The information in this proxy statement/ prospectus is not complete and may be changed. We may not issue the shares of FNB common stock to be issued in connection with the merger described in this proxy statement/ prospectus until the registration statement filed with the SEC is effective. This prospectus is not an offer to sell these securities and it is not soliciting an offer to buy these securities in any state where the offer or sale is not permitted. Any representation to the contrary is a criminal offense.

**SUBJECT TO COMPLETION, DATED FEBRUARY 3, 2006  
MERGER PROPOSAL YOUR VOTE IS VERY IMPORTANT**

Our board of directors has approved an agreement to merge with F.N.B. Corporation. If the merger is completed, our shareholders will receive merger consideration of one share of FNB common stock (NYSE:FNB) for each Legacy share, cash or a combination of FNB common stock and cash, subject to pro ration because the amount of stock consideration is fixed at 2,468,845 shares. The value of the merger consideration will fluctuate with the value of FNB stock.

We cannot complete the merger unless our shareholders approve the merger agreement. We will hold a special meeting of our shareholders to vote on the merger agreement. Your vote is important, whether or not you plan to attend our shareholders meeting, please take the time to submit your proxy with voting instructions in accordance with the instructions provided in this proxy statement/ prospectus. The place, date and time of our special meeting is as follows:

**March , 2006  
10:00 a.m., local time**

The accompanying proxy statement/ prospectus gives you detailed information about our special meeting, the merger agreement, the transactions contemplated thereby and related matters. **We recommend that you read these materials carefully, including the considerations discussed under Risk Factors beginning on page 43 and the appendices hereto, which include the merger agreement.** You can also obtain information about FNB from documents it has filed with the Securities and Exchange Commission and information about Legacy from documents it has filed with the Federal Deposit Insurance Corporation.

Sincerely,

George H. Groves,  
Chairman and Chief Executive Officer  
Legacy Bank

**Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved the FNB common stock to be issued under this proxy statement/ prospectus or determined if this proxy statement/ prospectus is accurate or adequate. **QUESTIONS AND ANSWERS ABOUT THE MERGER AND OUR SPECIAL MEETING**

**Q. What matters will be considered at our special meeting?**

- A. At our special meeting, our shareholders will be asked to vote for a proposal to approve and adopt the merger agreement whereby we will merge with and into FNB Bank. We sometimes refer to this proposal as the merger proposal in this proxy statement/ prospectus. Our shareholders will also be asked to vote for a proposal to grant discretionary authority to adjourn our special meeting, if necessary, to solicit additional proxies if we have not received sufficient votes to approve the merger at the time of our special meeting. We sometimes refer to this proposal as the adjournment proposal in this proxy statement/ prospectus.

**Q. What will I receive upon consummation of the merger?**

- A. Upon consummation of the merger, you will have the right to elect to receive the following, subject to possible proration, in exchange for each share of our common stock:

one share of FNB common stock; or

\$18.40 in cash.

**Q. What is the recommendation of our board of directors?**

- A. Our board of directors has unanimously determined that the merger is fair to you and in the best interests of our shareholders and us and unanimously recommends that you vote for the merger proposal and the adjournment proposal.

In making this determination, our board of directors considered the opinion of Griffin Financial Group, LLC, or Griffin, our independent financial advisor, as to the fairness from a financial point of view of the FNB shares and cash you will receive pursuant to the merger agreement. Our board of directors also reviewed and evaluated the terms and conditions of the merger agreement and the merger with the assistance of our independent legal counsel.

**Q. What was the opinion of our financial advisor?**

- A. Griffin presented an opinion to our board of directors to the effect that, as of December 21, 2005 and based upon the assumptions made by Griffin, the matters it considered and the limitations of its review as set forth in its opinion, the merger consideration provided for in the merger agreement is fair to Legacy from a financial point of view.

**Q. What do I need to do now?**

- A. After you carefully read this proxy statement/ prospectus and decide how you want to vote on the merger proposal and the adjournment proposal, you should complete, date and sign your proxy card and mail it in the enclosed return envelope as soon as possible so that your shares may be represented at our special meeting, even if you plan to attend our special meeting and vote in person.

**Q. Why is my vote important?**

- A.

Pennsylvania law and our articles of incorporation require the affirmative vote of the holders of not less than two-thirds of our outstanding common stock in order to approve and adopt the merger proposal. Therefore, if you fail to vote or abstain from voting on the merger proposal, it will have the same effect as a vote against the merger proposal.

**Q. How do I vote in person?**

- A. If you are a stockholder of record, attend our special meeting and wish to vote in person, we will give you a ballot when you arrive at our special meeting.

**Q. How do I vote my shares if they are held in street name?**

- A. If you are not a holder of record but you are a beneficial holder, meaning that your shares are registered in a name other than your own, such as a street name, you must either direct the holder of record of your shares as to how you want your shares to be voted or obtain a proxy from the holder of record so that you may vote yourself.

**Table of Contents**

**Q. What if I fail to instruct my broker?**

- A. Brokers may not vote shares of our common stock that they hold for the benefit of another person either for or against the approval of the merger proposal without specific instructions from the person who beneficially owns those shares. Therefore, if your shares are held by a broker and you do not give your broker instructions on how to vote your shares, this will have the same effect as voting against the approval of the merger proposal.

**Q. May I vote electronically over the internet or by telephone?**

- A. If your shares are registered in the name of a bank or broker, you may be eligible to vote your shares electronically over the internet or by telephone. Many banks and brokerage firms participate in the ADP Investor Communications Services online program. This program provides eligible shareholders who receive a paper copy of this proxy statement/ prospectus the opportunity to vote via the internet or by telephone. If your bank or brokerage firm is participating in ADP's program, your proxy card will provide the instructions. If your proxy card does not reference internet or telephone information, please complete and mail the proxy card in the enclosed self-addressed, postage paid envelope.

**Q. May I change my vote after I have mailed my signed proxy?**

- A. Yes. You may revoke your proxy at any time before the vote is taken at our special meeting. If you have not voted through a bank, broker, nominee or other holder of record, you may revoke your proxy by:

submitting written notice of revocation to our corporate secretary prior to the voting of that proxy at our special meeting;

submitting a properly executed proxy with a later date; or

voting in person at our special meeting.

However, simply attending our special meeting without voting will not revoke an earlier proxy.

If your shares are held in the name of a bank, broker, nominee or other holder of record, you should follow the instructions of the bank, broker, nominee or other holder of record regarding the revocation of proxies.

If you voted your shares by telephone or internet, you can revoke your prior telephone or internet vote by recording a different vote, or by signing and returning a proxy card dated as of a date that is later than your last telephone or internet vote.

**Q. When do you expect to complete the merger?**

- A. We anticipate that we will obtain all necessary regulatory approvals to consummate the merger in the second quarter of 2006. However, we cannot assure you when or if the merger will occur. We must first obtain the approval of our shareholders at our special meeting and we and FNB must obtain the requisite regulatory approvals.

**Q. Should I send my stock certificates now?**

- A. No. Holders of our common stock should not submit their Legacy stock certificates for exchange until they receive the transmittal instructions and an election form from the exchange agent.

**Q. What rights do I have to dissent from the merger?**

- A. If you do not vote in favor of the merger proposal and you comply precisely with the applicable procedural requirements, the Bank Act entitles you to receive the appraised value of your shares. You must carefully and precisely follow the applicable procedures under the Bank Act in order to exercise your appraisal rights. A complete copy of the relevant section of the Bank Act regarding appraisal rights is included in this proxy statement/ prospectus as Appendix C. The fair value of your shares as determined in an appraisal rights proceeding may be more or less than the merger consideration you are entitled to receive from FNB under the merger agreement.

**Q. Who can help answer my questions?**

- A. If you have additional questions about the merger or would like additional copies of this proxy statement/ prospectus, please call Melissa Tyrrell at (717) 441-3400, extension 107.

**The Parties**

**Legacy (Page )**

The Legacy Bank is a Pennsylvania state-chartered bank that began operations in September 1999. Legacy serves a niche market of small and middle-market businesses and professionals and uses a business model predicated on convenient delivery of banking products and services (ATM networks, courier service, telephone banking, online banking and banking by appointment) by experienced bankers through our branch system and alternate delivery channels that supplement our branch locations. In addition, through its wholly owned subsidiary, The Legacy Trust Company, Legacy provides asset management services, including personal trust and estate planning, retirement and employee benefit planning and investment management. The vision of management is for Legacy to be recognized for its superior service, innovative products and services, professionalism and integrity. Management believes that Legacy's purpose is not to sell products and services to customers; rather, through comprehensive needs analysis, it is to construct solutions to our customer's needs by offering a wide range of commercial banking and asset management services. Legacy's philosophy is to focus on the needs of the customer and building a relationship with that customer. Legacy has eight offices that are located in Harrisburg, Camp Hill, Hazleton, Shenandoah, Drums, McAdoo, Pottsville and Williamsport. The Legacy Trust Company has two offices that are located in Harrisburg and Pottsville.

The principal executive office of Legacy is located at 2600 Commerce Drive, Harrisburg, Pennsylvania 17110. Legacy's telephone number is (717) 441-3400 and its website address is [www.thelegacybankonline2.com](http://www.thelegacybankonline2.com).

**FNB and FNB Bank (Pages - )**

FNB is a \$5.6 billion financial services holding company headquartered in Hermitage, Pennsylvania. FNB provides a broad range of financial services to its customers through FNB Bank and FNB's insurance agency, consumer finance and trust company subsidiaries. FNB Bank has 146 banking offices in Western Pennsylvania and Eastern Ohio and maintains six insurance agency locations. Regency Finance, FNB's consumer finance subsidiary, has 22 offices in Pennsylvania, 15 offices in Ohio and 16 offices in Tennessee. Another FNB subsidiary, First National Trust Company, has approximately \$1.2 billion of assets under management.

Consider and vote upon a proposal to approve and adopt the Agreement and Plan of Merger, dated as of December 21, 2005, among FNB, FNB Bank and us, pursuant to which we will merge with and into FNB Bank as described in this proxy statement/ prospectus;

Consider and vote upon a proposal to grant discretionary authority to adjourn our special meeting if necessary to permit further solicitation of proxies if there are not sufficient votes at the time of our special meeting to approve and adopt the merger agreement; and

Transact such other business as may be properly presented for action at our special meeting or any adjournment, postponement or continuation of our special meeting.

**Record Date; Quorum; Outstanding Common Stock Entitled to Vote (Page )**

Our board of directors has established the close of business on \_\_\_\_\_, 2006 as the record date for determining holders of shares of our common stock entitled to vote at our special meeting. You will not be entitled to vote at our special meeting if you are not a shareholder of record as of the close of business on \_\_\_\_\_, 2006.

Each share of our common stock is entitled to one vote. On the record date, \_\_\_\_\_ shares of our common stock were entitled to vote at our special meeting.

The presence, in person or by properly executed proxy, of the holders of at least a majority of our common stock issued and outstanding on the record date is necessary to constitute a quorum at our special meeting. Abstentions will be counted for the purpose of determining whether a quorum is present. There must be a quorum in order for the vote on the merger proposal to occur.

**Required Vote (Pages - )**

Under Pennsylvania law, the Bank Act and our articles of incorporation, the merger proposal must receive the affirmative vote of the holders of not less than two-thirds of the outstanding shares of our common stock. The affirmative vote of the holders of a majority of the outstanding shares of our common stock present in person or by proxy at our special meeting is required to approve the proposal to grant discretionary authority to adjourn our special meeting.

As of the record date, our directors and executive officers and their affiliates beneficially owned \_\_\_\_\_ shares of our common stock, or approximately \_\_\_\_\_ % of our shares entitled to vote at our special meeting. In addition, as of the record date, FNB owned \_\_\_\_\_ shares of our common stock, or approximately \_\_\_\_\_ % of the shares entitled to vote at our special meeting, and FNB's directors and executive officers and their affiliates owned an aggregate of \_\_\_\_\_ shares of our common stock as of the record date, or approximately \_\_\_\_\_ % of our shares entitled to vote at our special meeting.

Our board of directors believes that the merger is in the best interests of our shareholders and us and unanimously recommends that you vote for the merger proposal and for the adjournment proposal.

**Solicitation (Page )**

We will pay for the costs of our special meeting and for the mailing of this proxy statement/ prospectus to our shareholders. We and FNB will share equally the costs of printing this proxy statement/ prospectus and the filing fee paid to the Securities and Exchange Commission, or the SEC .

**Table of Contents**

In addition to soliciting proxies by mail, our directors, officers and employees may also solicit proxies in person or by telephone or e-mail, but will not be specially compensated for doing so.

We have engaged Regan & Associates, Inc. to assist us in the solicitation of proxies and will pay them a fee of \$8,000 for their services.

**The Merger**

**Certain Effects of the Merger (Pages - - )**

Upon consummation of the merger:

Each share of our common stock will automatically be converted into the right to receive, at your election, subject to the allocation provisions in the merger agreement:

one share of FNB common stock; or

\$18.40 in cash.

We will cease to exist as a separate legal entity and all of our operations will be conducted by FNB and FNB Bank; and

The holders of our common stock will no longer have any interest in us, including in any of our future growth or earnings.

Following consummation of the merger, FNB and its shareholders will be the only beneficiaries of any future growth or earnings, but will also bear all of the future risk of any decrease in the value of our business.

**Recommendation of Our Board of Directors (Pages - - )**

Our board of directors has unanimously determined that the terms of the merger agreement and the merger are fair to and in the best interests of our shareholders and us. Our board of directors unanimously recommends that you vote FOR the merger proposal and FOR the adjournment proposal.

**Stock Options, Warrants and Convertible Debentures (Pages - - )**

The merger agreement provides that, at the effective time of the merger, each outstanding option and warrant to purchase our common stock will cease to represent a right to purchase our common stock and will be converted automatically into a right to purchase that number of shares of FNB common stock equal to the number of shares of our common stock subject to the option or warrant at a price equal to the pre-merger exercise price of the option or warrant.

The merger agreement further provides that, at the effective time of the merger, each outstanding Legacy convertible subordinated capital note, or Legacy Note, will cease to be convertible into Legacy common stock and will automatically become convertible into that number of shares of FNB common stock equal to the number of our shares of common stock into which the Legacy Note is currently convertible at a conversion price equal to the pre-merger conversion price. FNB has also agreed to execute a supplemental indenture relating to the Legacy Notes.

**Opinion of Griffin as Our Financial Advisor (Pages - - )**

Griffin, our financial advisor in connection with the merger, delivered its written fairness opinion to our board of directors that, as of December 21, 2005, and based upon and subject to the factors and assumptions set forth in its opinion, the merger consideration is fair to Legacy, from a financial point of view.

Appendix B to this proxy statement/ prospectus sets forth the full text of the Griffin opinion, which sets forth the assumptions made, the procedures followed, the matters considered and the limitations on the review undertaken by Griffin in connection with its opinion. Griffin provided its opinion for the information and assistance of our board of directors in connection with its consideration of the merger. The Griffin opinion is

not a recommendation as to how you should vote with respect to the merger or any related matter. We encourage you to read the opinion in its entirety. Pursuant to an engagement letter between Griffin and us, we agreed to pay Griffin a fee, approximately \_\_\_\_\_ of which has been paid and approximately \_\_\_\_\_ of which is payable upon completion of the merger.

**Interests of Our Directors and Executive Officers in the Merger (Pages \_\_\_\_\_ - \_\_\_\_\_)**

In considering our board of directors' recommendation that you vote FOR the merger proposal, you should be aware that certain of our executive officers and directors have interests in the merger that are different from, or in addition to, your interests as a shareholder. These interests relate to or arise from, among other things:

the continued indemnification of our current directors and executive officers under the merger agreement and providing these individuals with directors' and officers' errors and omissions insurance;

the execution of an employment agreement between FNB Bank and each of George H. Groves, our Chairman and Chief Executive Officer, who will serve as Chairman of FNB's Harrisburg Region; Thomas W. Lennox, our President, who will serve as President of FNB's Harrisburg Region, and Joseph L. Paese, the President and Chief Executive Officer of Legacy Trust, who will serve as Market Executive of Wealth Management of FNB's Harrisburg Region.

the receipt of change of control payments by certain of our senior officers;

the members of our board of directors will be offered an opportunity to serve as members of an advisory board for FNB's Harrisburg region for which service they will receive fees, and the advisory board would have the power to enforce specifically certain covenants in the merger agreement; and

one member of our board of directors, George H. Groves, will be appointed to FNB Bank's board of directors.

**Conditions to the Merger (Pages \_\_\_\_\_ - \_\_\_\_\_)**

Currently, we expect to complete the merger in the second quarter of 2006. However, as more fully described in this proxy statement/prospectus and in the merger agreement, the completion of the merger depends on a number of conditions being satisfied or, where legally permissible, waived. These conditions include, among others:

approval of the merger proposal by the holders of not less than two-thirds of our outstanding common stock;

the receipt of all regulatory approvals needed to complete the merger, including the approval of the Office of the Comptroller of the Currency, or the OCC, the Board of Governors of the Federal Reserve System, or the Federal Reserve Board, and the furnishing of appropriate notices to the Pennsylvania Department of Banking, or the Department;

the absence of any law or injunction that would effectively prohibit the merger; and

the receipt of legal opinions from FNB's and our legal counsel as to the tax treatment of the merger.

We cannot be certain when, or if, the conditions to the merger will be satisfied or waived, or that the merger will be completed.

**Termination of the Merger Agreement (Pages \_\_\_\_\_ - \_\_\_\_\_)**

We may agree to terminate the merger agreement before completing the merger, even after our shareholders approve the merger proposal, if the termination is approved by our board of directors and the board of directors of FNB.

**Table of Contents**

Either FNB or we may terminate the merger agreement, even after our shareholders approve the merger proposal under certain circumstances, if certain conditions have not been met, such as:

failure to obtain the necessary regulatory approvals for the merger;

the other party's material breach of a representation, warranty, covenant or agreement, provided the terminating party is not then in material breach of any of its representations, warranties, covenants or agreements;

failure to complete the merger by September 30, 2006, unless the reason the merger has not been consummated by that date is a breach of the merger agreement by the party seeking to terminate the merger agreement; or

failure of the holders of not less than two-thirds of our outstanding common stock to approve the merger proposal, provided we are not in material breach of our obligations to have our board of directors recommend approval of the merger proposal and to take all reasonable lawful actions to solicit such shareholder approval.

FNB may terminate the merger agreement at any time prior to our special meeting if we have:

breached our obligation not to initiate, solicit or encourage, or take any action to facilitate, another proposal to acquire us, participate in any discussions or negotiations relating to another proposal to acquire us or, except as permitted by and subject to certain terms of, the merger agreement, to enter into an agreement relating to a proposal to acquire us on terms and conditions superior to those in the merger agreement or approve, recommend or enter into any agreement relating to another proposal to acquire us;

failed to have our board of directors recommend approval of the merger proposal to our shareholders or our board of directors shall have changed such recommendation, except as permitted by the merger agreement with respect to a proposal to acquire us on terms and conditions superior to those in the merger agreement;

our board of directors shall have recommended approval of another proposal to acquire us; or

failed to call and hold our special meeting.

We may terminate the merger agreement if the average closing price of FNB common stock during a specified period before receipt of the last required regulatory approval of the merger is less than \$14.38 and FNB common stock underperforms the Nasdaq Bank Index by 20% and FNB does not elect to increase the exchange ratio as provided in the merger agreement.

Except as provided below with respect to termination fees and expenses and the parties' respective confidentiality obligations, none of the parties will have any liability or obligation other than liabilities for damages incurred by a party as a result of another party's willful breach of any of its respective representations, warranties, covenants or agreements contained in the merger agreement.

**Expenses: Termination Fee (Page     and Page     )**

The merger agreement provides that we will pay FNB a break-up fee of \$3,000,000 if:

we terminate the merger agreement in order to enter into an agreement relating to an acquisition transaction that has terms superior to those of the merger agreement from the perspective of our shareholders;

FNB terminates the merger agreement because we have breached our obligation not to solicit superior proposals, we have failed to hold our special meeting or our board of directors has not recommended approval of the merger proposal or has changed its recommendation or has recommended that we enter into an agreement relating to another proposal to acquire us;

**Table of Contents**

the merger agreement is terminated following the commencement of a tender or exchange offer for 25% or more of our common stock and our board of directors fails to send a statement to our shareholders recommending rejection of that offer within 10 days after the offer has been made; or

FNB or we terminate the merger agreement because  
our shareholders did not approve the merger proposal;

a proposal to acquire us is made after December 21, 2005 and is not withdrawn prior to termination of the merger agreement; and

within 18 months thereafter we are acquired by that third party or other specified events occur.

**Appraisal Rights (Pages - )**

If you do not vote in favor of approval of the merger proposal, and you fulfill the other procedural requirements, the Bank Act entitles you to receive the appraised value of your shares. You must carefully and precisely follow the applicable procedures in order to be entitled to appraisal rights. A copy of the provisions of the Bank Act applicable to appraisal rights is included as Appendix C to this proxy statement/ prospectus.

**Material Federal Income Tax Consequences of the Merger (Pages - )**

We expect the merger to qualify as a tax-free reorganization for United States federal income tax purposes. In general, this means that our shareholders who receive FNB common stock will not recognize any gain or loss on the exchange of their common stock in the merger, except to the extent they receive cash instead of fractional shares in addition to FNB common stock. Our shareholders who receive all cash in exchange for their Legacy common stock in the merger will recognize gain or loss to the extent the cash received exceeds, or is less than, their tax basis in their stock. Our shareholders who receive a combination of cash and FNB common stock, including those who receive a combination as a result of prorations under the merger agreement, will realize gain to the extent that the amount of cash received plus the value of the FNB common stock received exceeds their tax basis in the Legacy common stock. Our shareholders who receive a combination of cash and FNB common stock will recognize gain, but not loss, in an amount equal to the lesser of the amount of the gain realized or the amount of the cash received.

**Dividends (Pages - )**

During 2005, FNB paid cash dividends on its common stock totaling \$0.925 per share. Based on the 1.0 share exchange ratio and FNB's current dividend rate, holders of our common stock would experience an anticipated annual dividend of \$0.94 per share, an increase of \$0.94 per share per year. Although FNB has no current plan or intention to increase its dividend rate, FNB's board of directors may, subject to applicable law, change its dividend rate in the future. FNB's ability to pay dividends on its common stock is subject to various legal and regulatory limitations.

**Certain Differences in Rights of Shareholders (Page - )**

When the merger is completed, the rights of our shareholders who receive FNB common stock will be governed by Florida law and FNB's articles of incorporation and by-laws rather than Pennsylvania law and our articles of incorporation and by-laws.

**Future FNB Acquisitions (Page )**

As part of its growth strategy, FNB may acquire other bank or financial services institutions to expand or strengthen its market position. Risks associated with this strategy are described in Risk Factors.

**Comparative Market Prices and Dividends (Pages - )**

FNB common stock is listed on the New York Stock Exchange under the symbol FNB. Prices for our common stock are quoted on the OTC Bulletin Board of the National Association of Securities Dealers under

the symbol LBOH . The table on page lists the quarterly price range of FNB common stock and our common stock since 2004 as well as the quarterly cash dividends FNB has paid. The following table shows the closing price of FNB common stock and our common stock as reported on December 20, 2005, the last trading day before we announced the merger, and on , 2006, the last practicable trading day before the date of this proxy statement/ prospectus. This table also shows the implied value of the merger consideration proposed for each share of Legacy common stock, which we calculated by multiplying the closing price of FNB common stock on those dates by 1.0 (the exchange ratio in the merger).

(1) Per share amounts for 2003, 2002, 2001 and 2000 have been restated for the common stock dividend declared on April 28, 2003.

- (2) Effective January 1, 2004, FNB spun-off its Florida operations into a separate, independent public company. As a result of the spin-off, the Florida operations' prior years earnings have been classified as discontinued operations on FNB's consolidated income statements and the assets and liabilities related to the discontinued operations have been disclosed separately on FNB's consolidated balance sheets for prior years. In addition, the book value at period end, stockholders' equity, the return on average assets ratio, the return on average equity ratio and the dividend payout ratio for prior years include the discontinued operations.

**Table of Contents****SELECTED CONSOLIDATED UNAUDITED PRO FORMA FINANCIAL INFORMATION**

The following table sets forth information about FNB's financial condition and results of operations, including per share data and financial ratios, after giving effect to the October 7, 2005 merger of North East Bancshares, Inc. ( North East ) and February 18, 2005 merger of NSD Bancorp, Inc. ( NSD ) both with and into FNB and the merger of Legacy with and into FNB Bank. This information is called pro forma financial information in this proxy statement/prospectus. The table shows the information as if the mergers had become effective on September 30, 2005, in the case of balance sheet data, and on January 1, 2004, in the case of income statement data. This pro forma information assumes that the mergers are accounted for using the purchase method of accounting and represents a current estimate based on available information about FNB's and Legacy's results of operations. See Accounting Treatment on page . The pro forma financial information includes adjustments to record the assets and liabilities of North East and Legacy at their estimated fair value and is subject to further adjustment as additional information becomes available and as further analyses are completed. The pro forma income statements do not include any amount for merger-related costs that will be incurred to combine the operations of Legacy with those of FNB. These charges will be recorded based on the nature and timing of the integration. This table should be read in conjunction with, and is qualified in its entirety by, the historical financial statements, including the notes thereto, of Legacy and FNB included in or incorporated by reference in this proxy statement/prospectus. See Where You Can Find More Information on page .

The pro forma financial information, while helpful in illustrating the combined financial condition and results of operations of North East, NSD, Legacy, and FNB once the merger with Legacy is completed under a particular set of assumptions, does not reflect the impact of possible revenue enhancements, expense efficiencies and asset dispositions, among other possibilities, that may occur as a result of the mergers and, accordingly, does not attempt to predict future results. The pro forma financial information also does not necessarily reflect what the combined historical results of operations of North East, Legacy and FNB would have been had they been merged during these periods.

## NOTES TO THE UNAUDITED PRO FORMA CONDENSED COMBINED FINANCIAL INFORMATION

### *Note A Basis of Pro Forma Presentation*

The following tables set forth information about FNB's financial condition and results of operations, including per share data and financial ratios, after giving effect to the October 7, 2005 merger of North East Bancshares, Inc. ( North East ) and February 18, 2005 merger of NSD Bancorp, Inc. ( NSD ) both with and into FNB, and the merger of Legacy with and into FNB Bank. This information is called pro forma financial information in this proxy statement/prospectus. The table shows the information as if the mergers had become effective on September 30, 2005, in the case of balance sheet data, and on January 1, 2004, in the case of income statement data.

The estimated purchase price of \$63,786,000 for Legacy is based on 30% cash payout at \$18.40 per share and 70% conversion of shares into FNB stock using an exchange ratio of one to one. The per share price value for FNB common stock was \$17.95, which was the average of the closing prices of FNB common stock for the period commencing 4 trading days before, and ending 4 trading days after December 21, 2005, the date of the merger agreement. The purchase price does not contemplate the potential conversion of \$4,442,500 in outstanding convertible subordinated debentures of Legacy at \$12.50 per share into 355,400 shares of FNB common stock as they are convertible only at the election of the holder.

The merger will be accounted for using the purchase method of accounting; accordingly, FNB's cost to acquire Legacy will be allocated to the assets acquired (including identifiable intangible assets) and liabilities assumed from Legacy at their respective fair values on the date the merger is completed. This table should be read in conjunction with, and is qualified in its entirety by, the historical financial statements, including the

notes thereto, of Legacy and FNB included in or incorporated by reference in this proxy statement/ prospectus. See **Where You Can Find More Information** on page .

The unaudited pro forma condensed combined financial information includes estimated adjustments to record the assets and liabilities of Legacy at their respective fair values and represents management's estimates based on available information. The pro forma adjustments included herein may be revised as additional information becomes available and as additional analysis are performed. The final allocation of the purchase price will be determined after the merger is completed and after completion of a final analysis to determine the fair values of Legacy's tangible, and identifiable intangible, assets and liabilities as of the closing date. Accordingly, the final purchase accounting adjustments and integration charges may be materially different from the pro forma adjustments presented in this document. Increases or decreases in the fair value of the net assets, commitments, contracts and other items of Legacy as compared to the information shown in this document may change the amount of the purchase price allocated to goodwill and other assets and liabilities and may impact the statement of income due to adjustments in yield and/or amortization of the adjusted assets or liabilities.

The unaudited pro forma condensed consolidated financial information presented in this document does not necessarily indicate the results of operations or the combined financial position that would have resulted had the merger been completed at the beginning of the applicable period presented, does not reflect the impact of possible revenue enhancements, expense efficiencies or asset dispositions, and is not indicative of the results of operations in future periods or the future financial position of the combined company.

***Note B Pro Forma Adjustments***

The unaudited pro forma combined financial information for the merger includes the pro forma balance sheet as of September 30, 2005 assuming the merger was completed on September 30, 2005. The pro forma income statements for the nine months ended September 30, 2005 and the year ended December 31, 2004 were prepared assuming the merger was completed on January 1, 2004.

***Legacy***

The unaudited pro forma condensed combined financial information reflects the issuance of 2,469,125 shares of FNB common stock with an aggregate value of \$44,315,000 and the conversion of approximately 406,100 Legacy stock options and warrants with a value of approximately \$2,720,000 at September 30 2005. Substantially all of the Legacy stock options and warrants are vested and will be converted into FNB stock options. Common stock used in the exchange was valued as discussed in Note A above.

The pro forma adjustments included in the unaudited pro forma condensed combined financial information are as follows:

(A) Adjustment to fair value of the loan portfolio. The adjustment will be recognized over the estimated remaining life of the loan portfolio. The impact of the adjustment was to decrease interest income by approximately \$1,027,000 and \$1,369,000 for the nine months ended September 30, 2005 and the year ended December 31, 2004, respectively.

(B) Adjustment to write off historical Legacy core deposit intangible and to record intangible assets (other than goodwill) resulting from the merger based on estimated fair values. Management is studying the nature, amount and amortization method of various possible identified intangibles. The adjustments reflected herein are based on current assumptions and valuations, which are subject to change. For purposes of the pro forma adjustments shown here, the estimated fair value of the intangibles is \$4,725,000 and consists of a core deposit intangible of \$4,125,000 and a trust customer list of \$600,000. It is estimated that the core deposit intangible and customer list will be amortized on an accelerated basis over 10 years. Material changes are possible when our analysis is completed. The net impact of the adjustment was to increase non-interest expense by approximately \$501,000 and \$667,000 for the nine months ended September 30, 2005 and the year ended December 31, 2004, respectively.

(C) Adjustment to write off historical Legacy goodwill and record goodwill created as a result of the merger.

(D) Adjustment to record the deferred tax liability created as a result of the fair value adjustments using FNB's statutory tax rate of 35%.

(E) Adjustment to fair value of time deposit liabilities based on current interest rates for similar instruments. The adjustment will be recognized over the estimated remaining term of the related deposit liability. The impact of the adjustment was to increase interest expense by approximately \$330,000 and \$443,000 for the nine months ended September 30, 2005 and the year ended December 31, 2004, respectively.

**Table of Contents**

(F) Adjustment to fair value of outstanding long-term debt instruments. The adjustment will be recognized over the remaining life of the long-term debt instruments. The impact of the adjustment was to increase interest expense by \$454,000 and \$605,000 for the nine months ended September 30, 2005 and the year ended December 31, 2004, respectively.

(G) Adjustment to reflect the anticipated issuance of long-term debt totaling \$21,500,000 to cover the 30% cash portion of Legacy shares acquired. The impact of the debt issuance was to increase interest expense by \$1,048,000 and \$1,398,000 for the nine months ended September 30, 2005 and the year ended December 31, 2004, respectively.

(H) Adjustment to reflect the liability for incremental direct costs associated with the merger. These costs include accountant and attorney fees, investment banker services, payout of employee contracts and severance payments to displaced Legacy personnel. These liabilities have been recorded pursuant to EITF 95-3, Recognition of Liabilities in Connection with a Purchase Business Combination .

(I) Adjustment to eliminate Legacy's historical shareholders' equity, the adjustment reflects the issuance of FNB common stock and the conversion of Legacy's stock options into FNB stock options.

(J) Adjustment to record the tax effect of the pro forma adjustments using FNB's statutory tax rate of 35%.

(K) Weighted average shares were calculated using the historical weighted average shares outstanding of Legacy and FNB, adjusted using the exchange ratio, to the equivalent shares of FNB common stock, for the year ended December 31, 2004 and the nine months ended September 30, 2005. Earnings per share data have been computed based on the combined historical income of Legacy and FNB and the impact of purchase accounting adjustments.

***North East and NSD***

The pro forma adjustments for North East and NSD are as follows:

The adjustment to fair value for loans, deposits and borrowings for North East as of September 30, 2005 were \$731,000, \$48,000 and \$32,000, respectively.

The impact of the North East fair value adjustments for the nine months ended September 30, 2005 on loans was to decrease interest income by \$108,000 and on deposits and borrowings was to decrease interest expense by \$27,000. The impact of the North East fair value adjustment on the core deposit intangible was to increase non-interest expense by \$6,000 for the nine months ended September 30, 2005.

The impact of the North East and NSD fair value adjustments the year ended December 31, 2004 on loans was to decrease interest income by \$380,000 and on deposits and borrowings was to decrease interest expense by \$1,081,000. The impact of the North East and NSD fair value adjustment on the core deposit intangible was to increase non-interest expense by \$872,000 for the year ended December 31, 2004.

***Note C Merger Related Charges and Benefits***

In connection with the merger, a plan is being developed to integrate FNB and Legacy's operations. The total integration costs have not yet been determined and have not been included in the pro forma adjustments. The specific details of these plans will continue to be refined over the next several months. Currently, our merger integration team is assessing the two companies' operations, including information systems, premises, equipment, benefit plans, service contracts and personnel to determine optimum strategies to realize additional cost savings.

**Table of Contents****MANAGEMENT'S DISCUSSION AND ANALYSIS OF  
LEGACY'S FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

The following discussion provides management's analysis of Legacy's financial condition and results of operations for the nine month periods ended September 30, 2005 and 2004 and for the years ended December 31, 2004, 2003 and 2002. The Legacy financial statements and accompanying notes included elsewhere in this proxy statement/prospectus are an integral part of this discussion and should be read in conjunction with it. Legacy is referred to as the Bank in this section.

**Critical Accounting Estimates*****Allowance for Loan Losses***

The allowance for loan losses is based on management's ongoing evaluation of the loan portfolio and reflects an amount considered by management to be its best estimate of known and inherent losses in the portfolio. Management considers a variety of factors when establishing the allowance, such as the impact of current economic conditions, diversification of the loan portfolios, delinquency statistics, results of loan review and related classifications, and historic loss rates. In addition, certain individual loans which management has identified as problematic are specifically provided for, based upon an evaluation of the borrower's perceived ability to pay, the estimated adequacy of the underlying collateral and other relevant factors. In addition, regulatory authorities, as an integral part of their examinations, periodically review the allowance for loan losses. They may require additions to the allowance based upon their judgments about information available to them at the time of examination. Although provisions have been established and segmented by type of loan, based upon management's assessment of their differing inherent loss characteristics, the entire allowance for loan losses is available to absorb loan losses in any category.

Management uses significant estimates to determine the allowance for loan losses. Since the allowance for loan losses is dependent, to a great extent, on conditions that may be beyond the Bank's control, it is at least reasonably possible that management's estimate of the allowance for loan losses and actual results could differ in the near term.

***Intangible Assets***

The costs of acquired banks or branches in excess of the fair value of net assets at the acquisition date are recorded as goodwill. Goodwill is not amortized, but is tested at least annually for impairment. Other identifiable intangible assets are amortized over their estimated useful lives.

As a result of this accounting treatment, operating results are significantly impacted by the amount of purchase price that is allocated to goodwill versus amortizable assets, management's assessment of impairment, and for amortizable assets, the useful lives, which are subjective in nature and require management to make certain estimates and assumptions.

***Deferred Tax Asset***

Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases, as well as operating loss carry forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

The benefit to the Bank of operating loss carryforwards and future deductible items exceeds future taxable items at September 30, 2005 and December 31, 2004, resulting in the recognition of a net deferred tax asset. A valuation allowance is established against deferred tax assets when in the judgment of management, it is more likely than not that such deferred tax assets will not be realizable based on the expected level of taxable income through the expiration date of the operating losses. Management's judgment about the level of future taxable income is dependent to a great extent on matters that may be beyond the Bank's control.

**Table of Contents**

Therefore, it is at least reasonably possible that management's judgment about the need for a valuation allowance for deferred taxes could change in the near term.

***Stock Based Compensation***

The Bank follows the disclosure requirements of Statement of Financial Accounting Standards (SFAS) No. 123, Accounting for Stock-Based Compensation. Accordingly, no compensation expense for option grants has been recognized in the financial statements of the Bank. If compensation expense for stock options had been recognized: (i) net income for the nine months ended September 30, 2005 would have been reduced by \$233,000 from \$1,264,000 to \$1,031,000 and diluted earnings per share would have been reduced from \$.34 to \$.28 for the nine month period ended September 30, 2005, and (ii) net income for the year 2004 would have been reduced by \$194,000 from \$2,355,000 to \$2,161,000 and diluted earnings per share for the year 2004 would have been reduced from \$.64 to \$.59.

The Bank calculates the compensation cost of the options by using the Black-Scholes method to determine the fair value of the options granted. In calculating the fair value of the options, the Bank makes assumptions regarding the risk-free rate of return, the expected volatility of the Bank's common stock and the expected life of the options. These assumptions impact the compensation cost of the options and the pro-forma impact to net income. Effective January 1, 2006, the compensation cost of certain option grants will require expense recognition according to the terms of SFAS No. 123R, Accounting for Stock-Based Compensation. Management expects the adoption of SFAS No. 123R to have an insignificant impact on the Bank's financial condition and results of operations.

***Segment Reporting***

Management has determined that it operates in only one segment, commercial banking.

**NINE MONTHS ENDED SEPTEMBER 30, 2005 AND 2004****Results of Operations*****Overview***

The Bank posted net income of \$1,264,000 for the nine months ended September 30, 2005 as compared to \$1,565,000 for the same period in 2004. Net income per dilutive share was \$0.34 in 2005 as compared to \$.43 in 2004. The primary component of the decrease was the recognition of income tax expense of \$570,000 in 2005 versus an income tax benefit of \$621,000 recorded in 2004 as accumulated net operating loss deductions were fully utilized by the end of 2004.

***Net Interest Income***

Net interest income is the difference between interest income earned on loans and investment securities and the interest expense incurred on deposits and borrowings, and is the Bank's primary revenue source. Net interest income is affected by the changes in asset and liability volume, the changes in the relative mix of individual asset and liability components, and the interest rate environment.

Average earning assets were \$332.5 million for the nine month period ended September 30, 2005, an increase of \$42.5 million or 14.7% over the 2004 average balance of \$290.0 million. The increase in 2005 came primarily from strong commercial loan growth during the twelve months ended September 30, 2005. Average interest-bearing deposits grew to \$249.5 million for the nine month period ended September 30, 2005, up from \$207.9 million in 2004. The deposit growth came primarily in time deposits and, to a lesser extent, savings and money market deposits.

**Table of Contents**

Primarily as a result of the balance sheet growth noted above, net interest income increased \$561,000 or 7.0% to \$8,578,000 for the nine month period ended September 30, 2005, up from \$8,017,000 in 2004. However, the net interest margin ratio declined to 3.47% in 2005 from 3.64% in 2004 primarily due to the flattening of the market interest rate curve following Federal Reserve short-term rate increases totaling 3.0% since June, 2004. The Table following this paragraph presents the Bank's average asset and liability balances, interest income and expense amounts, and related interest yield and cost percentages for the nine-month periods ended September 30, 2005 and 2004.

**Table of Contents*****Provision for Loan Losses***

The Bank's loan loss provision totaled \$350,000 for the nine month period ended September 30, 2005 as compared to \$798,000 in 2004. As noted previously, the bank adjusts the provision for loan losses periodically as considered necessary to maintain the allowance for loan losses at a level deemed sufficient to meet the risk characteristics existing in the loan portfolio. Refer to the *Asset Quality* and *Allowance for Loan Losses* sections for additional information.

***Non-interest Income***

Non-interest income totaled \$1,885,000 for the nine month period ended September 30, 2005, an increase of \$201,000 or 11.9% from \$1,684,000 for the comparable 2004 period. Asset management fees increased \$126,000 or 20.8% and net deposit and loan fee income increased \$49,000. Also, the Bank recorded BOLI income totaling \$213,000 in 2005 as compared to \$0 in 2004. The 2004 period included a \$196,000 gain on the sale of two branches.

***Non-interest Expenses***

Non-interest expenses were \$8,279,000 for the nine month period ended September 30, 2005 as compared to \$7,959,000 for the comparable prior year. Salaries and employee benefits were up \$407,000 primarily due to key staffing enhancements as well as benefit cost increases and normal merit raises. Other expenses also increased \$296,000 primarily due to increased loan and deposit account servicing costs associated with strong portfolio growth. Offsetting these increases were decreases in occupancy and equipment and data processing expense associated with the sale of two branches in June 2004 and cost savings in advertising and marketing.

***Income Taxes***

The Bank recorded income tax expense of \$570,000 for the nine month period ended September 30, 2005 resulting in an effective income tax rate of 31.1% on income before taxes of \$1,834,000. This compared to an income tax benefit of \$621,000 for 2004, which resulted in an effective tax benefit of 65.8% on income before taxes of \$944,000. As noted previously, the relative change occurred in the Bank's tax position as accumulated net operating loss deductions were fully utilized by the end of 2004. Also, during 2005, the Bank's effective tax rate was below the statutory federal tax rate of 34% primarily due to the effect of tax-exempt income from municipal bond investments and bank owned life insurance investments.

**Financial Condition*****Balance Sheet Review***

The Bank's total assets increased \$43.5 million or 12.8% to \$382.1 million at September 30, 2005 from \$338.6 million on December 31, 2004.

***Securities***

The securities portfolio provides supplemental revenue and liquidity to the Bank, as well as collateral for deposits of local government entities and borrowings at the Federal Home Loan Bank. Securities purchases and sales are governed by an investment policy which includes liquidity, interest rate sensitivity, and credit risk standards. In accordance with the investment policy, management emphasizes long-term objectives, while prudently managing near-term interest rate risk, liquidity, and overall balance sheet strategies.

Total balances in the securities portfolio were \$70.5 million and \$63.1 million at September 30, 2005 and December 31, 2004, respectively. The balance at September 30, 2005 includes \$17.1 million in bank-qualified municipal bonds that were acquired during the second and third quarters of 2005 to enhance the Bank's tax efficiency. The Bank funded the bond acquisitions primarily with repayments from other securities, excess cash, and certificates of deposits.

**Table of Contents*****Loan Portfolio***

Net loans totaled \$280.0 million on September 30, 2005, an increase of \$31.0 million or 16.6% on an annualized basis from \$249.0 million on December 31, 2004. The Bank continues to experience strong loan demand and believes this success accrues from the efforts of its highly-experienced and skilled lending professionals, its focus on target markets and customer segments, and its attractive array of competitive products and rates.

The loan portfolio represented 73.3% and 73.5% of total assets on September 30, 2005 and December 31, 2004, respectively. The loan portfolio is composed of commercial loans, residential loans, and consumer loans. The commercial loan portfolio represented 78.2% and 78.5% of total loans as of September 30, 2005 and December 31, 2004, respectively, and is comprised of lines of credit, equipment loans, real estate loans for various purposes and working capital loans. A significant portion of commercial loans are secured by real estate. Residential mortgages comprised 11.3% and 10.4% of the loan portfolio as of September 30, 2005 and December 31, 2004, respectively and include primarily loans secured by in-market real estate. As of September 30, 2005 and December 31, 2004, respectively, consumer and other loans represented 10.5% and 11.1% of total loans. Consumer and other loans include direct installment loans for purposes such as vehicle purchases, debt consolidations, home improvements, and other personal needs. Home equity loans are also a part of the consumer loan portfolio. The Bank does not engage in foreign lending nor does it engage in speculative real estate and land development lending. The primary areas of lending are Dauphin, Cumberland, Lycoming, Luzerne, and Schuylkill Counties of Pennsylvania and contiguous areas.

***Asset Quality***

Assets that are classified as non-performing include loans on non-accrual, loans accruing interest that are past due by 90 days or more, and real estate and other assets which have been foreclosed upon and are in the process of liquidation. As of September 30, 2005, non-accrual loans totaled \$1,192,000 as compared to \$1,037,000 on December 31, 2004. Non-accrual loans to total loans were .42% and .41% on September 30, 2005 and December 31, 2004, respectively. Accruing loans, past due 90 days or more were \$208,000 on September 30, 2005 and \$42,000 at December 31, 2004. There were no real estate and other assets which have been foreclosed upon and are in the process of liquidation on September 30, 2005 or December 31, 2004.

The Bank's loan charge-offs totaled \$627,000 during the nine months ended September 30, 2005 as compared to \$491,000 for the comparable period in 2004. The 2005 charge-offs related primarily to specific reserves previously recorded on certain non-performing loans. This charge-off activity, in conjunction with other factors including improved general economic trends that favorably affected the Bank's estimate of inherent losses in the loan portfolio, resulted in a reduction of the allowance, particularly when expressed as a percentage of loans. Improved market economic trends and other factors favorably influencing losses inherent in the portfolio resulted in less required provision expense for loan losses for the nine months ended September 30, 2005 versus the comparable period in 2004.

Based on all relevant information available, management believes the allowance for loan losses as stated at September 30, 2005 is adequate to cover estimated loan losses inherent in the loan portfolio, but there can be no assurance that the allowance will prove to be adequate or that significant additions to the allowance will not be required. While management feels that the Bank's allowance for loan losses is adequate based on information currently available, future adjustments may be necessary due to changes in economic conditions or changes in management's assumptions.

**Funding Sources***Deposits*

Deposits are the Bank's primary source of funding for its loan and investment portfolios. Total deposits increased \$43.8 million or 23.8% on an annualized basis during the nine months ended September 30, 2005. The deposit growth for the nine months ended September 30, 2005 came primarily in the Bank's time deposit, savings and money market deposit portfolios. Also, \$13.8 million of deposits were acquired with the April, 2005 purchase of the McAdoo branch.

*Borrowed Funds*

Borrowings remain an important source of funding and serve to support the Bank's balance sheet management. The Bank has a total of \$12.0 million available for borrowing in short-term lines of credit established with six banks as of September 30, 2005, of which no amounts were outstanding at September 30, 2005 and December 31, 2004. The Bank had short-term borrowings totaling \$7.6 million and \$23.4 million from the Federal Home Loan Bank at September 30, 2005, and December 31, 2004, respectively. Long-term borrowings consist of advances from the Federal Home Loan Bank, which totaled \$44.0 million and

\$28.0 million at September 30, 2005 and December 31, 2004, respectively. During 2005, the Bank refinanced short-term balances totaling \$15.8 million on a net basis with long-term FHLB advances to partially reduce the increase in borrowed interest costs that would occur if short-term interest rates continue to rise. Convertible subordinated debentures were \$4.4 million and \$4.5 million as of September 30, 2005 and December 31, 2004, respectively. The debentures are convertible by the holders into common stock.

**Shareholders Equity**

The Bank's total shareholders' equity was \$36.5 million at September 30, 2005, a decrease from \$36.7 million at December 31, 2004. During the nine months ended September 30, 2005, equity decreases from treasury stock purchases totaling \$1.6 million and an additional \$.2 million after-tax loss in the value of securities available for sale offset equity increases of \$1.3 million from net income and \$.3 million from stock compensation plan activity and subordinated debenture conversions. Regarding the Bank's share repurchase plan announced in April, 2005, 109,627 shares were acquired as of September 30, 2005 at an average cost of \$14.25 per share. As of September 30, 2005, 70,373 shares remain available for repurchase of the 180,000 shares authorized for repurchase under the plan during the twelve month period commencing May, 2005 and ending May, 2006. The Bank has no other share repurchase plans that have expired or terminated.

The Bank maintains regulatory capital ratios in excess of the thresholds defined as Well Capitalized, pursuant to the Federal Deposit Insurance Corporation Improvement Act of 1991. There are no conditions or events that management believes have occurred that would change the Well Capitalized rating.

**Liquidity**

The Bank's ability to generate funds needed to support loan demand and deposit withdrawals is monitored by the Asset and Liability Management Committee (ALCO). As part of this process, the Bank has established several liquidity-related policy limits and ALCO monitors the Bank's actual results against these thresholds as indicated in the following table:

|                                 | As of<br>September 30,<br>2005 | Policy<br>Limitation |

| Loans divided by capital        | 7.8 Times | Less than 10 times |

**Table of Contents**

As noted in the table, the Bank's liquidity measures were within policy limitations as of September 30, 2005. Also, at September 30, 2005, the Bank could borrow an additional \$87.0 million from the Federal Home Loan Bank.

**Off Balance Sheet Arrangements**

The Bank is a party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit and standby letters of credit. Standby letters of credit commit the Bank to make payments on behalf of customers when certain specified future events occur. Such commitments involve, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized in the balance sheet.

The Bank's exposure to credit loss in the event of nonperformance by the other party to the financial instrument for letters of credit and commitments to extend credit is represented by the contractual amount of those instruments.

The Bank uses the same credit policies in making commitments and conditional obligations as it does for on-balance sheet instruments.

The following financial instruments were outstanding whose contract amounts represent credit risk:

|  | September 30,<br>2005 | December 31,<br>2004 |
|--|-----------------------|----------------------|
|  | (In thousands)        |                      |
| Commitments to grant loans                 | \$ 21,792             | \$ 20,760            |
| Unfunded commitments under lines of credit | 65,764                | 50,020               |
| Unfunded letters of credit                 | 2,331                 | 2,741                |
|  | \$ 89,887             | \$ 73,521            |

Many of these commitments are expected to expire without being drawn upon. The amounts do not necessarily represent future cash requirements and are expected to be funded without impairing liquidity.

**Quantitative and Qualitative Disclosures About Market Risk****Market Risk**

The Bank's material market risk exposure in the course of its normal business operations is exposure to interest rate risk. The Bank has no foreign currency exchange risk, no commodity price risk or material equity price risk. Financial instruments, which are sensitive to changes in market interest rates, include fixed and variable-rate loans, fixed income securities, mortgage backed securities, collateralized mortgage obligations, interest-bearing deposits and other borrowings. All interest rate risk arises in connection with financial instruments entered into for purposes other than trading.

**Interest Rate Sensitivity**

An important element of both earnings performance and proper liquidity management is the maintenance of an appropriate balance between rate-sensitive assets and rate-sensitive liabilities. Interest rate sensitivity analysis is the measurement of the vulnerability of net interest income to changes in the level of rates. To manage this risk, the Bank regularly forecasts its exposure to rate changes and monitors its performance so that appropriate and timely actions may be taken.

As of September 30, 2005, the Bank is in an asset sensitive position with assets maturing or repricing within one year exceeding liabilities that mature or reprice in one year by approximately \$29.0 million. On a cumulative basis, interest sensitive assets as a percentage of interest sensitive liabilities are 119.9% within a one-year period. There can be no assurance that the Bank's assets and liabilities will behave as estimated due to the inherent uncertainty of the assumptions employed.

**Table of Contents**

ALCO reviews net interest income simulation and gap results monthly to ensure that the related risk profile is appropriate in light of management's view of current and expected business conditions. ALCO considers the nature of the Bank's strategies and activities, its past performance, and the level of earnings and capital available to absorb potential losses. Management considers and implements actions in the normal course of business to adjust the Bank's profile accordingly. Management reports to the Board of Directors monthly on interest rate risk analysis results and related business activities.

**Years Ended December 31, 2004, 2003 AND 2002****Results Of Operations*****Overview***

The Bank posted net income of \$2,355,000 in 2004, an increase of \$1,326,000 or 128.9% over 2003 net income of \$1,029,000. Net income for 2003 increased \$772,000 or 300.4% over net income of \$257,000 in 2002. The net income per basic share increased \$.29 per share or 78.4% to \$.66 per share in 2004 compared to an increase of \$.18 per share or 94.7% to \$0.37 in 2003 from \$.19 in 2002. These changes are due primarily to the merger of Northern State Bank (NSB) in January 2003, the purchase of three branches in September 2003, the sale of two branches in 2004, an increase in net interest income, and an increase in non-interest income, partially offset by an increase in non-interest expenses.

On February 25, 2004, the Bank and First Citizens National Bank, a wholly owned subsidiary of Citizens Financial Services, Inc., entered into a Branch Purchase and Deposit Assumption Agreement pursuant to which First Citizens National Bank purchased the Bank's Sayre branch office and Towanda branch office, both located in Bradford County. The transaction included equipment and loan and deposit accounts of the two branches. The transaction closed in June of 2004. The transaction decreased loans by \$28.5 million, deposits by \$20.4 million, and goodwill and other intangible assets by \$698,000. The Bank recognized a \$196,000 gain on the sale.

In order to expand its market presence the Bank signed an agreement to purchase the McAdoo, Pennsylvania branch of Harleysville National Bank, a wholly-owned subsidiary of Harleysville National Corporation on December 17, 2004. The purchase of this branch will include the assumption of approximately \$14.6 million in deposits as well as the purchase of approximately \$5.5 million of certain loans and other assets. The transaction is subject to regulatory approval and is expected to be consummated early in the second quarter of 2005. The acquisition is expected to be accretive to the Bank immediately by increasing revenue, and to a lesser extent, expenses. The transaction will not have a significant impact on liquidity.

Average earning assets increased \$44 million in 2004 to \$293.9 million from \$249.9 million in 2003, which increased \$130.7 million or 109.6% over the 2002 average balance of \$119.2 million (see Table 1). The principal reasons for the increase in 2004 were strong loan growth, and the purchase of \$15.5 million in residential mortgages, partially offset by the sale of two branches. Strong loan growth, the NSB merger and branch purchases were the principal reasons for the increase in 2003. Despite unsettled national economic conditions, the Harrisburg, Williamsport and Hazleton markets have shown encouraging loan demand and economic stability. The Bank sold two branches in June of 2004 with \$28.5 million of loans. The Bank received \$65.5 million of net loans from the NSB merger and \$23.9 million from the purchase of branches in 2003. Average loans totaled \$239.9 million in 2004, an increase of \$44.3 million from \$195.6 million in 2003, compared to \$97.8 million in 2002. The Bank continues to be successful at generating credit relationships in its target market.

Average investments were \$53.3 million in 2004 compared to \$50.4 million in 2003 and \$13.1 million in 2002. The \$37.3 million or 284.9% increase in average investments in 2003 was largely attributable to the merger of NSB, the investment of funds received from the branch purchases and leveraged borrowings.

Average interest-bearing deposits grew to \$211.5 million in 2004, up from \$190.0 million in 2003 and \$96.9 million in 2002. The Bank received \$70.1 million of interest-bearing deposits from the NSB merger, acquired \$51.8 million of interest-bearing deposits from the purchase of branches in September 2003 and sold

**Table of Contents**

\$20.4 million in deposits in June of 2004. Absent the branch purchases and sale, average deposits declined in 2004 compared to 2003 as the Bank repositioned the balance sheet to improve its net interest margin.

Average short-term borrowings decreased to \$7.8 million in 2004 from \$9.4 million in 2003. Average long-term borrowings grew to \$22.3 million from \$16.1 million in 2003 and \$7.8 million in 2002. In preparation for the September 2003 branch purchase, the bank began to utilize short-term borrowing capabilities in order to effectively utilize the cash received in the transaction. The bank utilizes long-term borrowings as an alternative to deposits when advantageous. In the third quarter of 2003 the bank issued \$4.8 million of five percent convertible subordinated debentures which accounted for the \$4.7 million increase in 2004 and the \$1.1 million increase in average convertible subordinated debentures in 2003 from 2002.
