NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

MARCH 31, 2001

(UNAUDITED)

(1) References throughout this document to the Company include Beverly Enterprises, Inc. and its wholly owned subsidiaries. In accordance with the

Edgar Filing: BEVERLY ENTERPRISES INC - Form 10-Q

Securities and Exchange Commission's "Plain English" guidelines, this Quarterly Report on Form 10-Q has been written in the first person. In this document, the words "we", "our", "ours" and "us" refer only to Beverly Enterprises, Inc. and its wholly owned subsidiaries and not to any other person.

We have prepared the condensed consolidated financial statements, without audit. In management's opinion, they include all normal recurring adjustments necessary for a fair presentation of the results of operations for the three months ended March 31, 2001 and 2000 in accordance with the rules and regulations of the Securities and Exchange Commission. Although certain information and footnote disclosures required by generally accepted accounting principles have been condensed or omitted, we believe that the disclosures in these condensed consolidated financial statements are adequate to make the information presented not misleading. These condensed consolidated financial statements should be read along with our 2000 Annual Report on Form 10-K filed with the Securities and Exchange Commission. Our results of operations for the three months ended March 31, 2001 are not necessarily indicative of the results for a full year.

Generally accepted accounting principles require management to make estimates and assumptions when preparing financial statements that affect:

- the reported amounts of assets and liabilities at the date of the financial statements; and
- the reported amounts of revenues and expenses during the reporting period.

They also require management to make estimates and assumptions regarding any contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Approximately 77% and 74% of our net operating revenues for the three months ended March 31, 2001 and 2000, respectively, were derived from funds under federal and state medical assistance programs. We accrue for revenues when services are provided at standard charges. These charges are adjusted to amounts that we estimate to receive under governmental programs and other third-party contractual arrangements based on contractual terms and historical experience. These revenues are reported at their estimated net realizable amounts and are subject to audit and retroactive adjustment.

Retroactive adjustments are considered in the recognition of revenues on an estimated basis in the period the related services are rendered. Such amounts are adjusted in future periods as adjustments become known or as cost reporting years are no longer subject to audits, reviews or investigations. Due to the complexity of the laws and regulations governing the Medicare and Medicaid programs, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term.

8

BEVERLY ENTERPRISES, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

MARCH 31, 2001

(UNAUDITED)

(2) The provision for (benefit from) income taxes for the three months ended March 31, 2001 and 2000 were based on estimated annual effective tax rates of 45% and 38%, respectively. Our estimated annual effective tax rates for 2001 and 2000 were different than the federal statutory rate primarily due to the impact of state income taxes, amortization of nondeductible goodwill and the benefit of certain tax credits. Our estimated annual effective tax rate increased to 45% in 2001 primarily due to the pre-tax charge for asset impairments, workforce reductions and other unusual items of approximately \$107,700,000, which reduced our pre-tax income to a level where the impact of permanent tax differences and state income taxes had a significant impact on the effective tax rate. Our net deferred tax assets at March 31, 2001 are expected to be realized through the reversal of temporary taxable differences, future taxable income and the implementation of tax planning strategies, as needed. Therefore, we do not believe that a deferred tax valuation allowance is necessary at March 31, 2001. The provision for (benefit from) income taxes consists of the following for the three months ended March 31 (in thousands):

	2001 -----	2000 -----
Federal:		
Current	\$ 311	\$ 88
Deferred	(42,603)	2,949
State:		
Current	953	182
Deferred	(1,432)	618
	-----	-----
	\$ (42,771)	\$ 3,837
	=====	=====

(3) During the three months ended March 31, 2001, we acquired a parcel of land and certain other assets for cash of approximately \$62,000 and closing and other costs of approximately \$65,000. The acquisitions of such assets were accounted for as purchases. Also during such period, we sold, closed or terminated the leases on nine nursing facilities (815 beds) and one outpatient therapy clinic for cash proceeds of approximately \$7,000,000 and a note receivable of approximately \$300,000. We did not operate two of the nursing facilities (234 beds) which had been leased to another nursing home operator. We recognized net pre-tax gains, which were included in net operating revenues during the first quarter of 2001, of approximately \$1,100,000 as a result of these dispositions. The operations of these facilities and certain other assets were immaterial to our consolidated financial position and results of operations.

During the three months ended March 31, 2001, we restructured the lease agreement related to 10 nursing facilities in the state of Indiana. In addition,

Edgar Filing: BEVERLY ENTERPRISES INC - Form 10-Q

we terminated the lease on one nursing facility (223 beds) leased from the same landlord. We recorded a pre-tax charge of approximately \$3,300,000 related to the termination of this lease, including the write-off of the net book value of this property.

(4) During the first quarter of 2001, a formal plan was initiated by management to pursue the sale of our nursing home operations in Florida. Such decision was made due to the excessive patient care liability costs that we have been incurring in recent periods in the state of Florida. Accordingly, the property and equipment, identifiable intangibles and operating supplies of our Florida nursing home operations at March 31, 2001 were considered assets to be disposed of, as that term is defined in Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS No. 121"). Management estimated the fair value less selling costs of such assets based upon verbal and non-binding purchase prices from potential buyers and determined that an impairment write-down was necessary as of March 31, 2001. The pre-tax charge related to this write-down was approximately \$68,900,000. In addition, we recorded a pre-tax charge of approximately \$17,200,000 for certain costs to exit the Florida facilities (as defined below). These costs relate to severance agreements, termination payments on certain contracts and various other items. Such pre-tax charges have been included in the condensed consolidated statement of operations caption "Asset impairments, workforce reductions and other unusual items." At March 31, 2001, the assets held for sale totaled approximately \$122,100,000 and are classified as current assets in the condensed consolidated balance sheet, as we expect to close a transaction on the Florida facilities in 2001.

7

9

BEVERLY ENTERPRISES, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

MARCH 31, 2001

(UNAUDITED)

Our Florida nursing home operations include 49 nursing facilities (6,129 beds) and four assisted living centers (315 units) (the "Florida facilities") currently being marketed as a group, as well as one additional nursing facility (56 beds) and certain other assets which we plan to sell in separate transactions. All of these assets are included in the total assets of our nursing facilities segment (see Note 7). We are currently negotiating with a potential purchaser of all of the Florida facilities. Other potential purchasers have expressed an interest in purchasing all or portions of the Florida facilities.

During the three months ended March 31, 2001, our Florida nursing home operations recorded a pre-tax loss of approximately \$1,100,000. Included in this pre-tax loss was depreciation and amortization expense of approximately \$2,600,000. In accordance with SFAS No. 121, depreciation and amortization expense will be excluded from our consolidated statement of operations during the period these assets are held for sale, as these assets are now recorded at their estimated net realizable value.

(5) In January 2001, we filed a registration statement under Form S-8 with the Securities and Exchange Commission registering 1,174,500 shares of our Common Stock. These shares were previously repurchased by the Company and held in treasury. Such shares are expected to be issued under the Beverly Enterprises, Inc. Stock Grant Plan (the "Stock Grant Plan"). Shares of Common

Edgar Filing: BEVERLY ENTERPRISES INC - Form 10-Q

Stock will be issued under the Stock Grant Plan to holders of restricted shares who, by virtue of the terms of their employment contracts, severance agreements or other similar arrangements, have a claim to the immediate vesting of their restricted stock. In conjunction with the reorganization in the first quarter of 2001 (as discussed in Note 7), 545,542 shares of Common Stock under the Stock Grant Plan were issued to various officers who made such claims, and the shares of restricted stock held by such officers were cancelled. During the first quarter of 2001, we incurred a pre-tax charge of approximately \$3,700,000 related to the issuance of shares under the Stock Grant Plan, which was included in the workforce reductions and other reorganization costs (as discussed in Note 7).

During April 2001, we completed the restructuring of our \$375,000,000 credit facility, which was scheduled to mature on December 31, 2001. We entered into a new \$150,000,000 revolving credit facility (the "Credit Facility") and issued \$200,000,000 of 9 5/8% senior notes due 2009 (the "Senior Notes") through a private placement. The Senior Notes are unsecured obligations, guaranteed by substantially all of our present and future subsidiaries (the "Subsidiary Guarantors") and impose on us certain restrictive covenants. The net proceeds from issuance of the Senior Notes were used to repay borrowings under the \$375,000,000 credit facility and for general corporate purposes.

The Credit Facility provides for a Revolver/Letter of Credit Facility. Borrowings under the Credit Facility will bear interest according to a pricing schedule based on our financial leverage and will bear an initial interest rate of adjusted LIBOR plus 2.875%, the Base Rate, as defined, plus 1.875% or the adjusted CD rate, as defined, plus 3%, at our option. Such interest rates may be adjusted quarterly based on certain financial ratio calculations. The Credit Facility is secured by mortgages on certain nursing facilities, is guaranteed by the Subsidiary Guarantors and imposes on us certain financial tests and restrictive covenants.

(6) There are various lawsuits and regulatory actions pending against the Company arising in the normal course of business, some of which seek punitive damages that are generally not covered by insurance. We do not believe that the ultimate resolution of such matters will have a material adverse effect on our consolidated financial position or results of operations. (See "Part II, Item 1. Legal Proceedings").

(7) Statement of Financial Accounting Standards No. 131, "Disclosures about Segments of an Enterprise and Related Information" provides disclosure guidelines for segments of a company based on a management approach to defining operating segments.

8

10

BEVERLY ENTERPRISES, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

MARCH 31, 2001

(UNAUDITED)

In January 2001, we implemented a new three-year strategic plan aimed at accomplishing four fundamental strategies:

- streamline our nursing home portfolio to strengthen our long-term financial position;

Edgar Filing: BEVERLY ENTERPRISES INC - Form 10-Q

- accelerate the growth of our service and knowledge business;
- establish a leadership position in eldercare; and
- reengineer our organization in order to focus our resources on profitable growth and new opportunities.

In order to support the implementation of these strategies, in the first quarter of 2001, we reorganized our business into three primary operating segments:

- nursing facilities, which provide long-term healthcare through the operation of nursing homes and assisted living centers;
- innovation and services group, which include rehabilitation therapy, hospice, home care and a business strategy and development division; and
- Matrix/Theraphysics, which operate outpatient therapy clinics and a managed care network.

As a result of this reorganization, we recorded a pre-tax charge of approximately \$18,300,000 during the first quarter of 2001. Approximately \$17,400,000 related to severance and other employment agreements for 108 associates. Approximately \$14,300,000 was paid during the first quarter of 2001, with the remainder expected to be paid throughout 2001. Included in the pre-tax charge were non-cash expenses of approximately \$3,700,000 related to the issuance of shares under the Stock Grant Plan and \$600,000 related to other long-term incentive agreements. During the fourth quarter of 2000, we incurred a pre-tax charge of approximately \$3,500,000 primarily due to severance agreements associated with four executives who were notified prior to December 31, 2000 of the Company's intent to terminate their employment in conjunction with this reorganization. Substantially all of this amount was paid during the first quarter of 2001.

BEVERLY ENTERPRISES, INC.

MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

MARCH 31, 2001

(UNAUDITED)

GENERAL

FORWARD LOOKING STATEMENTS

This Quarterly Report on Form 10-Q, and other information we provide from time to time, contains certain "forward-looking" statements as that term is defined by the Private Securities Litigation Reform Act of 1995. All statements regarding our expected future financial position, results of operations or cash flows, our continued performance improvements, our ability to service and refinance our debt obligations, our ability to finance growth opportunities, our ability to control our patient care liability costs, our ability to respond to changes in government regulations, our ability to execute our three-year strategic plan, our ability to execute a transaction with respect to our Florida nursing operations and similar statements including, without limitation, those containing words such as "believes," "anticipates," "expects," "intends," "estimates," "plans," and other similar expressions are forward-looking statements.

Forward-looking statements involve known and unknown risks and uncertainties that may cause our actual results in future periods to differ materially from those projected or contemplated in the forward-looking statements as a result of, but not limited to, the following factors:

- national and local economic conditions, including their effect on the availability and cost of labor, utilities and materials;

Edgar Filing: BEVERLY ENTERPRISES INC - Form 10-Q

- the effect of government regulations and changes in regulations governing the healthcare industry, including our compliance with such regulations;
- changes in Medicare and Medicaid payment levels and methodologies and the application of such methodologies by the government and its fiscal intermediaries;
- liabilities and other claims asserted against the Company, including patient care liabilities, as well as the resolution of the Class Action and Derivative Lawsuits (see "Part II, Item 1. Legal Proceedings");
- our ability to attract and retain qualified personnel;
- the availability and terms of capital to fund acquisitions and capital improvements;
- the competitive environment in which we operate;
- our ability to maintain and increase census levels; and
- demographic changes.

Investors should also refer to Item 1. Business in our 2000 Annual Report on Form 10-K for a discussion of various governmental regulations and other operating factors relating to the healthcare industry and the risks inherent in them. Given these risks and uncertainties, we can give no assurances that any forward-looking statements will, in fact, transpire and, therefore, caution investors not to place undue reliance on them.

OPERATING RESULTS

FIRST QUARTER 2001 COMPARED TO FIRST QUARTER 2000

RESULTS OF OPERATIONS

We reported a net loss for the first quarter of 2001 of \$52,274,000, compared to net income of \$6,261,000 for the same period in 2000. Net loss for 2001 included pre-tax charges totaling approximately \$107,700,000, including \$68,900,000 for asset impairments, \$18,300,000 for workforce reductions and other reorganization costs and \$20,500,000 for Florida exit costs and other unusual items.

BEVERLY ENTERPRISES, INC.

MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)

MARCH 31, 2001

(UNAUDITED)

During the first quarter of 2001, a formal plan was initiated by management to pursue the sale of our nursing home operations in Florida. Such decision was made due to the excessive patient care liability costs that we have been incurring in recent periods in the state of Florida. Accordingly, the property and equipment, identifiable intangibles and operating supplies of our Florida nursing home operations at March 31, 2001 were considered assets to be disposed

Edgar Filing: BEVERLY ENTERPRISES INC - Form 10-Q

of, as that term is defined in Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS No. 121"). Management estimated the fair value less selling costs of such assets based upon verbal and non-binding purchase prices from potential buyers and determined that an impairment write-down was necessary as of March 31, 2001. The pre-tax charge related to this write-down was approximately \$68,900,000. In addition, we recorded a pre-tax charge of approximately \$17,200,000 for certain costs to exit the Florida facilities (as defined below). These costs relate to severance agreements, termination payments on certain contracts and various other items. Such pre-tax charges have been included in the condensed consolidated statement of operations caption "Asset impairments, workforce reductions and other unusual items." At March 31, 2001, the assets held for sale totaled approximately \$122,100,000 and are classified as current assets in the condensed consolidated balance sheet, as we expect to close a transaction on the Florida facilities in 2001.

Our Florida nursing home operations include 49 nursing facilities (6,129 beds) and four assisted living centers (315 units) (the "Florida facilities") currently being marketed as a group, as well as one additional nursing facility (56 beds) and certain other assets which we plan to sell in separate transactions. All of these assets are included in the total assets of our nursing facilities segment. We are currently negotiating with a potential purchaser of all of the Florida facilities. Other potential purchasers have expressed an interest in purchasing all or portions of the Florida facilities.

During the three months ended March 31, 2001, our Florida nursing home operations recorded a pre-tax loss of approximately \$1,100,000. Included in this pre-tax loss was depreciation and amortization expense of approximately \$2,600,000. In accordance with SFAS No. 121, depreciation and amortization expense will be excluded from our consolidated statement of operations during the period these assets are held for sale, as these assets are now recorded at their estimated net realizable value.

In January 2001, we implemented a new three-year strategic plan aimed at accomplishing four fundamental strategies:

- streamline our nursing home portfolio to strengthen our long-term financial position;
- accelerate the growth of our service and knowledge business;
- establish a leadership position in eldercare; and
- reengineer our organization in order to focus our resources on profitable growth and new opportunities.

In order to support the implementation of these strategies, in the first quarter of 2001, we reorganized our business into three primary operating segments:

- nursing facilities, which provide long-term healthcare through the operation of nursing homes and assisted living centers;
- service companies, which include rehabilitation therapy, hospice, home care and a research and development division; and
- Matrix/Theraphysics, which operate outpatient therapy clinics and a managed care network.

Edgar Filing: BEVERLY ENTERPRISES INC - Form 10-Q

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)

MARCH 31, 2001

(UNAUDITED)

As a result of this reorganization, we recorded a pre-tax charge of approximately \$18,300,000 during the first quarter of 2001. Approximately \$17,400,000 related to severance and other employment agreements for 108 associates. Approximately \$14,300,000 was paid during the first quarter of 2001, with the remainder expected to be paid throughout 2001. Included in the pre-tax charge were non-cash expenses of approximately \$3,700,000 related to the issuance of shares under the Stock Grant Plan and \$600,000 related to other long-term incentive agreements. During the fourth quarter of 2000, we incurred a pre-tax charge of approximately \$3,500,000 primarily due to severance agreements associated with four executives who were notified prior to December 31, 2000 of the Company's intent to terminate their employment in conjunction with this reorganization. Substantially all of this amount was paid during the first quarter of 2001.

Also during the first quarter of 2001, we restructured the lease agreement related to 10 nursing facilities in the state of Indiana. In addition, we terminated the lease on one nursing facility (223 beds) leased from the same landlord. We recorded a pre-tax charge of approximately \$3,300,000 related to the termination of this lease, including the write-off of the net book value of this property.

INCOME TAXES

We had estimated annual effective tax rates of 45% and 38% for the quarters ended March 31, 2001 and 2000, respectively. Our estimated annual effective tax rates for 2001 and 2000 were different than the federal statutory rate primarily due to the impact of state income taxes, amortization of nondeductible goodwill and the benefit of certain tax credits. Our estimated annual effective tax rate increased to 45% in 2001 primarily due to the pre-tax charge for asset impairments, workforce reductions and other unusual items of approximately \$107,700,000, which reduced our pre-tax income to a level where the impact of permanent tax differences and state income taxes had a significant impact on the effective tax rate. Our net deferred tax assets at March 31, 2001 are expected to be realized through the reversal of temporary taxable differences, future taxable income and the implementation of tax planning strategies, as needed. Therefore, we do not believe that a deferred tax valuation allowance is necessary at March 31, 2001.

NET OPERATING REVENUES

We reported net operating revenues of \$659,468,000 during the first quarter of 2001 compared to \$646,102,000 for the same period in 2000. Approximately 92% of our total net operating revenues for the quarters ended March 31, 2001 and 2000 were derived from services provided by our nursing facilities segment. The increase in net operating revenues of approximately \$13,400,000 for the first quarter of 2001, as compared to the same period in 2000, consists of the following:

- an increase of \$36,200,000 due to facilities which we operated during each of the quarters ended March 31, 2001 and 2000 ("same facility operations");
- an increase of \$10,200,000 due to acquisitions and openings of

Edgar Filing: BEVERLY ENTERPRISES INC - Form 10-Q

newly-constructed facilities; and

- a decrease of \$33,000,000 due to dispositions.

The increase in net operating revenues of \$36,200,000 from same facility operations for the first quarter of 2001, as compared to the same period in 2000, was primarily due to an increase in Medicaid, Medicare and private rates totaling \$44,900,000.

Such increase was partially offset by decreases of:

- \$5,900,000 due to one less calendar day during the first quarter of 2001, as compared to the same period in 2000;
- \$5,400,000 due to a decline in same facility occupancy to 87.2% for the first quarter of 2001, as compared to 87.4% for the same period in 2000; and
- \$1,800,000 due to a shift in our patient mix.

13

15

BEVERLY ENTERPRISES, INC.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)

MARCH 31, 2001

(UNAUDITED)

Our Medicare, private and Medicaid census for same facility operations was 10%, 18% and 71%, respectively, for the first quarter of 2001, as compared to 10%, 19% and 70%, respectively, for the same period in 2000.

Acquisitions and openings of newly-constructed facilities which occurred during the three months ended March 31, 2001 and the year ended December 31, 2000 caused our net operating revenues to increase \$10,200,000 for the first quarter of 2001, as compared to the same period in 2000. During the three months ended March 31, 2001, we acquired a parcel of land and certain other assets. During 2000, we acquired seven nursing facilities (1,210 beds), one previously leased nursing facility (105 beds) and certain other assets. In addition, we opened four newly-constructed nursing facilities (418 beds) during 2000. The acquisitions of the facilities and other assets were accounted for as purchases. The operations of the acquired facilities and other assets, as well as the newly-constructed facilities, were immaterial to our consolidated financial position and results of operations.

Dispositions that occurred during the three months ended March 31, 2001 and the year ended December 31, 2000 caused our net operating revenues to decrease \$33,000,000 for the first quarter of 2001, as compared to the same period in 2000. During the three months ended March 31, 2001, we sold, closed or terminated the leases on 10 nursing facilities (1,038 beds) and one outpatient therapy clinic. We recognized net pre-tax gains, which were included in net operating revenues during the three months ended March 31, 2001, of approximately \$1,100,000 as a result of these dispositions.

During 2000, we sold, closed or terminated the leases on 39 nursing facilities (4,263 beds) and certain other assets. We recognized net pre-tax gains, which were included in net operating revenues during the year ended December 31, 2000, of approximately \$2,000,000 as a result of these

Edgar Filing: BEVERLY ENTERPRISES INC - Form 10-Q

dispositions. The operations of the disposed facilities and other assets were immaterial to our consolidated financial position and results of operations.

OPERATING AND ADMINISTRATIVE EXPENSES

We reported operating and administrative expenses of \$603,637,000 during the first quarter of 2001 compared to \$591,875,000 for the same period in 2000. The increase of approximately \$11,800,000 consists of the following:

- an increase of \$29,400,000 due to same facility operations;
- an increase of \$11,500,000 due to acquisitions and openings of newly-constructed facilities; and
- a decrease of \$29,100,000 due to dispositions.

The increase in operating and administrative expenses of \$29,400,000 from same facility operations for the first quarter of 2001, as compared to the same period in 2000, was due primarily to the following:

- \$20,400,000 of additional wages and related expenses primarily due to an increase in our weighted average wage rate;
- \$6,600,000 due to an increase in our provision for insurance and related items; and
- \$1,900,000 due to an increase in other contracted services.

14

16

BEVERLY ENTERPRISES, INC.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)

MARCH 31, 2001

(UNAUDITED)

INTEREST EXPENSE, NET

Interest income decreased to \$387,000 for the first quarter of 2001, as compared to \$825,000 for the same period in 2000 primarily due to the payoff of various notes receivable. Interest expense decreased to \$19,110,000 for the first quarter of 2001, as compared to \$19,618,000 for the same period in 2000 primarily due to the paydown of the A.I. Credit Corp. note in January 2001, as well as various other debt paydowns.

DEPRECIATION AND AMORTIZATION

Depreciation and amortization expense decreased to \$24,464,000 for the first quarter of 2001, as compared to \$25,336,000 for the same period in 2000, primarily due to dispositions of, or lease terminations on, certain facilities.

LIQUIDITY AND CAPITAL RESOURCES

At March 31, 2001, we had approximately \$25,900,000 in cash and cash equivalents, approximately \$254,500,000 of net working capital and approximately \$160,200,000 of unused commitments under our \$375,000,000 credit facility.

Net cash provided by operating activities for the first quarter of 2001 was

Edgar Filing: BEVERLY ENTERPRISES INC - Form 10-Q

approximately \$29,600,000. This amount was up approximately \$65,800,000 from the first quarter of 2000 primarily due to the following:

- the \$25,000,000 civil and \$5,000,000 criminal settlement payments made during the first quarter of 2000, which negatively impacted the first quarter of 2000 operating cash flows;
- proceeds received during the first quarter of 2001 of \$28,900,000 related to a refund of certain workers compensation premiums and a settlement on certain insurance policies; and
- a reduction in patient accounts receivable during the first quarter of 2001 compared to the first quarter of 2000.

Net cash used for investing and financing activities were approximately \$9,200,000 and \$20,400,000, respectively, for the first quarter of 2001. We received net cash proceeds of approximately \$4,400,000 from the dispositions of facilities and other assets. Such net cash proceeds, along with net borrowings under our \$375,000,000 credit facility of approximately \$18,000,000, cash generated from operations and cash on hand, were used to repay approximately \$39,200,000 of long-term debt and to fund capital expenditures totaling approximately \$13,900,000.

In January 2001, we filed a registration statement under Form S-8 with the Securities and Exchange Commission registering 1,174,500 shares of our Common Stock. These shares were previously repurchased by the Company and held in treasury. Such shares are expected to be issued under the Beverly Enterprises, Inc. Stock Grant Plan (the "Stock Grant Plan"). Shares of Common Stock will be issued under the Stock Grant Plan to holders of restricted shares who, by virtue of the terms of their employment contracts, severance agreements or other similar arrangements, have a claim to the immediate vesting of their restricted stock. In conjunction with the reorganization in the first quarter of 2001 (as discussed above), 545,542 shares of Common Stock under the Stock Grant Plan were issued to various officers who made such claims, and the shares of restricted stock held by such officers were cancelled. We incurred a pre-tax charge of approximately \$3,700,000 related to the issuance of shares under the Stock Grant Plan, which was included in the workforce reductions and other reorganization costs (as discussed above).

15

BEVERLY ENTERPRISES, INC.

MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)

MARCH 31, 2001

(UNAUDITED)

At March 31, 2001, we leased 11 nursing facilities (6 of which are in Florida), one assisted living center and our corporate headquarters under an off-balance sheet financing arrangement subject to operating leases with the creditor. We have the option to purchase the facilities at the end of the initial lease terms at fair market value. Such financing arrangement was entered into for the construction of these facilities and had an original commitment of \$125,000,000. In April 2000, the agreement covering this financing arrangement was amended whereby availability under the original commitment was reduced to \$113,500,000, which equaled the total construction advances made as of the date of the amended agreement.

Edgar Filing: BEVERLY ENTERPRISES INC - Form 10-Q

During April 2001, we completed the restructuring of our \$375,000,000 credit facility, which was scheduled to mature on December 31, 2001. We entered into a new \$150,000,000 revolving credit facility (the "Credit Facility") and issued \$200,000,000 of 9 5/8% senior notes due 2009 (the "Senior Notes") through a private placement. The Senior Notes are unsecured obligations, guaranteed by substantially all of our present and future subsidiaries (the "Subsidiary Guarantors") and impose on us certain restrictive covenants. The net proceeds from issuance of the Senior Notes were used to repay borrowings under the \$375,000,000 credit facility and for general corporate purposes.

The Credit Facility provides for a Revolver/Letter of Credit Facility. Borrowings under the Credit Facility will bear interest according to a pricing schedule based on our financial leverage and will bear an initial interest rate of adjusted LIBOR plus 2.875%, the Base Rate, as defined, plus 1.875% or the adjusted CD rate, as defined, plus 3%, at our option. Such interest rates may be adjusted quarterly based on certain financial ratio calculations. The Credit Facility is secured by mortgages on certain nursing facilities, is guaranteed by the Subsidiary Guarantors and imposes on us certain financial tests and restrictive covenants.

We currently anticipate that cash flows from operations and borrowings under our banking arrangements will be adequate to repay our debts due within one year of approximately \$62,600,000, to make normal recurring capital additions and improvements of approximately \$77,000,000, to make selective acquisitions, including the purchase of previously leased facilities, to construct new facilities, and to meet working capital requirements for the twelve months ending March 31, 2002. If cash flows from operations or availability under our existing banking arrangements fall below expectations, we may be required to delay capital expenditures, dispose of certain assets, issue additional debt securities, or consider other alternatives to improve liquidity.

16

18

PART II

BEVERLY ENTERPRISES, INC.

OTHER INFORMATION

MARCH 31, 2001

(UNAUDITED)

ITEM 1. LEGAL PROCEEDINGS

On February 3, 2000, we entered into a series of agreements with the U.S. Department of Justice and the Office of Inspector General (the "OIG") of the Department of Health and Human Services. These agreements settled the federal government's investigations of the Company relating to our allocation to the Medicare program of certain nursing labor costs in our skilled nursing facilities from 1990 to 1998 (the "Allocation Investigations").

The agreements consist of:

- a Plea Agreement;
- a Civil Settlement Agreement;
- a Corporate Integrity Agreement; and
- an agreement concerning the disposition of 10 nursing facilities.

Edgar Filing: BEVERLY ENTERPRISES INC - Form 10-Q

Under the Plea Agreement, one of our subsidiaries pled guilty to one count of mail fraud and 10 counts of making false statements to Medicare and paid a criminal fine of \$5,000,000 during the first quarter of 2000.

Under the Civil Settlement Agreement, we paid the federal government \$25,000,000 during the first quarter of 2000 and are reimbursing the federal government an additional \$145,000,000 through withholdings from our biweekly Medicare periodic interim payments in equal installments through the first quarter of 2008. In addition, we agreed to resubmit certain Medicare filings to reflect reduced labor costs allocated to the Medicare program.

Under the Corporate Integrity Agreement, we are required to monitor, on an ongoing basis, our compliance with the requirements of the federal healthcare programs. This agreement addresses our obligations to ensure that we comply with the requirements for participation in the federal healthcare programs. It also includes our functional and training obligations, audit and review requirements, recordkeeping and reporting requirements, as well as penalties for breach/noncompliance of the agreement. We believe that we are in substantial compliance with the requirements of the Corporate Integrity Agreement.

In accordance with our agreement to dispose of 10 nursing facilities, we disposed of seven of the facilities during 2000 and two of the facilities during the first quarter of 2001. We expect to dispose of the remaining facility during 2001. The carrying value of this facility has been adjusted to our best estimate of its net realizable value.

On July 6, 1999, an amended complaint was filed by the plaintiffs in a previously disclosed purported class action lawsuit pending against the Company and certain of our officers in the United States District Court for the Eastern District of Arkansas (the "Class Action"). Plaintiffs filed a second amended complaint on September 9, 1999 which asserted claims under Section 10(b) (including Rule 10b-5 promulgated thereunder) and under Section 20 of the Securities Exchange Act of 1934 arising from practices that were the subject of the Allocation Investigations. The defendants filed a motion to dismiss that complaint on October 8, 1999. Oral agreement on this motion was held on April 6, 2000. Due to the preliminary state of the Class Action and the fact the second amended complaint does not allege damages with any specificity, we are unable at this time to assess the probable outcome of the Class Action or the materiality of the risk of loss. We believe that we acted lawfully with respect to plaintiff investors and will vigorously defend the Class Action. However, we can give no assurances of the ultimate impact on our consolidated financial position, results of operations or cash flows as a result of these proceedings.

17

19

BEVERLY ENTERPRISES, INC.

OTHER INFORMATION (CONTINUED)

MARCH 31, 2001

(UNAUDITED)

In addition, since July 29, 1999, eight derivative lawsuits have been filed in the federal and state courts of Arkansas, California and Delaware, as well as the federal district court in Arkansas, (collectively, the "Derivative Actions"), including:

- Norman M. Lyons v. David R. Banks, et al., Case No. OT99-4041, was filed in the Chancery Court of Pulaski County, Arkansas (4th Division)

Edgar Filing: BEVERLY ENTERPRISES INC - Form 10-Q

on or about July 29, 1999, and the parties filed an Agreed Motion to Stay the proceedings on January 17, 2000;

- Alfred Badger, Jr. v. David R. Banks, et al., Case No. OT99-4353, was filed in the Chancery Court of Pulaski County, Arkansas (1st Division) on or about August 17, 1999 and voluntarily dismissed on November 30, 1999;
- James L. Laurita v. David R. Banks, et al., Case No. 17348NC, was filed in the Delaware Chancery Court on or about August 2, 1999;
- Kenneth Abbey v. David R. Banks, et al., Case No. 17352NC, was filed in the Delaware Chancery Court on or about August 4, 1999;
- Alan Friedman v. David R. Banks, et al., Case No. 17355NC, was filed in the Delaware Chancery Court on or about August 9, 1999;
- Elles Trading Company v. David R. Banks, et al., was filed in the Superior Court for San Francisco County, California on or about August 4, 1999 and removed to federal district court;
- Kushner v. David R. Banks, et al., Case No. LR-C-98-646, was filed in the United States District Court for the Eastern District of Arkansas (Western Division) on September 30, 1999; and
- Richardson v. David R. Banks, et al., Case No. LR-C-99-826, was filed in the United States District Court for the Eastern District of Arkansas (Western Division) on November 4, 1999.

The Laurita, Abbey and Friedman actions were subsequently consolidated by order of the Delaware Chancery Court. On or about October 1, 1999, the defendants moved to dismiss the Laurita, Abbey and Friedman actions. The parties have agreed to stay the consolidated action pending the outcome of the motion to dismiss in the Class Action. The plaintiffs in the Elles Trading Company action filed a notice of voluntary dismissal on February 3, 2000. The Kushner and Richardson actions were ordered to be consolidated as In Re Beverly Enterprises, Inc. Derivative Litigation and by agreed motion, Plaintiffs filed an amended, consolidated complaint on April 21, 2000. Defendants filed a motion to dismiss the consolidated derivative complaint and a motion to strike portions thereof on July 21, 2000. The parties have agreed to stay the consolidated action pending the outcome of the motion to dismiss in the Class Action, but the stipulation has not been entered by the Court.

The Derivative Actions each name the Company's directors as defendants, as well as the Company as a nominal defendant. The Badger and Lyons actions also name as defendants certain of the Company's officers. The Derivative Actions each allege breach of fiduciary duties to the Company and its stockholders arising primarily out of the Company's alleged exposure to loss due to the Class Action and the Allocation Investigations. The Lyons, Badger and Richardson actions also assert claims for abuse of control and constructive fraud arising from the same allegations and the Richardson action also claims unjust enrichment.

18

20

BEVERLY ENTERPRISES, INC.

OTHER INFORMATION (CONTINUED)

MARCH 31, 2001

(UNAUDITED)

Edgar Filing: BEVERLY ENTERPRISES INC - Form 10-Q

Due to the preliminary state of the Derivative Actions and the fact the complaints do not allege damages with any specificity, we are unable at this time to assess the probable outcome of the Derivative Actions or the materiality of the risk of loss. We believe that we acted lawfully with respect to the allegations of the Derivative Actions and will vigorously defend the Derivative Actions. However, we can give no assurances of the ultimate impact on our consolidated financial position, results of operations or cash flows as a result of these proceedings.

There are various other lawsuits and regulatory actions pending against the Company arising in the normal course of business, some of which seek punitive damages that are generally not covered by insurance. We do not believe that the ultimate resolution of such other matters will have a material adverse effect on our consolidated financial position or results of operations.
