## Forward-Looking Statement

Statements in this presentation regarding the company's or management's intentions, beliefs or expectations, or that otherwise speak to future events, including resource estimates, production rate estimates, development schedule and cost estimates, are forward-looking statements within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. Matters discussed in these statements involve risks and uncertainties which may cause results to differ materially from those set forth in these statements. The following factors, among others, could cause actual results to differ from those set for in these forward-looking statements: the ability to obtain governmental approvals of the merger on the proposed terms and schedule; the failure of Kerr-McGee or Westport Resources stockholders to approve the merger; the risk that the businesses will not be integrated successfully; the risk that the cost savings and any synergies from the merger may not be fully realized or may take longer to realize than expected; disruption from the merger making it more difficult to maintain relationships with customers, employees or suppliers; the accuracy of the assumptions that underlie the statements, the success of the oil and gas exploration and production program, the price of oil and gas, drilling risks, uncertainties in interpreting engineering data, demand for consumer products for which Kerr-McGee's oil and gas business supplies raw materials, the financial resources of competitors, changes in laws and regulations, the ability to respond to challenges in international markets, including changes in currency exchange rates, political or economic conditions in areas where Kerr-McGee operates, trade and regulatory matters, general economic conditions, and other factors and risks identified in the Risk Factors sections of Kerr-McGee's Annual Report on Form 10-K and Westport Resources' Annual Report on Form 10-K as well as other of their SEC filings.

The SEC permits oil and gas companies, in their filings with the SEC, to disclose only proved reserves. We use certain terms in this presentation, such as probable and possible reserves, that the SEC's guidelines strictly prohibit us from including in filings, with the SEC. Investors are urged to consider closely the disclosures and risk factors in Kerr-McGee's Forms 10-K and 10-Q, File No. 1-16619, available from its offices or web site, [www.kerr-mcgee.com](http://www.kerr-mcgee.com), and in Westport Resources' Forms 10-K and 10-Q, File No. 1-14256, available from its offices or web site, [www.westportresourcescorp.com](http://www.westportresourcescorp.com). You can also obtain these forms from the SEC by calling 1-800-SEC-0330.)
