AUGUST TECHNOLOGY CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
SEPTEMBER 30, 2002
(In thousands, except per share amounts)
(Unaudited)

Note 1 Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures, normally included in consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States of America, have been condensed or omitted pursuant to such rules and regulations. In the opinion of the management of August Technology Corporation (the Company), all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included in the balance sheet at September 30, 2002, the operating results for the three and nine months ended September 30, 2002 and 2001 and cash flows for the nine months ended September 30, 2002 and 2001. The results of operations of the interim periods are not necessarily indicative of the results of operations that may be expected for any other period or for the year as a whole. These consolidated financial statements and notes hereto should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2001, filed with the Securities and Exchange Commission on March 15, 2002.

The accompanying consolidated financial statements include the accounts of August Technology Corporation and its subsidiaries (together, the Company). All intercompany balances and transactions are eliminated in consolidation.

Certain prior year amounts have been reclassified to conform to the 2002 presentation.

Note 2 Terminated Acquisition

On May 23, 2002, the Company entered into a definitive agreement (the Agreement) with ASTI Holdings, Ltd. (ASTI) of Singapore to acquire Semiconductor Technologies & Instruments, Inc. (STI) for a purchase price of \$26.1 million, consisting of \$12 million cash, a \$3 million six month note to ASTI and \$11.1 million in stock. Due to discoveries made during due diligence, the Company requested changes in the terms of the Agreement including a reduction in the purchase price. The Company and ASTI were unable to reach resolution on this matter and as a result the Company notified ASTI on August 21, 2002 of the termination of the Agreement on the basis that the conditions to the Company's obligations set forth in the Agreement could no longer be satisfied. As a result, the Company wrote-off all costs related to the acquisition during the third quarter of 2002.

The Company believes it is entitled to terminate the Agreement and that ASTI owes the Company a \$2.6 million break up fee (the Break up Fee), as outlined in the Agreement. ASTI disputes the Company's right to terminate the Agreement and the Company and ASTI are currently in negotiations to settle the dispute. If such negotiations fail, it is possible that one or both parties will seek the Break up Fee or damages under the Agreement in an arbitration proceeding or through litigation. In the event the Company fails to prevail in any such dispute, resulting damage awards or

Table of Contents

the payment of the Break up Fee may have a material adverse effect on the Company's financial condition. Whether or not the Company prevails, the legal expenses involved in any such proceeding may be material.

Note 3 Accounts Receivable

Accounts receivable consisted of the following:

	September 30, 2002	December 31, 2001
	<u> </u>	<u> </u>
Billed receivables	\$6,350	\$4,640
Unbilled receivables		
551 499		
6,901 5,139		
Allowance for doubtful accounts		
(473) (402)		
Accounts receivable, net		
\$6,428 \$4,737		

Note 4 Inventories

Inventories consisted of the following:

	September 30, 2002	December 31, 2001
	<u> </u>	<u> </u>
Raw materials	\$ 3,176	\$ 3,118
Work in process		
1,476 779		
Finished goods		
3,082 4,455		
Inventories at customers under purchase orders		

696 1,032

Inventories
\$8,430 \$9,384

Inventories at customers under purchase orders represent systems that have shipped under the terms of a customer purchase order, but have not yet qualified for revenue recognition as the systems had not met customer specifications as of September 30, 2002 or December 31, 2001.

Note 5 Investments

The Company changed the classification of all of its investments from held-to-maturity to available-for-sale during the second quarter of 2002. Available-for-sale securities are recorded at fair value, with the unrealized gains and losses reported in Shareholders' Equity under the caption Accumulated other comprehensive income (loss). Realized gains and losses, interest and dividends on available-for-sale securities are included in interest income. Net unrealized gains on investments were \$26 and \$66 for the three and nine months ended September 30, 2002, respectively.

Note 6 Other Assets

On May 6, 2002, the Company invested \$500 in Excelerate Technologies, Inc. in the form of a note receivable. The note receivable bears interest at 8%, matures on May 5, 2003 and upon maturity is convertible into preferred stock of Excelerate Technologies.

Table of Contents**Note 7 Shareholders Equity**

Changes in shareholders equity during the nine months ended September 30, 2002 were as follows:

Shareholders equity balance at December 31, 2001	\$42,523
Issuances of common stock in conjunction with:	
Exercises of employee stock options	
940	
Employee stock purchase plan	
130	
Amortization of deferred compensation related to stock options	
50	
Comprehensive loss:	
Net loss	
(6,783)	
Other comprehensive income	
65	
<hr/>	
Shareholders equity balance at September 30, 2002	\$36,925

Note 8 Income Taxes

The Company has deferred tax assets of \$4.0 million as of September 30, 2002, which have arisen primarily as a result of operating losses, as well as other temporary differences between book and tax accounting. Statement of Financial Accounting Standards No. 109, Accounting for Income Taxes, requires the establishment of a valuation allowance to reflect the likelihood of the realization of deferred tax assets. As a result of operating losses during the previous fifteen months, anticipated operating losses for the remainder of 2002 and uncertainty as to the extent and timing of profitability in future periods, the Company continues to record a full valuation allowance against its deferred tax assets as of September 30, 2002. Accordingly, a \$3.1 million tax benefit has been offset by a \$3.1 million valuation allowance, which due to the recording of an income tax benefit in the first quarter of 2002, has resulted in income tax expense of \$687 for the nine months ended September 30, 2002.

Edgar Filing: AUGUST TECHNOLOGY CORP - Form 10-Q

The remaining \$869 of the deferred tax assets relate to the tax benefit of stock options, which has also been offset by an \$869 valuation allowance. Any future benefit resulting from the reversal of the valuation allowance related to the exercise of stock options will result in an increase in common stock.

Note 9 Net Income (Loss) Per Share

The components of basic and diluted net income (loss) per share are as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2002	2001	2002	2001
Net income (loss)	\$ (2,549)	\$ (1,378)	\$ (6,783)	\$ 388

Weighted average common shares:

Basic

13,123 12,768 13,000 12,698

Effect of dilutive stock options and warrants

616

Diluted

13,123 12,768 13,000 13,314

Net income (loss) per share:

Basic

\$(0.19) \$(0.11) \$(0.52) \$0.03

Diluted

\$(0.19) \$(0.11) \$(0.52) \$0.03

Table of Contents

The total weighted average number of stock options and warrants excluded from the calculation of potentially dilutive securities either due to the exercise price exceeding the average market price or the inclusion of such securities in a calculation of net loss per share would have been anti-dilutive for the three months ended September 30, 2002 and 2001 were 1,465 and 1,587, respectively, and for the nine months ended September 30, 2002 and 2001 were 1,557 and 352, respectively.

Note 10 Comprehensive Income (Loss)

Comprehensive income (loss) is defined as net income (loss) and other changes in shareholders' equity from transactions and other events from sources other than shareholders. The components of and changes in other comprehensive income (loss) are as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2002	2001	2002	2001
Net income (loss)	\$ (2,549)	\$ (1,378)	\$ (6,783)	\$ 388
Other comprehensive income (loss):				
Foreign currency translation adjustment				
(4) 5 (1) (3)				
Net unrealized gains on investments				
26 66				
<hr/>				
<hr/>				
<hr/>				
<hr/>				
Comprehensive income (loss)	\$ (2,527)	\$ (1,373)	\$ (6,718)	\$ 385
<hr/>				
<hr/>				
<hr/>				
<hr/>				

Note 11 Line of Credit

The Company entered into a revolving credit line agreement (the "Credit Facility") with a bank on July 26, 2002 that expires in April 2004. The Credit Facility allows for borrowings of up to \$5.0 million subject to availability based on accounts receivable and inventory balances. Interest is payable monthly at the 30-day LIBOR rate plus 2.25%. The Credit Facility contains financial covenants which include levels of tangible net worth, capital expenditures and default provisions, including provisions related to non-payment of principal and interest, bankruptcy and default under other debt agreements. There is no balance outstanding under the Credit Facility as of September 30, 2002.

Note 12 New Accounting Pronouncements

Edgar Filing: AUGUST TECHNOLOGY CORP - Form 10-Q

In July 2002, the FASB issued SFAS No. 146, Accounting for Costs Associated with Exit or Disposal Activities. SFAS 146 addresses financial accounting and reporting for costs associated with exit or disposal activities and nullifies EITF Issue No. 94-3, Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity (including Certain Costs Incurred in a Restructuring) and must be applied beginning January 1, 2003. SFAS 146 requires that a liability for a cost associated with an exit or disposal activity be recognized when the liability is incurred rather than when the exit or disposal plan is approved. The Company does not expect that the adoption of SFAS 146 will have an effect on its consolidated financial statements. The Company will adopt the provisions of SFAS 146 for exit and disposal activities that are initiated after December 31, 2002 as required by the standard.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Cautionary Factors That May Affect Future Results

Certain statements made in this Quarterly Report on Form 10-Q, as well as oral statements made by us from time to time, which are prefaced with words such as *expects*, *anticipates*, *believes*, *projects*, *intends*, *plans* and similar words and other statements of similar sense are forward-looking statements. Our forward-looking statements generally relate to our growth strategies, financial results, future financial projections, product development activities and sales efforts. These forward-looking statements, like any other forward-looking statements, involve risks and uncertainties known and unknown, and may be affected by inaccurate assumptions, including, among others, those discussed in the *Cautionary Statements* section of our Annual Report on Form 10-K for the year ended December 31, 2001, as filed with the Securities and Exchange Commission on March 15, 2002. The risks and uncertainties could cause actual results to differ materially from those projected or anticipated. We disclaim any obligation to subsequently revise forward-looking statements to reflect events or circumstances after the date of such statements or to reflect the occurrence of anticipated or unanticipated events.

Overview

August Technology serves microelectronics device manufacturing industries with tools that enable manufacturers to bring new products to market faster and with less cost. As a worldwide leader in the research, design, development, manufacture, marketing, sales, distribution and service of automated micro defect inspection and metrology systems, we make it possible for microelectronic device manufacturers to more effectively meet the needs of the high technology communication, transportation, entertainment, productivity, biomedical and security markets. The flexibility of our tools has allowed us to successfully serve the semiconductor manufacturing market while concurrently providing effective solutions for high growth markets such as data storage, medical devices, micro displays, optoelectronics, photonics and MEMS. Microelectronic devices processed through our systems can be found in consumer products such as personal computers and computer peripherals, cell phones, personal digital assistants (PDAs), set-top boxes, electronic games, security systems, automobiles, medical devices and throughout the communications infrastructure in electrical, optical and wireless networks.

The following discussion of our financial condition and results of operations should be read in conjunction with our audited consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2001, filed with the Securities and Exchange Commission on March 15, 2002.

We continue to be in the midst of a significant downturn in both the semiconductor and microelectronic markets. The downturn began early in 2001 and has been driven by deteriorating macro-economic conditions that have caused a reduction in demand for semiconductor and microelectronic devices. This reduction in demand has resulted in device manufacturers having excess capacity and caused them to reduce their capital spending. In response to the ongoing downturn, we are continuing our cost management program that began in March 2001. The program has included, at various times, raw material cost reductions, reductions in temporary and contract staff, work force reductions, mandatory vacation time and decreases in discretionary spending, certain compensation expenditures and overtime (the *Cost Cutting Programs*). The

Table of Contents

current downturn, future business cycles, the timing of new product announcements and releases by us or our competitors, market acceptance of new or enhanced versions of our products, changes in the pricing of our products and the timing and level of our research and development expenditures will impact future quarterly results.

Results of Operations

Net Revenues. Net revenues were \$6.3 million and \$18.8 million for the three and nine month periods ended September 30, 2002, compared to \$3.3 million and \$24.3 million for the same periods in 2001, representing an increase of 92.8%, and a decrease of 22.8%, for the respective periods. The increase in net revenues for the three months ended September 30, 2002 versus 2001 is due to revenues from our 3Di Series, which began shipping during the third quarter of 2001, partially offset by lower NSX revenues. The decline in revenues for the nine months ended September 30, 2002 versus 2001 is a result of lower NSX revenues, partially offset by revenues from our 3Di Series. The decrease in NSX revenues during the three and nine months ended September 30, 2002 is due to the continued downturn noted earlier.

Gross Margin. Gross margins were 55.1% and 56.6% of net revenues for the three and nine month periods ended September 30, 2002, compared to 54.1% and 60.2% of net revenues for the same periods in 2001. The increase in gross margins for the three months ended September 30, 2002 versus 2001 was primarily due to an increase in the number of systems manufactured, which resulted in higher manufacturing utilization and decreased labor and overhead costs per system sold, partially offset by sales of models within the 3Di Series that have lower margins than the NSX Series. The decrease in gross margins for the nine months ended September 30, 2002 versus 2001 was primarily due to a decrease in the number of systems manufactured, which resulted in lower manufacturing utilization and increased labor and overhead costs per system sold, and to lower 3Di margins noted above.

Selling, General and Administrative Expenses. Selling, general and administrative expenses consist primarily of employee salaries and related benefits, travel expenses and occupancy related costs. Selling, general and administrative expenses were \$3.1 million and \$8.8 million for the three and nine month periods ended September 30, 2002, compared to \$2.7 million and \$8.9 million for the same periods in 2001, representing an increase of 15.3% and a decrease of 2.0% for the respective periods. As a percentage of net revenues, expenses were 49.5% and 46.7% for the three and nine month periods ended September 30, 2002, compared to 82.7% and 36.8% for the same periods in 2001. The increase in expenses for the three months ended September 30, 2002 versus 2001 was primarily due to increases in: (i) the costs associated with systems being evaluated by customers; (ii) employee compensation; and (iii) depreciation expense, partially offset by the continued use of various components of our Cost Cutting Programs. The decrease in expense dollars for the nine months ended September 30, 2002 versus 2001 was primarily due to the Cost Cutting Programs and a decline in commissions expense due to the decreased revenues, partially offset by an increase in depreciation expense related to assets capitalized subsequent to the beginning of the third quarter of 2001.

Research and Development Expenses. Research and development expenses consist primarily of employee salaries and related benefits, and consulting fees for individuals engaged in the research, design and development of new products. Research and development expenses were \$2.3 million and \$7.2 million for the three and nine month periods ended September 30, 2002, compared to \$1.8 million and \$6.1 million for the same periods in 2001, representing an increase of

Table of Contents

29.7% and 17.3% for the respective periods. As a percentage of net revenues, the expenses were 37.4% and 38.4% for the three and nine month periods ended September 30, 2002, compared to 55.6% and 25.3% for the same periods in 2001. The increase in expenses for both the three and nine month periods was primarily due to our focus on advancing the development of new and existing products in each of our product lines, which led to the hiring of additional engineers and the use of additional outside contractors. These increases were partially offset by the continued use of various components of our Cost Cutting Programs and a reduction in employee recruiting and relocation costs due to hirings in the current year were made with fewer relocations and minimal use of recruiting agencies.

Non-recurring Expenses. Non-recurring expenses for the three month period ended September 30, 2002 were \$676,000 which included \$459,000 for the write-off of acquisition related costs, \$173,000 of employee severance costs and \$44,000 of expenses related to the modification of our distributor agreement with Metron Technology, LTD (Metron), as a result of our decision to sell directly to customers in Asia, except Japan and South Korea. Non-recurring expenses for the nine month period ended September 30, 2002 were \$1.2 million which included \$459,000 for the write-off of acquisition related costs, \$428,000 of expenses related to the modification of our distributor agreement with Metron and \$357,000 of employee severance costs. Non-recurring expenses for the nine months ended September 30, 2001 were \$432,000 which included \$348,000 of expenses related to the modification of our distributor agreement with Metron, as a result of our decision to sell directly to customers in Taiwan and \$84,000 of employee severance costs related to a reduction in work force.

Interest Income. Interest income was \$124,000 and \$506,000 for the three and nine month periods ended September 30, 2002, compared to \$330,000 and \$1.2 million for the same periods in 2001. The decrease in interest income was due to lower overall investment balances in 2002, due to the use of cash to fund operations and acquire property and equipment, and lower rates of return earned on investment balances.

Income Taxes. The provisions for income taxes were none and \$687,000 for the three and nine month periods ended September 30, 2002, compared to a tax benefit of \$1.0 million and \$124,000 for the same periods in 2001. There was no provision for income taxes recorded during the three months ended September 30, 2002 due to the recording of a full valuation allowance against deferred tax assets. Statement of Financial Accounting Standards No. 109 Accounting for Income Taxes, requires the establishment of a valuation allowance to reflect the likelihood of the realization of deferred tax assets. As a result of operating losses during the previous fifteen months, anticipated operating losses for the remainder of 2002 and uncertainty as to the extent and timing of profitability in future periods, we continue to record a full valuation allowance of \$3.1 million against deferred tax assets as of September 30, 2002. The provision for the nine months ended September 30, 2002 is partially offset by a tax benefit recorded in the first quarter of 2002.

We recorded a tax benefit during the nine months ended September 30, 2001, rather than tax expense associated with the pre-tax income, due to the relative size of certain tax credits that were to be earned during 2001 in proportion to the expected level of income before taxes in 2001.

Table of Contents

Liquidity and Capital Resources

Cash and Cash Equivalents and Working Capital

During the nine months ended September 30, 2002, working capital decreased to \$32.6 million as compared to \$37.2 million at December 31, 2001. Working capital decreased primarily due to the use of cash and cash equivalents and short-term investments to fund operations, acquire property and equipment and invest in other assets. The decrease was partially offset by proceeds received from issuances of common stock and the reinvestment of maturities of long-term investments in cash equivalents.

At September 30, 2002 our principal sources of liquidity consisted of \$21.7 million of cash and cash equivalents and investments and our revolving credit line agreement, which expires in April 2004. This agreement allows for borrowings of up to \$5.0 million subject to availability based on accounts receivable and inventory balances. Our liquidity is affected by many factors, some of which are based on the normal ongoing operations of our business and others of which relate to the uncertainties of global economies and the cyclical nature of the semiconductor and microelectronic industries. We have no outstanding debt at September 30, 2002. Although liquidity requirements will fluctuate based on the timing and extent of these factors, management believes that existing cash and investment balances and our line of credit will be adequate to satisfy our liquidity requirements for the next twelve months.

Cash Flows

Net cash used in operating activities for the nine months ended September 30, 2002 was \$3.6 million, which resulted primarily from our net loss and increase in accounts receivable, partially offset by non-cash charges and decreased prepaid expenses and other current assets and inventories. Net cash provided by investing activities was \$7.1 million, primarily due to \$8.9 million of net proceeds from maturities of investments partially offset by \$1.2 million of purchases of property and equipment. Net cash provided by financing activities was \$1.1 million from the proceeds received from issuances of common stock.

Net cash provided by operating activities for the nine months ended September 30, 2001 was \$774,000, which resulted primarily from decreased accounts receivable, partially offset by increased prepaid expenses and other current assets and inventories, and decreased accounts payable. Net cash used in investing activities was \$3.2 million, due to \$1.0 million of net purchases of investments and purchases of \$2.2 million of property and equipment. Net cash provided by financing activities was \$451,000 from the proceeds received from issuances of common stock.

Terminated Acquisition

On May 23, 2002, we entered into a definitive agreement (the Agreement) with ASTI Holdings, Ltd. (ASTI) of Singapore to acquire Semiconductor Technologies & Instruments, Inc. (STI) for a purchase price of \$26.1 million, consisting of \$12 million cash, a \$3 million six month note to ASTI and \$11.1 million in stock. Due to discoveries made during due diligence, we have requested changes in the terms of the Agreement including a reduction in the purchase price. We were unable to reach resolution on this matter with ASTI and as a result we notified ASTI on August 21, 2002 of the termination of the Agreement on the basis that the conditions to our

Table of Contents

obligations set forth in the Agreement could no longer be satisfied. As a result, we wrote-off all costs related to the acquisition during the third quarter of 2002.

We believe we are entitled to terminate the Agreement and that ASTI owes us a \$2.6 million break up fee (the Break up Fee), as outlined in the Agreement. ASTI disputes our right to terminate the Agreement and we are currently in negotiations with ASTI to settle the dispute. If such negotiations fail, it is possible that one or both parties will seek the Break up Fee or damages under the Agreement in an arbitration proceeding or through litigation. In the event we fail to prevail in any such dispute, resulting damage awards or the payment of the Break up Fee may have a material adverse effect on our financial condition. Whether or not we prevail, the legal expenses involved in any such proceeding may be material.

New Accounting Pronouncements

In July 2002, the FASB issued SFAS No. 146, Accounting for Costs Associated with Exit or Disposal Activities. SFAS 146 addresses financial accounting and reporting for costs associated with exit or disposal activities and nullifies EITF Issue No. 94-3, Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity (including Certain Costs Incurred in a Restructuring) and must be applied beginning January 1, 2003. SFAS 146 requires that a liability for a cost associated with an exit or disposal activity be recognized when the liability is incurred rather than when the exit or disposal plan is approved. We do not expect that the adoption of SFAS 146 will have an effect on our consolidated financial statements. We will adopt the provisions of SFAS 146 for exit and disposal activities that are initiated after December 31, 2002 as required by the standard.

Item 3. Qualitative and Quantitative Disclosures about Market Risk

Market Risk

We are exposed to market risk primarily from changes in interest rates and credit risk. We do not have material exposure to market risk from fluctuations in foreign currency exchange rates because all sales are made in U.S. dollars.

Interest Rate Risk

We are exposed to interest rate risk primarily from investments in cash equivalents and short-term and long-term marketable debt securities (the Investment Portfolio). The entire Investment Portfolio classification was changed from held-to-maturity to available-for-sale during the second quarter of 2002 and, accordingly, is recorded on the balance sheet at fair market value, with unrealized gains or losses excluded from earnings and included in Accumulated other comprehensive income (loss) until realized. The entire Investment Portfolio is denominated in U.S. dollars. We do not use derivative financial instruments in the Investment Portfolio. Due to the short duration of our investment portfolio, an immediate 10 percent change in interest rates is not expected to have a material adverse effect on our near-term financial condition or results of operations.

Credit Risk

Financial instruments which potentially subject us to credit risk consist principally of securities in the Investment Portfolio and trade receivables. We limit credit risk related to the Investment

Table of Contents

Portfolio by placing all investments with high quality credit issuers and limit the amount of investments with any one issuer. As of September 30, 2002, 100% of the Investment Portfolio consisted of government securities and corporate commercial paper and bonds with maturities of one year or less. We limit credit risk associated with trade receivables by performing ongoing credit evaluations and believe that there is no additional risk beyond amounts provided for collection losses to be inherent in trade receivables.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Within the ninety day period prior to the date of this report, the Company conducted an evaluation under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Acting Chief Financial Officer and Vice President, Finance, regarding the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Rule 13a-14 of the Securities Exchange Act of 1934. Based upon that evaluation, the Chief Executive Officer and Acting Chief Financial Officer and Vice President, Finance concluded that the Company's disclosure controls and procedures are effective to ensure that material information relating to the Company, including its consolidated subsidiaries, is made known to them.

Changes in Internal Controls

There were no significant changes in the Company's internal controls or in other factors that could significantly affect internal controls subsequent to the date the Company carried out its evaluation.

Table of Contents

PART II OTHER INFORMATION

Item 1. Legal Proceedings

At this time, ASTI and the Company are in negotiations to settle the dispute as summarized in Note 2 of the Notes to Consolidated Financial Statements. If such negotiations fail, it is possible that one or both parties will seek the Break up Fee of \$2.6 million or damages under the Agreement in an arbitration proceeding or through litigation. In the event the Company fails to prevail in any such dispute, resulting damage awards or the payment of the Break up Fee may have a material adverse effect on the Company's financial condition. Whether or not the Company prevails, the legal expenses involved in any such proceeding may be material.

Item 6. Exhibits and Reports on Form 8-K

(a) Exhibits:

The exhibits listed on the Exhibit Index are filed herewith.

(b) Reports on Form 8-K:

Current report on Form 8-K dated and filed August 14, 2002, was filed pursuant to Item 5 (Other Events) to report the submission of CEO and CFO certifications for Section 906 of the Sarbanes-Oxley Act of 2002 for the quarterly period ended June 30, 2002.

CERTIFICATIONS

I, Jeff L. O Dell, certify that:

1. I have reviewed this quarterly report on Form 10-Q of August Technology Corporation;
2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this quarterly report;
3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this quarterly report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-14 and 15d-14) for the registrant and we have:
 - a) designed such disclosure controls and procedures to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;
 - b) evaluated the effectiveness of the registrant's disclosure controls and procedures as of a date within 90 days prior to the filing date of this quarterly report (the "Evaluation Date"); and
 - c) presented in this quarterly report our conclusions about the effectiveness of the disclosure controls and procedures based on our evaluation as of the Evaluation Date;
5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent function):
 - a) all significant deficiencies in the design or operation of internal controls which could adversely affect the registrant's ability to record, process, summarize and report financial data and have identified for the registrant's auditors any material weaknesses in internal controls; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls; and
6. The registrant's other certifying officers and I have indicated in this quarterly report whether or not there were significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date of our most recent evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.
