### Item 5. DISCLOSURE OF RESULTS OF OPERATIONS AND FINANCIAL CONDITION

On April 21, 2003, the registrant issued a news release announcing its first quarter 2003 results. A copy of that news release and some supplemental financial information is filed herewith as Exhibit 99.1 and is incorporated herein by reference.

The news release filed herewith contains information regarding the registrant s operating income. Operating income differs from net income, the most directly comparable generally accepted accounting principle financial measure, only by the exclusion of realized gains and losses on investments. Management believes that presentation of operating income provides useful information to investors because it more accurately measures and predicts the registrant s results of operations by removing the variability arising from the management of the registrant s investment portfolio. In addition, management, analysts and investors use operating income to evaluate the financial performance of the registrant and the insurance industry in general.
