The following email was sent to all Cincinnati Bell employees by the President and Chief Executive Officer of Cincinnati Bell Leigh R. Fox on July 10, 2017:

Cincinnati Bell this morning transformed itself into a national company with global reach as we announced definitive agreements to merge with Hawaiian Telcom and acquire OnX Enterprise Solutions.

This is a historic day for Cincinnati Bell, and represents a key inflection point in our ongoing evolution into a fiber-based technology company.

At our Town Hall Meeting in May, we announced that Cincinnati Bell would be formally organized into two distinct but complementary Businesses: Network Communications and IT Services. At that time, I shared our plan to invest heavily in both Businesses and pursue growth through organic and inorganic methods.

Today's news demonstrates the company's commitment to this two-pronged strategy. In one stroke, we have created two \$1 billion-plus companies in a financially responsible manner that gives us a tremendous runway for growth.

Hawaiian Telcom and OnX Enterprise Solutions are outstanding, innovative companies that will help Cincinnati Bell capitalize on the demand for fiber and strategic IT services across the United States and beyond. Both companies share our culture and values, and I view them as partners that will allow the combined entity to deliver innovative products to our customers, opportunities for our employees and value to our shareholders.

Hawaiian Telcom

The merger with Hawaiian Telcom gives us access to a well-developed, fiber-rich market in Honolulu and to the growing neighbor islands, which aligns with our Network Communications Business strategy to invest strategically in fiber. Hawaiian Telcom, which has covered approximately 67 percent of its operating area with fiber, also provides Cincinnati Bell direct access to Trans-Pacific fiber cable capacity linking Asia and the United States, and exposure to large, data-hungry demographics on both sides of the Pacific Ocean.

As 5G becomes imminent, having additional scale in fiber will provide us with the resources needed to invest and stay ahead of the curve in our industry. In fact, Cincinnati Bell will be one of the best-positioned companies in the United States to meet business and consumer high-speed Internet demand.

Hawaiian Telcom has about 1,300 employees. We expect this transaction will close in the second half of 2018, after which we will be appointing two Hawaiian Telcom directors to Cincinnati Bell's Board of Directors.

OnX Enterprise Solutions

The acquisition of OnX Enterprise Solutions brings added scale, service offerings, and customer diversification to our IT Solutions Business, supporting our transformation to a Hybrid IT provider. OnX Enterprise Solutions has headquarters in New York City and Toronto, and supports more than 2,000 customers across North America and the U.K., including several Fortune 500 companies. This acquisition will allow CBTS to access new customers, and provide additional solutions to existing customers that already depend on our cloud, security and infrastructure services.

OnX Enterprise Solutions operates four wholly-owned data centers and 40 colocation centers internationally. We expect this transaction will close by the beginning of Q4 2017.

Since I am unable to deliver this message personally, I wanted to share my thoughts on what this announcement means for you and the company:

I understand that you will have many questions as we move forward, and we will regularly update you on our progress in the weeks and months ahead. As always, we must organize our company to most efficiently meet the needs of our customers.

In the meantime, please take a moment to reflect on today's news and on our journey together.

During the last four years alone, we:

- Sold the wireless business.

- Spun out and successfully monetized our Cyrus One stake.

- Strengthened the balance sheet.

- Invested in fiber to position the company for growth.

- Reinvigorated the culture through our Values (Humility, Being Inclusive, and Integrity), and our Fundamentals (Simplicity, Collaboration, and Speed.)

Now it's time to leverage our collective expertise, grow with two powerful new partners, and Think Big. There are undoubtedly tough challenges ahead, but for the first time in many years we are on offense. We've earned this opportunity, and I am very proud to be part of this company.

Thanks for everything you do on behalf of Cincinnati Bell.

Leigh Fox

President and Chief Executive Officer
