Proxy Statement

General

This Proxy Statement is furnished in connection with the solicitation of proxies by the Board of Directors of First Busey Corporation for use at the Annual Meeting of Stockholders. The Board has fixed the close of business on March 1, 2005, as the record date for determining the stockholders entitled to notice of, and to vote at, the Annual Meeting. On the record date, the Company had outstanding and entitled to vote 20,577,651 shares of Common Stock, no par value.

The Company's Form 10-K Annual Report, which includes audited financial statements for the year ended December 31, 2004, accompanies this Proxy Statement. The financial statements contained in the Company's 2004 Annual Report are not deemed material to the exercise of prudent judgment in regard to the matters to be acted upon at the Annual Meeting and, therefore, are not incorporated by reference into this Proxy Statement. The approximate date on which the Proxy Statement and the accompanying proxy are first being sent to stockholders is March 16, 2005.

Voting

General. Shares of Common Stock represented by properly executed proxies received by the Company will be voted at the Annual Meeting in accordance with the instructions on the proxies. If there are no such instructions, the shares will be voted FOR (i) the election of the nominees for directors named in this Proxy Statement and (ii) the approval of the Amended and Restated Articles of Incorporation of the Company. Properly executed proxies received by the Company will also be voted at the Annual Meeting in accordance with the Board's recommendations on any other matters which may come before the Annual Meeting.

In order to be elected a director, a nominee must receive a plurality of the votes cast at the meeting for the election of directors. Because the seven nominees receiving the largest number of affirmative votes will be elected, shares represented by proxies which are marked withhold authority or abstain as to election of directors will have no effect on the outcome of the election. The proposed Amended and Restated Articles of Incorporation of the Company must be approved by a majority of the outstanding shares of Common Stock of the Company. Accordingly, proxies which are marked abstain as to this matter will be the same as a negative vote on the matter.

Directors and Executive Officers. All of the directors and executive officers of the Company have advised the Company that they will vote their shares of Common Stock FOR the election of the nominees for director and FOR the approval of the Amended and Restated Articles of Incorporation. As of February 1, 2005, these individuals beneficially owned an aggregate of 6,563,625 shares, or approximately 31.8% of the Common Stock outstanding.

Revocability of Proxies

Stockholders may revoke their proxy by a later proxy or by giving notice of such revocation to the Company in writing or at the Annual Meeting before such proxy is voted. Attendance at the Annual Meeting will not in and of itself constitute the revocation of a proxy.

Table of Contents

Solicitation

The Company will pay the cost of solicitation of proxies. In addition to solicitation by mail, officers, directors and regular employees of the Company may solicit proxies by telephone, telefax or in person without additional compensation. Brokerage houses, bank nominees, fiduciaries and other custodians will be requested to forward soliciting material to the beneficial owners of shares held of record by them and will be reimbursed for their reasonable expenses.

Report of the Compensation Committee on Executive Compensation

The Executive Management Compensation and Succession Committee of the Board of Directors administers the Company's executive compensation program. After consideration of the Committee's recommendations, the full Board of Directors reviews and approves all compensation, both monetary and stock-based to all executive officers.

There are three main components to the executive management compensation package: (1) salary, (2) bonus and (3) stock awards, typically in the form of stock options.

The cash portion of compensation (annual salary and bonus) is determined after completing an analysis of peer compensation and performance. Stock-based compensation is based similarly on peer stock-based compensation and performance and reflects the Committee's belief that stock ownership by its management is critical to align the executive officers' interests with those of the Company's stockholders.

Salaries for the executive officers are determined after consultation with a third party, which undertook and completed a study of peer compensation.

In early 2004, the Committee recommended and the Board of Directors approved the Management and Associate Dividend Program, or the MAD program, for 2004. Payments under the MAD program comprise the officers' respective cash bonus. Under the 2004 MAD program, the Board of Directors, upon the recommendation of the Committee, set four targeted levels for diluted earnings per share for the Company for fiscal 2004. For the executive officers, these levels were \$1.0533, \$1.0600, \$1.0666 and \$1.0733 and were to exclude the contribution from First Capital Bank, the acquisition of which closed in June of 2004.

Based on the level of achievement of earnings per share, the executive officers would receive a dividend of a predetermined percentage of their salary. If the minimum level was not reached, there

Table of Contents

would be no dividend paid under the MAD program. If the top level was exceeded, the dividend would not be increased. The goal of the MAD program is to heighten awareness of the Company's earnings per share goal while emphasizing the impact of the team concept throughout the organization. The term "dividend" is used to indicate that this award was granted at the discretion of the Board of Directors and is based annually on the achievement of earnings per share, similar to the dividend paid to the Company's stockholders.

Compensation of the Chief Executive Officer

Base Salary/MAD Program. Mr. Mills' 2004 base salary was set at \$100,000, representing a 33 1/3% decrease from his base salary of \$150,000 for 2003. The Committee determined that under the MAD program, if the level of earnings per share set by the Board was achieved, \$1.0533, \$1.0600, \$1.0666, or \$1.0733, excluding the net income of First Capital Bank, Mr. Mills' dividend would be \$80,000, \$90,000, \$150,000, or \$160,000, respectively. Based on the Company's achievement of earnings per share of \$1.0733, excluding the contribution resulting from the First Capital acquisition, Mr. Mills received a cash dividend of \$160,000 which comprised Mr. Mills' cash bonus for fiscal 2004.

Stock Options. Mr. Mills was granted stock options exercisable for 40,000 shares of the Company's Common Stock, or 13% of the total stock options granted to employees in 2004.

The Company's banking subsidiaries have, and may be expected to have in the future, banking transactions in the ordinary course of business with directors, director nominees, executive officers and holders of 5% or more of the Company's Common Stock, their immediate families and their affiliated companies. These transactions have been and will be on the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with unaffiliated persons. These transactions have not involved and will not involve more than the normal risk of collectibility or any other unfavorable features. At December 31, 2004, these persons and companies were indebted to the Company's banking subsidiaries for loans totaling approximately \$1.713 million representing 1.23% of total stockholders' equity. In addition to these loans, the Company's banking subsidiaries make loans to officers of the Company's subsidiaries who are not executive officers of First Busey.

Proposal No. 2

Change in the par value of the Company's Capital Stock from no par value per share to \$.001 par value per share under the Company's Amended and Restated Articles of Incorporation

The Company's Board of Directors has unanimously adopted a resolution seeking stockholder approval to amend the par value of its capital stock from no par value per share to \$.001 per value per share. The proposed amendment will not have any material effect on the Company's business, operations, reporting requirements or stock price. Stockholders will not be required to have new stock certificates reflecting the change in the par value.

A copy of the proposed Amended and Restated Articles of Incorporation is attached as Annex A to this Proxy Statement.

Par value is used to designate the lowest value for which a company can sell its stock, and is used in valuing the common stock on a company's balance sheet. Historically, the concepts of par value and the stated capital of a company were to protect creditors and senior security holders by ensuring that a company received at least the par value as consideration for issuance of its shares. Over time, these concepts have lost their significance for the most part. So, while an increase in par value may at one time have been significant, that is no longer true.

The increase in the par value would have no effect on the Company's stockholders' equity as computed according to generally accepted accounting principles and as such equity is shown in the financial statements. The change in par value would not change the number of authorized shares of capital stock. Authorized shares will remain at 40,000,000 for shares of common stock and 1,000,000 for

Table of Contents

shares of preferred stock. The change in par value will also not affect outstanding stock options.

The change from a no par value to a stipulated par value of \$.001 per share, if approved by the stockholders, will result in a reclassification on the Company's balance sheet, shifting amounts within the shareholder's equity category between the common stock line item and the surplus line item, and thus will not affect the overall balance sheet amounts. The change also will not affect the consolidated statements of income. The change in par value will cause technical changes in the balance sheet as to the amounts shown as common stock and surplus.

In addition, certain states base the amount of franchise taxes and filing fees payable by a corporation on the par value of its authorized shares. Nevada recently adopted such a provision. The increase in par value will decrease our franchise tax payments and our filing fees within the State of Nevada because at no par value, the State of Nevada automatically assessed the maximum franchise tax for the Company, \$11,000 per year.

Vote Required

The affirmative vote of a majority of the total number of shares of issued and outstanding common stock is required to approve the change in the par value of the Company's capital stock from no par value per share to \$.001 par value per share.

The Company's Board of Directors recommends that stockholders vote FOR the approval of the Amended and Restated Articles of Incorporation, which increases the par value of the Company's capital stock from no par value per share to \$.001 par value per share.

Other Business

So far as is presently known, there is no business to be transacted at the Annual Meeting other than that referred to in the Notice of Annual Meeting of Stockholders and it is not anticipated that other matters will be brought before the Annual Meeting. If, however, other matters should properly be brought before the Annual Meeting, it is intended that the proxy holders may vote or act in accordance with the Company's Board of Directors' recommendation on such matters.

Stockholder Proposals

If a stockholder intends to present a proposal at the Company's 2006 Annual Meeting and desires that the proposal be included in the Company's Proxy Statement and form of proxy for that meeting, the proposal must be in compliance with Rule 14a-8 under the Exchange Act and received at the Company's principal executive offices not later than November 15, 2005. As to any proposal that a stockholder intends to present to stockholders without inclusion in the Company's Proxy Statement for the Company's 2006 Annual Meeting of Stockholders, the proxies named in management's proxy for that meeting will be entitled to exercise their discretionary authority on that proposal unless the Company receives notice of the matter to be proposed not later than January 30, 2006. Even if proper notice is

received on or prior to January 30, 2006, the proxies named in management's proxy for that meeting may nevertheless exercise their discretionary authority with respect to such matter by advising stockholders of such proposal and how they intend to exercise their discretion to vote on such matter, unless the stockholder making the proposal solicits proxies with respect to the proposal to the extent required by Rule 14a-4(c)(2) under the Exchange Act.
