Item 8.01. Other Events.

On March 21, 2007, the Company announced that its Board of Directors has authorized a \$3.0 billion increase in the aggregate size of the Company's existing \$4.5 billion, 36-month share repurchase program that commenced in July 2006. Under the enhanced share repurchase program, the Company is now authorized to repurchase an aggregate of up to \$7.5 billion of its outstanding common shares (including approximately \$1.0 billion of shares already purchased under the existing program to date) during the same period.

Under the enhanced \$7.5 billion share repurchase program, the Company will repurchase shares from time to time for cash in open-market transactions or in privately negotiated transactions in accordance with applicable federal securities laws. The timing and amount of the repurchases will be determined by the Company's management based on their evaluation of market conditions,

share price and other factors. The share repurchase program may be suspended or discontinued at any time. The Company also announced on March 21, 2007 that it has entered into a \$2.0 billion accelerated share repurchase (the ASR ) agreement. Under the agreement, Motorola will immediately pay \$2.0 billion and will receive a substantial majority of the shares to be delivered under the agreement within four weeks. The specific number of shares to be repurchased is generally based on the volume weighted average share price of the Company's common shares during the term of the ASR agreement, subject to collar provisions that establish the minimum and maximum numbers of shares. The Company expects the final delivery of any additional shares to occur before the end of 2007, although in certain circumstances the completion date may be shortened or extended. All of the repurchased shares will be retired. Upon completion of the ASR, the Company will have repurchased \$3.0 billion of the \$7.5 billion of repurchases now authorized under the enhanced program. With the ASR, since May 2005, when the Company commenced its first-ever stock repurchase program, the Company will have purchased a total of \$7.0 billion of shares out of the aggregate \$11.5 billion of authorized repurchases.
