**Table of Contents****Item 2.06 Material Impairments**

On Sept. 27, 2004, Xcel Energy Inc.'s board of directors authorized the pursuit of a sale of Xcel Energy's broadband communications services business operated through its wholly-owned subsidiary, Seren Innovations, Inc. Xcel Energy determined that continued ownership is not consistent with its strategy of building the core utility operations. The sale is anticipated to be completed during the first quarter of 2005.

Seren delivers cable television, high-speed Internet and telephone service over an advanced network to over 45,500 customers in St. Cloud, Minn. and Contra Costa and Walnut Grove, Calif. Seren's 2003 revenue was approximately \$36 million. Xcel Energy's equity investment in Seren is approximately \$253 million.

As a result of the decision, Seren will be accounted for as discontinued operations. It is expected that an after-tax impairment charge, including disposition costs, of between \$100 million and \$125 million will be recorded in the third quarter, based on preliminary valuation estimates of \$1,500 to \$2,400 per subscriber. Future cash expenditures resulting from the charge are estimated to be immaterial.

See the related Press Release filed as exhibit 99.01.

**Item 7.01 Regulation FD Disclosure**

*Xcel Energy 2004 Updated Earnings Guidance* Xcel Energy's 2004 earnings per share guidance and a condensed summary of key assumptions are detailed in the following table:

	<b>2004 Diluted Earnings Per Share Range</b>
	<hr/>
Utility operations	\$1.22 - \$1.30
Holding company financing costs	(\$0.08)
Eloigne	\$0.01
Other nonregulated subsidiaries	\$0.00 - \$0.02
	<hr/>
<b>Xcel Energy Continuing Operations</b>	<b>\$1.15 - \$1.25</b>
Discontinued Operations - Seren & Other	(\$0.30) - (\$0.25)
	<hr/>
<b>Total Xcel Energy</b>	<b>\$0.85 - \$1.00</b>
	<hr style="border-top: 3px double #000;"/>

*Key Assumptions for 2004 Earnings Guidance:*

Seren is held for sale and accounted for as discontinued operations.

Discontinued operations include Seren's projected operating losses for 2004 and an estimated after-tax

impairment charge of \$100 million to \$125 million, in addition to some previously recorded results from discontinued operations.

Adverse temperatures (primarily cooler than normal summer temperatures), which reduced earnings by approximately 7 cents per share for the first eight months of 2004 (including an earnings reduction of 4 cents per share for mild temperatures in July and August) will not continue with normal weather patterns experienced for the remainder of 2004.

See the related Press Release filed as exhibit 99.01.
