The Cushing® MLP Total Return Fund
Shareholder Letter

Dear Shareholder:

The Cushing® MLP Total Return Fund (NYSE: SRV) posted positive performance for the six month period ending May 31, 2011. In the first six months of fiscal 2011, SRV was +14.3% on a total return basis and +6.8% on a NAV basis, versus 12.6% for the S&P 500 Index Total Return (S&P 500) and a 7.6% return for the Cushing® MLP Index Total Return (MLPXTR).

Although the Fund benefited from a favorable economic environment during the early part of the period, macro fears returned to the forefront during the last couple of months of the period. With the ongoing unrest in the Middle East/North Africa, the Japan earthquakes/tsunami, continued European sovereign debt concerns, uncomfortably high crude oil and gasoline prices, inflation fears percolating, and a discouraging lack of leadership by our elected officials to handle a looming debt crisis, resilience is a word that first comes to mind when thinking about equity and credit performance this past quarter. While significant macro fears understandably drove MLP sector correlations to the broader market (S&P 500) higher relative to the fourth quarter of 2010, we believe MLP characteristics still provide good diversification opportunities.

Continuing with the topic of risk, there is obviously no shortage of global macro concerns. Of course, given the events in the Middle East, North Africa, and Japan, there is certainly a stronger case to be made for the continued development of safe and reliable domestic fuel and related infrastructure. Of particular relevance to higher yielding securities, we continue to watch interest rates carefully. We take particular notice when the dollar continues to trade lower and lower as gold moves higher and higher, when the CEO of Wal-mart says inflation is right around the corner, when PIMCO shorts Treasuries, and when Standard and Poor's revises its outlook on US sovereign credit to negative. Further, the end of QE2 is nearing, and at the very least, we believe this means additional market volatility for bonds and stocks. Bottom line: ultimately, we do not know what the future will bring (though we have a feeling), and we continue to analyze and evaluate the impact of rising interest rates on the Fund's portfolio and leverage funding costs.

Table of Contents

Turning to the business aspect of the space, fundamentals for the MLP group remain very strong, save for pockets of softness such as natural gas storage and propane distribution and headwinds related to long haul natural gas pipelines. New shale plays – importantly, no longer just dry gas, but crude oil and liquids rich areas – are driving infrastructure opportunities. The dramatic shift in industry focus to oil shale development is driven by horizontal drilling technology and the extremely wide crude oil to natural gas price ratio. We believe the opportunity set for growth for MLPs is as abundant as we can remember, and MLPs are taking advantage of their low costs of capital.

We look forward to continuing to pursue the Fund’s investment objective to obtain a high after-tax total return from a combination of capital appreciation and current income from investments in MLPs. We invite you to visit our website at www.srvfund.com for the latest updates on the Fund and its adviser.

(1) Commencement of Operations

(2) Information presented relates to a share of common stock outstanding for the entire period.

(3) Not Annualized. Total investment return is calculated assuming a purchase of common stock at the initial public offering price and a sale at the closing price on the last day of the period reported. The calculation also assumes reinvestment of dividends at actual prices pursuant to the Fund's dividend reinvestment plan. Total investment return does not reflect brokerage commissions.

(4) Annualized for periods less than one full year.

(5) For the period from December 1, 2010 through May 31, 2011, the Fund accrued \$0 in net current and deferred tax expense. For the fiscal year ended November 30, 2010, the Fund accrued \$0 in net current and deferred tax expense. For the fiscal year ended November 30, 2009, the Fund accrued \$0 in net current and deferred tax expense. For the fiscal year ended November 30, 2008, the Fund accrued \$3,153,649 in net current and deferred tax expense. For the period from August 27, 2007 through November 30, 2007, the Fund accrued \$3,153,649 in net current and deferred income tax benefit.

(6) This ratio excludes current and deferred income tax benefit/expense on net investment income.

The Cushing® MLP Total Return Fund
Notes To Financial Statements
May 31, 2011 (Unaudited)

1. Organization

The Cushing® MLP Total Return Fund (the Fund) was formed as a Delaware statutory trust on May 23, 2007, and is a non-diversified, closed-end investment company under the Investment Company Act of 1940, as amended (the 1940 Act). The Fund s investment objective is to seek to produce current income and capital appreciation. The Fund seeks to provide its stockholders with an efficient vehicle to invest in the energy infrastructure sector. The Fund commenced operations on August 27, 2007. The Fund s shares are listed on the New York Stock Exchange under the symbol SRV.

2. Significant Accounting Policies

A. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities, recognition of distribution income and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

B. Investment Valuation

The Fund uses the following valuation methods to determine fair value as either current market value for investments for which market quotations are available, or if not available, the fair value, as determined in good faith pursuant to such policies and procedures as may be approved by the Fund s Board of Trustees (Board of Trustees) from time to time. The valuation of the portfolio securities of the Fund currently includes the following processes:

(i) The market value of each security listed or traded on any recognized securities exchange or automated quotation system will be the last reported sale price at the relevant valuation date on the composite tape or on the principal exchange on which such security is traded. If no sale is reported on that date, Cushing® MLP Asset Management, LP (the Adviser) (formerly Swank Energy Income Advisors, LP) utilizes, when available, pricing quotations from principal market makers. Such

Table of Contents

quotations may be obtained from third-party pricing services or directly from investment brokers and dealers in the secondary market. Generally, the Fund's loan and bond positions are not traded on exchanges and consequently are valued based on market prices received from third-party services or broker-dealer sources.

(ii) Listed options on debt securities are valued at the average of the bid price and the ask price. Unlisted options on debt or equity securities are valued based upon their composite bid prices if held long, or their composite ask prices if held short. Futures are valued at the last sale price on the commodities exchange on which they trade.

(iii) The Fund's non-marketable investments will generally be valued in such manner as the Adviser determines in good faith to reflect their fair values under procedures established by, and under the general supervision and responsibility of, the Board of Trustees. The pricing of all assets that are fair valued in this manner will be subsequently reported to and ratified by the Board of Trustees.

The Fund may engage in short sale transactions. For financial statement purposes, an amount equal to the settlement amount, if any, is included in the Statement of Assets and Liabilities as a liability. The amount of the liability is subsequently marked-to-market to reflect the current value of the short positions. Subsequent fluctuations in market prices of securities sold short may require purchasing the securities at prices which may differ from the market value reflected on the Statement of Assets and Liabilities. When the Fund sells a security short, it must borrow the security sold short and deliver it to the broker-dealer through which it made the short sale. A gain, limited to the price at which the Fund sold the security short, or a loss, unlimited in size, will be recognized under the termination of a short sale. The Fund is also subject to the risk that it may be unable to reacquire a security to terminate a short position except at a price substantially in excess of the last quoted price. The Fund is liable for any dividends paid on securities sold short and such amounts would be reflected as dividend expense in the Statement of Operations. The Fund's obligation to replace the borrowed security will be secured by collateral deposited with the broker-dealer. The Fund also will be required to segregate similar collateral to the extent, if any, necessary so that the value of both collateral amounts in the aggregate is at all times equal to at least 100% of the current market value of the securities sold short. The fair value of securities sold short is \$18,370,000 at May 31, 2011.

Table of Contents

C. Security Transactions, Investment Income and Expenses

Security transactions are accounted for on the date the securities are purchased or sold (trade date). Realized gains and losses are reported on a specific identified cost basis. Interest income is recognized on the accrual basis, including amortization of premiums and accretion of discounts. Distributions are recorded on the ex-dividend date. Distributions received from the Fund's investments in master limited partnerships (MLPs) generally are comprised of ordinary income, capital gains and return of capital from the MLP. The Fund records investment income on the ex-date of the distributions. For financial statement purposes, the Fund uses return of capital and income estimates to allocate the dividend income received. Such estimates are based on historical information available from each MLP and other industry sources. These estimates may subsequently be revised based on information received from MLPs after their tax reporting periods are concluded, as the actual character of these distributions is not known until after the fiscal year end of the Fund.

The Fund estimates the allocation of investment income and return of capital for the distributions received from MLPs within the Statement of Operations. The Fund has estimated approximately 5% of the distributions to be from investment income with the remaining balance to be return of capital.

Expenses are recorded on the accrual basis. During 2010, the Fund over accrued offering costs by \$147,605, of which \$70,925 of offering payments were applied against the accrual during the period ended May 31, 2011. As of May 31, 2011, the balance of accrued offering costs was \$76,680.

D. Dividends and Distributions to Stockholders

Dividends and distributions to common stockholders are recorded on the ex-dividend date. The character of dividends and distributions to common stockholders made during the year may differ from their ultimate characterization for federal income tax purposes. For the period ended May 31, 2011, the Fund's dividends and distributions were expected to be comprised of 100% return of capital. The tax character of distributions paid for the period ended May 31, 2011 will be determined in early 2012.

E. Federal Income Taxation

The Fund, taxed as a corporation, is obligated to pay federal and state income tax on its taxable income. Currently, the maximum marginal regular federal income tax rate for a corporation is 35%. The Fund may be subject to a 20% federal alternative minimum tax on its federal alternative minimum taxable

Table of Contents

income to the extent that its alternative minimum tax exceeds its regular federal income tax.

The Fund invests its assets primarily in MLPs, which generally are treated as partnerships for federal income tax purposes. As a limited partner in the MLPs, the Fund reports its allocable share of the MLP's taxable income in computing its own taxable income. The Fund's tax expense or benefit is included in the Statement of Operations based on the component of income or gains (losses) to which such expense or benefit relates. Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. A valuation allowance is recognized if, based on the weight of available evidence, it is more likely than not that some portion or all of the deferred income tax asset will not be realized.

The Fund has reviewed all open tax years and major jurisdictions and concluded that there is no impact on the Fund's net assets and no tax liability resulting from unrecognized tax benefits relating to uncertain income tax positions taken or expected to be taken on a tax return. As of May 31, 2011, the Fund's federal tax returns since inception remain subject to examination by the Internal Revenue Service.

F. Cash and Cash Equivalents

The Fund considers all highly liquid investments purchased with initial maturity equal to or less than three months to be cash equivalents.

G. Cash Flow Information

The Fund makes distributions from investments, which include the amount received as cash distributions from MLPs, common stock dividends and interest payments. These activities are reported in the Statement of Changes in Net Assets, and additional information on cash receipts and payments is presented in the Statement of Cash Flows.

H. Indemnifications

Under the Fund's organizational documents, its officers and trustees are indemnified against certain liabilities arising out of the performance of their duties to the Fund. In addition, in the normal course of business, the Fund may enter into contracts that provide general indemnification to other parties. The Fund's maximum exposure under such indemnification arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred, and may not occur.

Table of Contents

I. Derivative Financial Instruments

The Fund provides disclosure regarding derivatives and hedging activity to allow investors to understand how and why the Fund uses derivatives, how derivatives are accounted for, and how derivative instruments affect the Fund's results of operations and financial position.

The Fund occasionally purchases and sells (writes) put and call equity options as a source of potential protection against a broad market decline. A purchaser of a put option has the right, but not the obligation, to sell the underlying instrument at an agreed upon price (strike price) to the option seller. A purchaser of a call option has the right, but not the obligation, to purchase the underlying instrument at the strike price from the option seller. Options are settled for cash.

Purchased Options Premiums paid by the Fund for purchased options are included in the Statement of Assets and Liabilities as an investment. The option is adjusted daily to reflect the current market value of the option and any change in fair value is recorded as unrealized appreciation or depreciation of investments. If the option is allowed to expire, the Fund will lose the entire premium paid and record a realized loss for the premium amount. Premiums paid for purchased options which are exercised or closed are added to the amounts paid or offset against the proceeds on the underlying investment transaction to determine the realized gain/loss or cost basis of the security.

Written Options Premiums received by the Fund for written options are included in the Statement of Assets and Liabilities. The amount of the liability is adjusted daily to reflect the current market value of the written option and any change in fair value is recorded as unrealized appreciation or depreciation of investments. Premiums received from written options that expire are treated as realized gains. The Fund records a realized gain or loss on written options based on whether the cost of the closing transaction exceeds the premium received. If a call option is exercised by the option buyer, the premium received by the Fund is added to the proceeds from the sale of the underlying security to the option buyer and compared to the cost of the closing transaction to determine whether there has been a realized gain or loss. If a put option is exercised by an option buyer, the premium received by the option seller reduces the cost basis of the purchased security.

Written uncovered call options subject the Fund to unlimited risk of loss. Written covered call options limit the upside potential of a security above the

Table of Contents

strike price. Put options written subject the Fund to risk of loss if the value of the security declines below the exercise price minus the put premium.

The Fund is not subject to credit risk on written options as the counterparty has already performed its obligation by paying the premium at the inception of the contract.

During the period ended May 31, 2011, the Fund purchased 4,300 J.P. Morgan Alerian MLP Index ETN equity option put contracts with an exercise price of \$37.00 and sold all of these option contracts for a total realized gain of \$378,502. The Fund also purchased 22,300 S&P Depository Receipts (SPDR) Trust Series 1 equity option put contracts with various exercise prices and sold 17,000 of these option contracts for a total realized loss of \$1,033,965. The remaining 5,300 contracts expired for a total realized loss of \$397,087. The total realized loss of \$1,052,550 is included in net realized gain on investments in the Statement of Operations. The Fund did not hold any option contracts as of May 31, 2011.

During the period ended May 31, 2011, the Fund wrote 10,800 SPDR Trust Series 1 short option put contracts with various exercise prices and covered 8,500 of these option contracts for a total realized gain of \$645,735. The remaining 2,300 contracts expired for a total realized gain of \$25,266. The total realized gain of \$671,001 is included in net realized gain on investments in the Statement of Operations.

J. Recent Accounting Pronouncement

In May 2011, the FASB issued ASU No. 2011-04 Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in GAAP and the International Financial Reporting Standards (IFRSs). ASU No. 2011-04 amends FASB ASC Topic 820, Fair Value Measurements and Disclosures, to establish common requirements for measuring fair value and for disclosing information about fair value measurements in accordance with GAAP and IFRSs. ASU No. 2011-04 is effective for fiscal years beginning after December 15, 2011 and for interim periods within those fiscal years. Management is currently evaluating these amendments and does not believe they will have a material impact on the Fund's financial statements.

3. Concentrations of Risk

The Fund's investment objective is to seek to produce current income and capitalization. The Fund will seek to achieve its investment objective by investing, under normal market conditions, at least 80% of its net assets, plus any borrowings for investment purposes, in MLP investments; up to 50% of

Table of Contents

its managed assets in securities of MLPs and other natural resource companies that are not publicly traded, or that are otherwise restricted securities; up to 20% of its managed assets in securities of companies that are not MLPs, including other natural resource companies, and U.S. and non-U.S. issuers that may not constitute other natural resource companies; and up to 20% of its managed assets in debt securities of MLPs, other natural resource companies and other issuers.

4. Agreements and Related Party Transactions

The Fund has entered into an Investment Management Agreement with the Adviser (the Agreement). Under the terms of the Agreement, the Fund will pay the Adviser a fee, payable at the end of each calendar month, at an annual rate equal to 1.25% of the average weekly value of the Fund's managed assets during such month for the services and facilities provided by the Adviser to the Fund. The Adviser earned \$2,288,047 in advisory fees for the period ended May 31, 2011.

The Fund has engaged U.S. Bancorp Fund Services, LLC to serve as the Fund's administrator. The Fund pays the administrator a monthly fee computed at an annual rate of 0.08% of the first \$100,000,000 of the Fund's managed assets, 0.05% on the next \$200,000,000 of managed assets and 0.04% on the balance of the Fund's managed assets, with a minimum annual fee of \$40,000.

Computershare Trust Fund, N.A. serves as the Fund's transfer agent, dividend paying agent, and agent for the automatic dividend reinvestment plan.

U.S. Bank, N.A. serves as the Fund's custodian. The Fund pays the custodian a monthly fee computed at an annual rate of 0.004% of the Fund's average daily market value, with a minimum annual fee of \$4,800.

5. Income Taxes

Deferred income taxes reflect the net tax effect of temporary differences between the carrying amount of assets and liabilities for financial reporting

Table of Contents

and tax purposes. Components of the Fund's deferred tax assets and liabilities as of May 31, 2011, are as follows:

Deferred tax assets:		
Net operating loss carryforward	\$	5,994,995
Capital loss carryforward		27,182,951
Total deferred tax assets		33,177,946
Less Deferred tax liabilities:		
Unrealized gain on investment securities		21,508,843
Net deferred tax asset before valuation allowance		11,669,103
Valuation allowance		(11,669,103)
Net deferred tax asset	\$	

The net operating loss carryforward and capital loss carryforward are available to offset future taxable income. The Fund has the following net operating loss and capital loss amounts:

Fiscal Year Ended Net Operating Loss	Amount	Expiration
November 30, 2007	\$	NA
November 30, 2008	5,736,436	November 30, 2028
November 30, 2009	2,225,868	November 30, 2029
November 30, 2010		NA
Total Fiscal Year Ended Net Operating Loss	\$ 7,962,304	
 <u>Fiscal Year Ended Capital Loss</u>		
November 30, 2007	\$	NA
November 30, 2008	62,485,409	November 30, 2013
November 30, 2009	50,363,661	November 30, 2014
November 30, 2010		NA
Total Fiscal Year Ended Capital Loss	\$ 112,849,070	

For corporations, capital losses can only be used to offset capital gains and cannot be used to offset ordinary income. As such, for the fiscal year ended November 30, 2010, the Fund used capital loss carryforwards of \$699,000 from the fiscal year ended November 30, 2007 and \$1,653,000 from the fiscal year ended November 30, 2008 to offset its capital gains. The capital loss may be carried forward for 5 years and, accordingly, would begin to expire as of

Table of Contents

November 30, 2013. The net operating loss can be carried forward for 20 years and, accordingly, would begin to expire as of November 30, 2027.

The Fund has recorded a valuation allowance for the full amount of the deferred tax asset as the Fund believes it is more likely than not that the asset will not be utilized.

Total income tax benefit (current and deferred) differs from the amount computed by applying the federal statutory income tax rate of 35% to net investment income and realized and unrealized gains (losses) on investments before taxes for the period ended May 31, 2011, as follows:

Application of statutory income tax rate	\$	7,139,000
Change in state tax rate used to determine deferred tax		76,000
Change in valuation allowance		(7,215,000)
 Total tax expense	 \$	

The decrease in the valuation allowance was due to a decrease in the net deferred tax asset of \$7,215,000 during the period ended May 31, 2011. All federal and state tax amounts above are deferred balances and there were no current balances for federal or state taxes in the current year.

At May 31, 2011, the cost basis of investments was \$316,864,813 and gross unrealized appreciation and depreciation of investments for federal income tax purposes were as follows:

Gross unrealized appreciation	\$	70,331,098
Gross unrealized depreciation		(8,093,093)
 Net unrealized appreciation	 \$	 62,238,005

The Fund recognizes the tax benefits of uncertain tax positions only where the position is more likely than not to be sustained assuming examination by tax authorities. Management has analyzed the Fund's tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on U.S. tax returns and state tax returns filed since inception of the Fund. No income tax returns are currently under examination. All tax years since commencement of operations remain subject to examination by the tax authorities in the United States. Due to the nature of the Fund's investments, the Fund may be required to file income tax returns in several states. The Fund is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially in the next 12 months.

Table of Contents**6. Fair Value Measurements**

Various inputs that are used in determining the fair value of the Fund's investments are summarized in the three broad levels listed below:

Level 1 quoted prices in active markets for identical securities

Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

These inputs are summarized in the three broad levels listed below.

Table of Contents**7. Investment Transactions**

For the period ended May 31, 2011, the Fund purchased (at cost) and sold securities (proceeds) in the amount of \$478,624,184 and \$396,005,013 (excluding short-term securities), respectively and made purchases to cover investments sold short and received proceeds from investments sold short in the amount of \$89,980,449 and \$106,813,290, respectively. The Fund purchased (at cost) and sold options (proceeds) in the amount of \$5,521,819 and \$4,469,269, respectively. The Fund sold written options (proceeds) in the amount of \$1,002,624.

8. Common Stock

The Fund has unlimited shares of capital stock authorized and 32,926,108 shares outstanding at May 31, 2011. Transactions in common stock for the fiscal year ended November 30, 2010 and the period ended May 31, 2011 were as follows:

Shares at November 30, 2009	11,247,598
Shares sold through additional offerings	14,475,000
Shares issued through reinvestment of distributions	191,812
Shares at November 30, 2010	25,914,410
Shares sold through additional offerings	6,900,000
Shares issued through reinvestment of distributions	111,698
Shares at May 31, 2011	32,926,108

9. Borrowing Facilities

The Fund maintains a margin account arrangement with Credit Suisse. The interest rate charged on margin borrowing is tied to the cost of funds for Credit Suisse (which approximates LIBOR plus 0.30%). Proceeds from the margin account arrangement are used to execute the Fund's investment objective.

The average principal balance and interest rate for the period during which the credit facilities were utilized during the period ended May 31, 2011 was approximately \$91,564,000 and 0.68%, respectively. At May 31, 2011, the principal balance outstanding was \$105,800,000 and accrued interest expense was \$13,821.

10. Subsequent Events

On June 13, 2011, the Fund issued 62,546 shares through its dividend reinvestment plan. After these share issuances, the Fund's total common shares outstanding were 32,988,654.

Form N-Q

The Fund files its complete schedule of portfolio holdings for the first and third quarters of each fiscal year with the SEC on Form N-Q. The Fund's Form N-Q and statement of additional information are available without charge by visiting the SEC's Web site at www.sec.gov. In addition, you may review and copy the Fund's Form N-Q at the SEC's Public Reference Room in Washington D.C. You may obtain information on the operation of the Public Reference Room by calling (800) SEC-0330.

Certifications

The Fund's Chief Executive Officer has submitted to the New York Stock Exchange the annual CEO certification as required by Section 303A.12(a) of the NYSE Listed Fund Manual.

The Fund has filed with the SEC the certification of its Chief Executive Officer and Chief Financial Officer required by Section 302 of the Sarbanes-Oxley Act.

Dividend Reinvestment Plan

How the Plan Works

Unless the registered owner of common shares elects to receive cash by contacting the Plan Agent, all dividends declared for your common shares of the Fund will be automatically reinvested by Computershare Trust Company, N.A. and/or Computershare Inc. (together, the Plan Agent), agent for shareholders in administering the Fund's Dividend Reinvestment Plan (the Plan), in additional common shares of the Fund. The Plan Agent will open an account for each common shareholder under the Plan in the same name in which such common shareholder's common shares are registered. Whenever the Fund declares a dividend or other distribution (for purposes of this section, together, a dividend) payable in cash, non-participants in the Plan will receive cash and participants in the Plan will receive the equivalent in common shares. The common shares will be acquired by the Plan Agent for the participants accounts, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized common shares from the Fund (newly-issued common shares) or (ii) by purchase of outstanding common shares on the open market (open-market purchases) on the New York Stock Exchange or elsewhere.

If, on the payment date for any dividend, the market price per common share plus per share fees (which include any brokerage commissions the Plan Agent

Table of Contents

is required to pay) is greater than the net asset value per common share, the Plan Agent will invest the dividend amount in newly-issued common shares, including fractions, on behalf of the participants. The number of newly-issued common shares to be credited to each participant's account will be determined by dividing the dollar amount of the dividend by the net asset value per common share on the payment date; provided that, if the net asset value per common share is less than 95% of the market price per common share on the payment date, the dollar amount of the dividend will be divided by 95% of the market price per common share on the payment date. If, on the payment date for any dividend, the net asset value per common share is greater than the market value per common share plus per share fees, the Plan Agent will invest the dividend amount in common shares acquired on behalf of the participants in open-market purchases.

Participation in the Plan

If a registered owner of common shares elects not to participate in the Plan, you will receive all dividends in cash paid by check mailed directly to you (or, if the shares are held in street or other nominee name, then to such nominee) by the Plan Agent, as dividend disbursing agent. You may elect not to participate in the Plan and to receive all dividends in cash by sending written or telephonic instructions to the Plan Agent, as dividend paying agent, or by contacting the Plan Agent via their website at the address set out below. Participation in the Plan is completely voluntary and may be terminated or resumed at any time without penalty by contacting the Plan Agent before the dividend record date; otherwise such termination or resumption will be effective with respect to any subsequently declared dividend or other distribution.

Plan Fees

There will be no per share fees with respect to common shares issued directly by the Fund. However, each participant will pay a per share fee (currently \$0.03) incurred in connection with open-market purchases. There is no direct transaction fee to participants in the Plan; however, the Fund reserves the right to amend the Plan to include a transaction fee payable by the participants. Participants who request a sale of shares through the Plan Agent are subject to a \$15.00 sales transaction fee and pay a per share fee of \$0.12 per share sold. All per share fees include any brokerage commissions the Plan Agent is required to pay.

Tax Implications

The automatic reinvestment of dividends will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such dividends. Accordingly, any taxable dividend received by a participant that is reinvested in additional common shares will be subject to federal (and possibly state and local) income tax even though such participant will not receive a corresponding amount of cash with which to pay such taxes.

Contact Information

For more information about the plan you may contact the Plan Agent in writing at PO Box 43078, Providence, RI 02940-3078, by calling the Plan Agent at 1-800-662-7232 or at the Plan Agent's website, www.computershare.com/investor.

Privacy Policy

In order to conduct its business, the Fund collects and maintains certain nonpublic personal information about its stockholders of record with respect to their transactions in shares of the Fund's securities.

This information includes the stockholder's address, tax identification or Social Security number, share balances, and dividend elections. We do not collect or maintain personal information about stockholders whose share balances of our securities are held in street name by a financial institution such as a bank or broker.

We do not disclose any nonpublic personal information about you, the Fund's other stockholders or the Fund's former stockholders to third parties unless necessary to process a transaction, service an account, or as otherwise permitted by law.

To protect your personal information internally, we restrict access to nonpublic personal information about the Fund's stockholders to those employees who need to know that information to provide services to our stockholders. We also maintain certain other safeguards to protect your nonpublic personal information.
