This Proxy Statement is furnished in connection with the solicitation of proxies by the Board of Directors of Meadow Valley Corporation, a Nevada corporation (the Company), to be used at the 2007 Annual Meeting of Shareholders of the Company (Annual Meeting) to be held at 4602 East Thomas Road, Phoenix, Arizona, at 12:00 p.m., Arizona time, on June 11, 2007, or at any adjournment or postponement thereof. The Company anticipates that this Proxy Statement and the accompanying form of proxy will be first mailed or given to shareholders of the Company on or about May 9, 2007.

Meeting Agenda

At the Annual Meeting, you will be asked to elect two Class C directors to serve for three-year terms, ratify the selection of Semple, Marchal & Cooper, LLP as the independent registered public accounting firm for the Company for 2007, consider the shareholder proposal to act in the most expeditious manner, consistent with effective tax considerations, to liquidate the Company's investment in Ready Mix, Inc. and distribute the proceeds to the Company's shareholders (the Shareholder Proposal), and transact such other business as may properly come before the meeting or any postponement(s) or adjournment(s) thereof.

Record Versus Beneficial Ownership of Shares

If your shares are registered directly in your name with our transfer agent, Corporate Stock Transfer, you are considered, with respect to those shares, the shareholder of record. If you are a shareholder of record, we sent our Notice of Annual Meeting of Shareholders, Proxy Statement, Proxy Card and Annual Report to Shareholders directly to you.

If your shares are held in a stock brokerage account or by a bank or other holder of record, you are considered the beneficial owner of shares held in street name. In that case, our Notice of Annual Meeting of Shareholders, Proxy Statement, Proxy Card and Annual Report to Shareholders have been forwarded to you by your broker, bank or other holder of record who is considered, with respect to those shares, the shareholder of record. Your broker, bank or other holder of record will also send you instructions on how to vote. If you have not heard from your broker, bank or other holder of record who holds your stock, please contact them as soon as possible.

Record Date and Number of Votes

The record date for the 2007 Annual Meeting of Shareholders is April 4, 2007. If you were a shareholder of record at the close of business on April 4, 2007, you may vote at the Annual Meeting. At the close of business on the record date, there were 5,125,760 shares of our common stock, par value \$.001 per share (Common Stock), outstanding and entitled to vote and approximately 1,000 beneficial and shareholders of record. Each shareholder is entitled to one vote per share.

How You Can Vote

The shares represented by all proxies that are properly executed and submitted will be voted at the meeting in accordance with the instructions indicated thereon. Unless otherwise directed, votes will be cast (i) for the election of the nominees for directors hereinafter named; (ii) for the ratification of Semple, Marchal & Cooper, LLP as the Company's independent registered public accounting firm; (iii) against the Shareholder Proposal; and (iv) to transact such other business as may properly come before the meeting. Shareholders who hold their shares in street name (i.e., in the name of a bank, broker or other record holder) must vote their shares in the manner prescribed by their brokers.

Table of Contents

Changing Your Vote

You can revoke your proxy at any time before it is exercised in one of three ways:

- (1) by delivering to the Secretary of the Company a written instrument of revocation bearing a date later than the date of the proxy.
- (2) by duly executing and delivering to the Secretary of the Company a subsequent proxy relating to the same shares.
- (3) by attending the meeting and voting in person, provided that the shareholder notifies the Secretary at the meeting of his or her intention to vote in person at any time prior to the voting of the proxy.

Required Votes

A plurality of votes cast by shareholders who are either present in person or represented by proxy and entitled to vote at the meeting is required to elect the two Class C nominees for Director under Proposal 1. Approval of Proposals 2 and 3 requires the affirmative vote of a majority of the shares present and entitled to vote on these proposals at the Annual Meeting. The total number of votes that could be cast at the meeting is the number of votes actually cast plus the number of abstentions. Abstentions are counted as shares present at the meeting for purposes of determining whether a quorum exists and have the effect of a vote against any matter as to which a specific proportion of affirmative votes is required for approval. Proxies submitted by brokers that do not indicate a vote for some or all of the proposals because they do not have discretionary voting authority and have not received instructions as to how to vote on these proposals (so-called broker non-votes) are counted for the purpose of determining the presence of or absence of a quorum but are not counted for determining the number of votes cast for or against a proposal.

Dissenter's Rights or Appraisal

Pursuant to applicable Nevada law, there are no dissenter's or appraisal rights relating to the matters to be acted upon at the Annual Meeting.

Other Matters to Be Acted Upon at the Meeting

We do not know of any matters other than the election of directors, the ratification of independent registered public accounting firm and the Shareholder Proposal that are expected to be presented for consideration at the Annual Meeting. If any other matters are properly presented at the meeting, the shares represented by proxies will be voted in accordance with the judgment of the persons voting those shares.

**MATTERS TO BE VOTED ON AT THE ANNUAL MEETING
PROPOSAL NO. 1 ELECTION OF DIRECTORS**

The Company's By-Laws provide for directors with staggered terms of office, to be divided as equally as possible. Nominees of each class of directors serve for terms of three years (unless a nominee is changing to a different class) and until election and qualification of their successors or until their resignation, death, disqualification or removal from office.

The Board of Directors currently consists of five members, including two Class A Directors whose terms expire in 2009, one Class B Director whose term expires in 2008, and two Class C Directors whose terms expire in 2007. At the Annual Meeting, the two Class C Directors are to be elected to three-year terms expiring in 2010. The three nominees receiving a plurality of votes by shares represented at the Annual Meeting, if a quorum is present, will be elected as Directors of the Company.

The nominees for the Class C Directors are Charles R. Norton and Bradley E. Larson, both of whom presently serve on the Board of Directors.

Recommendation of the Board

The Board of Directors recommends that you vote FOR the election of the nominees for Director.

Cumulative voting is not permitted for the election of directors. In the absence of instructions to the contrary, the person named in the accompanying proxy will vote in favor of the election of each of the persons named below as the Company's nominees for directors of the Company. Each of the nominees has consented to be named herein and to serve if elected. It is not anticipated that any nominee will become unable or unwilling to accept nomination or election, but if such should occur, the person named in the proxy intends to vote for the election in his stead of such person as the Board of Directors of the Company may recommend. Biographical information concerning the director nominees is set forth beginning at page 20 of this Proxy Statement.

PROPOSAL NO. 2 THE RATIFICATION OF THE SELECTION OF SEMPLE, MARCHAL & COOPER, LLP AS THE INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM OF THE COMPANY FOR 2007.

Semple, Marchal & Cooper, LLP has been selected by the Audit Committee as the Company's independent registered public accounting firm for 2007. The Board of Directors recommends to the shareholders the ratification of the selection of Semple, Marchal & Cooper, LLP, independent registered public accounting firm, to audit the financial statements of the Company. Unless otherwise specified, the proxies solicited herein will be voted in favor of the ratification of Semple, Marchal & Cooper, LLP as the independent registered public accounting firm for the Company for 2007.

Ratification of the appointment of Semple, Marchal & Cooper, LLP as the Company's independent registered public accounting firm for fiscal year 2007 will require the affirmative vote of the holders of at least a majority of the outstanding Common Stock represented in person or by proxy at the Annual Meeting. All of the directors and executive officers of the Company have advised the Company that they will vote their shares of Common Stock **FOR** the ratification of the appointment of Semple, Marchal & Cooper, LLP as the Company's independent registered public accounting firm for fiscal year 2007. If the holders of at least a majority of the outstanding Common Stock fail to ratify the appointment of Semple, Marchal & Cooper, LLP as the Company's independent registered public accounting firm, the Audit Committee will consider such failure at a subsequent meeting of the Audit Committee and determine, in its discretion, what actions it should take, if any.

Recommendation of the Board

The board recommends a vote FOR the ratification of Semple, Marchal & Cooper, LLP as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2007.

PROPOSAL NO. 3 SHAREHOLDER PROPOSAL RELATING TO THE LIQUIDATION OF THE COMPANY'S INVESTMENT IN READY MIX, INC.

One of the Company's shareholders has given notice of his intention to introduce the following proposal for consideration and action by the shareholders at the Annual Meeting. The proposed resolution and accompanying supporting statement has been provided by the shareholder/proponent. The affirmative vote of a majority of the shares of Common Stock present or represented by proxy and entitled to vote at the Annual Meeting is required for approval of the proposal.

This shareholder proposal is submitted by Walter Schenker of TCMP3 Partners at 7 Century Drive, Suite 201, Parsippany, New Jersey 07054. Mr. Schenker has represented to the Company that TCMP3 Partners has held at least \$2,000.00 in market value of the Company's securities for the past year and intends to hold at least \$2,000.00 in the Company's securities through the 2007 annual meeting.

Resolved, the Board of Directors and management should act in the most expeditious manner, consistent with effective tax considerations, to liquidate the investment in Ready Mix, Inc. and distribute the proceeds (cash, stock or other financial instruments) to Meadow Valley shareholders.

Shareholder Supporting Statement:

There is no business synergy between Meadow Valley Corp. and Ready Mix Inc. Management has taken the first step in realizing value by creating Ready Mix as a public company. TCMP3 Partners believes the current environment of active acquisition activity in the concrete industry provides an outstanding window to complete the process of creating additional shareholder value. Furthermore, based on the 2006 equity raise (which diluted Meadow Valley shareholders' proportional ownership of Ready Mix) Meadow Valley now has the financial strength to grow its business based solely on its own balance sheet.

Your Directors' Position:

The Board of Directors unanimously recommends a vote AGAINST adoption of this proposal for the following reasons:

The Board of Directors believes it is currently in the best interests of the Company and its shareholders to retain its investment in Ready Mix, Inc. (RMI) and that the proposed liquidation of its investment in RMI would significantly and adversely affect shareholder value in the Company by materially reducing the Company's revenue, profitability and its ability to compete for contracts. Additionally, the Company's investment in RMI is subject to pledge agreements whereby the Company's RMI investment serves as collateral for obtaining substantial bonding, and borrowing capacity, the absence of which would be materially detrimental to the value of the Company.

Prior to RMI's initial public offering in 2005, it was a wholly-owned subsidiary of the Company. The Company has retained stock in RMI as a strategic business decision and management of the Company evaluates the use of that asset in its ongoing day to day management of the Company. The retention of RMI stock plays a significant role in the day to day operations of the Company because (1) the RMI stock owned by the Company is pledged as collateral and used to support and increase the Company's bonding capacity (surety credit provided by an insurance company guaranteeing the Company's completion of work and payment of bills) when making bids for contracts, (2) RMI provides a significant amount of revenue and profit to the Company and (3) the RMI stock is pledged to the Company's primary lender as collateral under the Company's credit lines.

Negative Effect of an RMI Stock Sale on Company Bonding Capacity, Revenue and Profits. A significant portion of the Company's current bonding capacity is provided because the RMI stock has been pledged as collateral. The Board of Directors believes that a sale of the RMI stock would significantly reduce the Company's bonding capacity and materially and adversely affect the size and number of projects on which the Company could bid.

The Company's bonding company has provided the Company with a letter that states, in part, that it considers the Ready Mix, Inc. asset of Meadow Valley Corporation to be a key material asset factored in establishing surety credit for Meadow Valley Contractors, Inc.

Table of Contents

If the shareholder proposal was executed, the Board of Directors believes that the Company's bonding capacity would be materially reduced and the Company's ability to compete for new contracts would be so severely compromised so as to likely render it incapable of sustaining itself at an operating level commensurate with being a public company with its remaining assets. The Board of Directors believes executing this shareholder proposal would, with a high degree of likelihood, lead to a significant reduction in the Company's revenue and net income. In 2006, RMI accounted for 43% of the Company's revenue and 48% of the Company's gross profit. The Board of Directors believes that the Company's current total bonding capacity of \$200 million could likely decrease to a total capacity of between approximately \$50-\$75 million, thus, the Board of Directors believes it is reasonable to expect the revenue generating capacity of the remaining assets would be reduced by approximately 50-75%, which would have likely had the affect of shrinking 2006 total revenue to an unaudited pro forma total revenue of between approximately \$55-\$75 million from \$195.5 million, or a revenue reduction of between approximately 62-72%.

In addition to the material adverse result the loss of bonding capacity would have on the Company, the Board of Directors believes that such a sale simply cannot be made for some time. The Company's obligations under the terms of the pledge agreements entered into to obtain its surety credit require that the Company eliminate all of the liabilities secured by the bonds before it can sell the RMI stock that has been pledged to secure the bonds, unless the bonding company consents to the sale of the stock. The Board of Directors believes that it is highly unlikely that the bonding company will agree to any reduction of the collateral. Based on the currently existing bonds, the Board of Directors believes that it would take more than one year to eliminate such liabilities. During that time, the Company would be unable to compete for any new contracts secured by the RMI stock.

The Board of Directors believes that the probable reduction in the value of the Company after a sale of the RMI stock would negate any short term gain to shareholders that might be obtained by the sale of the stock. In addition, while the Board of Directors has not quantified the tax implications of a RMI sale, it believes that these tax implications, including corporate taxes to be paid upon the sale of the stock and income taxes to be paid by each shareholder for the dividend, would likely reduce any possible shareholder gain even further. For these reasons, the Board of Directors believes that the liquidation of the Company's RMI stock would result in an overall reduction in shareholder value as well as a reduction in the value of the Company as a whole.

The Company's Two Complimentary Segments, Services and Materials, Protect the Company from Industry Sector or Operational Downturns. Currently, the Board of Directors believes that the Company is better able to protect itself from swings in certain sectors of the construction industry or unexpected operational impacts through the diversification offered by its two lines of different, yet complimentary businesses. A sale of RMI would likely end this mutually beneficial protection and expose both companies and their shareholders to certain sector or operational downturns from time to time. For example, the Board of Directors believes that what the Company was able to accomplish in the second half of 2006 to have the services segment offset declines in the materials segment was directly connected to the services segment's ability to capture new work with its added bonding capacity. Much of the increase in bonding capacity during 2006 was directly related to the value of the stock pledged as collateral following RMI's IPO at the end of 2005.

The Board of Directors believes that the Company's historical performance has demonstrated the support that one segment or the other has provided during periods where the other segment's performance was negatively impacted for one reason or another. For example, the decline in the housing sector caused a noticeable shift in the Company's business from the first half to the second half of 2006. This shift illustrates the importance of the Company's diversification away from sole dependence upon either the services or the materials segment alone. As found in the Company's periodic reports, from the first half to the second half of 2006, revenue increased approximately 7.9% due to a 24.3% increase from the services segment, which helped offset the materials segment's decline of 11.4%. Consolidated gross profit during the same comparable period increased approximately 2.9%, but this increase resulted from a 51.9% increase in gross profit from the services segment that offset a 33.0% decline in the materials segment gross profit. On the other hand, in fiscal year 2004, the materials segment mitigated the impact of the services segment's operational downturn by generating \$6.6 million in gross profit compared to \$.3 million in gross profit from the services segment. The Board of Directors believes that the current benefits of this diversification are in the best interests of the Company's shareholders and that the effects of the shareholder proposal would materially diminish the

Company's ability to withstand the effects of downturns of a particular segment of the Company or construction industry sector.

Table of Contents

Ready Mix Stock is Pledged as Collateral for the Company's Borrowings. Similar to the pledge to the Company's surety provider, RMI stock is also pledged as collateral to obtain borrowing capacity from the Company's primary lender. The Board of Directors believes the loss of this collateral would materially and unfavorably alter not only the terms available to the Company for borrowing, but also the level of borrowing capacity. The Board of Directors believes that the loss of pledged RMI stock would result in an increase in the Company's cost of capital, a material decrease in the Company's borrowing ability, and a material negative impact on the value of the Company to its shareholders.

The Board of Directors Should Have Flexibility to Control a Sale, if any. If, in the future, the Board of Directors determines that it is in the best interests of the Company and its shareholders to liquidate its investment in RMI, it should have the flexibility to control both the timing of such a sale and the use of any proceeds. For example, the Board of Directors may decide in the future to affect such a sale but may decide to reinvest the proceeds of a sale into acquiring another company, building Meadow Valley's existing operations, or entering into a new product area.

The Board of Directors Believes it is Currently in the Best Interests of the Company and its Shareholders to Retain the Investment in Ready Mix, Inc.

Accordingly, the Board of Directors recommends that you vote **AGAINST** this Shareholder Proposal.

PROXIES SOLICITED BY THE BOARD OF DIRECTORS WILL BE SO VOTED UNLESS SHAREHOLDERS SPECIFY OTHERWISE IN THEIR PROXIES.

Table of Contents**CORPORATE GOVERNANCE****Director Independence**

We are authorized by our Bylaws to maintain a Board of Directors comprised of a minimum of three directors and no more than nine directors. Our Board currently consists of five directors, three of whom, Messrs. Norton, Patterson and Cowan, are independent as defined under rules promulgated by the Securities and Exchange Commission (SEC) and the Nasdaq Capital Market. In accordance with the independence standards of the Nasdaq Capital Market, a director must be determined to have no personal, professional, familial or other relationship with our company other than as a director. Our directors are elected for three year terms, or until an earlier resignation, death or removal. There are no family relationships among any of our directors or officers.

Board of Directors and Board Committees

The Board of Directors held four regularly scheduled meetings during the last full fiscal year and three special meetings. No director attended less than 75% of the aggregate of such meetings and meetings held by committees of the Board on which he served. We do not have a formal policy regarding attendance by members of the Board of Directors at our annual meeting of shareholders, but strongly encourage directors to attend. All members of our Board of Directors attended the 2006 Annual Meeting of Shareholders.

The standing committees of the Board are as follows: Audit, Nominating and Governance, and Compensation Committee. The Board has adopted a charter for its Audit Committee and its Nominating and Governance Committee, which are available on our website at www.meadowvalley.com by following the link Investor Information. The Nominating and Governance Committee

The Nominating and Governance Committee is currently comprised of Messrs. Cowan, Norton and Patterson, our independent directors. Mr. Cowan is our Nominating and Governance Committee Chairman. The committee met four times during fiscal 2006. The purpose of the Nominating and Governance Committee is as follows:

identify, consider and nominate candidates for membership on the Board, including any nominees properly received by the Secretary of the Corporation from any shareholder;

develop, recommend and evaluate corporate governance guidelines and a code of business conduct and ethics applicable to the Company;

make recommendations regarding the structure and composition of the Board and Board committees; and

advise the Board on corporate governance matters.

All members of our Nominating and Governance Committee are independent, as defined under applicable law and the listing standards for companies traded on the Nasdaq Capital Market. Nominations of candidates for election as Directors may be made by the Board of Directors upon recommendation by the Nominating and Governance Committee, or by shareholders. Shareholders may nominate candidates for election as directors if they follow the procedures and conform to the deadlines specified in our By-laws. For more information, see the disclosure in our Proxy Statement for our 2007 Annual Meeting of Shareholders under the caption Shareholder Proposals for the 2008 Annual Meeting of Shareholders, which will be filed with the SEC and mailed to our shareholders on approximately May 9, 2007.

In evaluating the suitability of potential nominees for membership on the Board, the Nominating and Governance Committee will consider the Board's current composition, including expertise, diversity, and balance of inside, outside and independent directors, and consider the general qualifications of the potential nominees, such as:

Unquestionable integrity and honesty;

The ability to exercise sound, mature and independent business judgment in the best interests of the shareholders as a whole;

Recognized leadership in business or professional activity;

A background and experience that will complement the talents of the other Board members;

Willingness and capability to take the time to actively participate in Board and Committee meetings and related activities;

Ability to work professionally and effectively with other Board members and the Company's management;

An age to enable the Director to remain on the Board long enough to make an effective contribution; and

Lack of realistic possibilities of conflict of interest or legal prohibition.

The Committee will also see that all necessary and appropriate inquiries are made into the backgrounds of such candidates. Other than the foregoing, there are no stated minimum criteria for director nominees, although the Nominating and Governance Committee may also consider such other factors as it may deem to be in the best interests of the Company and its shareholders.

The Compensation Committee on Executive Compensation

Our Compensation Committee consists of Messrs. Patterson, Cowan and Norton. Mr. Norton is our Compensation Committee Chairman. The purpose of the Compensation Committee is to determine the compensation to be paid to the Company's executive officers, and to approve any incentive compensation plans. The Compensation Committee

will recommend approval to the Board of the compensation of our executive officers, the annual compensation budget for all other employees, bonuses, grants of stock options and any changes to our benefit plans. The committee met four times during fiscal 2006.

EXECUTIVE COMPENSATION
Compensation Discussion and Analysis

Overview of Executive Compensation Program

The Compensation Committee of Meadow Valley Corporation's Board is responsible for assisting the Board in defining and overseeing Meadow Valley's general compensation practices. During fiscal 2006, the Compensation Committee engaged FMI Management Consulting to assist it in evaluating executive compensation matters and to revise the executive compensation package for the fiscal year ending 2007.

The persons who served as our Chief Executive Officer and Chief Financial Officer during 2006, as well as other individuals named in our Summary Compensation Table for 2006, are referred to as the named executive officers through this Proxy Statement.

Executive Summary

As discussed in more detail below, the following actions concerning the compensation of Meadow Valley Corporation's named executive officers were taken for fiscal 2006:

Clint Tryon resigned as Principal Accounting Officer, Secretary and Treasurer and was appointed Chief Financial Officer, Principal Accounting Officer, Secretary and Treasurer of the Company's majority owned subsidiary Ready Mix, Inc.

David D. Doty was appointed Chief Financial Officer, Principal Accounting Officer, Secretary and Treasurer.

Bradley E. Larson, Kenneth D. Nelson, Alan A. Terril and David D. Doty received incentives pursuant to the Company's Annual Non-Equity Incentive Plan (the Incentive Plan).

Clint Tryon received incentives pursuant to Meadow Valley Corporation's Incentive Plan as it related to the portion of 2006 spent as Principal Accounting Officer of the Company and the subsequent subsidiary transition.

Bradley E. Larson, Kenneth D. Nelson, Alan A. Terril, David D. Doty and Clint Tryon, each received 10,000 stock options issued from the Company's equity incentive plan (the Equity Incentive Plan).

Oversight of Executive Compensation Program and Role of Executive Officers in Compensation Decisions

While the Compensation Committee approves all aspects of our executive compensation program, it reports to the full Board of Directors on a regular basis and seeks approval for certain actions. The Committee coordinates with its consultants and management to obtain marketplace and internal data analyses, project reports and program recommendations to assist the Committee in making executive compensation decisions. Our Chief Executive Officer and, in some cases, other executive officers make recommendations to the Committee with respect to various elements of executive compensation.

Compensation Objectives and Philosophy

The Company's primary objectives when determining compensation for its named executive officers are to:
set levels of annual salary, non-equity incentives and equity compensation that are competitive and that will attract and retain superior executives, taking into account the difficult industry conditions and competitive environment that the Company faces,

incorporate a performance-based component to executive compensation by linking the incentive compensation to the Company's financial and operational performance, and

provide long-term equity-based compensation, thereby further aligning the interests of the Company's executives with those of its other stockholders.

These objectives are designed to reward each executive's (1) past individual performance and contribution to the Company's corporate performance, (2) level and scope of responsibility and experience, and (3) ability to influence the Company's future growth and profitability.

Table of Contents**Components of 2006 Executive Compensation**

Our executive compensation has three main parts: a salary paid in cash, an annual non-equity cash incentive plan, in which payment is contingent on the financial performance of the Company, and a long-term equity incentive that the Company provides through the award of options to purchase the Company's common stock. The salary component is intended to reward executives for their current, day-to-day work. The cash incentive bonus is intended to be a reward for the executive's contribution to the financial success of the Company in a given year. Awards of equity are intended to create longer-term incentive for the executive to remain with the Company since the benefit is realized, if the Company is successful, over a multi-year period similar to our shareholders.

Annual Salary

Because an executive's annual salary is meant to reflect his value to the Company on a day-to-day basis, it is a fixed, predetermined element of his compensation. When the Compensation Committee reviews the level of an executive's salary for a possible increase at the end of the term of his employment agreement or annual basis if no employment agreement is in place, that review is based on two main factors: his prior salary and the salary range of executives in comparable companies at a comparable level of responsibility. The Compensation Committee members take an executive's prior salary into account because they believe that it reflects the assessment of prior boards and/or compensation committees of the executive's value to the Company. Compensation levels of comparable companies are obtained from industry trade publications, management consulting firms such as FMI Management Consulting and other public companies similar to our size and industry. In addition, the Compensation Committee provides their knowledge of construction industry compensation levels gained in the course of the work each independent director performs in their daily business activity.

Non-Equity Cash Incentive Plan

The level of compensation that an executive can earn under the Company's cash incentive plan is based on the Company's attainment of financial success when compared to a predetermined amount, which the Board of Directors has approved in advance. Financial performance that exceeds expectations can enable the Company's management team including its CEO, CFO, Vice-Presidents and other management personnel to earn a cash incentive. The amount of the cash incentive earned in a given year, if any, is derived from a formula based principally on the Company's income before tax, by the manager's primary geographic area of responsibility. The amount of income before tax for each year must be approved by the Board of Directors, which has a majority of directors who are not employees of the Company and are independent. The cash incentive bonus plan has a discretionary element. In exercising this discretion, members of the Compensation Committee use their personal judgment of appropriate amounts after taking into account information about the executive's work during the year, his past compensation, his current cash incentive amount, his perceived contribution to the Company generally, his level of responsibility, and any notable individual achievements or failings in the year in question.

The Compensation Committee authorizes the payment of incentive amounts and, if applicable, makes any decisions on discretionary amounts, when the results for the year in question are known, typically in late February of the following year. Bonuses for 2006 were approved in March, 2007. The *Summary Compensation Table for 2006*, below, shows the total 2006 cash incentive amounts of each named executive officer.

Equity Incentive Plan

The award of an option to buy the Company's common stock is a long-term element of compensation since on the date of the award, the exercise price, or purchase price, of the shares subject to the option is the same as the price of those shares on the open market. The recipient of a stock option will only realize its value if the market price of the shares increases over the life of the option, the award gives the executive an incentive to remain with the Company and aligns his interests with those of our shareholders.

The Company calculates the value of a stock option award on the date of its grant under accounting requirements that involve the use of a complex formula consisting of estimates about the Company, its stock price and the likelihood of the option holder forfeiting the stock option. Beginning in fiscal year 2006, recording stock option awards as an expense was required of all companies under Financial Accounting Standard No. 123 (revised 2004), or FAS 123R. The dollar amount shown in the *Summary Compensation Table for 2006*, below, for stock option awards is the value of the options computed under FAS 123R.

Table of Contents

In determining the size of a stock option award, the Compensation Committee takes into account both the value of the award to the recipient and the corresponding accounting cost to the Company.

Other Compensation

The only other forms of compensation for our executive officers are the personal use of company vehicles, disability and term life insurance and other benefits made available to all salaried employees and the perquisites shown in the *Summary Compensation Table for 2006*, below, in the column labeled *All Other Compensation*. A detailed description of the perquisites is shown in footnote 3 to the table. The payment of Messrs. Larson, Terril and Nelson's term life insurance premiums is a benefit that has been provided to them by the Company for many years and was established when the Company determined to carry a key officer life policy on each of the executives in the same amounts as the policy provided each officer. This benefit is also applicable to Mr. Doty; however, no amounts were paid in 2006 for term life insurance on his behalf.

Overall Compensation Levels

As with salary, the Company attempts to provide its executives with a total compensation package that is comparable to their peers in the industry and that the members of the Compensation Committee believe in their personal judgment based on their business experience is fair and appropriate for the executive's level of responsibility and contribution to the Company. The Compensation Committee, which consists of only our independent members of the Board of Directors, makes the final determination of the compensation of the named executive officers. However, the Committee discusses their compensation recommendations for each executive officer with the Chief Executive Officer in advance of making a decision.

Employment Agreements

Messrs. Larson, Doty, Terril and Nelson currently are employed by the Company through employment agreements. In November 2006, the Company entered into three-year employment agreements with Messrs. Larson, Doty and Nelson providing for an annual base salary. These individuals are also eligible to receive incentive amounts based upon performance as determined by our Compensation Committee and approved by our Board of Directors. In the event the Company terminates any of these individuals without cause (as defined in the agreements) or the Company is the subject of a change of control, all options held by the individual will vest and the Company will be required to pay compensation to these individuals for the remaining terms of the agreements.

Compensation of the Chief Executive Officer

Employment Agreement and Compensation Elements

Mr. Larson's 2006 compensation was determined according to the above compensation components per his applicable employment agreement. Amounts paid to or due to Mr. Larson for 2006 compensation are shown below in the *Summary Compensation Table for 2006*.

Table of Contents

The Securities and Exchange Commission recently adopted enhanced executive compensation disclosure requirements for public companies. As a result, the following disclosure regarding the compensation of our executive officers and directors will be somewhat different in content and format from previous years.

Summary Compensation Table for 2006

The following table provides information regarding the total compensation earned in 2006 by the named executive officers, which include the Chief Executive Officer, Chief Financial Officer, Chief Operating Officer and Chief Administrative Officer, who are the only other executive officers whose compensation for 2006 exceeded \$100,000. The named executive officers who also serve on the board of directors are not compensated for their services rendered to the Board of Directors. The Company pays compensation to these executive officers according to the terms of their employment agreements or as determined by the Compensation Committee when no employment agreement is in place. The amounts include any compensation that was deferred by the executive through contributions to his defined contribution plan account under Section 401(k) of the Internal Revenue Code. All amounts are rounded to the nearest dollar.

(1) This column represents the aggregate dollar amount of the awards granted in 2006. Therefore, the values shown here are not representative of the amounts that may eventually be realized by an executive. Pursuant to the rules of the Securities and Exchange Commission, we have provided a grant date fair value for option awards in accordance with the provisions of Statement of Financial Accounting Standards No. 123(R), Share-based Payments. For option awards, the fair value is estimated as of the date of grant using the

Black-Scholes option pricing model, which requires the use of certain assumptions, including the risk-free interest rate, dividend yield, volatility and expected term. The risk-free interest rate is based on the yield at the date of grant of a U.S. Treasury security with a maturity period equal to or approximating the option's expected term. The dividend yield assumption is based on our historical dividend payouts, which is zero. The volatility assumption is based on the historical volatility of our common stock over a period equal to the option's expected term or trading stock's trading history whichever is shorter. The expected term of options granted is based on expectations about future exercises and

represents the period of time that options granted are expected to be outstanding.

(2) The non-equity incentive plan payments were made on March 9, 2007. See discussion of non-equity incentive plans under the heading Compensation Discussion and Analysis above. None of the named executive officers elected to defer their 2006 non-equity incentive plan payment.

Equity Incentive Plans***Meadow Valley Corporation Equity Incentive Plan:***

In 2005, the 2004 Plan was ratified by the shareholders. The 2004 Plan permits the granting of any or all of the following types of awards: (1) incentive and nonqualified stock options, (2) stock appreciation rights, (3) stock awards, restricted stock and stock units, and (4) other stock or cash-based awards. In connection with any award or any deferred award, payments may also be made representing dividends or their equivalent.

The 2004 Plan authorizes the issuance of up to 1,200,000 shares of Common Stock, all of which were previously reserved for issuance under the Company's prior plan. Shares of Common Stock covered by an award granted under the 2004 Plan will not be counted as used unless and until they are actually issued and delivered to a participant. Shares relating to awards granted under the 2004 Plan that are forfeited, settled for cash or otherwise terminated and shares withheld by or tendered to the Company in connection with the exercise of an option or other award granted under the 2004 Plan or in connection with the satisfaction of tax withholding obligations relating to awards or exercises of options or other awards are available for grant under the 2004 Plan. Awards made or adjusted to assume or convert awards in connection with acquisition transactions will not reduce the number of shares authorized for issuance under the 2004 Plan. The shares of stock deliverable under the 2004 Plan will consist of authorized and unissued shares. The plan administrator may adjust the aggregate number of shares or the awards under the plan in the event of a change affecting shares of Common Stock, such as stock dividends, recapitalization, reorganization or mergers.

The 2004 Plan is administered by the Compensation Committee of the Board of Directors which was comprised of non-employee directors. The 2004 Plan has no fixed termination date. The Company's Board of Directors or the committee may generally amend, alter, suspend, discontinue or terminate all or a portion of the 2004 Plan at any time, as long as the rights of a participant are not materially impaired without the participant's consent, subject to shareholder approval to the extent necessary to comply with applicable law, stock exchange rule or regulatory requirements or, as determined by the committee, to qualify with tax requirements.

Table of Contents

In 2006, we granted, under the 2004 Plan, an aggregate of 85,000 stock options to officers and directors at an exercise price of \$10.11.

We have reserved 1,200,000 shares of our common stock for issuance under the 2004 Plan. As of December 31, 2006, 90,149 shares were available for future grant under the 2004 Plan. The term of the stock options is five or ten years and may be exercised after issuance as follows: 33.3% after one year of continuous service, 66.6% after two years of continuous service and 100% after three years of continuous service. The exercise price of each option is equal to the market closing price of the Company's common stock on the date of grant.

Ready Mix, Inc. Equity Incentive Plan:

In January 2005, RMI adopted an equity incentive plan, which we refer to as RMI's Plan, which provides for the grant of options intended to qualify as incentive stock options and non-statutory stock options within the meaning of Section 422 of the Internal Revenue Code of 1986, as amended, together with the grant of bonus stock and stock appreciation rights at the discretion of RMI's Board of Directors. Incentive stock options are issuable only to RMI's eligible officers, directors and key employees. Non-statutory stock options are issuable only to RMI's non-employee directors and consultants.

RMI's Plan is administered by RMI's Compensation Committee. Currently, RMI has 675,000 shares of common stock reserved for issuance under RMI's Plan. Under RMI's Plan, the Board of Directors determines which individuals shall receive options, grants or stock appreciation rights, the time period during which the rights may be exercised, the number of shares of common stock that may be purchased under the rights and the option price.

With respect to stock options, the per share exercise price of the common stock may not be less than the fair market value of the common stock on the date the option is granted. No person who owns, directly or indirectly, at the time of the granting of an incentive stock option, more than 10% of the total combined voting power of all classes of our stock is eligible to receive incentive stock options under RMI's Plan unless the option price is at least 110% of the fair market value of the common stock subject to the option on the date of grant. The option price for non-statutory options is established by RMI's Board and may not be less than 100% of the fair market value of RMI's common stock subject to the option on the date of grant.

No options may be transferred by an optionee other than by will or the laws of descent and distribution, and during the lifetime of an optionee, the option may only be exercisable by the optionee. Options may be exercised only if the option holder remains continuously associated with us from the date of grant to the date of exercise, unless extended under RMI's Plan grant. Options under RMI's Plan have no expiration date and the exercise date of an option cannot be longer than 10 years from the date of grant, but can be shorter when established by RMI's plan administrator. Any options that expire unexercised or that terminate upon an optionee's ceasing to be employed by RMI become available once again for issuance. Shares issued upon exercise of an option rank equally with other shares then outstanding.

RMI has reserved 675,000 shares of common stock for issuance to officers, directors and employees under RMI's equity incentive plan described above. Options will be issued to employees and executive officers based on the recommendation of RMI's Compensation Committee of the Board of Directors according to the following:

employees holding positions of responsibility with RMI whose performance can have a significant effect on RMI's success; and

non-employee directors.

Currently, RMI has granted under RMI's Plan an aggregate of 348,125 stock options to officers, directors and employees at an exercise price from \$10.35 to \$12.50. From the grant date 33% of the options are exercisable after one year of continuous service to RMI, 66% after two years of continuous service and 100% after three years of continuous service.

AUDIT COMMITTEE REPORT

The Audit Committee oversees the Company s financial reporting process on behalf of the Board of Directors. Management has the primary responsibility for the financial statements and the reporting process including the systems of internal controls. In fulfilling its oversight responsibilities, the Committee reviewed the audited financial statements in the Annual Report with management including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments, and the clarity of disclosures in the financial statements.

The Committee reviewed with the independent auditors, who are responsible for expressing an opinion on the conformity of those audited financial statements with generally accepted accounting principles, their judgments as to the quality, not just the acceptability, of the Company s accounting principles and such other matters as are required to be discussed with the Committee under generally accepted auditing standards. In addition, the Committee has discussed with the independent auditors the auditors independence from management and the Company including the matters in the written disclosures required by the Independence Standards Board and considered the compatibility of nonaudit services with the auditors independence.

The Committee discussed with the Company s independent auditors the overall scope and plans for their audit. The Committee meets with the independent auditors, with and without management present, to discuss the results of their examinations, their evaluations of the Company s internal controls, and the overall quality of the Company s financial reporting. The Committee held four meetings during fiscal 2006.

In reliance on the reviews and discussions referred to above, the Committee recommended to the Board of Directors (and the Board has approved) that the audited financial statements be included in the Annual report on Form 10-K for the year ended December 31, 2006 for filing with the Securities and Exchange Commission. The Committee and the Board have also recommended and approved the selection of the Company s independent auditors.

Audit Committee Approval of Audit and Non-Audit Service

According to the Policy, the Audit Committee will annually review and pre-approve the services and fees that may be provided by the independent registered public accountants during the following year. The Policy specifically describes the services and fees related to the annual audit, other services that are audit-related, preparation of tax

returns and tax related compliance services and all other services that have the pre-approval of the Audit Committee. The term of any general pre-approval is 12 months from the date of pre-approval, unless the Audit Committee specifically provides for a different period.

Any service to be provided by the independent registered public accountants that has not received general pre-approval under the Policy is required to be submitted to the Audit Committee for approval prior to the commencement of a substantial portion of the engagement. Any proposed service exceeding pre-approved cost levels is also required to be submitted to the Audit Committee for specific approval.
