What is the deadline for making stockholder proposals for next year's meeting? Stockholders who wish to present proposals at our 2004 annual meeting must submit their proposals in accordance with our bylaws and be received by us no later than December 31, 2003 in order to be:

considered at the meeting.

Stockholder proposals must be delivered to us at our offices at 3965 Freedom Circle, Santa Clara, California 95054, attention: Corporate Secretary.

PROPOSALS TO BE VOTED ON

Proposal No. 1 Election of Directors

The nominees for election at the annual meeting are Mr. Leslie Denend and Mr. George Samenuk. Mr. Denend and Mr. Samenuk are Class II directors. If elected, Mr. Denend and Mr. Samenuk will each serve as directors until the annual meeting in 2006.

The nominees receiving the highest number of affirmative votes of the shares shall be elected as Class II directors.

The board of directors recommends that you vote for Mr. Denend and Mr. Samenuk.

Proposal No. 2 Amendment to the 1997 Stock Incentive Plan

We believe that stock options are an important factor in attracting, motivating, and retaining qualified personnel who are essential to our success. The 1997 Stock Incentive Plan is intended to offer a significant incentive by allowing employees to purchase our common stock. With limited exceptions, options to purchase our common stock are granted under our 1997 Stock Incentive Plan at a price equal to the fair market value on the date stock options are granted. Other than in limited cases, options granted under the 1997 Stock Incentive Plan only become valuable if the price of our common stock increases over time and as the options vest.

Currently, a maximum of 32.48 million shares may be granted under the 1997 Stock Incentive Plan. As of September 30, 2003, 25,918,319 million shares had been granted and 6,556,681 million shares remained available for grant.

The amendment would increase the number of shares issuable under the 1997 Stock Incentive Plan by 2.0 million shares, bringing the total that may be granted under the 1997 Incentive Plan to 34.48 million shares. As of September 30, 2003, no benefits or amounts relating to the additional 2.0 million shares have been received by, or allocated to, any individuals.

The affirmative vote of the holders of a majority of the shares of common stock present or represented and voting at the annual meeting will be required to approve this proposal.

The board of directors recommends a vote for the amendment to the 1997 Stock Incentive Plan.

If you would like more information about the 1997 Stock Incentive Plan, a summary of its terms is included in Appendix A to this proxy statement.

Proposal No. 3 Amendment to the Stock Option Plan For Outside Directors

We believe that stock options are an important factor in obtaining the knowledge and experience of outside directors, who are essential to our success. Our non-employee directors presently receive an option to purchase 45,000 shares of our common stock when they first become a director. This initial grant vests one-third each year over three years from the date of grant. Currently, each year after the initial grant, non-employee directors are entitled to receive an additional option to purchase 20,000 shares of our common stock. These subsequent grants vest in full three years from the date of grant.

The amendment would increase the number of shares included in the initial stock option grant to non-employee directors by 5,000 to 50,000 shares of common stock and would increase the number of shares included in the subsequent annual grants by 5,000 shares to 25,000 shares of common stock.

The affirmative vote of the holders of a majority of the shares of common stock present or represented and voting at the annual meeting will be required to approve this proposal.

The board of directors recommends a vote for the amendment to the Stock Option Plan for Outside Directors.

If you would like more information about the Stock Option Plan for Outside Directors, a summary of its terms is included in Appendix B to this proxy statement.

Proposal No. 4 Amendment to the 2002 Employee Stock Purchase Plan

We believe that providing our employees with the opportunity to purchase shares of our common stock is also an important factor in attracting, motivating, and retaining qualified personnel who are essential to our success. Our 2002 Employee Stock Purchase Plan is intended to offer a significant incentive by allowing employees to purchase our common stock. Employees are allowed to purchase our common stock under our 2002 Employee Stock Purchase Plan at a price equal to 85% of the lower of the fair market value on either the opening or closing date of the respective purchase period.

Currently, a maximum of 2.0 million shares may be issued under our 2002 Employee Stock Purchase Plan. As of September 30, 2003, 741,597 million shares had been issued and 1,258,403 million shares remained available for issuance.

The amendment would increase the number of shares issuable under the 2002 Employee Stock Purchase Plan by 2.0 million shares, bringing the total that may be granted under the 2002 Employee Stock Purchase Plan to 4.0 million shares.

The affirmative vote of the holders of a majority of the shares of common stock present or represented and voting at the annual meeting will be required to approve this proposal.

The board of directors recommends a vote for the amendment to the 2002 Employee Stock Purchase Plan.

If you would like more information about the 2002 Employee Stock Purchase Plan, a summary of its terms is included in Appendix C to this proxy statement.

Proposal No. 5 Ratification of Independent Public Accountants

Our board of directors has selected PricewaterhouseCoopers LLP as independent accountants to audit our financial statements for the fiscal year ending December 31, 2003. This selection is being presented to the stockholders for ratification at the meeting. PricewaterhouseCoopers LLP has acted in this capacity since its appointment during the fiscal year ended December 31, 1991. A representative of PricewaterhouseCoopers LLP is expected to attend the annual meeting in order to respond to questions from stockholders and will have the opportunity to make a statement.

Audit Fees

Audit fees billed to us by PricewaterhouseCoopers LLP during our 2002 and 2001 fiscal years for the audit of our consolidated annual financial statements and review of the consolidated financial statements included in our quarterly reports on Form 10-Q totaled \$1,566,000 and \$1,593,000, respectively.

Audit Related Fees

Fees billed to us by PricewaterhouseCoopers LLP during our 2002 and 2001 fiscal years for assurance services and services related to our audits and reviews of our consolidated financial statements which are not considered audit fees totaled \$885,000 and \$741,000, respectively. These fees included amounts paid for statutory audits of foreign entities, securities filings and consulting on accounting matters.

Tax Fees

Fees billed to us by PricewaterhouseCoopers LLP during our 2002 and 2001 fiscal years for tax related services, including compliance, planning and tax advice totaled \$1,192,000 and \$1,405,000, respectively.

All Other Fees

Other than as described above, no other fees were billed to us by PricewaterhouseCoopers LLP during our 2002 fiscal year. During our 2001 fiscal year, PricewaterhouseCoopers LLP billed us \$303,000 for an implementation project for our ERP system.

In October 2002, the board of directors adopted a revised audit committee charter, attached as Appendix D, which includes a requirement that the audit committee of the board of directors pre-approve the services provided by PricewaterhouseCoopers LLP, including both audit and non-audit services. The pre-approval of non-audit services by PricewaterhouseCoopers LLP includes making a determination that the provision of the services is compatible with maintaining the independence of PricewaterhouseCoopers LLP as our independent accountants.

The affirmative vote of the holders of a majority of the shares of common stock present or represented and voting at the annual meeting will be required to approve this proposal.

The board of directors recommends a vote for ratification of the appointment of PricewaterhouseCoopers LLP as our independent accountants.

We have a classified board of directors which is divided into three classes with staggered three-year terms. At each annual meeting, the term of one class expires. Pursuant to our bylaws, eight directors are authorized for our board of directors. After our annual meeting, our board of directors will consist of seven serving directors with terms expiring in the years indicated below, and one vacancy. Our compensation policy is designed to enable us to attract, retain and reward executive officers who are likely to contribute to our long-term success. The compensation committee also believes that a strong correlation should exist between executive compensation, business objectives and our overall performance.

In preparing the performance graph for this proxy statement, we have selected the CRSP Total Return Industry Index for NASDAQ Computer and Data Processing Services Stock Index (CRSP Index). The companies which we use for comparison of salary and compensation information are not necessarily those included in the CRSP Index, because they were determined not to be competitive with us for executive talent or because compensation information was not available.

Components of Compensation

There are three components of our executive compensation program that are intended to attract and retain executive officers and to motivate them to improve our financial position and to create value for our shareholders.

Salary

We strive to offer salaries to our executive officers that are competitive with salaries offered by companies of similar size and capitalization in the software industry. Base salaries are reviewed on an annual basis and are subject to adjustment based upon the individual's contribution to us and changes in salary levels offered by comparable companies. In determining executive officers' salaries, the compensation committee considers information provided by our chief executive officer with respect to individual officer responsibilities and performance, as well as salary surveys and similar data available from independent sources.

Bonuses

Awards under our Executive Bonus Plan for 2002 were contingent upon us achieving certain performance goals established by the board of directors. For executive officers other than the chief executive officer, awards were also contingent on the achievement of individual performance objectives. Target amounts of bonuses for each executive officer are set annually by the compensation committee and are specifically weighted for identified financial, management, strategic and operational goals. The compensation committee reviews performance against the goals and approves payment of the bonuses. In 2002, bonuses awarded under the plan to Mr. Samenuk, our chief executive officer, totaled \$900,000. The bonus received by Mr. Samenuk under the plan was 49% of his total cash compensation. Bonuses awarded under the plan in 2002 to other executive officers represented between 22% and 57% of their total cash compensation.

Equity Incentives

The compensation committee believes that employee equity ownership is highly motivating, provides a major incentive to employees in building stockholder value and serves to align the interests of employees with the interests of our stockholders. In determining the amount of equity compensation to be awarded to

executive officers in any fiscal year, the compensation committee considers the position of the officer, the current stock ownership of the officer, the number of shares which continue to be subject to vesting under outstanding options and the expected future contribution of the officer to our performance, giving primary weight to the officer's position and his expected future contributions. In addition, we compare the stock ownership and options held by each officer with the other officers' equity positions and the officer's experience and value to us.

Compensation of the Chief Executive Officer

George Samenuk's annual base salary for 2002 was \$720,000. Mr. Samenuk was paid a performance-based bonus of \$900,000, in addition to the remaining \$200,000 of Mr. Samenuk's \$800,000 sign-on bonus granted in 2001. Mr. Samenuk's annual base salary for 2003 is \$720,000. Also in 2003, Mr. Samenuk is eligible for an on-target bonus of \$1,000,000, this includes an additional bonus of \$600,000 payable upon the attainment of certain agreed upon objectives.

The chief executive officer evaluates the performance of all other executive officers on an annual basis and recommends salary adjustments, which are subject to review and approval by the compensation committee. Performance evaluations for individual executive officers are based on predetermined individual goals proposed by management and approved by the compensation committee.

Deductibility of Executive Compensation

Section 162(m) of the Internal Revenue Code limits deductions, for federal income tax purposes, of certain executive compensation exceeding \$1,000,000 for any executive officer in any year. Our 1997 Stock Incentive Plan enables compensation recognized in connection with the exercise of options to qualify as an exception to the deduction limit. The compensation committee will continue to evaluate the issues relating to executive compensation and will take appropriate action where necessary. The compensation committee's policy is to qualify its executive compensation for deductibility under applicable tax laws, where possible.

- (1) Except as noted below, all of the above options for Network Associates' common stock granted in 2002 vest at the rate of one-fourth (or 25%) one year from the date of grant and 1/36th per month for the remaining 36 months of the vesting period. Mr. Samenuk's option for 3,000 shares was fully vested upon grant. Mr. Samenuk's option for 47,000 shares will vest in full on January 15, 2005. Under the 1997 Stock Incentive Plan, the board of directors is allowed to modify the terms of outstanding options. The exercisability of options may be accelerated upon a change in control. Options are cancelled on an optionee's termination of employment under certain specified circumstances.
- (2) Other than options granted with exercise prices of \$0.01 per share, all options were granted at an exercise price equal to the fair market value of the common stock on the date of grant.
- (3) These columns present hypothetical future values that might be realized on exercise of the options, less the exercise price. These values assume that the market price of our stock appreciates at a zero, five and ten percent compound annual rate over the term of the options. The five and ten percent rates of stock price appreciation are presented as examples pursuant to the SEC's proxy rules and do not necessarily reflect management's assessment of our future stock price performance. The potential realizable values presented are not intended to indicate the value of the options. For options granted with an exercise price below the market price on the date of grant, the potential realizable values in the zero percent appreciation column reflect the difference between the option exercise price and the market price on the date of grant.

The following table shows stock option exercises and the value of unexercised stock options held by our chief executive officer and our four other most highly compensated executive officers during the year ended December 31, 2002:

If Mr. Martin is terminated other than for cause, or resigns with good reason after (i) the occurrence of a transaction where our stockholders do not own at least 50% of the stock of the surviving corporation; (ii) there has been a change in our directors occurring within a two year period as a result of which fewer than a majority of our directors (x) were directors as of the date of the agreement or (y) were elected, or nominated for election, to the board by a vote of at least a majority of the incumbent directors at the time of such election or nomination; (iii) the acquisition of more than 50% of our stock by another party or (iv) the sale of substantially all of our assets, Mr. Martin will be entitled to all of the severance benefits noted above and all of his stock options will become fully vested.

Kent Roberts entered into an agreement with us dated October 9, 2001, which provides for his at will employment as our executive vice president and general counsel. This agreement also provides that if Mr. Roberts is terminated other than for cause or resigns for good reason, he will be entitled to the following severance benefits: (i) twelve months of severance payments based on Mr. Roberts' base salary and one-third of his targeted bonus, (ii) continued health and other welfare and fringe benefits through the earlier of (x) twelve months from termination or (y) until Mr. Roberts is covered by similar plans by a new employer and (iii) all of Mr. Roberts' shares of restricted stock, if any, and all stock options will become fully vested and, if applicable, any repurchase rights on his shares will lapse. After (i) the occurrence of a transaction where our stockholders do not own at least 50% of the stock of the surviving corporation; (ii) there has been a change in our directors occurring within a two year period as a result of which fewer than a majority of our directors (x) were directors as of the date of the agreement or (y) were elected, or nominated for election, to the board by a vote of at least a majority of the incumbent directors at the time of such election or nomination; (iii) the acquisition of more than 50% of our stock by another party or (iv) the sale of substantially all of our assets, all of Mr. Roberts' shares of restricted stock, if any, and all stock options held by him will become fully vested and if applicable, any repurchase rights on his shares will lapse. Under this agreement, we will indemnify Mr. Roberts for any parachute tax payments that arise pursuant to the agreement.

Raymond Smets entered into an agreement with us dated October 7, 2002, which provides for his at will employment as the president of our Sniffer Technologies group. This agreement also provides that if Mr. Smets is terminated other than for cause or resigns for good reason, he will be entitled to the following severance benefits: (i) six months of severance payments based on Mr. Smets' base salary and one-third of his targeted bonus, and (ii) continued health and other welfare and fringe benefits through the earlier of (x) six months from termination or (y) until Mr. Smets is covered by similar plans by a new employer. After (i) the occurrence of a transaction where our stockholders do not own at least 50% of the stock of the surviving corporation; (ii) there has been a change in our directors occurring within a two year period as a result of which fewer than a majority of our directors (x) were directors as of the date of the agreement or (y) were elected, or nominated for election, to the board by a vote of at least a majority of the incumbent directors at the time of such election or nomination; (iii) the acquisition of more than 50% of our stock by another party or (iv) the sale of substantially all of our assets, all of Mr. Smets' shares of restricted stock, if any, and all stock options held by him will become fully vested and if applicable, any repurchase rights on his shares will lapse. Under this agreement, we will indemnify Mr. Smets for any parachute tax payments that arise pursuant to the agreement.

Indebtedness of Management

Under the terms of Mr. Samenuk's employment agreement, we agreed to loan Mr. Samenuk the funds necessary to pay the taxes due on each vesting date for the 400,000 shares of stock subject to vesting granted to Mr. Samenuk on January 3, 2001. We also agreed to loan Mr. Samenuk the funds necessary to pay the taxes due on the 3,000 shares of stock granted to Mr. Samenuk on January 15, 2002. In accordance with the provisions of the Sarbanes-Oxley Act of 2002, no additional loans were made to Mr. Samenuk after July 30, 2002. In 2001 and 2002 we extended a total of 5 separate loans to Mr. Samenuk in an aggregate amount of \$1,079,028. Each loan had a two-year maturity and bore interest at the applicable federal rate. The loans were

full recourse and secured by Mr. Samenuk's 400,000 shares of stock subject to vesting and 3,000 shares of stock. The last remaining loan was fully repaid in October 2003.

Under the terms of Mr. Matin's employment agreement, we agreed to loan Mr. Matin the funds necessary to pay the taxes due upon the exercise of his 100,000 share option grant. In 2001, we extended a \$864,413 loan to Mr. Matin. This loan had a two-year maturity and bore interest at the applicable federal rate. The loan was full recourse and secured by Mr. Matin's 100,000 shares. The loan was fully repaid in June 2002.

Certain Transactions

During 2002, Ms. Amanda Hodges, the wife of our president, Gene Hodges, was employed by us as senior director of North American human resources. Ms. Hodges was paid an aggregate salary of \$137,499 and a discretionary bonus of \$31,750 for her services during the year. During 2002, Ms. Hodges also received option grants totaling 12,500 shares.

Officers and Directors Insurance

We maintain an insurance policy covering officers and directors to cover any claims made against them for wrongful acts that they may otherwise be required to pay or for which we are required to indemnify them, subject to certain exclusions.

Equity Compensation Plans

Set forth below are the number of options, the weighted average per share exercise price of such options and the number of shares remaining available for issuance under all of our equity compensation plans as of December 31, 2002.

Plan Category	Number of Securities to Be Issued Upon Exercise of Outstanding Options	Weighted-Average Exercise Price of Outstanding Options	Number of Securities Remaining Available for Future Issuance (excluding securities reflected in first column)
Plans approved by stockholders	19,972,178	\$ 16.10	9,451,890
Plans not approved by stockholders	8,324,713	\$ 12.72	1,702,284

Set forth below are descriptions of our equity compensation plans that have not been approved by stockholders.

2000 Nonstatutory Stock Option Plan

In January 2000, the board of directors approved the 2000 Nonstatutory Stock Option Plan (the "2000 Plan"). The 2000 Plan provides for the grant of nonqualified stock options to employees, consultants and in certain cases, officers and directors. The plan administrator determines the exercise price of options granted under the 2000 Plan and when such options may be exercised. The 2000 Plan provides that vested options may be exercised for 3 months after termination of employment other than due to death or disability and for 1 year after termination of employment as a result of death or disability. The 2000 Plan permits options to be exercised with cash, check, certain other shares of our common stock, promissory notes, cancellation of indebtedness, waiver of compensation due or consideration received by us under "cashless exercise" programs. In the event that we merge with or into another corporation, or sell substantially all of our assets, the 2000 Plan provides that each outstanding option will fully vest and become exercisable unless provision is made for options to be assumed or substituted for by the successor corporation. There are 11,500,000 shares of common stock reserved under the 2000 Plan, and 1,252,148 shares remained for future issuance as of December 31, 2002.

1999 Nonstatutory Stock Plan

In May 1999, the board of directors approved the 1999 Nonstatutory Stock Plan (the 1999 Plan). The 1999 Plan provides for the grant of nonqualified stock options to employees, officers, directors and consultants at exercise prices determined by the plan administrator. The plan administrator determines the exercise price of options granted under the 1999 Plan and when such options may be exercised. The 1999 Plan permits options to be exercised with cash, check, certain other shares of our common stock, promissory notes, cancellation of indebtedness, waiver of compensation due or consideration received by us under cashless exercise programs. In the event that we merge with or into another corporation, or sell substantially all of our assets, the 1999 Plan provides that each outstanding option will fully vest and become exercisable unless provision is made for options to be assumed or substituted for by the successor corporation. There are 1,000,000 shares of common stock reserved under the 1999 Plan, and 450,136 shares remained for future issuance as of December 31, 2002.

1997 Non-Officer Stock Plan

In January 1997, the board of directors approved the 1997 Non-Officer Stock Plan (the 1997 Non-Officer Plan). The 1997 Non-Officer Plan provides for the grant of nonqualified nonstatutory stock options to employees and consultants who are not officers of the company at exercise prices determined by the committee administering the plan, but in no event less than 85% of the fair market value of the common stock on the date of the grants. Each stock option agreement entered into under the 1997 Non-Officer Plan shall specify the exercise price, the date on which all or any installment of the option is to become exercisable and the term of the option. The 1997 Non-Officer Plan permits options to be exercised with cash or cash equivalents, certain other shares of common stock, promissory notes (provided, however, that the par value of the shares being purchased shall be paid in cash) and waiver of compensation due or consideration received by us under cashless exercise programs. In the event that we merge with or into another corporation, or sell substantially all of our assets, the 1997 Non-Officer Plan provides that the committee administering the plan may determine, at the time of granting an option or thereafter, that all or part of such option shall fully vest and become exercisable. There are 2,000,000 shares of common stock reserved under the 1997 Non-Officer Plan and there are no shares available for issuance under this plan.

APPENDIX A

SUMMARY OF THE 1997 STOCK INCENTIVE PLAN

The key provisions of the Incentive Plan are summarized below. This summary, however, is not intended to be a complete description of all terms of the Incentive Plan. A copy of the plan text will be furnished to any stockholder upon request. Such a request should be directed to the Corporate Secretary at the company's principal executive office at 3965 Freedom Circle, Santa Clara, CA 95054.

Administration and Eligibility. The Compensation Committee administers the Incentive Plan. Employees, non-employee directors and consultants of the company are eligible to participate in the Incentive Plan, although incentive stock options may be granted only to employees. As of September 30, approximately 3,683 employees and consultants would have been eligible to participate in the Incentive Plan.

Form of Awards. Awards under the Incentive Plan may take the form of options to acquire common stock of the company, stock appreciation rights (SARs), restricted shares or stock units, or any combination of these. No payment is required upon the grant of an award, except for the payment of the par value of any Restricted Stock awarded.

Options may include nonstatutory stock options (NSOs) as well as incentive stock options (ISOs) intended to qualify for special tax treatment. The term of an option cannot exceed 10 years. The exercise price of an ISO must be equal to or greater than the fair market value of the common stock on the date of grant, while the exercise price of an NSO must be equal to or greater than 85% of fair market value. As of September 30, 2003, the closing price of the company's common stock on the New York Stock Exchange was \$13.76 per share.

The exercise price of an option may be paid in any legal form permitted by the Compensation Committee, including:

a full-recourse promissory note (except as would be prohibited by the Sarbanes-Oxley Act of 2002);

the surrender of shares of common stock; or

the surrender of restricted shares already owned by the optionee.

The Compensation Committee may also permit optionees to pay off their withholding tax obligation upon exercise of an NSO by surrendering a portion of their option shares to the company. The Incentive Plan also allows the optionee to pay the exercise price of an option through a cashless exercise in a broker assisted transaction.

At any point in time, the Compensation Committee may offer to buy out an outstanding option for cash or give an optionee the right to give up their option for cash.

A SAR permits the participant to elect to receive any appreciation in the value of the underlying stock from the company. This appreciation may be in shares of common stock, cash or a combination of the two, with the Compensation Committee having the discretion to determine the form in which such payment is made. The amount payable on exercise of a SAR is measured by the difference between the market value of the underlying stock at exercise and the exercise price. All SARs intended to be exempt from the section 162(m) limit will be granted with an exercise price equal to or greater than 100% of the fair market value of the common stock on the date of grant. SARs may, but need not, be granted in conjunction with options. Upon exercise of a SAR granted in tandem with an option, the corresponding portion of the related option must be surrendered and cannot thereafter be exercised. Conversely, upon exercise of an option to which a SAR is attached, the SAR may no longer be exercised to the extent that the corresponding option has been exercised.

Restricted shares are shares of common stock that are subject to forfeiture in the event that the applicable vesting conditions are not satisfied. Restricted shares have the same voting and dividend rights as other shares of common stock. The recipient of restricted shares may pay all projected withholding taxes relating to the award with shares of common stock rather than cash.

A *stock unit* is an unfunded bookkeeping entry representing the equivalent of one share of common stock. A holder of stock units has no voting rights or other privileges as a stockholder but may be entitled to receive dividend equivalents equal to the amount of dividends paid on the same number of shares of common stock. Dividend equivalents may be converted into additional stock units or settled in the form of cash, common stock or a combination of both. Stock units, when vested, may be settled by distributing shares of common stock or by a cash payment corresponding to the fair market value of an equivalent number of shares of common stock, or a combination of both. Vested stock units are settled at the time determined by the Compensation Committee. If the time of settlement is deferred, interest or additional dividend equivalents may be credited on the deferred payment. The recipient of stock units may pay all withholding taxes relating to the settlement of the award with common stock rather than cash.

Vesting Conditions. The Compensation Committee determines the vesting and other conditions. The vesting conditions may be based on:

the length of the recipient's service;

his or her individual performance;

the company's performance; and

other appropriate criteria.

In the case of restricted shares and stock units, vesting is based on the company's performance.

Where company performance is used as a vesting or issuance condition, performance goals are based on business criteria specified by the Compensation Committee, selected from one or more of the following:

cash flow,
earnings per share,
gross margin,
net income,
operating income,
operating margin,
pre-tax profit,
return on assets,

return on capital,
return on stockholder equity,
growth with respect to any of the foregoing measures,
expense reduction,
growth in bookings,
growth in revenue, and
stock price increase.

Vesting may be accelerated in the event of the recipient's death, disability or retirement or in the event of a transfer of control with respect to the company. Transfer of control is defined in the Incentive Plan as:

the direct or indirect sale or exchange by the stockholders of the company of all or substantially all of the voting stock of the company;

a merger in which the company is a party; or

the sale, exchange or transfer of all or substantially all of the assets of the company.

A transfer of control will also occur in the event of a liquidation or dissolution of the company.

Deferral of Awards. The Compensation Committee may permit or require the recipient of an award to:

have cash that otherwise would be paid to him or her, as a result of the exercise of an SAR or the settlement of stock units, credited to a deferred compensation account established for him or her as an entry on the company's books;

to have shares of common stock that otherwise would be delivered to him or her as a result of the exercise of an option or SAR converted into an equal number of stock units; or

to have shares that otherwise would be delivered to him or her as a result of the exercise of an option or SAR or the settlement of stock units converted into an amount credited to a deferred compensation account established for him or her on the company's books.

The amount to be credited is measured by reference to the fair market value of common stock as of the date when shares otherwise would have been delivered to the award recipient. A deferred compensation account established under this provision may be credited with interest or other forms of investment return, as determined by the Compensation Committee.

Number of Reserved Shares and Maximum Awards. The total number of shares of the company's common stock that may be issued under the Incentive Plan, subject to shareholder approval, is 34.48 million. Under the terms of the Incentive Plan, if:

any options, SARs, restricted shares or stock units are forfeited;

if options or SARs terminate for any other reason prior to exercise;

if options currently outstanding under the Predecessor Plan are forfeited or otherwise terminate unexercised; or

if stock units are settled,

then only the number of shares (if any) actually issued in settlement of such stock units reduces the number of shares available under the Incentive Plan and the balance again becomes available for awards under the Plan. If SARs are exercised, then only the number of shares (if any) actually issued in settlement of such SARs reduces the number available and the balance again becomes available for awards. No individual may receive options or SARs covering more than one million shares in any calendar year (subject to anti-dilution adjustments), except that the limit is 1.5 million shares for a new employee in the year in which he or she is hired. In the case of an award that is subject to performance vesting conditions, no individual may receive more than 300,000 restricted shares or stock units in any calendar year (subject to anti-dilution adjustments).

New Plan Benefits. Awards under the Incentive Plan are discretionary. Therefore, it is not possible to determine the benefits that will be received in the future by participants in the Incentive Plan.

The following table summarizes the option grants that were made to each of the executive officers listed in the Summary Compensation Table, as well as the groups indicated below, under the Incentive Plan during the fiscal year ended December 31, 2002:

	Number of Shares Granted
George Samenuk	470,000
Stephen Richards	100,000
Gene Hodges	0
Arthur Matin	150,000
Kent Roberts	100,000
Executive Officers as a Group	1,070,000
Non-Employee Directors as a Group	0
Non-Executive Officer Employees as a Group	5,777,897

Federal Tax Consequences

The federal income tax consequences of awards under the Incentive Plan are summarized as follows:

Options

The award of stock options will have no federal income tax consequences to the company or the optionee at the time of the option grant.

For ISOs the exercise will not result in any regular taxable income to the optionee at the time and neither will the company be entitled to any deduction, however, at the time of exercise, the excess of the fair market value over the exercise price is an adjustment for purposes of computing alternative minimum taxable income. If the optionee holds the shares for the required statutory period, the difference between the sale price and the

exercise price generally will be taxed as a capital gain or loss. If the optionee holds the shares for less than the statutory period, the optionee will generally recognize ordinary income at the time of the sale equal to the excess of the fair market value of the shares at exercise (or if less, the sales proceeds) over the exercise price and the company will generally be entitled to a deduction for the same amount. Any additional gain on the disposition will generally be taxed as a capital gain.

For NSOs the optionee will generally recognize taxable income equal to the excess of the fair market value at the time of exercise over the exercise price. This taxable income will be subject to withholding tax.

Also the company can take a deduction equal to the ordinary income recognized by the optionee. Upon any subsequent disposition of the shares, the difference between the sale price and the exercise price will generally be taxed as capital gain or loss.

Restricted Shares

For restricted shares, unless the purchaser elects to be taxed at the time of issuance, these shares will generally be taxed in the same way as NSOs. However, due to the company's right to repurchase the shares when the purchaser stops providing services to the company, the holder does not recognize ordinary income at the time of the sale, but at the time at which the company's right to repurchase the shares stops. Ordinary income is measured as the difference between the purchase price and the fair market value of the shares on the date that the company's right to repurchase the shares stops.

Stock Appreciation Rights

For SARs, no income is recognized at the time of the grant. When the right is exercised, the recipient will recognize taxable income equal to the amount of the cash received and the fair market value of any common stock received. For a recipient who is also an employee, the income recognized will be subject to withholding and the company will be able to take a deduction equal to the same amount of that income. For common stock received upon exercise of an SAR, the subsequent sale will be treated in the same way as the gain or loss on an NSO.

Stock Units

The grant of a stock unit award results in no federal income tax consequences for the participant or the company. The payment of a stock unit award results in taxable income to the participant equal to the amount of the payment received. The value is based on the fair market value of the common stock on the date of the payment. The company will be able to take a deduction equal to the same amount.

APPENDIX B

SUMMARY OF THE STOCK OPTION PLAN FOR OUTSIDE DIRECTORS

The key provisions of the Outside Directors Plan are summarized below. This summary, however, is not intended to be a complete description of all terms of the Outside Directors Plan. A copy of the plan text will be furnished to any stockholder upon request. Such a request should be directed to the Corporate Secretary at the Company's principal executive office at 3965 Freedom Circle, Santa Clara, CA 95054.

Each outside director who is elected or re-elected for a term longer than one year is entitled to receive options on the date of election and each year during his or her term. Subject to stockholder approval, on a director's initial election to the Board, they are automatically granted an option to purchase 50,000 shares and each year after that they are automatically granted an option to purchase 25,000 shares.

Service Required for Exercise

The initial grant made to an Outside Director under the Plan becomes exercisable one-third after one year of continuous service as a director and one-third at the end of each continuous year of service as director for the following two years.

Each grant subsequent to the initial grant is exercisable in full after three years of continuous service as a director.

Number of Shares Reserved

The total number of shares of the Company's Common Stock available for grants under the Outside Directors Plan as of September 30, 2003 is 377,185.

The Outside Directors Plan is administered by the Board of Directors and/or by a duly appointed committee with powers specified by the Board (hereinafter referred to as the Board). All questions of interpretation of the Outside Directors Plan are determined by the Board, and such determinations are final and binding.

Transfer of Control

For purposes of the Outside Directors Plan, the term "transfer of control" means:

sale or exchange of substantially all of the voting stock of the Company;

a merger or consolidation;

sale, exchange or transfer of substantially all of the assets of the Company.

In the event of a Transfer of Control, any unexercisable or unvested portion of the outstanding Options will become immediately exercisable and vested in full, 10 days prior to the date of the transfer of control.

The Plan is intended to comply with the requirements of Rule 16b-3 under the Exchange Act.

New Plan Benefits

The following table summarizes the option grants that were made to each of the non-employee directors under the Outside Directors Plan during the fiscal year ended December 31, 2002:

	Number of Shares Granted

APPENDIX C

SUMMARY OF THE 2002 EMPLOYEE STOCK PURCHASE PLAN

Summary of the Purchase Plan

The key provisions of our 2002 Employee Stock Purchase Plan (the Purchase Plan) are summarized below. This summary, however, is not intended to be a complete description of all terms of the Purchase Plan. A copy of the plan text will be furnished to any stockholder upon request. Such request should be directed to the Corporate Secretary at our principal office at 3965 Freedom Circle, Santa Clara, CA 95054.

General. The Purchase Plan is intended to qualify as an employee stock purchase plan under section 423 of the Code. Each participant in the Purchase Plan is granted a purchase right at the beginning of each offering period under the plan, which gives the participant the right to purchase shares of our common stock through accumulated payroll deductions.

Shares Subject to Plan. A maximum of 2,000,000 of our authorized but unissued or reacquired shares of common stock may be issued under the Purchase Plan, subject to appropriate adjustment in the event of any stock dividend, stock split, reverse stock split, recapitalization, combination, reclassification, or similar change in the capital structure of the company, or in the event of any merger, sale of assets or other reorganization of the company. If a purchase right expires or terminates, the shares subject to the unexercised portion of the purchase right will again be available for issuance under the Purchase Plan.

Administration. The Purchase Plan is administered by the board of directors or a duly appointed committee of the board. Subject to the provisions of the Purchase Plan, the board determines the terms and conditions of purchase rights. The board will interpret the Purchase Plan and purchase rights granted thereunder, and all determinations of the board will be final and binding on all persons having an interest in the Purchase Plan or any purchase right. The Purchase Plan provides, subject to certain limitations, for indemnification by the company of any director, officer or employee against all reasonable expenses, including attorneys' fees, incurred in connection with any legal action arising from such person's action or failure to act in administering the plan.

Eligibility. Any employee of ours or of any present or future parent or subsidiary corporation designated by the board for inclusion in the Purchase Plan is eligible to participate, so long as the employee works at least 20 hours per week and has been employed for at least 30 days. However, no employee who owns or holds options to purchase, or who, as a result of participation in the Purchase Plan, would own or hold options to purchase, 5% or more of the total combined voting power or value of all classes of our stock or of any parent or subsidiary corporation is eligible to participate in the Purchase Plan. As of September 30, 2003, approximately 3,041 employees, including all of our executive officers, were eligible to participate in the Purchase Plan.

Offerings. Generally, the Purchase Plan will provide for sequential and overlapping offerings of approximately 24 months duration commencing on or about February 1 and August 1 of each year and ending on or about the last days of the second January and July thereafter, respectively. Each offering period will generally consist of 4 consecutive purchase periods of approximately six months duration. The board may establish a different term for one or more offerings, not to exceed 27 months, or different starting or ending dates for any offering period or purchase period.

Participation and Purchase of Shares. Participation in an offering is limited to eligible employees who deliver a properly completed subscription form prior to the offering date, which is the first day of an offering period. Payroll deductions may not exceed 10% (or such other rate as the board determines) of an employee's compensation on any payday during the offering period. An employee who becomes a participant in the Purchase Plan will automatically participate in each subsequent offering period beginning immediately after the last day of the offering period in which he or she is a participant until the employee withdraws from the Purchase Plan, becomes ineligible to participate, or terminates employment.

Subject to any limitations or notice requirements which we impose, a participant may increase or decrease his or her rate of payroll deductions or withdraw from the Purchase Plan at any time during an

offering. Upon withdrawal, we will refund without interest the participant's accumulated payroll deductions not previously applied to the purchase of shares. A participant who withdraws from an offering may not again participate in the same offering. If the fair market value of a share of common stock on the last day of a purchase period, other than the final purchase period of an offering, is less than the fair market value of a share of common stock on the offering date of that offering, then, unless a participant elects otherwise, each participant will be withdrawn automatically from the current offering after purchasing shares and enrolled in the new offering commencing immediately following thereafter.

Subject to certain limitations, each participant in an offering is granted a purchase right equal to the lesser of a number of whole shares determined by dividing \$50,000 by the fair market value of a share of common stock on the offering date or 10,000 shares. In addition, no participant may purchase shares under this plan or any other employee stock purchase plan of ours (or of our subsidiaries) to the extent that the right to purchase shares accrues at a rate exceeding \$25,000 (based on the fair market value of the shares on the offering date) for each calendar year in which the purchase right is outstanding. Purchase rights are nontransferable and may only be exercised by the participant.

On the last day of each purchase period during an offering, each participant purchases a number of shares determined by dividing the amount of his or her payroll deductions accumulated during the purchase period by the purchase price, limited in any case by the number of shares subject to the participant's purchase right for that offering.

The price at which shares are sold under the Purchase Plan is equal to 85% of the lesser of the fair market value per share of our common stock on (i) the offering date or (ii) the purchase date. The fair market value of our common stock on any relevant date generally will be the closing price per share as reported on the New York Stock Exchange. On September 30, 2003, the closing price per share of our common stock was \$13.76. Any payroll deductions under the Purchase Plan not applied to the purchase of shares will be returned to the participant without interest, unless the amount remaining is less than the amount necessary to purchase an additional whole share, in which case the remaining amount may be applied to the next purchase period.

Change in Control. In the event of a change in control, as defined in the Purchase Plan, the surviving, continuing, successor or purchasing corporation or other business entity or parent thereof may assume our rights and obligations under the Purchase Plan. However, if the acquiror elects not to assume such rights and obligations, the purchase date of the then current purchase period will be accelerated to a date before the change in control specified by the board. Any purchase rights that are not assumed or exercised prior to the change in control will terminate.

Termination or Amendment. The Purchase Plan will continue until terminated by the board or until all of the shares reserved for issuance under the plan have been issued. The board may at any time amend or terminate the Purchase Plan, except that the approval of our stockholders is required within twelve months of the adoption of any amendment increasing the number of shares authorized for issuance under the Purchase Plan, or changing the definition of the corporations which may be designated by the board as corporations whose employees may participate in the Purchase Plan.

Summary of United States Federal Income Tax Consequences

The following summary is intended only as a general guide as to the United States federal income tax consequences under current law of participation in the Purchase Plan and does not attempt to describe all possible federal or other tax consequences of such participation or tax consequences based on particular circumstances.

Generally, there are no tax consequences to an employee of either becoming a participant in the Purchase Plan or purchasing shares under the Purchase Plan. The tax consequences of a disposition of shares vary depending on the period such stock is held before its disposition. If a participant disposes of shares within two years after the offering date or within one year after the purchase date on which the shares are acquired (a disqualifying disposition), the participant recognizes ordinary income in the year of disposition in an amount equal to the difference between the fair market value of the shares on the purchase date and the purchase

price. Any additional gain or resulting loss recognized by the participant from the disposition of the shares is a capital gain or loss.

If the participant disposes of shares at least two years after the offering date and at least one year after the purchase date on which the shares are acquired, the participant recognizes ordinary income in the year of disposition in an amount equal to the lesser of (i) the difference between the fair market value of the shares on the date of disposition and the purchase price or (ii) an amount equal to 15% of the fair market value of the shares on the offering date. Any additional gain recognized by the participant on the disposition of the shares is a capital gain. If the fair market value of the shares on the date of disposition is less than the purchase price, there is no ordinary income, and the loss recognized is a capital loss.

A capital gain or loss will be long-term if the participant holds the shares for more than 12 months and short-term if the participant holds the shares for 12 months or less. Currently, long-term capital gains are generally subject to a maximum tax rate of 20%.

If the participant disposes of the shares in a disqualifying disposition, we should be entitled to a deduction equal to the amount of ordinary income recognized by the participant as a result of the disposition, except to the extent such deduction is limited by applicable provisions of the Code or the regulations thereunder. In all other cases, we are not allowed a tax deduction.

New Plan Benefits. Because benefits under the Purchase Plan will depend on employees' elections to participate and the fair market value of our common stock at various future dates, it is not possible to determine the benefits that will be received by executive officers and other employees. Non-employee directors are not eligible to participate in the Purchase Plan.

During the fiscal year ended December 31, 2002, no benefits were received by any individuals under the Purchase Plan. During 2002 benefits were received by individuals under the 1994 Employee Stock Purchase Plan.

The Purchase Plan was implemented in late 2002. The initial purchase period under the Purchase Plan did not end until we filed our 2002 Form 10-K and Form 10-Qs for the three and six months ended March 31 and June 30, 2003 in late 2003. As a result, during the fiscal year ended December 31, 2002, no benefits were received by any individuals under the Purchase Plan.

9. Inquire of management and the independent auditors about significant risks or exposures, and assess the steps management has taken to minimize such risks to the Company.
