governance Committee

The charter of the nominating and governance committee is available on the Company's website, www.genesco.com. The members of the committee satisfy the independence requirements of the NYSE. In addition, the board of directors has adopted a policy pursuant to which no former employee of the Company will serve as a member of the nominating and governance committee.

The nominating and governance committee and the board of directors will consider nominees for the board of directors recommended by shareholders if shareholders comply with the Company's advance notice requirements. The Company's Bylaws provide that a shareholder who wishes to nominate a person for election as a director at a meeting of shareholders must deliver written notice to the secretary of the Company. This notice must contain, as to each nominee, all of the information relating to such person as would be required to be disclosed in a proxy statement meeting the requirements of Regulation 14A under the Securities Exchange Act of 1934 if such person had been nominated by the board of directors, the written consent of such person to being named as a nominee in soliciting material and to serving as a director, if elected, and the name and address of the shareholder delivering the notice as it appears on the stock records of the Company, along with the number and class of shares held of record by such shareholder. In the case of an annual meeting to be held on the fourth Wednesday in the month of June or within thirty days thereafter, the notice must be delivered not less than sixty nor more than ninety days prior to the fourth Wednesday in June. In the case of an annual meeting which is being held on any other date (or in the case of any special meeting), the notice must be delivered within ten days after the earlier of the date on which notice of the meeting is first mailed to shareholders or the date on which public disclosure is first made of the date of such meeting. There are no differences in the process pursuant to which the committee is to evaluate prospective nominees based on whether the nominee is recommended by a shareholder.

Upon receipt of a recommendation from any source, including shareholders, the committee will take into account whether a board vacancy exists or is expected or whether expansion of the board is desirable. In making this determination, the committee may solicit the views of all directors. If the committee determines that the addition of a director is desirable, it will assess whether the candidate presented should be nominated for board membership. While the committee may consider whatever factors it deems appropriate in its assessment of a candidate for board membership,

Table of Contents

candidates nominated to serve as directors will, at a minimum, in the committee's judgment:

be able to represent the interests of the Company and all of its shareholders and not be disposed by affiliation or interest to favor any individual, group or class of shareholders or other constituency;

possess the background and demonstrated ability to contribute to the board's performance of its collective responsibilities, through senior executive management experience, relevant professional or academic distinction, or a record of relevant civic and community leadership; and

be able to devote the time and attention necessary to serve effectively as a director.

The committee may also take into consideration whether a candidate's background and skills meet any specific needs of the board that the committee has identified and will take into account diversity in professional and personal experience, skills, background, race, gender and other factors of diversity that it considers appropriate. The committee will preliminarily assess the candidate's qualifications with input from the chief executive officer. If, based upon its preliminary assessment, the committee believes that a candidate is likely to meet the criteria for board membership, the chairman will advise the candidate of the committee's preliminary interest and, if the candidate expresses sufficient interest to the chairman, with the assistance of the corporate secretary's office, will arrange interviews of the candidate with members of the committee and with the chief executive officer, either in person or by telephone. After the members of the committee and the chief executive officer have had the opportunity to interview the candidate, the committee will formally consider whether to recommend to the board that it nominate the candidate for election to the board.

Board Leadership Structure

On April 1, 2010, Robert J. Dennis, the Company's chief executive officer, assumed the additional office of chairman upon Hal N. Pennington's retirement from the latter office. Prior to the appointment of Mr. Dennis as chief executive officer in 2008, Mr. Pennington had served as both chairman and chief executive officer since his predecessor as chairman and chief executive officer relinquished the chairman's office in 2002, replicating a long-term succession plan that has been followed in the Company's three most recent senior management transitions. Having observed no differences in the functioning of the board or the performance of the Company that it considers attributable to the separation or conjunction of the two offices, the board has retained flexibility in the Corporate Governance Guidelines with respect to the structure

Table of Contents

of the board leadership. The Corporate Governance Guidelines provide that the board will select the chairman and the chief executive officer in the manner that it determines to be in the best interests of the Company's shareholders.

The Corporate Governance Guidelines also provide that if the positions of chairman and chief executive officer are held by the same person or if the chairman is otherwise employed by the Company, the chairman of the nominating and governance committee will serve as Lead Director, with the following responsibilities:

in consultation with the chairman, approve the annual calendar for all meetings of the board and standing committees;

provide the chairman with input as to the preparation of the agendas for the board;

advise the chairman as to the quality, quantity and timeliness of the flow of information from Company management that is necessary for the independent directors to effectively and responsibly perform their duties;

coordinate the development of the agenda for and preside over executive sessions of the board's independent directors; act as principal liaison between the independent directors and the chairman on material issues;

evaluate, along with the independent members of the full board, the chief executive officer's performance and meet with the chief executive officer to discuss the evaluation;

act as a liaison to shareholders who request direct communication with the board; and

perform such other roles and responsibilities as may be assigned from time to time by the nominating and governance committee or the full board.

Generally, the board believes that having a chairman who is also a member of the Company's management team, whether or not the offices of chairman and chief executive officer are held by the same person, has been highly effective for Genesco—avoiding the perception of a divergence of interests between the board and management; minimizing any potential disjunction between the development and execution of corporate strategies; and reducing the potential for confusion and duplication of effort in the areas of overlap between the responsibilities of the board and senior management. The board believes that the current leadership structure, in combination with strong governance policies, regular executive sessions, and a supermajority of independent directors, provides the appropriate balance of strategy, execution and oversight for the Company at this time.

The Board's Role in Risk Oversight

The board of directors views the identification and management of risk as a primary responsibility of the Company's chief executive officer, who reports directly to the board. In addition to general review and discussion of various aspects of risk management throughout the year, at least once annually, the board receives a comprehensive report from the chief executive officer on his overall assessment of the Company's risk management processes and systems, including the identification of major risks associated with the Company's business and strategies, a description of the Company's approach to monitoring and managing each category of risk, and an assessment of residual exposures and whether and how they may be more effectively mitigated.

In the board's most recent review of the Company's risk management processes and systems with the chief executive officer, the following major categories of risk associated with the Company's business and strategies were identified:

1. Strategic and financial risk, including competition, growth opportunities, credit, liquidity and capital resources, and customer dynamics.
2. Integrity and compliance risk, including accounting and financial reporting, legal compliance, and corporate governance matters.
3. Operational risk, including supply chain and workforce-related risks.
4. Catastrophic event risk, including facility losses and disruptions from natural disasters or other causes.

In addition to the board's ongoing oversight of risk management and the chief executive officer's annual review with the board of the Company's risk management processes and systems, specific risk categories fall within the oversight of individual committees of the board. For example, the audit committee has oversight of most of the risks falling within the integrity and compliance risk categories, which it addresses primarily through its ongoing review of internal controls over accounting and financial reporting pursuant to Section 404 of the Sarbanes Oxley Act. Additionally, the nominating and governance committee has direct oversight of governance-related risks, the finance committee of risks related to the availability of capital resources, and the compensation committee of certain aspects of workforce-related risks as well as risks arising from compensation policies and practices.

In connection with its annual review of the Company's compensation programs in February 2010, the compensation committee specifically considered whether risks arising from the Company's compensation policies and practices for employees are

Table of Contents

reasonably likely to have a material adverse effect on the Company. In its analysis, the committee considered, among other things, the following:

the banking provisions of the EVA Incentive Plan, discussed in Compensation Discussion and Analysis, below, under the heading Elements of Direct Compensation B. Annual Incentive Compensation, which require the Company to retain any portion of an annual incentive award in excess of three times the target award earned in any year and subject the retained amounts to reduction or forfeiture in subsequent years if performance deteriorates;

the Company's equity-based, long-term incentive component of executive compensation also discussed in Compensation Discussion and Analysis which is designed to prevent excessive risks by rewarding sustainable performance; and

the Company's share ownership requirements.

As a result of its analysis, the committee determined that the Company's compensation policies and practices are not reasonably likely to have a material adverse effect on the Company.

The members of the board's committees believe that they have sufficient access to the members of management with direct responsibility for the management of risks within their oversight to be able to understand and monitor such risks effectively. Each committee regularly reports to the full board on matters related to the categories of risk within its oversight.

COMPENSATION DISCUSSION AND ANALYSIS

The Company's compensation programs are intended to attract and retain employees with skills necessary to enable the Company to achieve its financial and strategic objectives and to motivate them through appropriate incentives tied to the Company's performance and market value to achieve those objectives. The Company recognizes that the goals of employee attraction, retention and motivation must be balanced against the necessity of controlling compensation expense. With respect to senior management (executive officers and heads of the Company's operating units and staff departments, including the principal executive officer, the principal financial officer and the three additional officers listed in the Summary Compensation Table which follows this discussion, who are referred to in this discussion as the named executive officers), the compensation committee of the board of directors (the compensation committee or, in the Compensation Discussion and Analysis section, the committee) has the responsibility to design a compensation program and set levels of compensation that attempt to achieve the optimal balance between employee attraction, retention and motivation on the one hand and control of compensation expense on the other.

1. **Compensation Committee Process.** In seeking that balance, the compensation committee looks primarily to market data. It retains an independent compensation consultant to work directly with the committee in gathering and analyzing data. The committee selected Longnecker & Associates as its independent compensation consultant for the years discussed in this proxy statement. Longnecker & Associates did not perform any other services for the Company in Fiscal 2010. The committee and the consultant also solicit input from the chief executive officer on subjective considerations such as individual performance and perceptions of internal equity that he believes should be taken into account in individual cases. On the basis of the market data, management input and the consultant's knowledge of trends and developments in compensation design, the consultant annually prepares recommendations regarding the material elements of senior management direct compensation for the compensation committee's consideration. The final compensation decision rests with the committee.

In recent years, the committee has approached its analysis of senior management compensation from the perspective of total direct compensation (consisting of base salary, annual incentives and long-term, stock-based incentives). To assess the competitiveness of the Company's executive compensation in its decision-making process for Fiscal 2010, it considered (i) proxy statement data from a peer group of public companies identified by the compensation committee's consultant with input from the committee and (ii) data reported in published surveys from companies in the retail industry with annual revenues and market capitalization similar to the Company's, giving a 50/50 weighting to the peer group and survey data. The committee selected a
