-

Item 2.02 Results of Operation and Financial Condition

On January 23, 2008, United Community Banks, Inc. (the Registrant) issued a news release announcing its financial results for the quarter ended December 31, 2007 (the News Release). The News Release, including financial schedules, is attached as Exhibit 99.1 to this report. In connection with issuing the News Release, on January 23, 2008 at 11:00 a.m. EST, the Registrant intends to hold a conference call/webcast to discuss the News Release.

The presentation of the Registrant s financial results included net operating income, which is a measure of performance determined by methods other than in accordance with generally accepted accounting principles, or GAAP. Management included non-GAAP net operating income because it believes it is useful for evaluating the Registrant s operations and performance over periods of time, and uses net operating income in managing and evaluating the Registrant s business and intends to use it in discussions about the Registrant s operations and performance. Net operating income excludes the pre-tax effect of the special \$15 million fraud related provision for loan losses recorded in the second quarter of 2007 and an additional \$3 million special provision for loan losses recorded in the fourth quarter of 2007 because management feels that the events leading to the taking of the special provisions were isolated, non-recurring events and do not reflect overall trends in the Registrant s earnings. Management believes this non-GAAP net operating income may provides users of the Registrant s financial information with a meaningful measure for assessing the Registrant s financial results and comparing those financial results to prior periods.

Net operating income should be viewed in addition to, and not as an alternative or substitute for, the Registrant s reported net income determined in accordance with GAAP, and is not necessarily comparable to non-GAAP performance measures that may be presented by other companies.
