MANHATTAN ASSOCIATES INC
Form 10-K405
April 01, 2002

SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, DC 20549

FORM 10-K

FOR ANNUAL AND TRANSITION REPORTS PURSUANT TO
SECTIONS 13 OR 15(D) OF THE SECURITIES EXCHANGE ACT OF 1934

(MARK ONE)

- ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(D) OF THE
SECURITIES EXCHANGE ACT OF 1934
FOR THE FISCAL YEAR ENDED DECEMBER 31, 2001
OR
 TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(D) OF THE
SECURITIES EXCHANGE ACT OF 1934
FOR THE TRANSITION PERIOD FROM _____ TO _____

COMMISSION FILE NUMBER: 000-23999

MANHATTAN ASSOCIATES, INC.
(Exact Name of Registrant As Specified in Its Charter)

GEORGIA
(State or Other Jurisdiction of
Incorporation or Organization)

2300 WINDY RIDGE PARKWAY,
SUITE 700
ATLANTA, GEORGIA
(Address of Principal Executive Offices)

58-2373424
(I.R.S. Employer Identification No.)

30339
(Zip Code)

Registrant's telephone number, including area code: (770) 955-7070

SECURITIES REGISTERED PURSUANT TO SECTION 12(B) OF THE ACT:

TITLE OF EACH CLASS -----	NAME OF EXCHANGE ON WHICH REGISTERED -----
NONE	NONE

Securities registered pursuant to Section 12(g) of the Act:

COMMON STOCK, \$.01 PAR VALUE PER SHARE

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

Indicate by check mark whether the Registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of Registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

The aggregate market value of the voting stock held by non-affiliates of the Registrant, based upon the closing sales price of the Common Stock on March 31, 2002 as reported by the Nasdaq Stock Market, was approximately \$604,993,748. The shares of Common Stock held by each officer and director and by each person known to the Registrant who owns 5% or more of the outstanding Common Stock have been excluded in that such persons may be deemed to be affiliates. This determination of affiliate status is not necessarily a conclusive determination for other purposes. As of March 31, 2002, the Registrant had outstanding 28,508,482 shares of Common Stock.

DOCUMENTS INCORPORATED BY REFERENCE

The Registrant's definitive Proxy Statement for the Annual Meeting of Shareholders to be held May 17, 2002 is incorporated by reference in Part III of this Form 10-K to the extent stated herein.

FORWARD-LOOKING STATEMENTS

In addition to historical information, this Annual Report may contain "forward-looking statements" relating to Manhattan Associates, Inc. Prospective investors are cautioned that any such forward-looking statements are not guarantees of future performance and involve risks and uncertainties, and that actual results may differ materially from those contemplated by such forward-looking statements. Among the important factors that could cause actual results to differ materially from those indicated by such forward-looking statements are delays in product development, undetected software errors, competitive pressures, technical difficulties, market acceptance, availability of technical personnel, changes in customer requirements and general economic conditions. Additional factors are set forth in "Safe Harbor Compliance Statement for Forward-Looking Statements" included as Exhibit 99.1 to this Annual Report on Form 10-K. We undertake no obligation to update or revise forward-looking statements to reflect changed assumptions, the occurrence of unanticipated events or changes in future operating results.

PART I

ITEM 1. BUSINESS

We are a leading global provider of technology-based solutions to improve the effectiveness of and the efficiencies within the extended supply chain. Our solutions, which consist of software, services and hardware, enhance distribution efficiencies through the real-time integration of extended supply chain constituents, including manufacturers, distributors, retailers, suppliers, transportation providers and consumers. Our software provides solutions for the three principal elements of extended supply chain execution, or "x-SCE": collaboration, execution and optimization. Collaboration solutions provide real-time synchronization of key processes and their associated information

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

flows across the extended supply chain, including customer process synchronization, trading partner personalization, supplier process enablement, carrier compliance and communication, global inventory visibility and supply chain event management. Execution solutions include the performance of the many processes that take place in the warehouse and distribution center, beginning with the placement of an order by a customer and ending with the fulfillment and delivery of the order to the end customer. Optimization solutions use analytic tools and techniques to improve the efficiency of distribution center operations through the use of either rules-based or algorithm-based models to solve problems that are too complex or too time consuming for manual processing. We also provide services, including design, configuration, implementation and training services, plus customer support services and software enhancement subscriptions.

Our software products allow organizations to manage the receiving, stock locating, stock picking, order verification, assembly, order packing and shipment of products in complex distribution centers and to provide better visibility between our customers and their trading partners. Our software products are designed to optimize the operation of a distribution center and to facilitate supply chain collaboration by:

- reducing inventory levels and increasing inventory turnover;
- improving inventory and order accuracy;
- reducing response times;
- facilitating the requirements of multi-channel fulfillment, including complying with industry shipping standards, unique pallet configuration and customer-specific marketing, labeling and packaging;
- improving visibility of inventory, order status and delivery status;
- improving communication with other participants in the supply chain;
- enabling and facilitating distribution through multiple delivery channels;
- increasing the productivity of labor, facilities and materials-handling equipment; and
- lowering transportation costs.

2

We currently provide our solutions to manufacturers, distributors, retailers and transportation providers primarily in the following markets: retail, consumer goods, direct-to-consumer, food and grocery, third-party logistics, industrial and wholesale, high technology and electronics, and healthcare and pharmaceuticals. As of December 31, 2001, our software was licensed for use by approximately 800 customers including Abbott Laboratories, Calvin Klein, ClientLogic Corporation, Columbia Sportswear, Exel Logistics, KBTtoys.com, Kmart Corporation, Mary Kay Incorporated, Newell Rubbermaid, Nordstrom, Patagonia, Rain Bird Distribution Corp., Sara Lee Corporation, SEIKO Corporation of America, Sainsbury's Supermarkets Ltd., Siemens Energy and Automations, The Sports Authority and Tibbett & Britten Group Plc.

We are a Georgia corporation formed in March 1998 to acquire all of the assets and liabilities of Manhattan Associates Software, LLC. References in this filing to the "Company," "Manhattan," "Manhattan Associates," "we," "our," and "us" refer to Manhattan Associates, Inc., our predecessors, and our wholly-

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

owned and consolidated subsidiaries. Our principal executive offices are located at 2300 Windy Ridge Parkway, Suite 700, Atlanta, Georgia 30339, and our telephone number is 770-955-7070.

INDUSTRY BACKGROUND

Effective x-SCE solutions allow organizations to enhance customer satisfaction and reduce the cost of operating distribution centers. In the current environment, supplier complexity, customer demands and volumes of transactions continue to increase. Consequently, many companies are required to operate larger, more complex distribution centers, which support multiple distribution methods. In addition, the volume of shipments in most distribution centers has increased tremendously with the change from large palette shipments to smaller customer-specific shipments. These trends, the advent of the Internet and the rapid growth of e-commerce have altered the relative value propositions of effective and efficient distribution. As a result, many organizations are required to redefine their supply chain and automate many processes in order to improve the effectiveness of the supply chain and to improve customer satisfaction and loyalty. In recent years, many businesses have employed technologies to improve the flow of goods and information among supply chain participants, which include manufacturers, suppliers, distributors, retailers and transportation providers. These technologies have helped businesses to reduce inventory levels, improve inventory turnover and, most importantly, improve customer satisfaction. The efficient management of a distribution center now requires collecting and processing increasing amounts of key information. This information includes customer orders, inbound shipments of products, products available on-site, product storage locations, weights and sizes, customer- or store-specific shipping requirements, routing data, carrier requirements and order status. Manufacturers, distributors, retailers, and transportation providers must continuously exchange this information with other participants in the supply chain in order to effectively integrate the operation of their distribution centers with the extended supply chain. In this increasingly competitive environment, effective x-SCE technology solutions have become critical to success in order to handle the very sophisticated distribution services required today, including:

- more frequent store-specific inventory replenishments;
- distribution through multiple delivery channels;
- more customized packing of goods within each delivery to reduce in-store unpacking times;
- more sophisticated packaging and labeling of goods to meet merchandising strategies;
- compliance with unique, customer-specific and industry-specific shipping standards; and
- the exchange of trading information electronically.

The Internet and the rapid growth of e-commerce have increased the demands on participants in the supply chain. For example, many retailers, suppliers and manufacturers are selling their products through a broader range of distribution channels, including directly to consumers, either through the Internet or catalog sales operations. These new multi-channel distribution models present significant challenges to traditional distribution centers that were primarily designed to replenish "bricks and mortar" establishments, such as

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

retail stores and distributors, where orders are typically large and undifferentiated. Selling products in direct-to-consumer environments requires these participants to provide additional services, such as individual packaging, labeling and shipping of orders directly to the consumer, as well as other value-added services such as apparel monogramming and gift-wrapping.

As a result of these additional demands, distribution centers have increased in size, complexity and cost. Distribution centers today can comprise one million square feet or more with thousands of stock keeping units, or "SKUs," multi-million dollar investments in automated materials-handling equipment, and software solutions that can manage and provide access to huge amounts of real-time data. The efficient management of a distribution center operation now requires collecting information regarding:

- customer orders and the specific contents in each order;
- inbound shipments of products;
- products available on-site;
- product storage locations;
- weights and sizes;
- outbound shipping data including customer- or store-specific shipping requirements, routing data and carrier requirements;
- electronic communication with other supply chain participants; and
- personalization for direct-to-consumer shipping.

Distribution center management systems must be able to analyze dynamically the information to determine the most efficient use of the distribution center's labor, materials handling equipment, packaging equipment and shipping, storage and receiving areas. These systems must interface, in real-time, directly with Enterprise Resource Planning ("ERP") and other host systems to exchange business information. Their mission-critical function within a distribution center requires that these systems operate with high reliability and efficiency, while supporting very high transaction volumes and multiple users. Suppliers, manufacturers, distributors and retailers must exchange information in real time with other participants in the supply chain in order to effectively integrate their operations with the extended supply chain. Additionally, front-office Internet business software applications require real-time access to data provided by these distribution center management systems to provide a dynamic view of a company's extended supply chain.

Traditionally, distribution center management systems have been highly customized, difficult to upgrade and have required costly and lengthy implementations. Furthermore, these systems have not readily supported the increased volumes and complexities associated with recent advances in supply chain re-engineering initiatives. Specifically, they have failed to quickly incorporate dynamic changes to industry- and customer-specific shipping standards. Most legacy distribution center management systems are unable to effectively manage operations in an increasingly multi-channel distribution environment. In addition, legacy distribution center management systems are unable to provide the real-time access to supply chain data to interact with Internet-based supply chain optimization, procurement and commerce applications.

THE MANHATTAN ASSOCIATES SOLUTION

Our solutions feature modular software systems that employ leading database technology to address a full range of requirements of modern, complex

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

distribution centers and the extended supply chain, including collaboration, execution and optimization. Our collaboration solutions provide real-time synchronization of key processes and their associated information flows across the extended supply chain, including customer process synchronization, trading partner personalization, supplier process enablement, carrier compliance and communication, global inventory visibility and supply chain event management, which includes real-time monitoring and alerting and real-time intelligent execution. Our execution solutions include the performance of the many processes that take place in the warehouse and distribution center, beginning with the execution of an order by a customer and ending with the fulfillment and delivery of the order to the end customer. Our

4

optimization solutions use analytic tools and techniques to improve the efficiency of distribution center operations through the use of either rules-based or algorithm-based models to solve problems that are too complex or too time consuming for manual processing. Our software products, together with our professional services capabilities, enable our customers to optimize their supply chain effectiveness and efficiencies by:

- reducing inventory levels and increasing inventory turnover;
- improving inventory and order accuracy;
- reducing response times;
- facilitating the requirements of multi-channel fulfillment, including complying with industry shipping standards, unique pallet configuration and customer-specific marketing, labeling and packaging;
- improving visibility of inventory, order status and delivery status;
- improving communication with other participants in the supply chain;
- enabling and facilitating distribution through multiple delivery channels;
- increasing the productivity of labor, facilities and materials-handling equipment; and
- lowering transportation costs.

Our collaboration solutions consist of the MA Collaborate Suite, which includes two versions of our infolink(TM) product, infolink-Order and infolink-Source. MA Collaborate provides our customers with:

- Supplier Integration -- infolink is designed to improve an organization's visibility to inbound shipments, which can facilitate (i) reduced transportation costs, through the consolidation of inbound shipments, (ii) improved planning, through real-time status and content management of inbound shipments to allow more effective labor management and improved order fulfillment, and (iii) improved fill rates, through allocation of in-transit inventory.
- Customer Integration -- infolink provides improved sharing of information between a supplier and its customers through the synchronization of processes and information.
- Global Inventory Visibility -- infolink enables visibility across the extended supply chain from the point of production to the point of

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

consumption.

- Supply Chain Event Management -- infolink allows an organization to monitor its supply chain in real-time and provides immediate notifications or alerts of failures or important events.

Our execution solutions consist of the MA Fulfill Suite and the MA Deliver Suite. MA Fulfill features PkMS(R), our flagship product, and PkMS Pronto. MA Deliver features Logistics PRO(R) TMS. Together, MA Fulfill and MA Deliver provide our customers with:

- Comprehensive Warehouse Management System Functionality -- Our execution products address a full range of requirements of modern, complex distribution centers with a defined, prepackaged product rather than custom-designed and developed applications. Our execution products provide comprehensive functionality that manages the processes associated with receiving, put-away, replenishment, picking, packing and shipping for specific vertical markets, incorporating industry-wide initiatives.
- Ease of Implementation -- The modular design of our execution products, along with our knowledge of specific vertical markets and expertise in planning and installation, allows our solutions to be implemented more rapidly than highly-customized distribution center management systems. Typical implementations can be completed within four to six months. Our PRISM methodology allows for a full implementation of the MA Fulfill Suite within two months.
- Timely Response to Industry Initiatives -- Our execution products feature a comprehensive program to provide our customers with timely software upgrades offering increased functionality and technological advances that address emerging supply chain initiatives that are often industry specific.

5

- Flexibility and Configurability -- Our execution products are designed to be easily configured to meet a distribution center's specific requirements and reconfigured to meet changing customer and industry requirements. Because of their modular design, our execution products can be implemented in phases to meet specific customer demands.
- Scaleability -- Our execution products are designed to facilitate the management of evolving distribution center systems to accommodate increases in the number of system users, complexity and distribution volume.
- Multi-Channel Distribution -- Our execution products, with their robust design and superior functionality over competitive offerings, allow for distribution through multiple channels, including traditional means, the Internet and mail order. Moves to additional channels can be made with speed and ease of implementation.
- Transportation Management -- Our MA Deliver suite of products is designed to facilitate the shipping process and reduce costs through planning, integrated shipping rate tables and built in audit processes.

Our optimization solutions consist of the MA Optimize Suite, which includes three modular products: SlotInfo(TM), WorkInfo(TM) and SmartInfo(TM).

- SlotInfo -- enables the optimal configuration of distribution facilities to maximize existing space, achieve greater throughput and reduce

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

replenishment costs.

- WorkInfo -- a comprehensive productivity tracking and labor-planning tool to help maximize the utilization and productivity of human resources within the distribution center.
- SmartInfo -- provides real-time monitoring of distribution center activities and determines trends based on historical data.

STRATEGY

Our objective is to be the leading provider of technology-based x-SCE solutions. We aim to achieve this objective by providing operational excellence to our customers through collaboration, execution and optimization solutions to targeted vertical markets. Our solutions are advanced, highly functional, highly scalable applications that allow our customers to improve relationships with suppliers and customers, leverage their investments in distribution centers and meet dynamically changing customer requirements. Our strategies to accomplish our objective include the following:

Develop and Enhance Software Solutions. We intend to continue to focus our product development resources on the development and enhancement of our software solutions. We offer what we believe to be the broadest solution set in the x-SCE marketplace, founded upon software products, as described herein, to address all aspects of collaboration, execution and optimization. In order to provide additional functionality and value to our solutions, we plan to continue to provide enhancements to existing products and to introduce new products to address evolving industry standards and market needs. We identify further enhancements to our solutions and opportunities for new products through our customer support organization as well as ongoing customer consulting engagements and implementations, interactions with our user groups and participation in industry standards and research committees.

Expand International Sales. We believe that our solutions offer significant benefits for customers in international markets. We have approximately 100 employees outside the United States, primarily in the United Kingdom and the Netherlands, focused on international sales and servicing our international clients. In addition to offices in the United Kingdom, Netherlands and Japan, we have a direct presence in Germany, France and Australia and an established reseller partnership in Latin America and the Pacific Rim. Our international strategy includes leveraging the strength of our relationships with current customers that also have significant overseas operations and the pursuit of strategic marketing partnerships with international systems integrators and third-party software application providers.

6

Develop Indirect Sales Channels. We currently sell our products primarily through our direct sales personnel. In addition to expanding our direct sales organization, we plan to invest in the expansion and development of our indirect sales channels through reseller agreements, marketing agreements and agreements with third-party logistics providers.

Expand Our Strategic Alliances. We have established strategic alliances with industry-leading consultants and software systems implementers, including most of the "Big Five" consulting firms, other systems consulting firms specializing in our targeted industries and IBM Global Services among others, to supplement our direct sales force and professional services organization. These alliances help extend our market coverage and provide us with new business leads and access to trained implementation personnel. We have strategic alliances with complementary software vendors including Microsoft, JDA Software, Manugistics

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

and Intentia.

Acquire or Invest in Complementary Businesses. We intend to pursue strategic acquisitions of technologies, products and businesses that enable us to enhance and expand our x-SCE software products and service offerings. More specifically, we intend to pursue acquisitions that will provide us with complementary products and technologies, expand our geographic presence and distribution channels, extend our presence into other vertical markets with similar challenges and requirements of those we currently exploit and/or further solidify our leadership position within the three primary components of x-SCE: collaboration, execution and optimization.

PRODUCTS AND SERVICES

Products. Our software products are designed to enable our customers to manage the operations of their distribution centers and improve collaboration between supply chain partners to achieve greater effectiveness and efficiency. Our software products operate across the iSeries (AS/400), Unix and Windows NT computing platforms. Our products operate on multiple hardware platforms utilizing various hardware systems and inter-operate with many third-party software applications and legacy systems. This interfacing and open system capability enables customers to continue using their existing computer resources and to choose among a wide variety of existing and emerging computer hardware and peripheral technologies. We provide interface toolkits for most ERP systems to enhance communication and reduce implementation costs between our core products and our clients' host systems. We currently offer interface toolkits to systems developed by Oracle, SAP, J.D. Edwards, Lawson, Essentus/Richter and Intentia.

We categorize our software products according to their focus and value proposition within x-SCE. Our solution set is comprised of five suites of applications: MA Fulfill; MA Deliver; MA Optimize; MA Collaborate and MA Connect. MA Fulfill consists of PkMS, our flagship product, and PkMS Pronto. MA Deliver consists of Logistics PRO TMS. MA Optimize consists of SlotInfo, WorkInfo and SmartInfo. MA Collaborate consists of infolink-Order and infolink-Source. MA Connect consists of ComLink and SystemLink. The following table lists and provides descriptions of our products categorized by offering suite:

MA FULFILL SUITE PKMS

MODULE -----	DESCRIPTION -----
INVENTORY MANAGEMENT SYSTEM ("IMS").....	Manages the receipt, put-away and movement of all inventory throughout the distribution center
Receiving.....	- Verifies the accuracy of incoming shipments against the advanced shipping notice - Designates incoming inventory for quality audit and immediate out-going shipment (cross-docking) - Manages receiving yard by scheduling time, dock location and priority of shipments

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

MODULE -----	DESCRIPTION -----
Stock Locator.....	- Enhances inventory movement efficiency by directing put-away, minimizing travel distances and optimizing storage capacity - Tracks movement of inventory by allowing real-time inquiries by location, SKU and other criteria
Cycle Count.....	- Enables more efficient inventory counts by permitting specific zones of a distribution center to be "frozen" without interrupting ongoing operations - Automatically generates cycle count tasks for specific SKUs, locations or other user-designated criteria
Work Order Management.....	- Directs the assembly of finished goods within a distribution center to match customer demands
Radio Frequency Functions for the IMS.....	- Allows the real-time collection of inventory product information and location with remote, hand-held mobile devices for integration with the IMS - Communicates real-time task assignments to workers in remote locations of the distribution center
Task Management System for the IMS.....	- Coordinates the sequence of distribution center tasks to optimize labor efficiency
OUTBOUND DISTRIBUTION SYSTEM ("ODS").....	Manages the picking, packing and shipping of orders in efficient release waves
Wave Management.....	- Selects, prioritizes and groups outgoing orders in manageable increments based upon user-defined criteria - Routes picktickets based upon retailer requirements and pre-determines carton contents to minimize the number of outgoing cartons - Facilitates stock replenishment for active picking and packing locations
Verification.....	- Provides automatic verification of orders and identifies order shortages and overages to maximize shipping accuracy at several different points within the order fulfillment process
Radio Frequency Functions for the ODS.....	- Allows the real-time collection of shipment information, including actual carton contents, and location with remote, hand-held mobile devices - Communicates real-time task assignments to workers in remote locations of the distribution center
Freight Management System.....	- Sorts orders by specific freight carriers, calculates shipping charges and controls load sequencing based upon truck routes - Generates all documentation required for shipping such as bills of lading and retailer compliant required manifests
Parcel Shipping System.....	- Calculates all shipping charges for parcel shipments, generates tracking numbers and provides appropriate documentation for parcel carriers

MODULE -----	DESCRIPTION -----
-----------------	----------------------

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

PKALLOCATE.....	- Prioritizes and allocates orders based on current aggregate inventory levels for customers whose host system is unable to perform this function
PKCOST.....	- Tracks effort and cost for activities in the distribution center - Provides critical billing information for third party logistics companies
PKVIEW.....	- Provides online graphs and e-mail notification for PkMS on the iSeries (AS/400) and Unix platforms

PKMS PRONTO

MODULE -----	DESCRIPTION -----
Inbound Execution.....	- Enables the receipt, location and put-away of inbound shipments
Work.....	- Allows the real-time collection of inventory product information and location with remote, hand-held mobile devices - Communicates real-time task assignments to workers in remote locations of the distribution center
Inventory Control.....	- Enables more efficient inventory counts by permitting specific zones of a distribution center to be "frozen" without interrupting ongoing operations - Automatically generates cycle count tasks for specific SKUs, locations or other user-designated criteria
Outbound Execution.....	- Comprehensive, multi-step order entry functionality - Selects, prioritizes and groups outgoing orders in manageable increments based upon user-defined criteria - Determines the most efficient carrier - Facilitates load planning and optimization - Generates the most effective shipping plan
Asset Management.....	- Real-time data accumulation of key warehouse functions - Productivity tracking
Warehouse Control Center.....	- Graphical representations of key operational data
Pronto Exchange.....	- Web-based information on inbound status, order entry, order status and delivery confirmation, inventory status, inbound statistics, outbound statistics and item statistics
Management Reporting.....	- Standardized reports to improve management visibility

MA DELIVER SUITE
LOGISTICS PRO TMS

MODULE -----	DESCRIPTION -----
Outbound Planning.....	- Determines the most efficient carrier - Generates the most effective shipping plan - Facilitates load planning and optimization
International Compliance.....	- Translates document headings into local languages to meet

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

requirements of destination countries
 Audits..... - Verifies each freight bill for accuracy to prevent duplicate payments and incorrect charges

MA OPTIMIZE SUITE

PRODUCT -----	DESCRIPTION -----
SmartInfo.....	- Enables the optimization and analysis of a distribution center via the real-time monitoring of warehouse activities and determines trends based on historical data contained within PkMS
WorkInfo.....	- Provides employee performance tracking information to distribution center managers, while supplying the distribution center employee estimated task durations prior to starting the task and their individual employee performance throughout the day
SlotInfo.....	- Optimizes inventory physical location within a distribution center based on volume, seasonal demands, location of products and size - May be used with PkMS or as a stand-alone product

MA COLLABORATE SUITE

PRODUCT -----	DESCRIPTION -----
infolink-Order.....	- An Internet-based application that enables real-time communication and collaboration between retailers and their suppliers - Provides real-time visibility into production status and shipment information - Provides real-time status of product availability - Generates bar-coded shipping labels at the user's facilities to facilitate and streamline receiving at user's distribution centers - May be integrated with PkMS, other warehouse management systems and ERP Systems
infolink-Source.....	- An Internet-based application that facilitates collaboration between a warehouse and its factories or a company and its suppliers - Provides real-time visibility into production status - Provides real-time shipment information, including advanced ship notice and UCC 128 labels for streamlined receiving

MA CONNECT SUITE *

PRODUCT	DESCRIPTION
---------	-------------

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

-----	-----
ComLink*.....	- A standardized communication tool for communication among all Manhattan solutions as well as between Manhattan solutions and external systems
	- Provides an adaptable interface as new technologies emerge
SystemLink*.....	- A toolkit standardized for interfaces between PkMS and major ERP systems
	- Interfaces to ERP systems include Oracle Applications, Essentus Sourcing and Demand, Lawson Insight and Intentia Movex

* The products comprising the MA Connect Suite are designed to work exclusively with other products and solutions of Manhattan Associates. These products are neither sold stand-alone nor can they be used stand-alone, but are always sold as part of a total solution.

Professional Services. Our professional services provide our customers with expertise and assistance in planning and implementing our solutions. To ensure a successful product implementation, consultants assist customers with the initial installation of a system, the conversion and transfer of the customer's historical data onto our system, and ongoing training, education and system upgrades. We believe that our professional services enable the customer to implement our software rapidly, ensure the customer's success with our solution, strengthen the relationship with the customer, and adds to our industry-specific knowledge base for use in future implementations and product development efforts.

Although our professional services are optional, substantially all of our customers use at least some portion of these services for the implementation and ongoing support of our software products. Professional services are typically rendered under time and materials based contracts, with services billed on an hourly basis. Professional services are sometimes rendered under fixed-fee based contracts, but only in instances when we believe the scope of the project is reasonably quantifiable. We believe that increased sales of our software products will drive higher demand for our consulting services. Accordingly, we plan to continue to increase the number of consultants to support anticipated growth in product implementations and software upgrades. We anticipate that our internal growth will be balanced with our success in achieving our strategy of alliances expansion.

Our professional services group consists of business consultants, systems analysts and technical personnel devoted to assisting customers in all phases of the implementation of our systems, including planning and design, customer-specific configuring of modules, and on-site implementation or conversion from existing systems. Our consulting personnel undergo extensive training on distribution center operations and our products. We believe that this training, together with the ease of implementation of our products, enables us to productively use newly-hired consulting personnel. At times, we use third-party consultants, such as those from major systems integrators, to assist our customers in certain implementations.

We have developed a proprietary, standardized implementation methodology, called PRISM, which leverages our products' architecture with the knowledge and expertise gained from completing more than 1,100 installations worldwide. The modular design of our products significantly reduces the complexities associated with integrating to existing systems, including ERP, SCM, CRM, e-business systems and complex material handling systems. As a result, we have been able to deploy a fully automated inbound and outbound system in less than two months.

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

Customer Support Services and Software Enhancements. We offer a comprehensive program that provides our customers with timely software upgrades that offer additional or improved functionality and technological advances incorporating emerging supply chain and industry initiatives. As of December 31, 2001, over 80% of our customers since our formation have subscribed to our comprehensive support and enhancements agreements. We have the ability to remotely access the customer's system in order to perform

11

diagnostics, on-line assistance and assist in software upgrades. We offer 24x7 customer support plus software upgrades for fees of 16% and 20% of the software license fee, depending on the level of service needed by the customer.

Training. We offer training in a structured environment for new and existing users. Training programs are provided on a per-person, per-class basis at fixed fees. We currently have thirteen courses available to provide training on product use, configuration, implementation and system administration. We have also developed several computer-based training programs that can be purchased for a fixed fee for use at client sites.

Hardware. In conjunction with the licensing of our software, we resell a variety of hardware products developed and manufactured by third parties in order to provide our customers with an integrated supply chain execution solution. These products include computer hardware, radio frequency terminal networks, bar code printers and scanners, and other peripherals. We resell all third-party hardware products pursuant to agreements with manufacturers or through distributor-authorized reseller agreements pursuant to which we are entitled to purchase hardware products at discount prices and to receive technical support in connection with product installations and any subsequent product malfunctions. We generally purchase hardware from our vendors only after receiving an order from a customer. As a result, we do not maintain significant hardware inventory.

SALES AND MARKETING

We employ multiple discipline sales teams that consist of professionals with industry experience in sales and technical sales support. To date, we have generated the majority of our revenue from sales of software through our direct sales force. We plan to continue to invest significantly to expand our sales, services and marketing organizations within the United States, Europe and other international locations and to pursue strategic marketing partnerships. We conduct comprehensive marketing programs that include advertising, public relations, trade shows, joint programs with vendors and consultants and ongoing customer communication programs. The sales cycle typically begins with the generation of a sales lead, through in-house telemarketing efforts, trade shows or other means of referral, or the receipt of a request for proposal from a prospective customer. The sales lead or request for proposal is followed by the qualification of the lead or prospect, an assessment of the customer's requirements, a formal response to the request for proposal, presentations and product demonstrations, site visits to an existing customer using our supply chain execution system and contract negotiation. The sales cycle can vary substantially from customer to customer, but typically requires three to six months.

In addition to sales to new customers, we intend to continue to leverage our existing customer base to provide for system upgrades, sales of additional licenses of purchased products and sales of new or add-on products. We also plan to further develop and expand our indirect sales channels, including sales through reseller agreements, marketing agreements and agreements with

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

third-party logistics providers. To extend our market coverage and to provide us with new business leads and access to trained implementation personnel, we further intend to develop and expand our strategic alliances with systems integrators capable of performing implementations of our solutions. Business referrals and leads helping us to grow our business continue to be positively influenced by systems integrators, which include most of the Big Five consulting firms and other systems consulting firms specializing in our targeted industries. We believe that our leadership position in providing x-SCE solutions perpetuates the willingness of systems integrators to recommend our solutions where appropriate.

During 2000, we formalized a program intended to foster joint sales and marketing efforts with our business partners. In some cases, this included joint development work to make our products and our partner's

12

products interface seamlessly. Among others, partnerships arising from our Manhattan Associates Partner Program (MAP2) include:

- Manugistics Group, Inc., a leading global provider of enterprise profit optimization solutions;
- JDA Software Group, Inc., a leading global provider of integrated software and professional services to retailers and their suppliers;
- Vastera, Inc., a leading international trade logistics company;
- Intenia International AB, a leading global supplier of ERP solutions;
- ProClarity Corporation (formerly Knosys, Inc.), a provider of analytic front-end technology designed specifically for Microsoft SQL Server 2000 Analysis Services;
- Siemens Dematic, a world leader, providing system solutions from concept through implementation in manufacturing, automotive, distribution, parcel and freight, postal, air cargo, baggage handling and software applications; and
- FKI Logistex, a global automated material-handling firm specializing in distribution, freight and parcel, baggage handling and manufacturing automated material flow solutions.

13

CUSTOMERS

To date, our customers have been suppliers, manufacturers, distributors, retailers and transportation providers in a variety of industries. The following table sets forth a representative list of our customers and the industries as of December 31, 2001, that have purchased products and services from us.

Consumer Goods

ARAMARK Uniform and Career Apparel, Inc.
Calvin Klein, Inc.
Elizabeth Arden
Jockey International
Newell Rubbermaid

Healthcare

Abbott Laboratories, Inc.
AmerisourceBergen
Banta Healthcare
F. Dohmen Company
Ocular Sciences, Ltd.

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

SEIKO Corp. of America	Pfizer Canada, Inc.
The Stride Rite Corporation	Stiefel Laboratories, Inc.
Waterford Wedgewood, USA, Inc.	Stryker Endoscopy
Direct-to-Consumer	Retail
Cabela's	American Eagle Outfitters
Coldwater Creek	Debenhams Retail Plc
Columbia Sportswear	Kmart Corporation
Cornerstone Brands, Inc.	Mary Kay, Inc.
J. Jill Group	Nordstrom
KBToys.com	The Children's Place

Langham Logistics	Festo Corporation
SalesLink	Metatec Corporation
Tibbett and Britten Ltd.	Microwarehouse, Inc.
	Olympus America
	Siemens Energy and Automation, Inc.

Our top five customers in aggregate accounted for 21%, 22% and 10% of total revenue for each of the years ended December 31, 2001, 2000 and 1999, respectively. Revenue from one customer ("the significant customer") during 2001 accounted for approximately 10% of revenue for the year ended December 31, 2001. No single customer accounted for more than 10% of revenue in 2000 or 1999. On January 22, 2002, the significant customer, an international discount retailer, filed for bankruptcy under Chapter 11 of the U.S. Bankruptcy Code. As a result of the bankruptcy filing, the uncertainties around the bankruptcy proceedings and the ultimate timing of payment, if any, we reduced 2001 revenues by \$4.3 million. The \$4.3 million Allowance for Bankrupt Customer, recorded as a separate line item within the revenues section of our Statement of Income for the year ended December 31, 2001, principally defers revenues arising from the significant customer in the fourth quarter of 2001.

14

PRODUCT DEVELOPMENT

Our development efforts are focused on adding new functionality to existing products, enhancing the operability of our products across distributed and alternative hardware platforms, operating systems and database systems and developing new products. We believe that our future success depends in part upon our ability to continue to enhance existing products, to respond to dynamically changing customer requirements and to develop new or enhanced products that incorporate new technological developments and emerging extended supply chain and industry standards. To that end, our development efforts frequently focus on base system enhancements and the incorporation into our products of new user requirements and features identified and created through customer and industry interactions and systems implementations. As a result, we are able to continue

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

to offer our customers a packaged, highly configurable product with increasing functionality rather than a custom-developed software program. We have also developed interface toolkits for most major ERP systems to enhance communication and improve data flows between our core products and our clients' host systems.

We plan to principally conduct our development efforts internally in order to retain development knowledge and promote the continuity of programming standards; however, some projects that can be performed separately and/or require special skills may be outsourced. In 2001, we used a third-party research and development company to localize our products into Japanese, German, French and Spanish. We have also announced plans to establish an off-shore development center (ODC) in Bangalore, India. The ODC will employ several Indian citizens currently working for and holding extensive development experience with us.

We will continue to spend a portion of our research and development efforts on the development and enhancement of our infolink product. Infolink is an Internet-based application that enables real-time collaboration between users and both their customers and suppliers regarding customer order entry and order/inventory status. Real-time communication will be facilitated via infolink through Internet-based XML technology. Microsoft Corporation is collaborating with us to provide expertise in the XML document definition, which will be based on the BizTalk(TM) Framework. We released the first version of infolink, called infolink-Order, in September 2000. Infolink-Order provides information allowing for real-time business decisions between customers and their suppliers. A second version of infolink was released in September 2001, called infolink-Source, which provides for similar types of communication between suppliers and their factories.

We continue to devote a significant portion of our research and development efforts to the enhancement of the N-Tier version of PkMS. Our N-Tier version of PkMS incorporates a distributed client/server architecture to allow different software applications and systems and hardware platforms to operate together more efficiently. N-Tier currently operates with desktops running Windows 95/98/2000/NT, standard radio frequency device clients and servers running either the Windows NT or the UNIX operating environments. Much of our development efforts in the second half of 2000 included the re-architecture of the N-Tier version of PkMS to improve the product's responsiveness and overall efficiency. The re-architected version of N-Tier was released in the first quarter of 2001.

We are also spending a portion of our research and development efforts on the development of PkMS Pronto. PkMS Pronto, formerly known as Logistics PRO NT, was acquired through the acquisition of Intrepa, L.L.C. in October, 2000. It is marketed to Tier 3 companies (i.e., companies with less than \$250 million in revenues). Development efforts related to PkMS Pronto are directed toward building and enhancing functionality requirements of Tier 3 companies. We continue to develop new and enhanced functionality for PkMS. Additionally, we plan to dedicate significant resources to further develop and enhance our MA Optimize Suite, consisting of SlotInfo, WorkInfo and SmartInfo. Sales of MA Optimize products accounted for approximately 19% of our software fees in 2001. The integration of the significant functionality of Logistics PRO TMS, a transportation management system acquired through the acquisition of Intrepa, into PkMS was completed in the second half of 2001. We expect Logistics PRO TMS will continue to be sold as a separate product.

Our research and development expenses for the years ended December 31, 2001, 2000 and 1999 were \$19.4 million, \$16.1 million, and \$10.2 million, respectively. We intend to continue to invest heavily in product development.

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

COMPETITION

Our products are targeted at the x-SCE market, which is highly fragmented, intensely competitive and characterized by rapid technological change. The principal competitive factors affecting the market for our products include:

- vendor and product reputation;
- compliance with industry standards;
- product architecture, functionality and features;
- ease and speed of implementation;
- return on investment;
- product quality, price and performance; and
- level of support.

We believe that we compete favorably with respect to each of these factors. Our competitors are diverse and offer a variety of solutions directed at various aspects of the extended supply chain, as well as the enterprise as a whole. Our existing competitors include:

- supply chain execution vendors, including Catalyst International, Inc., EXE Technologies, Inc., HighJump Software, Logistics & Internet Systems Limited, McHugh Software International, Inc., Optum, Inc. and Provia Software, Inc. among others;
- ERP or Supply Chain Management ("SCM") application vendors with products or modules of their product suite offering varying degrees of x-SCE functionality, such as Retek, Inc., J.D. Edwards & Company or SAP AG;
- the corporate information technology departments of current or potential customers capable of internally developing solutions; and
- smaller independent companies that have developed or are attempting to develop distribution center management software that competes with our x-SCE solutions.

We may face competition in the future from ERP and SCM applications vendors and business application software vendors that may broaden their product offerings by internally developing or by acquiring or partnering with independent developers of supply chain execution software. To the extent such ERP and SCM vendors develop or acquire systems with functionality comparable or superior to our products, their significant installed customer bases, long-standing customer relationships and ability to offer a broad solution could provide a significant competitive advantage over our products. In addition, it is possible that new competitors or alliances among current and new competitors may emerge and rapidly gain significant market share. Increased competition could result in price reductions, fewer customer orders, reduced gross margins and loss of market share. Both Oracle and SAP have announced plans to enter the market for SCM applications. We believe that the domain expertise required to compete provides us with a competitive advantage and is a significant barrier to market entry. However, some of our competitors have significant resources at their disposal, and the degree to which we will compete with these new products in the marketplace is still undetermined.

Many of our competitors and potential competitors have longer operating histories, significantly greater financial, technical, marketing and other

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

resources, greater name recognition and a larger installed base of customers than we do. In order to be successful in the future, we must continue to respond promptly and effectively to technological change and competitors' innovations. We cannot assure you that our current or

16

potential competitors will not develop products comparable or superior in terms of price and performance features to those developed by us. In addition, we cannot assure you that we will not be required to make substantial additional investments in connection with our research, development, marketing, sales and customer service efforts in order to meet any competitive threat, or that we will be able to compete successfully in the future. Increased competition may result in reductions in market share, pressure for price reductions and related reductions in gross margins, any of which could materially and adversely affect our ability to achieve our financial and business goals. We cannot give assurance that in the future we will be able to successfully compete against current and future competitors.

INTERNATIONAL OPERATIONS

Our international revenue was approximately \$26.1 million, \$14.9 million and \$5.5 million for the years ended December 31, 2001, 2000 and 1999, respectively, which represents approximately 17%, 11% and 7% of our total revenue for the years ended December 31, 2001, 2000 and 1999, respectively. International revenue includes all revenue derived from sales to customers outside the United States. We now have approximately 100 employees outside the United States, most of whom are located in the United Kingdom and the Netherlands. We recently installed our product in Asia and also began marketing our solutions in Australia, Latin America and the Pacific Rim.

We conduct our direct European operations principally out of an office in the United Kingdom, consisting of approximately 95 employees. We recently signed a multi-year agreement to occupy a facility in Utrecht, The Netherlands to accommodate our planned growth in continental Europe. Total revenue for European operations was approximately \$22.1 million, \$10.3 million and \$3.8 million for the years ended December 31, 2001, 2000 and 1999, respectively, which represents approximately 15%, 8% and 5% of our total revenue for the years ended December 31, 2001, 2000 and 1999, respectively.

PROPRIETARY RIGHTS

We rely on a combination of copyright, trade secret, trademark, service mark and trade dress laws, confidentiality procedures and contractual provisions to protect our proprietary rights in our products and technology. We have a registered trademarks for SLOT-IT, Have/Needs Analysis, PTRS, PKMS PickTicket Management System, LogisticsPRO and the Manhattan Associates logo as a design mark. We have pending federal trademark applications for infolink Source, PKAllocate, PKCost, X-SCE, WorkInfo, infolink Order, PkMS Pronto, SlotInfo, SmartInfo, E-Fulfillnow, SystemLink, Driving the New E-Supply Chain, infolink and BizLink. We have no registered copyrights. We generally enter into confidentiality agreements with our employees, consultants, clients and potential clients and limit access to, and distribution of, our proprietary information. We license PkMS to our customers in source code format and restrict the customer's use for internal purposes without the right to sublicense the PkMS, SlotInfo, SmartInfo, WorkInfo, infolink or Logistics PRO products. However, we believe that this provides us only limited protection. Despite our efforts to safeguard and maintain our proprietary rights both in the United States and abroad, we cannot assure you that we will successfully deter misappropriation or independent third-party development of our technology or prevent an unauthorized third party from copying or obtaining and using our

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

products or technology. In addition, policing unauthorized use of our products is difficult, and while we are unable to determine the extent to which piracy of our software products exist, software piracy could become a problem.

As the number of supply chain management applications in the industry increases and the functionality of these products further overlaps, companies that develop software may increasingly become subject to claims of infringement or misappropriation of intellectual property rights. Third parties may assert infringement or misappropriation claims against us in the future for current or future products. Any claims or litigation, with or without merit, could be time-consuming, result in costly litigation, divert management's attention and cause product shipment delays or require us to enter into royalty or licensing arrangements. Any royalty or licensing arrangements, if required, may not be available on terms acceptable to us, if at all, which could have a material adverse effect on our business, financial condition and results of operations. Adverse determinations in such claims or litigation could also have a material adverse effect on our business, financial condition and results of operations.

17

We may be subject to additional risks as we enter into transactions in countries where intellectual property laws are not well developed or are poorly enforced. Legal protections of our rights may be ineffective in such countries. Litigation to defend and enforce our intellectual property rights could result in substantial costs and diversion of resources and could have a material adverse effect on our business, financial condition and results of operations, regardless of the final outcome of such litigation. Despite our efforts to safeguard and maintain our proprietary rights both in the United States and abroad, we cannot assure that we will be successful in doing so, or that the steps taken by us in this regard will be adequate to deter misappropriation or independent third party development of our technology or to prevent an unauthorized third party from copying or otherwise obtaining and using our products or technology. Any of these events could have a material adverse effect on our business, financial condition and results of operations.

EMPLOYEES

As of December 31, 2001, we had 791 full-time employees. None of our employees are covered by a collective bargaining agreement. We consider our relations with our employees to be good. As of December 31, 2001, certain of our employees were employed pursuant to the H-1(B), non-immigrant work-permitted visa classification.

EXECUTIVE OFFICERS AND DIRECTORS

Our executive officers and directors and certain information about them are as follows:

NAME	AGE	POSITION
----	---	-----
Alan J. Dabbieri.....	40	Chairman of the Board of Directors(1)
Richard M. Haddrill.....	48	President, Chief Executive Officer and Director
Neil Thall.....	55	Executive Vice President -- Professional Services
Deepak Raghavan.....	35	Senior Vice President, Product Strategy and Director(1)
Jeffry W. Baum.....	39	Senior Vice President -- International

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

		Operations
Thomas W. Williams, Jr.....	45	Senior Vice President, Chief Financial Officer and Treasurer
Jeffrey S. Mitchell.....	34	Senior Vice President -- North American Sales
Brian J. Cassidy.....	56	Director
John J. Huntz, Jr.....	51	Director(2) (3)
Thomas E. Noonan.....	41	Director(2) (3)
John R. Hardesty.....	62	Director(2) (3)

- (1) Member of the Executive Committee.
- (2) Member of the Compensation Committee.
- (3) Member of the Audit Committee.

The Board of Directors is divided into three classes, each of whose members serve for a staggered three-year term. The Board is currently comprised of two Class I directors (Messrs. Dabbieri and Cassidy), two Class II directors (Messrs. Raghavan and Haddrill) and three Class III directors (Messrs. Huntz, Noonan and Hardesty). At each annual meeting of shareholders, a class of directors will be elected for a three-year term to succeed the directors of the same class whose terms are then expiring. The terms of the Class I directors, Class II directors and Class III directors will expire upon the election and qualification of successor directors at the 2002, 2003 and 2004 annual meetings of shareholders, respectively.

Alan J. Dabbieri, a founder of Manhattan, has served as Chairman of the Board since February 1998 and served as Chief Executive Officer and President of Manhattan from October 1990 until October 1999. From

18

1986 until 1990, Mr. Dabbieri was employed by Kurt Salmon Associates, a management consulting firm specializing in consumer products manufacturing and retailing, where he specialized in consulting for the retail and consumer products manufacturing industries. At Kurt Salmon Associates, Mr. Dabbieri participated in Quick Response pilot projects focused on the value of an integrated supply-chain initiative. Mr. Dabbieri serves on the American Apparel Manufacturer Association's Management Systems Committee.

Richard M. Haddrill has served as President and Chief Executive Officer of Manhattan since October 1999 and has served on the Board of Directors since October 1999. Prior to joining Manhattan, Mr. Haddrill served as President, CEO and a board member for Powerhouse Technologies, a successful technology, services and gaming company. He served Powerhouse as its Executive Vice President from December 1994 through September 1996 and served as President and Chief Executive Officer from September 1996 through June 1999. From 1992 until 1994, Mr. Haddrill was President of computer software company KnowledgeWare's international subsidiaries. During his employment at Ernst & Young, from 1975 until 1991, Mr. Haddrill held various positions within the company, including Managing Partner and Partner. Mr. Haddrill also serves on the Board of Directors of Danka, a publically-traded office products company.

Neil Thall has served as Executive Vice President -- Professional Services of Manhattan since January 2000. From August 1998 to January 2000, Mr. Thall served as Senior Vice President -- Supply Chain Strategy; and from January 1998 to August 1998, he served as Vice President -- Supply Chain Strategy of

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

Manhattan. From February 1997 through January 1998, Mr. Thall served as the Principal of Neil Thall Consulting. From January 1992 to July 1997, Mr. Thall served as President of Neil Thall Associates, a software development and management consulting subsidiary of HNC Software that specialized in inventory management, Quick Response and vendor managed inventory initiatives. Prior to 1992, Mr. Thall was employed by Kurt Salmon Associates as National Service Director -- Retail Consulting, where he specialized in the development and implementation of information systems for major department stores and specialty and mass merchant chains.

Deepak Raghavan, a founder of Manhattan, has served as Senior Vice President of Manhattan since August 1998 and as a Director since February 1998. Mr. Raghavan has served as Senior Vice President -- Product Strategy since January 2001, and he served as our Chief Technology Officer from 1990 until 2001. From 1987 until 1990, Mr. Raghavan was a Senior Software Engineer for Infosys Technologies Limited, a software development company, where he specialized in the design and implementation of information systems for the apparel manufacturing industry.

Jeffrey W. Baum has served as Senior Vice President -- International Operations of Manhattan since January 2000. From March 1998 to January 2000, Mr. Baum served as Vice President, International Business Development. From January 1997 until February 1998, Mr. Baum served as Vice President, Sales and Marketing of Haushahn Systems & Engineers, a warehouse management systems and material handling automation provider. From March 1992 until December 1996, Mr. Baum served as Senior Account Manager at Haushahn. Prior to that, Mr. Baum served in a variety of business development, account management and marketing positions with Logisticon and Hewlett-Packard.

Thomas W. Williams, Jr. has served as Senior Vice President of Manhattan since January 2001 and Chief Financial Officer and Treasurer of Manhattan since February 2000. Mr. Williams served as a Vice President of Manhattan from February 2000 through January 2001. From February 1996 to February 2000, Mr. Williams served as Group Vice President, Finance and Administration for Sterling Commerce, a worldwide leader in providing e-business solutions for the Global 5000 companies. From December 1994 to February 1996, Mr. Williams served as Division Vice President, Finance and Administration for Sterling Software, one of the 20 largest independent software companies in the world. From June 1989 to December 1994, Mr. Williams held various senior management finance and accounting positions with KnowledgeWare, which was acquired by Sterling Software in 1994. Mr. Williams joined KnowledgeWare from Ernst & Young.

Jeffrey S. Mitchell has served as Senior Vice President, North American Sales of Manhattan since February 2001. Prior to that, Mr. Mitchell served in various sales management roles at Manhattan since April 1997, including Vice President, North American Sales from May 1999 through February 2001. From April 1995 until April 1997, Mr. Mitchell was a sales representative for Intrepa (formerly The Summit Group), a

19

provider of warehouse and transportation management packages that was acquired by Manhattan in October 2000. From May 1991 until April 1995, Mr. Mitchell served in various aspects of account management in the employer services division of ADP providing outsource payroll and human resources solutions.

Brian J. Cassidy has served as a Director of Manhattan since May 1998. Mr. Cassidy has served as the Vice-Chairman and Co-Founder of Webforia, formally known as LiveContent, a developer and supplier of computer software applications, since April 1996. Prior to joining Webforia, Mr. Cassidy served as Vice President of Business Development of Saros Corporation, a developer of

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

document management software, from January 1993 to March 1996. Prior to joining Saros Corporation, Mr. Cassidy was employed by Oracle Corporation, as Joint Management Director of European Operations and a member of the Executive Management Board from 1983 to 1988 and as Worldwide Vice President of Business Development from 1988 to 1990.

John J. Huntz, Jr. has served as a Director of Manhattan since January 1999. Mr. Huntz has served as Managing Director of Fuqua Ventures, LLC, a private equity investment firm, since March 1998. Mr. Huntz served as Executive Vice President and Chief Operating Officer of Fuqua Enterprises, a company that manufactures health-care products, from August 1995 to March 1998 and as its Senior Vice President from March 1994 until August 1995. From September 1989 to January 1994, Mr. Huntz served as the Managing Partner of Noble Ventures International, a private international investment company. From 1984 to 1989, Mr. Huntz held the position of Director of Capital Resources for Arthur Young & Company, and from 1979 to 1984, Mr. Huntz was with Harrison Capital, Inc., a venture capital investment subsidiary of Texaco, Inc. Mr. Huntz founded and serves as President of the Atlanta Venture Forum, a risk capital network, and is a member of the National Association of Small Business Investment Companies. Mr. Huntz serves as a director and chairman of the compensation committee of GMP Companies, a developer of medical technologies.

Thomas E. Noonan has served as a Director of Manhattan since January 1999. Mr. Noonan has served as the President and as a Director of Internet Security Systems, Inc., a provider of network security monitoring, detection and response software, since June 1995, and as its Chief Executive Officer and Chairman of the Board of Directors since November 1996. Prior to joining Internet Security Systems, Mr. Noonan served as Vice President, Sales and Marketing with TSI International, Inc., an electronic commerce company, from September 1994 until August 1995. From November 1989 until October 1994, Mr. Noonan held high-level sales and marketing position at Dun & Bradstreet Software, a developer of enterprise business software.

John R. Hardesty has served as a Director of Manhattan since July 2000. Mr. Hardesty has been self-employed as an investor since March 1995. Since 1995, Mr. Hardesty has served as owner and Chairman of the Board of Directors of Thermo Dynamics, Inc., a quartz manufacturing company. From 1988 until 1995, Mr. Hardesty was the owner and chairman of Dixson, a manufacturer of electronic instruments for the heavy-duty truck market and process control market.

ITEM 2. PROPERTIES

Our principal administrative, sales, marketing, support and research and development facility is located in approximately 135,398 square feet of modern office space in Atlanta, Georgia. Substantially all of this space is leased to us through March 31, 2008. At this time, our office space is adequate to meet our immediate needs; however, we may expand into additional facilities in the future. We also occupy a facility under a multi-year agreement in Bracknell, United Kingdom, and have signed a multi-year agreement in the first quarter of 2002 to occupy a facility in Utrecht, The Netherlands. We also occupy offices under short-term agreements in other geographical regions.

20

ITEM 3. LEGAL PROCEEDINGS

Many of our installations involve products that are critical to the operations of our clients' businesses. Any failure in our products could result in a claim for substantial damages against us, regardless of our responsibility for such failure. Although we attempt to limit contractually our liability for damages arising from product failures or negligent acts or omissions, there can

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

be no assurance the limitations of liability set forth in our contracts will be enforceable in all instances. We are not currently a party to any material legal proceeding that would require disclosure under this Item.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There were no matters submitted to a vote of security holders during the fourth quarter of the fiscal year ended December 31, 2001.

21

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY AND RELATED SHAREHOLDER MATTERS

Our common stock is traded on the Nasdaq National Market under the symbol "MANH". The following table sets forth the high and low closing sales prices of the common stock as reported by the Nasdaq National Market for the periods indicated:

FISCAL PERIOD -----	HIGH PRICE -----	LOW PRICE -----
2000		
First Quarter.....	\$34.25	\$ 7.38
Second Quarter.....	31.75	18.69
Third Quarter.....	61.25	24.50
Fourth Quarter.....	71.31	32.63
2001		
First Quarter.....	\$42.88	\$15.56
Second Quarter.....	40.01	10.94
Third Quarter.....	39.43	12.90
Fourth Quarter.....	35.78	17.22

The closing sale price of our common stock as reported by the Nasdaq National Market on March 31, 2002 was \$38.10. The number of shareholders of record of our common stock as of March 31, 2002 was approximately 62.

Prior to our initial public offering in April 1998, our predecessors historically made distributions to shareholders related to their limited liability company status and the resulting tax payment obligations imposed on its shareholders. We do not intend to declare or pay cash dividends in the foreseeable future. Our management anticipates that all earnings and other cash resources, if any, will be retained by us for investment in our business.

ITEM 6. SELECTED CONSOLIDATED FINANCIAL DATA

You should read the following selected consolidated financial data in conjunction with our Financial Statements and related Notes thereto and with "Management's Discussion and Analysis of Financial Condition and Results of Operations" included elsewhere in this Form 10-K. The statement of income data for the years ended December 31, 1999, 2000 and 2001, and the balance sheet data as of December 31, 2000 and 2001, are derived from, and are qualified by reference to, the audited financial statements included elsewhere in this Form 10-K. The statement of income data for the year ended December 31, 1997 and 1998, and the balance sheet data as of December 31, 1997, 1998 and 1999, are derived from the audited financial

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

22

statements not included herein. Historical and pro forma results are not necessarily indicative of results to be expected in the future.

- (1) In connection with the conversion from limited liability company status on April 23, 1998, we became subject to federal and state corporate income taxes. Pro forma net income is presented as if we had been subject to corporate income taxes for all periods presented.
- (2) See Note 1 of Notes to Consolidated Financial Statements.
- (3) In connection with a significant customer filing for bankruptcy under Chapter 11 of the United States Bankruptcy Code, an allowance of \$4.3 million was recorded to effectively defer revenues arising in the fourth quarter of 2001 from the significant customer, but unpaid at the time of the bankruptcy declaration. See Note 1 of Notes to Consolidated Financial Statements for further details.

23

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

All statements, trend analyses and other information contained in the following discussion relative to markets for our products and trends in revenue, gross margins and anticipated expense levels, as well as other statements including words such as "anticipate," "believe," "plan," "estimate," "expect," and "intend" and other similar expressions constitute forward-looking statements. These forward-looking statements are subject to business and economic risks and uncertainties, and our actual results of operations may differ materially from those contained in the forward-looking statements.

OVERVIEW

We are a leading global provider of technology-based solutions to improve the effectiveness of and the efficiencies within the extended supply chain. Our solutions, which consist of software, services and hardware, enhance distribution efficiencies through the real-time integration of extended supply chain constituents, including manufacturers, distributors, retailers, suppliers, transportation providers and consumers. Our software provides solutions for the three principal elements of extended supply chain execution, or x-SCE: collaboration, execution and optimization. Collaboration solutions provide real-time synchronization of key processes and their associated information flows across the extended supply chain, including customer process synchronization, trading partner personalization, supplier process enablement, carrier compliance and communication, global inventory visibility and supply chain event management. Execution solutions include the performance of the many processes that take place in the warehouse and distribution center, beginning with the placement of an order by a customer and ending with the fulfillment and

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

delivery of the order to the end customer. Optimization solutions use analytic tools and techniques to improve the efficiency of distribution center operations through the use of either rules-based or algorithm-based models to solve problems that are too complex or too time consuming for manual processing. We also provide services, including design, configuration, implementation and training services, plus customer support services and software enhancement subscriptions. We currently provide our solutions to manufacturers, distributors, retailers, suppliers and transportation providers primarily in the following markets: retail, consumer goods, direct-to-consumer, food and grocery, third-party logistics, industrial and wholesale, high technology and electronics, and healthcare and pharmaceuticals.

Critical Accounting Policies and Estimates

The consolidated financial statements include accounts of the company and all majority-owned subsidiaries. The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions in certain circumstances that affect amounts reported in the accompanying consolidated financial statements and related footnotes. In preparing these financial statements, management has made its best estimates and judgments of certain amounts included in the financial statements, giving due consideration to materiality. We do not believe there is a great likelihood that materially different amounts would be reported related to the accounting policies described below. However, application of these accounting policies involves the exercise of judgment and use of assumptions as to future uncertainties and, as a result, actual results could differ from these estimates.

Revenues and Revenue Recognition

Our revenues consist of fees from the licensing of software; fees from consulting, implementation and training services (collectively, "professional services"), plus customer support services and software enhancement subscriptions; and sales of complementary radio frequency and computer equipment.

We recognize software fees in accordance with Statement of Position No. 97-2, "Software Revenue Recognition" ("SOP 97-2"), as amended by Statement of Position No. 98-9, "Software Revenue Recognition, With Respect to Certain Transactions" ("SOP 98-9"). Under SOP 97-2, we recognize software license revenue when the following criteria are met: (1) a signed contract is obtained; (2) shipment of the product has occurred; (3) the license fee is fixed or determinable; (4) collectibility is probable; and (5) remaining obligations under the license agreement are insignificant. SOP 98-9 requires recognition of revenue using the

24

"residual method" when (1) there is vendor-specific objective evidence of the fair values of all undelivered elements in a multiple-element arrangement that is not accounted for using long-term contract accounting; (2) vendor-specific objective evidence of fair value does not exist for one or more of the delivered elements in the arrangement; and (3) all revenue-recognition criteria in SOP 97-2 other than the requirement for vendor-specific objective evidence of the fair value of each delivered element of the arrangement are satisfied. SOP 98-9 was effective for transactions entered into after March 15, 1999, and we adopted the residual method for such arrangements at that time. For those contracts that contain significant future obligations, license revenue is recognized under the percentage of completion method.

Fees from professional services performed by us are generally billed on an

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

hourly basis, and revenue is recognized as the services are performed. From time to time, we will enter into professional services agreements in which billings are limited to contractual maximums for portions of or all of the engagement. Fees from customer support services and software enhancement subscriptions are generally paid in advance and recognized as revenue ratably over the term of the agreement, typically 12 months.

Hardware revenue is generated from the resale of a variety of hardware products, developed and manufactured by third parties, that are integrated with and complementary to our software solutions. These products include computer equipment, radio frequency terminal networks, bar code printers and scanners and other peripherals. We generally purchase hardware from our vendors only after receiving an order from a customer, and revenue is recognized upon shipment by the vendor to the customer.

Accounts Receivable

We continuously monitor collections and payments from our customers and maintain a provision for estimated credit losses based upon our historical experience and any specific customer collection issues that we have identified. While such credit losses have historically been within our expectations and the provisions established, we cannot guarantee that we will continue to experience the same credit loss rates that we have in the past. Our top five customers in aggregate accounted for 21%, 22% and 10% of total revenue for each of the years ended December 31, 2001, 2000, and 1999, respectively. Sales to one customer ("the significant customer") accounted for approximately 10% of total revenue for the year ended December 31, 2001. Most of the revenue from the significant customer in 2001 arose from purchases of hardware. No single customer accounted for more than 10% of revenue in 2000 or 1999. Accounts receivable from the significant customer on December 31, 2001 was approximately \$4.3 million.

On January 22, 2002, the significant customer for 2001 filed for bankruptcy under Chapter 11 of the United States Bankruptcy Code. As a result of the filing, the uncertainties around the bankruptcy proceedings and the ultimate timing of payment, we recorded an allowance of \$4.3 million in 2001 to effectively defer revenues arising in the fourth quarter of 2001 from the significant customer, but unpaid at the time of the bankruptcy declaration. The allowance includes approximately \$2.3 million of software fees, \$1.6 million of fees for professional services and \$0.4 million of hardware. Additionally, we billed the significant customer approximately \$0.9 million for professional services during January 2002 prior to the Chapter 11 filing. These accounts receivable will be evaluated for collectibility in the first quarter of 2002.

Valuation of long-lived and intangible assets and goodwill

We assess the impairment of identifiable intangibles, long-lived assets and related goodwill and enterprise level goodwill whenever events or changes in circumstances indicate that the carrying value may not be recoverable. Factors we consider important which could trigger an impairment review include the following:

- significant underperformance relative to expected historical or projected future operating results;
- significant changes in the manner of our use of the acquired assets or the strategy for our overall business;
- significant negative industry or economic trends;

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

- significant decline in our stock price for a sustained period; and
- our market capitalization relative to net book value.

When we determine that the carrying value of intangibles, long-lived assets and related goodwill may not be recoverable based upon the existence of one or more of the above indicators of impairment, we measure any impairment based on a projected discounted cash flow method using a discount rate determined by our management to be commensurate with the risk inherent in our current business model. Net intangible assets, long-lived assets, and goodwill amounted to \$27.5 million as of December 31, 2001.

In 2002, Statement of Financial Accounting Standards ("SFAS") No. 142, "Goodwill and Other Intangible Assets" became effective and as a result, we will cease to amortize approximately \$21.3 million of goodwill. We had recorded approximately \$3.0 million of amortization on these amounts during 2001 and would have recorded approximately \$3.0 million of amortization during 2002. In lieu of amortization, we are required to perform an initial impairment review of our goodwill in 2002 and an annual impairment review thereafter.

We currently do not expect to record an impairment charge upon completion of the initial impairment review. However, there can be no assurance that at the time the review is completed a material impairment charge will not be recorded.

Acquisition

On October 24, 2000, we acquired substantially all of the assets of Intrepa, L.L.C. ("Intrepa") for a purchase price of approximately \$31.0 million. The purchase price consisted of a cash payment of \$13.0 million, the issuance of approximately \$10.0 million of our \$.01 par value per share common stock (totaling 236,957 shares), and the issuance by us of a promissory note for \$7.0 million. We also incurred approximately \$0.9 million of transaction costs related to the acquisition. The purchase price included the assumption of substantially all of the liabilities of Intrepa, including immediate payment by us of the remaining \$2.0 million of principal and up to \$15,000 of interest on a promissory note previously issued by Intrepa. The acquisition has been accounted for under the purchase method of accounting. Based on an independent appraisal, the purchase price has been allocated to net liabilities assumed of \$2.6 million, acquired research and development of \$2.4 million, acquired developed technology of \$7.5 million, and other intangible assets of \$23.3 million. Acquired developed technology is being amortized over an estimated five-year useful life and other intangible assets are being amortized over a seven-year useful life. In connection with this acquisition, we realigned our resources, which resulted in severance-related expenses of \$576,000 during the quarter ended December 31, 2000.

26

RESULTS OF OPERATIONS

The following table sets forth, for the periods indicated, the percentages of total revenues represented by certain items reflected in our consolidated statements of income:

YEAR ENDED DECEMBER 31,

YEARS ENDED DECEMBER 31, 1999, 2000 AND 2001

REVENUE

Our revenue consists of fees generated from the licensing of software; fees from professional services, customer support services and software enhancement subscriptions; and sales of complementary radio frequency and computer equipment, which are considered non-strategic. Total revenue increased 63.7% from \$81.3 million in 1999 to \$133.1 million in 2000, reflecting an overall growth in demand for our x-SCE solutions. Total revenue increased 13.7% from \$133.1 million in 2000 to \$151.3 million in 2001, reflecting continued growth in fees from licensing software and professional services partially offset by a 12.3% decline in non-strategic hardware sales. We believe our revenue growth in 2001 is attributable to several factors, including, among others, geographic expansion, our market leadership positions as to breadth of product offerings and financial stability and a compelling return on investment proposition for our customers. In spite of the increase in software fees and services revenue over the prior year, we have experienced some effects from the deterioration of the United States' and European economies in the form of delayed and cancelled buying decisions by customers for our software, services and hardware, deferrals by customers of services engagements previously scheduled and pressure by our customers and competitors to discount our offerings. We believe that prolonged continuation of or further deterioration in the current macro-economic conditions and business climates within the United States and/or other geographic regions in which we operate, principally the United Kingdom and continental Europe, could have a material adverse impact on our operations. Our business plans consider a modest improvement in the United States' economy in the second half of 2002.

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

Software Fees. Software fees increased from \$14.6 million in 1999 to \$26.2 million in 2000, an increase of \$11.6 million or 79.7%. Software fees increased from \$26.2 million in 2000 to \$35.4 million in 2001, an increase of \$9.2 million or 35.3%. The increases in software fees were principally due to increases in: (i) sales of software licenses outside of the United States, which accounted for approximately 9%, 13% and 22% of software fees in 1999, 2000 and 2001, respectively; and (ii) sales of new, internally-developed products, including WorkInfo, SmartInfo and infolink, and acquired products from Intrepa, including PkMS Pronto and Logistics PRO TMS, all of which collectively accounted for approximately 3.2%, 10.3% and 19.6% of software fees in 1999, 2000 and 2001, respectively. Additionally, we have experienced an increase in sales of PkMS, our flagship product, due to growing market acceptance and increased product functionality. See the discussion below regarding Allowance for Bankrupt Customer.

Services. Services revenue increased from \$52.9 million in 1999 to \$81.1 million in 2000, an increase of \$28.2 million or 53.3%. Services revenue increased from \$81.1 million in 2000 to \$97.5 million in 2001, an increase of \$16.4 million or 20.2%. The increases in services revenue were principally due to: (i) an increase in the number of engagements required in order to implement the software sold; (ii) an increase in the number of engagements to upgrade existing customers to more current versions of our offerings; and (iii) increased revenue from customer support and software enhancement subscriptions on a growing installed base. The decline in the rate of services growth in 2001 is attributable to planned implementation efficiencies, a planned increase in the provision of work by systems integrators and greater sales of our optimization and collaboration products with less implementation requirements. See the discussion below regarding Allowance for Bankrupt Customer.

Hardware. Hardware revenue increased from \$13.8 million in 1999 to \$25.8 million in 2000, an increase of \$12.0 million or 86.8%. Hardware revenue decreased from \$25.8 million in 2000 to \$22.7 million in 2001, a decrease of \$3.1 million or 12.3%. Sales of hardware are non-strategic and largely dependent upon customer-specific desires. The increase in 2000 was attributable to PkMS implementations of larger scope, prompting customers seeking a unified solution to purchase more hardware from us. The decline in hardware sales in 2001 is principally attributable to customers' desires in the current macro-economic environment to buy hardware from other suppliers offering greater discounts.

Allowance for Bankrupt Customer. On January 22, 2002, a significant customer for 2001 filed for bankruptcy under Chapter 11 of the United States Bankruptcy Code. As a result of the filing, the uncertainties around the bankruptcy proceedings and the ultimate timing of payment, we recorded an allowance of \$4.3 million in 2001 to effectively defer revenues arising in the fourth quarter of 2001 from the significant customer, but unpaid at the time of the bankruptcy declaration. The allowance includes approximately \$2.3 million of software fees, \$1.6 million of fees for professional services and \$0.4 million of hardware. Going forward, any additional charges and payments by the significant customer relative to the \$4.3 million will be recorded against the allowance. The significant customer has requested us to proceed with the implementation of the software it purchased from us. Through March 31, 2002, our billings for implementation services rendered post-bankruptcy have been paid in ordinary course.

COSTS AND EXPENSES

Cost of Software Fees. Cost of software fees consists of the costs associated with software reproduction and delivery; media, packaging, documentation and other related costs; royalties on third-party software sold with or as part of our products; and the amortization of research and

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

development costs capitalized prior to the third quarter of 1999. Cost of software fees was 8.2%, 4.7% and 4.1% of software fees for 1999, 2000 and 2001, respectively. Fiscal 1999 included approximately \$472,000 of expenses from amounts previously capitalized on products discontinued, which were not present in 2000 and 2001. Lower royalties owed to third parties from sales of software licenses accounts for the decline in cost of software fees from 2000 to 2001.

Cost of Services. Cost of services revenue consists primarily of salaries and other personnel-related expenses of employees dedicated to professional services and customer support services. Cost of services revenue increased from \$30.6 million in 1999, or 57.9% of services revenue, to \$34.3 million in 2000, or 42.3% of services revenue, to \$42.4 million in 2001, or 43.5% of services revenue. The increases in cost of services

28

revenue were directly related to increases in the number of employees and contracted personnel dedicated to the delivery of professional services. The decrease in cost of services revenue as a percentage of services revenue from 1999 to 2000 was due to: (i) increased efficiencies in the delivery of professional services; (ii) planned efficiency initiatives associated with implementations of our software; and (iii) increased revenue from customer support and software enhancement subscriptions, which generate a higher gross margin. The 1.2% increase in cost of services as a percent of services revenue in 2001 over 2000 is attributable to additional costs associated with our growing international business, including the temporary use of U.S. and contracted personnel on international engagements and the costs to hire and train our growing international services organization, coupled with market pricing pressures in a slower economy.

Cost of Hardware. Cost of hardware revenue increased from \$10.5 million in 1999, or 76.1% of hardware revenue, to \$20.8 million in 2000, or 80.6% of hardware revenue, and decreased to \$18.0 million in 2001, or 79.4% of hardware revenue. Fluctuations in cost of hardware are directly related to the amount of hardware sold. Cost of hardware as a percentage of hardware sales fluctuates depending upon the type of equipment sold and the discount we are willing to provide.

Research and Development. Research and development expenses primarily consist of salaries and other personnel-related costs of personnel involved in our product development efforts. Our research and development expenses increased from \$10.2 million in 1999, or 12.6% of total revenue, to \$16.1 million in 2000, or 12.1% of total revenue, to \$19.4 million in 2001, or 12.8% of total revenue. The increases in research and development expenses are principally due to an increase in the number of research and development personnel. As of December 31, 2001, we employed 184 research and development personnel, up from 89 at December 31, 1999. The increase in research and development expenses in 2000 over 1999 reflects the costs and expenses of a greater number of employees and contracted personnel dedicated to the development and enhancement of all versions of PkMS, as well as our Optimize Suite and infolink. Additionally, the fourth quarter 2000 acquisition of Intrepa provided research and development personnel, approximately 35 of whom we employed at December 31, 2001, dedicated to the development and enhancement of PkMS Pronto and Logistics PRO TMS. We capitalized \$909,000 of internal research and development costs in 1999, of which approximately \$150,000 of such capitalized costs remained as of December 31, 2001. During 2001, research and development activities included, among other things, the ongoing development and enhancement of the N-Tier version of PkMS, PkMS Pronto, our Optimize Suite and infolink. Additionally, during 2001, we made payments of approximately \$717,000 to an outside research and development organization to internationalize PkMS into Japanese, German, French and Spanish. These payments have been classified as Other Assets and will be amortized over a

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

three-year period beginning in January 2002.

Sales and Marketing. Sales and marketing expenses include salaries, commissions, travel and other personnel-related costs of sales and marketing personnel and the costs of our marketing programs and related activities. Sales and marketing expenses increased from \$14.3 million in 1999, or 17.6% of total revenue, to \$18.1 million in 2000, or 13.6% of total revenue, to \$22.3 million in 2001, or 14.8% of total revenue. The increases in sales and marketing expenses are principally attributable to: (i) growth in the number of international and domestic sales and marketing personnel; (ii) greater incentive compensation paid on greater level of sales; and (iii) continued expansion of our sales and marketing programs around our x-SCE offerings. The increase in sales and marketing expenses as a percent of total revenue in 2001 over 2000 was principally attributable to increases in expenditures to staff, brand and launch newly developed and acquired products.

General and Administrative. General and administrative expenses consist primarily of salaries and other personnel-related costs of executive, financial, human resources and administrative personnel, as well as facilities, depreciation and amortization of tangible assets, legal, insurance, accounting and other administrative expenses. General and administrative expenses increased from \$12.8 million in 1999, or 15.8% of total revenue, to \$15.1 million in 2000, or 11.4% of total revenue, to \$18.8 million in 2001, or 12.4% of total revenue. The increases in general and administrative expenses were principally attributable to increased depreciation and amortization expense and additional executive compensation, administrative costs and personnel needed to grow our business and improve our infrastructure. We were able to leverage our infrastructure substantially in 2000 with the growth in our business. Growth within our international operations, representing 17% of revenues in 2001 as compared to 11% of revenues in 2000, required additional investments in infrastructure in

29

2001. Depreciation expense included in general and administrative expenses was \$3.2 million, \$4.3 million and \$5.7 million during 1999, 2000 and 2001, respectively.

In-Process Research and Development and Acquisition-Related Charges. On October 24, 2000, we acquired substantially all of the assets of Intrepa, L.L.C. ("Intrepa") for a purchase price of approximately \$31.0 million. The purchase price consisted of a cash payment of \$13.0 million, the issuance of approximately \$10.0 million of our \$.01 par value per share common stock (totaling 236,957 shares), and the issuance by us of a promissory note for \$7.0 million. We also incurred approximately \$0.9 million of transaction costs related to the acquisition. The purchase price included the assumption of substantially all of the liabilities of Intrepa, including immediate payment by us of the remaining \$2.0 million of principal and up to \$15,000 of interest on a promissory note previously issued by Intrepa. The acquisition has been accounted for under the purchase method of accounting. Based on an independent appraisal, the purchase price has been allocated to net liabilities assumed of \$2.6 million, acquired research and development of \$2.4 million, acquired developed technology of \$7.5 million, and other intangible assets of \$23.3 million. Acquired developed technology is being amortized over an estimated five-year useful life and other intangible assets are being amortized over a seven-year useful life. In connection with this acquisition, we realigned our resources, which resulted in severance-related expenses of \$576,000 during the quarter ended December 31, 2000.

Amortization of Acquisition-Related Intangibles. We have recorded goodwill and other intangible assets as part of the purchase accounting associated with

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

three acquisitions: (i) the acquisition of Performance Analysis Corporation in February 1998; (ii) the acquisition of certain assets of Kurt Salmon Associates in October 1998; and (iii) the acquisition of Intrepa in October 2000. Amortization of acquisition-related intangibles increased from \$1.1 million in 1999, or 1.3% of total revenue, to \$1.2 million in 2000, or 0.9% of total revenue, to \$5.2 million in 2001, or 3.5% of total revenue, as a direct result of these acquisitions. The increases in 2000 and 2001 were attributable to amortization expense of \$790,000 in 2000 and \$4.9 million in 2001 associated with the acquisition of Intrepa. Effective January 1, 2002, the Company has adopted Statement of Financial Accounting Standard No. 142, "Goodwill and Other Intangible Assets" (SFAS 142). SFAS 142 requires that goodwill and certain intangible assets, including those recorded in past business combinations and existing as of June 30, 2001, no longer be amortized to earnings, but instead be tested for impairment at least annually.

Operating Income. Operating income increased from \$437,000 in 1999, or 0.6% of total revenue, to \$23.3 million in 2000, or 17.5% of total revenue, to \$23.7 million in 2001, or 15.6% of total revenue. Operating income in 1999 reflects the costs and expenses of excessive personnel and charges to operations to recruit new members to our executive management team, to realign our resources and to write-off intangible assets associated with impaired and discontinued products. The substantial increases in operating income in 2000 and 2001 represent a combination of significant growth in higher margin software and services fees and improved efficiencies across all areas of our business. Operating income for 2000 reflects a non-recurring charge totaling \$3.0 million associated with the acquisition of Intrepa and non-cash, acquisition-related intangible asset amortization totaling \$1.2 million. Operating income for 2001 reflects an allowance for a bankrupt customer totaling \$4.3 million and non-cash, acquisition-related intangible asset amortization totaling \$5.2 million, all as discussed above. Excluding these items, operating income would be \$27.5 million, or 20.6% of total revenues, in 2000 and \$33.2 million, or 21.3% of total revenues, in 2001.

OTHER INCOME, NET

Other income, net, includes interest earnings on short-term investments, interest expense incurred for obligations under capital lease, interest expense on the note payable issued in connection with the acquisition of Intrepa and foreign exchange gains and losses. Other income, net, increased from \$1.2 million in 1999, or 1.5% of total revenue, to \$2.7 million in 2000, or 2.0% of total revenue, and decreased to \$2.1 million in 2001, or 1.4% of total revenue. The increase in other income, net, in 2000 was primarily due to the increase in cash available for investment during the year, partially offset by approximately \$100,000 of interest expense on the Intrepa note payable. The decrease in other income, net, in 2001 was due to an overall decline in market interest along with an increase in interest expense to \$525,000 in 2001 on the note payable to Intrepa.

30

INCOME TAXES

Provision for Income Taxes. The provision for income taxes was \$554,000 in 1999, compared to \$9.7 million in 2000, and \$9.5 million in 2001. The increase in the provision for income taxes for 2000 is attributable to the substantial increase in income before income taxes in 2000. The decrease in the provision for income taxes for 2001 is attributable to an increase in income generated in countries with lower tax rates. Our effective income tax rates were 33.5%, 37.5% and 37.0% in 1999, 2000 and 2001, respectively. Our effective income tax rate takes into account the source of taxable income, domestically by state and internationally by country, and available income tax credits. The provisions for

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

income taxes for 1999, 2000 and 2001 do not include the \$730,000, \$13.5 million and \$9.0 million of tax benefits realized from stock options exercised during the years, respectively. These tax benefits reduce our income tax liabilities and are included as an addition to additional paid-in capital.

EARNINGS PER SHARE

Net Income per Share. Net income was \$1.1 million, or 1.4% of total revenue and \$0.04 per diluted share for the year ended December 31, 1999. Net income was \$16.3 million, or 12.2% of total revenue and \$0.53 per diluted share for the year ended December 31, 2000. The increase in net income in 2000 over 1999 is principally attributable to 63.7% growth in revenue combined with improved efficiencies across all areas of our business. Net income was \$16.2 million, or 10.7% of total revenue and \$0.53 per diluted share for the year ended December 31, 2001. Net income for 2001 was negatively impacted by the \$4.3 million allowance for the bankrupt customer, or approximately \$.09 per diluted share, as discussed above. Excluding the effect of the non-recurring in-process research and development and acquisition-related charges of \$3.0 million and amortization of acquisition-related intangibles of \$1.2 million, net income for the year ended December 31, 2000 was \$18.9 million, or 14.2% of total revenue and \$0.62 per diluted share. Excluding the effect of the allowance for the bankrupt customer of \$4.3 million and amortization of acquisition-related intangibles of \$5.2 million, net income for the year ended December 31, 2001 was \$22.2 million, or 14.3% of total revenue and \$0.72 per diluted share.

31

PRO FORMA RESULTS OF OPERATIONS

The following summary of unaudited pro forma consolidated selected statement of income data presents our results of operations for the three years ended December 31, 2001, excluding: amortization of acquisition-related intangibles, the write-off of in-process research and development and other acquisition related charges associated with the acquisition of Intrepa and the allowance for a significant bankrupt customer. We believe the exclusion of these items provides a relevant summary of the results of our operations as they relate to our ongoing core business and we use these measures internally to evaluate our operating performance. This information is not to be construed as a measurement of profitability under generally accepted accounting principles and is not to be accepted or used as an alternative to net income. Additionally, the pro forma results of operations, as presented, may not be consistent with measures used by other companies.

QUARTERLY RESULTS OF OPERATIONS

The following table presents certain unaudited quarterly statements of income data for each of our last eight quarters for the period ended December 31, 2001, as well as the percentage of our total revenue represented by each item. The information has been derived from our audited Financial Statements. The unaudited quarterly Financial Statements have been prepared on substantially the same basis as the audited Financial Statements contained herein. In the opinion of our management, the unaudited quarterly Financial Statements include all adjustments, consisting only of normal recurring adjustments, that we consider to be necessary to present fairly this information when read in conjunction with our Financial Statements and notes thereto appearing elsewhere herein. The results of operations for any quarter are not necessarily indicative of the results to be expected for any future period.

	=====	=====	=====	=====	=====	=====

Any factor adversely affecting the markets for x-SCE solutions could have an adverse impact on our business, financial condition, and results of operations at any time. Further, our quarterly revenue and operating results are difficult to predict and may fluctuate significantly from quarter to quarter. Factors that could cause variations in our quarterly revenue and operating results are:

- poor macro-environmental or other economic outlooks in the major geographic regions in which we operate;
- delayed and/or cancelled decisions by customers regarding purchases of our software and services;
- postponements of scheduled implementations and upgrades;
- demand for our products;
- introductions of new products by our competitors;
- the level of price competition by our competitors;
- customers' budgeting and purchasing cycles;
- delays in our implementations at customer sites;
- timing of hiring new services employees and the rate at which such employees become productive;
- development and performance of our direct and indirect sales channels;
- timing of any acquisitions and related costs; and
- identification of software quality problems.

Most of our expenses, such as employee compensation and rent, are relatively fixed. Moreover, our expense levels are based, in part, on our expectations regarding future revenue increases. As a result, any shortfall in revenue in relation to our expectations could cause significant changes in our operating results from quarter to quarter and could result in quarterly losses. A significant portion of license fee contracts are signed

and products delivered in the third month of each fiscal quarter. This trend makes our process of forecasting revenues difficult, particularly when combined with the weak economic environment we have experienced since the end of 2000. As a result of these factors, we believe that period-to-period comparisons of our revenue levels and operating results are not necessarily meaningful. You should not rely on our quarterly revenue and operating results to predict our future performance.

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

Our ability to undertake new projects and increase revenue is substantially dependent on the availability of our professional services and technical personnel to assist in the implementation of our software solutions. We believe that supporting high growth in revenue requires us to rapidly hire additional, skilled professional services personnel, and there can be no assurance that qualified personnel could be located, trained or retained in a timely and cost-effective manner.

As a result of the foregoing and other factors, we believe that quarter-to-quarter comparisons of results are not necessarily meaningful, and such comparisons should not be relied upon as indications of future performance. Fluctuations in operating results may also result in volatility in the price of the shares of our common stock.

LIQUIDITY AND CAPITAL RESOURCES

Since our initial public offering in April 1998, we have funded our operations primarily through cash generated from operations and the IPO proceeds. As of December 31, 2000, we had \$67.7 million in cash, cash equivalents and short-term investments compared to \$104.2 million at December 31, 2001.

Our operating activities provided cash of \$12.3 million in 1999, \$36.4 million in 2000 and \$39.4 million in 2001. During 2000, cash from operating activities arose principally from a substantial increase in operating income, improved payments on account by customers and substantial income tax benefits arising from exercises of stock options by employees. Cash from operating activities for 2001 arose principally from an increase in operating income, improved payments on accounts by customers, an accelerated refund of income taxes and substantial income tax benefits arising from exercises of stock options by employees. Days sales outstanding declined from 94 days at December 31, 1999 to 71 days at December 31, 2000 to 60 days at December 31, 2001.

Our investing activities used approximately \$20.9 million, \$14.3 million and \$10.3 million for the years ended December 31, 1999, 2000 and 2001, respectively. During 2000, our principal uses of cash were \$12.8 million as a portion of the acquisition price of Intrepa and \$5.1 million for purchases of capital equipment partially offset by net sales of \$3.6 million in short-term investments. During 2001, our principal uses of cash were \$6.1 million for purchases of capital equipment to support our business and infrastructure and net purchases of \$3.5 million in short-term investments.

Our financing activities provided approximately \$0.6 million in 1999, \$9.1 million in 2000, and \$3.9 million in 2001. The principal sources of cash provided by financing activities for 2000 and 2001 were the proceeds from the issuance of our common stock pursuant to the exercise of stock options, partially reduced by payments for notes payable either assumed or issued in conjunction with the acquisition of Intrepa. Also during 2001, we purchased 65,000 shares of our common stock for approximately \$885,000 through open market transactions as part of a publicly-announced buy-back program.

We believe that existing balances of cash, cash equivalents and short-term investments will be sufficient to meet our working capital and capital expenditure needs at least for the next twelve months.

NEW ACCOUNTING PRONOUNCEMENTS

In June 1998, the Financial Accounting Standards Board issued Statement of Financial Accounting Standard ("SFAS") No. 133, "Accounting for Derivative Instruments and Hedging Activities." This Statement established accounting and reporting standards for derivative instruments, including certain derivative instruments embedded in other contracts, collectively referred to as

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

derivatives, and for hedging activities. It requires that an entity recognize all derivatives as either assets or liabilities in the statement of

35

financial position and measure those instruments at fair value. We adopted the new statement on January 1, 2001. The adoption of this Statement did not have a significant impact on our financial statements.

In September 2000, the Financial Accounting Standards Board issued SFAS No. 140, "Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities -- a Replacement of FASB Statement No. 125." This Statement revises the standards for accounting for securitizations and other transfers of financial assets and collateral. This statement is effective for transfers and servicing of financial assets and extinguishments of liabilities occurring after March 31, 2001. The adoption of this Statement did not have a significant impact on our financial statements.

In July 2001, the Financial Accounting Standards Board issued SFAS No. 141, "Business Combinations." This Statement requires that the purchase method of accounting be used for all business combinations initiated after June 30, 2001 and eliminates the pooling-of-interests method. The adoption of this Statement did not have a significant impact on our financial statements.

Also in July 2001, the Financial Accounting Standards Board issued SFAS No. 142, "Goodwill and Other Intangible Assets." This Statement requires that goodwill and certain intangible assets, including those recorded in past business combinations, no longer be amortized to earnings, but instead be tested for impairment at least annually. SFAS No. 142 is effective for fiscal years beginning after December 15, 2001. The Company adopted SFAS No. 142 on January 1, 2002 and as a result, we will cease to amortize approximately \$21.3 million of goodwill during 2002. We had recorded approximately \$3.0 million of amortization on these amounts during 2001 and would have recorded approximately \$3.0 million of amortization during 2002. In lieu of amortization, we are required to perform an initial impairment review of our goodwill in 2002 and an impairment review at least annually thereafter.

In November 2001, the FASB issued a Staff Announcement Topic D-103 (Topic D-103), "Income Statement Characterization of Reimbursements Received for Out-of-Pocket Expenses Incurred." Topic D-103 establishes that reimbursements received for out-of-pocket expenses should be reported as revenue in the statement of operations. During 2001, we classified reimbursed out-of-pocket expenses as a reduction of operating expenses. We adopted this guidance effective January 1, 2002. Our adoption of Topic D-103 will result in increased services revenue and increased costs of services revenue. Our results of operations for prior periods will be reclassified to conform to the new presentation. The total amount of expense reimbursement recorded to expense was \$4.0 million, \$5.5 million and \$5.1 million for 1999, 2000 and 2001, respectively. Our adoption of Topic D-103 will not affect our net income or loss in any past or future periods.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

FOREIGN EXCHANGE

Our international business is subject to risks typical of an international business, including, but not limited to: differing economic conditions, changes in political climate, differing tax structures, other regulations and restrictions, and foreign exchange rate volatility. Accordingly, our future results could be materially adversely impacted by changes in these or other factors.

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

Total international revenue was approximately \$5.5 million, \$14.9 million and \$26.1 million for the years ended December 31, 1999, 2000 and 2001, respectively, which represents approximately 7%, 11% and 17% of our total revenue for the years ended December 31, 1999, 2000 and 2001, respectively. International revenue includes all revenue associated with sales of software, services and hardware outside the United States.

We conduct our direct European operations principally out of an office in the United Kingdom, consisting of approximately 95 employees. Total revenue for European operations was approximately \$3.8 million, \$10.3 million and \$22.1 million for the years ended December 31, 1999, 2000 and 2001, respectively, which represents approximately 5%, 8% and 15% of our total revenue for the years ended December 31, 1999, 2000 and 2001, respectively.

36

We recognized a foreign exchange rate loss of approximately \$130,000 during 2000 and a foreign exchange rate gain of approximately \$7,000 in 2001, classified in "Other income, net" on our Condensed Consolidated Statements of Income.

INTEREST RATES

We invest our cash in a variety of financial instruments, including taxable and tax-advantaged variable rate and fixed rate obligations of corporations, municipalities, and local, state and national governmental entities and agencies. These investments are denominated in U.S. dollars. Cash balances in foreign currencies overseas are derived from operations.

Interest income on our investments is carried in "Other income, net" on our Consolidated Financial Statements. We account for our investment instruments in accordance with Statement of Financial Accounting Standards No. 115, "Accounting for Certain Investments in Debt and Equity Securities" ("SFAS 115"). All of the cash equivalents and short-term investments are treated as available-for-sale under SFAS 115.

Investments in both fixed rate and floating rate interest earning instruments carry a degree of interest rate risk. Fixed rate securities may have their fair market value adversely impacted due to a rise in interest rates, while floating rate securities may produce less income than expected if interest rates fall. Due in part to these factors, our future investment income may fall short of expectations due to changes in interest rates, or we may suffer losses in principal if forced to sell securities that have seen a decline in market value due to changes in interest rates. The weighted-average interest rate on investment securities at December 31, 2001 was approximately 1.7%, as compared to 6.5% at December 31, 2000. The fair value of cash equivalents and short-term investments held at December 31, 2001 was \$81.3 million.

REPORT OF INDEPENDENT PUBLIC ACCOUNTANTS

To Manhattan Associates, Inc.:

We have audited the accompanying consolidated balance sheets of MANHATTAN ASSOCIATES, INC. (a Georgia corporation) AND SUBSIDIARIES as of December 31, 2000 and 2001 and the related consolidated statements of income, shareholders' equity, comprehensive income and cash flows for each of the three years in the period ended December 31, 2001. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Manhattan Associates, Inc. and subsidiaries as of December 31, 2000 and 2001 and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2001 in conformity with accounting principles generally accepted in the United States.

MANHATTAN ASSOCIATES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS DECEMBER 31, 1999, 2000 AND 2001

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

ORGANIZATION AND BUSINESS

Manhattan Associates, Inc. ("Manhattan" or the "Company") is a provider of technology-based solutions to improve supply chain effectiveness and efficiencies within the extended supply chain. The Company's solutions are designed to optimize the receipt, storage, assembly and distribution of inventory and the management of equipment and personnel within a distribution center, and to enhance collaboration between the distribution center and its trading partners. The Company's solutions consist of software, including, a comprehensive suite of robust and modular software products; services, including design, configuration, implementation and training services, plus customer support services and software enhancements subscriptions; and hardware.

The Company's operations are principally in North America and Europe. Its European operations are conducted through its wholly-owned subsidiaries, Manhattan Associates, Ltd and Manhattan Associates Europe, B.V. in the United Kingdom and the Netherlands, respectively. The Company occasionally sells its products in other regions, such as Australia, Latin America and the Far East through its direct sales channel as well as various reseller channels.

PRINCIPLES OF CONSOLIDATION AND FOREIGN CURRENCY TRANSLATION

The accompanying consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries. All significant intercompany balances and transactions have been eliminated in consolidation.

The financial statements of foreign subsidiaries have been translated into United States dollars in accordance with Financial Accounting Standards Board ("FASB") Statement of Financial Accounting Standards ("SFAS") No. 52 Foreign Currency Translation. Revenues from international customers were denominated in the respective local currencies and translated using the average monthly exchange rates for the year. The effect on the statements of operations related to transaction gains and losses is insignificant for all years presented. All balance sheet accounts have been translated using the exchange rates in effect at the balance sheet date and the effect of changes in exchange rates from year to year is insignificant.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Cash and Cash Equivalents

The Company considers all highly liquid investments purchased with original

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

maturities of three months or less to be cash or cash equivalents.

Concentrations of Credit Risk

Financial instruments that potentially subject the Company to significant concentrations of credit risk consist principally of cash and cash equivalents, short-term investments and accounts receivable. The Company maintains cash and cash equivalents and short-term investments with two financial institutions. The Company's sales are primarily to companies located in the United States and Europe. The Company performs periodic credit evaluations of its customers' financial condition and does not require collateral. Accounts receivable are due principally from large U.S. companies under stated contract terms. The Company provides for estimated credit losses at the time of sale.

Our top five customers in aggregate accounted for 21%, 22% and 10% of total revenue for each of the years ended December 31, 2001, 2000, and 1999, respectively. Sales to one customer ("the significant customer") accounted for approximately 10% of total revenue for the year ended December 31, 2001. Most of

MANHATTAN ASSOCIATES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED)

the revenue from the significant customer in 2001 arose from purchases of hardware. No single customer accounted for more than 10% of revenue in 2000 or 1999. Accounts receivable from the significant customer on December 31, 2001 was approximately \$4.3 million. On January 22, 2002, the significant customer for 2001 filed for bankruptcy under Chapter 11 of the United States Bankruptcy Code. As a result of the filing, the uncertainties around the bankruptcy proceedings and the ultimate timing of payment, we recorded an allowance of \$4.3 million in 2001 to effectively defer revenues arising in the fourth quarter of 2001 from the significant customer, but unpaid at the time of the bankruptcy declaration. The allowance includes approximately \$2.3 million of software fees, \$1.6 million of fees for professional services and \$0.4 million of hardware. Additionally, we billed the significant customer approximately \$0.9 million for professional services during January 2002 prior to the Chapter 11 filing. These accounts receivable will be evaluated for collectibility in the first quarter of 2002.

Marketable Securities

The Company's investment in marketable securities consists of debt instruments of the U.S. Treasury, U.S. government agencies and corporate commercial paper. These investments are categorized as available-for-sale securities and recorded at fair market value, as defined by SFAS No. 115, "Accounting for Certain Investments in Debt and Equity Securities." Unrealized holding gains and losses are reflected as a net amount in a separate component of shareholders' equity until realized. For the purposes of computing realized gains and losses, cost is identified on a specific identification basis. At December 31, 2000 and 2001, the cumulative unrealized gain on short-term investments was \$4,000 and \$73,000, respectively. The following is a summary of the available-for-sale securities (in thousands):

DECEMBER 31,			
2000		2001	
COST	MARKET VALUE	COST	MARKET VALUE

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

	-----	-----	-----	-----

Canadian government obligations.....	--	--	2,654	2,657
	-----	-----	-----	-----
Total.....	\$28,748	\$28,752	\$43,641	\$43,714
	=====	=====	=====	=====

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Fair Value of Financial Instruments

The carrying values of cash, accounts receivable, accounts payable, and other financial instruments included in the accompanying consolidated balance sheets approximate their fair values principally due to the short-term maturities of these instruments.

Risks Associated with Single Business Line, Technological Advances, and Hardware Revenue

The Company currently derives a substantial portion its revenues from sales of its software and related services and hardware. Any factor adversely affecting the markets for distribution management center

MANHATTAN ASSOCIATES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED)

solutions could have an adverse effect on the Company's business, financial condition, and results of operations.

The markets for supply chain collaboration and distribution center management solutions are subject to rapid technological change, changing customer needs, frequent new product introductions, and evolving industry standards that may render existing products and services obsolete. As a result, the Company's position in these markets could be eroded rapidly by unforeseen changes in customer requirements for application features, functions, and technologies. The Company's growth and future operating results will depend, in part, upon its ability to enhance existing applications and develop and introduce new applications that meet changing customer requirements, that respond to competitive products and that achieve market acceptance.

The Company resells a variety of hardware products developed and manufactured by third parties. Revenue from such hardware sales can amount to a significant portion of the Company's total revenue in any period. As the market for distribution of hardware products becomes more competitive, the Company's customers may find it attractive to purchase such hardware directly from the manufacturer of such products, with a resultant decrease in the Company's revenues from hardware.

Revenue Recognition

The Company's revenue consists of revenues from the licensing of software; fees from consulting, implementation and training services (collectively, "professional services"), plus customer support services and software upgrades; and sales of complementary radio frequency and computer equipment.

Effective January 1, 1998, the Company adopted Statement of Position No. 97-2, "Software Revenue Recognition" ("SOP 97-2"), as amended by Statement of Position No. 98-9, "Software Revenue Recognition, With Respect to Certain Transactions" ("SOP 98-9"). Under SOP 97-2, the Company recognizes software license revenue when the following criteria are met: (1) a signed contract is obtained; (2) delivery of the product has occurred; (3) the license fee is fixed or determinable; (4) collectibility is probable; and (5) remaining obligations under the license agreement are insignificant. SOP 98-9 requires recognition of revenue using the "residual method" when (1) there is vendor-specific objective evidence of the fair values of all undelivered elements in a multiple-element arrangement that is not accounted for using long-term contract accounting; (2) vendor-specific objective evidence of fair value does not exist for one or more of the delivered elements in the arrangement; and (3) all revenue-recognition criteria in SOP 97-2 other than the requirement for vendor-specific objective evidence of the fair value of each delivered element of the arrangement are satisfied. SOP 98-9 was effective for transactions entered into after March 15, 1999, and the Company adopted the residual method for such arrangements at that time. For those contracts that contain significant future obligations, license revenue is recognized under the percentage of completion method.

The Company's services revenue consists of fees generated from professional services, customer support services and software enhancement subscriptions related to the Company's software products. Professional services are typically contracted for under separate service agreements. Fees from professional services performed by the Company are generally billed on an hourly basis, and revenue is recognized as the services are performed. Professional services are sometimes rendered under fixed-fee based contracts, but only in instances when the scope of the project is reasonably quantifiable. Revenue related to fixed-fee based contracts is recognized on a percent complete basis based on the hours incurred. Revenue related to customer support services and software enhancement subscriptions are generally paid in advance and recognized ratably over the term of the agreement, typically 12 months.

Hardware revenue is generated from the resale of a variety of hardware products, developed and manufactured by third parties, that are integrated with and complementary to the Company's software solutions. As part of a complete x-SCE solution the Company's customers frequently purchase hardware from

47

MANHATTAN ASSOCIATES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED)

the Company in conjunction with the licensing of software. These products include computer hardware, radio frequency terminals networks, bar code printers and scanners, and other peripherals. Hardware revenue is recognized upon shipment to the customer. The Company generally purchases hardware from its vendors only after receiving an order from a customer. As a result, the Company does not maintain significant hardware inventory.

Deferred Revenue

Deferred revenue represents amounts collected prior to complete performance

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

of professional services, customer support services and software enhancement subscriptions and significant obligations under license agreements. The Company expects to complete such services or obligations within the next twelve months.

Returns and Allowances

The Company has not experienced significant returns or warranty claims to date and, as a result, has not recorded a provision for the cost of returns and product warranty claims at December 31, 2000 or 2001.

Property and Equipment

Property and equipment consists of furniture, computers, other office equipment, purchased software for internal use, and leasehold improvements recorded at cost. The Company depreciates the cost of furniture, computers, other office equipment, purchased software and web site development on a straight-line basis over their estimated useful lives (three years for computer equipment and software, five years for office equipment, seven years for furniture). Leasehold improvements are depreciated over the lesser of its useful life or the term of the lease. Included in computer equipment and software is a capital lease of approximately \$670,000 and \$447,000, net of depreciation, as of December 31, 2000 and 2001, respectively. Depreciation and amortization expense for property and equipment for the years ended December 31, 1999, 2000 and 2001 was approximately \$3,213,000, \$4,315,000 and \$5,719,000, respectively, and was included in general and administrative expenses in the consolidated statements of income.

Property and equipment, at cost, consist of the following (in thousands):

	DECEMBER 31,	
	2000	2001
Computer equipment and software.....	\$13,640	\$ 18,598
Furniture and office equipment.....	4,672	4,837
Leasehold improvements.....	1,708	2,583
	20,020	26,018
Less accumulated depreciation and amortization.....	(9,187)	(14,833)
	\$10,833	\$ 11,185

Intangible Assets

Intangible assets include acquired software, goodwill and capitalized development costs. The assets are being amortized on a straight-line basis over a period of 3 to 10 years. Total amortization expense related to goodwill and acquired software was approximately \$1,102,000, \$1,165,000 and \$5,240,000 for the years ended December 31, 1999, 2000 and 2001, respectively, and is included separately in the accompanying consolidated statements of income. Total amortization expense related to capitalized software development costs was approximately \$822,000, \$620,000 and \$406,000 for the years ended December 31, 1999, 2000 and 2001, respectively, and is included in cost of software fees in the accompanying consolidated statements of income.

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

MANHATTAN ASSOCIATES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED)

During 1999, the Company expensed approximately \$300,000 of capitalized software development costs and approximately \$495,000 of acquired software and goodwill due to impairment of certain assets, respectively.

Intangible Assets consist of the following (in thousands):

	DECEMBER 31,	
	2000	2001
Goodwill.....	\$26,404	\$ 26,331
Acquired software.....	8,908	8,908
Capitalized software development costs.....	1,523	2,240
	36,835	37,479
Less accumulated amortization.....	(4,381)	(10,029)
	\$32,454	\$ 27,450

Software Development Costs

Research and development expenses are charged to expense as incurred. The Company determines the amount of development costs capitalizable under the provisions of SFAS No. 86, "Accounting for Costs of Computer Software to Be Sold, Leased, or Otherwise Marketed". Computer software development costs are charged to research and development expense until technological feasibility is established, after which remaining software production costs are capitalized in accordance with SFAS No. 86. The Company has defined technological feasibility as the point in time at which the Company has a detailed program design or a working model of the related product, depending on the type of development efforts. For the years ended December 31, 1999, 2000 and 2001, the Company capitalized approximately \$909,000, \$0 and \$0 of internal research and development costs. Amounts capitalized include salaries, other payroll-related costs, contract labor and other direct expenses. During 2001, payments of approximately \$717,000 were made to an outside research and development organization to internationalize PkMS into Japanese, German, French and Spanish. The payments have been classified as Other Assets and will be amortized over a three-year period beginning in January 2002.

Impairment of Long-Lived and Intangible Assets

The Company periodically reviews the values assigned to long-lived assets, including property and intangible assets, to determine whether events and circumstances have occurred which indicate that the remaining estimated useful lives may warrant revision or that the remaining balances may not be recoverable. In such reviews, undiscounted cash flows associated with these assets are compared with their carrying value to determine if a write-down to fair value is required. Management believes the long-lived and intangible assets in the accompanying consolidated balance sheets are fairly valued.

Segment Information

The Company operates in a single segment as defined by SFAS No. 131,

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

"Disclosures about Segments of an Enterprise and Related Information." See Note 9 for discussion of foreign operations.

Basic and Diluted Net Income Per Share

Basic net income per share is computed using historical or pro forma net income divided by the weighted average number of shares of common stock outstanding ("Weighted Shares") for the period presented.

49

MANHATTAN ASSOCIATES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED)

Diluted net income per share is computed using net income divided by Weighted Shares, and the treasury stock method effect of common equivalent shares ("CESs") outstanding for each period presented. The following is a reconciliation of the shares used in the computation of net income per share for the years ended December 31, 1999, 2000 and 2001:

	1999		2000		2001	
	BASIC	DILUTED	BASIC	DILUTED	BASIC	DILUTED
Weighted shares.....	24,083,571	24,083,571	25,174,102	25,174,102	27,077,137	27,077,137
Effect of CESs.....	--	2,469,008	--	5,279,342	--	3,664,890
	24,083,571	26,552,579	25,174,102	30,453,444	27,077,137	30,742,027
	=====	=====	=====	=====	=====	=====

Stock-Based Compensation Plan

The Company accounts for its stock-based compensation plan for stock issued to employees under Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees," and, accordingly, records deferred compensation for options granted at an exercise price below the fair value of the underlying stock. The deferred compensation is presented as a component of equity in the accompanying consolidated balance sheets and is amortized over the periods to be benefited, generally the vesting period of the options. Effective in fiscal year 1996, the Company adopted the pro forma disclosure option for stock-based compensation issued to employees of SFAS No. 123, "Accounting for Stock-Based Compensation."

Comprehensive Income

In fiscal 1999, the Company adopted SFAS No. 130, "Reporting Comprehensive Income." This statement establishes the rules for the reporting of comprehensive income and its components. The Company's comprehensive income includes net income, foreign currency translation adjustments and unrealized gains and losses on short-term investments.

Reclassifications

Certain reclassifications were made to the prior years' financial statements to conform to the 2001 presentation.

New Accounting Pronouncements

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

In June 1998, the Financial Accounting Standards Board issued SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities." This Statement established accounting and reporting standards for derivative instruments, including certain derivative instruments embedded in other contracts, collectively referred to as derivatives, and for hedging activities. It requires that an entity recognize all derivatives as either assets or liabilities in the statement of financial position and measure those instruments at fair value. The Company adopted the new statement on January 1, 2001. The adoption of this Statement did not have a significant impact on the Company's financial statements.

In September 2000, the Financial Accounting Standards Board issued SFAS No. 140, "Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities -- a Replacement of FASB Statement No. 125." This Statement revises the standards for accounting for securitizations and other transfers of financial assets and collateral. This statement is effective for transfers and servicing of financial assets and extinguishments of liabilities occurring after March 31, 2001. The adoption of this Statement did not have a significant impact on the Company's financial statements.

50

MANHATTAN ASSOCIATES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED)

In July 2001, the Financial Accounting Standards Board issued SFAS No. 141, "Business Combinations." This Statement requires that the purchase method of accounting be used for all business combinations initiated after June 30, 2001 and eliminates the pooling-of-interests method. The adoption of this Statement did not have a significant impact on the Company's financial statements.

Also in July 2001, the Financial Accounting Standards Board issued SFAS No. 142, "Goodwill and Other Intangible Assets." This Statement requires that goodwill and certain intangible assets, including those recorded in past business combinations, no longer be amortized to earnings, but instead be tested for impairment at least annually. SFAS No. 142 is effective for fiscal years beginning after December 15, 2001. The Company adopted SFAS No. 142 on January 1, 2002 and as a result, we will cease to amortize approximately \$21.3 million of goodwill during 2002. We had recorded approximately \$3.0 million of amortization on these amounts during 2001 and would have recorded approximately \$3.0 million of amortization during 2002. In lieu of amortization, we are required to perform an initial impairment review of our goodwill in 2002 and an impairment review at least annually thereafter.

In November 2001, the FASB issued a Staff Announcement Topic D-103 (Topic D-103), "Income Statement Characterization of Reimbursements Received for Out-of-Pocket Expenses Incurred." Topic D-103 establishes that reimbursements received for out-of-pocket expenses should be reported as revenue in the statement of operations. During 2001, we classified reimbursed out-of-pocket expenses as a reduction of operating expenses. We adopted this guidance effective January 1, 2002. Our adoption of Topic D-103 will result in increased services revenue and increased costs of services revenue. Our results of operations for prior periods will be reclassified to conform to the new presentation. The total amount of expense reimbursement recorded to expense was \$4.0 million, \$5.5 million and \$5.1 million for 1999, 2000 and 2001, respectively. Our adoption of Topic D-103 will not affect our net income or loss in any past or future periods.

2. INCOME TAXES

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

The Company is subject to future federal and state income taxes and has recorded net deferred tax assets. Deferred tax assets and liabilities are determined based on the difference between the financial accounting and the tax bases of assets and liabilities. Significant components of the Company's deferred tax assets and liabilities as of December 31, 2000 and 2001 are as follows:

	DECEMBER 31,	
	2000	2001
Deferred tax assets:		
Accounts receivable.....	\$1,581,000	\$1,421,000
Accrued liabilities.....	911,000	506,000
Stock compensation expense.....	271,000	57,000
Intangible assets.....	1,179,000	1,938,000
Depreciation.....	--	534,000
Research and development credits.....	779,000	779,000
Other.....	39,000	--
	4,760,000	5,235,000
Deferred tax liabilities:		
Depreciation.....	27,000	--
Other.....	--	43,000
	27,000	43,000
Net deferred tax assets.....	\$4,733,000	\$5,192,000

51

MANHATTAN ASSOCIATES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED)

The components of the historical income tax provision for the years ended December 31, 1999, 2000 and 2001 are as follows:

	1999	2000	2001
Current:			
Federal.....	\$ 2,264,000	\$ 8,936,000	\$7,546,000
State.....	401,000	1,698,000	1,432,000
Foreign.....	--	450,000	929,000
	2,665,000	11,084,000	9,907,000
Deferred:			
Federal.....	(1,777,000)	(1,132,000)	(324,000)
State.....	(334,000)	(212,000)	(61,000)
	(2,111,000)	(1,344,000)	(385,000)
Total.....	\$ 554,000	\$ 9,740,000	\$9,522,000

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

The income tax benefits related to the exercise of stock options were allocated to additional paid-in capital. Such amounts were approximately \$730,000, \$13,522,000 and \$9,049,000 for 1999, 2000 and 2001, respectively. As a result of these income tax benefits, the Company has refundable income taxes of \$1,624,000 at December 31, 2001. The refundable income taxes represent refunds to be received for taxes paid in 1998 and 1999.

As a result of the tax benefit related to the exercise of stock options, the Company has federal net operating loss carry-forwards ("NOLs") of approximately \$23,504,000 available to offset future income in those respective taxing jurisdictions. The federal NOLs expire in 2021. The NOLs may be subject to certain limitations in the event of a change in ownership. In addition, the Company has \$1,396,000 of research and development tax credit carryforwards that expire in 2018 to 2021.

The following is a summary of the items that resulted in recorded income taxes to differ from taxes computed using the statutory federal income tax rate for the years ended December 31, 1999, 2000 and 2001:

	1999	2000	2001
	-----	-----	-----
Statutory federal income tax rate.....	34.0%	35.0%	35.0%
Effect of:			
State income tax, net of federal benefit.....	4.0	4.0	3.5
Research and development credits.....	(16.6)	(1.0)	(0.8)
Foreign operations.....	(0.7)	(0.7)	(0.6)
Tax exempt income.....	(5.2)	(0.3)	(0.3)
Meals and entertainment.....	6.0	0.4	0.6
Intangibles.....	12.0	0.2	0.1
Other.....	--	(0.1)	(0.5)
	-----	-----	-----
Income taxes.....	33.5%	37.5%	37.0%
	=====	=====	=====

3. STOCK OPTION PLANS

The Manhattan Associates LLC Option Plan (the "LLC Option Plan") became effective on January 1, 1997. The LLC Option Plan is administered by a committee appointed by the Board of Directors. The aggregate number of shares reserved for issuance under the LLC Option Plan was 5,000,000 shares. The options are granted at terms determined by the committee; however, the options cannot have a term exceeding ten years. Options granted under the LLC Option Plan have vesting periods ranging from immediately to six

52

MANHATTAN ASSOCIATES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED)

years. Subsequent to February 28, 1998, no additional options could be granted pursuant to the LLC Option Plan.

Prior to the establishment of the LLC Option Plan, the Company issued options to purchase 661,784 shares of common stock to certain employees. These grants contain provisions similar to options issued under the LLC Option Plan.

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

The Company's 1998 Stock Incentive Plan (the "Stock Incentive Plan") was adopted by the Board of Directors and approved by the shareholders in February 1998. The Stock Incentive Plan provides for the grant of incentive stock options. Optionees have the right to purchase a specified number of shares of common stock at a specified option price and subject to such terms and conditions as are specified in connection with the option grant. The Stock Incentive Plan is administered by the Compensation Committee of the Board of Directors. The committee has the authority to adopt, amend and repeal the administrative rules, guidelines and practices relating to the Stock Incentive Plan generally and to interpret the provisions thereof. Options granted under the Stock Incentive Plan cannot have a term exceeding ten years and typically vest over a period of three to six years.

As of December 31, 2001, the Stock Incentive Plan provides for issuance of up to 10,659,453 shares of common stock (subject to adjustment in the event of stock splits and other similar events), less the number of shares issued under the LLC Option Plan, in the form of stock options and other stock incentives. The number of shares available for issuance under the Plan is automatically adjusted, without shareholder approval, on the first day of each fiscal year, beginning with the 2000 fiscal year, by a number of shares such that the total number of shares reserved for issuance under the Plan equals the sum of (i) the aggregate number of shares previously issued under the Plan and the Manhattan Associates, LLC Option Plan; (ii) the aggregate number of shares subject to then outstanding stock incentives granted under the Plan and the Manhattan Associates, LLC Option Plan; and (iii) 5% of the number of shares of common stock outstanding on the last day of the preceding fiscal year. However, no more than 1,000,000 of the shares available for grant each year shall be available for issuance pursuant to incentive stock options, and no more than 10,000,000 shares resulting from such automatic adjustments may ever be issued during the term of the Plan.

A summary of changes in outstanding options is as follows:

	OPTIONS	PRICE	WEIGHTED AVERAGE EXERCISE PRICE
	-----	-----	-----
December 31, 1998.....	5,968,970	\$ 0.24 - 23.50	\$ 7.71
Granted.....	4,661,114	3.53 - 17.50	7.07
Canceled.....	(2,756,221)	2.50 - 23.50	10.60
Exercised.....	(198,713)	2.50 - 10.00	3.70

Exercised.....	(1,277,700)	0.24 - 29.88	5.26
December 31, 2001.....	6,532,767	\$ 0.24 - 68.38	\$17.04
	=====	=====	=====

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

MANHATTAN ASSOCIATES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED)

Details of options outstanding at December 31, 2001 are as follows:

OUTSTANDING			EXERCISABLE		
EXERCISE PRICES	OPTIONS OUTSTANDING	WEIGHTED AVERAGE REMAINING CONTRACTUAL LIFE	WEIGHTED AVERAGE EXERCISE PRICES	OPTIONS EXERCISABLE	AVERAGE EXERCISE PRICE
\$ 0.24 - 3.50	829,551	3.8	\$ 1.65	829,551	\$ 1.65
3.51 - 7.50	1,288,765	7.3	4.86	557,857	5.51
7.51 - 15.00	1,606,961	7.2	9.31	903,937	8.95
15.01 - 25.00	584,715	7.9	18.57	162,969	17.96
25.01 - 40.00	1,802,175	9.5	30.40	129,372	37.64
40.01 - 68.38	420,600	8.8	54.95	144,362	50.71
	6,532,767	7.6	\$17.04	2,728,048	\$10.14

At December 31, 2001, 1,032,348 shares are available for future grant.

The Company recorded deferred compensation of \$580,000 on options granted during 1998, as the exercise price was less than the deemed fair value of the underlying common stock. The Company amortizes deferred compensation over a period not to exceed six years. The Company recognized compensation expense of \$148,000, \$85,000 and \$82,000 for the year ended December 31, 1999, 2000 and 2001, respectively, and had deferred compensation expense of \$193,000 and \$105,000 at December 31, 2000 and 2001, respectively.

Pro forma information regarding net income and net income per share is required by SFAS No. 123, which also requires that the information be determined as if the Company had accounted for its employee stock option grants under the fair value method required by SFAS No. 123. The fair value of each option grant has been estimated as of the date of grant using the Black-Scholes option pricing model with the following assumptions:

	1999	2000	2001
Dividend yield.....	--	--	--
Expected volatility.....	119%	131%	122%
Risk-free interest rate at the date of grant.....	5.0%	5.0%	5.0%
Expected life.....	5 years	5 years	5 years

Using these assumptions, the fair values of the stock options granted during the years ended December 31, 1999, 2000 and 2001 are \$24,410,000, \$37,221,000 and \$30,421,000, respectively, which would be amortized over the vesting period of the options.

The weighted average fair market values of options at the date of grant for the years ended December 31, 1999, 2000 and 2001 was \$5.90, \$33.07 and \$22.37,

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

respectively.

Options granted at less than fair market value.....	--	--	--

4. SHAREHOLDERS' EQUITY

ISSUANCE OF STOCK

During 1999, the Company issued 85,000 shares of common stock to one of the Company's executives as part of his employment agreement. Compensation expense of approximately \$300,000 was recorded in connection with the issuance.

During 2000, the Company issued 173,900 shares of the Company's common stock in connection with the acquisition of Intrepa, L.L.C. The number of shares

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

issued by the Company was subject to adjustment on January 1, 2001 and April 1, 2001 based on the average closing price of the Company's common stock for the 20 days prior to January 1, 2001 and April 1, 2001. In January and April 2001, the Company issued 1,238 and 61,819 additional shares, respectively, in connection with the acquisition.

PURCHASE OF STOCK

During 2001, the Company purchased 65,000 shares of the Company's common stock for approximately \$885,000 through open market transactions as part of a publicly-announced buy-back program.

	----	-----
Total.....	712	\$17,471
Less amount representing interest.....	(117)	

Net present value of future minimum lease payments.....	595	
Less current portion of capital lease obligation.....	(163)	

Long-term portion of capital lease obligation.....	\$432	
	=====	

EMPLOYMENT AGREEMENTS

The Company has entered into employment contracts with certain executives and other key employees. The agreements provide for total severance payments of up to approximately \$1.9 million for termination of employment for any reason other than cause. Payment terms vary from a lump sum payment to equal monthly installments over a period of not more than 12 months.

LEGAL MATTERS

Many of the Company's installations involve products that are critical to the operations of its clients' businesses. Any failure in a Company product

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

could result in a claim for substantial damages against the Company, regardless of the Company's responsibility for such failure. Although the Company attempts to limit contractually its liability for damages arising from product failures or negligent acts or omissions, there can be no assurance the limitations of liability set forth in its contracts will be enforceable in all instances.

6. LONG-TERM DEBT

A portion of the purchase price of the Intrepa acquisition has been funded with the issuance of a promissory note (the "Note"). Unless prepaid at the option of the Company, the Note is payable in four equal installments of \$1,750,000, to be paid every six months beginning on October 1, 2001 and concluding on April 1, 2003. The Note is subject to interest at a rate of 8% per year, which is due on the last day of each

56

MANHATTAN ASSOCIATES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED)

fiscal quarter of the Company for so long as principal remains outstanding under the Note. Long-term debt consists of the following (in thousands):

	DECEMBER 31,	
	2000	2001
Promissory note outstanding bearing interest at 8% per year, repayable every six months through April 1, 2003.....	\$ 7,000	\$ 5,250
Less current portion.....	(1,750)	(3,500)
Long-term portion.....	\$ 5,250	\$ 1,750
	=====	=====

YEAR ENDED DECEMBER 31,		
2002.....	3,500	
2003.....	1,750	

Total.....	5,250	
	=====	

7. ACQUISITION

Fiscal 2000 Acquisition

On October 24, 2000, the Company acquired substantially all of the assets of Intrepa, L.L.C. ("Intrepa") for a purchase price of approximately \$31.0 million. The purchase price consists of a cash payment of \$13.0 million, the issuance of approximately \$10.0 million of the Company's \$.01 par value per

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

share common stock (totaling 236,957 shares), and the issuance by the Company of a promissory note for \$7.0 million. The Company also incurred approximately \$0.9 million of transaction costs related to the acquisition. The purchase price includes the assumption of substantially all of the liabilities of Intrepa, including immediate payment by the Company of the remaining \$2.0 million of principal and up to \$15,000 interest on a promissory note previously issued by Intrepa. The acquisition has been accounted for under the purchase method of accounting. Based on an independent appraisal, the purchase price has been allocated to net liabilities assumed of \$2.6 million, acquired in-process research and development of \$2.4 million (see Note 8), acquired developed technology of \$7.5 million, and other intangible assets of \$23.3 million. Acquired developed technology is being amortized over an estimated five-year useful life and other intangible assets are being amortized over a seven-year useful life.

Unaudited pro forma operating results for the year ended December 31, 2000, assuming that the acquisition had occurred at the beginning of 2000 is as follows (in thousands):

	2000
Revenues.....	\$140,728
Pro forma net income.....	11,528
Pro forma diluted net income per share.....	\$ 0.38

8. IN-PROCESS RESEARCH AND DEVELOPMENT AND ACQUISITION-RELATED RESTRUCTURING CHARGES

In-process research and development represents the value assigned in a purchase business combination to research and development projects of the acquired business that had commenced but had not reached technological feasibility and has no alternative future use. In accordance with SFAS No. 2, "Accounting for Research and Development Costs," as clarified by FASB Interpretation No. 4, amounts assigned to in-process research and development meeting the above stated criteria must be charged to expense as part of the allocation of the purchase price of the business combination. Accordingly, a charge totaling \$2,425,000 was recorded during 2000 as part of the allocations of the purchase price related to the acquisition of Intrepa.

57

MANHATTAN ASSOCIATES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED)

In 2000, the Company recorded a restructuring charge as a result of the acquisition of Intrepa. The charge consists entirely of severance related costs. These costs were utilized in the fourth quarter of 2000 and the first quarter of 2001. The following is a summary of the amounts incurred:

	2000 CHARGE	UTILIZED 2000	UTILIZED 2001
Employee severance.....	\$576,000	\$121,000	\$455,000

Edgar Filing: MANHATTAN ASSOCIATES INC - Form 10-K405

9. FOREIGN OPERATIONS

Total international revenue was approximately \$5.5 million, \$14.9 million and \$26.1 million for the years ended December 31, 1999, 2000 and 2001, respectively, which represents approximately 7%, 11% and 17% of our total revenue for the years ended December 31, 1999, 2000 and 2001, respectively. International revenue includes all revenue associated with sales of software, services and hardware outside the United States.

During 1998, the Company commenced operations in Europe. Total revenue for Europe was approximately \$3.8 million, \$10.3 million and \$22.1 million for the years ended December 31, 1999, 2000 and 2001, respectively. Total net income for Europe was approximately \$28,000, \$1.2 million and \$2.2 million for the years ended December 31, 1999, 2000 and 2001, respectively. Total assets for Europe were approximately \$2.3 million, \$4.6 million and \$7.7 million as of December 31, 1999, 2000 and 2001, respectively.

10. EMPLOYEE BENEFIT PLAN

The Company sponsors the Manhattan Associates 401(k) Plan and Trust (the "401(k) Plan"), a qualified profit sharing plan with a 401(k) feature covering substantially all employees of the Company. Under the 401(k) Plan's deferred compensation arrangement, eligible employees who elect to participate in the 401(k) Plan may contribute up to 18% up to \$10,500 of eligible compensation, as defined, to the 401(k) Plan. The Company provides for a 50% matching contribution up to 6% of eligible compensation being contributed after the participant's first year of employment. During the years ended December 31, 1999, 2000 and 2001, the Company made matching contributions to the 401(k) Plan of \$413,000, \$706,000 and \$1,059,000, respectively.

PART IV

ITEM 14. EXHIBITS, FINANCIAL STATEMENT SCHEDULES, AND REPORTS ON FORM 8-K

(a) 1. Financial Statements

The response to this item is submitted as a separate section of this Form 10-K. See Item 8.

2. Financial Statement Schedule

The following financial statement schedule is filed as a part of this report:

60

REPORT OF INDEPENDENT PUBLIC ACCOUNTANTS
ON FINANCIAL STATEMENT SCHEDULE

To Manhattan Associates, Inc.

We have audited in accordance with auditing standards generally accepted in the United States, the financial statements of Manhattan Associates, Inc. and subsidiaries included in this Form 10-K and have issued our report thereon dated January 31, 2002. Our audits were made for the purpose of forming an opinion on those statements taken as a whole. The forgoing schedule is the responsibility of the company's management and is presented for purposes of complying with the Securities and Exchange Commission's rules and is not part of the basic financial statements. This schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, fairly states in all material respects the financial data required to be set forth therein in relation to the basic financial statements taken as a whole.

ARTHUR ANDERSEN LLP

Atlanta, Georgia
