The Company’s principal line of business and source of revenue has been earnings on investment and interest on notes receivable. However, during 2010 and 2011 the Company purchased certain parcels of land and has since engaged in the business of investing in real estate for potential future sale or development.

Basis of presentation

The accompanying unaudited financial statements have been prepared in accordance with the instructions to Form 10-Q and Article 10 of Regulation S-X. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States, or GAAP, have been condensed or omitted in accordance with such rules and regulations, although management believes the disclosures are adequate to prevent the information presented from being misleading. In the opinion of management, all adjustments (consisting of normal recurring matters) considered necessary for a fair presentation have been included. Certain 2011 balances have been reclassified to conform to the 2012 presentation.

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of the federal securities laws. We caution investors that any forward-looking statements presented in this report, or which management may make orally or in writing from time to time, are based on beliefs and assumptions made by, and information currently available to, management. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated or projected by the forward-looking statements. We caution you that while forward-looking statements reflect our good-faith beliefs when we make them, they are not guarantees of future performance and are impacted by actual events when they occur after we make such statements. Accordingly, investors should use caution in relying on forward-looking statements, which are based on results and trends at the time they are made, to anticipate future results or trends.

##### Results of Operations

The following discussion is based on our Statement of Operations within our Financial Statements as presented in Part 1, Item 1 of this report for the three months ended March 31, 2012 and 2011. The discussion is not meant to be an all inclusive discussion of the changes within our operations. Instead, we have focused on the significant items relevant to obtain an understanding of the changes in our operations.

The results of operations for the three months ended March 31, 2012, are not necessarily indicative of the results that may be expected for other interim periods or for the full fiscal year.

Our sole source of income is from the interest received on affiliated receivables. The principal balances on those receivables have been consistent for the past years, thus making our revenues consistent from year to year. Expenses are primarily related to professional and administrative fees and interest on affiliated notes and notes from land purchases.

Comparison of the three months ended March 31, 2012 to the same period ended 2011.

We reported a net loss applicable to common shareholders of (\$107,284) for the three months ended March 31, 2012 as compared to a net loss to common shareholders of (\$56,281) for the same period ended 2011.

This increase in net loss was primarily due to the interest incurred on notes payable as a result of the land purchases as compared to the period ended 2011.

## Liquidity and Capital Resources

### General

Our principal liquidity needs for the next twelve months are funding of normal recurring expenses including interest expense and legal and administrative fees.

Our principal source of cash is proceeds from interest income on our notes receivables.

The following significantly impacted our balance sheet as of March 31, 2012:

- Our accounts payables and accrued interest – affiliates increased due to unpaid interest expense.

## ITEM 3.

### CONTROLS AND PROCEDURES

#### (a) Evaluation of Disclosure Controls and Procedures.

As of the end of the period covered by this report, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Financial Officer and Acting Principal Executive Officer of the Company's disclosure controls and procedures pursuant to Exchange Act Rules 13a-15 and 15d-15. Based upon that evaluation, the Company's Chief Financial Officer and Acting Principal Executive Officer concluded that the Company's disclosure controls and procedures are effective in timely alerting him to material information relating to the Company required to be included in the Company's periodic SEC filings.

#### (b) Changes in Internal Controls over Financial Reporting.

There have been no changes in the Company's internal controls over financial reporting during the quarter ended March 31, 2012, that have materially affected or are reasonably likely to materially affect the Company's internal controls over financial reporting.
