Report of Independent Registered Public Accounting Firm

To the Plan Administrator
Teleflex 401(k) Savings Plan
Wayne, Pennsylvania

We have audited the accompanying statements of net assets available for benefits of the Teleflex 401(k) Savings Plan (the "Plan") as of December 31, 2016 and 2015, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Teleflex 401(k) Savings Plan as of December 31, 2016 and 2015, and the changes in its net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year), referred to as "supplemental information," as of December 31, 2016, is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental information is the responsibility of the Plan's management. The supplemental information has been subjected to the audit procedures applied in the audits of the basic financial statements, and is fairly stated in all material respects in relation to the 2016 financial statements of the Plan as a whole.

TELEFLEX 401(k) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

NOTE A GENERAL DESCRIPTION OF THE PLAN AND SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES

General Description of the Plan

A general description of the Teleflex 401(k) Savings Plan (the "Plan") follows. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan, which was implemented effective July 1, 1985. Certain employees of Teleflex Incorporated (the "Company") or one of its related entities that is a participating employer in the Plan who have attained age 21 are eligible to participate in the Plan. Full-time employees are eligible to enter the Plan at their date of hire. Part-time employees require one year and 1,000 hours of service before they are eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Plan includes an employee stock ownership plan (ESOP) feature, as defined in Section 4975(e)(7) of the Internal Revenue Code of 1986, as amended (Code). The ESOP feature permits a participant to elect to have any dividend to be paid on the shares of Company common stock allocated to his or her account be either paid in cash or deposited into his or her account in the ESOP portion of the Plan and reinvested in the Company common stock fund.

Except with respect to certain union employees, the Plan is intended to satisfy the requirements to be a "qualified automatic contribution arrangement" or "QACA," within the meaning of Code Sections 401(k)(13) and 401(m)(12) and the treasury regulations and other guidance issued thereunder, and an "eligible automatic contribution arrangement" or "EACA," within the meaning of Code Section 414(w) and the treasury regulations and other guidance issued thereunder. The QACA is a safe harbor plan design that allows the Plan to automatically satisfy the actual deferral percentage (ADP) and actual contribution percentage (ACP) tests. The EACA permits a penalty-free distribution of "accidental" automatic deferrals made to the Plan within 90 days of the effective date of a participant's first automatic contribution.

Contributions - Participants were able to contribute up to the lesser of \$18,000 or 50% of their annual compensation, during 2016 and 2015. These contributions are referred to as "elective deferral contributions" and are withheld from participant's pay on a pre-tax basis for federal income tax and most state income tax purposes. However, participants may designate all or part of their elective deferral contributions as "Roth elective deferral contributions." Roth elective deferral contributions are made on an after-tax basis for federal income tax purposes. The employer matching contributions equal 100% of the employees' elective deferral contributions (including Roth elective deferral contributions) up to 5% of compensation up to a maximum of \$265,000 during 2016 and 2015.

In addition, participants who reach age 50 or older and contribute the maximum permitted under the Plan may make an additional pre-tax contribution (a "catch-up contribution") of up to \$6,000 during 2016 and 2015. As with regular elective deferral contributions, participants may elect to designate all or part of their catch-up contributions as after-tax "Roth catch-up contributions." Participants may also contribute amounts representing distributions from other qualified benefit plans (via a rollover into the Plan).

Participant Accounts - Each participant's account is credited with the participant's contribution and the employer matching contribution, as well as an allocation of Plan earnings. Participants may access their accounts via a website and toll-free telephone number. Fund transfers and investment election changes may be elected daily, except for the Company common stock fund, which restricts exchanges to once in a 60-day timeframe. A participant may stop, start, or change their 401(k) salary deferral rate at will.

Plan Loans - Active employees may elect to take up to two loans from the Plan at any given time. As required by law, a loan amount is limited to the lesser of \$50,000 or 50% of the participant's vested

-4-

TELEFLEX 401(k) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

account and must be repaid within five years unless the loan is for the purchase of a primary residence. Loan repayments are processed via payroll deduction on an after-tax basis. The entire unpaid balance on any outstanding loan and all interest due thereon will be processed as a taxable distribution and will reduce the participant's distributable account balance if any of the following occur: (i) a participant fails to make an installment payment due under the loan by the last day of the calendar quarter following the calendar quarter in which the required installment payment was due; (ii) a participant on a leave of absence has an unpaid amount for a period of a year; or (iii) a participant incurs a severance from employment.

Vesting - Participants are always 100% vested in their own 401(k) elective deferral contributions. With the exception of certain employer matching contributions that become 100% vested after three years of employment, the employer matching contributions made on or after January 1, 2009, become 100% vested after two years of employment.

Payment of Benefits - The Plan provides that a participant may elect to withdraw 100% of his or her vested account balance at termination of employment. A participant may also elect to withdraw 100% of his or her vested account balance after attainment of age 59 1/2. In addition, a participant may elect a hardship withdrawal, as defined by the Plan, of his or her elective deferral contributions, Roth elective deferral contributions, catch-up contributions and Roth catch-up contributions. A participant may elect to withdraw his or her rollover account at any time.

Forfeitures - Forfeitures of terminated participants' nonvested accounts are used to pay Plan expenses and reduce the amount of future contributions required to be made to the Plan by the Company and the other participating employers in the Plan. The amount of unallocated forfeitures at December 31, 2016 and 2015 were \$91,682 and \$56,847, respectively.

Plan termination - Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan at any time, subject to the provisions set forth in ERISA. In the event of Plan termination, distribution of participant accounts shall be in accordance with ERISA and its applicable regulations and Article V of the Plan document.

Significant Accounting Policies

The significant accounting policies of the Plan employed in the preparation of the accompanying financial statements follow:

Investments - Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers several mutual funds, a common collective trust, as well as the Company common stock fund as investment options for participants.

Valuation of investments - The Plan's investments are stated at fair value, except for fully benefit responsive investment contracts, pursuant to the provisions of Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) No. 820, Fair Value Measurements and Disclosures. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for further information on fair value measurements.

The Vanguard Retirement Savings Trust IV, which is a fully benefit responsive investment contract, is reported at contract value. Contract value is the relevant measurement attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. See Note F for further information on fully benefit responsive investment contracts.

TELEFLEX 401(k) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

Participant Loans Receivable - All transactions are measured at their unpaid principal balance plus any accrued but unpaid interest. Any individual credit risk related to participant loans is mitigated by the fact that these loans are secured by the participant's vested balance. If a participant were to default, the participant's account balance would be offset by the unpaid balance of the loan, and the participant would be subject to tax on the unpaid loan balance. As such, the participant is the only party affected in the event of a default.

Revenue Recognition and Method of Accounting - All transactions are recorded on the accrual basis. Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Capital gain distributions are included in dividend income. Realized gains or losses on security transactions are determined using the average cost of securities sold on the trade date. Expenses are recorded as incurred.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

NOTE B ADMINISTRATION OF THE PLAN

The Plan is administered by a committee of at least three members appointed by the Company's Board of Directors. The committee is the Plan Administrator and fiduciary for ERISA purposes. The Board of Directors of the Company appointed Vanguard Fiduciary Trust Company (Vanguard) as trustee of the Plan effective September 30, 2004. Vanguard is also the third-party administrator for the Plan and charges a per participant fee for the administrative services that it provides to the Plan. The Company and the other participating employers in the Plan pay this fee for participants who are actively employed by the Company or one of its related entities that is a participating employer in the Plan. Participants who are not actively employed by the Company or one of its related entities that is a participating employer in the Plan pay the per participant administrative fee from their Plan accounts. Investment management fees charged by each mutual fund are netted against returns. Investment management fees charged by the Vanguard Retirement Savings Trust IV, which is a common collective investment trust, are charged to participants with balances in that trust.

NOTE C TAX STATUS OF THE PLAN

The Plan obtained its latest determination letter on August 4, 2015, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Service Code.

Accounting principles generally accepted in the United States of America require the Plan's management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions by the Plan and has concluded that as of December 31, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan is no longer subject to income tax examinations for years prior to 2013.

NOTE D RELATED PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

The Plan participants invest in shares of registered investment companies and a collective trust fund managed by affiliates of Vanguard or the trustee. The Plan participants also invest in shares of the Company's stock through the Teleflex Incorporated common stock fund. The common stock fund held approximately 471,000 and 506,000 shares of the Teleflex Incorporated common stock as of December 31, 2016 and 2015, respectively, representing 21% of Plan assets in both years. These transactions,

-6-

TELEFLEX 401(k) SAVINGS PLAN
 NOTES TO FINANCIAL STATEMENTS
 December 31, 2016 and 2015

in addition to participant loan receivables, qualify as party-in-interest transactions and are exempt from the prohibited transactions rules.

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee received compensation from the Plan.

NOTE E FAIR VALUE MEASUREMENTS

FASB ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - inputs to the fair value measurement that include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - inputs to the fair value measurement that are unobservable inputs for the asset or liability.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

A summary by level within the fair value hierarchy (as defined above) of the Plan's investments measured at fair value on a recurring basis is as follows:

| | Level 1 | Level 2 | 12/31/2016 |
|---------------------------------|---------------|--------------|---------------|
| Registered investment companies | \$236,306,387 | \$— | \$236,306,387 |
| Company common stock fund | — | 76,235,903 | 76,235,903 |
| Total | \$236,306,387 | \$76,235,903 | \$312,542,290 |

| | Level 1 | Level 2 | 12/31/2015 |
|---------------------------------|---------------|--------------|---------------|
| Registered investment companies | \$216,760,926 | \$— | \$216,760,926 |
| Company common stock fund | — | 66,683,379 | 66,683,379 |
| Total | \$216,760,926 | \$66,683,379 | \$283,444,305 |

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and December 31, 2015.

Registered investment companies are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year end.

The Company common stock fund is valued at the combined market value of the underlying stock

-7-

TELEFLEX 401(k) SAVINGS PLAN
 NOTES TO FINANCIAL STATEMENTS
 December 31, 2016 and 2015

based upon the closing price of the stock on its primary exchange times the number of shares held and the short-term cash component at year end.

NOTE F VANGUARD RETIREMENT SAVINGS TRUST IV

A portion of the Plan's investments are in the Vanguard Retirement Savings Trust IV (the "common collective trust"). The underlying investments in the common collective trust are primarily in a pool of investment contracts that are issued by insurance companies and commercial banks and in contracts that are backed by high-quality bonds, bond trusts and bond mutual funds. These contracts meet the fully benefit responsive investment contract criteria and therefore are presented at contract value. The contract value is based on the net asset value of the fund as reported by Vanguard, the trustee, and is determined based on the units of the common collective trust fund held by the Plan at year end times the respective unit value. Investment contracts include traditional guaranteed investment contracts (GICs), synthetic investment contracts (SICs) including wrapper contracts, and short term investments such as a money market fund. The following represents the disaggregation of investments by type of investment contract included in the common collective trust:

| | 2016 | 2015 |
|---------------------------------|------------|------------|
| Guaranteed investment contracts | 1,233,301 | 886,949 |
| Synthetic investment contracts | 34,284,401 | 31,859,034 |
| Short term investments | 2,086,332 | 1,306,978 |
| Other (liabilities) assets | (193,719) | 83,736 |
| Investments, at contract value | 37,410,315 | 34,136,697 |

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment in the Vanguard Retirement Savings Trust at contract value daily without any redemption notice or restrictions. Plan level initiated transactions require a twelve month redemption notice in order to withdrawal at contract value. Plan level initiated transactions with less than a twelve month redemption notice may incur an adjustment to contract value. In determining the net assets available for benefits, the Vanguard Retirement Savings Trust is included in the financial statements at contract value. Contract value represents contributions made under the contracts, plus earnings, less withdrawals.

The existence of certain conditions can limit the trust's ability to transact at contract value with issuers of its investment contracts. Specifically, any event outside the normal operation of the Trust that causes a withdrawal from an investment contract may result in a negative market value adjustment with respect to the withdrawal. Examples of such events include, but are not limited to, partial or complete legal termination of the trust or a unitholder, tax disqualification of the trust or unitholder, and certain trust amendments if issuers' consent is not obtained. As of December 31, 2016, the occurrence of an event outside the normal operation of the trust that would cause a withdrawal from an investment contract is not considered to be probable.

In general, issuers may terminate the contract and settle at other than contract value if there is a change in the qualification status of a participant, employer, or plan, a breach of material obligations under the contract and misrepresentation by the contract holder, or failure of the underlying portfolio to conform to the pre-established investment guidelines.

NOTE G RISKS AND UNCERTAINTIES

Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
