**NOTES TO UNAUDITED CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS**

1. Description of Business

L-3 Communications Holdings, Inc. derives all of its operating income and cash flows from its wholly-owned subsidiary, L-3 Communications Corporation (L-3 Communications). L-3 Communications Holdings, Inc. (L-3 Holdings and, together with its subsidiaries, referred to herein as L-3 or the Company) is a prime contractor in Command, Control, Communications, Intelligence, Surveillance and Reconnaissance (C³ISR) systems, aircraft modernization and maintenance, and government services. L-3 is also a leading provider of a broad range of electronic systems used on military and commercial platforms. The Company's customers include the United States (U.S.) Department of Defense (DoD) and its prime contractors, U.S. Government intelligence agencies, the U.S. Department of Homeland Security (DHS), U.S. Department of State (DoS), U.S. Department of Justice (DoJ), allied foreign governments, domestic and foreign commercial customers and select other U.S. federal, state and local government agencies.

The Company has the following four segments: (1) C³ISR, (2) Government Services, (3) Aircraft Modernization and Maintenance (AM&M), and (4) Electronic Systems. Financial information with respect to each of the Company's segments is included in Note 21. C³ISR provides products and services for the global ISR market, C³ systems, networked communications systems and secure communications products. The Company believes that these products and services are critical elements for a substantial number of major command, control and communication, intelligence gathering and space systems. These products and services are used to connect a variety of airborne, space, ground and sea-based communication systems and are used in the transmission, processing, recording, monitoring, and dissemination functions of these communication systems. Government Services provides a full range of engineering, technical, analytical, information technology (IT), advisory, training, logistics and support services to the DoD, DoS, DoJ, and U.S. Government intelligence agencies and allied foreign governments. AM&M provides modernization, upgrades and sustainment, maintenance and logistics support services for military and various government aircraft and other platforms. The Company sells these services primarily to the DoD, the Canadian Department of Defense and other allied foreign governments. Electronic Systems provides a broad range of products and services, including components, products, subsystems, systems, and related services to military and commercial customers in several niche markets across several business areas, including power & control systems, electro-optic/infrared (EO/IR), microwave, simulation & training, precision engagement, warrior systems, security & detection, propulsion systems, avionics and displays, telemetry & advanced technology, undersea warfare, and marine services.

2. Basis of Presentation

These unaudited condensed consolidated financial statements for the quarterly period ended April 1, 2011 should be read in conjunction with the audited consolidated financial statements of L-3 Holdings and L-3 Communications included in their Annual Report on Form 10-K for the fiscal year ended December 31, 2010.

The accompanying financial statements comprise the consolidated financial statements of L-3 Holdings and L-3 Communications. L-3 Holdings' only asset is its investment in the common stock of L-3 Communications, its wholly-owned subsidiary, and its only obligations are: (1) the 3% Convertible Contingent Debt Securities (CODES) due 2035, which were issued by L-3 Holdings on July 29, 2005, (2) its guarantee of borrowings under the revolving

credit facility of L-3 Communications and (3) its guarantee of other contractual obligations of L-3 Communications and its subsidiaries. L-3 Holdings' obligations relating to the CODES have been jointly, severally, fully and unconditionally guaranteed by L-3 Communications and certain of its wholly-owned domestic subsidiaries. Accordingly, such debt has been reflected as debt of L-3 Communications in its consolidated financial statements in accordance with the accounting standards for pushdown accounting. All issuances of and conversions into L-3 Holdings' equity securities, including grants of stock options, restricted stock, restricted stock units and performance units by L-3 Holdings to employees and directors of L-3 Communications and its subsidiaries, have been reflected in the consolidated financial statements of L-3 Communications. As a result, the consolidated financial positions, results of operations and cash flows of L-3 Holdings and L-3 Communications are substantially the same. See Note 23 for additional information regarding the unaudited financial information of L-3 Communications and its subsidiaries.

The unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) for interim financial information and in accordance with the instructions to Form 10-Q and Article 10 of Regulation S-X of the SEC. Accordingly, they do not include all of the disclosures required by U.S. GAAP for a complete set of annual audited financial statements. In the opinion of management, all adjustments (consisting of normal and recurring adjustments) considered necessary for a fair presentation of the results for the interim periods presented have been included. The results of operations for the interim periods are not necessarily indicative of results for the full year.

**L-3 COMMUNICATIONS HOLDINGS, INC.
AND L-3 COMMUNICATIONS CORPORATION**

**NOTES TO UNAUDITED CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS (Continued)**

It is the Company's established practice to close its books for the quarters ending March, June and September on the Friday nearest to the end of the calendar quarter. The interim unaudited condensed consolidated financial statements included herein have been prepared and are labeled based on that convention. The Company closes its books for annual periods on December 31 regardless of what day it falls on.

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of sales and costs of sales during the reporting period. The most significant of these estimates and assumptions relate to contract revenue, profit and loss recognition, fair values of assets acquired and liabilities assumed in business combinations, market values for inventories reported at lower of cost or market, pension and post-retirement benefit obligations, stock-based employee compensation expense, income taxes, including the valuations of deferred tax assets, litigation reserves and environmental obligations, accrued product warranty costs, and the recoverability, useful lives and valuation of recorded amounts of long-lived assets, identifiable intangible assets and goodwill. Changes in estimates are reflected in the periods during which they become known. Actual amounts will differ from these estimates and could differ materially. For a more complete discussion of these estimates and assumptions, see the Annual Report of L-3 Holdings and L-3 Communications on Form 10-K for the fiscal year ended December 31, 2010.

During the quarter ended April 1, 2011, the Company made certain reclassifications among its C³ISR, Government Services, and Electronic Systems segments due to re-alignments in the Company's management and organizational structure. The segment results presented in this quarterly report reflect these reclassifications. See Note 21 for the prior period sales, operating income, and assets reclassified between segments.

3. New Accounting Standards Implemented

In October 2009, the Financial Accounting Standards Board (FASB) issued a revised accounting standard for revenue arrangements with multiple deliverables. The revision: (1) removes the objective-and-reliable-evidence-of-fair-value criterion from the separation criteria used to determine whether an arrangement involving multiple deliverables contains more than one unit of accounting, (2) provides a hierarchy that entities must use to estimate the selling price, (3) eliminates the use of the residual method for allocation, and (4) expands the ongoing disclosure requirements. The revised accounting standard was effective for the Company beginning on January 1, 2011, and did not have a material impact on the Company's financial position, results of operations or cash flows.

In October 2009, the FASB issued a revised accounting standard for certain revenue arrangements that include software elements. Under the revised standard, tangible products that contain both software and non-software components that work together to deliver a product's essential functionality are excluded from the scope of pre-existing software revenue recognition standards. In addition, hardware components of a tangible product containing software components are excluded from the scope of software revenue recognition standards. The revised accounting standard was effective for the Company beginning on January 1, 2011, and did not have a material impact on the Company's financial position, results of operations or cash flows.

4. Acquisitions and Dispositions

2011 Business Disposition

On February 22, 2011, the Company divested Microdyne Corporation (Microdyne), which was within the Electronic Systems segment. The divestiture resulted in an after-tax loss of approximately \$1 million. Microdyne's annual revenues of approximately \$8 million, operating results and net assets were not material for any period presented and, therefore, this divestiture is not reported as a discontinued operation.

2010 Business Acquisitions and Disposition

During the year ended December 31, 2010, in separate transactions, the Company acquired Insight Technology Incorporated (Insight), Airborne Technologies, Inc. (ATI), 3Di Technologies (3Di), and FUNA International GmbH (FUNA). In addition, the Company divested the InfraredVision Technology Corporation business. See Note 4 to the audited consolidated financial statements for the year ended December 31, 2010, included in the Company's Annual Report on Form 10-K for additional information regarding these business acquisitions and the disposition.

**L-3 COMMUNICATIONS HOLDINGS, INC.
AND L-3 COMMUNICATIONS CORPORATION**

**NOTES TO UNAUDITED CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS (Continued)**

As of April 1, 2011, the purchase prices for Insight, ATI and 3Di were finalized and the Insight purchase price allocation was completed. The final purchase price for FUNA is subject to adjustment based on the closing date actual net assets. The final purchase price allocations for the ATI, 3Di, and FUNA business acquisitions are expected to be completed during the second quarter of 2011 and will be based on the final purchase prices and final appraisals and other analyses of fair values for acquired assets and assumed liabilities. The Company does not expect any of the differences between the preliminary and final purchase price allocations to have a material impact on its results of operations or financial position.

Unaudited Pro Forma Statements of Operations Data

The following unaudited pro forma Statement of Operations data presents the combined results of the Company and its business acquisitions completed during the year ended December 31, 2010, assuming that the business acquisitions completed during that period had occurred on January 1, 2010.

	First Quarter Ended March 26, 2010 (in millions, except per share data)
Pro forma net sales	\$ 3,718
Pro forma net income attributable to L-3	\$ 228
Pro forma diluted earnings per share	\$ 1.93

The unaudited pro forma results disclosed in the table above are based on various assumptions and are not necessarily indicative of the results of operations that would have occurred had the Company completed these acquisitions on January 1, 2010.

5. Contracts in Process

The components of contracts in process are presented in the table below.

	April 1, 2011	December 31, 2010
	(in millions)	
Unbilled contract receivables, gross	\$ 2,945	\$ 2,769
Less: unliquidated progress payments	(1,137)	(1,007)
Unbilled contract receivables, net	1,808	1,762

Less: unliquidated progress payments	(108)	(96)
Inventoried contract costs, net	903	786
Total contracts in process	\$ 2,711	\$ 2,548

Inventoried Contract Costs. In accordance with contract accounting standards, the Company accounts for the portion of its general and administrative (G&A), independent research and development (IRAD) and bid and proposal (B&P) costs that are allowable and reimbursable indirect contract costs under U.S. Government procurement regulations on its U.S. Government contracts (revenue arrangements) as inventoried contract costs. G&A, IRAD and B&P costs are allocated to contracts for which the U.S. Government is the end customer and are charged to costs of sales when sales on the related contracts are recognized. The Company's unallowable portion of its G&A, IRAD and B&P costs for its U.S. Government contractor businesses are expensed as incurred and are not included in inventoried contract costs.

- (1) The increases in goodwill presented in each of the segments were due to the weakening of the U.S. dollar against the Euro, Canadian dollar, and British pound in the quarter ended April 1, 2011.
- (2) As a result of re-alignments of business units in the Company's management and organizational structure as discussed in Note 2, goodwill was reclassified on a relative fair value basis among the C³ISR, Government Services and Electronic Systems segments during the quarter ended April 1, 2011.

Less: Current portion of long-term debt ⁽³⁾		(11)
Carrying amount of long-term debt, excluding current portion	\$ 4,126	\$ 4,126

(1) The Company's Revolving Credit Facility, which matures on October 23, 2012, provides for total aggregate borrowings of up to \$1 billion. At April 1, 2011, available borrowings under the Revolving Credit Facility were \$989 million after reductions for outstanding letters of credit of \$11 million.

(2) Under select conditions, including if L-3 Holdings common stock price is more than 120% (currently \$117.35) of the then current conversion price (\$97.79 as of March 1, 2011) for a specified period, the conversion feature of the CODES will require L-3 Holdings, upon conversion, to pay the holders of the CODES the principal amount in cash, and if the settlement amount exceeds the principal amount, the excess will be settled in cash or stock or a combination thereof, at the Company's option. At the current conversion price of \$97.79, the aggregate consideration to be delivered upon conversion would be determined based on 7.0 million shares of L-3 Holdings

common stock. See Note 10 to the audited consolidated financial statements for the year ended December 31, 2010, included in the Company's Annual Report on Form 10-K for additional information regarding the CODES, including conditions for conversion. L-3 Holdings' closing stock price on May 4, 2011 was \$81.37 per share. Through February 1, 2011, the effective interest rate on the CODES was 6.33% and interest expense related to both the contractual coupon interest and amortization of the discount on the liability components. The Company amortized the discount on the liability component of the CODES through February 1, 2011 which was the first date that the holders of the CODES had a contractual right to require L-3 Holdings to repurchase the CODES. Interest expense for the CODES after February 1, 2011 relates only to the contractual coupon interest. Interest expense recognized was \$7 million and \$10 million for the first quarter periods ended April 1, 2011 and March 26, 2010, respectively. The following table provides additional information about the Company's CODES:

	April 1, 2011	December 31, 2010

Carrying amount of the equity component (conversion feature)	\$ 64	\$ 64
Unamortized discount of liability component amortized through February 1, 2011	\$	\$ 2
Net carrying amount of liability component	\$ 689	\$ 698

- (3) On February 2, 2011, L-3 Holdings repurchased approximately \$11 million of the CODES as a result of the exercise by the holders of their contractual right to require L-3 Holdings to repurchase their CODES. At April 1, 2011 and December 31, 2010, the remaining \$689 million principal amount of CODES are classified as long-term debt.

FINANCIAL STATEMENTS (Continued)**

On February 7, 2011, L-3 Communications issued \$650 million in principal amount of 4.95% Senior Notes that mature on February 15, 2021 (2021 Senior Notes). The 2021 Senior Notes were issued at a discount of \$4 million. The discount was recorded as a reduction to the principal amount of the notes and will be amortized as interest expense over the term of the notes. The effective interest rate of the 2021 Senior Notes is 5.02%. Interest on the 2021 Senior Notes is payable semi-annually on February 15 and August 15 of each year, commencing August 15, 2011. The net cash proceeds from this offering amounted to approximately \$639 million after deducting the discounts, commissions and estimated expenses. On March 9, 2011, the Company used the net proceeds from this offering, together with cash on hand, to redeem L-3 Communications \$650 million 7.8% Senior Subordinated Notes due 2015 (2015 Notes). In connection with the redemption of the 2015 Notes, the Company recorded a debt retirement charge in the quarterly period ended April 1, 2011 of \$18 million (\$11 million after income tax, or \$0.10 per diluted share).

10. Comprehensive Income

A reconciliation of net income to comprehensive income attributable to L-3 is presented in the table below.

⁽¹⁾ Amounts are net of an income tax benefit of \$1 million for the quarterly period ended April 1, 2011 and income taxes of \$2 million for the quarterly period ended March 26, 2010.

⁽²⁾ Amounts are net of income taxes of \$5 million for the quarterly period ended April 1, 2011 and \$4 million for the quarterly period ended March 26, 2010. See Note 18.

11. Income Taxes

The U.S. Federal income tax jurisdiction is the Company's major tax jurisdiction. The statutes of limitations for the Company's U.S. Federal income tax returns for the years ended December 31, 2006 through 2009 are open as of April 1, 2011. The Internal Revenue Service (IRS) is expected to complete its audit of the Company's 2006 and 2007 U.S. Federal income tax returns during the second quarter of 2011, and the related statutes of limitations are expected to expire in December 2011. In addition, the Company has numerous state and foreign income tax return audits currently in process. As of April 1, 2011, the Company anticipates that unrecognized tax benefits will decrease by approximately \$91 million over the next 12 months.

Current and non-current income taxes payable include accrued potential interest of \$23 million (\$14 million after income taxes) at April 1, 2011 and \$22 million (\$13 million after income taxes) at December 31, 2010, and potential penalties of \$12 million at April 1, 2011 and \$13 million at December 31, 2010.

Assumed conversion of the CODES	(1)	(1)
Common and potential common shares	109.5	116.9
Diluted earnings per share:		
Net income	\$ 1.85	\$ 1.87

(1)

L-3 Holdings' CODES had no impact on diluted EPS for the quarters ended April 1, 2011 or March 26, 2010 because the average market price of L-3 Holdings common stock during these periods was less than the price at which the CODES would have been convertible into L-3 Holdings common stock. As of March 1, 2011, the conversion price was \$97.79.

Excluded from the computations of diluted EPS are shares related to stock options, restricted stock, and restricted stock units underlying employee stock-based compensation of 2.6 million and 2.3 million for the quarters ended April 1, 2011 and March 26, 2010, respectively, because they were anti-dilutive.

13. Equity

Repurchases of L-3 Holdings common stock under the share repurchase programs, approved by the Board of Directors, are made from time to time at management's discretion in accordance with applicable U.S. federal securities laws in the open market or otherwise. All share repurchases of L-3 Holdings common stock have been recorded as treasury shares. At April 1, 2011, the remaining dollar value under the \$1 billion share repurchase program approved by L-3 Holdings' Board of Directors on July 14, 2010 was \$387 million. On April 26, 2011, L-3 Holdings' Board of Directors approved a new share repurchase program that authorizes L-3 Holdings to repurchase up to an additional \$1.5 billion of its outstanding shares of common stock through April 30, 2013.

From April 2, 2011 through May 4, 2011, L-3 Holdings repurchased 1,453,238 shares of its common stock at an average price of \$78.16 per share for an aggregate amount of \$114 million.

On April 26, 2011, L-3 Holdings Board of Directors declared a quarterly cash dividend of \$0.45 per share, payable on June 15, 2011 to shareholders of record at the close of business on May 17, 2011.

14. Fair Value Measurements

The following table presents the fair value hierarchy level for each of the Company's assets and liabilities that are measured and recorded at fair value on a recurring basis.

Description	April 1, 2011			December 31, 2010		
	Level 1 ⁽¹⁾	Level 2 ⁽²⁾	Level 3 ⁽³⁾	Level 1 ⁽¹⁾	Level 2 ⁽²⁾	Level 3 ⁽³⁾
	(in millions)					
Assets						
Cash equivalents	\$ 234	\$	\$	\$ 347	\$	\$
Derivatives (foreign currency forward contracts)		20			22	
Total Assets	\$ 234	\$ 20	\$	\$ 347	\$ 22	\$
Liabilities						
Derivatives (foreign currency forward contracts)	\$	\$ 5	\$	\$	\$ 5	\$

(1) Level 1 is based on quoted market prices available in active markets for identical assets or liabilities as of the reporting date. Cash equivalents are primarily held in registered money market funds which are valued using quoted market prices.

(2) Level 2 is based on pricing inputs other than quoted prices in active markets, which are either directly or indirectly observable. The fair value is determined using a valuation model based on observable market inputs, including quoted foreign currency forward exchange rates and consideration of non-performance risk.

(3) Level 3 is based on pricing inputs that are not observable and not corroborated by market data. The Company has no Level 3 assets or liabilities.

15. Financial Instruments

At April 1, 2011 and December 31, 2010, the Company's financial instruments consisted primarily of cash and cash equivalents, billed receivables, trade accounts payable, senior notes, senior subordinated notes, CODES and foreign currency forward contracts. The carrying amounts of cash and cash equivalents, billed receivables and trade accounts payable are representative of their respective fair values because of the short-term maturities or expected settlement dates of these instruments. The fair value of the senior notes, senior subordinated notes and CODES are based on quoted prices for these securities. The fair values of foreign currency forward contracts are based on forward exchange rates. The carrying amounts and estimated fair values of the Company's financial instruments are presented in the table below.

	April 1, 2011		December 31, 2010	
	Carrying Amount	Estimated Fair Value	Carrying Amount	Estimated Fair Value
	(in millions)			
Senior notes	\$ 2,442	\$ 2,497	\$ 1,794	\$ 1,810

Foreign currency forward contracts ⁽¹⁾	15	15	17	17

⁽¹⁾ See Note 16 for additional disclosures regarding the notional amounts and fair values of foreign currency forward contracts.

16. Derivative Financial Instruments

The Company's derivative financial instruments include foreign currency forward contracts, which are entered into for risk management purposes, and an embedded derivative representing the contingent interest payment provision related to the CODES.

FINANCIAL STATEMENTS (Continued)**

Foreign Currency Forward Contracts. The Company's U.S. and foreign businesses enter into contracts with customers, subcontractors or vendors that are denominated in currencies other than their functional currencies. To protect the functional currency equivalent cash flows associated with certain of these contracts, the Company enters into foreign currency forward contracts. The Company's activities involving foreign currency forward contracts are designed to hedge the changes in the functional currency equivalent cash flows due to movements in foreign exchange rates compared to the functional currency. The foreign currencies hedged are primarily the Canadian dollar, the Euro, the British pound and the U.S. dollar. The Company manages exposure to counterparty non-performance credit risk by entering into foreign currency forward contracts only with major financial institutions that are expected to fully perform under the terms of such contracts. Foreign currency forward contracts are recorded in the Company's condensed consolidated balance sheets at fair value and are generally designated and accounted for as cash flow hedges in accordance with the accounting standards for derivative instruments and hedging activities. Gains and losses on designated foreign currency forward contracts that are highly effective in offsetting the corresponding change in the cash flows of the hedged transactions are recorded net of income taxes in accumulated other comprehensive income (loss) (accumulated OCI) and then recognized in income when the underlying hedged transaction affects income. Gains and losses on foreign currency forward contracts that do not meet hedge accounting criteria are recognized in income immediately.

Notional amounts are used to measure the volume of foreign currency forward contracts and do not represent exposure to foreign currency losses. The table below presents the notional amounts of the Company's outstanding foreign currency forward contracts by currency at April 1, 2011:

Currency	Notional Amount (in millions)
Canadian dollar	\$ 123
U.S. dollar	84
British pound	52
Euro	32
Other	2
Total	\$ 293

At April 1, 2011, the Company's foreign currency forward contracts had maturities through 2016.

Embedded Derivative. The embedded derivative related to the issuance of the CODES is recorded at fair value with changes reflected in the unaudited condensed consolidated statements of operations.

The table below presents the fair values and the location of the Company's derivative instruments in the condensed consolidated balance sheets.

**NOTES TO UNAUDITED CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS (Continued)**

The effect of gains or losses from foreign currency forward contracts was not material to the unaudited condensed consolidated statements of operations for the quarters ended April 1, 2011 and March 26, 2010. At April 1, 2011, the estimated net amount of existing gains that are expected to be reclassified into income within the next 12 months is \$9 million.

17. Commitments and Contingencies

A substantial majority of the Company's revenues are generated from providing products and services under legally binding agreements or contracts with U.S. Government and foreign government customers. U.S. Government contracts are subject to extensive legal and regulatory requirements, and from time to time, agencies of the U.S. Government investigate whether such contracts were and are being conducted in accordance with these requirements. The Company is currently cooperating with the U.S. Government on several investigations, including those specified below, from which civil, criminal or administrative proceedings have or could result and give rise to fines, penalties, compensatory and treble damages, restitution and/or forfeitures. The Company does not currently anticipate that any of these investigations will have a material adverse effect, individually or in the aggregate, on its consolidated financial position, results of operations or cash flows. However, under U.S. Government regulations, an indictment of the Company by a federal grand jury, or an administrative finding against the Company as to its present responsibility to be a U.S. Government contractor or subcontractor, could result in the Company being suspended for a period of time from eligibility for awards of new government contracts or task orders or in a loss of export privileges. A conviction, or an administrative finding against the Company that satisfies the requisite level of seriousness, could result in debarment from contracting with the federal government for a specified term. In addition, all of the Company's U.S. Government contracts: (1) are subject to audit and various pricing and cost controls, (2) include standard provisions for termination for the convenience of the U.S. Government or for default, and (3) are subject to cancellation if funds for contracts become unavailable. Foreign government contracts generally include comparable provisions relating to terminations for convenience and default, as well as other procurement clauses relevant to the foreign government.

The Company is also subject to litigation, proceedings, claims or assessments and various contingent liabilities incidental to its businesses, including those specified below. Furthermore, in connection with certain business acquisitions, the Company has assumed some or all claims against, and liabilities of, the acquired business, including both asserted and unasserted claims and liabilities.

In accordance with the accounting standard for contingencies, the Company records a liability when management believes that it is both probable that a liability has been incurred and the Company can reasonably estimate the amount of the loss. Generally, the loss is recorded at the amount the Company expects to resolve the liability. The estimated amounts of liabilities recorded for pending and threatened litigation are disclosed in Note 8. Amounts recoverable from insurance contracts or third parties are recorded as assets when deemed probable. At April 1, 2011, the Company did not record any amounts for recoveries from insurance contracts or third parties in connection with the amount of liabilities recorded for pending and threatened litigation. Legal defense costs are expensed as incurred. The Company believes it has recorded adequate provisions for its litigation matters. The Company reviews these provisions quarterly and adjusts these provisions to reflect the impact of negotiations, settlements, rulings, advice of legal counsel and other information and events pertaining to a particular matter. While it is reasonably possible that an unfavorable

outcome may occur in one or more of the following matters, unless otherwise stated below, the Company believes that it is not probable that a loss has been incurred in any of these matters. An estimate of loss or range of loss is disclosed for a particular litigation matter when such amount or amounts can be reasonably estimated and no loss has been accrued. The Company believes that any damage amounts claimed in the specific matters discussed below do not constitute reasonable estimates of loss. Although the Company believes that it has valid defenses with respect to legal matters and investigations pending against it, the results of litigation can be difficult to predict, particularly those involving jury trials. Accordingly, our current judgment as to the likelihood of our loss (or our current estimate as to the potential range of loss, if applicable) with respect to any particular litigation matter may turn out to be wrong. Therefore, it is possible that the financial position, results of operations or cash flows of the Company could be materially adversely affected in any particular period by the unfavorable resolution of one or more of these or other contingencies.

Kalitta Air. On January 31, 1997, a predecessor of Kalitta Air filed a lawsuit in the U.S. District Court for the Northern District of California (the trial court) asserting, among other things, negligence and negligent misrepresentation against Central Texas Airborne Systems, Inc. (CTAS), a predecessor to L-3 Integrated Systems (L-3 IS), in connection with work performed by a predecessor to CTAS to convert two Boeing 747 aircraft from passenger configuration to cargo freighters. The work was performed using Supplemental Type Certificates (STCs) issued in 1988 by the Federal Aviation Administration (FAA). In 1996, following completion

FINANCIAL STATEMENTS (Continued)**

of the work, the FAA issued an airworthiness directive with respect to the STCs that effectively grounded the aircraft. On August 11, 2000, the trial court granted CTAS' motion for summary judgment as to negligence, dismissing that claim. In January 2001, after a ruling by the trial court that excluded certain evidence from trial, a jury rendered a unanimous defense verdict in favor of CTAS on the negligent misrepresentation claim. On December 10, 2002, the U.S. Court of Appeals for the Ninth Circuit (the Court of Appeals) reversed the trial court's decisions as to summary judgment and the exclusion of evidence, and remanded the case for a new trial on both the negligence and negligent misrepresentation claims. The retrial ended on March 2, 2005 with a deadlocked jury and mistrial. On July 22, 2005, the trial court granted CTAS' motion for judgment as a matter of law as to negligence, dismissing that claim, and denied CTAS' motion for judgment as a matter of law as to negligent misrepresentation. On October 8, 2008, the Court of Appeals reversed the trial court's dismissal of the negligence claim and affirmed the trial court's ruling as to the negligent misrepresentation claim. As a result, the case was remanded to the trial court to reconsider the negligence claim and for further proceedings on the negligent misrepresentation claim. The trial court held a new hearing on CTAS' motion to dismiss the negligence claim on April 30, 2009, after which it determined to take the matter under advisement. The case is currently scheduled to go to a third jury trial on October 31, 2011. The parties have participated in court-ordered mediations from time to time, and may participate in future court-ordered mediations prior to trial, but to date such mediations have not resulted in a mutually acceptable resolution of this matter. In connection with these mediations, Kalitta Air has claimed it may seek damages at the third trial of between \$430 million and \$900 million, including between \$200 million and \$240 million of pre-judgment interest. CTAS insurance carrier has accepted defense of this matter and has retained counsel, subject to a reservation of rights by the insurer to dispute its obligations under the applicable insurance policies in the event of a finding against L-3. The Company believes that it has meritorious defenses to the claims asserted and the damages sought and intends to defend itself vigorously.

CyTerra Government Investigation. Since November 2006, CyTerra has been served with civil and Grand Jury subpoenas by the DoD Office of the Inspector General and the DoJ and has been asked to facilitate employee interviews. The Company is cooperating fully with the U.S. Government. The Company believes that it is entitled to indemnification with respect to this matter, and has made a claim against a \$15 million escrow fund established in connection with the Company's acquisition of CyTerra in March 2006.

Bashkirian Airways. On July 1, 2004, lawsuits were filed on behalf of the estates of 31 Russian children in the state courts of Washington, Arizona, California, Florida, New York and New Jersey against Honeywell, Honeywell TCAS, Thales USA, Thales France, the Company and Aviation Communications & Surveillance Systems (ACSS), which is a joint venture of L-3 and Thales. The suits relate to the crash over southern Germany of Bashkirian Airways Tupelov TU 154M aircraft and a DHL Boeing 757 cargo aircraft. On-board the Tupelov aircraft were 9 crew members and 60 passengers, including 45 children. The Boeing aircraft carried a crew of two. Both aircraft were equipped with Honeywell/ACSS Model 2000, Change 7 Traffic Collision and Avoidance Systems (TCAS). Sensing the other aircraft, the on-board DHL TCAS instructed the DHL pilot to descend, and the Tupelov on-board TCAS instructed the Tupelov pilot to climb. However, the Swiss air traffic controller ordered the Tupelov pilot to descend. The Tupelov pilot disregarded the on-board TCAS and put the Tupelov aircraft into a descent striking the DHL aircraft in midair at approximately 35,000 feet. All crew and passengers of both planes were lost. Investigations by the National Transportation Safety Board after the crash revealed that both TCAS units were performing as designed. The suits allege negligence and strict product liability based upon the design of the units and the training provided to resolve conflicting commands and seek approximately \$315 million in damages, including \$150 million in punitive damages.

The Company's insurers have accepted defense of this matter and have retained counsel. The matters were consolidated in the U.S. District Court for the District of New Jersey, which has dismissed the actions on the basis of forum non conveniens. The plaintiffs re-filed a complaint on April 23, 2007 with the Barcelona Court's Registry in Spain. On March 9, 2010, the court ruled in favor of the plaintiffs and entered judgment against ACSS in the amount of approximately \$6.7 million, all of which represented compensatory damages. The Company believes that the verdict and the damages awarded are inconsistent with the law and evidence presented. Accordingly, ACSS filed an appeal of this ruling on April 27, 2010. The plaintiffs also filed an appeal of this ruling on the same date.

Gol Airlines. A complaint was filed on November 7, 2006 in the U.S. District Court for the Eastern District of New York against ExcelAire, Joseph Lepore, Jan Paul Paladino, and Honeywell. On October 23, 2007, an amended complaint was filed to include Lockheed, Raytheon, Amazon Technologies and ACSS. The complaints relate to the September 29, 2006 airplane crash over Brazil of a Boeing 737-800 operated by GOL Linhas Aereas Inteligentes, S.A. and an Embraer 600 business jet operated by ExcelAire. The complaints allege that ACSS designed the TCAS on the ExcelAire jet, and assert claims of negligence, strict products liability and

breach of warranty against ACSS based on the design of the TCAS and the instructions provided for its use. The complaints seek unspecified monetary damages, including punitive damages. The Company's insurers have accepted defense of this matter and have retained counsel. On July 2, 2008, the District Court dismissed the actions on the basis of forum non conveniens on the grounds that Brazil was the location of the accident and is more convenient for witnesses and document availability. On December 2, 2009, the U.S. Court of Appeals for the Second Circuit upheld this decision. Twelve of the plaintiffs re-filed their complaints in the Lower Civil Court in the Judicial District of Peixoto de Azevedo in Brazil on July 3, 2009, but withdrew their complaints in July 2010 without prejudice to their right to re-file them against ACSS. An additional four plaintiffs re-filed their complaints in the Lower Civil Court in Rio de Janeiro before the expiration of the statute of limitations. ACSS has not been served in any of these actions. While the statute of limitations has expired and would bar any additional plaintiffs (beyond the 16 noted above) from re-filing claims directly against ACSS, it would not bar GOL from filing a future suit against ACSS based on litigation claims being pursued by the original plaintiffs against GOL in connection with this matter.

18. Pension and Other Postretirement Benefits

The following table summarizes the components of net periodic benefit cost for the Company's pension and postretirement benefit plans.

	Pension Plans		Postretirement Benefit Plans	
	April 1, 2011	March 26, 2010	April 1, 2011	March 26, 2010

Net periodic benefit cost	\$ 40	\$ 37	\$ 3	\$ 3

Contributions. For the year ending December 31, 2011, the Company currently expects to contribute cash of approximately \$185 million to its pension plans, and approximately \$13 million to its postretirement benefit plans. The Company contributed cash of \$62 million to its pension plans and \$3 million to its postretirement benefit plans during the quarter ended April 1, 2011.

19. Employee Stock-Based Compensation

On February 24, 2011, the Company granted stock-based compensation awards under the Amended and Restated 2008 Long Term Performance Plan (2008 LTPP) in the form of stock options, restricted stock units and performance units.

Stock Options. The Company granted 694,805 stock options with an exercise price equal to the closing price of L-3 Holdings common stock on the date of grant. The options expire after 10 years from the date of grant and vest ratably over a three-year period on the annual anniversary of the date of grant. The weighted average grant date fair value for the options awarded was \$15.54 and was estimated using the Black-Scholes option-pricing model. The weighted average assumptions used in the valuation model for this grant are presented in the table below.

Expected holding period (in years)	5.2
Expected volatility	26.4%
Expected dividend yield	2.8%
Risk-free interest rate	2.2%

FINANCIAL STATEMENTS (Continued)**

Restricted Stock Units. The Company granted 676,422 restricted stock units with a weighted average grant date fair value of \$80.17 per share. Restricted stock units automatically convert into shares of L-3 Holdings common stock upon vesting, and are subject to forfeiture until certain restrictions have lapsed, including a three year cliff vesting period for employees and a one year cliff vesting period for non-employee directors, in each case starting on the date of grant.

Performance Units. The Company granted 81,765 performance units with a weighted average grant date fair value per unit of \$95.50. The payout for these units is based on the achievement of pre-determined performance goals established by the compensation committee of the Company's Board of Directors for the three-year period ending December 31, 2013. The payout can range from zero to 200% of the original number of units awarded, which are converted into shares of L-3 Holdings common stock and/or an amount of cash based on the then existing closing price at the end of the performance period.

22. Employee Severance and Termination Costs

During the year-ended December 31, 2010, the Company continued to complete headcount reductions across several businesses to reduce both direct and indirect costs, including general and administrative and overhead. As a result of this initiative, the Company recorded a total of \$17 million in employee severance and other related termination costs for approximately 700 employees, primarily in the Electronic Systems segment. At April 1, 2011, the remaining balance to be paid for this initiative was \$10 million.

23. Condensed Combining Financial Information of L-3 Communications and Its Subsidiaries

L-3 Communications is a wholly-owned subsidiary of L-3 Holdings. The debt of L-3 Communications, including the Senior Notes, Senior Subordinated Notes and borrowings under the Revolving Credit Facility are guaranteed, on a joint and several, full and unconditional basis, by certain of its domestic subsidiaries (the Guarantor Subsidiaries). The foreign subsidiaries and certain domestic subsidiaries of L-3 Communications (the Non-Guarantor Subsidiaries) do not guarantee the debt of L-3 Communications. None of the debt of L-3 Communications has been issued by its subsidiaries. There are no restrictions on the payment of dividends from the Guarantor Subsidiaries to L-3 Communications.

Overview and Outlook***L-3's Business***

L-3 is a prime contractor in Command, Control, Communications, Intelligence, Surveillance and Reconnaissance (C³ISR) systems, aircraft modernization and maintenance, and government services. L-3 is also a leading provider of a broad range of electronic systems used on military and commercial platforms. Our customers include the United States (U.S.) Department of Defense (DoD) and its prime contractors, U.S. Government intelligence agencies, the U.S. Department of Homeland Security (DHS), U.S. Department of State (DoS), U.S. Department of Justice (DoJ), allied foreign governments, domestic and foreign commercial customers, and select other U.S. federal, state and local government agencies.

For the year ended December 31, 2010, we generated sales of \$15.7 billion. Our primary customer was the DoD. The table below presents a summary of our 2010 sales by major category of end customer and the percent contributed by each end customer to our total 2010 sales. We currently do not anticipate significant changes to our end customer sales mix for the year ending December 31, 2011.

2010 Sales (in millions)	% of 2010 Sales
---	----------------------------------

DoD	\$	11,932	76%
Other U.S. Government		1,145	7
Total U.S. Government		13,077	83%
Foreign governments		1,142	8
Commercial foreign		791	5
Commercial domestic		670	4
Total sales	\$	15,680	100%

We have the following four segments: (1) C³ISR, (2) Government Services, (3) Aircraft Modernization and Maintenance (AM&M), and (4) Electronic Systems. Financial information with respect to each of our segments is included in Note 21 to our unaudited condensed consolidated financial statements contained in this quarterly report. C³ISR provides products and services for the global ISR market, C³ systems, networked communications systems and secure communications products. We believe that these products and services are critical elements for a substantial number of major command, control and communication, intelligence gathering and space systems. These products and services are used to connect a variety of airborne, space, ground and sea-based communication systems and are used in the transmission, processing, recording, monitoring, and dissemination functions of these communication systems. Government Services provides a full range of engineering, technical, analytical, information technology (IT), advisory, training, logistics and support services to the DoD, DoS, DoJ, and U.S. Government intelligence agencies and allied foreign governments. AM&M provides modernization, upgrades and sustainment, maintenance and logistics support services for military and various government aircraft and other platforms. We sell these

services primarily to the DoD, the Canadian Department of Defense and other allied foreign governments. Electronic Systems provides a broad range of products and services, including components, products, subsystems, systems, and related services to military and commercial customers in several niche markets across several business areas, including power & control systems, electro-optic/infrared (EO/IR), microwave, simulation & training, precision engagement, warrior systems, security & detection, propulsion systems, avionics and displays, telemetry & advanced technology, undersea warfare, and marine services.

Industry Considerations

Between fiscal year 2001 and fiscal year 2010, the DoD budget authorization and spending outlays, including wartime funding for U.S. Overseas Contingency Operations (OCO) in Iraq and Afghanistan has had a compound annual growth rate of 9%. While we believe the U.S. Government will continue to place a high priority on national security, we anticipate that future DoD base budgets will grow at a slower rate compared to the recent past and flatten or modestly decline in select areas, and that future OCO appropriations will decline. Mounting pressure for deficit reduction and reduced national spending has created an environment where national security spending will also be closely examined and possibly reduced. On April 15, 2011, President Obama signed the fiscal year 2011 appropriations bill legislated by Congress that funds the federal government for the remainder of fiscal year 2011. The appropriation provided for a DoD base budget of \$531 billion and a \$158 billion budget for OCO. The fiscal year 2011 appropriations represents a \$3 billion, or 1%, increase over the fiscal year 2010 DoD base budget, but is \$18 billion, or 3%, below the base budget requested by the Obama Administration of \$549 billion. The fiscal year 2011 OCO appropriation of \$158 billion, represents a decrease of \$4 billion, or 2%, compared to the fiscal year 2010 OCO appropriation.

The fiscal year 2012 DoD base budget request of \$553 billion was submitted by the Obama Administration to Congress on February 14, 2011 and includes Secretary Gates' January 6, 2011 defense budget outlook in which he identified \$78 billion in DoD reductions for the five year fiscal period of 2012 to 2016 compared to the same period in the fiscal year 2011 request. The fiscal year 2012 budget request shows average nominal growth in the base budget for fiscal years 2012 to 2016 of 2.2% compared to the fiscal year 2011 request. The fiscal year 2012 budget request also includes \$118 billion of supplemental appropriations for OCO, which is \$41 billion lower from the OCO request for fiscal year 2011 of \$159 billion, due primarily to the planned draw down of U.S. military forces from Iraq by December 31, 2011. The actual OCO budget for fiscal year 2010 was \$162 billion. The President's budget request uses an annual OCO placeholder of \$50 billion for fiscal year 2013 to fiscal year 2016.

On April 13, 2011, President Obama announced a plan to reduce U.S. Federal deficits by \$4 trillion over the next 12 years by combining cuts in military and domestic spending with higher taxes. Part of the President's plan to reduce the federal deficits is expected to include reducing projected U.S. security spending, including DoD budgets by \$400 billion. In connection with this announced plan, the DoD will conduct a fundamental review of U.S. Military missions and capabilities, and President Obama is expected to make specific decisions about defense spending cuts after this review is completed. Any of the \$400 billion of spending reductions applied to the DoD are expected to affect base budgets for fiscal years 2013 through 2023, and will be incremental to the \$78 billion of reductions included in the President's recent DoD base budget request for fiscal years 2012 to 2016. Although we currently cannot predict the exact timing and impact of these proposed cuts, if they do occur, we expect that they will negatively impact our sales, results of operations and cash flows in future periods.

Key Performance Measures

The primary financial performance measures that L-3 uses to manage its businesses and monitor results of operations are sales growth and operating income growth. Management believes that these financial performance measures are the primary growth drivers for L-3's earnings per common share and net cash from operating activities. One of L-3's

primary business objectives is to increase sales from organic growth and select business acquisitions. We define organic sales growth as the increase or decrease in sales for the current period compared to the prior period, excluding sales in the: (1) current period from business and product line acquisitions that are included in L-3's actual results of operations for less than twelve months, and (2) prior period from business and product line divestitures that are included in L-3's actual results of operations for the twelve-month period prior to the divestiture date. We expect to supplement our organic sales growth by selectively acquiring businesses that: (1) add important new technologies, services, and products, (2) provide access to select customers, programs and contracts, and (3) provide attractive returns on investments. The two main determinants of our operating income growth are sales growth and improvements in direct and indirect contract costs. We define operating margin as operating income as a percentage of sales. Improving operating margins is one of several methods for growing earnings per common share and net cash from operating activities.

Sales Growth. Sales growth for the year ended December 31, 2010 was 0.4%, comprised of sales growth from business acquisitions, net of divestitures, of 1.3%, partially offset by an organic sales decline of 0.9%. For the quarter ended April 1, 2011 (2011 First Quarter), consolidated net sales of \$3,601 million declined by 0.6%, comprised of an organic sales decline of 2.9%, partially offset by sales growth from acquisitions of \$82 million or 2.3%, compared to the quarter ended March 26, 2010 (2010 First Quarter).

For the year ended December 31, 2010, our largest contract (revenue arrangement) in terms of annual sales was the Army Fleet Support contract with the U.S. Army Aviation and Missile Command. Under this contract, which generated approximately 3% of our 2010 sales, we provide maintenance and logistical support services for rotary wing aircraft assigned to Fort Rucker and satellite units in Alabama. The current contract, assuming the exercise of two one-year options, expires on September 30, 2013 and we anticipate that the customer will announce an acquisition timeline during the third quarter of 2011 for the contract re-competition.

The Special Operations Forces Support Activity (SOFSA) contract generated \$99 million of sales for the 2010 First Quarter and was our fourth largest contract in terms of annual sales in 2010. In June 2010, the follow-on contract was awarded to another contractor and the transition to the successor contractor ended in October 2010.

The loss of the SOFSA contract, reduced subcontractor pass-through sales volume related to task order renewals for U.S. Army systems and software engineering and sustainment (SSES) services, recent losses of certain contract competitions and re-competitions, and the drawdown of the U.S. forces from Iraq will negatively impact sales from services.

Operating Income Growth. Operating income for the 2011 First Quarter was \$390 million, a decrease of 5% from \$410 million for the 2010 First Quarter. Our consolidated operating margin was 10.8% for the 2011 First Quarter, a decrease of 50 basis points from 11.3% for the 2010 First Quarter.

We are focused on increasing operating margin, to the extent possible, by reducing our indirect costs and improving our overall contract performance. However, we may not be able to expand our operating margin on an annual basis and our operating margin could decline. In the future, select business acquisitions and select new business, including contract renewals and new contracts, could have lower operating margins than L-3's operating margin on existing business and contracts. In addition, changes in the competitive environment and our consolidated sales levels could also result in lower operating margin.

Other Events

Debt Repurchases, Issuance, and Redemptions. On February 2, 2011, we repurchased approximately \$11 million of our CODES as a result of the exercise by the holders of their contractual right to require us to repurchase their CODES.

On February 7, 2011, L-3 Communications issued \$650 million in principal amount of 4.95% Senior Notes that mature on February 15, 2021 (2021 Senior Notes). The 2021 Senior Notes were issued at a discount of \$4 million. On March 9, 2011, the net cash proceeds from this offering, together with cash on hand, were used to redeem L-3 Communications' \$650 million 7.8% Senior Subordinated Notes due January 15, 2015 (2015 Notes). In connection with the redemption of the 2015 Notes, we recorded a debt retirement charge of \$18 million (\$11 million after income taxes, or \$0.10 per diluted share).

Business Acquisitions and Business and Product Line Dispositions

Our Annual Report on Form 10-K for the fiscal year ended December 31, 2010 summarizes the business acquisitions and business and product line dispositions that we completed during the three years ended December 31, 2010. All of our business acquisitions are included in our consolidated results of operations from their dates of acquisition. We regularly evaluate potential business acquisitions.

Results of Operations

The following information should be read in conjunction with our unaudited condensed consolidated financial statements contained in this quarterly report. Our results of operations for the periods presented are affected by our business acquisitions. See Note 4 to our audited consolidated financial statements for the year ended December 31, 2010, included in our Annual Report on Form 10-K, for a discussion of our 2010 business acquisitions.

Consolidated Results of Operations

The table below provides selected financial data for L-3 for the 2011 First Quarter compared with the 2010 First Quarter.

(in millions, except per share data)	First Quarter Ended		Increase/ (decrease)
	April 1, 2011	March 26, 2010	
Net sales	\$ 3,601	\$ 3,624	\$ (23)
Operating income	\$ 390	\$ 410	\$ (20)
Operating margin	10.8%	11.3%	(50) bpts
Net interest expense and other income	\$ 79	\$ 60	\$ 19
Effective income tax rate	33.4%	36.6%	(320) bpts
Net income attributable to L-3	\$ 204	\$ 221	\$ (17)
Diluted earnings per share	\$ 1.85	\$ 1.87	\$ (0.02)
Diluted weighted average common shares outstanding	109.5	116.9	(7.4)

Net Sales: For the 2011 First Quarter, consolidated net sales decreased by approximately 1% as compared to the 2010 First Quarter. Lower sales from the AM&M segment, primarily due to the loss of a SOFSA contract, and the Electronic Systems segment were partially offset by sales growth from the C³ISR and Government Services segments. Additional days in the 2011 First Quarter as compared to the 2010 First Quarter favorably impacted sales, primarily for the Government Services and AM&M segments. Acquired businesses, which are all included in the Electronics Systems segment, contributed \$82 million to net sales in the 2011 First Quarter.

Sales from services, which include services performed by businesses primarily in our Government Services, AM&M and C³ISR segments, as well as marine services, simulation & training, and maintenance for security and detection systems within our Electronic Systems segment, decreased by \$40 million to \$1,870 million, representing approximately 52% of consolidated net sales for the 2011 First Quarter, compared to \$1,910 million, or approximately 53% of consolidated net sales for the 2010 First Quarter. Additional days in the 2011 First Quarter compared to the 2010 First Quarter increased sales from services by approximately \$83 million. Excluding the impact of the additional days, sales from services decreased by approximately \$123 million, primarily due to reduced subcontractor pass-through sales volume related to task order renewals for U.S. Army systems and software engineering and sustainment services (SSES) in the Government Services segment and the SOFSA contract loss in the AM&M segment.

Sales from products, which primarily include products from our C³ISR and Electronic Systems segments, increased by \$17 million to \$1,731 million, representing approximately 48% of consolidated net sales for the 2011 First Quarter, compared to \$1,714 million for the 2010 First Quarter, or approximately 47% of consolidated net sales for the 2010 First Quarter. The increase in product sales was primarily due to sales from acquired businesses and organic sales growth primarily for Joint Cargo Aircraft (JCA), networked communications, and EO/IR products. These increases were partially offset by decreases due to sales volume declines primarily for combat propulsion systems, microwave products, force protection products, simulation & training, and warrior systems.

See the segment results below for additional discussion of our segment sales.

Operating income and operating margin: Consolidated operating income for the 2011 First Quarter decreased by 5% compared to the 2010 First Quarter. Operating margin decreased by 50 basis points to 10.8% for the 2011 First Quarter compared to 11.3% for the 2010 First Quarter. Lower operating margin in the C³ISR segment was partially offset by an increase in operating margin for the AM&M segment. See the segment results below for additional discussion of our segment operating margin.

Net interest expense and other income: Net interest expense and other income increased by \$19 million for the 2011 First Quarter compared to the same period last year. The increase was primarily due to an \$18 million debt retirement charge related to the redemption of our 2015 Notes. Net interest expense included \$3 million (\$2 million after income taxes, or \$0.02 per diluted share) related to overlapping debt prior to the redemption of the 2015 Notes, which was partially offset by lower interest rates on outstanding debt.

Effective income tax rate: The effective tax rate for the 2011 First Quarter decreased by 320 basis points compared to the same period last year. The decrease in the effective tax rate was primarily due to: (1) an increased benefit from foreign earnings, (2) the reenactment of the U.S. Federal research and experimentation tax credit, and (3) a 2010 First Quarter tax provision of \$5 million, or \$0.04 per diluted share, related to the unfavorable tax treatment of the U.S. Federal Patient Protection and Affordable Care Act that did not recur.

Net income attributable to L-3 and diluted earnings per share: Net income attributable to L-3 in the 2011 First Quarter decreased by \$17 million compared to the 2010 First Quarter, and L-3 Holdings' diluted earnings per share decreased to \$1.85 from \$1.87. As discussed above, the 2011 First Quarter includes a debt retirement charge of

\$18 million, or \$0.10 per diluted share.

Diluted weighted average common shares outstanding: Diluted weighted average common shares outstanding for the 2011 First Quarter decreased by 7.4 million shares compared to the same period last year. The decrease was due to repurchases of our common stock in connection with our share repurchase program authorized by our Board of Directors, partially offset by additional shares issued in connection with various employee stock-based compensation programs and contributions to employee savings plans made in common stock.

Segment Results of Operations

The table below presents selected data by segment reconciled to consolidated totals. See Note 21 to our unaudited condensed consolidated financial statements contained in this quarterly report for additional segment data.

Consolidated operating margin	10.8%	11.3%

(1) As a result of re-alignments of business units in our management and organizational structure as discussed in Note 2 to our unaudited condensed consolidated financial statements contained in this quarterly report, sales of \$36 million from the Government Services segment were reclassified to the Electronic Systems segment and sales of \$18 million were reclassified from the C³ISR segment to the Government Services segment for the 2010 First Quarter. In addition, operating income of \$6 million was reclassified from the Government Services segment to the Electronic Systems segment and operating income of \$1 million was reclassified from the C³ISR segment to the Government Services segment.

(2) Net sales are after intercompany eliminations.

C³ISR

First Quarter Ended

	April 1, 2011	March 26, 2010	Increase/ (decrease)
	(dollars in millions)		
Net sales	\$ 785.6	\$ 770.2	\$ 15.4
Operating income	89.5	104.6	(15.1)
Operating margin	11.4%	13.6%	(220) bpts

C³ISR net sales for the 2011 First Quarter increased by 2% compared to the 2010 First Quarter primarily due to increased demand and new business for networked communication systems for manned and unmanned platforms, airborne ISR logistics support and fleet management services to the U.S. DoD and international ISR systems. These increases were partially offset by lower sales of force protection products to foreign ministries of defense.

C³ISR operating income for the 2011 First Quarter decreased by 14% compared to the 2010 First Quarter. Operating margin decreased by 220 basis points, primarily due to an \$8 million loss on a contract termination and favorable contract performance adjustments in the 2010 First Quarter for airborne ISR systems that did not recur.

Government Services

	First Quarter Ended		Increase/ (decrease)
	April 1, 2011	March 26, 2010	
	(dollars in millions)		
Net sales	\$ 946.8	\$ 909.6	\$ 37.2
Operating income	71.0	71.8	(0.8)
Operating margin	7.5%	7.9%	(40) bpts

Government Services net sales for the 2011 First Quarter increased by 4% compared to the 2010 First Quarter. Additional days in the 2011 First Quarter as compared to the 2010 First Quarter increased sales by approximately \$60 million. Excluding the impact of the additional days, sales decreased by approximately \$23 million. The decrease was primarily due to reduced subcontractor pass-through sales volume of \$29 million related to task order renewals for U.S. Army SSES services and \$24 million of lower sales volume due to the loss of an Afghanistan Ministry of Defense support contract. These decreases were partially offset by \$30 million of higher sales due to increased demand primarily for: (1) information technology support services and system engineering for the U.S. Government and other agencies and (2) logistics, training and law enforcement support services for the U.S. Army on new and existing contracts.

Government Services operating income for the 2011 First Quarter decreased by 1% compared to the 2010 First Quarter. Operating margin decreased by 40 basis points. Operating margin was reduced by 110 basis points primarily due to lower margins on select new and existing contracts and task orders due to competitive price pressures. The decrease in operating margin was partially offset by an increase of 70 basis points related to costs in the 2010 First Quarter for a security systems contract that did not recur and the timing of receipt of an award fee for linguist services.

Aircraft Modernization and Maintenance (AM&M)

	First Quarter Ended		Increase/ (decrease)
	April 1, 2011	March 26, 2010	
	(dollars in millions)		
Net sales	\$ 592.9	\$ 652.1	\$ (59.2)
Operating income	66.0	59.5	6.5
Operating margin	11.1%	9.1%	200bpts

AM&M net sales for the 2011 First Quarter decreased by 9% compared to the 2010 First Quarter. Additional days in the 2011 First Quarter as compared to the 2010 First Quarter increased sales by approximately \$23 million. Excluding the impact of the additional days, sales decreased by \$82 million. The decrease was primarily due to: (1) lower sales of \$99 million from the SOFSA contract loss and (2) \$13 million in sales volume declines for contract field services as fewer task orders were received due to increased competition. The decreases were partially offset primarily by \$30 million of higher sales due to higher demand from existing and new contracts for system field support services for C-12 and rotary wing aircraft for the U.S. Army and higher sales volume for JCA.

AM&M operating income for the 2011 First Quarter increased by 11% compared to the 2010 First Quarter. Operating margin increased by 200 basis points. A favorable price adjustment of \$10 million for an international aircraft modernization contract increased operating margin by 150 basis points, improved contract performance on rotary wing cabin assemblies increased operating margin by 120 basis points, and a decline in lower margin sales, primarily from the SOFSA contract, increased operating margin by 90 basis points. These increases were partially offset primarily by startup costs related to a U.S. Army C-12 aircraft maintenance contract and lower margin sales mix, primarily for higher JCA volume.

Electronic Systems

	First Quarter Ended		
	April 1, 2011	March 26, 2010	Decrease
	(dollars in millions)		
Net sales	\$ 1,276.1	\$ 1,291.8	\$ (15.7)
Operating income	163.1	173.8	(10.7)
Operating margin	12.8%	13.5%	(70) bpts

Electronic Systems net sales for the 2011 First Quarter decreased by 1% compared to the 2010 First Quarter, reflecting lower sales volume of: (1) \$41 million for microwave products, primarily due to decreased deliveries of power devices for satellite communication systems, (2) \$32 million for combat propulsion systems due to a continued reduction in DoD funding for Bradley Fighting Vehicles, (3) \$27 million for simulation & training primarily due to an Egyptian maritime simulation contract, and (4) \$18 million for warrior systems due to lower shipments of night vision products. The decreases were partially offset primarily by: (1) sales from acquired businesses of \$82 million for Insight Technology, 3Di Technologies, Airborne Technologies, and FUNA International GmbH and (2) \$20 million for higher demand primarily for EO/IR products.

Electronic Systems operating income for the 2011 First Quarter decreased by 6% compared to the 2010 First Quarter. Operating margin decreased by 70 basis points. Operating margin was reduced by 340 basis points primarily due to: (1) lower sales volume and favorable contract performance adjustments in the 2010 First Quarter, primarily for combat propulsion systems, simulation & training and warrior systems, (2) lower margin sales from acquired businesses, and (3) a favorable volume price adjustment on a supply contract in the 2010 First Quarter that did not recur. The decrease was partially offset by an increase of 270 basis points due primarily to increased EO/IR sales volume, favorable sales mix as well as improved contract performance.

Liquidity and Capital Resources

Anticipated Sources and Uses of Cash Flow

At April 1, 2011, we had total cash and cash equivalents of \$548 million as compared to \$607 million at December 31, 2010. While no amounts of the cash and cash equivalents are considered restricted, \$383 million was held by the Company's foreign subsidiaries. The repatriation of cash held in non-U.S. jurisdictions is subject to local capital requirements, as well as income tax considerations. Our primary source of liquidity is cash flow generated from operations. We generated \$220 million of cash from operating activities during the quarter ended April 1, 2011.

At April 1, 2011, we also had \$989 million of borrowings available under our Revolving Credit Facility, after reductions of \$11 million for outstanding letters of credit, subject to certain conditions. Our Revolving Credit Facility expires on October 23, 2012. We currently believe that our cash from operating activities, together with our cash on hand, and available borrowings under our Revolving Credit Facility will be adequate for the foreseeable future to meet our anticipated requirements for working capital, capital expenditures, defined benefit plan contributions, commitments, contingencies, research and development expenditures, business acquisitions (depending on the size), contingent purchase price payments on previous business acquisitions, program and other discretionary investments, interest payments, income tax payments, L-3 Holdings' dividends and share repurchases.

Our business may not continue to generate cash flow at current levels, and it is possible that currently anticipated improvements may not be achieved. If we are unable to generate sufficient cash flow from operations to service our debt, we may be required to reduce costs and expenses, sell assets, reduce capital expenditures, reduce dividend payments, refinance all or a portion of our existing debt or obtain additional financing, which we may not be able to do on a timely basis, on satisfactory terms, or at all. Our ability to make scheduled principal payments or to pay interest on or to refinance our indebtedness depends on our future performance and financial results, which, to a certain extent, are subject to general conditions in or affecting the U.S. defense industry and to general economic, political, financial, competitive, legislative and regulatory factors beyond our control.

For a discussion of our debt refinancing activities during the 2011 First Quarter, which improved our debt maturity profile and reduced ongoing interest expense, see "Financing Activities-Debt" on page 33.

Balance Sheet

Billed receivables decreased by \$32 million to \$1,267 million at April 1, 2011, from \$1,299 million at December 31, 2010 primarily due to: (1) the timing of billings and collections primarily for government services and networked communications and (2) lower sales primarily for power and control systems, system field support services, and secure communications. These decreases were partially offset by increases for ISR services due to the timing of collections and higher sales and \$7 million for foreign currency translation adjustments.

Contracts in process increased by \$163 million to \$2,711 million at April 1, 2011, from \$2,548 million at December 31, 2010. The increase included \$4 million primarily for foreign currency translation adjustments and a \$159 million increase from:

Increases of \$44 million in unbilled contract receivables primarily due to sales exceeding billings for aircraft modernization, networked communication systems, and simulation & training, partially offset by decreases due to lower sales and billings for combat propulsion systems; and

Increases of \$115 million in inventoried contract costs across several business areas, primarily networked communications systems, systems field support, EO/IR products and combat propulsion systems to support current and anticipated customer demand.

L-3's receivables days sales outstanding (DSO) was 73 at April 1, 2011, compared with 70 at December 31, 2010 and March 26, 2010. We calculate our DSO by dividing: (1) our aggregate end of period billed receivables and net unbilled contract receivables, by (2) our trailing 12 month sales adjusted, on a pro forma basis, to include sales from business acquisitions and exclude sales from business divestitures that we completed as of the end of the period, multiplied by the number of calendar days in the trailing 12 month period (371 days at April 1, 2011, 365 days at December 31, 2010 and 364 days at March 26, 2010). Our trailing 12 month pro forma sales were \$15,727 million at April 1, 2011, \$15,850 million at December 31, 2010 and \$15,603 million at March 26, 2010.

The increase in inventories was primarily due to higher inventory for commercial ship building products and warrior systems to support customer demand and \$6 million for foreign currency translation adjustments.

Goodwill increased by \$46 million to \$8,776 million at April 1, 2011 from \$8,730 million at December 31, 2010. The table below presents the changes in goodwill applicable to our reporting units in each segment.

	C ³ ISR	Government Services	AM&M (in millions)	Electronic Systems	Consolidated Total
Balance at December 31, 2010	\$ 868	\$ 2,285	\$ 1,172	\$ 4,405	\$ 8,730
Business acquisitions	2		2		4
Foreign currency translation adjustments ⁽¹⁾	3	1	9	29	42
Segment reclassification ⁽²⁾	(5)	(94)		99	
Balance at April 1, 2011	\$ 868	\$ 2,192	\$ 1,183	\$ 4,533	\$ 8,776

(1) The increases in goodwill presented in each of the segments were due to the weakening of the U.S. dollar against the Euro, Canadian dollar, and British pound in the 2011 First Quarter.

(2) As a result of re-alignments of business units in our management and organizational structure as discussed in Note 2 to our unaudited condensed consolidated financial statements contained in this quarterly report, goodwill was reclassified on a relative fair value basis among the C³ISR, Government Services and Electronic Systems segments during the 2011 First Quarter.

The fluctuations in accounts payable and accrued expenses were primarily due to the timing of when invoices for purchases from third party vendors and subcontractors were received and payments were made. The decrease in advance payments and billings in excess of costs incurred was primarily due to the liquidation of balances on contracts for microwave products.

The decrease in pension and postretirement benefit plan liabilities was primarily due to cash contributions exceeding pension expense (excluding amortization of net losses) during the 2011 First Quarter. We expect to contribute cash of approximately \$185 million to our pension plans for all of 2011, of which \$62 million was contributed during the 2011 First Quarter.

Non-current deferred income tax liabilities increased primarily due to amortization of certain goodwill and other identifiable intangible assets for tax purposes.

Statement of Cash Flows***2011 First Quarter Compared with 2010 First Quarter***

The table below provides a summary of our cash flows from operating, investing, and financing activities for the periods indicated.

	First Quarter Ended	
	April 1,	March 26,
	2011	2010
	(in millions)	
Net cash from operating activities	\$ 220	\$ 271
Net cash used in investing activities	(34)	(35)
Net cash used in financing activities	(257)	(104)

Operating Activities

We generated \$220 million of cash from operating activities during the 2011 First Quarter, a decrease of \$51 million compared with \$271 million generated during the 2010 First Quarter. The decrease was due to: (1) a decrease in net income of \$15 million, and (2) \$47 million of more net cash used for changes in operating assets and liabilities, primarily due to the timing of quarterly pension contributions in the 2011 First Quarter, which were \$58 million higher than the pension contributions in the 2010 First Quarter. These decreases were partially offset by \$11 million of higher non-cash expenses primarily for contributions to employee savings plans in L-3 Holdings common stock. The net cash used for changes in operating assets and liabilities is further discussed above under Liquidity and Capital Resources Balance Sheet beginning on page 31.

Investing Activities

During the 2011 First Quarter, we used \$34 million of cash in the aggregate primarily to pay for capital expenditures.

Financing Activities

Debt

At April 1, 2011, total outstanding debt was \$4,126 million, of which \$2,442 million was senior debt and \$1,684 million was subordinated debt and CODES, compared to \$4,137 million at December 31, 2010, of which \$1,794 million was senior debt and \$2,343 million was subordinated debt and CODES. At April 1, 2011, borrowings available under our Revolving Credit Facility were \$989 million, after reduction for outstanding letters of credit of \$11 million. There were no borrowings outstanding under our Revolving Credit Facility at April 1, 2011. Our outstanding debt matures between October 15, 2015 and August 1, 2035. See Note 9 to our unaudited condensed consolidated financial statements contained in this quarterly report for the components of our debt at April 1, 2011.

2011 Debt Repurchases, Issuance, and Redemptions. On February 2, 2011, we repurchased approximately \$11 million of our CODES as a result of the exercise by the holders of their contractual right to require us to repurchase their CODES. The holders of the CODES have a contractual right to require us to repurchase the remaining CODES, in whole or in part, on February 1, 2016 and every five years thereafter through February 1, 2031.

On February 7, 2011, L-3 Communications issued the 2021 Senior Notes and, on March 9, 2011, used the net cash proceeds from this offering, together with cash on hand, to redeem the 2015 Notes. See Note 9 to our unaudited condensed consolidated financial statements contained in this quarterly report for additional information on our 2011 debt repurchases, issuance, and redemptions.

Debt Covenants and Other Provisions. The Revolving Credit Facility, senior notes and senior subordinated notes contain financial and/or other restrictive covenants. See Note 10 to our audited consolidated financial statements for the year ended December 31, 2010, included in our Annual Report on Form 10-K, for a description of our debt and related financial covenants, including dividend payment and share repurchase restrictions and cross default provisions. As of April 1, 2011, we were in compliance with our financial and other restrictive covenants.

Under select conditions, including if L-3 Holdings' common stock price is more than 120% (currently \$117.35) of the then current conversion price (\$97.79 as of March 1, 2011) for a specified period, the conversion feature of the CODES will require L-3 Holdings, upon conversion, to pay the holders of the CODES the principal amount in cash, and if the settlement amount exceeds the principal amount, the excess will be settled in cash or stock or a combination thereof, at our option. See Note 10 to our audited consolidated financial statements for the year ended December 31, 2010, included in our Annual Report on Form 10-K, for additional information regarding the CODES, including conditions for conversion. L-3 Holdings' closing stock price on May 4, 2011 was \$81.37 per share.

Guarantees. The borrowings under the Revolving Credit Facility are fully and unconditionally guaranteed by L-3 Holdings and by substantially all of the material wholly-owned domestic subsidiaries of L-3 Communications on an unsecured senior basis. The payment of principal and premium, if any, and interest on the senior notes are fully and unconditionally guaranteed, on an unsecured senior basis, jointly and severally, by L-3 Communications' material wholly-owned domestic subsidiaries that guarantee any of its other indebtedness. The payment of principal and premium, if any, and interest on the senior subordinated notes are fully and unconditionally guaranteed, on an unsecured senior subordinated basis, jointly and severally, by L-3 Communications' wholly-owned domestic subsidiaries that guarantee any of its other indebtedness. The payment of principal and premium, if any, and interest on the CODES are fully and unconditionally guaranteed, on an unsecured senior subordinated basis, jointly and

severally, by L-3 Communications and its wholly-owned domestic subsidiaries that guarantee any of its other liabilities.

Subordination. The guarantees of the Revolving Credit Facility and the senior notes rank senior to the guarantees of the senior subordinated notes and the CODES and rank pari passu with each other. The guarantees of the senior subordinated notes and CODES rank pari passu with each other and are junior to the guarantees of the Revolving Credit Facility and senior notes.

Equity

Repurchases of L-3 Holdings common stock under the share repurchase programs, approved by the Board of Directors are made from time to time at management's discretion in accordance with applicable U.S. federal securities laws in the open market or otherwise. All share repurchases of L-3 Holdings' common stock have been recorded as treasury shares. On April 26, 2011, L-3 Holdings' Board of Directors approved a new share repurchase program that authorizes L-3 Holdings to repurchase up to an additional \$1.5 billion of its outstanding shares of common stock through April 30, 2013.

The table below presents our repurchases of L-3 Holdings common stock during the 2011 First Quarter.

	Total Number of Shares Purchased	Average Price Paid Per Share	Treasury Stock (at cost in millions)
January 1 – April 1, 2011	2,614,032	\$ 78.40	\$ 205

At April 1, 2011, the remaining dollar value under the share repurchase program approved by L-3 Holdings Board of Directors on July 14, 2010 was \$387 million.

From April 2, 2011 through May 4, 2011, L-3 Holdings repurchased 1,453,238 shares of its common stock at an average price of \$78.16 per share for an aggregate amount of \$114 million.

During the 2011 First Quarter, L-3 Holdings Board of Directors authorized the following quarterly cash dividends:

Date Declared	Record Date	Cash Dividend Per Share	Date Paid	Total Dividends Paid (in millions)
February 8, 2011	March 1, 2011	\$ 0.45	March 15, 2011	\$ 49

On April 26, 2011, L-3 Holdings Board of Directors declared a quarterly cash dividend of \$0.45 per share, payable on June 15, 2011 to shareholders of record at the close of business on May 17, 2011.

Legal Proceedings and Contingencies

For a discussion of legal proceedings and contingencies that could impact our results of operations, financial condition or cash flows, see Note 17 to our unaudited condensed consolidated financial statements contained in this quarterly report.

Forward-Looking Statements

Certain of the matters discussed concerning our operations, cash flows, financial position, economic performance and financial condition, including in particular, the likelihood of our success in developing and expanding our business and the realization of sales from backlog, include forward-looking statements within the meaning of Section 27A of the Securities Act and Section 21E of the Exchange Act.

Statements that are predictive in nature, that depend upon or refer to events or conditions or that include words such as expects, anticipates, intends, plans, believes, estimates and similar expressions are forward-looking statements. Although we believe that these statements are based upon reasonable assumptions, including projections of total sales growth, sales growth from business acquisitions, organic sales growth, consolidated operating margins, total segment operating margins, interest expense, earnings, cash flow, research and development costs, working capital, capital

expenditures and other projections, they are subject to several risks and uncertainties, and therefore, it is possible that these statements may not be achieved. Such statements will also be influenced by factors which include, among other things:

our dependence on the defense industry and the business risks peculiar to that industry, including changing priorities or reductions in the U.S. Government defense budget;

backlog processing and program slips resulting from delayed resolution of DoD fiscal year 2011 funding;

our reliance on contracts with a limited number of agencies of, or contractors to, the U.S. Government and the possibility of termination of government contracts by unilateral government action or for failure to perform;

the extensive legal and regulatory requirements surrounding our contracts with the U.S. or foreign governments and the results of any investigation of our contracts undertaken by the U.S. or foreign governments, including potential suspensions or debarments;

our ability to retain our existing business and related contracts (revenue arrangements);

our ability to successfully compete for and win new business and related contracts (revenue arrangements) and to win re-competitions of our existing contracts;

our ability to identify and acquire additional businesses in the future with terms, including the purchase price, that are attractive to L-3 and to integrate acquired business operations;

our ability to maintain and improve our consolidated operating margin and total segment operating margin in future periods;

our ability to obtain future government contracts (revenue arrangements) on a timely basis;

the availability of government funding or cost-cutting initiatives and changes in customer requirements for our products and services;

our significant amount of debt and the restrictions contained in our debt agreements;

our ability to continue to retain and train our existing employees and to recruit and hire new qualified and skilled employees, as well as our ability to retain and hire employees with U.S. Government security clearances that are a prerequisite to compete for and to perform work on classified contracts for the U.S. Government;

actual future interest rates, volatility and other assumptions used in the determination of pension benefits and equity-based compensation, as well as the market performance of benefit plan assets;

our collective bargaining agreements, our ability to successfully negotiate contracts with labor unions and our ability to favorably resolve labor disputes should they arise;

the business, economic and political conditions in the markets in which we operate, including those for the commercial aviation, shipbuilding and communications markets;

global economic uncertainty;

the DoD's contractor support services in-sourcing and efficiency initiatives;

events beyond our control such as acts of terrorism;

our ability to perform contracts (revenue arrangements) on schedule;

our international operations, including sales to foreign customers;

our extensive use of fixed-price type contracts as compared to cost-plus type and time-and-material type contracts;

the rapid change of technology and high level of competition in the defense industry and the commercial industries in which our businesses participate;

our introduction of new products into commercial markets or our investments in civil and commercial products or companies;

the outcome of litigation matters, particularly in connection with jury trials;

results of audits by U.S. Government agencies, including the Defense Contract Audit Agency, of our sell prices, costs and performance on contracts (revenue arrangements), and our accounting and general business practices;

results of on-going governmental investigations, including potential suspensions or debarments;

the impact on our business of improper conduct by our employees, agents, or business partners;

anticipated cost savings from business acquisitions not fully realized or realized within the expected time frame;

the outcome of matters relating to the Foreign Corrupt Practices Act (FCPA) and similar non-U.S. regulations;

ultimate resolution of contingent matters, claims and investigations relating to acquired businesses, and the impact on the final purchase price allocations;

significant increase in competitive pressure among companies in our industry; and

the fair values of our assets, including identifiable intangible assets and the estimated fair value of the goodwill balances for our reporting units, which can be impaired or reduced by other factors, some of which are discussed above.

In addition, for a discussion of other risks and uncertainties that could impair our results of operations or financial condition, see Part I Item 1A Risk Factors and Note 19 to our audited consolidated financial statements, in each case included in our Annual Report on Form 10-K for the year ended December 31, 2010.

Readers of this document are cautioned that our forward-looking statements are not guarantees of future performance and the actual results or developments may differ materially from the expectations expressed in the forward-looking statements.

As for the forward-looking statements that relate to future financial results and other projections, actual results will be different due to the inherent uncertainties of estimates, forecasts and projections and may be better or worse than projected and such differences could be material. Given these uncertainties, you should not place any reliance on these forward-looking statements. These forward-looking statements also represent our estimates and assumptions only as of the date that they were made. We expressly disclaim a duty to provide updates to these forward-looking statements, and the estimates and assumptions associated with them, after the date of this filing to reflect events or changes in circumstances or changes in expectations or the occurrence of anticipated events.

ITEM 3.

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

See Part II, Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations Liquidity and Capital Resources Derivative Financial Instruments, of our Annual Report on Form 10-K for the fiscal year ended December 31, 2010 for a discussion of our exposure to market risks. There were no material changes in those risks during the 2011 First Quarter. See Notes 15 and 16 to our unaudited condensed consolidated financial statements contained in this quarterly report for the aggregate fair values and notional amounts of our foreign currency forward contracts at April 1, 2011.

ITEM 4.

CONTROLS AND PROCEDURES

Conclusions Regarding Effectiveness of Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports under the Securities Exchange Act of 1934 related to L-3 Holdings and L-3 Communications is recorded, processed, summarized and reported within the time periods specified in the U.S. Securities and Exchange Commission's (SEC) rules and forms, and that such information is accumulated and communicated to our management, including our Chairman, President and Chief Executive Officer, and our Senior Vice President and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures. Any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. Our management, with the participation of our Chairman, President and Chief Executive Officer, and our Senior Vice President and Chief Financial Officer, has evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of April 1, 2011. Based upon that evaluation and subject to the foregoing, our Chairman, President and Chief Executive Officer, and our Senior Vice President and Chief Financial Officer concluded that, as of April 1, 2011, the design and operation of our disclosure controls and procedures were effective to accomplish their objectives at the reasonable assurance level.

There were no changes in our internal control over financial reporting that occurred during the quarter ended April 1, 2011 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION**ITEM 1.****LEGAL PROCEEDINGS**

The information required with respect to this item can be found in Note 17 to our unaudited condensed consolidated financial statements contained in this quarterly report and is incorporated by reference into this Item 1.

ITEM 1A.**RISK FACTORS**

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2010, and Management's Discussion and Analysis of Financial Condition and Results of Operations Overview and Outlook Industry Considerations, which could materially affect our business, financial condition or future results. Other than as described in Industry Considerations, there have been no material changes to the risk factors disclosed in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2010. The risks described in our Annual Report on Form 10-K are not the only risks we face. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.

ITEM 2.**UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS****Issuer Purchases of Equity Securities**

The following table provides information about share repurchases made by L-3 Holdings of its common stock during the 2011 First Quarter.
