Item 5. Market for Common Equity and Related Stockholder Matters

Market Information

There is a limited public market for our common shares. Our common shares are not quoted on the OTC Bulletin Board at this time. Trading in stocks quoted on the OTC Bulletin Board is often thin and is characterized by wide fluctuations in trading prices due to many factors that may be unrelated to a company's operations or business prospects. We cannot assure you that there will be a market in the future for our common stock.

OTC Bulletin Board securities are not listed or traded on the floor of an organized national or regional stock exchange. Instead, OTC Bulletin Board securities transactions are conducted through a telephone and computer network connecting dealers in stocks. OTC Bulletin Board issuers are traditionally smaller companies that do not meet the financial and other listing requirements of a regional or national stock exchange.

As of January 31, 2012, no shares of our common stock have traded.

Number of Holders

As of January 31, 2012, the 5,300,000 issued and outstanding shares of common stock were held by a total of 25 shareholders of record.

Dividends

No cash dividends were paid on our shares of common stock during the fiscal years ended January 31, 2011 and 2012. We have not paid any cash dividends since our inception and do not foresee declaring any cash dividends on our common stock in the foreseeable future.

Recent Sales of Unregistered Securities

Item 6. Selected Financial Data

Not applicable.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with our financial statements, including the notes thereto, appearing elsewhere in this annual report. The following discussion contains forward-looking statements that reflect our plans, estimates and beliefs. Our actual results could differ materially from those discussed in the forward looking statements. Our audited financial statements are stated in United States Dollars and are prepared in accordance with United States Generally Accepted Accounting Principles.

RESULTS OF OPERATIONS

We have incurred recurring losses to date. Our financial statements have been prepared assuming that we will continue as a going concern and, accordingly, do not include adjustments relating to the recoverability and realization of assets and classification of liabilities that might be necessary should we be unable to continue in operation.

We expect we will require additional capital to meet our long term operating requirements. We expect to raise additional capital through, among other things, the sale of equity or debt securities.

FISCAL YEAR ENDED JANUARY 31, 2011 COMPARED TO FISCAL YEAR ENDED JANUARY 31, 2012.

Our net loss for the fiscal year ended January 31 2012 was \$10,417 compared to a net loss of \$3,996 during the fiscal year ended January 31, 2011. During fiscal year ended January 31, 2012, the Company generated \$1,000 in revenue.

During the fiscal year ended January 31, 2012, we incurred general and administrative expenses of \$294 and amortization expense of \$314 compared to administrative expenses of \$6 incurred during fiscal year ended January 31, 2011. These expenses incurred during the fiscal year ended January 31, 2012 consisted of: bank charges and interest of \$34 (2011: \$-240); transfer agent fees of \$0 (2010: \$0); professional fees of \$10,200 (2011: \$-3,750); advertising and website development charges of \$575 (2011: \$0).

Expenses incurred during fiscal year ended January 31, 2012 compared to fiscal year ended January 31, 2011 increased primarily due to the increased scale and scope of business operations. General and administrative expenses generally include corporate overhead, financial and administrative contracted services, marketing, and consulting costs.

The weighted average number of shares outstanding was 5,300,000 for the fiscal year ended January 31, 2012 compared to 3,809,756 for the fiscal year ended January 31, 2011.

LIQUIDITY AND CAPITAL RESOURCES

FISCAL YEAR ENDED JANUARY 31, 2012

As of January 31, 2012, our total assets were \$15,112 comprised of current assets \$14,246 and property equipment \$866 and our total liabilities were \$4,525 comprised of \$4,500 accrued expenses and \$25 loan from shareholder.

As of January 31, 2011, our total assets were \$21,029 comprised of cash and cash equivalents. Stockholders equity decreased from \$21,029 as of January 31, 2011 to \$15,112 as of January 31, 2012.

Cash Flows from Operating Activities

We have not generated positive cash flows from operating activities. For the fiscal year ended January 31, 2012, net cash flows used in operating activities was (\$5,603) consisting of a net loss of (\$10,417); increase in accrued expenses of \$4,500; and increase in amortization \$314. For the fiscal year ended January 31, 2011, net cash flows used in operating activities was (\$3,996). Net cash flows used in operating activities was (\$9,599) for the period from inception (April 19, 2010) to January 31, 2012.

Cash Flows from Financing Activities

We have financed our operations primarily from either advancements or the issuance of equity and debt instruments. For the fiscal year ended January 31, 2012, net cash from financing activities was \$0. For the fiscal year ended January 31, 2011, net cash from financing activities was \$25,025 consisting of \$25,000 of proceeds received from issuances of common stock and \$25 in loan from a director. For the period from inception (April 19, 2010) to January 31, 2012, net cash provided by financing activities was \$25,025 consisting of \$25,000 of proceeds received from issuances of common stock and \$25 in loan from a director.

PLAN OF OPERATION AND FUNDING

We expect that working capital requirements will continue to be funded through a combination of our existing funds and further issuances of securities. Our working capital requirements are expected to increase in line with the growth of our business.

Existing working capital, further advances and debt instruments, and anticipated cash flow are expected to be adequate to fund our operations over the next six months. We have no lines of credit or other bank financing arrangements. Generally, we have financed operations to date through the proceeds of the private placement of equity and debt instruments. In connection with our business plan, management anticipates additional increases in operating expenses and capital expenditures relating to: (i) acquisition of software; (ii) developmental expenses associated with a start-up business; and (iii) marketing expenses. We intend to finance these expenses with further issuances of securities, and debt issuances. Thereafter, we expect we will need to raise additional capital and generate revenues to meet long-term operating requirements. Additional issuances of equity or convertible debt securities will result in dilution to our current shareholders. Further, such securities might have rights, preferences or privileges senior to our common stock. Additional financing may not be available upon acceptable terms, or at all. If adequate funds are not available or are not available on acceptable terms, we may not be able to take advantage of prospective new business endeavors or opportunities, which could significantly and materially restrict our business operations.

MATERIAL COMMITMENTS

As of the date of this Annual Report, we do not have any material commitments.

PURCHASE OF SIGNIFICANT EQUIPMENT

We do not intend to purchase any significant equipment during the next twelve months.

OFF-BALANCE SHEET ARRANGEMENTS

As of the date of this Annual Report, we do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors.

GOING CONCERN

The independent auditors' report accompanying our January 31, 2012 and January 31, 2011 financial statements contains an explanatory paragraph expressing substantial doubt about our ability to continue as a going concern. The financial statements have been prepared "assuming that we will continue as a going concern," which contemplates that we will realize our assets and satisfy our liabilities and commitments in the ordinary course of business.

Report of Independent Registered Public Accounting Firm

To the Board of Directors of

Pinnacle Enterprise Inc.

Henderson, Nevada

We have audited the accompanying balance sheets of Pinnacle Enterprise Inc. (the Company) as of January 31, 2012 and 2011, and the related statements of operations, stockholders' equity, and cash flows for the periods then ended and the period from April 19, 2010 (Date of Inception) through January 31, 2012. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Pinnacle Enterprise Inc. as of January 31, 2012 and 2011 and the results of its operations and its cash flows for the

periods then ended and the period from April 19, 2010 (Date of Inception) through January 31, 2012 in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 9 to the financial statements, the Company has negative working capital, has not yet received revenue from sales of products or services, and has incurred losses from operations. These factors raise substantial doubt about the Company's ability to continue as a going concern. Management's plans with regard to these matters are described in Note 9. The accompanying financial statements do not include any adjustments that might result from the outcome of this uncertainty.

None.

Item 9A(T). Controls and Procedures

Management's Report on Disclosure Controls and Procedures

Management is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Exchange Act Rule 13a-15(f)). The Company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with accounting principles generally accepted in the United States of America. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. Under the supervision and with the participation of management, including the Chief Executive Officer and Chief Financial Officer, the Company conducted an evaluation of the effectiveness of the Company's internal control over financial reporting as of January 31, 2012 using the criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO").

A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the Company's annual or interim financial statements will not be prevented or detected on a timely basis. In its assessment of the effectiveness of internal control over financial reporting as of January 31, 2012, the Company determined that there were control deficiencies that constituted material weaknesses, as described below.

1.

We do not have an Audit Committee. While not being legally obligated to have an audit committee, it is the management's view that such a committee, including a financial expert member, is an utmost important entity level control over the Company's financial statement. Currently the Board of Directors acts in the capacity of the Audit Committee, and does not include a member that is considered to be independent of management to provide the necessary oversight over management's activities.

2.

We did not maintain appropriate cash controls. As of January 31, 2012, the Company has not maintained sufficient internal controls over financial reporting for the cash process, including failure to segregate cash handling and

accounting functions, and did not require dual signature on the Company's bank accounts. Alternatively, the effects of poor cash controls were mitigated by the fact that the Company had limited transactions in their bank accounts.

3.

We did not implement appropriate information technology controls. As at January 31, 2012, the Company retains copies of all financial data and material agreements; however there is no formal procedure or evidence of normal backup of the Company's data or off-site storage of data in the event of theft, misplacement, or loss due to unmitigated factors.

Accordingly, the Company concluded that these control deficiencies resulted in a reasonable possibility that a material misstatement of the annual or interim financial statements will not be prevented or detected on a timely basis by the company's internal controls.

As a result of the material weaknesses described above, management has concluded that the Company did not maintain effective internal control over financial reporting as of January 31, 2012 based on criteria established in Internal Control - Integrated Framework issued by COSO.

Changes in Internal Control over Financial Reporting

There has been no change in our internal control over financial reporting identified in connection with our evaluation we conducted of the effectiveness of our internal control over financial reporting as of January 31, 2012, that occurred during our fourth fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

This annual report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to temporary rules of the SEC that permit the Company to provide only management's report in this annual report.
