This Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements are statements that do not relate strictly to historical or current facts. You can identify forward-looking statements by the fact they use words such as should, anticipate, estimate, approximate, expect, may, will, project, intend, plan, believe and meaning and expression in connection with any discussion of future operating or financial performance or events. Forward-looking statements in this Form 10-Q may concern, among other things, Kennametal's expectations regarding our strategy, goals, plans and projections regarding our financial position, liquidity and capital resources, results of operations, market position, and product development, all of which are based on current expectations that involve inherent risks and uncertainties. Among the factors that could cause the actual results to differ materially from those indicated in the forward-looking statements are risks and uncertainties related to: global and regional economic conditions; availability and cost of the raw materials we use to manufacture our products; our ability to protect our intellectual property in foreign jurisdictions; our foreign operations and international markets, such as currency exchange rates, different regulatory environments, trade barriers, exchange controls, and social and political instability; energy costs; commodity prices; competition; integrating recent acquisitions, as well as any future acquisitions, and achieving the expected savings and synergies; business divestitures; demands on management resources; future terrorist attacks or acts of war; labor relations; demand for and market acceptance of new and existing products; and implementation of restructuring plans and environmental remediation matters. Should one or more of these risks or uncertainties materialize, or should the assumptions underlying the forward-looking statements prove incorrect, actual outcomes could vary materially from those indicated. These and other risks are more fully described in the Risk Factors Section of our Annual Report on Form 10-K, in this Form 10-Q if applicable and in our other periodic filings with the Securities and Exchange Commission. We undertake no obligation to release publicly any revisions to forward-looking statements as a result of future events or developments.

KENNAMETAL INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1. ORGANIZATION

Kennametal Inc. was incorporated in Pennsylvania in 1943 and maintains its world headquarters in Latrobe, Pennsylvania. Kennametal Inc. and its subsidiaries (collectively, Kennametal or the Company) is a leading global manufacturer and supplier of tooling, engineered components and advanced materials consumed in production processes. End users of our products include metalworking manufacturers and suppliers in the aerospace, automotive, machine tool, light machinery and heavy machinery industries, as well as manufacturers and suppliers in the highway construction, coal mining, quarrying and oil and gas exploration industries. Our end users' products include items ranging from airframes to coal, medical implants to oil wells and turbochargers to motorcycle parts. We operate two global business units consisting of Metalworking Solutions & Services Group (MSSG) and Advanced Materials Solutions Group (AMSG).

2. BASIS OF PRESENTATION

The condensed consolidated financial statements, which include our accounts and those of our consolidated subsidiaries, should be read in conjunction with our 2008 Annual Report on Form 10-K. The condensed consolidated balance sheet as of June 30, 2008 was derived from the audited balance sheet included in our 2008 Annual Report on Form 10-K. These interim statements are unaudited; however, we believe that all adjustments necessary for a fair statement of the results of the interim periods were made and all adjustments are normal, recurring adjustments. The results for the six months ended December 31, 2008 and 2007 are not necessarily indicative of the results to be expected for a full fiscal year. Unless otherwise specified, any reference to a year is to a fiscal year ended June 30. For example, a reference to 2009 is to the fiscal year ending June 30, 2009. When used in this Form 10-Q, unless the context requires otherwise, the terms we, our and us refer to Kennametal Inc. and its subsidiaries.

3. NEW ACCOUNTING STANDARDS

In December 2008, the Financial Accounting Standards Board (FASB) issued FASB Staff Position (FSP) No. 132(R)-1, Employers' Disclosures about Postretirement Benefit Plan Assets (FSP 132(R)-1). FSP 132(R)-1 expands the current disclosure requirements in FASB Statement No. 132(R), Employers' Disclosures about Pensions and Other Postretirement Benefits. FSP 132(R)-1 requires companies to disclose how investment allocation decisions are made by management, major categories of plan assets, significant concentrations of risk within plan assets and information about the valuation of plan assets. FSP 132(R)-1 is effective for Kennametal beginning July 1, 2009. We are in the process of evaluating the provisions of this FSP to determine the impact of adoption on our consolidated financial statements.

In November 2008, the FASB ratified Emerging Issues Task Force (EITF) Issue No. 08-7, Accounting for Defensive Intangible Assets (EITF 08-7). EITF 08-7 applies to all acquired intangible assets in situations in which the entity does not intend to actively use the asset but intends to hold the asset to prevent others from obtaining access to the asset with limited exceptions. EITF 08-7 requires that defensive intangible assets be accounted for as a separate unit of accounting and be assigned a useful life. EITF 08-7 is to be applied prospectively and is effective for Kennametal beginning July 1, 2009. We are in the process of evaluating the provisions of this EITF to determine the impact of adoption on our consolidated financial statements.

In November 2008, the FASB ratified EITF Issue No. 08-6, Equity Method Investment Accounting Considerations (EITF 08-6). EITF 08-6 addresses a number of matters associated with the impact that Statement of Financial Accounting Standard (SFAS) No. 141(R), Business Combinations, and SFAS No. 160, Noncontrolling Interest in

Consolidated Financial Statements, an amendment of ARB No. 51 , might have on the accounting for equity method investments. EITF 08-6 provides guidance on how an equity method investment should initially be measured, how it should be tested for impairment and how changes in classification from equity method to cost method should be treated as well as other issues. EITF 08-6 is to be applied prospectively and is effective for Kennametal beginning July 1, 2009. We are in the process of evaluating the provisions of this EITF to determine the impact of adoption on our consolidated financial statements.

In March 2008, the FASB issued SFAS No. 161, Disclosures about Derivative Instruments and Hedging Activities an amendment of FASB Statement No. 133 (SFAS 161). SFAS 161 expands the current disclosure requirements in SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities (SFAS 133). SFAS 161 is effective for Kennametal beginning January 1, 2009. We are in the process of evaluating the provisions of SFAS 161 to determine the impact of adoption on our consolidated financial statements.

KENNAMETAL INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

In December 2007, the FASB issued SFAS No. 141 (revised 2007), *Business Combinations* (SFAS 141(R)). SFAS 141(R) establishes principles and requirements for how an acquirer accounts for business combinations and includes guidance for the recognition, measurement and disclosure of the identifiable assets acquired, the liabilities assumed and any noncontrolling or minority interest in the acquiree. It also provides guidance for the measurement of goodwill, the recognition of contingent consideration and the accounting for pre-acquisition gain and loss contingencies, as well as acquisition-related transaction costs and the recognition of changes in the acquirer's income tax valuation allowance. SFAS 141(R) is to be applied prospectively and is effective for Kennametal beginning July 1, 2009. We are in the process of evaluating the provisions of SFAS 141(R) to determine the impact of adoption on our consolidated financial statements.

In December 2007, the FASB issued SFAS No. 160, *Noncontrolling Interest in Consolidated Financial Statements*, an amendment of ARB No. 51 (SFAS 160). SFAS 160 amends Accounting Research Bulletin No. 51, *Consolidated Financial Statements* to establish accounting and reporting standards for any noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. SFAS 160 clarifies that a noncontrolling interest in a subsidiary should be reported as a component of equity in the consolidated financial statements and requires disclosure on the face of the consolidated statement of income of the amounts of consolidated net income attributable to the parent and to the noncontrolled interest. SFAS 160 is to be applied prospectively and is effective for Kennametal as of July 1, 2009, except for the presentation and disclosure requirements, which, upon adoption, will be applied retrospectively for all periods presented. We are in the process of evaluating the provisions of SFAS 160 to determine the impact of adoption on our consolidated financial statements.

In June 2007, the FASB ratified EITF Issue No. 06-11, *Accounting for Income Tax Benefits of Dividends on Share-Based Payment Awards* (EITF 06-11). EITF 06-11 requires that tax benefits generated by dividends paid during the vesting period on certain equity-classified share-based compensation awards be classified as additional paid-in capital and included in a pool of excess tax benefits available to absorb tax deficiencies from share-based payment awards. EITF 06-11 was effective for Kennametal on July 1, 2008 and is to be applied on a prospective basis. The adoption of this EITF did not have a material impact on our consolidated financial statements.

On July 1, 2008, Kennametal adopted SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities Including an amendment of FASB Statement No. 115* (SFAS 159). SFAS 159 permits entities to choose to measure many financial instruments and certain other assets and liabilities at fair value on an instrument-by-instrument basis (the fair value option) with changes in fair value recognized in earnings at each subsequent reporting date. Kennametal records derivative contracts and hedging activities at fair value in accordance with SFAS 133. The adoption of SFAS 159 therefore had no impact on our consolidated financial statements as management did not elect the fair value option for any other financial instruments or certain other assets and liabilities.

On July 1, 2008, Kennametal adopted SFAS No. 157, *Fair Value Measurements* (SFAS 157) as it relates to financial assets and financial liabilities. In February 2008, the FASB issued FSP No. FAS 157-2, *Effective Date of FASB Statement No. 157*, which delayed the effective date of SFAS 157 for all nonfinancial assets and nonfinancial liabilities, except those that are recognized or disclosed at fair value in the financial statements on at least an annual basis, until July 1, 2009 for Kennametal.

SFAS 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles (GAAP) and expands disclosures related to fair value measurements. The provisions of this standard apply to other accounting pronouncements that require or permit fair value measurements and are to be applied prospectively with limited exceptions. We are in the process of evaluating the potential impact of SFAS 157, as it relates to pension plan assets, nonfinancial assets and nonfinancial liabilities, on our consolidated financial

statements.

SFAS 157 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This standard is now the single source in GAAP for the definition of fair value, except for the fair value of leased property as defined in SFAS No. 13,

Accounting for Leases. SFAS 157 established a fair value hierarchy that distinguishes between (1) market participant assumptions developed based on market data obtained from independent sources (observable inputs) and (2) an entity's own assumptions about market participant assumptions developed based on the best information available in the circumstances (unobservable inputs). The fair value hierarchy consists of three broad levels, which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Fair value measurements are assigned a level within the hierarchy based on the lowest significant input level. The three levels of the fair value hierarchy under SFAS 157 are described below:

Table of Contents**KENNAMETAL INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)**

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable for the asset or liability (e.g., interest rates); and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3: Inputs that are unobservable.

As of December 31, 2008, the fair values of the Company's assets and liabilities measured at fair value on a recurring basis are categorized as follows:

(in thousands)	Level 1	Level 2	Level 3	Total
Assets:				
Current assets:				
Derivative contracts ^a	\$	\$ 7,156	\$	\$ 7,156
Non-current assets:

Current liabilities:				
Derivative contracts ^a	\$	\$ 34	\$	\$ 34

^a Foreign currency derivative contracts are valued based on observable market spot and forward rates and are classified within Level 2 of the fair value hierarchy. Interest rate swaps are valued based on observable market swap rates and are

classified
within Level 2
of the fair value
hierarchy.

5. RESTRUCTURING CHARGES

As previously announced, the Company continued to implement certain restructuring plans to reduce costs and improve efficiency in our operations. These actions, including those taken in 2009, relate to facility rationalizations and employment reductions. The actions being taken pursuant to these restructuring plans are expected to be completed over the next six to nine months. Restructuring and related charges recorded in the six months ended December 31, 2008 amounted to \$19.2 million, including \$14.9 million of restructuring charges, of which \$0.3 million were related to inventory disposals and recorded in cost of goods sold, and \$4.3 million of restructuring-related charges recorded in cost of goods sold. Total restructuring and related charges recorded since the inception of the restructuring plans were \$27.5 million. Including these charges, the company expects to recognize approximately \$90 million of charges related to its restructuring plans. Approximately 95 percent of these charges are expected to be cash expenditures. Annual ongoing benefits from these actions, once fully implemented, are expected to be approximately \$100 million.

Table of Contents**KENNAMETAL INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)**

The restructuring accrual is recorded in other current liabilities in our condensed consolidated balance sheet and the amount attributable to each segment is as follows:

6. STOCK-BASED COMPENSATION

Stock options are granted to eligible employees at fair market value on the date of grant. Stock options are exercisable under specific conditions for up to 10 years from the date of grant. On October 21, 2008, at its Annual Meeting of Shareowners, the Company's shareowners approved the Amended and Restated Kennametal Stock and Incentive Plan of 2002 (the 2002 Plan). The 2002 Plan was amended primarily to (i) increase the aggregate number of shares of the Company's Common Stock available for issuance under the 2002 Plan from 7,500,000 to 9,000,000, (ii) place a limit on the number of full share awards that may be made under the 2002 Plan, and (iii) provide that shares delivered to or withheld by the Company to pay withholding taxes under the 2002 Plan or any of the Company's prior stock plans and shares not issued upon the net settlement or net exercise of SARs, in each case, will no longer be available for future grants under the 2002 Plan. In addition to stock option grants, the 2002 Plan permits the award of restricted stock and restricted stock units to directors, officers and key employees.

Under the provisions of the 2002 Plan, participants may deliver our stock, owned by the holder for at least six months, in payment of the option price and receive credit for the fair market value of the shares on the date of delivery. The fair value of shares delivered during the six months ended December 31, 2008 and 2007 was \$0.6 million and \$1.0 million, respectively.

Options

The assumptions used in our Black-Scholes valuation related to stock option grants made during the six months ended December 31, 2008 and 2007 were as follows:

	2008	2007
Risk-free interest rate	3.0%	4.5%
Expected life (years) ⁽¹⁾	4.5	4.5
Expected volatility ⁽²⁾	27.7%	23.6%
Expected dividend yield	1.3%	1.4%

1) Expected life is derived from historical experience.

2) Expected volatility is based on the historical volatility of our capital stock.

Stock option expense for the six months ended December 31, 2008 and 2007 was \$2.7 million and \$2.2 million, respectively.

The weighted average fair value per option granted during the six months ended December 31, 2008 and 2007 was \$7.15 and \$9.38, respectively. The fair value of options vested during the six months ended December 31, 2008 and 2007 was \$3.4 million and \$3.3 million, respectively.

The amount of cash received from the exercise of stock options during the six months ended December 31, 2008 and 2007 was \$1.7 million and \$8.3 million, respectively. The related tax benefit for the six months ended December 31, 2008 and 2007 was \$1.0 million and \$2.1 million, respectively. The total intrinsic value of options exercised during the six months ended December 31, 2008 and 2007 was \$2.8 million and \$6.5 million, respectively. As of December 31, 2008, the total unrecognized compensation cost related to options outstanding was \$6.7 million and is expected to be recognized over a weighted average period of 2.7 years.

Restricted Stock

Changes in our restricted stock for the six months ended December 31, 2008 were as follows:

	Shares	Weighted Average Fair Value
Unvested restricted stock, June 30, 2008	486,591	\$ 31.55

Lapsed and forfeited	(72,178)	27.99
Unvested restricted stock, December 31, 2008	466,317	\$ 31.82

During the six months ended December 31, 2008 and 2007, compensation expense related to restricted stock awards was \$2.7 million and \$2.4 million, respectively. As of December 31, 2008, the total unrecognized compensation cost related to unvested restricted stock was \$8.5 million and is expected to be recognized over a weighted average period of 2.5 years.

Restricted Stock Units

The assumptions used in our valuation of the cumulative adjusted earnings per share (EPS) performance-based portion of restricted stock units granted during the six months ended December 31, 2008 and 2007 were as follows:

	2008	2007
Expected quarterly dividend per share	\$0.12	\$0.12
Risk-free interest rate	2.3%	3.3%

As of December 31, 2008, we assumed that none of the EPS performance-based restricted stock units will vest.

Changes in the EPS performance-based portion of restricted stock units for the six months ended December 31, 2008 were as follows:

	Stock Units	Weighted Average Fair Value
Unvested EPS performance-based restricted stock units, June 30, 2008	531,435	\$ 37.45
Granted	95,492	23.21
Forfeited	(41,519)	(37.45)
Unvested EPS performance-based restricted stock units, December 31, 2008	585,408	\$ 35.13

The assumptions used in our lattice model valuation for the TSR performance-based portion of restricted stock units granted during the six months ended December 31, 2008 and 2007 were as follows.

	2008	2007
Expected volatility	34.1%	24.1%
Expected dividend yield	2.0%	1.2%
Risk-free interest rate	2.3%	3.3%

Changes in the Company's total shareholder return (TSR) performance-based restricted stock units for the six months ended December 31, 2008 were as follows:

	Stock Units	Weighted Average Fair Value
Unvested TSR performance-based restricted stock units, June 30, 2008	286,149	\$ 9.20
Granted	51,418	2.08
Forfeited	(22,355)	(9.20)
Unvested TSR performance-based restricted stock units, December 31, 2008	315,212	\$ 8.04

Based on a change in the probability of achieving the performance criteria related to the vesting of the EPS performance-based portion of the restricted stock units, we reversed previously recognized compensation expense related to these units of \$0.9 million for the six months ended December 31, 2008. For the six months ended December 31, 2007, compensation expense related to restricted stock units was \$0.2 million. As of December 31, 2008, the total unrecognized compensation cost related to unvested stock units was \$1.4 million and is expected to be recognized over a weighted average period of 2.8 years.

7. BENEFIT PLANS

8. INVENTORIES

We used the last-in, first-out (LIFO) method of valuing inventories for approximately 51 percent and 48 percent of total inventories at December 31, 2008 and June 30, 2008, respectively. Because inventory valuations under the LIFO method are based on an annual determination of quantities and costs as of June 30 of each year, the interim LIFO valuations are based on our projections of expected year-end inventory levels and costs. Therefore, the interim financial results are subject to any final year-end LIFO inventory adjustments.

Inventories consisted of the following:

(in thousands)	December 31, 2008	June 30, 2008
Finished goods	\$290,753	\$288,188
Work in process and powder blends	177,440	176,680
Raw materials and supplies	83,350	75,999
Inventories at current cost	551,543	540,867
Less: LIFO valuation	(86,859)	(80,067)
Total inventories	\$464,684	\$460,800

9. ENVIRONMENTAL MATTERS

We are subject to various U.S. Federal, state and international environmental laws and regulatory requirements and are involved from time to time in investigations or proceedings of various potential environmental issues concerning activities at our facilities or former facilities or remediation efforts as a result of past activities (including past activities of companies we have acquired). From time to time, we receive notices from the U.S. Environmental Protection Agency or equivalent state or international environmental agencies that we are a potentially responsible party (PRP) under the Comprehensive Environmental Response, Compensation and Liability Act (commonly known as the Superfund Act) and/or equivalent laws. These notices assert potential liability for cleanup costs at various sites, which include sites owned by us, sites we previously owned and treatment or disposal sites not owned by us.

Superfund Sites We are involved as a PRP at several Superfund sites, and have responded to notices for other Superfund sites as to which our records disclose no involvement or for which predecessors of certain of our acquired companies have acknowledged responsibility. We have established reserves that we believe to be adequate to cover our share of the potential costs of remediation at certain of the Superfund sites; at December 31, 2008 the total of these accruals was \$0.2 million. For the remaining Superfund sites, proceedings in those matters have not yet progressed to a stage where it is possible to estimate the ultimate cost of remediation, the timing and extent of remedial action that may be required by governmental authorities or the amount of our liability alone or in relation to that of any other PRPs.

Other Environmental Issues We also maintain reserves for other potential environmental issues. At December 31, 2008, the total of these accruals was \$5.2 million and represents anticipated costs associated with the remediation of these issues. We recorded favorable foreign currency translation adjustments of \$0.8 million during the six months ended December 31, 2008 related to these reserves.

Table of Contents**KENNAMETAL INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)****10. INCOME TAXES**

The effective income tax rate for the three months ended December 31, 2008 and 2007 was 23.2 percent and 17.3 percent, respectively. The increase in the rate from the prior year was primarily the result of the impacts of restructuring and related charges in the current year and a benefit in the prior year associated with a dividend reinvestment plan in China. The impact of these items was partially offset by a benefit in the current quarter from the completion of a routine income tax examination for certain prior fiscal years.

The effective income tax rate for the six months ended December 31, 2008 and 2007 was 20.3 percent and 27.1 percent, respectively. The decrease in the rate from the prior year was driven by a non-cash income tax charge related to a German tax reform bill that adversely impacted the prior year, the release of a valuation allowance in Europe in the first quarter of the current year, and a benefit in the current year from the completion of a routine income tax examination for certain prior fiscal years. The impact of these items was partially offset by the impact of restructuring and related charges in the current year.

11. EARNINGS PER SHARE

Basic earnings per share is computed using the weighted average number of shares outstanding during the period, while diluted earnings per share is calculated to reflect the potential dilution that occurs related to the issuance of capital stock under stock option grants, restricted stock awards and restricted stock unit grants. The difference between basic and diluted earnings per share relates solely to the effect of capital stock options and restricted stock awards.

For purposes of determining the number of diluted shares outstanding, weighted average shares outstanding for basic earnings per share calculations were increased due solely to the dilutive effect of unexercised capital stock options and restricted stock awards by 0.6 million shares and 1.5 million shares for the three months ended December 31, 2008 and 2007, respectively, and 0.8 million shares and 1.6 million shares for the six months ended December 31, 2008 and 2007, respectively. Unexercised stock options to purchase our capital stock of 3.4 million shares for the three months ended December 31, 2008, and 2.0 million shares for the six months ended December 31, 2008, are not included in the computation of diluted earnings per share because the option exercise price was greater than the average market price, and therefore their inclusion would have been anti-dilutive.

12. COMPREHENSIVE (LOSS) INCOME

Comprehensive (loss) income is as follows:

Table of Contents**KENNAMETAL INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)****13. GOODWILL AND OTHER INTANGIBLE ASSETS**

Goodwill represents the excess of cost over the fair value of acquired companies. Goodwill and intangible assets with indefinite lives are tested at least annually for impairment. We perform our annual impairment tests during the June quarter in connection with our annual planning process. We also perform specific impairment tests on an interim basis if we deem that a triggering event indicating impairment of the goodwill for a reporting unit or an indefinite-lived intangible asset may have occurred. We evaluate the recoverability of goodwill for each of our reporting units by comparing the fair value of each reporting unit with its carrying value. The fair values of our reporting units are determined using a combination of a discounted cash flow analysis and market multiples based upon historical and projected financial information. We apply our best judgment when assessing the reasonableness of the financial projections used to determine the fair value of each reporting unit. We evaluate the recoverability of indefinite-lived intangible assets using a discounted cash flow analysis based on projected financial information. This evaluation is sensitive to changes in market interest rates and other external factors.

A possible indicator of impairment is the relationship of a company's market capitalization to its book value. As of December 31, 2008, our market capitalization exceeded our book value. The persistence or further acceleration of the recent downturn in global economic conditions and turbulence in financial markets could have a further negative impact on our market capitalization and/or financial performance. Going forward, this could increase the likelihood of future non-cash impairment charges related to our goodwill or indefinite-lived intangible assets.

The carrying amount of goodwill attributable to each segment is as follows:

(in thousands)	June 30, 2008	Acquisitions	Adjustments	Translation	December 31, 2008
MSSG	\$282,187	\$	\$ 248	\$(19,034)	\$263,401
AMSG	326,332	21,260		(6,775)	340,817
Total	\$608,519	\$21,260	\$ 248	\$(25,809)	\$604,218

During the six months ended December 31, 2008, we completed a business acquisition in our AMSG segment for a net purchase price of \$63.9 million, which generated AMSG goodwill of \$21.3 million based on final purchase price allocation.

The components of other intangible assets and their useful lives are as follows:

(in thousands)	Estimated Useful Life (in years)	December 31, 2008		June 30, 2008	
		Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
Contract-based	4 to 15	\$ 6,344	\$ (4,639)	\$ 6,237	\$ (4,469)

Trademarks	Indefinite	50,463		53,615	
Total		\$235,981	\$(46,151)	\$236,213	\$(42,010)

As a result of the recent business acquisition discussed above, we recorded \$10.7 million of identifiable intangible assets based on our aforementioned purchase price allocations as follows: Contract-based of \$0.2 million, Customer-related of \$6.3 million and Trademarks of \$4.2 million. During the six months ended December 31, 2008, we also incurred \$8.4 million in unfavorable foreign currency translation adjustments and amortization expense of \$6.7 million

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

RESULTS OF OPERATIONS

SALES

Sales for the three months ended December 31, 2008 were \$568.7 million, a decrease of \$78.7 million, or 12.2 percent, from \$647.4 million in the prior year quarter. The decrease in sales was due to 10 percent organic decline and 5 percent from unfavorable foreign currency effects partially offset by the net favorable impact of acquisitions and divestitures of 2 percent and more workdays of 1 percent. On a global basis, industrial production declined in contrast to the prior year quarter. Demand in most industry and market sectors weakened considerably in the latter half of the current year quarter.

Sales for the six months ended December 31, 2008 were \$1,238.0 million, a decrease of \$24.5 million, or 1.9 percent, from \$1,262.5 million in the same period a year ago. The decrease in sales was primarily due to 3 percent organic decline partially offset by more workdays of 1 percent. Organic sales declined in all major metalworking markets except for Latin America and Asia Pacific. Organic sales increased in our advanced materials business primarily due to stronger sales of energy and related products as well as higher sales of mining and construction products partially offset by lower sales of engineered products.

GROSS PROFIT

Gross profit for the three months ended December 31, 2008 decreased \$57.6 million, or 26.1 percent, to \$163.3 million from \$220.9 million in the prior year quarter. This decrease was primarily due to lower organic sales volume, reduced absorption of manufacturing costs due to lower production levels, unfavorable impact of foreign currency effects of \$7.2 million, temporary disruption effects from restructuring programs, unfavorable business unit mix as well as restructuring and related charges of \$3.9 million. Improved price realization more than offset the impact of higher raw material costs and the net favorable impact of acquisitions and divestitures was \$7.4 million for the current quarter.

Gross profit margin for the three months ended December 31, 2008 was 28.7 percent, down 540 basis points from 34.1 percent in the prior year quarter. The change from the prior year quarter was primarily due to reduced absorption of manufacturing costs due to lower production levels, temporary disruption costs from restructuring programs as well as the unfavorable impact of restructuring and related charges of 70 basis points and less favorable business unit mix partially offset by the net favorable impact of improved price realization.

Gross profit for the six months ended December 31, 2008 decreased \$50.9 million, or 11.8 percent, to \$382.1 million from \$433.0 million in the prior year quarter. The decrease was primarily due to lower organic sales volume, reduced absorption of manufacturing costs due to lower production levels, temporary disruption effects from restructuring programs and less favorable business unit mix as well as restructuring and related charges of \$4.6 million. Improved price realization more than offset the impact of higher raw material costs, whereas the net favorable impact of acquisitions and divestitures was \$6.7 million and foreign currency effects were favorable by \$4.1 million for the current period.

Gross profit margin for the six months ended December 31, 2008 was 30.9 percent, down 340 basis points from 34.3 percent in the prior year period. The change from the prior year period was primarily due to reduced absorption of manufacturing costs due to lower production levels, temporary disruption costs from restructuring programs and the unfavorable impact of restructuring and related charges of 30 basis points as well as less favorable business unit mix partially offset by the net favorable impact of price realization.

OPERATING EXPENSE

Operating expense for the three months ended December 31, 2008 was \$130.3 million, a decrease of \$17.6 million, or 11.9 percent, compared to \$147.9 million in the prior year quarter. The decrease is attributable to an \$11.8 million decrease in employment expenses driven by lower provisions for employee incentive compensation programs, favorable impact of foreign currency effects of \$6.4 million and the impact of other cost reductions of \$3.2 million offset somewhat by the net unfavorable impact of acquisitions and divestitures of \$3.8 million.

Operating expense for the six months ended December 31, 2008 was \$284.0 million, a decrease of \$9.0 million, or 3.0 percent, compared to \$293.0 million in the prior year period. The decrease is attributable to a \$10.6 million

decrease in employment expenses driven by lower provisions for employee incentive compensation programs as well as the impact of other cost reductions of \$2.7 million offset somewhat by the net unfavorable impact of acquisitions and divestitures of \$3.2 million and unfavorable foreign currency effects of \$1.2 million.

Table of Contents**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)****RESTRUCTURING CHARGES**

As previously announced, the Company continued to implement certain restructuring plans to reduce costs and improve efficiency in our operations. The actions taken in 2009 related to facility rationalizations and employment reductions. For the three and six months ended December 31, 2008, we recorded restructuring charges of \$6.2 million and \$14.6 million, respectively. For the three months ended December 31, 2008, restructuring charges for MSSG and AMMSG were \$4.5 million and \$1.7 million, respectively. For the six months ended December 31, 2008, restructuring charges for MSSG, AMMSG and Corporate were \$11.2 million, \$2.9 million and \$0.5 million, respectively. See Note 5 to our condensed consolidated financial statements set forth in Part 1 Item 1 of this Form 10-Q.

The actions being taken pursuant to our restructuring plans are expected to be completed over the next six to nine months. The restructuring and related charges recorded through December 31, 2008 were \$27.5 million. Including these charges, the company expects to recognize approximately \$90 million of pre-tax charges related to its restructuring plans. Approximately 95 percent of these charges are expected to be cash expenditures. Annual ongoing benefits from these actions, once fully implemented, are expected to be approximately \$100 million.

AMORTIZATION OF INTANGIBLES

Amortization expense was \$3.3 million for the three months ended December 31, 2008, a decrease of \$0.3 million from \$3.6 million in the prior year quarter. Amortization expense was \$6.7 million for the six months ended December 31, 2008, an increase of \$0.1 million from \$6.6 million in the prior year period.

INTEREST EXPENSE

Interest expense for the three months ended December 31, 2008 of \$8.0 million decreased \$0.5 million, or 5.9 percent, from \$8.5 million in the prior year quarter. The impact of an increase in average domestic borrowings of \$195.0 million was more than offset by the impact of a 220 basis point decrease in average interest rates on domestic borrowings. The increase in these borrowings was driven by first quarter share repurchases for \$127.5 million and a cash outlay of \$65.0 million in the second quarter for a business acquisition.

Interest expense for the six months ended December 31, 2008 of \$15.1 million decreased \$1.2 million, or 7.3 percent, from \$16.3 million in the prior year period. The impact of an increase in average domestic borrowings of \$153.0 million due to the factors discussed above was more than offset by the impact of a 220 basis point decrease in average interest rates on domestic borrowings.

OTHER INCOME, NET

Other income, net for the three months ended December 31, 2008 and 2007 was \$4.8 million and \$1.0 million, respectively. The change was primarily driven by favorable foreign currency transaction results of \$2.4 million. Other income, net for the six months ended December 31, 2008 and 2007 was \$3.4 million and \$2.1 million, respectively. The change was primarily driven by an increase in interest income of \$1.2 million.

INCOME TAXES

The effective income tax rate for the three months ended December 31, 2008 and 2007 was 23.2 percent and 17.3 percent, respectively. The increase in the rate from the prior year was primarily the result of the impacts of restructuring and related charges in the current year and a benefit in the prior year associated with a dividend reinvestment plan in China. The impact of these items was partially offset by a benefit in the current quarter from the completion of a routine income tax examination for certain prior fiscal years.

The effective income tax rate for the six months ended December 31, 2008 and 2007 was 20.3 percent and 27.1 percent, respectively. The decrease in the rate from the prior year was driven by a non-cash income tax charge related to a German tax reform bill that adversely impacted the prior year, the release of a valuation allowance in Europe in the first quarter of the current year, and a benefit in the current year from the completion of a routine income tax examination for certain prior fiscal years. The impact of these items was partially offset by the impact of restructuring and related charges in the current year.

Our operations are organized into two reportable operating segments consisting of Metalworking Solutions & Services Group (MSSG) and Advanced Materials Solutions Group (AMSG), and Corporate. The presentation of segment information reflects the manner in which we organize segments for making operating decisions and assessing performance. Corporate represents certain corporate shared service costs, employee benefit costs, employment costs, including performance-based bonuses and stock-based compensation expense, and eliminations of operating results between segments.

METALWORKING SOLUTIONS & SERVICES GROUP

(in thousands)	Three Months Ended December 31,		Six Months Ended December 31,	
	2008	2007	2008	2007
External sales	\$344,630	\$434,733	\$775,916	\$842,430
Intersegment sales	36,353	39,186	87,043	82,317
Operating income	7,827	61,986	51,138	117,338

For the three months ended December 31, 2008, MSSG external sales decreased \$90.1 million, or 20.7 percent, from the prior year quarter. This decrease was the result of an organic sales decline of 15 percent, unfavorable foreign currency effects of 5 percent and 1 percent from the impact of divestitures. On a global basis, industrial production declined in contrast to the prior year quarter. Demand in most industry and market sectors weakened considerably in the latter half of the current year quarter. On a regional basis, Europe, India and North America reported organic sales declines of 17 percent, 17 percent and 16 percent, respectively, for the current year quarter. Asia Pacific and Latin America also experienced organic sales declines of 9 percent and 2 percent, respectively.

For the three months ended December 31, 2008, MSSG operating income decreased \$54.2 million, or 87.4 percent, from the prior year quarter. Operating margin on total sales was 2.1 percent for the current quarter as compared to 13.1 percent in the prior year quarter. The primary drivers of the decline in operating margin were reduced absorption of manufacturing costs due to lower production levels and temporary disruption effects related to restructuring initiatives as well as restructuring and related charges of \$7.3 million. The impact of recent price increases essentially offset the effect of higher raw material costs.

For the six months ended December 31, 2008, MSSG external sales decreased \$66.5 million, or 7.9 percent, from the prior year period. This decrease was the result of an organic sales decline of 8 percent and 1 percent from the impact of divestitures partially offset by the favorable impact of more workdays of 1 percent. On a regional basis, North America, Europe and India reported organic sales declines of 12 percent, 8 percent and 6 percent, respectively for the current period. Asia Pacific and Latin America experienced organic sales growth of 6 percent and 3 percent, respectively, for the same period.

For the six months ended December 31, 2008, MSSG operating income decreased \$66.2 million, or 56.4 percent, from the prior year period. Operating margin on total sales was 5.9 percent for the current period as compared to 12.7 percent in the prior year period. The primary drivers of the decline in operating margin were reduced absorption of manufacturing costs due to lower production levels and temporary disruption effects related to restructuring initiatives as well as restructuring and related charges of \$14.5 million. The impact of recent price increases nearly offset the effect of higher raw material costs.

For the three months ended December 31, 2008, AMSG external sales increased \$11.4 million, or 5.3 percent, from the prior year quarter. This increase was the result of 8 percent from the impact of acquisitions partially offset by 3 percent from unfavorable foreign currency effects. Organic sales were flat as increased mining and construction sales and higher energy-related sales were offset by lower sales of engineered products.

Table of Contents**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)**

For the three months ended December 31, 2008, AMSG operating income decreased \$7.8 million, or 28.5 percent, from the prior year quarter. Operating margin on total sales was 8.5 percent in the current quarter as compared to 12.2 percent in the prior year quarter. The decline was primarily due to restructuring and related charges of \$2.8 million, unfavorable business mix and lower performance in the engineered products business. Improved price realization more than offset the impact of higher raw material costs.

For the six months ended December 31, 2008, AMSG external sales increased \$42.0 million, or 10.0 percent, from the prior year period. This was the result of 5 percent organic growth, 4 percent from the favorable impact of acquisitions and 1 percent from more workdays. Organic sales increased due to stronger energy-related and mining and construction product sales, offset somewhat by lower sales of engineered products.

For the six months ended December 31, 2008, AMSG operating income decreased \$7.8 million, or 13.6 percent, from the prior year period. Operating margin on total sales was 10.4 percent in the current period as compared to 13.0 percent in the prior year period. This decline was primarily due to restructuring and related charges of \$4.2 million, unfavorable business mix and lower performance in the engineered products business. Improved price realization more than offset the impact of higher raw material costs for the current period.

For the three months ended December 31, 2008, operating loss decreased \$16.0 million, or 81.0 percent, compared to the prior year quarter, primarily due to lower provisions for employee incentive compensation programs.

For the six months ended December 31, 2008, operating loss decreased \$17.2 million, or 42.0 percent, compared to the prior year period, primarily due to lower provisions for employee incentive compensation programs and the impact of continued cost containment efforts.

LIQUIDITY AND CAPITAL RESOURCES

Despite the recent unprecedented turmoil in the global financial markets, we continue to believe that cash flow from operations and the availability under our credit lines will be sufficient to meet our cash requirements for the foreseeable future. At December 31, 2008, we had cash and cash equivalents of \$69.7 million. Also at December 31, 2008, we had remaining borrowing capacity of \$324.9 million available under our multi-currency, revolving credit line which extends to March 2011. Our current senior credit ratings are at investment grade levels. We believe that our current financial position, liquidity and credit ratings provide access to the capital markets. We continue to closely monitor our liquidity position and the condition of the capital markets as well as the counterparty risk of our credit providers.

There have been no material changes in our contractual obligations and commitments since June 30, 2008.

Cash Flow Provided by Operating Activities

Cash flow from operations is our primary source of financing for capital expenditures and internal growth. During the six months ended December 31, 2008, cash flow provided by operating activities was \$115.5 million, compared to \$68.9 million for the prior year period. Cash flow provided by operating activities for the current year period consisted of net income and non-cash items totaling \$108.2 million and changes in certain assets and liabilities netting to \$7.3 million. Contributing to these changes were a decrease in accounts receivable of \$113.2 million partially offset by a decrease in accounts payable and accrued liabilities of \$78.8 million due in part to a \$14.3 million payment of 2008 performance-based bonuses, and an increase in inventories of \$24.2 million.

During the six months ended December 31, 2007, cash flow provided by operating activities was \$68.9 million and consisted of net income and non-cash items totaling \$144.9 million offset somewhat by changes in certain assets and

liabilities netting to \$76.0 million. Contributing to these changes were a decrease in accounts payable and accrued liabilities of \$60.7 million partially driven by a \$15.1 million payment of 2007 performance-based bonuses, an increase in inventories of \$39.9 million due to higher raw material prices and initiatives to increase service levels, and a decrease in accounts receivable of \$45.5 million.

Table of Contents**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)***Cash Flow Used for Investing Activities*

Cash flow used for investing activities was \$132.2 million for the six months ended December 31, 2008, an increase of \$66.8 million, compared to \$65.4 million in the prior year period. During the six months ended December 31, 2008, cash used for investing activities included \$68.7 million used for purchases of property, plant and equipment, which consisted primarily of equipment upgrades, and \$65.4 million used for the acquisition of business assets.

For the six months ended December 31, 2007, cash flow used for investing activities was \$65.4 million and included \$79.6 million used for purchases of property, plant and equipment, which consisted primarily of equipment upgrades and geographical expansion, partially offset by proceeds from the sale of investments in affiliated companies of \$5.9 million and proceeds from divestitures of \$3.0 million.

Cash Flow Provided by Financing Activities

Cash flow provided by financing activities was \$25.9 million for the six months ended December 31, 2008, an increase of \$22.0 million, compared to \$3.9 million in the prior year period. During the six months ended December 31, 2008, cash flow provided by financing activities included a \$163.7 million net increase in borrowings and \$3.8 million of dividend reinvestment and the effect of employee benefit and stock plans partially offset by \$127.5 million used for the repurchase of capital stock and \$17.9 million of cash dividends paid to shareowners. During the six months ended December 31, 2007, cash flow provided by financing activities was \$3.9 million and included a \$65.2 million net increase in borrowings and \$11.9 million of dividend reinvestment and the effect of employee benefit and stock plans, mostly offset by \$55.4 million for the repurchase of capital stock and \$17.5 million of cash dividends paid to shareowners.

FINANCIAL CONDITION

At December 31, 2008, total assets were \$2,625.4 million having decreased \$158.9 million from \$2,784.3 million at June 30, 2008. Total liabilities increased \$60.6 million from \$1,114.9 million at June 30, 2008 to \$1,175.5 million at December 31, 2008.

Working capital was \$590.9 million at December 31, 2008, a decrease of \$39.8 million or 6.3 percent from \$630.7 million at June 30, 2008. The decrease in working capital included a decrease in accounts receivable of \$145.4 million, a decrease in accounts payable of \$60.3 million and a decrease in accrued expenses of \$31.2 million driven partially by the payment of 2008 performance-based bonuses of \$14.3 million. Foreign currency effects accounted for \$42.4 million, \$8.9 million and \$9.8 million of the decreases in accounts receivable, accounts payable and accrued liabilities, respectively.

Property, plant and equipment, net decreased \$13.8 million from \$749.8 million at June 30, 2008 to \$736.0 million at December 31, 2008, primarily due to the unfavorable impact of foreign currency effects of \$38.9 million and depreciation expense of \$42.2 million partially offset by the impact from a business acquisition of \$14.5 million and capital additions of \$53.1 million.

At December 31, 2008, other assets were \$885.2 million, an increase of \$2.6 million from \$882.6 million at June 30, 2008. The primary drivers for the increase were an increase in goodwill and other intangible assets of \$32.0 million due to a business acquisition and an increase in the fair value of derivative contracts of \$13.7 million partially offset by unfavorable foreign currency effects of \$42.9 million and amortization of intangible assets of \$6.7 million.

Long-term debt and capital leases increased \$166.5 million from \$313.1 million at June 30, 2008 to \$479.6 million at December 31, 2008 primarily due to borrowings for the repurchase of capital stock during the September quarter of \$127.5 million and cash used for the acquisition of business assets for the six months ended December 31, 2008 of \$65.4 million.

Shareowners' equity was \$1,430.7 million at December 31, 2008, a decrease of \$217.2 million from \$1,647.9 million at June 30, 2008. The decrease was primarily attributed to a reduction from foreign currency translation adjustments of \$141.0 million, the purchase of capital stock of \$127.5 million and cash dividends paid to shareowners of \$17.9 million partially offset by net income of \$51.1 million.

Table of Contents**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)****ENVIRONMENTAL MATTERS**

We are subject to various U.S. Federal, state and international environmental laws and regulatory requirements and are involved from time to time in investigations or proceedings of various potential environmental issues concerning activities at our facilities or former facilities or remediation efforts as a result of past activities (including past activities of companies we have acquired). From time to time, we receive notices from the U.S. Environmental Protection Agency or equivalent state or international environmental agencies that we are a potentially responsible party (PRP) under the Comprehensive Environmental Response, Compensation and Liability Act (commonly known as the Superfund Act) and/or equivalent laws. These notices assert potential liability for cleanup costs at various sites, which include sites owned by us, sites we previously owned and treatment or disposal sites not owned by us.

Superfund Sites We are involved as a PRP at several Superfund sites, and have responded to notices for other Superfund sites as to which our records disclose no involvement or for which predecessors of certain of our acquired companies have acknowledged responsibility. We have established reserves that we believe to be adequate to cover our share of the potential costs of remediation at certain of the Superfund sites; at December 31, 2008 the total of these accruals was \$0.2 million. For the remaining Superfund sites, proceedings in those matters have not yet progressed to a stage where it is possible to estimate the ultimate cost of remediation, the timing and extent of remedial action that may be required by governmental authorities or the amount of our liability alone or in relation to that of any other PRPs.

Other Environmental Issues We also maintain reserves for other potential environmental issues. At December 31, 2008, the total of these accruals was \$5.2 million and represents anticipated costs associated with the remediation of these issues. We recorded favorable foreign currency translation adjustments of \$0.8 million during the six months ended December 31, 2008 related to these reserves.

GOODWILL AND OTHER INTANGIBLE ASSETS

Goodwill represents the excess of cost over the fair value of acquired companies. Goodwill and intangible assets with indefinite lives are tested at least annually for impairment. We perform our annual impairment tests during the June quarter in connection with our annual planning process. We also perform specific impairment tests on an interim basis if we deem that a triggering event indicating impairment of the goodwill for a reporting unit or an indefinite-lived intangible asset may have occurred. We evaluate the recoverability of goodwill for each of our reporting units by comparing the fair value of each reporting unit with its carrying value. The fair values of our reporting units are determined using a combination of a discounted cash flow analysis and market multiples based upon historical and projected financial information. We apply our best judgment when assessing the reasonableness of the financial projections used to determine the fair value of each reporting unit. We evaluate the recoverability of indefinite-lived intangible assets using a discounted cash flow analysis based on projected financial information. This evaluation is sensitive to changes in market interest rates and other external factors.

A possible indicator of impairment is the relationship of a company's market capitalization to its book value. As of December 31, 2008, our market capitalization exceeded our book value. The persistence or further acceleration of the recent downturn in global economic conditions and turbulence in financial markets could have a further negative impact on our market capitalization and/or financial performance. Going forward, this could increase the likelihood of future non-cash impairment charges related to our goodwill or indefinite-lived intangible assets.

DISCUSSION OF CRITICAL ACCOUNTING POLICIES

There have been no material changes to our critical accounting policies since June 30, 2008.

NEW ACCOUNTING STANDARDS

See Note 3 to our condensed consolidated financial statements set forth in Part 1 Item 1 of this Form 10-Q for a description of new accounting standards.

Table of Contents**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

We have experienced certain changes in our exposure to market risk from June 30, 2008. The fair value of our interest rate swap agreements was an asset of \$14.4 million as of December 31, 2008 and an asset of \$0.7 million as of June 30, 2008. We recorded the change in fair value of these agreements as a gain in other comprehensive income and a corresponding decrease to long-term debt, as these instruments are accounted for as a fair value hedge of our long-term debt. The \$13.7 million change in the recorded value of these agreements was non-cash and was the result of marking these instruments to market.

There have been no other material changes to our market risk exposure since June 30, 2008.

ITEM 4. CONTROLS AND PROCEDURES

As of the end of the period covered by this quarterly report on Form 10-Q, the Company's management evaluated, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, the effectiveness of the Company's disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)). The Company's disclosure controls were designed to provide a reasonable assurance that information required to be disclosed in reports that we file or submit under the Securities Exchange Act of 1934, as amended (Exchange Act), is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission. It should be noted that the design of any system of controls is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions, regardless of how remote. However, the controls have been designed to provide reasonable assurance of achieving the controls' stated goals. Based on that evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures were effective.

There were no changes in the Company's internal control over financial reporting that occurred during the Company's most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.
